retrospective chart review of psychosocial assessment & care, infants hospitalized for nonorganic failure to thrive, 1945
smiling & sitting & crawling behavior development, infants, Uganda vs Kenya vs US, 1017
social bond & development of infant attachment, several comments on article by D. W. Rajecki et al & their response, 1052
unphysiological infant handling procedures, 968
within family environmental influences, social responsiveness, infant twins, 1085
Infant Vocalization
cognitive analysis of babbling, male infant, 998
delayed interval testing, identification of infants' cry signals, 18–30 yr old college students, 11729
duration in communication by cries, infants, 3380
pre-meaningful vocalizations, normal vs Down's syndrome 9–13 mo olds, 10613
sensorimotor & language development, 12–19 mo old nonretarded infants vs 24–38 mo old Down's syndrome children of the same developmental age, 8251
Infanticide
environmental stress, infanticide, gray langur monkeys, criticism of S. B. Hrdy, 2905
Infantile Psychosis [See Childhood Psychosis]
Infantilism
etiology & symptoms of early childhood minimal brain dysfunction, 13088
Infants [See Also Neonates]
ability to discriminate between mother's vs stranger's photographs, 3 mo olds, 10017
ability to perceive abstract similarities between paired visual & auditory stimuli, 6–14 mo olds, 10122
affective attachment to deceased & personality change, mothers who had experienced recent vs distant loss of infant, 8081
age, mean length of utterance in morphemes, 17–59 mo olds, 10083
age at treatment inception & nutritional enrichment & sensorimotor & cognitive stimulation, psychomotor development, severely malnourished 3.3–13.3 mo olds, 6493
age at which prism experienced, prism induced aftereffects, 6–9 mo olds, longitudinal study, 10081
age differences, affective response to repeated event, Down's syndrome mean age 9.8 mo vs 20.2 mo olds, 10596
age differences, object sorting & preference, 6–12 mo olds, 10109
age differences, organization of sensorimotor intelligence, 14 vs 18 vs 22 mo olds, 12558
age differences, separation anxiety & stranger anxiety, 6–54 mo olds, implications for most desirable age to begin nursery school, 2146
age & intellectual experiences at home & in day care provided by caregivers vs child with emphasis on language mastery, performance on intelligence tests at age 3, 1–3 yr olds, 989
age of child, gaze patterns, mothers & their 6 vs 20 vs 36 mo old children, 3521
age of infant & context, maternal speech characteristics, Down's syndrome 3.7–17 mo old & his mother, longitudinal study, 8236
age segregation in social interactions, 1–12 yr olds, 7863
age & sensorimotor development & task difficulty, language comprehension on tasks measuring understanding of semantic & syntactic relationships, 10–21 mo olds, 1026
allergic factors, autonomy & self assertion in mother-child relationship, 14–30 mo old asthmatic children, 13103
amplitude & latency & interwave differences & ratios of brainstem auditory evoked potentials, preterm vs high risk vs healthy infants, 9799
appropriateness of crib & playpen toys, 3292
assessment & comparison to maternal care attributes, coping behavior, 1 yr olds, 7868
associative learning vs discriminative learning theses vs acquired value of relational stimulus of similarity, theories of imitation learning in infancy, 5518
attachment behavior toward mothers vs teachers, 9–31 mo old Black infant-daycare-reared children, 12662
auditory & visual feedback, contact & manipulative activity with play materials, normal 1–2 yr olds vs mentally retarded 3–16 yr olds functioning at 1–2 yr old stage, 1549
autonomic nervous system imbalance & resultant temperamental traits, chronic nonspecific diarrhea, 7 mo to 3.5 yr olds, 6184
behavioral analysis, explanation for exploratory behavior, infants & animals, 9626
brief behavioral intervention therapy in home, concentration & cooperation & sleep, behaviorally disturbed 14–36 mo olds, 1768

cerebral gigantism, social & emotional implications, female 23 mo old, 10701
changing orientation, perception of structure & form, 110–130 day old males, 3300
color of cover, ability to visually track hidden objects, 244–270 day olds vs 271–304 day olds, 10048
color perception, infants, criticism of study by J. S. Werner & B. R. Wooten, 12483
community mental health clinic services, infants & toddlers up to 3 yrs of age, 10981
conceptional age differences, observable behavior during neurological examination, premature infants of conceptual age 29–40 wks, 9997
concept of containment in search tasks, 9.5–15 mo old infants, 5490
concordance of mental development, same- vs opposite-sex dizygotic twins from 3 mo through 6 yrs old, 12563
contextual effects, speech perception, infants, 3320
contrasts cued by steady state vs spectral information, discrimination of minimally paired sounds, mentally retarded 3 yr olds vs normal 7 mo olds, 1537
cortical visual evoked responses, development of binocular visual cortex, infants aged 4 wks to 8 mos, 10026
counseling, parents of sudden infant death syndrome children, 1933
cross cultural differences, early childhood development & childrearing practices, European-American vs Chinese children from birth to 3 yrs old, US vs Hong Kong, comparison of longitudinal studies, 12565
cued discrimination of visual stimuli & subsequent reactivation with positive vs negative stimulus, long term retention, 78–92 day olds, 3321
detailed vs general cues, differential retention of learning, 3 mo olds, 10096
deterioration vs improvement in maternal care following adoption, adaptation disturbance, newborns to 2 wk olds, 5663
developmental differences, effect of meaningfulness of modeled acts with socially appropriate vs inappropriate object on imitation, 7.5 vs 10 vs 16 vs 22 mo olds, 7805
developmental structuralist approach, classification of adaptive & pathological personality organizations, infants & children, 12585
development in structure & content & function of mother's questions & infant responses, 16–19 mo old infant & his mother, 5658
development of "bad mother" concept, mother-child relationship & childhood asthma, mothers & asthmatic children observed at 14–30 mo & 4–6 yrs of age, 1578
development of binocular discrimination, 8–13 wk old infants, 7800
development of eye contact with mother, normal vs Down's syndrome infants during 1st 6 mo of life, 13058
development of negative reactions to strangers, infants, 12614
development of negatives in language, logical denial, 18–36 mo olds, 1031
development of object permanence, 8–24 mo old humans vs 18 & 30 mo old chimpanzees, 1049
development of Toddler Temperament Scale, ratings of temperament characteristics, mothers of 1–3 yr olds, longitudinal study, 7077
development of vehicle & animal & fruit language categories, 1–1.7 yr olds, 10093
development & reliability of Infant & Preschool Reinforcement Survey, identification of reinforcers used in treatment programs for handicapped children, implications for school psychologists, 9337
differential development, brainstem auditory evoked potentials, normal vs high-risk infants for birth- or pregnancy-related CNS damage, prognostic implications, 8367
discrimination between familiar vs unfamiliar faces, 3 mo olds, 10018
discrimination of vertical vs horizontal symmetrical vs asymmetrical forms, 4 mo olds, 10040
discussion of cognitive assessment practices, physically handicapped infants, 7070
display simulating oncoming rotating rectangle, head withdrawal, 13–27 day old infants, 10035
distinction among mechanisms used for joint visual attention, 6–18 mo olds & their mothers, 5480
diverse interpretations of game between adults & 1–3 yr olds, 7894
early intervention program, assessment of observable skills & behaviors at 2–48 mo, developmentally disabled children, 8422
early psychosocial support in inner city family health centers, low-income parents & infants, 10988
ecological variables & examiner biases, clinical assessment, developmentally handicapped 1–5 yr olds & female college students, 5906
eliciting contexts, rhythmical stereotyped behavior, normal infants less than 1 yr old, 12472
estradiol & progesterone & nipple development & presence of young, postpartum aggression, female rats & mice, 637
experience with infants, knowledge of infant care, unmarried female college students, 3526
facial screening, self injury, 11 mo old mildly microcephalic severely retarded male, 6363
familiar vs novel large vs smaller approaching & receding objects, size constancy perception, 16.1–19.6 wk olds, 12490
fetal development & malformations, children born to mothers denied legal abortions, 8307
fetal development & mortality & height & weight development through age 12, children of mothers refused legal abortion, 7742
fixation to visual targets & associated auditory stimulation, measurement of auditory selectivity, 57–158 day olds, 12488
FORTRAN computer program for scoring Infant Temperament Questionnaire, 4–8 mo olds, 4690
free play behavior, 7.5–21 mo olds, 12566
frequency of contrast reversal in checkered displays, interaction of temporal & spatial functions in pattern evoked cortical potentials, 7–26 wk olds vs 20–47 yr olds, 5513
genetic factors, etiology of personality traits, pairs of twins 1–7 yrs old, longitudinal study, 12606
head shape of infants, perception of cuteness, college students, 12782
high vs low probability visual stimulation, late positive component of evoked cortical potential, 3 mo olds, 12504
hospital visits with mother following childbirth, behavior after mother's return home, 1–3.5 yr old firstborn siblings of newborns, 10198
individual differences, use of consonants during early phonological development, Ss aged 1 yr 4 mo–1 yr 10 mo, 5505
individual differences in maternal conversational input, acquisition of syntax, children, 1030
infant astigmatism & disappearance with age, 1 mo to 3 yr olds, 10645
infant behavioral expressiveness & morphological appearance, adult perceptions of infant appearance, literature review, implications for parent-infant relations, 8033
infant behavior ratings & concurrent & subsequent mental test scores, Mexican American infants at 12 & 24 & 36 mo of age, 12522
infant death, rural families, 3464
infant-mother attachments, personality & social development, infants, 3456
infants' biobehavioral state & CS-CR specificity & simple vs complex conditioning procedures & individual differences, classical conditioning in infancy, literature review, 5489
infant studies, implications for psychoanalysis, American Psychoanalytic Association panel presentation, 6275
infant tests & home stimulation score, prediction of language & cognitive development, 4 mo to 2 yr olds, longitudinal study, 9413
instinctual drives, progression from symbiotic to separation-individuation phase, children from birth to 3 yrs old, longitudinal studies, 5572
intellectual & language & psychomotor development, male child with agenesis of corpus callosum & megaloencephaly from age 6–34 mo, 10739
interaction between mother & firstborn child before vs after birth of sibling, mothers & their 18–43 mo old firstborns, 1152
interaction quality at 2 mo, attachment security at 7 mo, father-infant dyads, longitudinal study, 7856
interrelationships of biomedical & environmental & developmental variables, Down's syndrome children followed from birth to 36 mo, 8265
Lamaze vs conventional childbirth methods, attitudes toward child & spouse & birth experience, new parents, 5646
language disorders diagnosed at 8–60 mo of age, subsequent speech & language & academic abilities, 4–10 yr olds at 4–5 yr followups, 8286
limitations of preference methodology for study of auditory–visual coordination, 3 & 7 & 10 mo olds, 7799
masking level, auditory localization responses indicating thresholds for speech signals, 6–24 mo olds vs adults, 10119
maternal sensitivity & vocalization during infant feedings, 6 & 9 mo olds & their mothers, 3547

MA vs CA, symbolic play level, Down's syndrome 1.7–4.4 yr olds, 10599
method of childbirth, social & motor development, 5–9 mo olds, 969
minor physical anomalies & obstetrical history & newborn dopamine-beta-hydroxylase, irritability & unsociable response & activity levels, infants at 5 mo & 1 yr, 12468
mother-infant interactions, longitudinal studies, 3550
mother reports of developmental differences, personality & social behavior, fraternal vs identical twins from birth to 6 yrs old, longitudinal study, 9742
narcissistic traits, severely abused & emotionally disturbed 2 wk through 6 yr olds, 8186
nature of mother-child interaction, child development, 12–30 mo olds & their mothers, longitudinal study, 5647
need for body contact for creation of space & origin of psychomotor problems, neonates & infants, 10697
neurologic development, preterm infants, 9996
nonorganic failure to thrive, infants & children, annotated bibliography, 6174
normative data, brainstem-evoked response audiometry, 33–40 wk old preterm infants, 11575
noun vs syntactic emphasis in language development, 1 yr old female, 1008
numerical skills, 22 wk old infants, 7833
obstetric complications & seasonal variations, births to schizophrenic mothers, Finland, 8185
oral vs tactual familiarization with shape, visual recognition memory & cross-modal transfer, 25.5–32 wk olds, 12543
"pandevelopmental retardation" & genetic history, neurobiologic disorders, pre-schizophrenic infants, literature review, 12910
participation in early education development project, development, Down's syndrome 3–37 mo olds, 8976
peer social interaction, 1st vs 2nd born infants who have preschool age sibling, 7909
perception of elasticity as object property, 3 mo olds, 12560
perception of hue categories including blue & green & yellow & red, 4 mo olds, 5476
personality & parental treatment, behavior problems, children at ages 1–5 yrs, longitudinal study, 13022
pictures of parents vs strangers, social perception & responses, 9–24 mo olds, 12568
pre-meaningful vocalizations, normal vs Down's syndrome 9–13 mo olds, 10613
prenatal narcotic addiction, behavioral concomitants including mental & psychomotor development & irritability of CNS, neonates, 3- & 6- & 12-mo followups, 6054
pre- & perinatal characteristics, victims of Sudden Infant Death Syndrome vs survivors, 10700
presence of inanimate objects, length of interaction with familiar vs unfamiliar peers, 10–14.5 mo olds, longitudinal study, 10166
presence vs absence of mother vs stranger, separation anxiety & exploratory behavior & crying, 1 yr olds, Brazil, replication of M. D. Ainsworth & S. Bell's study, 3408
psychosocial events, atypical bleeding & application of conversion model, 14 mo old male hemophiliac, 3896
public school day care program, children of teenage mothers & pregnant teenagers, 11210
quality of mother-firstborn interactions following sibling birth & sex of firstborn, sibling interaction 14 mo later, 18–43 mo olds & neonate siblings, 3518
random vs repetitive presentation averaged evoked potential technique, measurement of auditory discrimination, 14–18 wk olds, 9768
recognition memory & object permanence & prediction, infants followed from 6 to 11 mo, 10064
repeated demonstration of sensorimotor actions, changes in imitation, 6 mo olds, 6-mo study, 3339
repetition of adult model's utterances, facilitation of spontaneous language acquisition, 9 vs 10 vs 11 mo olds, longitudinal study, 992
retrospective chart review of psychosocial assessment & care, infants hospitalized for nonorganic failure to thrive, 1945
rhythm & development of interactions, newborn infants & their mothers, 10258
rhythmic stereotypies as manifestations of central motor programs, ethological viewpoint, infants, 3390
scale development, assessment of temperament, parents of infants at 3–12 mos, longitudinal study, 9406
secure vs anxiously avoidant vs anxiously resistant attachment to mother, sociability & positive vs negative orientation to peers & mother, 20–23 mo olds, 3447
security of attachment, child's obedience to mother & stranger & internal controls & maternal intervention, 21 mo olds & their mothers, 3433
sensorimotor & language development, 12–19 mo old nonretarded infants vs 24–38 mo old Down's syndrome children of the same developmental age, 8251
sensorimotor training using means-ends & relating to objects schemes, protoimperative & protodeclarative performative communication, 7–9 mo olds, 10111
sex of infant, choice of toys, college students, replication of study by C. Seavey et al, 3582
short vs long wavelength chromatic adaptation, short wavelength spectral sensitivity functions, infants, 1033
sociability & cognitive development, 8 mo olds, 10009
social behavior facilitating developmentally supportive parent-infant interactions, infants, 12583
social behavior while alone vs with interactive vs passive mother vs stranger, 15 vs 30 wk olds, 10142
social sharing with mothers & maternal praise & encouragement, Black 19 mo old lower income infants & mothers, 3426
stability of childrearing attitudes over time, mothers of 8 mo olds, followup when infants 3.5 yrs old, 7962
staff linguistic style & verbal control techniques, day nursery staff & children with mean ages of 1.8 vs 2.7 yrs, 12441
static trapezoidal window, responsiveness to pictorial depth, 20–22 wk olds vs 28–30 wk olds, 10066
statistical analysis of EEG records of febrile convulsions without primary CNS involvement, infants, 3938
suggestions for physician's informative advice to parents of Down's syndrome infants, 6582
superimposed film presentation, selective looking, 3–4 mo olds, 7772
surveillance programs, handicapped infants & preschool children, 6443
temperament as identified by questionnaire & mother's perceptions of temperament, Down's syndrome 6–18 mo olds, 1541
temporal patterns & kind & frequency of mother-child verbalizations, 21 mo olds & their mothers, 12539
unphysiological infant handling procedures, 968
upright vs inverted cups & central vs peripheral positioning & transpositioning, search for hidden objects, 9–14 mo old infants, 10076
visual habituation, cognitive performance, early infancy vs 15 vs 27 vs 39 vs 51 mo olds, 3361
vocalization patterns, hearing impaired vs normal infants, longitudinal observations, 10705
within family environmental influences, social responsiveness, infant twins, 1085

Infants (Animal)

abrupt reductions in reward magnitude with dry food vs milk, successive negative contrast effect & resistance to extinction, preweanling rats of various ages, 12021
acquisition of locomotor passive avoidance response requiring suppression of spontaneous escape reaction, 9–20 day old rats, 2835
acquisition & retention of classical conditioning response, newborn rats, 2833
activation of superior colliculus, eye movements, neonatal kittens, 5328
age, capability to learn & retain active avoidance response, infant mice, 5114
ascending vs descending synthetic maternal calls, preference, aurally isolated wood ducklings, implications for experimental precursors to seemingly instinctive behavior, 9690
auditory stimulation intensity, approach response, neonatal chicks, 5163
auditory & visual stimuli, heart rate orienting response, 8–19 day old rat pups, 12253
background & maternal & infant variables, prediction of survival at 30 days, infant pigtailed macaques, 2911
body marking vs handling, variations in mast cell numbers in brain, preweanling rats, 12394
brain stem motor nuclei, control of ultrasonic vocalizations, 10 day old rat pups, 733
brief presentations of moving imprinting stimulus, temporal patterns of attachment behavior & role of priming effect superimposed on low response probability & possible mediation by opiate peptides, ducklings, 633

cannabis smoke exposure & dietary protein levels before & during pregnancy, length of gestation & stillbirths & litter destruction & pup activity, female rats, 9829
cholinergic & cholinomimetic & cholinergic blocking drugs, ontogeny & potentiation of cholinergically mediated yawning & head shaking, 4–12 day old rats, 892
color & density & frequency of food types, food selection, 5 day old chicks, 5132
complexity of social & physical environments, hippocampus, 6–25 vs 25–55 day old rats, 9777
consumption by mother rats of pups' urine as indicated by transfer of radioactive water from pups to mothers, female rats & offspring, 12117
cytosol & cell nuclear androgen receptors in brain, perinatal female rats, implications for brain sexual differentiation, 2991
day vs night, feeding rhythms, neonatal rats, 7360
developmental changes, contrast sensitivity, infant macaques, 529
development of agonistic behavior vs larval motor processes vs early intraspecific social interactions, newly hatched to 4 mo old blue gourami, 9722
development of alarm calling behavior, vervet monkeys, 12160
development of object permanence, 8–24 mo old humans vs 18 & 30 mo old chimpanzees, 1049
development of predatory behavior in offspring, predatory behavior, mother cats, 7352
dextroamphetamine dose & age of pup, maternal behavior, primiparous rats & their pups, 7681
discrimination between siblings vs nonsiblings, tadpoles separated before hatching & reared alone, 12099
dissolved oxygen concentration & life cycle stage, surfacing behavior & buccal movement, frog tadpoles, 3021
dry vs washed with detergent solution vs anesthetized lambs, recognition of own vs alien lamb, mother Merino ewes, 7342
early development of vocalizations, Peking ducklings prior to hatching vs 48 hrs posthatching, 9717
early experience, development of predatory aggression & defense, cats, 12087
early separation from mother, development & frequency of animal play behavior, kittens, 12095
early vs late infant stimulation, adult schedule-induced polydipsia, rat pups & adults, 7396
enclosure size, stability of activity & sleep cycles, adult vs infant degus, 9683
ethanol administration during gestation vs lactation, maternal behavior & developmental & behavioral & pharmacological characteristics of offspring, female rats, 9925
exposure to prenatal ethanol, organization of infrapyramidal mossy fibers in hippocampus, rat pups, implications for mental retardation in fetal alcohol syndrome, 12411
exposure to unfamiliar neonates & parity, maternal behavior & fluid secretion from nipples, female rhesus monkeys, 12128
food deprivation & warm vs cool ambient vs body temperature, feeding behavior, 3–15 day old rats, 9853
grooming behavior, rat pups & adults, 9715
hashish extract, maternal nonsocial & nursing & locomotor activity & development of sucklings, lactating mice & their pups, 7642
housing with dam vs calf-house, learning ability & urination & defecation frequency, newborn calves, 2830
hydroxyzine treatment at 10–29 vs 23–29 days of age, delayed spontaneous alternation behavior, male rats, implications for pediatric psychopharmacology, 3180
immediate causes & functions, head cocking, newborn to 6.8 yr old marmosets, 12143
incidence of adoption of young by unrelated parents, herring gulls, 12120
independent ingestive behavior & food deprivation dependency, 3–12 day old rats, 641
infant handling, maternal behavior & pup vocalizations & temperature changes, C57BL/6J vs A/J female mice & cross-fostered pups, 9739
interactions between males & infants, macaques, test of agonistic buffering hypothesis, 9676
intergenerational vs postnatal malnutrition, growth & home-orienting behavior & survival rates, rat pups, 9842
isolation at 3 vs 17 vs 25 days of age in comfortable vs uncomfortable conditions, vocalizations indicating separation distress, beagles vs Telomians vs reciprocal F_1 hybrids, 3069
locomotor & begging behavior & position in nest, distribution of food, early vs late hatched nestlings of great tits & black birds & fieldfares, 12158
marihuana extract & alcohol, pregnant rats & offspring, 9909
maternal alcohol administration during lactation, shock avoidance & maze performance & behavioral development & maternal behavior, rat pups, 9917
maternal separation & disruption of attachment, behavioral & physiological changes indicative of depression, macaque monkey infants, 660
maternal &/vs sibling presence vs isolation, hyperactivity produced by neonatal 6-hydroxydopamine, rat pups, implications for human hyperactivity, 12311
metabolism chamber for measurement of oxygen consumption, laboratory rat pups, 105
method for producing infantile malnutrition, maternal behavior, female rats, 9834
monocular occlusion during early life, physiological effects & shift of cortical ocular dominance & recovery as measure of sensitive period of visual cortex, kittens, 836
mother & pup inbreeding, retarded postnatal development, mouse pups, 2961
neonatal exposure to haloperidol, subsequent increases in 5-hydroxyindole in certain parts of brain, 20 day old rats, 3199
neonatal spinal transection, penile vs other reflexes, male rats, 3110
neonatal stress, plasma corticosteroid level & vocalizations & reaction to later stress, lambs, 9707
neonatal thyroxine, classical conditioning, infant rats, 7662
neonatal 6-hydroxydopamine, hyperactivity & avoidance performance, rat pups reared with treated &/or nontreated littermates, 919
number of prepunishment acquisition trials in keypeck & runway tests, age dependency of passive avoidance learning, chicks, 595
ontogenesis of quiet sleep state & thermogenesis & thermoregulation, accompanying EEG activity, 48–79 day old Virginia opossums, 3033
optically induced squint, monocular visual acuity & interocular alignment & cortical ocular dominance, kittens, 696
partial reinforcement, learning of persistence, 10–11 vs 12–13 day old rats, 2842
partial vs continuous reinforcement, speed of running, 18–20 & 52–54 day old rats, 9631
partial vs continuous vs changed reinforcement vs nonreinforcement, speed of acquisition & extinction & transfer on runway task & 2-wk retention, 14–15 day old rats, 2843
peer-infant separation & rewarding brain stimulation, behavior, pigtail macaque & rhesus macaque infants raised in pairs from birth, 3089
phencyclidine administered through gestation, gestation & maternal behavior & characteristics of pups, female mice & their offspring, 3173
postnatal ethanol administration, brain growth & motor coordination, infant rat pups, 877
postnatal exposure to lead acetate, hyperactivity & emotionality, female rats, 884
prehatching stimulation with alarm calls, posthatching heart rate & eye opening & vocalization, chickens, 9726
prenatal decreased oxygen consumption, learning deficits, neonatal ducklings, 9850
prenatal stress, learning ability, rat pups, 12077
presence of placenta vs amniotic fluid on pups, onset of maternal behavior, virgin female rats, 12134
presentation of novel olfactory stimulus while suckling, preference for stimulus, infant rats, 12015
preweaning exposure to enriched environment, subsequent maze learning, female rats & their pups, 578
protein restricted diet during gestation & lactation & maternal removal-replacement, increased emotional responsiveness & decreased mother-kitten social interactions & attachment behavior, cats, 789
pup age & weight & cessation of lactation, cessation of nursing behavior, female hamsters, 669
recognition of & development of chick vocalizations, recognition of own offspring, adult swallows, 12096
recognition of offspring & feeding behavior, adult swallows, 12097
relationship between pup survivorship & number of adult helpers in family unit, jackals, comment on errors in P. D. Moehlman's analysis, 12148
relationship between pup survivorship & number of adult helpers in family unit, jackals, reply to R. D. Montgomerie's criticism, 12147
reserpine & dextroamphetamine & maternal deprivation, hyperactivity & cardiac & respiratory rates & body temperature, rat pups, 9852

retention of habituation & sensitization of forelimb withdrawal response over varied retention intervals, 3–15 day old rat pups, 548
sex differences & development of social behavior, 21–55 day old rat pups, 12142
social density vs individual size vs illumination, parallel structure orientation in schooling, clawed frog tadpoles, 12132
social grooming frequency, mother rank-order, 2–14 mo old female monkeys, 2890
stages of attack behavior development, 14–164 day old kittens, 12086
stimulus color & duration & exposure quality, pecking preferences, neonatal chicks, 5166
sucking behavior, infant mammals, 5137
surgical section of infraorbital nerve, survival & growth & suckling & ingestive behaviors, 17 vs 12 vs 7 vs 1 day old rats, implications for role of tactile processes, 12332
technique for implanting electrodes, infant rats, 9269
temporal variations in motor activity during early posthatching period, chicks, 5260
tobacco smoke exposure during gestation & nicotine, fertility & maternal care & tissue nicotine levels & liver weight & offspring survival & activity, female mice bred for high vs low open field activity, 9825
training with novel color & novel vs familiar sucrose taste during monocular occlusion, subsequent acquisition &/vs interocular transfer of aversion with trained or untrained eye open, chicks, 566
varied frequency & site & interstimulus intervals of electrical stimulation of forelimb, stimulus & response generalization of habituation, neonatal & preweanling rats, 828
Infarctions (Myocardial) [See Myocardial Infarctions]
Infections [See Infectious Disorders]
Infectious Disorders [See Also Bacterial Disorders, Herpes Simplex, Influenza, Rubella, Viral Disorders]
manic depressive psychosis due to infectious mononucleosis, 23 yr old female, 5909
nasal inoculation of rhinoviruses & recent life stress & personality traits, cold symptoms & infections, 18–49 yr olds, 10740
social influences in infection surveillance & control programs, prevention & control of infectious disease during hospitalization, 4174
Inference
age differences, memory for stories containing easy vs difficult to understand spatial relationships, 1st vs 3rd vs 5th graders, 10106
base-rate fallacy, probability judgments, 18–25 yr olds, 413
compatibility & symmetry, time & distance & speed relationships, 11–13 yr olds, 7783
correlation of personality traits, speed & confidence of inferences from given to probe traits, college students, implications for weighted averaging models of trait integration, 5802
developmental differences, understanding of relationship between predictors & consequences, preschoolers vs 1st vs 4th vs 7th graders, 10022
direct access vs inferential retrieval in question answering, 7247
discrepancy from expectation & retention interval & literal vs inferential comprehension type, learning & retention of prose material, 5th & 6th graders, 10029
forms of mental representatives & reasoning processes & inference & representations of word meanings, cognitive science, 11549
inference processes in retrieval of information from long term memory, college students, 5040
information presentation mode & task complexity, learning of probabilistic inference tasks, 5027
knowledge vs ignorance of relationship between 1st cue & criterion, learning of 2nd cue in probability learning task, college students, 5035
logical concordance & complexity, accuracy of inference, college students, 7233
memory vs vocabulary vs inference ability, recall of prose with vs without words relating sentences, college students, 11964
model of attitudinal vs dispositional vs situational interpersonal predictions, impression formation, male vs female college students, 10355
partial order in verbally presented analytical inference problem, spatial encoding strategies & distance effect in comparative judgments, 465
perceptual & inferential processes as interdependent systems for judgment, 12745
recall & use of traits & events in social inference processes, 1256
self constructed vs structured partially ordered information, pairwise comparison RT, college students, 9597
transitive inference vs equivalence vs identity conservation, relative ease of learning sequence, mentally retarded 6–14 yr olds, 6060
variability of irrelevant features during acquisition, developmental differences in concept transfer, 2nd & 4th & 6th graders, 3351
Inferior Colliculus
unilateral ligation of external meatus from birth or as adult, neuronal responses in inferior colliculus to acoustic interaural intensity difference, cats, 12301
Inferiority (Emotional) [See Emotional Inferiority]
Infertility [See Also Sterility]
psychological problems & infertility & role of psychiatric consultation in treatment & donor insemination, 1630
Infirmaries [See Hospitals]
Inflection
fundamental frequency changes over vowels, auditory cues & perception of consonants & fricatives, college students, 11866
performance on Tennessee Test of Rhythm & Intonation Patterns, 3 vs 5 yr olds, 9372
time compression of English & French sentences, intelligibility, college students, France, 7718
word order & structural cues, interpretation of noun-verb-noun utterances, Hebrew speaking 4–10 yr olds, 10044
Influence (Interpersonal) [See Interpersonal Influences]
Influences (Social) [See Social Influences]
Influenza
influenza, depression, psychiatric patients, 12928
Information (Concepts) [See Concepts]
Information (Messages) [See Messages]
Information Exchange
analogy between occurring social & cognitive communication systems & automated distributed computation within organizations, 49
antecedents & role in information transfer into organizations, boundary spanning professionals, 4563
group size & communication opportunities, coalition bargaining & outcome in veto games, college students, study of core vs value vs weighted probability models, 3612
improvement of information dissemination at conferences, 4245
information & social interaction components, individual vs group performance on hypothesis generation task, 8007
legal information needed by medical patients, 5669
Information Processes (Human) [See Cognitive Processes]
Information Processing (Automated) [See Automated Information Processing]
Information Retrieval (Automated) [See Automated Information Retrieval]
Information Seeking
consumer information sources, implications for government information policy, 6900
development & validation of Krantz Health Opinion Survey, measurement of preferences for different treatment approaches, college students, 7072
gathering & use of information, organizations, 11482
information acquisition & attribution processes, college students, extension of H. H. Kelley's model, 5811
informational adequacy of messages in conversation, request for message clarification & selection of referents, learning disabled 1st–8th graders in listener role, 6068
information seeking strategies & instructions & experience & preferences, speed & comprehension in listening to compressed speech, US Army enlisted personnel, 4958
open vs well defined problem, information seeking patterns & decision making, college student, 4977
opportunity vs no opportunity for thought following confusing film, reduction of confusion without resort to dissimilar other, male college students, 12822
personal relevance of information about crime & employment & politics in local vs distant setting, use of information in decision making, college students, 1119
questioning strategies, primary & secondary teachers, implications for use of higher-level cognitive questioning, 4325
selective exposure to information, desire for consonant vs dissonant information, college students, implications for L. A. Festinger's theory, 10369
sensory deprivation, drive for tactile & visual information, male college students, 2629
type & amount & source of consumer information seeking, new car buyers, 4607

utterance rules in enquiry openers, dyads, 3238
Information Storage (Human) [See Human Information Storage]
Information Theory
amount & equivocality of information processing, variety & analyzability of activities, organizational work units, 11476
application of information integration theory, judgment formation & courtroom behavior, jurors, 25
conjoint measurement analysis of integration of motivational information, ratings of other's future performance, college students, 12795
outline of information theory in psychology & engineering psychology & mental models of problem solving, 11560
Information [See Also Related Terms]
accuracy of computerized information system data, 4691
application of information integration theory, judgment formation & courtroom behavior, jurors, 25
choosing community mental health center from telephone directories, 13379
combinations of presupposed & focal information, comprehension time for integrated sentences, 7240
consumer information & education, cognition & choice behavior, male vs female new homeowners, 6904
consumer information sources, implications for government information policy, 6900
feedback & feedforward & feedwithin strategic systems information, 41
focusing information &/vs videotape self confrontation feedback in assertiveness training, self report & behavioral measurements of ability to refuse unreasonable requests, nonassertive female college students, 10850
information about class membership of words vs arbitrary vs phrasal grouping vs linguistic dependencies of successive words, knowledge of linear & hierarchical structures of artificial language, college students, 9978
information about typicality of case, generalization from single case to whole population, college students, 5800
informational vs controlling verbal rewards & level of surveillance, task interest, college students, 1285
instructional information guide, psychology internship applicants, 4203
integration of 1st hand crime victimization & indirect exposure to crime, judgments about frequency of crime & personal vulnerability, adults, 2764
lecture format vs mass media campaign & type of information, reporting rates of shoplifting, college students, 10276
length of residence & location-specific capital & information costs & dissatisfaction, repeated migration, married couples, 3467
level of certainty about tasks, equity vs maximization associated with pay satisfaction, managers, contingency model of equity, 10306
multiple modeled variations, information acquisition, preschool children, 10027
nondiagnostic vs diagnostic information, predictions about individuals, college students, 1282
occupational information, occupational preference ratings, 16–17 yr old students, 8953
oral vs written communication mode, informational adequacy of explanations, 3rd vs 4th vs 6th graders, 10072
patient education handout information, biofeedback relaxation therapy procedures, 10866
performance & behavioral information, immediate vs delayed leadership ratings, college student Os, 10358
personal relevance of information about crime & employment & politics in local vs distant setting, use of information in decision making, college students, 1119
positive &/vs negative neutral evaluation information before vs after seeing film, ratings, graduate students, 11901
process of transmission of information via mass media, 12422
referential & lexical availability, given vs new information in sentence structure, college students, 3233
sentences explicitly &/vs implicitly defining agent &/vs patient &/vs instrument, identification as true vs false vs uninformative vs implied, college students, 9983
situational vs emotional information & familiarity of setting, reduction of crowding stress, college students, 12756
social comparison information under anonymous conditions, choice shift, college students, 10347
tactical intelligence indications, intelligence analysis, military intelligence specialists, replication of study by D. Jaarsma, 11444
task-based analysis of information requirements of tactical maps, selection of environmental data, 11588
task relevance & stimulus information, amplitude & habituation of visual orienting & skin conductance reactions, college students, 5295
telephone information line for preschool & nursery services, 10995
threat signal information content including motivation & resource-holding potential, theories of model builders vs field ethologists, 7385
vividness of evidence influencing availability in memory & favorableness of defendant, judgments of defendant's guilt immediately & after 48 hrs, college students, 3656
Inhibition (Personality)
connection between inhibitions & distortion in sexual & intellectual realms, analysis of L. Carroll's commentary on mathematical puzzles, 5861
group size & density & number of Os & group member similarity, self consciousness & disinhibited behavior, college students & adults, 5739
maternal control & development of inhibitory responses, paranoid schizophrenics vs sociopaths, 12996
personality characteristics, blood pressure, 8–16 yr olds, 7751
sympathetic activation & immune function & illnesses, college males rated high in need for power & inhibition & power stress, 1600
Inhibition (Proactive) [See Proactive Inhibition]
Inhibition (Retroactive) [See Retroactive Inhibition]
Initial Teaching Alphabet
use of Initial Teaching Alphabet, children with cerebral palsy & sensory handicaps, literature review, 4384
Initiation Rites
cross cultural differences in postpartum sex taboo & polygyny & male initiation rites & infant sleeping arrangements, sexual foreplay, implications for neo-Freudian perspective, 1111
Initiative
male & female roles, aggressiveness as expression of societal initiatives, 1196
Injections [See Also Intraperitoneal Injections, Intravenous Injections]
continuous vs bolus cholecystokinin-octapeptide injections to cerebral ventricles, feed intake, castrated male sheep, 875
icv injections of eledoisin & physalaemin & substance P, modifications of drinking behavior & arterial blood pressure, rats & pigeons, 874
intraspinal morphine & methionine-enkephalin & intravenous naltrexone, C-fiber & polysynaptic reflexes, decerebrate low spinal cats, 3139
Injuries [See Also Burns, Electrical Injuries, Head Injuries, Self Inflicted Wounds, Spinal Cord Injuries]
individual trauma & national response to external threat, college students who had vs had not been hurt in World War II & Yom Kipper War, Israel, 7921
mild vs severe childhood head vs orthopedic injuries, course of psychological recovery & extent & nature of resulting cognitive vs behavioral impairment, children, followup study, 13148
parameters of tinnitus, 18–35 yr old patients with acoustic trauma, 13128
quality of competitive participation, injured Type A vs B intercollegiate football players, 10367
themes of posttreatment stress disorders, 20–75 yr old psychotherapy patients with bereavement or personal injury problems, 1376
weather, severe psychopathology, patients, 1393
Inmates (Prison) [See Prisoners]
Innate Behavior (Animal) [See Animal Innate Behavior]
Inner City [See Urban Environments]
Inner Ear [See Cochlea]
Innovativeness [See Creativity]
Inquisitiveness [See Curiosity]
Insanity [See Mental Disorders, Psychosis]
Insecticides
dichlorvos, open field behavior & motor activity & correlation with regional brain levels of norepinephrine & dopamine & serotonin, male rats, 859
Insects [See Also Ants, Bees, Beetles, Butterflies, Cockroaches, Diptera, Drosophila, Grasshoppers, Larvae, Mantis, Moths]
attack of termite prey with aggressive allomone, neuroptera larvae, 12131
circadian rhythmicity, photoperiodic reaction, common spider mite, 5267

constant flow rate olfactometer with calibrated concentrator for studying insect electroantennogram without thermic or mechanical interference, 62
coordination of defecation & attendance of ants, animal communication, aphids, 9678
demands of efficient feeding vs avoiding predators, foraging behavior, aquatic insects, 7374
diet & feeding behavior, Brachydeutera longipes maggots, 5174
electrophoretic examination of esterases & identification of pheromone-degrading esterases in antennae, cabbage loopers, 741
extent of asymmetrical competition between 2 species, insects in natural conditions, 12136
fertilization action during oviposition, production of male vs female offspring, female wasps, 12110
group size, predator detection & avoidance, flightless ocean skater, 9724
lethal recessive mutations, haplodiploid sex ratios due to increased male mortality, parasitoid species, 7418
mating behavior, male Australian eumenid wasps, 7376
natural selection model, sex ratio control, parasitic wasps, 2899
pheromones, reproductive behavior, parasitic wasps, 12168
postmoult behavior, water-stick insects, 5250
presentation of nonaggressive male mice vs crickets, aggressive & pedatory behavior, wild male mice, 2925
rivalry over nesting burrows, female digger wasps, 5144
scent marking, swarm emigration, social wasps, 12130
size of induced turns, reverse turning at corridor exits, centipedes, 666
species characteristics vs environmental influences, feeding behavior, herbivorous insects, 12115
surgical removal of corpora allata, role of juvenile hormone vs ovarian nervous or hormonal involvement in initiation of biting behavior, female mosquitoes, 5313
thermoregulatory significance of thoracic lobes, wing evolution, insects, 2908
variation of population density, swarming vs recession, desert locusts, 12144
vocalizations, ethological systematization, arthropods & vertebrates, 2831
Insecurity (Emotional) [See Emotional Security]
Insensitivity (Personality) [See Sensitivity (Personality)]
Inservice Teacher Education
attitudes toward mainstreaming, teachers, implications for inservice training, 11153
conferences in authority & leadership in public school program serving emotionally disturbed youth, teachers & teacher aids & mental health workers, 6635
degree of inservice training, attitudes toward mainstreaming, teachers, 13549
educational program, attitude change toward slow learners, elementary school teachers, 4273
feature evaluation & planning use, developmental diagnostic reports, early childhood teachers, 8825
inservice training, ability to identify creatively gifted children, female day care workers, 4278
inservice training in W. Glasser's reality therapy & "class meeting" techniques, teacher affective behaviors & student behaviors, teachers, 2082
inservice training program with role playing, classroom implementation of role playing & its effect on student attitudes & behavior, elementary teachers, 6637
parents as consultants-trainers in parent involvement workshops, 11144
Positive Peer Culture & assertiveness training, teaching responsibility & coping behavior, teachers of disturbed adolescents, 2072
self training, modification of verbalizations, 4th grade teachers, 13543
survey of public school vs university training programs, teachers of behaviorally disordered students, 2078
teacher inservice & advocacy & crisis program, student's attitudes & attendance & dropout rate, behaviorally disordered rural secondary school students, 11174
teacher training program entitled Project REACH, student creative thinking skills, elementary school teachers & students, 3-yr study, 6636
Inservice Training (Mental Health) [See Mental Health Inservice Training]
Insight
alexithymia, patients with chronic pancreatitis & peptic ulcer & ulcerative colitis & irritable colon syndrome, 1606
correlates of social insight, male prisoners, 4180
insight & psychological distress & hospital adjustment, male schizophrenics, 1959
Nystulian Play Therapy based on Adlerian psychology & creative arts therapy, aggressiveness & cognitive insight & interpersonal adjustment, elementary school children, 8445
overview of & questionnaires for measurement of alexithymia, 1556
trainer self insight & emotional responses to group participants, 11438
Insight (Psychotherapeutic Process)
hypnotherapy, catharsis & insight & reduction of anxiety & ego development, psychotic & borderline patients, 1884
phenomenological investigation, insight meditation, college students, 519
uses of psychodrama & emphases including catharsis & action insight & behavior change, 3951
Insight Therapy
desensitization & insight therapy, phobic patient, 3952
Insomnia
behavioral treatment, disease-related chronic insomnia, 38 yr old male hemophiliac, 6370
behavioral treatment, sleeplessness & resting pulse, chronic psychotics, implications for clinical intervention with poor prognosis psychotics & 2-factor model of arousal disorder, 13284
behavior therapy, night fears & sleeplessness, 5 yr old male & 8 & 13 yr old females, 1798
causes & patient demographic variables & prevalence & treatment, insomnia, 3942
causes & treatment, insomnia, 6182
combat reaction, 16–30 yr old soldiers, 1396
description & treatment, delayed sleep phase syndrome, 17–60 yr olds, 8427
EMG vs combined EMG & theta vs sensorimotor vs no biofeedback training, treatment of insomnia, adults, 8514
hypnotic suggestion through personalized fairy tales, insomnia, 3 & 8 yr olds, 10954
ip vs icv injection of 5-hydroxytryptophan, restoration of parachlorphenylalanine-induced insomnia, rats, 898
nitrazepam vs triazolam, 19–20 yr old male psychiatric insomniac inpatients, 13319
personality traits & complaints, type of sleep disruption, primary insomniacs, 8306
polysomnography, diagnosis & evaluation of insomnia, patients, 13170
sleep & sleep disorders, literature review, 6183
Instability (Emotional) [See Emotional Instability]
Instinctive Behavior (Animal) [See Animal Instinctive Behavior]
Institution Visitation
frequency of visitation & adaptive behavior & socialization, institutionalized mentally retarded 5–71 yr olds, 8692
hospital patient characteristics, frequency of parental visiting, 5–22 yr old mentally retarded, 8683
hospital visits with mother following childbirth, behavior after mother's return home, 1–3.5 yr old firstborn siblings of newborns, 10198
visiting, length of hospital stay, psychiatric patients in general hospital, 6488
Institutional Release [See Also Hospital Discharge, Psychiatric Hospital Discharge]
age-appropriate leisure activity, community integration, mentally retarded adults, 8654
client characteristics & environmental factors, community adaptation after deinstitutionalization, mentally retarded, 8686
community residential environment characteristics, performance of community living skills & satisfaction with environment, mentally retarded Ss released from state school, 6451
conceptual & scientific & moral bases for objection, deinstitutionalization of retarded persons, 8712
criticism of deinstitutionalization, response to J. Throne's article, 8710
current trends & status of public residential facilities for mentally retarded, 8657
deinstitutionalization, number & needs of clients seeking help at community based service system, formerly institutionalized mentally retarded clients, 8640
deinstitutionalization of mentally retarded adult member, crisis experience, families, 8716
features of culture transition shock, deinstitutionalized mentally retarded, 8681

history of public attitudes toward mental disorders, implications for deinstitutionalization, 6456
model of length of time after prison release until recidivism, evaluation of correctional program, 13446
outcome studies, deinstitutionalization, psychiatric patients, literature review, 13407
problems of deinstitutionalization, psychiatric patients, 6508
reasons for failure of deinstitutionalization & psychiatric treatment vs rehabilitation, schizophrenics, 11038
residence in intermediate care facility after release from large institution, adaptive behavior level, profoundly & severely mentally retarded 14–46 yr olds, 8717
sex differences, mental health referral practices & voluntary vs involuntary disposition, referred clients, 4143
social implications of deinstitutionalization, 8678
societal & legislative pressure, inpatient psychiatric hospital treatment, 11007
structure & philosophy & goals of halfway house, emotionally disturbed adolescents, 8633
theoretical framework, planning & evaluation of psychosocial rehabilitation of deinstitutionalized psychiatric patients, 8661
token reinforcement program, grooming behavior change, mentally retarded adults, implications for community based programs for deinstitutionalized populations, 13277

Institutional Schools

behavior modification program in state residential school, task related behaviors & disruption & academic dysfunctioning & inappropriate verbal behaviors, deaf, 4398
training in self assessment & self reinforcement in self managed token economy, on task behavior, mildly & moderately retarded 7–12 yr olds, 8556

Institutionalization [See Also Commitment (Psychiatric), Hospital Admission, Hospital Discharge, Hospitalization, Incarceration, Institutional Release, Psychiatric Hospital Admission, Psychiatric Hospital Discharge, Psychiatric Hospital Readmission, Psychiatric Hospitalization]

case of W. Chidley hospitalized for lunacy 1912–1916 because of eccentric beliefs on cure to societal problems, speculation about treatment under present mental health laws, Australia, 6552
institutional environment, behavior & development, mentally retarded children, 11025
institutional experience, behavior & development, mentally retarded persons, 13429
institutionalization vs noninstitutionalization, anticipations & evaluations of future, 17–24 yr old delinquent males, 4192
interdisciplinary treatment approach & family therapeutic goals, children institutionalized due to intolerable home situations, 1956
issues in mental health policy, need for scientific involvement, 10977
length of institutionalization, social independence, mentally retarded 13–20 yr olds, 6492
loneliness & widowhood & being alone & degree of disability & age, social adjustment, institutionalized elderly, 4162
Non-Speech Language Initiation Program, number & color matching & sentence imitation & command-following & receptive & expressive vocabulary & spontaneous speech, nonverbal children living in institutions vs community, 8608
parental absence & child institutionalization & home quality, development of schizophrenia, male 9–20 yr old offspring of schizophrenic mothers with childhood patterns of electrodermal lability, 8180
role of psychology & psychologists, geriatric institutions, 1953
self ratings vs ratings of juvenile delinquent vs popular vs emotionally disturbed teenager labels, delinquents & adolescent psychiatric inpatients & high school students, 1363
short-term institutionalization, 9 yr old severely & profoundly mentally retarded, followup study, 8690
size & shape & permeability of spatial preferences, institutionalized vs noninstitutionalized blind vs sighted Ss, 1586
tests, brief assessment of confusion & depression, institutionalized aged, 13408
traditional institutional design vs normalized ward, activity & social relations & self help skills, female mentally retarded patients, 6514
unmet needs in mental health & foster & institutional & day care, children, 13370
validity of Guttman scales, self assessment of functional health & sociability, institutionalized elderly females, 189

Institutionalized Mentally Retarded

applications & effects of physical restraint devices on self injurious behavior, mentally retarded residents of developmental centers, 1949
aversive stimulus treatment, behavior disorders, institutionalized mentally retarded Ss, 13413
behavioral library program, adaptive skills, 22–62 yr old severely mentally retarded, 10908
behavioral training program, improvement in social skills, institutionalized mentally retarded adult females, 13419
cottage vs classroom setting, adaptive behavior ratings, institutionalized mentally retarded with mean age 18.32 yrs, 7006
development of animal care facility, institutionalized mentally retarded, 8718
early & continuous parental counseling & preschool stimulation, psychosocial & mental development, home reared vs institutionalized Down's syndrome 10–19 yr olds, 6468
efficacy of supervision program of development & maintenance of language training interactions, institutional staff & profoundly mentally retarded 3–7 yr olds, 8694
factor analysis, program analysis of residential facilities for mentally retarded, 8693
frequency of visitation & adaptive behavior & socialization, institutionalized mentally retarded 5–71 yr olds, 8692
GABA analog baclofen, treatment of self injurious behavior, 16–37 yr old institutionalized mental defectives, 6406
hospital patient characteristics, frequency of parental visiting, 5–22 yr old mentally retarded, 8683
institutional environment, behavior & development, mentally retarded children, 11025
institutional experience, behavior & development, mentally retarded persons, 13429
institutional vs home rearing environment & sex differences, level of syntactic usage, Down's syndrome 6–12.7 yr olds, 8284
institutional vs residential setting & IQ & factual vs subjective questions, acquiescence in interviews, moderately vs severely retarded 12–16 yr olds & adults, 12-mo followup, 8270
intelligence test administration under standard vs reinforcement conditions & with vs without psychotropic medication, test performance, institutionalized mentally retarded adults, legal implications, 6491
interactional dominance & agonistic hierarchy & territorial behavior, institutionalized severely to profoundly mentally retarded 16–50 yr old females, 8262
interview skills training using modeling & rehearsal & videotape vs verbal feedback, responsiveness & eye contact & smiling & intelligibility & attractiveness, institutionalized mentally retarded Ss, 6327
lemon juice &/vs Tabasco sauce, taste aversion treatment of chronic ruminative vomiting, institutionalized profoundly retarded 12 & 16 yr olds, 6347
length of institutionalization, social independence, mentally retarded 13–20 yr olds, 6492
maladaptive behavior, mentally retarded adults in institutionalized vs community settings, 8617
omission training, stereotyped behavior, 18–21 yr old profoundly retarded institutionalized males, 10864
parental involvement with child, institutionalized mentally retarded children, 8680
physiological & psychiatric assessment, pulse rate & hours of sleep & frequency of crying, institutionalized mentally retarded 6–50 yr old with self injurious behavior, 8252
positive examiner verbal comments, Revised WISC performance, institutionalized educably mentally retarded students, 7092
predicted charges, provision of residential services for mentally retarded, Australia, 13405
prevalence, peptic ulcer, institutionalized mentally retarded 10–72 yr olds, 10424
prevalence of drug therapy, behavior problems & emotional disorders, institutionalized retarded children, 8600
punishment, self injurious behavior, institutionalized mentally retarded 13 yr old male, ethical implications, 6358
reliability & validity of Clifton Assessment Schedule & Shortened Stockton Rating Scale, measurement of cognitive & behavioral functioning, institutionalized mentally retarded 60–82 yr olds, 11690
sex education & attitudes & policies toward sexuality of mentally retarded in facilities for retarded, 8682
sexual behavior, institutionalized severely mentally retarded 10–33 yr olds, 8715
social praise during correction procedure of skill training, self initiated responses, institutionalized mentally retarded Ss, 6313
suggested solution to problems in behavior therapeutic counseling, institutionalized mentally retarded, 6509

systems in intervention procedure, aggressive behavior, institutionalized mentally retarded males, 6331
ultradian rhythms of stereotyped motor movements including self injurious behavior, institutionalized profoundly mentally retarded Ss, 6078
use of retarded resident to teach another retarded resident alphabet & spelling, 13421
verbal interaction between staff & residents, 8–32 yr old mentally retarded institutional residents, 8706
years of prior institutionalization & parents living together & presence of convulsive disorders & adaptive behavior, parental contact, mentally retarded Ss in residential facility, 8687
Institutions (Correctional) [See Correctional Institutions]
Institutions (Residential Care) [See Residential Care Institutions]
Instruction [See Teaching]
Instruction (Computer Assisted) [See Computer Assisted Instruction]
Instruction (Individualized) [See Individualized Instruction]
Instruction (Programed) [See Programed Instruction]
Instructional Media [See Also Educational Audiovisual Aids, Reading Materials, Textbooks]
affective meaningfulness of course materials, learning & grades, college students, 11137
development & publication of reading & mathematics materials, consumer-oriented evaluation of instructional media, 13568
differences between instructional media & differences between learners, media-supported school instruction, 13528
evaluation of parent training methods, media assisted use of timeout, parents, 4061
model of instructional variables, identification of influential factors affecting effectiveness of traffic safety education, 11206
reading ability & listening to vs reading textbook material, retention of information, mildly handicapped 10th–12th graders, 4408
self help behavior therapy manuals, literature review, 6334
visual imagery in sequence vs spatial vs comparison/contrast format, teaching 2nd language, 8901
visual materials in sex education, sexuality & sexual knowledge, deaf, 3905
Instructional Objectives [See Educational Objectives]
Instructions (Experimental) [See Experimental Instructions]
Instructors [See Teachers]
Instrumental Conditioning [See Operant Conditioning]
Instrumental Learning [See Operant Conditioning]
Instrumentation (Flight) [See Flight Instrumentation]
Insulin
dorsomedial hypothalamic lesions & food & water deprivation & cellular glucoprivation & dehydration & extracellular hypovolemia & insulin, food & water intake & body weight, male rats, 9882
electric shock vs flash bulb discharge & insulin vs saline injections, defensive burying, male rats, 7558
environmental differences, apparent hypoglycemic vs hyperglycemic CR, male rats, 7304
fasting, cholecystokinin binding to receptors in hypothalamus & olfactory bulb & insulin binding, male mice, 12306
frontalis EMG biofeedback, insulin dosage, 24 yr old female with juvenile diabetes, 1822
icv infusion of luteinizing hormone releasing hormone, behavior, homing pigeons, 7685
insulin, food intake & dietary self selection of proteins vs carbohydrates vs fats & body weight, male rats, 7659
insulin dose, food intake, swine, 3137
insulin induced hypoglycemia, active avoidance learning, male rats, 914
insulin pretreatments & lateral hypothalamic lesions, aphagia recovery period & gastric pathology & hyperthermia & sensorimotor dysfunctions, rats, 12285
obesity-inducing hypothalamic knife cuts & insulin, adipose tissue lipoprotein lipase activity, female rats, 3075
succynilcholine immobilization, response of lateral hypothalamic neurons to insulin, rats, 12366
Insurance [See Health Insurance, Workmens Compensation Insurance]
Insurance Agents [See Sales Personnel]
Integration (Racial) [See Racial Integration]
Intellectual Development [See Also Language Development]
adolescent childbearing, postnatal development, 3278
age at treatment inception & nutritional enrichment & sensorimotor & cognitive stimulation, psychomotor development, severely malnourished 3.3–13.3 mo olds, 6493
age & education & cardiovascular disease & high blood pressure, intelligence & memory, 70 vs 75 yr olds, 5-yr followup, 12479
age & individual differences, creative thinking & problem solving, gifted 2nd–6th graders, 1009
age & intellectual experiences at home & in day care provided by caregivers vs child with emphasis on language mastery, performance on intelligence tests at age 3, 1–3 yr olds, 989
child spacing in families, intellectual development & achievement test scores, high school students, verification of Zajonc-Markus hypothesis, 4344
concordance of mental development, same- vs opposite-sex dizygotic twins from 3 mo through 6 yrs old, 12563
correlations of subtest scores on Primary Mental Abilities Test, 5–7 yr old twin pairs, 7416
crisis intervention program in preschool education, behavior & intellectual development following divorce, single-parent 3.5–5 yr olds, 5448
development & age distribution of intellectual & adaptive skills, 3 mo to 15 yr old Down's syndrome children, implications for early intervention, 8253
developmental trends of mental abilities & academic achievement, 3–12 yr olds, 7807
discussion of Piaget's structures of intelligence, 2321
early & continuous parental counseling & preschool stimulation, psychosocial & mental development, home reared vs institutionalized Down's syndrome 10–19 yr olds, 6468
frequency of vs no home intervention, intellectual & social development, severely subnormal preschool children, 3-yr study, 13661
genetic influences & developmental correlates, academic learning difficulties, identical vs fraternal twins, 6081
human figure drawings, inferences about intelligence & emotional adjustment & personality, learning disabled children, 8279
intellectual & language & psychomotor development, male child with agenesis of corpus callosum & megaloencephaly from age 6–34 mo, 10739
intelligence, advantaged vs disadvantaged 5–9 yr olds, 12509
left vs right handedness, verbal & intellectual achievement on WISC, 7 vs 11 vs 15 yr old males, 12507
measurement of relationships between intellectual & motor abilities, normal & mentally deficient 10 yr olds, 4809
memory disorders & intellectual achievement & personality, aged, 12460
multiple retest & testing time conditions, intraindividual variability in fluid intelligence test performance, 60–84 yr olds, 9303
parent educational background & language & family structure & socioeconomic level, prediction of intellectual performance, Mexican American preschoolers, 10120
physical & intellectual & personality development vs age-based stereotyping, adults, implications for helpers, 3279
psychiatric disturbance & lowered intellectual functioning, relationship of psychosis & mental retardation during developmental period, 6–22 yr old psychiatric patients, 5922
psychological difficulties, teaching & guidance & vocational education, hearing impaired, 2151
self contained special class placement, academic achievement & intellectual functioning, learning disabled 8 & 9 yr olds, 4377
sex differences, intellectual development, 10–13 yr olds who had vs had not experienced change in home vs school situation, 7774
socioeconomic determinants of intelligence, aged, 7760
somatic & psychological growth, 11 & 14 yr olds, Turkey, 975
stimulation program, development of intellectual abilities, kindergartners, 2095
student-faculty informal contact, college outcomes, literature review, 11249
teacher guidelines for program planning, logic development in young children, 4290
transient neonatal symptoms, later intellectual & behavioral functioning, male vs female 10–11.9 yr olds, 12464
understanding necessity of logical laws in discourse, children, criticism of views of Piaget & G. Johnson, 3340
Intellectually Gifted [See Gifted]
Intelligence
Adaptive Behavior Inventory for Children, intelligence as measured by Revised WISC, 5–11 yr olds, 4839
age & anxiety & serum immunoglobulin levels, crystallized & fluid intelligence, 30–45 vs 60–75 olds, 5272
age differences, intelligence & spontaneous flexibility, adult & aged males vs females, 3382
age differences, organization of sensorimotor intelligence, 14 vs 18 vs 22 mo olds, 12558
age & education & cardiovascular disease & high blood pressure, intelligence & memory, 70 vs 75 yr olds, 5-yr followup, 12479

age & intelligence differences, errors & response latency on Matching Familiar Figures Test, impulsive 1st vs 4th graders, 7883

age & sex differences, self perceptions of intelligence & self concept, 3rd–8th graders, 12582

age & sex & intelligence & locus of control & interpersonal knowledge & length of parental separation, responses to parents' divorce, 5–19 yr olds, 5459

age & sex & intelligence & personality traits & life satisfaction, 29–88 yr old females & 66–68 yr old males, 5843

authoritarianism, self estimated intelligence & value priorities, college students, US vs West Germany, 1134

cognitive & intelligence development, physically handicapped children, implications for intelligence measurement, 10649

cognitive science & artificiality of intelligent systems, 11918

cognitive stage & age & sex differences & intellectual & academic abilities, comprehension of similies & quality judgments, 5–12 yr olds, 12518

cognitive tempo & intellectual performance, college students, 11900

comparison of intelligence test achievements in 1949 & 1974, 2 groups of students at same age, 4461

correlation of intelligence level, siblings, review of literature after 1915, 7414

creativity & intelligence & sex & field dependence, problem finding, college students, 2732

cross cultural view of cognitive style & intellect & intelligence, 3506

degree of occupational professionalization, requirements of intelligence & verbal & numerical ability, 4471

demographic & psychological variables, productivity, farmers, India, 9149

demographic variables & intelligence & achievement levels & problems with & perceptions of rehabilitation center, dropout rates, rehabilitation clients, 4186

development & reliabilty & validity of Paramesh Remote Associates Test, measurement of creativity & intelligence, Tamil-speaking 10th graders, India, 204

diffuse brain damage, WAIS scores, implications for theory of fluid & crystallized intelligence, 8365

discussion of Piaget's structures of intelligence, 2321

early environment & intelligence, criticism of study by H. M. Skeel, 12516

E effects on family correlations in adoption studies, reanalysis of studies of G. M. Horn et al & R. A. Weinberg, 7429

extraversion & intelligence, 15–16 yr olds, rejection of W. S. Anthony's theory, 7745

factor analysis, creativity & intelligence & memory & recall, male inventors, 11924

family size & birth order & intellectual competence & psychiatric status & height, 19 yr old males born between 1944–47, 12449

field dependence & rote learning & verbal reasoning performance, college students, implications for correlation with general intelligence, 1309

field independence & intelligence & GPA, female high school students, Philippines, 13614

genetic & environmental factors, intelligence, twins, Peru, 12497

heritability, 2nd-order intelligence factors, 12–18 yr old male identical vs fraternal twins vs siblings, 9735

high vs low stress in staff member-superior relations & intelligence & experience, performance evaluations, Coast Guard officers & petty officers & civilian employees, 4533

home intellectual environment & maternal IQ, child IQ, children of mean age 12 yrs, 12515

individual differences in physiological arousal, picture vocabulary performance, learning disabled 7th & 8th graders, 1538

information processing capacity as measure of intelligence, literature review, 9544

information processing research on intelligence, 2761

integration & differentiation of environment & creativity & intelligence, college students, 9556

intellectual functioning & communicative competence, deaf 2.5–4 & 5–6.5 yr olds, implications for assessment of intelligence, 13080

intelligence, advantaged vs disadvantaged 5–9 yr olds, 12509

intelligence & achievement & visual-motor performance, learning disabled vs emotionally impaired children with mean ages of 10.32 vs 10.53 yrs, 10417

intelligence & demographic & occupational characteristics, US Navy personnel applying for off-duty education, 6788

intelligence & personality factors & study habits, middle school students, 8931

intelligence & personality traits, creativity & originality & fluency & flexibility, high school students, 1322

intelligence & sociometric status & academic & attentional competence, preferences for & adult judgment of social desirability of ingratiation tactics, learning disabled vs nonlearning disabled 3rd–6th graders, 13618

intelligence test performance & area of success predicted by performance & performer's sex & charm, liking of performer, male vs female college students, 3658

intelligence & visual-motor performance & personality traits & age & race & sex differences, juveniles petitioned vs not petitioned to stand trial as adults, 4189

intelligence vs knowledge of & adaptation to environment, coping strategies, young vs aged Ss, 7763

judgments of importance of various forms of intellectual competence, college students, Australia vs Malaysia, 1063

locus of control, intelligence & academic achievement, 15 yr olds, 3271

Lorge Thorndike Intelligence Test scores & grades, attributions of student ability & motivation, teachers of 6th–8th graders, 8814

MA intelligence & vocabulary, recognition of criteria of classification, 8–11 yr olds, 10105

measurement of relationships between intellectual & motor abilities, normal & mentally deficient 10 yr olds, 4809

oblique vs orthogonal rotational analyses of J. P. Guilford's structure of intellect model vs alternative model, 264

occupational intelligence & work setting, 13743

perceptual verbal pattern comparisons of WISC subtests, treated lead-poisoned children without encephalopathy vs nonpoisoned siblings, 1594

performance on visual scanning task & WAIS & Wechsler Memory Scale, patients with progressive supranuclear palsy vs other brain damage, 13114

personality traits & intelligence, popularity ratings, 10th grade females, 5586

reflection/impulsivity & intelligence & socioeconomic status & race & father absence & teacher ratings, male White vs Black vs Hispanic kindergartners, 13538

Revised WISC vs teachers' evaluation of potential, prediction of learning, 6–11 yr old normal & special education students, 8914

school & social & emotional adjustment, mentally superior vs average high school males, 8949

scores on AH4 Group Test of General Intelligence, 11th graders, Canada vs Great Britain, 9103

self estimated intelligence & anxiety, academic achievement, college students, 2124

self evaluation & school adjustment & intelligence, adolescent apprentices vs secondary school students, 8938

severe deprivation & subsequent placement in foster home, intelligence & social & emotional development, male twins, 5458

severity of brain damage resulting from localized head injury, intelligence & reading & cognitive & motor performance, school age children, 1566

sex, academic achievement & vocational interests & intelligence & salience of school activities, 10th graders, 11253

sex differences, Revised WISC scores, 6–16 yr old gifted students, 1014

short term verbal memory capacity & intelligence, visual memory, left hemiplegics, 8360

student E expectancy bias about intelligence, performance on maze learning task, rats, replication of R. Rosenthal & K. L. Fode's study, 6976

subtheory of human intelligence based on component construct, 11559

superordinate & basic level object descriptions, semantic processing speed as measured by category decision times, educable mentally retarded vs normal adolescents, 3865

test anxiety & intelligence & subject area, academic achievement, female 9th graders, 2130

test anxiety & IQ & need for achievement, preference for complex play materials, 6–10 yr olds, 8935

type of community & socioeconomic status & intelligence & personal & social adjustment & withdrawing tendency & social & religious & political & aesthetic values, 15–18 yr old females with acute self concept, 7893

use of Rorschach test, diagnosis of mental deficiency & intellectual potential, literature review, 6084

verbal intelligence & choice RT, 14.2–16.3 yr old females, Australia, 3389

verbal & nonverbal intelligence & demographic factors & eye-hand laterality reading performance & achievement & need for remediation, White vs non-White US Navy recruits, 4518
Intelligence Measures [See Also Culture Fair Intelligence Test, Goodenough Harris Draw A Person Test, Illinois Test Psycholinguist Abil, Lorge Thorndike Intelligence Test, Peabody Picture Vocabulary Test, Porteus Maze Test, Raven Coloured Progressive Matrices, Raven Progressive Matrices, Slosson Intelligence Test for Child, Stanford Binet Intelligence Scale, Wechsler Adult Intelligence Scale, Wechsler Bellevue Intelligence Scale, Wechsler Intelligence Scale Children]
Adaptive Behavior Inventory for Children, intelligence as measured by Revised WISC, 5–11 yr olds, 4839
assumptions in assessment of intelligence, Latinos, US, 4776
auditory vs visual presentation of test instructions, test performance, aphasics, 4790
bias against males & non-Whites, McCarthy Screening Test, children, criticism of study by W. Umansky & L. Cohen, 9368
bias in McCarthy Screening Test, children, reply to N. L. Kaufman's critique, 9430
cognitive & intelligence development, physically handicapped children, implications for intelligence measurement, 10649
concurrent validity of Woodcock Word Comprehension Test & measures of reading achievement & verbal intelligence, 6–16 yr old students, 11383
correlations between Quick Test vs Canadian Test of Basic Skills vs Canadian Lorge-Thorndike Intelligence tests, 4th & 5th graders, 2523
correlations of subtest scores on Primary Mental Abilities Test, 5–7 yr old twin pairs, 7416
court decision, use of standardized IQ tests for identification & placement, educable mentally retarded Black children, 9077
Culture Fair Intelligence Test vs Revised WISC test scores, White vs Black vs Mexican American juvenile delinquents, 3837
development of Structure of Intellect-Learning Abilities Test as measure or arithmetical ability, implications for arithmetic education, 6770
differential construct validity of preschool test battery, White & Black kindergartners, 2196
equivalence of Forms 1 & 3 of Quick Test, 6–17 yr old special education students, 4463
factor analysis & construct validity, sex differences in McCarthy Scales of Children's Abilities, 3–9 yr olds, 241
factor structure & specific variance of Wechsler Preschool & Primary Scale of Intelligence subtests, 4–6.5 yr olds at 6 age levels, 9328
grade level & sex & achievement, concurrent validity & factor structure of structure-of-intellect measures, 2nd–6th graders, 2464
infant behavior ratings & concurrent & subsequent mental test scores, Mexican American infants at 12 & 24 & 36 mo of age, 12522
intellectual functioning & communicative competence, deaf 2.5–4 & 5–6.5 yr olds, implications for assessment of intelligence, 13080
intelligence measured by Revised Beta Examination vs Peabody Picture Vocabulary Test, 15–20 yr old disabled students, 2456
intelligence test administration under standard vs reinforcement conditions & with vs without psychotropic medication, test performance, institutionalized mentally retarded adults, legal implications, 6491
intercorrelations among Slosson Intelligence Test & Shipley-Institute of Living Scale & Intellectual Efficiency scale of California Psychological Inventory, college students, 7076
item analysis of Concept Assessment Kit-Conservation, measurement of intellectual development, educable mentally retarded children of 7.3–14.3 yrs CA & 3.7–10.8 MA, 9415
McCarthy Scales of Children's Abilities & General Cognitive Index & Revised WISC IQ, educable mentally retarded vs learning disabled vs normal 6–8 yr olds, 6083
modeling vs instructional film, intelligence test performance, test anxious 9–11 yr olds, 1817
prediction of WAIS Full Scale IQs from Quick Test scores, mentally retarded psychiatric patients, 9394
prediction of WAIS Full Scale IQs from Quick Test scores, 46–78 yr old mental health center patients, 9395
predictive validity of short forms of Wechsler Preschool & Primary Scale of Intelligence, 4.5 & 8.5 yr olds, longitudinal study, 2442
psychometric precision of intelligence tests & myth of Gaussian curve, 4815
Quick Test IQs, newly admitted vs regular male maximum security hospitalized psychiatric patients, 2514
Quick Text scores, prediction of WAIS scores, adult White vs Black in- vs outpatients, 9396
recategorization of Wechsler Preschool & Primary Scale of Intelligence scores by A. Bannatyne's pattern, 5.2 yr old kindergartners with learning problems, 13065
reliability, Combined School Achievement Test & Basic Intelligence Test, 4th & 5th graders, 2495
reliability & validity of Wechsler Memory Scale, chronic alcoholic males of mean age 37.7 yrs, 11641
school uses of standardized achievement & mental ability tests & parental & teacher attitudes toward testing, school children, 13670
scores on AH4 Group Test of General Intelligence, 11th graders, Canada vs Great Britain, 9103
scores on Cattell CF 2A Intelligence Test & auditory word presentation, recall of words & memory test achievement, males vs females, 11969
self directed attention, intellectual performance facilitation, highly test anxious college students, 443
System of Multicultural Pluralistic Assessment, classification of mild mental retardation, White vs Black vs Hispanic vs Native American Papago students, 9117
theoretical assumptions & research procedures, assessment of intelligence, male children with Duchenne muscular dystrophy, 3921
use & evaluation & cultural bias, Kahn Intelligence Test, 2431
use of Quick Word Test & Wide Range Vocabulary Test Form B with college students & correlations with Shipley-Institute of Living Scale, measurement of intelligence, 4439
use of Rorschach test, diagnosis of mental deficiency & intellectual potential, literature review, 6084
WAIS & Slosson Intelligence Test scores, mentally retarded adults, 3883
weaknesses & suggested modifications, mental abilities tests, low achieving adolescents, 9066
weighted least squares method, equating of logistic ability scales, 11618
Intelligence Quotient
age at treatment of childhood brain tumor, intellectual ability, 7–33 yr olds, 13094
age & categorization vs serial strategy, recall of list, 4th graders vs adults of average vs above-average intelligence, 12537
age & intellectual experiences at home & in day care provided by caregivers vs child with emphasis on language mastery, performance on intelligence tests at age 3, 1–3 yr olds, 989
age & IQ, visual recall, Ss with nonfocal vs left vs right hemisphere brain dysfunction, 10696
age & sex & intelligence & personality traits & life satisfaction, 29–88 yr old females & 66–68 yr old males, 5843
age & type of crime & length of incarceration, IQ as measured by progressive matrices test, male inmates, 1971
auditory vs visual modality & temporal vs spatial presentation & intelligence level, matching task performance, children with below vs above average intelligence, 3336
autosomal-recessive allele M sub 1 in homozygous state, prerequisite for IQ's over 130, successful mathematics competitors, 7428
birth order & age spacing & IQ differences & family relations, brother pairs aged 5–15 yrs & their families, literature review, 3543
Black-White IQ discrepancies & differences in hemisphericity, Black & White 2.5–8.5 yr olds, 10012
comparability of WISC vs Revised WISC scores, 8–9 yr old mildly mentally handicapped special education students, longitudinal study, 9128
correlation between Draw-A-Person results & Revised WISC IQs, male vs female elementary school students with academic difficulties, 2201
correlation between IQ & domain scores of Adaptive Behavior Scale, 7–43 yr old mentally retarded, 7088
correlation of intelligence level, siblings, review of literature after 1915, 7414
cross-validation of prediction formula IQ vs actual IQ, determination of premorbid cognitive functioning level, non-neurologically impaired psychiatric patients & outpatients, 9371
Culture Fair Intelligence Test vs Revised WISC test scores, White vs Black vs Mexican American juvenile delinquents, 3837
determination of abnormal differences between Revised-WISC subtest scale & Verbal-Performance IQ scores, reply to criticism by C. R. Reynolds & A. B. Silverstein, 4867

determination of abnormality of Verbal-Performance IQ discrepancies on Revised-WISC, criticism of formula by R. J. Piotrowski, 4873
development & age distribution of intellectual & adaptive skills, 3 mo to 15 yr old Down's syndrome children, implications for early intervention, 8253
disability & IQ & work/personal behavior & prior academic achievement, class rank in mainstream vocational program, handicapped high school students, 11318
discrepancies between WAIS Vebal & Performance IQs, 15–53 yr old epileptics, 2497
distinction between reliability & abnormality of Verbal-Performance IQ discrepancies on Revised WISC, 230
education level & socioeconomic status, IQ, middle class Black vs White 10–18 yr olds, 10115
exceptionality status & art instruction & time between test administrations, Goodenough-Harris Drawing Test standard IQs, nonexceptional & learning disabled & educable mentally retarded students, 6768
factor analysis, measures of anxiety & neuroticism & psychoticism & intelligence & academic achievement, male postgraduate students, 6783
familial vs organic etiological basis of retardedness & correlation with IQ, profoundly vs severely vs moderately vs mildly mentally retarded, 1535
family size & birth order, intelligence quotient & grade point average, college students, testing of confluence model of R. Zajonc & G. Markus, 13608
genetic racial differences, IQ, Blacks vs Whites, 2953
group play psychotherapy, intelligence & personality, "defective" vs "blocked" children, 4024
imagery vs verbal strategy instruction, organization & recall of noun pairs & performance on WISC & Revised WISC, learning disabled 9–12 yr olds, 11317
influence of field dependence-independence, development of formal operational thought, 6th–8th graders, 12493
institutional vs residential setting & IQ & factual vs subjective questions, acquiescence in interviews, moderately vs severely retarded 12–16 yr olds & adults, 12-mo followup, 8270
intelligence level, RT, textile mill operators, 6851
intelligence vs creativity, academic achievement, 8th graders, Pakistan, 4349
IQ above vs below 90, recategorization of Revised WISC scores, adjudicated 11–16 yr olds, 7078
IQ & age, performance on Monroe Visual III Test, 6 vs 10 vs 14 yr olds, longitudinal study, 12475
IQ & cognitive operations, hebephrenic vs paranoid schizophrenics, 13009
IQ & father's socioprofessional level & family educational background, cognitive development, 7–8 yr olds, rural France, 3333
IQ test vs Categorizing Test vs Family Test, prediction of intelligent problem solving behavior, high school & college students, 5521
Otis-Lennon Mental Ability Test IQs & scores on group vs individually administered Bender-Gestalt Test, rural vs suburban kindergartners, 156
perceptions of family similarity in intelligence & personality test scores vs actual scores, adoptive vs biological families of adolescents, 9746
performance on Developmental Test of Visual-Motor Integration & Wide Range Achievement Test & Student's Perception & Ability Scale & Revised WISC, learning disabled 3rd graders, 13673
performance on psychometric & laboratory measures of cognitive processes, idiopathic dementia patients, 6021
phenotypic correlations & cultural & genetic factors, monozygotic & dizygotic twins & their families, 2957
prediction of WAIS Full Scale IQs from Quick Test scores, 46–78 yr old mental health center patients, 9395
prenatal exposure to alcohol & IQ, vigilance task performance, preschoolers, 3332
procedure for estimation of Stanford-Binet IQs, mentally retarded & gifted Ss, 2533
Quick Test IQs, newly admitted vs regular male maximum security hospitalized psychiatric patients, 2514
race & age, performance on General Cognitive Index of McCarthy Scales & Revised WISC mean Full Scale IQs, 4–5.5 vs 7–8.5 Black vs White Ss, 9312
reliability of alternate forms of Quick Test, IQs, rural 8–14 yr olds, 11694
restricted TV viewing, leisure time use & IQ change & cognitive style, 6 yr olds, 3276
Revised WISC IQ subtest scores, learning disabled & mentally retarded 8–14 yr olds, 2 yr followup, 237
scatter analysis, Revised WISC profiles, learning disabled 6–12 yr olds with IQ above 120, 13067
school & family problems & intellectual level, mentally retarded 4–14 yr olds, 1550
self esteem & school achievement & IQ, high school females, Philippines, 2069
sex differences, intellectual functioning & language arts & reading achievement & emotional development, 7th graders, 7768
sex differences & familial vs nonfamilial dextrality vs sinistrality, WAIS performance & word/nonword & face discrimination, college students, 12193
sex & racial minority status & social position & intelligence & behavior differences, 2nd graders physically separated from classmates by teacher for disciplinary reasons, 6715
sex & size & score of self drawing & IQ, self concept, mentally retarded 11–22 yr olds, 1544
sex & socioeconomic status & CA & IQ, Lock Box performance, mentally retarded vs normal 2–7 yr olds, 6072
socioeconomic status & IQ, delinquency, males born between 1944–47 & 1959–61, longitudinal studies, 1525
standardized IQ & behavior & achievement test scores, development of criteria for exit from special classes, educable mentally retarded 5–14.3 yr olds, 9063
subtest scatter on Revised WISC & higher intellectual potential, 8–17 yr olds in special classes for mentally retarded, 11388
tabulated data from 90 provinces for mean IQ & intellectual achievement & earnings & unemployment & infant mortality & migration, France, 10215
task difficulty & IQ, characteristics of self instructions & temporal relationship of private speech to problem solving, 1st graders, 2126
teacher ratings vs standardized test scores, IQ & mathematics & English performance, 5th graders, Ireland, 6692
traditional graded vs ungraded elementary schooling & IQ, affective & social & cognitive development, 7th graders, 2093
use of IQ vs adaptive behavior information, special education placement decisions, school psychology & special education graduate students, 8852
use of Revised WISC for intelligence assessment vs diagnosis, learning disabled students, literature review, 6757
validity of short form WAIS, diagnosis & assessment of intellectual functioning, neurologically impaired 18–74 yr old patients, 9334
variations in mean IQ between geographic regions, Great Britain, criticism of R. Lynn's paper, 10214
WAIS & Slosson Intelligence Test scores, mentally retarded adults, 3883

Intelligence Scales [See Intelligence Measures]
Intensity (Stimulus) [See Stimulus Intensity]
Intentional Learning
expectation of immediate vs delayed testing, acquisition of knowledge, high school students, 9079
instructions-to-learn vs item repetition & retention interval, long term free recall, college students, 11931
intentional vs incidental learning instructions & immediate recall test & list structure, long term retention, college students, 9582
mnemonic strategy & motivation to learn, paired associate learning, college students, 9568
teacher ratings of classroom hyperactivity & cognitive measures & patterns of ability, 105–148 mo old learning disabled vs 91–154 mo old nonlearning disabled children, 11340
Interaction (Double Bind) [See Double Bind Interaction]
Interaction (Interpersonal) [See Interpersonal Interaction]
Interaction (Social) [See Social Interaction]
Interaction Analysis (Statistics)
configural frequency analysis vs log-linear models, analysis of interdependence, 9448
Interaction Variance
levels of common variance & error & under- vs overrotation of factors, distortion & total amount of variance for which matrix accounts, 257
number of marker variables, magnitude of WAIS commonalities, college students, 139
Intercourse (Sexual) [See Sexual Intercourse (Human)]
Interdisciplinary Treatment Approach
biofeedback & interdisciplinary treatment approach vs traditional psychotherapy, psychosomatic patients, 1672

brain damage & subsequent long term verbal memory deficits, disruptions in vocational & social & emotional functioning, 20 yr old male, treatment implications, 8378
comprehensive therapy, chronic intractable asthmatic 6–16 yr olds in psychosomatic unit, 6 mo to 2 yr followups, 4173
conflict & special service teams, school psychology, 9073
conjoint model classroom with operant academic & behavior management techniques & staffed by teacher & psychologist, adjustment, profoundly behaviorally disordered adolescents, 11295
development of multidisciplinary preventive health department in group practice clinic & hospital, 8619
early identification of handicapping disorders & onset of developmental delay, preschool age children, UK, 10446
etiology & treatment, anorexia nervosa, literature review, 3976
holistic diagnostic & treatment approach, asthmatic patients, 8395
interdisciplinary approach, criminal violence, 3859
interdisciplinary approach in Canadian Back Education Unit, self rated improvement & evaluation of course, outpatients with low back pain, 1960
interdisciplinary treatment approach & family therapeutic goals, children institutionalized due to intolerable home situations, 1956
liaison psychiatry as bridge between psychiatry & medicine, 13219
multidisciplinary rehabilitation & support services of New York League for the Hard of Hearing, 4142
multidisciplinary treatment, hyperactive learning disabled children, 5921
multimodal therapy model, diagnosis & treatment, children in social service center, 10990
nonresidential treatments including psychotherapeutic & school based vocational & multiple strategies, juvenile offenders, 13443
problem areas, effective functioning, interprofessional child study team, 11381
problems & resolutions, staff of interdisciplinary geriatric research-assessment team, 8783
psychiatric treatment & rehabilitation, chronic mental patients, 3955
psychotherapeutic & behavioral patient-focused treatment approach, phobia, 35 yr old male, 6200
spinal cord injury treatment team in community medical center, role of psychologist, 10986
suggested solution to problems in behavior therapeutic counseling, institutionalized mentally retarded, 6509
therapeutic functions of critical event & phasic monitoring & maintenance & ameliorative therapy & treatment of communicative defenses in liaison psychiatry, 13212
trend toward widening of therapeutic approach to include other disciplines, therapists, 8393

Interest Inventories
cross-cultural factor analysis of Milwaukee Academic Interest Inventory, 10th & 12th graders & college students, US vs Swaziland, 6782
development & validity & reliability, measure of social interest, 4778

Interest Patterns
differentiation of delinquents & nondelinquents by interest patterns, 12–16 yr olds, 8195
formation of motives & interests & independence, children, Czechoslovakia, 1077

Interest Scales [See Interest Inventories]

Interest Surveys [See Interest Inventories]

Interests [See Also Occupational Interests]
activities of Research Service of I.N.O.P. & of Differential Psychology Laboratory, cognitive development & student attitudes & interests & personality, 1970–74, France, 109
changes in interest profiles, psychology students, 12839
classroom seating location, test performance & enjoyment & interest & motivation, college students, 2143
experimental approach to teaching Russian, learning, 4th graders, USSR, 8867
familiarity & imagery & interest & reading ease & word frequency, comprehension of reading passages, middle school students, 13567
formation of motives & interests & independence, children, Czechoslovakia, 1077
pictorial slides depicting personal recreational interest, GSR & relation to orienting response, male college students, 7504
sexual attitudes & interests & behavior, psychogenically vs organically impotent vs normal 35–68 yr old males, 6112
unidimensional scaling, assessment of cognitive structure of interest in English lessons, secondary education students, Germany, longitudinal study, 4370

Interference (Learning) [See Also Proactive Inhibition, Retroactive Inhibition]
actual performance of vs mere observation of performance of facial feature recognition task, transfer of learning, adolescents, replication of M. H. Marx's study, 5036
age & experience & verbal vs tactual distractors & time lapse, tactual short term memory, blind vs sighted 9–11 & 13–16 yr olds, 13122
audience presence during overt practice, learning of familiar vs unfamiliar words, college students, 11928
aural &/vs visual presentation of words & recall modality of words, proactive & retroactive interference, college students, 5048
conflict between components of CS, differential classical eyelid conditioning, college students, 450
connotative incongruity of color-word pairs, color naming, college students, replication of study by D. R. Ridley et al, 2757
contextual aides, reduction of intersentence interference, 4th & 5th graders, 3348
contextual events specific to passive vs active avoidance conditions, interference in retention of learned avoidance, rats, 611
dichotic vs monaural presentation, identification of target words, college students, 12194
double (visual-visual) stimulation, RT & interhemispheric interference, male college students, 7175
electrode placement in mesencephalic reticular formation, development of latent inhibition, rats, 5324
hippocampus, cue utilization, literature review, 3133
influence of verbal vs sensory code, memory performance, 11977
intertrial detention in vs removal from shock compartment in classical fear conditioning, escape response performance, rats, 7323
intertrial interval, taste aversion learning, male rats, 2850
intertrial vs interstimulus intervals, proactive interference, monkeys, 12054
intralist & extralist cuing, word recognition, high school & college students, 10118
intralist word similarity & semantic encoding, reduction of learning interference, college students, 2804
irrelevant cue salience, discrimination & reversal, monkeys, 2871
irrelevant information, card-sorting performance, 16–55 yr olds with severe vs mild head injuries, 13131
layout & serial order of text compounds, free recall, college students, 7245
learning of episodic material, retrieval of semantic information, 17–34 yr olds, 5014
left vs right handed tapping while reciting rhyme vs animal names vs memorizing shapes, right handed 3–12 yr olds, implications for development of speech output lateralization, 734
lexical storage & retrieval, performance on picture word interference task, Spanish-English bilingual young adults, 947
matrix cue variations, keypecking performance, pigeons, 12072
measurement & definition of interference on Stroop Color Word Test, volunteer vs nonvolunteer Ss, 11684
misleading information about face, memory for face, college students, 11952
modality effect, echoic memory, college students, 9598
order of training in expressive vs receptive use of manual signs, autism, nonverbal 11–16 yr olds, 6216
passive escape training vs noncontingent inescapable shock, degree of interference/helplessness in instrumental escape conditioning, male rats, 2863
physiological changes during short term memory tasks, male college students, 5297
presentation in right vs left visual field, Stroop interference, right handed Chinese & English speaking graduate students, 7498
prior exposure to paired vs unpaired tone CS with water UCS in classical paradigm, subsequent acquisition of aversive nictitating membrane CR, rabbits, 607
processing by same vs different hemispheres, perceptual interference effects, college students, 325
psychophysiological mechanisms in voluntary verbal reproduction, Ss, 7146
recall of color names vs printed colors, college students, implications for Stroop phenomenon, 2795
recall of different parent-child experiences & listening to aversive cues from "parent" & sex of parent & child, performance on Stroop Test, college students, 7228
recognition test, subsequent recall & recognition of categorized lists, college students, 9581

reduced auditory feedback & increased kinesic self stimulation, regulation of cognitive interference on Stroop Color-Word Test & resultant errors, 18–28 yr olds, 320
rehearsal instructions & trials, serial order short term memory performance, reading disabled 2nd vs 5th graders, implications for mediation vs production deficiency, 1543
response competition vs interference, paired associate learning, 42–65 yr old Korsakoff amnesics & nonamnesic alcoholics, 8106
sentence learning with repetition vs imagery instruction, contextual &/vs item interference on sentence information test, 4th graders, 11351
spatial memory task & similar task during retention interval, retroactive interference, male rats, 12013
suggested amnesia & verbal inhibition, disorganized recall of word list, 18–42 yr olds, 2628
suppression of subvocal rehearsal vs listening to white noise vs saying items aloud & confusable vs nonconfusable lists & presentation rate, letter sequence recall, college students, 504
time, changes in memory of length of line, college students, 447
type of interference during free recall, orderliness of recall, college students, 9596
variability of irrelevant features during acquisition, developmental differences in concept transfer, 2nd & 4th & 6th graders, 3351
verbal vs auditory interference, short term retention of traffic turn restriction signs, female vs male college students & staff, 469
visual stimulus & masking patterns & interstimulus interval, position & identity recall, Ss, 11796
vocal feedback, RT & accuracy & interference during performance on Stroop Color Word Test, male college students, 313
words associated with term "anxiety", recognition & association time, Ss, 7258
2-choice visual discrimination learning, 25–72 yr old patients with Korsakoff's syndrome vs Huntington's disease vs Broca's aphasia vs alcoholism, 8109

Intergroup Dynamics
application of H. Tajfel's model, intergroup discrimination, reply to criticism of K. M. Aschenbrenner & R. E. Schaefer, 10313
application of H. Tajfel's model, study of intergroup conflicts in minimal group situations, critique of study by A. Branthwaite et al, 10311
feeling of being understood/misunderstood by other group with regard to values of freedom & equality, groups of conservative vs liberal college students, 12741
high vs low status, response to merger of groups, State Registered vs State Enrolled nurses, 6602
individual vs group activity, level of effort exerted & loafing, male college students, 12831
intergroup contact, ethnic change, Israeli Jews & West Bank Arabs, 12644
international vs interinstitutional vs intrainstitutional vs interpersonal levels of political relationships in group relations conferences, 5609
minimal intergroup discrimination & belonging to anonymous group, positive social identity & self esteem, college students, 3596
simple & criss-crossed social categorization into ingroups & outgroups, rating of in- & outgroup members, 12–13 yr olds, 5545
social categorization, discriminatory behavior, college students, 8017
social representations & proposed strategies, ability of student protest leaders to attract allies, college students, 10316

Intermarriage [See Exogamous Marriage]

Intermittent Reinforcement [See Reinforcement Schedules]

Internal External Locus of Control
academic achievement & sex differences, locus of control & self concept, bright achieving & underachieving 4th graders, 2138
achievement motivation & locus of control, academic ability & GPA, college students, 8916
age & locus of control & achievement motivation, attributions of teachers' motive-thematic goals described in relation to individual vs social norms, students, 13635
age & sex & intelligence & locus of control & interpersonal knowledge & length of parental separation, responses to parents' divorce, 5–19 yr olds, 5459
amount of time since injury & locus of control, emotional distress & coping behavior, male spinal cord injury patients, 1618
anxiety & depression, internal vs defensive external vs congruent external college students, 8072
anxiety & hostility & locus of control in 36th wk of pregnancy, prediction of postpartum depression, females 6 wks postpartum, 5960
anxiety & locus of control, type A vs B college students, 5877
assertiveness & locus of control, female nurses of mean age 37.6 yrs, 13501
belief in luck, locus of control, 5883
belief in personal control over life events, divorced vs married White adults, 5637
biofeedback-induced relaxation training, locus of control & self concept, hyperactive adolescent males, 1811
biological vs psychological aspects of personal autonomy, 5191
birth order, locus of control, 9 yr olds from families of 3 or more children, 1098
career expectations & demographic & personality characteristics & sex, career exploration, graduate students 7 & 4 mo prior to graduation, 13721
child abuse, perceived locus of control of social events & perspective-taking skills & social sensitivity & role comprehension, 6–8 yr old abused children, 10542
claimed vs disclaimed action in psychodrama, 6302
classroom environment & student locus of control & sex differences, teacher ratings of achievement & behavior, 3rd–5th graders in open vs traditional classrooms, 2067
construction of locus of control scale in Hindi, 9th graders, 7083
construction & validity of Binge Scale, locus of control & behavioral & attitudinal parameters of bulimia, male vs female college students, 7057
cross cultural differences, locus of control, African vs European vs Indian nurses, 10225
culture, powerlessness & alienation, Nigerians vs Black & White Zimbabwean vs American college students, 5623
delay of gratification & locus of control & eating patterns, obese vs nonobese 3rd–5th graders, 10673
developmental changes in school attitude & self esteem & locus of control & optimism & motivation, middle- & lowerclass children at beginning vs end of 1st grade, 11254
development of projective measure of locus of control, 10th graders, Sri Lanka, 9389
development of Teacher Locus of Control Scale, measurement of expectations of control over student academic achievement, elementary school students, 13686
development & structure of personal control & responsibility for student achievement, teacher trainees vs practicing teachers, 13552
diagnostic category & skill training program, locus of control & trait anxiety, psychiatric patients, 11000
dimensionality & validity of multidimensional locus of control scale, prediction of health & job related outcomes in military environments, US Navy enlisted men, 11630
drinking related locus of control, prediction of attrition in alcohol drinking program, male alcoholics of mean age 42.9 yrs, 13459
expectancies & causal attribution & locus of control & achievement motivation & sex role, career innovativeness, Black vs White college females, 13714
expectancy disconfirmation & contradictory role demands & sense of external control & loss of affiliative satisfactions & developmental life changes, personal & social alienation, professionals & managers, 4486
experienced control & participation in behavioral treatment of obesity, completion of treatment, 22–57 yr old females, 13304
extrinsic incentives & perception of control over outcomes, intrinsic motivation & performance, college students, 5832
factor analytic structure, measure of faith in God & people & self & technology & relation to locus of control scores, 17–70 yr olds, 2543
family income & sex & familism, locus of control as measurement of fatalism, Anglo vs Mexican American high school students, 1132
Health Locus of Control Questionnaire, prediction of performance in weight reduction program, 17–33 yr old college students, 11631
high vs low risk & sex & academic ability & correlation with Rotter's Internal-External Locus of Control Scale, cheating, college students, 13628
human sexuality coursé, locus of control, college students, 4298
internal external locus of control, selected bibliography, implications for counseling & education of high risk & minority students, 12871
internal locus of control, academic achievement, 6th–8th graders, Sri Lanka vs US, 2121
internal vs external locus of control, self interpretation of anxiety & test performance, college students, 10390
internal vs external orientation, antisocial behavior & academic achievement, male secondary school students, Nigeria, 4363

interpersonal relationships, perceived crowding & loss of personal control, college students in double- vs triple-occupancy housing, 5731
job experience & earnings & race & education & attitudes, locus of control change, 14–24 yr old male workers, 1061
labor market performance & race & education & collective bargaining affiliation, locus of control & hourly wages, young male survey respondents, longitudinal study, 9144
learned helplessness, changes in daily activities, married vs single vs widowed 65–85 yr olds, West Germany, 1161
locus of attribution & level of control over error correction, performance following context cue use reading instruction, 3rd–5th grade learning disabled & slowly developing readers, 11302
locus of control, academic performance attribution, college students, 8078
locus of control, age & level of aspiration, 12–17 yr old male secondary school students, Nigeria, 3437
locus of control, animistic thinking, 10–13 yr olds, 3324
locus of control, assertiveness as measured by various inventories, college students, 3697
locus of control, attitudes toward biofeedback vs relaxation training vs group therapy, male pain patients, 10761
locus of control, attitudes toward successful individual with vs without prior psychiatric hospitalization, college students, 5830
locus of control, birth control knowledge & attitudes & practices, unmarried & sexually active college students under 25 yrs of age, 3577
locus of control, choice of gambling in games of luck vs skill, college students, 10384
locus of control, creativity, college students, Mexico, 3728
locus of control, disabled vs nondisabled college students, 8118
locus of control, effectiveness of rewards vs punishment in individualized instruction, college students, 4322
locus of control, evaluation of behavior modification program, male junior high school students, 4329
locus of control, intelligence & academic achievement, 15 yr olds, 3271
locus of control, job satisfaction, 26–32 yr old engineers, 6875
locus of control, loneliness & coping with somatic & psychological distress, college students, 12883
locus of control, normal vs learning disabled male 2nd–4th graders, 3882
locus of control, occupational structure, 21–57 yr olds, 4482
locus of control, perceived influence of weather on self vs other & positive vs negative emotions & behaviors, college students, 2291
locus of control, perceived utility of feedback, male vs female college students, 3725
locus of control, personality traits & social adjustment, female psychology students, 10403
locus of control, self-esteem, Black vs White high school students, 5561
locus of control, verbal ability & GPA & performance attributions, college students, 8917
locus of control & academic achievement, autokinetic perception, college students, 2639
locus of control & achievement motivation, juvenile delinquents, 3839
locus of control & age & length of hospital stay & staff perceptions of client satisfaction, satisfaction with hospital services, psychiatric patients, 4161
locus of control & amount of freedom attributed to reinforcement agents, college students, 10397
locus of control & anger expression under stressful conditions, female hospitalized depressives & patients with seriously ill children & college students & acutely & chronically ill adults, 10445
locus of control & anxiety in competitive sports situation, college athletes vs nonathletes, 3716
locus of control as multidimensional correlate of political involvement, college students, measurement & prediction implications, 1338
locus of control & attitude toward computers, college students, 12845
locus of control & efficacy expectations, persistence in problem solving, college students, comparison of theories of A. Bandura & J. B. Rotter, 10373
locus of control & EMG biofeedback performance, literature review, 3060
locus of control & energy level of whole-body vibration, accuracy on tracking task & RT & heart rate & oxygen uptake, 19–38 yr old males, 4900
locus of control & E status, prediction of hypnotic suggestibility, college students, 5878
locus of control & fixed token economy & flexible behavioral contracting systems, number of offenses & recidivism rate, 13.5–16.2 yr old Black & White male delinquents, 13441
locus of control & intent to purchase internally oriented products, college students, implications for prediction, 13798
locus of control & leadership style & effectiveness in groups, Special Forces Reserves, implications for effectiveness of military units, 1311
locus of control & modernity, certainty of religious beliefs, college students, 3731
locus of control & moral reasoning & socioeconomic status, male vs female Hausa adolescents, Nigeria, 7880
locus of control & religious affiliation, Protestant vs Catholic college students, 12852
locus of control & self esteem, political activity participation, partisan political office seekers, 7982
locus of control & self esteem & field independence, reading & math achievement, Anglo American vs Mexican American 4th & 5th & 6th graders, 13605
locus of control & sex, internal vs external attribution for failure, college students, 3647
locus of control & social interaction vs no interaction, generalized vs specific behavioral expectancies, 3619
locus of control & stages of moral reasoning, male vs female 16–19 yr olds, Nigeria, 3436
locus of control & task characteristics & work attitudes, research project leaders & team members, 13765
locus of control & traditional vs self vs placebo controlled desensitization therapy, level of test anxiety, adult male coal company workers, 10906
locus of control & verbal praise, motor performance, educable mentally retarded elementary students, 8999
Machiavellianism & locus of control as constructs of instrumentality-expectancy systems, 1326
mathematics & academic & general self concept & locus of control & achievement, 1st–12th graders, 4352
mother-child interactions in dependency problem solving task, locus of control orientation, 2nd graders, 10155
motivational dynamics, disadvantaged females with mean age 26.3 yrs, 12860
multidimensional structure of locus of control, English speaking White mothers, South Africa, 1302
neuroticism & self esteem & sex & parental characteristics & extraversion & locus of control, vulnerability to depression, postgraduate students, 8077
number of years of father loss through death vs divorce, level of external locus of control, college students, 8076
perceived control & attributions for outcome of major brushfire, homeowner victims vs nonvictims of fire, 5821
perceived freedom of choice, shift to autonomous mode of behavior regulation, 3711
perceived parental behaviors & relationships, locus of control & self esteem, American Indian vs White 12–18 yr olds, 5559
perception of locus & stability & controllability of causes of academic performance, affective reactions & expectations, college students, test of B. Weiner's model of attributions, 6683
perceptual congruity & defensive style, marital discord, couples, 3525
performance & modeling & teacher's self efficacy beliefs & locus of control & classroom climate, academic self efficacy expectations, 6th graders, 2139
privacy & territoriality sentiments & locus of control, proneness to experience of crowding, female college students, Japan, 3702
reliability & norms of Dutch translation of Self Consciousness Scale, measurement of private & public self consciousness & social anxiety, college students, 9432
reward vs response cost & locus of control for positive vs negative outcomes & sex & age, task performance, 5th vs 6th graders, social learning theory implications, 1069
self control vs self reinforcement, 1312
self rated health & income, internal external locus of control vs life satisfaction, Ss 65 yrs old & over, 12597
sex & age & locus of control & self esteem, estimates of college grades, 18–35 yrs & older college students, 13595
sex differences, academic locus of control, 3rd–5th graders, 13619

sex & external vs internal locus of control, anxiety level, college students, 12878
sex & locus of control & other affective characteristics, evaluations of instructors, graduate students, 4369
sex & locus of control & sexual influence stereotypes & sexual experience, unmarried college students, 12717
sex & lower vs middle class, self esteem & locus of control & perception of classroom social climate, 4th–8th graders, 11247
sexual guilt & control level, female alcoholics vs nonalcoholics, 13042
signal detection theory methods, reduction of correlation between scores on German version of Rotter's Internal–External Locus of Control Scale & Marlowe-Crowne Social Desirability Scale, vocational rehabilitation participants, 2526
S locus of control & level of fear appeal in questionnaire, attitudes & intentions, community residents, 8057
Umbanda vs psychoanalysis, interpretation of mental illness, psychiatric hospital unit patients & their families, Brazil, 5993
unidimensional vs multidimensional & generalized vs situation specific measures of locus of control, prediction of environmental activism & personal conservation & antipollution activities, activists vs nonactivists, 11655
validity & reliability of Levenson Locus of Control Scales, male vs female college students, 4806
work experience vs no experience, locus of control, housewives over age 65, 3739

Internal Rewards
extrinsic rewards, intrinsic motivation in classroom activities, 2116

International Relations
role of psychologists in evaluation of programs contributing to public interest, 13489
short term residence in other country, existential anxiety, French & German & British teachers, France, 5728
third-party consultation, social conflict resolution, Indian vs Pakistani nationals, 5744
utilitarian ethics & rational choice, superpowers' decisions on nuclear power deterrence, 5597

Internship (Medical) [See Medical Internship]

Interpersonal Attraction
adoption of distinguishable stereotypical mannerisms, development of counselor-patient rapport, aged, 13401
attitude similarity, aspects of interpersonal attraction including intimacy & companionship & recognition & cooperation, 10323
attitude similarity & caste preference & sex, attraction toward strangers, India, extension of M. Rokeach & H. C. Triandis controversy, 5763
attraction & internal vs external cause of need, allocation of money, male vs female high school students, 10334
attractiveness manipulation of stimulus person, halo effect in personality trait ascription & attraction, 16–56 yr old Ss, 12826
attractiveness of 3rd party arbitrator vs mediator, negotiating behavior, male college dyads, 5735
awareness of attitude similarity vs dissimilarity, attraction to stranger, male vs female college students, 8050
client age & physical attractiveness & good vs bad in-session behavior, counselor perceptions of client attractiveness, college students, 8441
communication skills, interpersonal attraction, college students, 5770
competence & individual differences, similarity/attraction effect in evaluation of mythical stimulus person, female college students, 3661
cooperative vs competitive vs individualistic experiences & sex & ethnic membership & ability differences, interpersonal attraction, Black vs White 7th graders, 5737
cooperative vs individualistic learning experiences, interpersonal attraction & achievement, learning disabled & nonhandicapped 5th & 6th graders, 11264
degree of anxiety & liking, perception of body height, 12–17 yr olds, 5455
desirable vs undesirable first name on photograph, physical attractiveness ratings, college students, 3634
direction of postural lean & body congruence, judgment of psychotherapeutic rapport, male vs female college students, 1743
dirty vs nondirty adjectives describing fictitious person, interpersonal attraction, college students, 12431
distance & eye contact & verbal reinforcement, attitude change, college students, 1264
empathy instructions & positive vs negative outcome in conversation & similarity information, liking of people heard in conversation, 1st graders, 7854
equity & self interest, perceptions of intent & liking & desire to reciprocate, graduate & college students, 8034
group success/failure & member competence & race, development of interpersonal attraction, cooperating interracial groups, 8019
helping vs nonhelping by males vs females, judgment of victim, college students, 8030
high vs low intimacy self disclosure & freedom of choice, sender & receiver liking & trust for each other & attributions & feelings during disclosure, male college students, 12814
imitation by child, attraction to child, female college students & 7th grade males, 5766
information on own unpopularity, decrease in attractiveness of peer group members & consistency of self evaluation, 18–19 yr old males, 12760
intelligence test performance & area of success predicted by performance & performer's sex & charm, liking of performer, male vs female college students, 3658
intimate vs nonintimate disclosure at 1st meeting of 2 females & other S's intimate vs nonintimate response disclosure &/vs concern, impressions of & attraction to respondent, college students, 1220
intitial attracting quality & present most annoying quality, spouses married from 2–8 yrs, 12687
level of imitation & judgment of competency vs incompetency on task performance, attraction to & imitation of confederate, female college students, 1237
masculine vs feminine males vs females, attraction in sex role preferences, college students with traditional vs nontraditional attitudes toward females, 8051
methodological validation & practice & problems, nondirective & nonprestructured interviews, 114
minimal descriptions of able bodied vs liked able bodied vs physically disabled people, personal & attitudinal traits ascribed to people, college students, 3664
model of attitudinal vs dispositional vs situational interpersonal predictions, impression formation, male vs female college students, 10355
multitrait-multimethod validation of Interpersonal Judgment Scale vs social distance scale of M. S. Schwartz vs semantic differential scale, measurement of interpersonal attraction, male college students, 11629
occupation & competence & role overload of successful women & Ss' attitudes toward women, liking for observed women, female vs male college students, 3584
opportunity vs no opportunity for thought following confusing film, reduction of confusion without resort to dissimilar other, male college students, 12822
orthodontic treatment & physical attractiveness, interpersonal attraction, college students, 12769
perceived similarity & self concept support, body build perceptions, dating couples, 3564
perceptual bonds through physical proximity & anticipated discussion, unit relation tendencies & interpersonal attraction, college students, 10309
physical attractiveness, marital adjustment, 64–86 yr old spouses, 3542
physical attractiveness & sex role congruence, interpersonal attraction, male vs female college students, 12825
positive vs negative affect-provoking music & photographs of attractive vs unattractive males, evaluation of personal character & attraction, female college students, 10353
potential dating partner's physical attractiveness & social status & self presentation, interpersonal attraction, male vs female Ss, 5776
presence vs absence of friend vs nonfriend, activity & toy play, male vs female 3–5 yr olds, 5568
rating & dating complex on college campuses during 1930s, criticism of W. Waller's 1937 article, 12713
relationship between attraction & perceived similarity to Richard Nixon & Gerald Ford, adults, 1972–1976, 12799
school behavior & achievement & physical fitness, sociometric selection of peers, 3rd–5th graders, 2145
self disclosure, interpersonal attraction, college students, 5775
self disclosure flexibility & empathy, perception of adjustment & attraction, male college student dyads, 1281
self ratings of attractiveness to opposite sex, perceptions of sex differences in ability to attract love mates, female vs male college students, 3654

sensitivity to bodily nonverbal communication, practitioner-patient rapport, physicians & their patients, 1638
severe vs pleasant initiation to interesting vs uninteresting group, attraction to group, college students, 5742
sex differences, perceptions of factors influencing male or female best friend relationships, college students, 1211
sex of S & actor, sociometric schemata mapping choices & probability of liking, 17–20 yr olds, 3601
sex role & occupational preference, attractiveness as coworker & to prospective employer & social, college students, 12727
similarity to one's self-concept & social desirability & similarity to one's ideals, interpersonal attraction & compatibility of roommates, college students, 5726
status in group, person's liking for other group members, test of M. Mulder's power distance theory, 3606
target & discloser sex & timing of self disclosure, judgments of discloser's likeability & mental stability, college students, 5756
taxonomy of heterosexual romantic relationships on dimensions of desirability & love & commitment & sexuality, college students, 5745
type of attitude similarity & situational relevance, attraction, college students, 1230
Interpersonal Communication [See Also Arguments, Bargaining, Body Language, Conversation, Double Bind Interaction, Eye Contact, Group Discussion, Interviewing, Interviews, Job Applicant Interviews, Negotiation, Parent Child Communication, Psychodiagnostic Interview]
age vs stressful life events vs illness vs war, integrative complexity in personal correspondence, British novelists, 12444
analysis of videotaped communicative interactions, language disordered 7–10 yr old dyads, 8291
behavioral cues differentiating conflict vs accord discussions, college students & married couples, 12682
changes in sensory organs & CNS, interpersonal communication, aged, 974
classroom verbal communication & social interaction, 4–5 yr old normal vs handicapped preschool students, 8933
clinical applications, symptom prescription techniques using communication elements, 10819
cognitive similarity, same-sex dyadic communication, college students, 5761
communication aspects, schizophrenia research, literature review, 1956–76, 8132
communication & interpersonal confidence, working dyads, 8013
communication media & subsidiary information & stimulus features, message redundancy, Ss, 12423
communicative & cognitive functions of echolalia, 4–9 yr old autistic males, 10515
communicative interaction with adult, problem solving performance, 3–6.5 yr olds, 3388
cooperative vs competitive orientation, choice of more or less competent discussant with same vs opposing view, college students, 12780
direct vs indirect & positive vs negative communications & expressions given, actual vs perceived peer appraisal, male vs female 4th–8th graders, 1060
family therapy as treatment of learning disabilities, 13247
group communication, quality of task solution, college students, 3605
group counseling, graduate students, 4467
instructor empathy, perceived learning climate in interpersonal communication class, college students, 11242
level of distraction & pro- vs counterattitudinal communication, perceived extremity of communication & pro- vs counterargumentation, college students, 1273
manipulation of ward furniture & mealtime routine, verbal & tactile communication & eating behavior, senile dementia patients, 8704
marital communication workshop as problem prevention service, couples & mixed groups, 4014
mixed vs like dyads, initiation strategies in peer interaction, hearing &/vs deaf dyads of 3.4–5.3 yr olds, 10742
naming & describing as reference types in dialog, 12425
nonverbal immediacy level of accomplice, increase in S's heart rate & nonverbal adjustment, female college students, testing of model of M. L. Patterson, 12758
outline for conducting effective parent-teacher conferences, teachers, 11160
participation in couple communication program, improvement in communication & relationship, married & unmarried couples, 4029
poetry, facilitation of couples group therapy, 13253
preferences & perceptions of communication styles, husbands & wives, 3528
process of question-asking in psychotherapy, 1711
psychoanalytic impact of personal & family secrets & intrafamily secret alliances, 6248
relationship between speaker's expectations & message context & requirements of listener, accuracy of interpersonal verbal communication, college students, 8012
romantic affect & self disclosure, male vs female college students, 12751
S anxiety & rumor believability & transmission from peer vs authority figure, rumor repetition, college students, 5716
sex, upward communication strategies in superior-subordinate dyads, graduate students, 3624
significance of expression of insults in Bangwa vs French vs Pidgin, Bangwa children & adolescents, Cameroon, 7892
social attitudes & interpersonal communicative processes, designs & sentiments on greeting cards, 12625
social attributions about intent & causality & stability of behaviors in conflict, communication strategies, college dormitory roommates, 5774
stochastic model of mass & interactively mediated diffusion of information, size N population, 262
teacher's age vs years of experience, success in consultation with teachers, school psychologists, 13550
training in use vs observation & analysis of verbal skills, interpersonal communication skills, speech-language pathology students, 6575
valence & mode of feedback & cultural context & groups, pluralistic ignorance in receptiveness to interpersonal feedback, Israel vs US groups, 5715
validity & reliability of Affective Communication Test, measurement of individual differences in expressiveness/charisma, college students, 2469
videotaped scenes from TV series, analysis of transcripts by speech act classification scheme vs bipolar scale ratings of each interactor, trained coders vs college students, 7729
vocal participation & open- vs closed-ended questions, perceptions of dominance in conversation, college students, 10321
Interpersonal Compatibility
attitude polarization & extremization, interpersonal affinities, group members, 3625
incongruent marital role expectations, goal value consensus, newly married couples, longitudinal studies, 7959
model similarity & self efficacy statements, O efficacy expectations & muscular endurance, female college students, 3635
mutual selection of playing partner & cohesiveness of group, learning from classroom simulation games, 5th graders, 6652
pair-bond strength & stability, reproductive success, humans & animals, literature reveiw, 659
presence vs absence of friend vs nonfriend, activity & toy play, male vs female 3–5 yr olds, 5568
sex differences, perceptions of factors influencing male or female best friend relationships, college students, 1211
similarity to one's self-concept & social desirability & similarity to one's ideals, interpersonal attraction & compatibility of roommates, college students, 5726
variables affecting perceptions of cohesiveness in team & individual sports, high school male athletes & coaches, 10139
Interpersonal Competence [See Social Skills]
Interpersonal Influences
age & social inhibition, recognition & imitation of facial expressions, 6–7 & 9–10 yr olds & college students, US vs Zambia, 5457
application of personal construct theory & repertory grid technique, analysis of culture shock in exceptional interracial marriages, Hong Kong, 12674
coalition formation, social system subgroups, 3615
consensus &/vs goodness-of-fit rules for causal attributions for strangers vs acquaintances, college students, 10360
creative alternative game, interpersonal influence processes, 3621
demonstrated task-related competence, influence potential in male-dominated groups, male vs female college students, 3599
education & on-the-job experience & interruption & teacher salience, desire to influence & self description, college students, implications for symbolic self completion theory, 12830
group size & density & number of Os & group member similarity, self consciousness & disinhibited behavior, college students & adults, 5739
indirect tactics of self presentation, 5791

individual differences in attentiveness to opportunities for influencing supervisors, effect of influence on job performance & satisfaction, Navy enlisted aircraft maintenance personnel, 13770
individual vs group activity, level of effort exerted & loafing, male college students, 12831
influence of teachers as significant others, development of self esteem & self concept, school age children, 12599
interdependence vs dependence vs independence, use & development of taking ability, college students, 3663
masculinity & femininity & androgyny, influence on marriage, 22–52 yr old married males vs females, 3545
measurement, social competence, 3 & 4 yr olds, 3459
mental illness & loneliness & helplessness, recommendations for more holistic approach to treatment, 8656
model similarity & self efficacy statements, O efficacy expectations & muscular endurance, female college students, 3635
nonshared environmental influences, differential development, siblings, 12469
number of passive spectators, speed of nonsense syllable learning, female college students, 1271
peer group influence, school achievement & occupational aspirations, elementary–high school students, data synthesis from 10 studies, 11223
perceived property rights vs friendship vs reciprocity vs personal influence, sharing behavior, 3rd vs 4th grade boys, 12615
positive vs negative affect & cooperation vs competition, achievement performance, 7–9 yr olds, 12580
positive vs negative partner evaluation, intensity of aggression directed against partner, 22–58 yr old aggressive vs nonaggressive criminals, 6058
psychodynamics, custody battle, 7 yr old male, longitudinal study, 972
relative performance of psychologically similar vs dissimilar confederate on given dimension, utility of dimension for self definition, female college students, 5893
researcher sex & sex typed communication, sex differences in influenceability, college students, 8008
self serving attribution bias in interpersonal influence situations, literature review, 12753
sex of majority vs minority influence source, conformity of opinion on male vs female related statements, male vs female college students, 12761
sex & prior knowledge, agreement with attitude discrepant vs congruent evaluations & influenceability, college students, 12790
social comparison information under anonymous conditions, choice shift, college students, 10347
social vs expectancy comparisons, judgments of fairness & satisfaction with reward, college students, 5785
socioeconomic & psychosocial dimensions, self medication, 1833
speaker friendliness & O's position on topic, influence in controversial discussion, male vocational high school students, analysis by process models, 7853
teacher presence & play activities, sex-typed play behavior, male vs female 40–62 mo olds, 12611
trainer self insight & emotional responses to group participants, 11438
validity & reliability of Affective Communication Test, measurement of individual differences in expressiveness/charisma, college students, 2469

Interpersonal Interaction [See Also Arguments, Assistance (Social Behavior), Bargaining, Charitable Behavior, Collective Behavior, Conflict, Conversation, Cooperation, Double Bind Interaction, Eye Contact, Friendship, Group Discussion, Group Participation, Group Performance, Interpersonal Attraction, Interpersonal Communication, Interpersonal Compatibility, Interpersonal Influences, Interviewing, Interviews, Job Applicant Interviews, Negotiation, Participation, Peer Relations, Persecution, Psychodiagnostic Interview, Riots, Sharing (Social Behavior), Social Dating, Violence, War]

absence of father in childhood, adult self concept & interpersonal relations with men, female college students, 3565
age differences, social participation in mixed vs single age groups, 3 & 4 yr olds, implications for preschool education, 11245
age & sex & intelligence & locus of control & interpersonal knowledge & length of parental separation, responses to parents' divorce, 5–19 yr olds, 5459
amitriptyline vs imipramine, interpersonal learning, depressed inpatients, 4087
attitude similarity between rejected & chosen male S & rejection by female, affective state & self evaluation, male college students, 3613
attitudes toward counseling & authority & interpersonal relationships, inmates in honor vs regular prison dormitories, 1978
birth- vs occupational-cohort membership & occupational status, psychosocial development, 35–64 yr old males, 5549
body image laterality & ability to relate to women & narcissism, 14–18 yr old male delinquents, 3861
change in popularity of other person, change in feelings toward & perceived feelings of other person, 5th graders & college students, 3627
city size & sidewalk density, eye contact & smiling & verbal responses to strangers, pedestrians, 1217
classification of nonverbal greetings in face-to-face interactions, college students, 10322
classroom social problem solving training program, cognitive skill improvement, suburban & inner city 3rd graders, 2114
coding system, dyadic peer interaction, preschool & school age children, 234
cognitive complexity & affect cognition, intimacy status in close relationships, college males, 3616
college faculty-students interpersonal relations, college dropout rate, 6703
communication & social processes as therapeutic factors in psychoanalytic group therapy, 6300
conceptions of ideal romantic love relationship, male vs female college students, 12719
conditions influencing initiation of contacts with parents, teachers, 4280
contact with adults vs peers, socialization, children, Guatemala, 5576
continued interaction with divorced spouse, divorced parents, 10227
cooperation required for performance of duties, interpersonal perception, chemical factory workers, 1212
cooperative vs individualistic learning experiences, cross-ethnic interaction, 4th graders, 6706
counseling for sexual & relationship problems, visually handicapped, 4154
cross racial relationships on prime time TV, 7717
definition & methodology for study & ethical concerns in experimentation, aggression, 5746
degree of intimacy motivation on TAT, group behavior & content of original dramatic scenario, college students, 12813
diverse interpretations of game between adults & 1–3 yr olds, 7894
early childhood interactions, educational potential, children, 10006
educational background & training & motivation & job satisfaction & stress factors, 27–46 yr old upwardly mobile Black managers, South Africa, 13756
effectiveness of growth groups in facilitating enduring changes in interpersonal relationships, literature review, 10846
efficacy of supervision program of development & maintenance of language training interactions, institutional staff & profoundly mentally retarded 3–7 yr olds, 8694
emotional disturbance & self esteem & significant others, adolescents, educational implications, 10513
evaluation of interactions, principals & school psychologists, 11156
existential contact with elderly person, attitudes toward elderly, Afrikaans & English speaking White & Black & Indian college students, South Africa, 12818
expectation of future interaction & partner low vs high task contribution & presence, reward allocation, female college student dyads, 8018
experimental research on "belief in a just world" as mediating hypothetical construct, literature review, 3591
factor analysis of Improvisation Test for Individuals, assessment of interpersonal style, adults, 171
factorial structure of Mach V scale, proclivities for interpersonal manipulation & deceit, White vs Mexican American college students, 11669
family interaction, families with children who are psychiatric patients, 12971
feelings of pessimism, interpersonal behavior, nonclinically depressed college students, 3715
female E attire, detail of response to request for directions, middle aged males, 5717
framework for viewing treatment of delayed linguistic development, 6218
interactions with rehabilitation staff, patients with spinal cord injuries, literature review, 11042

interaction with 4 yr olds in communication & block sort task, mothers vs preschool teachers, 4306
interactive TV laboratory, study of verbal & nonverbal interpersonal behavior, 1248
international vs interinstitutional vs intrainstitutional vs interpersonal levels of political relationships in group relations conferences, 5609
interpersonal closeness vs behavioral extinction techniques, elimination of undesirable behaviors, White male schizophrenic 25 yr old inpatient, 3947
interpersonal consequences & cooperative vs solitary task, evaluation of hypothetical actor's task achievement & outcome attributions & moral judgment, male vs female college students, 1214
interpersonal problems following successful group exposure in vivo, agoraphobics, implications for psychodynamic vs behavioral interpretation of "symptom substitution", 4053
interpersonal problem solving skills, behavioral adjustment, Black preschoolers vs kindergartners, 3293
interpersonal relations between individuals & couples, volitional effort in isometric contraction of upper limb, sports group members, 5275
interpersonal relationships, body image, psychotherapeutic implications, 3971
interpersonal relationships, perceived crowding & loss of personal control, college students in double- vs triple-occupancy housing, 5731
interpersonal space as model for nonverbal analysis of interpersonal relations, 12759
interpersonal trust, self reported life stress & coping behavior, college students, 12882
interpersonal trust & suggestibility, female college students, 12876
interpersonal vs mechanistic explanations of human interaction, 4655
interrater reliability, facial affect scoring technique as mimic classification procedure for analysis of emotional states in social interactions, 11674
intra- vs interindividual conflict condition & spatial transformation tasks, performance, Pakeha vs Pacific Island children, New Zealand, 3435
job seniority & experimental instructions, styles of ingratiating behavior, technical vs nontechnical male workers, 2266
level of sex guilt, amount of interpersonal physical pleasure delivered to confederate & reinforcement value of interpersonal pleasuring, male college students, 12768
low social competence & high anxiety in social interaction, sensitivity to nonverbal cues, female college students, 1223
mentioning disability in different contexts, desirability of interaction with physically disabled person, female college students, 10312
methodological problems, field study of psychosocial processes, mixed couples of Black African males & French women, 2404
methodology, analysis of goal structure within & between persons in social situations, female occupational therapy & nursing students, 10325
methodology, interpersonal perceptive organization & stabilization of individual in cultural system, 1276
model for hospital ward design evaluation, working environment satisfaction, nurses, 6573
model of interpersonal behavior, facilitation of research on teaching of interpersonal skills, mentally retarded, 8960
model of self fulfilling prophecy, 5846
models, initiating vs receiving propensities vs role differentiation vs reciprocal interaction, small discussion groups, 1225
mode of interpersonal orientation, hypnotic susceptability & attitudes of hypnotist & Ss, college students, 9614
mono-operation bias, construct validation, college students, 4777
motives & techniques, induced jealousy, heterosexual couples, 1249
multimethod assessment, effects of race & sex & age on interpersonal distancing, Black vs White 7 vs 11 vs 15 yr old dyads, 1089
nature of contact with handicapped person, response amplification, college students, 12764
nature & process of groups, meaning of group experience to individuals, 5759
need for social approval & physiological arousal during initial interpersonal encounters, 12752
network analysis in study of supportive social associations, 12775
neutral vs aggressive vs aggressive & erotic film & neutral vs angry interaction with male vs female, aggression toward female vs male, male college students, 3602
norms & rater reliability of Improvisation Test for Individuals as measure of interpersonal styles, 17–55 yr olds, 199
ontogenetic development of mental & interpersonal functioning & relationship with God & reality testing, 1131
paradoxical communication, interpersonal interaction, 3617
participation in relationship therapy, ability to form adequate relationships & decrease residual symptoms, 14–20 yr olds, England, 2-yr followup study, 6243
parttime employment, family & peer & coworker relations, 10th & 11th graders, 1066
perceived expectations of family & friends & social functioning, 2 structured interviews separated by 3-yr interval, 21–75 yr old chronic hemodialysis patients, 10713
perceived invasion of personal space as reaction to being photographed, 8039
Personal Assessment of Intimacy in Relationships, measurement of perceived vs expected intimacy, 18–61 yr old married vs unmarried Ss, 11686
personal construct theory, value judgments & perceptions of others in interpersonal relationships, 12772
personal impairments in professional vs private lives, teachers, 4286
personal space regulation in interaction with adult male, female 3.4–5 yr olds, 7890
perspective taking & social-cognitive competencies, interpersonal problem solving & teacher vs self ratings of interpersonal functioning, 8th graders, 10011
pimozide, symptoms & social behavior, 27–72 yr olds with personality disorders & social maladjustments & disturbed interpersonal relations, 1839
pleasant vs unpleasant vs concentration vs threatening situation, desire to be alone or with companions, 18–28 yr olds, 3632
police-community relations, descriptive accounts of recent interactions wih policemen, citizens, 7916
positive vs negative judgments of intimately known persons & involvement tendency, change in attitudes toward others, secondary school & college students, 3631
positive vs negative prior contact, reinforcing strength of approval, male 3rd–5th graders, 5460
problems in sexual & other personal relationships, mastectomy patients & spouses, counseling implications, 4132
psychotherapist unresponsiveness, implications for teaching psychotherapy, 6241
relationship enhancement vs problem solving programs, perceived heterosexual competence, premarital couples, 10839
reliability of peer social behavior rating, socially phobic patients, 10478
residential mobility, interpersonal relations, adolescents, New Zealand, 1073
role imputation & modification in process of 1st encounters, Black "beachboys" & White female tourists, Barbados, 10330
sex of juror & verdict & congruence vs incongruence between juror & confederate verdicts, confidence of juror in verdict, male vs female college students, 5743
simulation model construction, superior & subordinate interactions, 10343
situation-redefinition coping mechanism, interpersonal behavior & stress due to crowding, Ss in high vs low density norms, 8027
social assets & personal & social functioning, 18–55 yr old psychiatric patients, 5966
social behavior facilitating developmentally supportive parent-infant interactions, infants, 12583
social & educational applications, group transaction techniques, 1246
social perception game, dyads, 3649
social skills training, improved interpersonal skills & increased frequency of peer interaction, 12–16 yr old learning disabled males, 1802
state-vector formalism, intra- & interpersonal & group interaction, implications for social psychology & psychiatry, 285
structural variation in social reinforcement contingencies, exchange & cooperation, college students, 5757
subjective stress during maintained eye contact with opposite sex partner in interpersonal experiment, male vs female Ss, 12755
suggested levels of mind & awareness as ground for self knowledge, integrated psychology based on relatedness of individuals, 1353
supervisor-trainee interactional behaviors as analyzed by A. Blumberg's system, beginning supervisors, implications for supervisor training & counseling, 9185
symbiosis in learning therapy, hearing impaired & learning disabled 12 yr olds, 9007

Taoistic view, awareness & authenticity in interpersonal relationships, 1123
target gaze patterns & interaction with liked vs disliked person, personality ratings & attributions, college student Os, 5787
task-directed structure & interpersonal demands, involvement in model building task, 8–15 yr old autistic children, 10468
tasks inhibiting vs stimulating fighting & dependency, group culture & individual behavior, college students, 8005
technique for projective assessment of interpersonal relations, children, 11677
territoriality, regulation of human interaction intensity, families living in apartments, 6890
training of high-status by low-status group, influence of low status group, 7th & 8th grade males of Middle Eastern vs Western background, Israel, implications for mixed status classrooms, 6704
transitions in relationship styles, high school vs college students, 12579
type of interpersonal relationship & task performance, choice of distribution rule for reward allocation, female college students, 5730
utility of curvilinear "comfort" models, interpersonal distance preferences, college students, 1245
validation & standardization, Multifaceted Interpersonal Aggression Inventory for Boys, male 11.6–15.9 yr olds, Poland, 4794
verbal interaction between staff & residents, 8–32 yr old mentally retarded institutional residents, 8706
within- & between-group variations in satisfaction & role perceptions of leadership, differential relationships of leaders to each subordinate, Army National Guardsmen, 4541

Interpersonal Perception [See Social Perception]

Interpretation (Psychoanalytic) [See Psychoanalytic Interpretation]

Interracial Marriage

application of personal construct theory & repertory grid technique, analysis of culture shock in exceptional interracial marriages, Hong Kong, 12674
attitudes toward Euro-African mixed marriages, secondary school students, Senegal, 3486
methodological problems, field study of psychosocial processes, mixed couples of Black African males & French women, 2404
model of experiences of & adjustment to interracial marriage, Chinese husbands of Western wives, Hong Kong, 12673

Interresponse Time

discrimination & memory for recent sequences of stimuli & responses, pigeons, 671

Intersensory Processes

ability to perceive abstract similarities between paired visual & auditory stimuli, 6–14 mo olds, 10122
attentiveness to visual discrimination task & severed tendons in middle ear muscles & bipolar stimulation of olivocochlear bundle, auditory evoked potentials, cats, 3066
category & modality similarity between stimulus cue & stimulus, RT to stimulus, 19–27 yr olds, 5029
commissurotomy & subvocal number assignment, psychophysical scaling of lateralized tactile & visual stimuli, right handed male patients, 8331
conditioned inhibition of nictitating membrane response, decorticate rabbits, 9895
cortex removal, cross modal recognition, female monkeys, 9884
cross modal matching of objects & photographs, male monkeys, 9650
cross modal RT, diagnosis of schizophrenia, literature review, 10498
dichotic & bisensory list presentation, channel alteration & physically & semantically based grouping effects in recall, college students, 298
dynamic rotational vestibular &/vs optokinetic stimulation, convergence of vestibularly & visually evoked signals in mesencephalon, frogs, 12239
earth- vs head-fixed vs darkness visual target conditions, vestibulo-ocular reflex induced by voluntary head movement at various frequencies, 19–56 yr old males, 4921
eye movements & single neurone activity of the superior colliculus, integration of visual & auditory space, female cats, 7456
female sexual cycle & sex pheromones, male agonistic behavior, rats, 7382
habituation to visual vs auditory vs olfactory stimulus, crossmodal generalization, male rats, 2832
haptic to visual matching, transcortical event related potentials, cynomologous monkeys, 7437
intersensory & holistic processes, perception, 7159
intersensory processes, auditory & visual perception, 2648
intra- vs inter-modality matching, reversal errors in reading, 6–10 yr old beginning vs retarded vs dyslexic readers, 13601
lesions of prefrontal convolution & region between intraparietal & superior temporal sulci & anterior cingulate cortex, tactual to visual cross-model matching, rhesus monkeys, 7591
level of development of auditory skills, compensation for poor visual discrimination in learning to read, 2nd graders, 8918
limitations of preference methodology for study of auditory–visual coordination, 3 & 7 & 10 mo olds, 7799
matching black/white & silhouette photographs vs outline drawings with novel objects that could only be touched, male rhesus monkeys, 12079
media dialog &/vs subtitles in 1st vs 2nd language, enhancement of 2nd language skills, 5th–6th grade English speaking French students, Canada, 13577
metaphorical matching vs cross modal object recognition, female chimpanzees, 12030
modality effect, echoic memory, college students, 9598
modality of cue vs distraction task, effectiveness of retrieval cues, college students, 11948
multisensory vs visual only test information, performance on visual pattern matching task, learning disabled male 6–8.9 yr olds, 10604
perceived magnitude of multiple electrocutaneous pulses on abdomen vs auditory stimulation, normal hearing Ss, 7154
predictive validity, models for decision making in signal detection task using simultaneous auditory & visual stimuli, college students, 11751
presentation of sound before vs after picture, ease of detection of asynchrony, English vs Spanish speaking adults, 11739
reading under auditory masking condition, interference with lingual vibrotactile thresholds, 18–28 yr olds, 338
relationship of kinesthesis to visual perception, 2641
simultaneous verbal & spatial visual task administration, dichotic nonsense syllable test of perceptual asymmetry, college students, 5246
size & complexity & shape & density of geometric figures, matching pure tones to figures, college students, implications for universal phonetic symbolism, 11752
stimulus-response compatibility in numeral-verbal vs numeral-motor ensembles, RTs in choice reaction & memory scanning tasks, college students, 302
structural vs physical markers denoting phrase boundaries, accuracy of identification of point in music at which clicks occur, college music students, 7157
target presented visually vs to left vs right hand, perceptual localization, college students, 2677
vision, sound localization on horizontal vs vertical plane, sighted vs blindfolded college students, 11756

Interstimulus Interval

activity during self imposed vs scheduled pauses between feeding &/vs drinking, female rats, 5122
alternating pulse stimulus intervals, perceived pitch, reply to B. C. Moore's criticism, 11882
changes in interval between response & next stimulus, response time in choice task, college students, 5003
conditioned H-reflexes prior to leg movement, healthy Ss, 829
continuous & time-varied broadband noise, color-word test performance & word reading RTs, college students, 2627
difficulty of distractor task & interpair interval & incidental learning instructions, long term serial position effects in free recall of word pairs, college students, 463
discrimination & memory for recent sequences of stimuli & responses, pigeons, 671
display time & complexity of novel visual patterns & poststimulus processing time, short- & long term visual memory, college students, 449
ECS vs carbon dioxide anesthesia within CS-UCS interval, acquisition of conditioned taste aversion, male rats, 813
frequency & intensity of stimulus tones presented during visual tracking task, late positive component in auditory evoked potentials, 2982
increase in time delay between tones, transfer of response from loud to normal volume instructions, profoundly mentally retarded 13–16 yr olds, 8559
interreinforcement response frequency, postreinforcement pause length, pigeons, 9623
interstimulus interval, recovery of cortical evoked potential from auditory stimulation, 9.0–13.3 yr olds vs adults, 9798

interstimulus interval, temporary threshold shifts in serial presentations of loud tones., 2730
interstimulus interval & degree of difference between visual stimuli, recognition & sensory memory, college students, 11970
interstimulus interval & delay vs trace paradigm, skin conductance conditioning to potentially phobic stimuli, college students, 771
interstimulus interval duration, contingent negative variation & RT, 20–30 yr olds, 7472
interstimulus intervals, motor response latency, 21–32 yr olds, 2643
interstimulus intervals of 48 to 125 seconds, nictitating membrane conditioning, rabbits, 605
interstimulus interval & word frequency & stimulus pair phonemic & semantic & graphemic relations, RTs in Kanji character matching task, college students, 7721
intertrial vs interstimulus intervals, proactive interference, monkeys, 12054
interval predictability, recall of recency items in list learning task, 15–22 yr olds, 5523
properties of signaling stimulus & interstimulus interval, response to aversive stimulation, college students, 11988
semantic relationship & interval between prime & probe for ambiguous vs nonambiguous sentences, RT for true-false decisions, college students, 7231
signal aversion stimulus intervals, ratings of white noise aversiveness, college students, 507
slow potential shifts occurring before warning signal, contingent negative variation amplitude in interval between warning & imperative signal of RT task, 5208
spatial frequency & stimulus duration & grating persistence, reanalysis of data of A. C. Bowling & W. Lovegrove, 11840
spatial frequency & stimulus duration & grating persistence, reply to criticism by G. Stanley et al, 11775
stimulus intensity & onset asynchrony, perceptions of tone temporal order & number, college students, 11862
syllable duration, perception of distinction between stop consonant & semivowel, 4965
variation in luminance & duration & wavelength & interstimulus interval, demonstration of retinal basis for iconic memory, college students, 2700
variations in proactive & retroactive interference tone intensity & interstimulus interval, memory of tone intensity, 4th & 5th graders, 5471
varied frequency & site & interstimulus intervals of electrical stimulation of forelimb, stimulus & response generalization of habituation, neonatal & preweanling rats, 828
varied target duration & luminance & interstimulus interval, accuracy in detection of gap between 2 rectangles, 2 Os, implications for iconic memory, 365
visual stimulus & masking patterns & interstimulus interval, position & identity recall, Ss, 11796
2 methods of studying perception of 2 successive sound bursts, 2382

Intertrial Interval

body weight & age & shock intensity & retention interval, sexual dimorphism in retention of passive avoidance response, male vs female rats, 560
caffeine & trial spacing, delayed alternation performance in spatial discrimination, male rats, verification of R. A. Kesner's theory, 7336
cued vs noncued & VI retention measures, retention, bilateral vs unilateral ECT patients vs college students, 6204
delayed interval testing, identification of infants' cry signals, 18–30 yr old college students, 11729
exteroceptive feedback stimulus, shuttlebox avoidance behavior during short intertrial intervals, male rats, 12078
interreinforcement response frequency, postreinforcement pause length, pigeons, 9623
intertrial detention in vs removal from shock compartment in classical fear conditioning, escape response performance, rats, 7323
intertrial interval, taste aversion learning, male rats, 2850
intertrial interval following escape vs avoidance response, avoidance response, male rats, 5119
intertrial & preset & retention intervals, time estimation task performance, male rats, 5097
intertrial vs interstimulus intervals, proactive interference, monkeys, 12054
item exposure duration & intertrial interval & number of items, recognition accuracy, pigeons, 9649
order of participation in ESP task, task performance level, percipients, experimental replication, 4621
physical restraint & intertrial interval, acquisition & maintenance of autoshaped keypecking, pigeons, 588
placement of interpolated tones in interval between pure tones, retroactive inhibition in memorization of pitch, 11932
preparation time & intertrial interval, serial RT task performance, college students, 2782
pretraining & intertrial interval & random CS-UCS vs UCS only presentation, acquisition of response in autoshaping, pigeons, 9625
proactive & retroactive inhibition & stimulus intensity & intertrial interval, retention of loudness of single tone, 7th–9th graders, 5472
proactive & retroactive interference & intertrial interval, memory for loudness of single tone, 5th graders, 5473
proactive & retroactive interference & tone intensity & intertrial interval, retention of tone intensity, 8th & 9th graders, 5474
stimulus materials & experimental procedures & type of feedback & trial pacing & instructions, learned discrimination between reinforced vs nonreinforced displays with vs without salient feature, college students, 5039
syllogistic vs nonsyllogistic order of report & clustering vs nonclustering of related items & retest interval, response latency & belief inconsistency, college students, 5000
training to test interval & timing of pretest hippocampal electrical stimulation, retention of appetitive operant conditioning, male mice, 12040

Interval Reinforcement [See Fixed Interval Reinforcement, Variable Interval Reinforcement]

Intervals (Stimulus) [See Stimulus Intervals]

Interviewing

clinical training, clinical judgment & strategy improvement through stylistic changes, 6611
cross cultural differences, data collection on psychopathology through interviews, 2353
educational aspects & value in social casework, process recording, 4263
face-to-face vs TV-mediated interviews & conversation topic intimacy level, looking & smiling behaviors, male college students, 5747
institutional vs residential setting & IQ & factual vs subjective questions, acquiescence in interviews, moderately vs severely retarded 12–16 yr olds & adults, 12-mo followup, 8270
interviewer-interviewee & interviewer-interviewer similarity, selection interview ratings, faculty interviews & undergraduate & graduate student physical therapy applicants, 13689
interview skills training using modeling & rehearsal & videotape vs verbal feedback, responsiveness & eye contact & smiling & intelligibility & attractiveness, institutionalized mentally retarded Ss, 6327
methodological validation & practice & problems, nondirective & nonprestructured interviews, 114
microtraining system for teaching interviewing skills, counselor students & professionals, 2007
professional psychiatric team members vs survey agency interviewers, reliability & individual threshold differences of scores on Present State Examination, 18–64 yr olds, 9423
programmed learning vs microtraining, interview performance & empathy ratings, telephone hotline workers, 6606

Interviews [See Also Job Applicant Interviews, Psychodiagnostic Interview]

administration & coding of semistructured interview, measurement of identity formation in areas of occupation & religion & politics & social concerns, adolescents, 11579
demographic characteristics, refusal to participate in interviews, 2354
employee performance evaluation interview, process characteristics & outcome, nurses, 13467
evaluation of effective performance interviews, nursing supervisors & subordinates, 6838
history & reliability & validity of Iowa Structured Psychiatric Interview, psychiatric epidemiological screening, 9427
initial interview checklist, increased effectiveness, counselors & trainees, 1939
interviewer-interviewee & interviewer-interviewer similarity, selection interview ratings, faculty interviews & undergraduate & graduate student physical therapy applicants, 13689
invasion of personal space in interview, stressful behavior, male college students, 1231
level of cross interview agreement as validation method, 4725
life space interviewing, academic & social behavior, behaviorally disordered 12–15 yr old males in residential placement, 8688

mailed questionnaire vs leaving questionnaire with respondent vs telephone vs personal interview as followup procedures, survey results, 9290
measurement of dexterity with test vs interviewer judgment vs verbal responses, 73
noncognitive measures, medical school admission, 13509
race of rater & employee & prior performance record, performance ratings, Black vs White candidates for police department promotion & interviewers, 4536
reliability of measurement of adverse life experiences, adults attending health clinics, 232
telephone vs face to face interview, data differences, 2370
use of practice interviews for prediction of interview behaviors, 2344
validity of behavioral components of social interaction during interview with adult, 10–15 yr old male offenders, implications for social skills training, 2423
videotape pretraining & role induction interviews prior to group behavior modification, manifest anxiety, mental health center clients, implications for treatment outcome, 3953
Intestines
afferent duodenal receptor signals, activation of hypothalamic noradrenergic inhibitory neurons to control feeding upon satiation, 3024
intestinal distension vs electrical stimulation & Tetracaine, water intake, water deprived rats, 9826
Intimacy
analysis of close relationships, literature review, 12771
attitude similarity, aspects of interpersonal attraction including intimacy & companionship & recognition & cooperation, 10323
cognitive complexity & affect cognition, intimacy status in close relationships, college males, 3616
confederate disagreement on intimate vs superficial topic after initial positive interactions, continuation of relationships as indicated by subsequent conversation topics, college students, 1250
construction & validity & scoring system, thematic measure of intimacy motivation, 9381
degree of intimacy motivation on TAT, group behavior & content of original dramatic scenario, college students, 12813
face-to-face vs TV-mediated interviews & conversation topic intimacy level, looking & smiling behaviors, male college students, 5747
high vs low intimacy self disclosure & freedom of choice, sender & receiver liking & trust for each other & attributions & feelings during disclosure, male college students, 12814
interpersonal distances, affective responses, male-female dyads of friends vs strangers, 1218
intimate vs nonintimate disclosure at 1st meeting of 2 females & other S's intimate vs nonintimate response disclosure &/vs concern, impressions of & attraction to respondent, college students, 1220
number of caretakers & mother holding & degree of protectedness, emotional development, children, Kenya, 3441
observation of nonverbal intimacy in airport arrival & departure, traveler dyads, 1228
Personal Assessment of Intimacy in Relationships, measurement of perceived vs expected intimacy, 18–61 yr old married vs unmarried Ss, 11686
sex differences, intimacy motivation, high school students, 12598
sex & interpersonal relationship & instructions regarding criteria in reacting to personal space encroachments, affective reactions, college students, 1219
taxonomy of heterosexual romantic relationships on dimensions of desirability & love & commitment & sexuality, college students, 5745
transitions in relationship styles, high school vs college students, 12579
types of territories & quality of immediate environment, solitude & intimacy experiences, college students on vs off campus, 1244
Intoxication [See Toxic Disorders]
Intoxication (Alcohol) [See Alcohol Intoxication]
Intraperitoneal Injections
naloxone administration into periaqueductal gray vs icv vs systemically, behavioral syndromes, male rats, 9940
oral vs ip injections of methylphenidate hydrochloride vs dextroamphetamine sulfate vs placebo, level of locomotor activity, male rats, 7694
Intravenous Injections
beta-endorphin & method of iv injection, prolactin & EEG response & clinical symptom improvement, male chronic schizophrenics, 1837
drug & iv injection dose & access conditions for codeine vs cocaine vs etorphine, drug maintained leverpressing rates, rhesus vs pigtail macaques, 9973
iv beta-endorphin, behavioral change, schizophrenic & depressed inpatients, 1846
physostigmine &/vs arecoline iv, memory, Alzheimer presenile dementia patients, 13323
Intrinsic Motivation
athletic competition & development of motivation & self concept, children, 5582
attractiveness of reward &/vs behavior constraint, overjustification effect, 4th & 5th graders, 5591
control vs autonomy orientation in giving rewards, students' self esteem & intrinsic motivation, 4th–6th grade teachers, 13561
developmental differences & discounting vs perceived control vs reactance vs competing responses vs cognitive scripts, mediation of reward-induced motivation decrements, 4–10 yr olds, 5574
development of self report scale, measurement of intrinsic vs extrinsic motivation for classroom learning, 3rd–9th graders, 4428
exposure to highly helpful model, self perceptions of altruism & intrinsic motivation to help, college students, 12747
external reward, level of internal motivation, 5066
external vs internal vs no consequences, motivation attributions, kindergartners vs 3rd vs 6th graders vs college age adults, 10141
extrinsic incentives & perception of control over outcomes, intrinsic motivation & performance, college students, 5832
extrinsic reinforcement, intrinsic motivation, college students, 3674
extrinsic reward, intrinsic motivation, literature review, implications for classroom reward practices, 8929
extrinsic rewards, intrinsic motivation in classroom activities, 2116
fear of success, intrinsic motivation & causal attribution & choice behavior, college students, 5898
high motivation level task, effect of external rewards on intrinsic motivation, female college students, 11992
informational vs controlling verbal rewards & level of surveillance, task interest, college students, 1285
internal vs external motivational factors, vocational choice, Vietnamese & Czechoslovakian students, 8943
job involvement & need satisfaction, intrinsically vs extrinsically motivated managers, India, 11466
level of problem uncertainty & curiosity, incidental recognition level, high school & college students, 12484
multidimensional scaling analysis of work outcomes, criticism of extrinsic vs intrinsic dichotomous models, 243
possible undermining effects of rewards in token economy programs, 13310
religious community membership, religious orientation & meaning & purpose in life, members of Jesus People vs Hare Krishna vs Maharaj Ji Premies vs Catholic priest communities, 7953
religiousness as quest vs intrinsic end in itself, responsiveness of helping behavior to needs of other, female college students, 12784
rewards which do vs do not recognize level of ability, intrinsic motivation, female college students, 5824
task design & reward contingency, task performance & satisfaction & measures of extrinsic & intrinsic motivation, college students, 5067
taxonomies of employee work motivation, electronics company repairmen & salesmen, 4490
theory of adult education emphasizing proficency as means of motivation & evaluation, 6623
token economy vs expected vs unexpected rewards for drawing, subsequent intrinsic interest, preschoolers, 7884
winning vs losing, emotional reactions & tactical & strategical change & motivation in game playing, college students, 7282
Intrinsic Rewards [See Internal Rewards]
Introjection
aspects of internalization including introjection & projection & identification, 28
methodological difficulties in concept of projective identification, 6259
psychotherapy, psycho-emotional introjection, 6276
Introspection
access to own cognitive processes, accuracy in causal accounts of behavior, 12879
behavioral measures vs self reports of internal state changes, awareness of internal states, college students, 12895
rational emotive psychotherapy, characteristics of client's private thoughts, 8432
theories of consciousness & introspectionism in contemporary social psychology, implications for research, 10308

Introversion
alcohol, RT, introverted vs extraverted Ss, 5354
caffeine induced arousal, verbal test performance, introverted vs extraverted college students, 10371
consolidation vs reactive inhibition, individual differences in reminiscence in rotary pursuit task, extraverted vs introverted college students, 9604
extraversion/introversion & belief in ESP in abstract vs based on personal experience, college students & adults, replication of M. A. Thalbourne & E. Haraldsson's experiments, 6932
introversion-extraversion & menstrual distress, unmarried females of mean age 21 yrs, 13085
introversion & self reported reasons for & times of urge & role of tranquilizing properties, smoking, college students, 1202
introversion & sex, Rorschach experience balance, psychiatric patients, 3822
introversion vs extraversion & astrological signs, college students, 3703
intro- vs extraversion & positive ratings of words & immediate vs delayed interval posttest, recall, 11949
noise vs silence, attention on oral vs written tasks, introverted vs extraverted college students, 5083
performance of exercises using ergometer, male college student introverts vs extraverts, 335
personality characteristics, on-stage &/vs backstage participation, 18–65 yr olds involved in community theater productions, 12866
personality type & aircraft noise intensity & accompanying illumination intensity, annoyance judgments, 19–50 yr olds, 4600
personality type & aircraft noise levels & accompanying illumination, annoyance responses, 22–49 yr olds, 4599
running time & oxygen consumption & extraversion/introversion, 13–26 yr old male middle distance runners, performance prediction implications, 3036
self mutilation & personality disorders, nonpsychotic self mutilating patients, 6049
sex & introversion-extraversion, field dependence, college students, 5842
Intuition
client-centered approach & intuition, therapeutic action, therapists, 6246
clinical training, clinical judgment & strategy improvement through stylistic changes, 6611
"intuitive lawyering" alternative to scientific model in attribution process, 8041
Inventories [See Also Interest Inventories]
Bem Sex Role Inventory as measure of individual differences in self concepts vs global self images of masculinity & femininity, reply to J. T. Spence & R. L. Helmreich's criticism of gender schema theory, 4773
Bem Sex Role Inventory as measure of individual differences in self concepts vs global self images of masculinity & femininity, criticism of S. L. Bem's gender schemata, 4832
comparative validity of Likert behavior inventories vs forced choice vs projective tests, measurement of achievement motivation, male students, 216
construct & concurrent validity of Multiscore Depression Inventory subscales, college students, 9319
development of inventory for measurement of eating practices, female college students, 9350
development & validity of male & female versions of sex role behavior & preferences self report inventory, male vs female college students, 4831
factor analysis, Barrett-Lennard Relationship Inventory, married couples, 4797
factor analysis of responses to Children's Behavioral Classification Project instrument, parents of 6–13 yr olds, 4783
Kirton Adaption-Innovation Inventory, reply to criticism by G. Mulligan & W. Martin, 2491
parent report of preschool development using Minnesota Child Development Inventory, prediction of reading difficulty, kindergartners, 3-yr followup at end of 2nd grade, 11339
predictive validity & test-retest reliability, study skills inventory, high school & junior high school students, 11385
public impact of vocational interest inventories, 1972–78, 11619
reliability & factor analysis of Social Anxiety Inventory, measurement of social anxiety & skill, 18–67 yr old psychiatric patients, 7036
sex role categorization agreement between Bem Sex Role Inventory & Personality Attributes Questionnaire, college students, 9338
Source of Stress Inventory, measurement of sources of psychological stress in assessment process for use in intake/referral procedures, children with emotional adjustment problems, 9329
stability & reliability of 2 job task inventory scales & effect of sample size on stability, US Navy personnel, 207
standardization of Sandler-Hazari Obsessionality Inventory, discrimination between clinical & nonclinical populations, 7045
test construction for assessment of parental childrearing style, anxiety & coping strategies, 9–13 yr olds, 11664
validity of marital problem inventory, distressed couples in behavioral marital therapy, 4788
Inventories (Attitude) [See Attitude Measures]
Inventories (Personality) [See Personality Measures]
Inventories (Preference) [See Preference Measures]
Invertebrates [See Also Ants, Arachnida, Bees, Beetles, Butterflies, Cockroaches, Crabs, Crustacea, Diptera, Drosophila, Earthworms, Grasshoppers, Insects, Larvae, Mantis, Mollusca, Moths, Octopus, Protozoa, Snails, Worms]
aggressive mimicry of other zooplankton, natural diets, various species of siphonophores, 2934
aversive classical conditioning, defensive responses & depression of appetitive response as evidence of conditioned fear, Aplysia californica, 12081
crawling speed, power of locomotion & oxygen consumption, terrestrial slugs, 740
detection & pursuit & overgrowth of arborescent gorgonians by competitively superior milleporid hydrocorals, adult colonies of coral reef taxa, 670
invertebrates' toxicity to fish, fish feeding & community structure & evolutionary theory, Great Barrier Reef in Australia, 12092
isolation of monoclonal antibodies, identification of sensory & motor neurones, leeches, 12247
paired training, facilitation of synaptic input to motor neurons indicating aversive associative learning, Aplysia californica, 12020
Investigation [See Experimentation]
Involvement [See Also Job Involvement]
adaptation of T. M. Lodahl & M. Kejner's scale vs semantic differential measures, academic job involvement & verbal ability & personality traits & academic performance & course satisfaction, college students, 13675
community involvement, marital quality, 12666
discrepancy & involvement & source credibility, attitude change, 12806
guidelines for involvement in educational evaluation process, 6620
interpersonal satisfaction, level of involvement, college students, 5740
involvement & mythicizing & reminiscing of one's past, 44–103 yr olds, 12540
job status in managerial system & union activity, white collar government union members, 2204
locus of control as multidimensional correlate of political involvement, college students, measurement & prediction implications, 1338
model & research methodology & applications, technique for multidimensional measurement of involvement with social & political problems, 11610
multidimensional analysis of social involvement, counselors & psychologists, 2027
parental involvement in individualized educational programs, retarded children, 11303
perceived consequences & communicator likeability & topic & position advocated & number of arguments, heuristic vs systematic information processing in persuasion, college students, 8035
personal relevance of information about crime & employment & politics in local vs distant setting, use of information in decision making, college students, 1119
positive vs negative judgments of intimately known persons & involvement tendency, change in attitudes toward others, secondary school & college students, 3631
power of commitment, energy conservation, homeowners, 4596
self-perceived need for change, level of community involvement in change process, community residents, 3483
sex differences & parental influence, involvement in sports, 9–11 yr olds, 5567
socioeconomic status & sex & high school educational climate & academic involvement & contact with university faculty, orientations toward scientific & scholarly careers, college freshmen, 1968–1969, 4366
statement contents regarding delay & level of role involvement, self control in reward taking, 3.5–6.1 yr olds, 7907

task-directed structure & interpersonal demands, involvement in model building task, 8–15 yr old autistic children, 10468
TV program viewer involvement, recall of & attitude toward commercial & intent to buy, employees, 4612
Ions [See Electrolytes]
Iowa Tests of Basic Skills
canonical variate analysis of scores on Primary Mental Abilities Test vs Metropolitan Readiness Test vs Otis-Lennon Mental Abilities Test vs Iowa Test of Basic Skills, 6th graders, 9118
factorial redundancy in Iowa Tests of Basic Skills, 4th & 8th graders, 9099
Rasch model procedures vs norm-referenced grade-equivalent scale estimates, equating test scores for 6 levels of Reading Comprehension Test of Iowa Tests of Basic Skills, 9–14 yr olds, 7122
Iran
cloze procedure as assessment of readability of Persian texts, 6th vs 9th vs 12th graders vs college students, Iran, 12491
construct validity, attitude measure on marriage & sexual attitudes, 15–31 yr old Iranian vs British males vs females, 9355
creative thinking & creative personality, college students & teachers, Iran, 3682
Ireland
prevalence in county of Cornwall, mental handicaps, birth to 19 yrs old, England, 10603
prevalence of schizophrenia & other mental disorders, Ireland, 6018
seasonality of schizophrenic births, Ireland, 1921–55, 1467
teaching psychiatric case formulation skills, survey of textbooks & psychiatric training centers, Canada & US & UK & Ireland, 1991
Iris (Eye)
change in distance of fixation during monocular viewing, optic axis translation & cyclotorsion of iris & pupil, normal Os, 2689
eye color, critical flicker frequency & pressure sensitivity, male vs female 16–54 yr olds, 2657
iris pigmentation, premotor & motor RTs & latency & motor components of reflex time, college students, 5278
sex & iris pigmentation, response to pupillary attributions of happy & angry faces, male vs female college students, 3667
Iron
activity & T-maze performances, iron deficient rats, 816
state of hydration & blood protein & hemoglobin & iron & alcohol concentrations & hematocrit & erythrocyte & reticulocyte count, patients with delirium tremens, 12915
Irradiation [See Radiation]
Ischemia [See Also Cerebral Ischemia]
functional recovery & psychological & psychosocial circumstances, 15–39 yr old stroke victims, 9 mo to 5 yr followup study, 1577
Islam
chronic neurotic syndrome with somatic multiple symptomatology, Muslim females, India, 8155
cultural differences, attitudes toward school, Hindu vs Muslim high school students, 8947
cultural & sex differences, moral judgment, Hindu vs Muslim 10 & 11 yr olds, India, 5585
framework for study, Muslim "millat" character, 2381
messianic idea in Christianity & Judaism & Islam, expression in messianic delusion, 20–56 yr old Jewish & Arab patients, 8169
perception of dress, Hindu vs Muslim Ss, 7952
sex differences & cultural variations, perception of Mueller-Lyer illusion, Hindu vs Muslim 17–21 yr olds, Ind, 4902
value patterns & motive orientations, groups of Jehovah's Witnesses vs Jews vs Muslims vs Pentecostals vs Quakers vs Roman Catholics vs Lutherans, 1138
Isocarboxazid
isocarboxazide treatment, depression, patients resistant to tricyclic antidepressants, 13340
Isoenzymes [See Isozymes]
Isolation (Defense Mechanism)
personality dynamics of early truants, 8–10 yr old male truants, 8210
Isolation (Social) [See Social Isolation]
Isolation Effect
emotional & psychological effects of prolonged stay in polar regions & underwater & space flight & sensory deprivation & isolation & reduced mobility, review of Soviet literature, 2292
grouping vs isolation, feeding & food conversion & energy expenditure, domestic chicks, 5193
N-n-propyl-norapomorphine & haloperidol, footshock-elicited & predatory & isolation-induced aggression, rats & male mice, 7619
salience of item differences for association value vs difficulty, isolation effects in serial learning, college students, 478
social dominance vs subordination & exposure to females, frequency of spontaneous ejaculation, male mice, 2914
social rearing vs physical & visual isolation, diurnal death feigning, chicks, 2938
suggestion vs transient olfactory stimulation, EEG evoked potentials & electrodermal response, males who wintered-over in Antarctica, 694
word isolation in successively vs simultaneously presented serial list, short term memory, college students, 11930
Isozymes
serum creatine kinase activity during hospitalization, psychotic patients, implications for neuromuscular dysfunction in psychosis, 1456
Israel
achievement orientation, 4th–9th graders of Western vs Eastern origin, Israel, longitudinal study, 6712
acquisition of Hebrew inflectional morphology, preschool age children, Israel, 10021
age & kibbutz vs city environment, collective possession, US kindergartners vs 2nd vs 5th vs 11th graders vs 40–50 yr olds vs Israeli kindergartners vs 5th graders, 10150
compulsory safety belt wearing law, belt usage & causalty reductions, Israel, 4573
conflict, collective community, Israel, 7922
diagnostic ability of Hebrew Revised WISC, learning disabled 8–12 yr old males, Israel, 13683
ethnic origin & socioeconomic class & reading direction, handedness, high school students, Israel, 5465
governing principles & service structures of Yaffo Mental Health Center, Israel, 8641
history & current state of services for health & mental health, Israel, 6447
individual trauma & national response to external threat, college students who had vs had not been hurt in World War II & Yom Kipper War, Israel, 7921
intergroup contact, ethnic change, Israeli Jews & West Bank Arabs, 12644
mental health patterns & immigrant adjustment problems & programs, Israel, 6464
perceived contributions of industrial/organizational psychologists to human resources management, personnel executives in US vs New Zealand vs Israel, 4545
perceptions of father's vs mother's support & disciplinary practices, helping behavior, 6th graders, Israel, 5540
project for increasing confidence & self esteem in role as parent, mothers of socially disadvantaged children, Israel, 1124
reflection of culture in development of community mental health center, Israel, 8651
sexual discrimination & stereotyped attitudes toward women, Israel, 3585
survey of professional characteristics & opinions about work & training, school psychologists, Israel, 11132
training of high-status by low-status group, influence of low status group, 7th & 8th grade males of Middle Eastern vs Western background, Israel, implications for mixed status classrooms, 6704
value conceptions defining good life, college students, Israel vs US, 5600
visual field preferences for Hebrew & English words, right handed 12–13 yr olds, Israel, 12478
Italy
attitudes toward having children, economic & social-psychological values & costs, Australian vs Greek vs Italian parents, 12626
incidence of hysteria, Italy, 1966–1978, 3769
marginal society & juvenile marginality, Italy, 1129
pressure for management action to prevent workplace health risks, labor union members, Italy, 11494
syllable frequency & duration & intensity, perception of stress, Italian speakers, Italy, 9518
unemployment & suicide rates, 1962–1976, Canada & France & West Germany & Japan & Sweden & US & Italy & Great Britain, 13020
Item Analysis (Statistical)
ANOVA test reliability estimation, criticism of K. H. Lu's modification of C. Hoyt's original procedure, 135
computer program called LINK, calculation of paired item difficulties on 2 Rasch-calibrated tests, 119
confounding of response set & attitude in positive correlation matrix of attitude items, 7012

demographic correlates of item bias in Reading Comprehension section of Metropolitan Achievement Tests, Black vs White 5th vs 6th graders, 9100
development of Relative Difficulty Ratio, index of test & item difficulty for interest difficulty comparisons, 7008
explication of dimensionality, set of tests & binary items, 2418
Graduate Record Examinations Aptitude Test, measurement of analytical ability & correlation with verbal & quantitative performance, 9114
interactive computer program called INDEX, item analysis of objective tests, 82
internal structure & predictive validity of Inventory of Learning Processes, academic achievement, college students, Australia & Philippines, 9131
item difficulty & item discrimination indexes, 2410
latent trait model to estimate item difficulty & discriminations & lower asymptotes using simulation data from multiple choice achievement tests, derivation of goodness-of-fit statistic, 7137
number of items right on test, method for obtaining prediction interval of corresponding score on parallel test form, 7014
personality inventory item parameter values within & among populations, college students, England vs Australia, 131
time homogeneity of items as defined by multivariate axial symmetry & nonparametric test for J-item homogeneity, 7013

Item Analysis (Test)
analysis of factor structure, Bem Sex Role Inventory, male vs female college students, 2490
Bender-Gestalt Test performance, severely disturbed schizophrenic 7–14 yr old males, 3774
consistency of item response models with observed test data, 134
criticism of Item Analysis of Slosson Intelligence Test, 152
demographic & psychometric characteristics, Adaptive Behavior Inventory for Children, school age children, implications for cultural test bias & educational diagnosis & placement, 11377
factor analysis of items in Bem Sex Role Inventory & Personal Attributes Questionnaire & Masculinity & Femininity scales of Adjective Check List, college students, 2510
factor structure of McCarthy Scales of Children's Abilities, 6–8.5 yr olds referred for school related problems, 188
format of multiple choice items in mathematics problem solving test, item difficulty & discrimination, junior high school students, 6755
history & reliability & validity of Iowa Structured Psychiatric Interview, psychiatric epidemiological screening, 9427
information in passage & relationship to test questions, characterization of educational test questions, 4436
item analysis of Concept Assessment Kit-Conservation, measurement of intellectual development, educable mentally retarded children of 7.3–14.3 yrs CA & 3.7–10.8 MA, 9415
item analysis of Culture Fair Intelligence Test, cross cultural analysis of fairness, high school students, US vs Nigeria, 11673
item analysis of 2 scales of tolerance of ambiguity & clarification of concept, 9370
item analysis & reliability of alexithymic & psychosomatic questionnaire, assessment of factors related to cognitive style, 19–51 yr old medical patients, 195
item & factor analysis of Therapist Behavior Scale, assessment of client attitudes toward therapist directiveness, college students, 4784
Luria-Nebraska Neuropsychological Battery, item analysis of Motor scale sensitivity, patients, 7053
Nedelsky procedures for setting passing scores, classification of college students' response options on classroom tests, graduate students, 9123
psychometric analysis & development of norms for Willoughby Personality Schedule, implications for use in assertion & social skills training, 9428
Rotter's Internal-External Locus of Control Scale, sex differences, college students, 7104
sample size & linear equating, item characteristic curve parameters, 9404
sensitivity of Rhythm scale of Luria-Nebraska Neuropsychological Battery, attention & concentration disorders, patients, 9344
skills related to performance of visual items of Luria-Nebraska Neuropsychological Battery, patients of mean age 40.38 yrs with psychiatric disorders vs brain damage, 9342
study strategies & factual vs inferential test items, performance on prose comprehension test, college students, 13669
techniques for analysis of item bias, 2420

Item Content (Test)
anxiety & humorous vs nonhumorous test, test performance, college students, 11399
degree of severity of items in part 2 of Adaptive Behavior Scale, measurement of psychological & behavioral problems, 2478
demographic & psychometric characteristics, Adaptive Behavior Inventory for Children, school age children, implications for cultural test bias & educational diagnosis & placement, 11377
evaluation of Luria-Nebraska Neuropsychological Test Battery, 4833
exposure to internal vs external emotion-attribution moral theories, cheating behavior, college students, 9601
Hamilton Rating Scale for Depression, discussion of items, 10484
information in passage & relationship to test questions, characterization of educational test questions, 4436
method for interpretation of manifest & latent content in Children's Apperception Test, 4759
Nedelsky procedures for setting passing scores, classification of college students' response options on classroom tests, graduate students, 9123
questionnaire assessment of attitudes toward Christianity, membership group members, implications for psychosocial approach to explanantion of displacement effect in judgment of attitude statements, 11680
response stability & reliability & accuracy of personality inventories, reexamination of inventory items in terms of latent trait model used by R. B. Kuncel & D. W. Fiske, 7024
semantic vs figural items, reversal errors & prediction of subsequent reading achievement, Black vs White 1st graders, 4431
unidimensional vs multidimensional & generalized vs situation specific measures of locus of control, prediction of environmental activism & personal conservation & antipollution activities, activists vs nonactivists, 11655

Jails [See Prisons]

Jamaica
evaluation of anticrime program, Jamaica, 6458

Japan
adult male death, household permanence & agricultural success, pioneer Japanese farmers, Bolivia, 10213
childrearing practices, Japan vs People's Republic of China, 3471
construction & validity of adolescent moral judgment scale based on Kohlberg's theory, high school & college students, Japan, 2550
cross cultural differences, Visual Aesthetic Sensitivity Test scores, children & adults, Hong Kong vs England vs Japan, 3272
depression & psychosomatic illness, Japanese, 1385
direction & degree of ear advantage, perception of dichotically presented speech with environmental sounds, British vs Japanese college students, 7200
expectations for child mastery of developmental skills, mothers of 4 yr olds, Japan vs US, 12635
figural creative thinking abilities, Japanese vs US education majors, 1347
human factors in mining, annotated bibliography of research from sources outside US, 1970–80, 13781
Japanese method of psychotherapy called Naikan, autoanalysis with Buddhist techniques of ascetism & meditation, 13220
maternal strategies for regulation of child's behavior, mothers & their young children, US vs Japan, 1105
personality factor analysis, Eysenck Personality Inventory, English vs Japanese 10–15 yr olds, 7011
personality traits, cultural values, 15–17 yr olds, Japan, 5625
reaction to organization structure, Japanese vs Japanese-American vs American employees of Japanese-owned firms in US, 2263
recognition of neonates' cries, 21–38 yr old mothers, Japan, 5648
self evaluation & stereotyped attitudes about other managers, Japanese expatriate managers in Australia vs Australian managers vs Japanese managers returned home, 2253
sex differences, social attitudes, 10–12 yr olds & college students, Japan, 5592
sex vs cross cultural differences, speech pitch in expressions of politeness, Japanese vs English speaking male vs female 23–46 yr olds, 12433
social & economic change, childrearing attitudes & practices, mothers, Japan, 1930 vs post-World War II period vs 1979, 3485
stereotyped conceptions, estimation of work-related attitudes of partner, Australian-Japanese corporation managers in dyads, test of assimilation-contrast hypothesis, 3493
suggestions for field of child psychiatry, Japan, 1648
suicide by disembowelment as sociocultural tradition, Japan, 1515
theories & demographic characteristics, suicide rates, Japan, 1514

unemployment & suicide rates, 1962–1976, Canada & France & West Germany & Japan & Sweden & US & Italy & Great Britain, 13020
value orientation & country differences, personal value dimensions, managers, US vs Japan vs Korea vs Australia vs India, 2256
Visual Aesthetic Sensitivity Test scores, male & female Japanese vs English 11–14 yr olds vs college students, 2481
words most weighted with existential meaning, generative words & implications for religious education, young people from 3 US religious groups & Haiti & Shanghai & Japan, 9988
Japanese Americans [See Asian Americans]
Jaw
LSD, classical conditioning of jaw movement response, rabbits, 7648
reciprocity between movements of lower lip & jaw during production of front vowels, examination of O. M. Hughes & J. H. Abbs's procedures, 4968
reciprocity between movements of lower lip & jaw during production of front vowels, reply to criticism of H. M. Sussman, 4952
stimulation of amygdala & pyriform cortex & parahippocampal gyrus, quiet biting attack response & trigeminal sensory fields of lip due to hypothalamic stimulation, cats, 3085
substantia innominata stimulation, quiet biting attack & trigeminal sensory fields due to hypothalamic stimulation, cats, 3084
Jealousy
development of "psychose passionnelle", 32 yr old female with mother who developed similar syndrome 22 yrs earlier, 5933
motives & techniques, induced jealousy, heterosexual couples, 1249
Jews [See Judaism]
Job Analysis
assessment of mental health governing board training needs, presidents of governing boards of community based mental health agencies in Illinois, 8659
changes in duty assignments & supervision, personal comfort & number of admissions made & diagnostic discrepancies, psychiatric residents on call in hospital emergency psychiatric service, 2006
cognitive complexity, computer programing work, 4531
competency-based assessment for professional licensure, psychological service professionals, 13496
computer based job assignment system, potential Air Force recruits, 11430
conceptual similarity among job dimensions, illusory halo in job performance ratings, graduate students, 9176
demographic characteristics & daily activities, school psychologists under 65 yrs old, 11101
department size & personnel education & task routineness & workflow interdependence & environmental uncertainty & formal structure, leader behavior, book publishing company department managers, 4540
description of executive job in government bureaucracy, rating of projected degree of satisfaction & probability of job acceptance, civilian professionals & military officers in postgraduate administrative training, Peru, 13712
description of TI-CODAP, computerized method of job analysis for personnel management, 6858
development of composite scale, identification of subjective job difficulty dimensions, medical & surgical staff nurses, 11659
evaluation of mental load on operator of man-machine system, 6885
individual higher order need strength, attitudes toward job & job characteristics, 16 yr olds, followup study, 2259
job characteristics approach to task design, review of exploratory research & future alternatives, 4560
job content-oriented personnel selection in small business setting, 2238
job context & content changes, job interest & satisfaction & felt utilization of skills, US Air Force radio operators, 9190
job task differences, moderation of aptitude test validity, clerical personnel, 2525
job titles vs job descriptions on questionnaires, interest patterns, female 15 yr olds, 6805
management level, difficulty & variety of tasks, local government managers, 13751
need for multiple criteria to analyze multidimensional job performance, 11450
need strengths & perceptions of job scope & task characteristics, turnover & absenteeism, state & county government employees, 13774
occupational intelligence & work setting, 13743
organizational structure & job characteristics, job satisfaction & performance, publishing company nonsupervisory employees & their supervisors, 13764
overall job satisfaction as linear function of satisfaction with facets of job, female legal secretaries, 11483

facial image size, judgments of emotions vs attitudes vs personality traits, middle aged Os, 1259
forced choice adaptive procedure, subjective judgments in psychophysical measurement, 4703
group affiliation, assimilation & contrast effects biasing rating of organizations, male college students, 12817
hemispheric differences, judgments of simultaneity of 2 light flashes, right handed 18–25 yr olds, 2999
humanness/animality & unpleasantness & incongruity ratings of mythological hybrid figures, college students, 2626
integration of 1st hand crime victimization & indirect exposure to crime, judgments about frequency of crime & personal vulnerability, adults, 2764
intent vs consequences, moral judgment, educable mentally retarded vs normal school age children vs trainable mentally retarded adolescents, 8224
interpersonal consequences & cooperative vs solitary task, evaluation of hypothetical actor's task achievement & outcome attributions & moral judgment, male vs female college students, 1214
interrater reliability, police applicant screening strategies, law-enforcement-selection judges, 6834
judge accountability & responsibility, judgment of videotaped interviewed applicant, college student judges, 10357
judgments of importance of various forms of intellectual competence, college students, Australia vs Malaysia, 1063
judgments of others' just vs equal vs equitable allocations, evaluation of equality principle & own allocations, male vs female college students, 3641
jury impartiality & objective assessment & member selection, 1171
level of imitation & judgment of competency vs incompetency on task performance, attraction to & imitation of confederate, female college students, 1237
listener judgments of hypernasality vs radiographic analysis of velar positioning, hearing impaired college students, 8371
listening to radio vs television viewing of political discussion, judgment of quality of speaker & agreement with argument, Ss, 944
Machiavellianism of lawyer & interview with adversary vs nonadversary lawyer, bias in testimony, college students as lawyers & witnesses, 3561
maturity of moral judgment, resistance to temptation & social influence/authority & student activism & prosocial & antisocial behavior, implications for L. Kohlberg's theory, 1074
measurement of contingency between 2 binary variables in judgment tasks, 2552
melody vs title cues of songs, familiarity vs time of popularity judgments vs lyric recall, middle aged vs elderly, 11927
methods of change analysis, judgment of art design, elementary teacher candidates, implications for teacher education, 8827
metric vs nonmetric multidimensional scaling of similarity judgments, combination of responses of multiple Ss, 11705
model & computer program for analysis of clarity judgments, comprehension of directions in natural language texts, 11600
model for making judgments about covariations between events, social perceivers, implications for social psychology research & theory, 10348
multidimensional distance vs averaging model, similarity judgments of kinship terms, college students, 11902
nondiagnostic vs diagnostic information, predictions about individuals, college students, 1282
object rating task, consumer information processing strategies, 30–39 vs 50–59 vs 60–69 vs 70–79 yr olds, 10001
ontogenesis of emotional & conceptual evaluations, 3328
operations underlying ratio & difference subjective judgments, reply to S. J. Rule & D. W. Curtis, 9515
ordinal properties of subjective ratios & differences, nonmetric analysis of stimulus values of C. T. Veit using simulated data, 9511
pairs of letters vs rotated letters vs nonsense forms presented simultaneously vs successively, RT for "same" vs "different" judgments, college students, 11852
parental childrearing practices & self image & moral judgment development, 10th graders, 12594
perceptual & inferential processes as interdependent systems for judgment, 12745
personality characteristics, on-stage &/vs backstage participation, 18–65 yr olds involved in community theater productions, 12866
pictorial stimulus novelty & familiarity, same/different recognition, right- vs left-hemisphere-damaged adults, 13138
policy capturing, individual & group judgments, bibliography, 8011
political viewpoint of newspaper read for 2 yrs, cognitive complexity of judgment of role labels, male college students, West Germany, 414
positive vs negative social information & mood, judgments of defendants' guilt or innocence, 35–45 yr old females, Israel, 5808
pretraining on covariation concept & response format & cognitive strategies, accuracy of identification of relationship between events, 10th graders & college students, 7238
prior experience, mock juror case judgments, male college students, 1280
questionnaire assessment of attitudes toward Christianity, membership group members, implications for psychosocial approach to explanantion of displacement effect in judgment of attitude statements, 11680
repeated exposure & experimental stress, favorability of stimulus ratings, college students, 514
reporting vs nonreporting of serious vs nonserious crimes, perception of morality of action & moral level & likeability of reporter vs nonreporter, college students, 5803
same vs different judgments in verbal comparison task & subsequent recognition, event related potentials, college students, 7487
self reported confidence in evaluation of product & dogmatism, college students, implications for consumer judgment & behavior, 12856
semantic stimuli of limited vs extended response mode, semantic contrast, college students, 11912
semantic & structural coding of months, college students, 5005
sets, judgment of "more", 3–4 yr olds, 10051
sex & child's perception of & actual maternal disciplinary practices, moral judgment development, 12–15 yr olds, 1087
sex of target & assertive vs passive behavior, prediction of behavior & personality rating along sex stereotypic trait dimensions, college students, 8048
sex & various aggressive behaviors under different circumstances, moral approval, 17–68 yr olds, 3713
single vs multiple video replays vs live gymnastic vaults, reliability of scores, judges, 6990
stimulus familiarization, aesthetic judgment of paintings, 7–7.11 yr old males & females, 964
sugar in diet, judgment & learning ability & hyperactivity, children, implications for school nutrition & curriculum & teacher education, 11133
target speed & length of viewing time, coincidence anticipation in velocity judgment, normal vs mentally retarded 8–13 yr olds, 1551
theory of social knowing, symposiasts, 12744
travelers' demographic characteristics & verbal & nonverbal behavior, deception judgments, US Custom Service inspectors vs laymen, 8046
uses of bootstrapping models & comparison to equal weighting models, clinical judgment, 245
validating vs invalidating feedback of Ss judgments, conceptual organization, college students, 8047
variability vs credible intervals indexes of uncertainty in scaling experiments, 2363
visual stimulus intensity, subjective response speed in RT task, college students, 11829
vividness of evidence influencing availability in memory & favorableness of defendant, judgments of defendant's guilt immediately & after 48 hrs, college students, 3656
written transcripts vs content-filtered speech vs silent video information, judgment of conveyed emotion, college students, 12808
2-operation vs 3-operation model, process for determination of subjective ratios & differences in visual discrimination, models of C. T. Veit vs S. J. Rule & D. W. Curtis, 9484

Judgment Disturbances
methyldopa, judgmental learning, hypertensive patients vs normal Ss, 4076

Judo
personality traits, martial arts practitioners, 1336

Jumping
herbicide 2,4,5-trichlorophenoxyacetic acid during incubation, learning & activity & jumping behavior, chickens, 12398

Jungian Psychology
correlations between Eysenck's & Jung's & Sheldon's typologies, 4647
discussion of Jungian philosophy in lines of M. Naumberg & W. Frank, 3260
discussion of M. Naumberg & W. Frank & Jungian philosophy, 3261

Jungian psychological types of work of S. Aleichem, 3259
senex-puer archetype, inferiority problems, males entering puberty, 3411
Junior College Students
predictive validity & test-retest reliability, study skills inventory, high school & junior high school students, 11385
Junior Colleges [See Colleges]
Junior High School Students
acceptance of cultural diversity in designing programs for changing behavior, counselors of emotionally disturbed children, 6776
achievement motivation training program, academic achievement, 3rd–11th grade underachievers, 6663
achievement orientation, 4th–9th graders of Western vs Eastern origin, Israel, longitudinal study, 6712
achievement test performance as predictor of high school mathematics grades, 8th graders, 1–3 yr followup, 2068
analysis of disruptive behaviors on school bus & intervention in form of rewards, reduction of disruptive behaviors, 6th–8th graders, 4052
anxiety & depression & hostility, 7th vs 8th graders in vocational vs regular education programs, 11239
appropriate vs inappropriate behavior & teacher attention, 7th grade students & teachers, 4373
assessment, methods of correcting oral reading, learning disabled 13 & 14 yr olds, 9008
behavioral self-control in educational settings, children & adolescents, literature review, 4324
career options workshop, sex-role-related occupational stereotypes, 7th & 8th graders, 6627
causal attributions for performance, 2nd–8th grade tutors & tutees, 6666
classroom cooperative learning methods, achievement & race relations & self esteem, elementary & secondary school students, literature review, 8902
cluster analysis to uncover underlying group structure in populations, 6–16 yr olds referred for psychological evaluations by their teachers, demonstration of J. H. Ward's method, 9092
cognitive & affective variables & socioeconomic status, academic ability, male 7th graders, Israel, 2129
cognitive interactions, secondary science teachers & their students, 6705
concurrent validity of Woodcock Word Comprehension Test & measures of reading achievement & verbal intelligence, 6–16 yr old students, 11383
construct validity of Fennema-Sherman Mathematics Attitudes Scales, junior high school students, 9070
convergent & discriminant validity of teacher & student ratings of self esteem & achievement, 7th & 8th grade teachers & students, 7107
cooperation, school learning, 7–16 yr old student dyads, 2125
correlation of scores on short vs full version of Vernon Arithmetic-Mathematics Test, junior high school students, 11374
creativity program presented in group vs individual form, creativity dimensions of fluency & flexibility & originality, 8th graders, 13571
CREST program, facilitation of choice-making skills, elementary & junior high school students, 4318
cultural differences in teacher ratings of hyperactivity using Conners Abbreviated Symptom Questionnaire, normal & learning disabled 5.9–13.11 yr olds, Israel, 6769
development of multiple criterion screen for identification of psychiatric disorders, secondary students, 2190
development of self report scale, measurement of intrinsic vs extrinsic motivation for classroom learning, 3rd–9th graders, 4428
development & reliability of Puerto Rico self-concept scale & correlation of scores with academic achievement, 4th & 7th & 10th graders, Puerto Rico, 9062
difficulty of reading material, oral reading strategies, 4th–7th grade disabled readers, 8246
directional awareness training, letter reversals, 6–19 yr old deficient readers, 11297
educational intervention in inner city schools, prevention & remedy of problems, elementary through high school students, 4308
evaluation of group counseling in 3rd–5th grades, 12–16 yr old junior & senior high school students, 6777
factorial redundancy in Iowa Tests of Basic Skills, 4th & 8th graders, 9099
focused instruction & individual vs relative evaluation methods, mathematics achievement & attitudes, 7th graders, 11173
format of multiple choice items in mathematics problem solving test, item difficulty & discrimination, junior high school students, 6755
generation of aptitude-treatment interactions, teaching transformation geometry, 8th graders, 8898
global vs academic self concept vs need for academic competence, academic achievement, male vs female Black 8th graders, 11224
good vs poor reading comprehension & age, spontaneous text lookbacks, 4th–10th graders, 11221
homogeneous vs heterogeneous achievement grouping with concept & skill games, mathematics learning, 7th graders, 4291
intelligence vs creativity, academic achievement, 8th graders, Pakistan, 4349
internal consistency & reliability of measures of children's behavior, emotionally disturbed or learning disabled elementary school through high school students, 13672
internal locus of control, academic achievement, 6th–8th graders, Sri Lanka vs US, 2121
lateral preference, type of oral reading errors, male 7th grade good vs poor readers with vs without decoding skills, 11219
length of enrollment in bilingual education, 6th & 7th grade reading levels & GPA & self concept, Mexican American 7th graders, 13560
listening vs reading, comprehension of text content, dyslexic 6th–9th grade males, 11308
Lorge Thorndike Intelligence Test scores & grades, attributions of student ability & motivation, teachers of 6th–8th graders, 8814
mathematics & academic & general self concept & locus of control & achievement, 1st–12th graders, 4352
mathematics course based on empirical vs theoretical generalization, motivation for learning, 6th & 8th graders, 11199
meaning of & problems with school, Mexican American adolescents, 6702
method of teaching sentence kernel identification, reading comprehension & vocabulary, 9th graders, 8875
methods for modification of classroom exams, teachers of mainstreamed secondary learning disabled students, 11287
motivational program, school attendance, 13–14 yr old truant behavior disordered regular & special education students, 13536
multiple behavioral procedures, GPA & class grades & school attendance & length of absence due to suspension, junior high school students, 11203
operant conditioning, disruptive behavior, 8th grade males, 13569
peer group influence, school achievement & occupational aspirations, elementary–high school students, data synthesis from 10 studies, 11223
peer tutoring model, training as "teacher tutors" of mainstreamed peers, 8th & 9th graders, 2154
perception about school, male truant vs nontruant junior high school students & teachers, 6718
perceptions of antisocial behavior & peer regulation & individuality & attention structure in school, junior high school students & staff, 11236
performance evaluation by comparison to own vs others' prior results & achievement motivation, goal setting & attribution to efforts, 11–13 yr olds, 6693
praise-ignore vs praise-soft reprimand combination, behavior modification, disruptive junior high school students, 11259
reading purpose & passage difficulty, reading rate flexibility, 8th & 11th graders, 11220
reliability & validity of teacher rating scales of hyperactivity, teachers of 2nd–8th graders, 11393
remediation techniques, spelling, dyslexic junior high school males, 11320
review passages & type & difficulty of review questions following self instructional materials, transfer of mathematics skills, 7th graders, 6689
Rokeach Value Survey, discrimination & classification of value differences, 7th vs 8th graders in Catholic vs Episcopalian vs Friends vs public schools, 11241
school perceptions, truant junior high school females, 11261
self evaluation & school adjustment & intelligence, adolescent apprentices vs secondary school students, 8938
sex differences & coeducational vs one-sex schools, science & reading achievement & attitudes, 14 yr old students, US & Sweden & England, 4335
sex differences & high vs low self concept & attitude toward school, change when transferred from primary to secondary school, 5–13 yr olds, 8927
sex & lower vs middle class, self esteem & locus of control & perception of classroom social climate, 4th–8th graders, 11247

Slosson Intelligence Test vs Peabody Picture Vocabulary Test vs Developmental Test of Visual-Motor Integration vs Revised WISC, screening for special education placement, 6–16 yr olds, 9078
Slosson Intelligence Test vs Scale for Rating Behavioral Characteristics of Superior Students vs Revised WISC, screening for giftedness, 1st–8th graders nominated for gifted programs, 9120
social modeling & reinforcement & contracting, classroom social skills, behavior disordered 8.6–12.6 yr old students, 11294
sociometric mapping, assessment of mainstreaming effects on social achievement in elementary & junior high school classrooms, Israel & US, 6728
speech fluency & knowledge of preliminary grade, evaluations of students' achievement on oral geography examination, secondary school teachers, 13671
student physical attractiveness vs grades vs ability ratings by teachers vs test scores, male vs female 6th–8th graders & 10th grade males, 13624
Study of Mathematically Precocious Youth, program for acceleration of 7th graders with mathematical ability, 13664
surface structure of passages in reading comprehension tests & skill level, performance, students, 11344
syntax complexity & reading level, reading comprehension of graded passages, 7th graders, 4334
teacher inservice & advocacy & crisis program, student's attitudes & attendance & dropout rate, behaviorally disordered rural secondary school students, 11174
teacher & student classroom behavior, student English & mathematics achievement, junior high school teachers & students, 4266
teacher-student interaction profiles, emotionally disturbed vs nonidentified 7th–9th graders, 11238
traditional graded vs ungraded elementary schooling & IQ, affective & social & cognitive development, 7th graders, 2093
training & generalization of appropriate teaching behaviors, tutoring severely retarded student, junior high school students, 8983
training in helping preschoolers, understanding of development & learning of communication skills, 6th & 7th graders, 2084
training of high-status by low-status group, influence of low status group, 7th & 8th grade males of Middle Eastern vs Western background, Israel, implications for mixed status classrooms, 6704
usefulness of 3-trees test for diagnosis of family disturbance, 8 & 11 & 14 yr old students, Switzerland, implications for use in child psychiatry, 9076
use of volunteers in resource rooms, learning disabled 5–13 yr olds, 11278
verbal praise vs nonevaluative comments by examiner, validity of Revised WISC as predictor of academic achievement, intellectually superior elementary & secondary school students, 11391
visual vs auditory word presentation & distraction, retention, learning disabled 12–16 yr olds, 4380
weaknesses & suggested modifications, mental abilities tests, low achieving adolescents, 9066
weight training & basketball programs, basketball skills, male 7th graders, 4302
Wide Range Achievement Test vs Peabody Individual Achievement Test vs Slosson Oral Reading Test vs Revised WISC, 6.8–16.8 yr old students referred for poor academic performance, 11400

Junior High School Teachers
classroom social climate, behavior, teachers, 8839
cognitive interactions, secondary science teachers & their students, 6705
perceptions of & attitudes toward Resource Specialist Program for educable mentally retarded students, elementary & second level teachers, 9014
prediction variables & criterion related validity of National Teacher Examinations mathematics & science tests, junior & senior high school teachers, 7115
questioning strategies, primary & secondary teachers, implications for use of higher-level cognitive questioning, 4325
satisfaction with services of school psychologists with vs without teacher certification & experience, elementary & junior high school principals & teachers, 11147
social attitudes, attitudes toward education, secondary school teachers, 6639
speech fluency & knowledge of preliminary grade, evaluations of students' achievement on oral geography examination, secondary school teachers, 13671
teacher & student classroom behavior, student English & mathematics achievement, junior high school teachers & students, 4266

Junior High Schools
community mental health in rural schools, 9125
functional learning curricula model, handicapped secondary school students, 2169
positive–negative asymmetry in formal social groups, secondary school classes, 13621

Jury [See Adjudication]

Justice
adjudication procedure & verdict, defendent satisfaction with fairness, college students, 5810
attitudes toward societal moral norms & rules, 21–30 yr old criminals, 6045
attraction & internal vs external cause of need, allocation of money, male vs female high school students, 10334
availability of options, influence on perception & sense of injustice, 1260
individual utility & impartiality, equity, 5724
individual vs group gains, just vs unjust allocations of resources, 3642
judgments of others' just vs equal vs equitable allocations, evaluation of equality principle & own allocations, male vs female college students, 3641
proposed reforms, criminal justice system procedures & jury responsibility, 1184
type of interpersonal relationship & task performance, choice of distribution rule for reward allocation, female college students, 5730

Juvenile Court [See Adjudication]

Juvenile Delinquency
birth order & family size, behavior problems & psychological adjustment & socialized delinquency, White kindergartners through 8th graders, 3860
family background & psychological correlates, juvenile delinquency, literaure review, 10540
father's occupation & delinquent peer associations & rationalization & self reported minor vs predatory vs aggressive delinquency, Anglo vs Mexican American college students, 1524
group TV news watching & discussion, current affairs awareness, predelinquent vs delinquent mentally retarded 13–17 yr old males, 6522
juvenile delinquency, prevalence & common offenses, 6–17 yr olds, Nigeria, 1969–71, 8209
marginal society & juvenile marginality, Italy, 1129
maturation, delinquency devolution, 10546
pretest-posttest designs, errors in evaluation of delinquency program effectiveness, 1975
proposed curriculum, preparation for work in juvenile justice system, psychologists, 11084
psychodynamic-clinical vs sociological approach, etiology of juvenile delinquency, 10578
psychosocial characteristics, 14–24 yr old male prostitutes, interviews & limited 1-yr followup, 8188
socialization through labeling, juvenile delinquency, adolescents, 10586
socioeconomic status & IQ, delinquency, males born between 1944–47 & 1959–61, longitudinal studies, 1525
upbringing & emphasis on individual vs societal rights & system of justice, crime, juveniles, 13021

Juvenile Delinquents [See Also Female Delinquents, Male Delinquents]
antisocial behavior & criminal propensity & extraversion & neuroticism & psychoticism & lie scale scores, 13–15 yr old well vs badly behaved vs delinquent males, 13046
body type & birth order & stimulus seeking & conformity, athletes vs juvenile delinquents, use of sports to modify delinquency, literature review, 10549
Culture Fair Intelligence Test vs Revised WISC test scores, White vs Black vs Mexican American juvenile delinquents, 3837
demographic characteristics, 8–16 yr olds referred to juvenile court for firesetting, 13051
differentiation of delinquents & nondelinquents by interest patterns, 12–16 yr olds, 8195
early phase psychotherapy, antisocial adolescents, 8430
effectiveness of long vs short term approaches to treatment, juvenile offenders, 13438
evaluation, instructional program on completing job applications, 15–18 yr old minimally retarded juvenile delinquents, 6518
factor analysis, demographic characteristics, adult & juvenile prisoners, 1974

group therapy, review of outcome literature, 11–21 yr old juvenile delinquents, 8465
influences on sociability development, former institutionalized juvenile delinquents after age 20, 8218
intelligence & visual-motor performance & personality traits & age & race & sex differences, juveniles petitioned vs not petitioned to stand trial as adults, 4189
IQ above vs below 90, recategorization of Revised WISC scores, adjudicated 11–16 yr olds, 7078
juvenile delinquency, prevalence & common offenses, 6–17 yr olds, Nigeria, 1969–71, 8209
locked up vs open door management, acting out & "jailification", inpatient adolescent drug abusers, 4177
locus of control & achievement motivation, juvenile delinquents, 3839
medical histories, abused vs nonabused incarcerated delinquent children, 8216
neuropsychological functioning as measured by Bender Gestalt visual-motor test & Luria's Neuropsychological Investigation, juvenile delinquents vs functional adolescents, 3863
nonresidential treatments including psychotherapeutic & school based vocational & multiple strategies, juvenile offenders, 13443
perceptions of parental behavior & age & sex, juvenile offenders vs nonoffenders, 10584
personality traits, edging on memory for designs test, detention center youths vs criminals vs college students vs psychiatric outpatients, 181
prevalence & type of handicap, juvenile correctional institutions, 8732
psychological & legal factors, juveniles' competency to waive rights in court, 1173
psychopathology & psychodynamics assessed by personal data questionnaire & projective tests, delinquent vs abandoned nondelinquent adolescents, 3829
Revised WISC profiles, adjudicated 15 yr old delinquents subsequently incarcerated vs released on probation, 6034
rule concerning talking about vs acting on feelings, group therapy, institutionalized young delinquents, 1976
self ratings vs ratings of juvenile delinquent vs popular vs emotionally disturbed teenager labels, delinquents & adolescent psychiatric inpatients & high school students, 1363
sex & subtype & verbal reward vs punishment, discrimination learning, delinquents, 10571
skills training as rehabilitation method, juvenile delinquents, 4178
Karyotype Disorders [See Chromosome Disorders]
Keypunch Operators [See Clerical Personnel]
Kibbutz
age & kibbutz vs city environment, collective possession, US kindergartners vs 2nd vs 5th vs 11th graders vs 40–50 yr olds vs Israeli kindergartners vs 5th graders, 10150
history & childrearing practices of kibbutz movement, 12623
Kidney Transplants [See Organ Transplantation]
Kidneys
amiloride, lithium-induced diabetes-insipidus-like syndrome & lithium levels in plasma & brain & kidney & thyroid & red blood cells, rats, 12354
consultation-liaison psychiatry, renal transplant hospital unit, 1948
depressive disorders & polycystic kidney disease, 21–76 yr old patients entering home hemodialysis training, 3-mo followup, 6146
lithium treatment for 1–10 yrs, glomular filtration & urine osmolality & urine volume, 24–89 yr old affectively ill patients, 1848
long-term lithium therapy, glomerular filtration rate & calcium metabolism, 25–65 yr olds, 13356
role of & need for liaison psychiatry, intensive & coronary care & renal dialysis hospital units, 1951
Kindergarten Students
advance organizer lessons containing high-order social studies concepts &/vs high-order rules for hierarchical classification, learning of social studies concepts & hierarchical classification, kindergartners & 3rd & 5th graders, 4313
auditory discrimination, reading ability, kindergartners through 4th graders, criticism of P. Groff, 2122
awareness of syntactic structure in grammatical judgments & sentence repetitions & corrections, kindergartners through 2nd graders, 13607
Behavior Analysis Model of Follow-through program, reading & mathematics achievement, Native American kindergartners through 3rd graders, 6665
characteristics of teachers' classroom directions, direction-following behavior, kindergartners through 5th graders, 8817
cooperative games program, sharing & happiness while playing games outside of school, 5 yr old kindergartners, 8893
creativity in drawings, children from traditional vs psychoanalytical kindergarten, 2115
crisis intervention program in preschool education, behavior & intellectual development following divorce, single-parent 3.5–5 yr olds, 5448
development & validity of rational scale in use of human figure drawings, kindergarten screening measure, kindergartners, 2184
differential construct validity of preschool test battery, White & Black kindergartners, 2196
direct vs observed reinforcement, appropriate & inappropriate behavior, 5–6 yr old female kindergartners, 4330
early identification of language skills, assessment of skills needed for reading achievement, kindergartners, 9095
eating disorder as expression of group dynamics, kindergartners, 5927
ethnolinguistic status & 2nd-language fluency, social interaction & friendship choices, 3–5 yr old Anglophones vs Francophones attending preschools operating in 1st vs 2nd language, Canada, 8932
evaluation of own & classmates' ability vs teachers' ratings, kindergartners through 3rd graders, 6714
factorial validity of test item classification on Boehm Test of Basic Concepts, Mexican American & Anglo preschoolers & kindergartners, 9112
framework for teaching child assessment skills based on classroom dynamics to teacher education students, kindergarten through 6th grade classrooms, 11135
Human Figure Drawing Test, early identification of academically nonready kindergartners, 11345
invented spelling, kindergarten students, 4347
keyword method of teaching Spanish language vocabulary, keyword learning, kindergartners & preschoolers, 11201
McCarthy Scales of Children's Abilities & McCarthy Screening Test scores, prediction of academic achievement, kindergartners, 4460
organization training, grouping & recall of words in list, 4–6 yr old kindergartners, 2100
perception of & intervention strategies for social conflict among children, kindergarten teachers, 8890
physical & social stimuli in kindergarten setting, motor behavior indications of interactions with peers & teachers & work, kindergartners, 2142
play & socioeconomic status & sex, achievement in prereading & language & writing, kindergarten students, 8924
predictive validity for 1st grade academic achievement, developmental tests, Black Head Start 5 yr olds, 6749
predictive validity of Slosson Intelligence Test, identification of learning disabilities, high risk kindergartners, 4413
race & sex differences, scores on McCarthy Screening Test, American Indian vs Hispanic vs Black vs Oriental vs White kindergartners, 2202
racial preference & identification in doll selection procedure, White kindergartners through 3rd graders in multi- vs monoracial schools, replication of K. B. Clark & M. K. Clark's study, 2136
reflection/impulsivity & intelligence & socioeconomic status & race & father absence & teacher ratings, male White vs Black vs Hispanic kindergartners, 13538
relationship between Matching Familiar Figures Test & measurement of school achievement & adjustment, kindergartners & 2nd & 5th graders, 11346
reliability of McCarthy Screening Test, identification of potential learning problems, 5 & 6 yr old kindergartners, 11401
school instruction, development of memory, preschoolers & 1st graders, 2089
sex differences, conservation of numbers as kindergartners as predictor of arithmetic achievement, 2nd graders, longitudinal study, 6682
stimulation program, development of intellectual abilities, kindergartners, 2095
teacher guidelines for program planning, logic development in young children, 4290
test-retest stability of Wide Range Achievement Test scores for 1965 & 1978, kindergartners & 1st–2nd graders, 13680
therapy vs consultation interventions, kindergartners through 2nd graders, 6765
validity of preschool assessment instruments, prediction of 1st grade achievement, male vs female kindergartners, 13691

vestibular stimulation & characteristics of explosiveness & irritability & social interaction, classroom behavior, 4 & 5 yr old hyperactive males, 4390
visual pattern discrimination & reading skills, kindergartners through 3rd graders, 4337
Kindergartens
age & sex & school vs daycare, time perception accuracy, 3–5 yr olds, 5501
creativity in drawings, children from traditional vs psychoanalytical kindergarten, 2115
prevention of inadequate behavior, quality of kindergarten education, 13632
psychoanalytic kindergarten as model, prevention of psychic disease, 1629
Kinesthetic Perception
accuracy & speed of bimanual integration for kinesthetic & somesthetic & motor functions, 9.5 yr old male & 17 yr old sister with corpus callosum agenesis, 8369
algebraic models, relationship of stimulus intensity to perception for painful vs nonpainful electric shock, college & graduate students, 11745
bilateral lesion in 1 of 9 brain regions, performance on lateral differentiation task, male rats, 7614
dichoptic cyclopean stimulation, illusion of self motion opposite to motion of rotating cylinder, stereoblind & normal Ss, 4950
distance & location cues, short term memory for kinesthetic movement & distance recall, college students, 11925
kinesthetic movement aftereffects, severely retarded Down's syndrome 8.1–14.1 yr olds vs non-Down's syndrome 9–15.3 yr olds vs normal 4–6.5 & 7.1–15 yr olds, 8223
origin & development, space perception, 2335
perception of response through visual feedback, self control of gastric motility with vs without biofeedback training, medical students & personnel, 7551
position holding, human spindle afferent activity from finger extensor muscles & position responses, 9800
relationship of kinesthesis to visual perception, 2641
reliability & individual differences in 2nd-session bias, alternate form procedure for kinesthetic aftereffect, adolescents & college students, 11671
stimulus governed biases, kinesthetic figural aftereffects, comments on A. Petrie, 2345
strength & balance & kinesthesis & flexibility & rhythm & motor ability, female dancers vs gymnasts vs athletes vs untrained Ss, 7506
verbal vs visual vs kinesthetic problem presentation, problem solving, 4 vs 6 vs 8 yr olds, 5511
vibrations to distal tendons of biceps & triceps with eyes closed vs open, muscle stretching & contractions & kinesthetic sensations, human Ss, 3028
weight differences, RT in lifting to prescribed height, 9480
Kinship Structure
adaptive topographics, models of kin selection, 7971
childrearing practices & kinship relations, personality development, children among Wolofs of Senegal, Africa, 10209
disorganization of linguistic system of kinship, 18 yr old psychotic male, 1415
family & old age, 1970's, literature review, 10265
genetic components of kin selection, 7424
kinship, literature review, 1970's, 10243
pair-bond strength & stability, reproductive success, humans & animals, literature reveiw, 659
Klinefelters Syndrome
patient histories, 31 & 35 yr old male schizophrenics with 47 XXY chromosomal patterns & with no family history of schizophrenia, 10433
social class & criminal behavior, Klinefelter males with karyotype 47,XXY & hypogonadal males with karyotype 46,XY, 10-yr followup, 1384
Knowledge Level
academic achievement, self-evaluation of academic performance & knowledge of instructor's grading criteria, college students, 6691
achievement & perceptions of psychology & psychologists, college vs postgraduate students in education vs college students in science, 8809
acquisition of social knowledge & use in making judgments, 12750
advance knowledge of correct diagnosis, probability estimates of 4 diagnoses & prediction of accuracy, physicians, 3945
age differences, consensual knowledge of experiential determinants of emotion, kindergartners & 3rd & 5th graders, 7847
age & sex, understanding of socioeconomic concepts, 6–15 yr old Malaysian Chinese, 7836
anticipated discussion & knowledge level of 3rd party, causal attributions, male vs female college student actors vs Os, 1274
attendance vs number of reading & mathematics courses vs college aptitude test scores, knowledge of consumer economics & competency, high school students, 13598
behavioral approach to education & self care & metabolic control, diabetes mellitis patients, 1830
beliefs about motion of objects in absence of external forces, college students, 9478
childbirth education, maternal anxiety reduction, primigravidae, 1890
classification system, knowledge associated with intellectual skills in learning hierarchy, implications for instruction, 2133
cognitive vs outcome feedback & task congruence & properties, probability learning, college students, 446
correlation of intramural & extramural measures of knowledge in clinical medical sciences, 4466
degree of psychiatric contact & sophistication, attribution of personal problems to disposition vs environment & use of psychiatric & psychological services, college students, 13685
developmental differences, knowledge level about adoption, nonadopted 1st & 3rd & 7th & 9th & 11th graders, 5544
development of self report scale, measurement of intrinsic vs extrinsic motivation for classroom learning, 3rd–9th graders, 4428
discussion of Piaget's structural developmental psychology, function & knowledge, 5478
ecological approach to social knowing, 12737
experience with infants, knowledge of infant care, unmarried female college students, 3526
external object context & age, knowledge of household item names & appropriate locations & retrieval from long term memory, 2–4 yr olds, 3376
formal operational proportionality tasks & concrete operational conservation tasks, assessment of knowledge, 3rd–12th graders & college students, 10103
group participation &/vs knowledge of other's positions, choice shifts in blackjack gambling & advice-giving situations, male college students, 1242
imagery vs verbalization vs chunking vs informed choice, acquisition & retention & transfer of serial learning, college students, 2797
influence of setting information, story recall & feelings of comprehension, 8 vs 10 yr olds, 3331
information about & experience with handicapped, mainstreaming knowledge & attitudes, regular education teachers, 8836
information about opponent's profit structure, changes in bargainer's aspiration level, college students, verification of "information-aspiration" hypothesis of W. Hamner & D. Harnett, 12793
information about purpose of test results, scores on Minnesota Teacher Attitudes Inventory, college students, implications for validity, 2459
information about situation & norms & role taking ability, predictions of altruism vs self interest, 10 vs 13 vs 16 yr olds, 1055
in-house test of psychiatric knowledge, psychiatric residents, 4261
intelligence vs knowledge of & adaptation to environment, coping strategies, young vs aged Ss, 7763
judge's instructions & attorney tactics, decision making, mock jurors, 3559
knowledge about self actualization & pretesting, scores on Personal Orientation Inventory, college students, 176
knowledge & anxiety about postcoronary sexual activity, 43–64 yr old wives of postcoronary patients, 13164
knowledge & cognitive development, 1016
knowledge of body schema & human figure drawing, brain damaged vs normal 4–6 yr olds, 8308
knowledge of elementary arithmetic, adults educated 10–20 yrs earlier, 2784
knowledge of grammatical relations in illocutionary sentences, deaf & hearing 9–10 yr olds, 3899
knowledge of orthography, conceptualization of phonemic structure of words, 4th graders, 5486
knowledge of semantic roles, ability to identify important information for summary writing, college students, 9537
knowledge of team name, rating of football team quality & prediction of game outcome, college student fans vs oddsmakers, implications for use of mathematical model, 429
knowledge & treatment of depressive conditions, general practitioners, 1682

level of consciousness of school policies arising from Public Law 94-142, general vs special education teachers & administrators, 13649
levels of statistical knowledge needed to use time-series designs, 4868
locus of control, birth control knowledge & attitudes & practices, unmarried & sexually active college students under 25 yrs of age, 3577
measurement, environmental attitudes & knowledge, replication of study by M. F. Maloney & M. P. Ward, 2535
military knowledge & decisiveness, administrative & technical & combat performance, US Army officers, 4525
mixed motive vs no conflict games with vs without choice dominance, perception of matrices & improvement, 2796
molecular cognitive & perceptual processes in social knowing, 12748
mothers' encouragement of verbalization & knowledge of letters & numbers, 3 yr olds, 12538
neuropsychological diagnosis & teacher knowledge of biological defects, student academic achievement & teacher efficacy, teachers of impaired children, criticism of H. B. Reed's study, 8826
nursing subunit technology, instability & uncertainty & variability, nurses, replication of study by P. Overton et al, 11102
open communication & experiences with death of pets, development of healthy attitudes & understanding of death, young children, educational implications, 967
open vs well defined problem, information seeking patterns & decision making, college student, 4977
paired associate learning, search time & recall & feeling-of-knowing states, college students, 11960
parental knowledge of PL 94–142 & individualized educational programs for their children, 9053
partial knowledge & scoring multiple choice tests, 185
perceptual & inferential processes as interdependent systems for judgment, 12745
political simulation game, enjoyment & perception of learning & understanding of urban politics, college students, 6654
prior exposure to experiment topic, understanding of experimental material at time of presentation, 6–6.7 yr olds, 3304
quiz composed by questioner, rating of general vs specific knowledge of questioner vs answerer, male vs female college students, evidence for fundamental attribution error, 12824
ratings of necessary entry level skills for music therapists, clinicians & educators & interns, educational implications, 11068
relative frequency of consultee lack of knowledge & skills & confidence vs objectivity, teachers consulting school psychologists, 9091
research attitudes & knowledge, research in music therapy, music therapists, 10779
resources including health & income & social integration & knowledge about retirement & ecological conditions & life satisfaction & age, adjustment, aged Ss, 3290
rule assessment approach, existing knowledge & ability to learn, 5–17 yr olds, 12549
school based remedial parent training & educational camp for children, knowledge & teaching skills, parents of mentally retarded children, 11270
self assessment prior to examination & year of residency training & age & sex & study time as predictors of performance, psychiatric knowledge self assessment, psychiatric residents, Canada, 2028
self evaluation of knowledge of exceptional children & individualized educational programs & ability to teach all types of handicapped, Title I reading teachers, 13640
sex differences, psychological & vocational sex role stereotypes, Anglo vs Hispanic kindergartners, 10157
sex & prior knowledge, agreement with attitude discrepant vs congruent evaluations & influenceability, college students, 12790
sexual awareness & desire for sex education, spastic & mentally retarded further education students, 4379
sexual guilt & knowledge, attitudes toward abortion, college students, 10131
simulation game, multiple choice test performance & recognition of sociological concepts, students, 6673
social modeling films, smoking knowledge & intentions & behavior, 7th–9th graders, 10301
S & target sex & immediate vs delayed disclosure of stimulus person's homosexuality, stereotypical & sociometric ratings, college students, 1267
strategies for concealing lack of knowledge from colleagues & clients, marriage therapists, 8775
subjective efficacy & openness to change & propensity to plan, family planning knowledge & attitudes toward small family, married females, India, 3536
subject matter knowledge, text generation & recall in problem solving task, college students, 5046
tacit vs conscious knowledge, pattern recognition, implications for models of human memory, 471
test knowledge & distortion of self presentation instructions, validity of obvious vs subtle personality measures, college students, 178
theory of social knowing, symposiasts, 12744
true-false ratings of series of statements & feedback & subsequent rating of same statements, memory of original knowledge state, college students, 9578
understanding of interrelated dimensions of velocity & time & distance information, 5 vs 10 vs 17–34 yr olds, 1047
work behavior & product vs job knowledge & mechanical aptitude, test-retest reliability, trainee lathe operators, 11449
world knowledge & discriminability & truth value of beliefs, comprehension & memory of text, college students, 495

Knowledge of Results

auditory vs visual vs multisensory preferences & instruction modality & praise & verbal feedback, recall of new words, learning disabled elementary school students, 4395
communication task & high vs low feedback about performance, attribution of responsibility, high school students with high vs low conceptual level, 12616
hindsight vs foresight conditions, perceived likelihood of outcome of pregnancy test, females, 9550
immediate knowledge of placement accuracy & use of borders, reproduction of spatial placement of dot, college students, 5038
information presented & experimental instructions, probability learning, college students, 11966
knowledge of performance & videotape replay, improved performance on balance-beam routine, female 12–13 yr olds, 1035
knowledge of results, short term retention of linear positioning task, 24–31 yr old males, 2645
knowledge of results of previous performance, facilitative effects of practice, college students, 2786
learning of programmed vs feedback based processes controlling 2-dimensional positioning response, college stuents, 11737
manipulated skill related feedback, expectancies of future outcome & performance on WISC Coding test, 8th graders, 3384
method of transmission of knowledge of results information, length of RT prior to longer lasting responses, college students, critique of study by B. Kerr, 11746
precision of knowledge of results, gross motor coincidence-anticipation task performance, college students, 11744
true-false ratings of series of statements & feedback & subsequent rating of same statements, memory of original knowledge state, college students, 9578

Korea

performance of East-West Questionnaire indicating Eastern vs Western belief system orientation, Korean medical & nursing students vs US college students, 12648
value orientation & country differences, personal value dimensions, managers, US vs Japan vs Korea vs Australia vs India, 2256

Korsakoffs Psychosis

category & context shifts in successive lists of nouns, recall & proactive interference, Korsakoff amnesic vs alcoholic patients, 13165
feature cues at input & output, word recall, male alcoholics vs nonalcoholics vs Korsakoff patients, 8310
issues concerning supplementation of alcoholic beverages with thiamine, prevention of Korsakoff's psychosis, Australia, 10783
odor discrimination & memory, patients with Korsakoff's psychosis, 1598
olfactory recognition & recall, 34–68 yr old hospitalized Korsakoff vs non-Korsakoff alcoholics, 12914
prefrontal cortex dysfunction, odor perception, patients with prefrontal lesions vs alcoholic Korsakoff patients, 10719
rate & duration of category exemplars retrieval, 52–70 yr old alcoholic Korsakoff patients, 8348
recall of clusterable vs nonclusterable lists, 48–68 yr old alcoholic Korsakoff vs 45–64 yr old alcoholic patients, 12924
recall of significant events over 2 yr period, 56 yr old male alcoholic, 8122
response competition vs interference, paired associate learning, 42–65 yr old Korsakoff amnesics & nonamnesic alcoholics, 8106
selective & divided attention, male patients with Korsakoff syndrome, 5992

semantic vs nonsemantic vs no encoding instructions, recall & recognition, 45–67 yr old Korsakoff patients vs alcoholics, 12919
spatial vs visual reversal learning, 20–72 yr old patients with Korsakoff's syndrome vs Huntington's disease vs aphasia vs alcoholism, 8108
stab wound to brain & ECT & alcoholic Korsakoff syndrome, extent & patterns of remote memory impairment & retrograde amnesia, amnesiacs, 8315
unguided learning instructions vs high- vs low-level orienting task, recognition memory for faces & random shapes, 55–59 yr old male amnesic alcoholic Korsakoff patients, 8107
word list organization imagery level, recall & recognition, male alcoholic Korsakoffs patients with mean age 61 yrs, 10493
2-choice visual discrimination learning, 25–72 yr old patients with Korsakoff's syndrome vs Huntington's disease vs Broca's aphasia vs alcoholism, 8109

Kuder Occupational Interest Survey

Kuder Occupational Interest Survey, prediction of success from police training academy, male recruit graduates vs those who resigned vs were dismissed, 9376
overlap of male vs female normed scales for Kuder Occupational Interest Survey, 2219
subscale correlations on Kuder Occupational Interest Survey, police trainees, 4487
validity & reliability of Kuder General Interest Scale, Zuni 9th graders, 166

L Dopa [See Levodopa]

Labeling

assessment of attitudes toward crippled & mentally retarded & mentally ill, 3rd & 6th graders, implications for social labeling theory of mental disorders, 1099
behavior therapy with labeling & expectations of success, restoration of morale & coping with learning difficulties, students & patients, 1826
cautions about oversimplification in use of neuropsychology in special education, critique of articles in present issue of journal, 11392
child characteristics & handicap label, attribution of 10 yr old male to handicap category, regular & special education elementary school teachers, 11142
cognitive labeling, emotional & behavioral effects of alcohol, 938
diagnostic criteria & applications & potential professional abuse, querulous paranoia, 6004
diagnostic labeling, special education placement decisions, educational personnel, 2161
differences in norms used for definition of mental retardation by social agencies, 13436
educable mental retardation label &/vs psychometric information, teachers' attributions & instructional prescriptions, elementary school teachers, 8845
identification of health risk, illness behavior & others' derogatory perceptions, high risk pallet plant workers, 12926
imagery vs kinesthetic vs labeling vs informed choice learning strategies, initial learning & retention & transfer of motor skill, college students, 496
imprecision of classification systems, behavior disorders, children, 6048
labeling, failure attribution & success expectations, college students, 8055
labeling, hypothesis-testing behavior, college students, 2760
labeling child as educable mentally retarded, impressions of attractiveness & academic & behavioral potential of Black vs White vs Mexican American children, elementary school teachers, 6628
labeling theory of mental retardation, social reinforcement for playing stereotyped deviant roles, 8268
locus of control, attitudes toward successful individual with vs without prior psychiatric hospitalization, college students, 5830
matching emotional labels & visual forms, college students, 509
name change, gender dysphoric patients, 12938
nature of disorder, recognition of emotions in facial expressions, schizophrenic vs anxious depressed vs unsocialized aggressive school age children, 10534
need for revision of ethical guidelines concerning informed consent procedures, 13505
perceived socioeconomic status & ethnicity, attributions of positive & negative behavior of children, school psychologists & parents & teachers, 4285
preference & perceived similarity & ethnic self labeling, development of outgroup attitudes, Black vs White preschoolers & 1st graders, 7846
representations of psychopathology with labels vs personality types vs DSM II nomenclature, dimensions of psychopathology descriptors, college students, 10508
rule difficulty & practice & response label, complete learning, 13–14 yr olds, 10033
self ratings vs ratings of juvenile delinquent vs popular vs emotionally disturbed teenager labels, delinquents & adolescent psychiatric inpatients & high school students, 1363
socialization through labeling, juvenile delinquency, adolescents, 10586
spatial organization & cognitive development sources of letter recognition errors, children, implications for labeling, 7780
teacher expectations, labeling, learning disabled students, 4406
test structure & reading time & title, comprehension & recall, college students, 9981
unitary vs spatially separated multidimensional stimuli & name & training, recognition memory, kindergartners vs 2nd graders, 12485

Labor (Childbirth)

EMG muscle relaxation training, shortening 1st-stage labor in Lamaze childbirth method, women experiencing 1st pregnancy, 8611
maternal attitudes & Lamaze training participation & demographic characteristics, prediction of length & manageability of labor, mothers, 13368
pre- & perinatal characteristics, victims of Sudden Infant Death Syndrome vs survivors, 10700

Labor Management Relations

attitude of union steward vs union members, number of grievances filed, union members & stewards, 11477
attitudes about union-management cooperation in worklife improvement efforts, union leaders, 11485
attitudes toward collective bargaining, teacher association presidents vs school superintendents, 8835
attitudes toward union role in negotiating quality of worklife & productivity & traditional issues, railroad union members, 6869
collective bargaining contract policies, absenteeism, transportation service employees, 4548
cooperative efforts & psychologists' role, improvement of worklife conditions, Canada, 11503
demographic characteristics & influence, trade union members, UK, 11505
external environment & behavioral predispositions & committee structure, facilitation of problem solving in bargaining, labor-management committee members, 11459
formal grievance procedures in organizations, conflict management & adjudication & agreement clarification & communication & due process, 6866
mathematical models of conventional vs final offer arbitration processes, industrial disputes involving public safety personnel legally prevented from striking, 2250
mediating role of industrial psychologists, Poland, 11119
negotiator strategies & degree of negotiator influence in labor-management negotiations, trade union members, 11491
pressure for management action to prevent workplace health risks, labor union members, Italy, 11494
prolonged labor disputes, distress level & perceptions of anxiety & health & general functioning, air traffic controllers, Canada, 4 & 10 mo followups, 6872
psychological research on unions & union-management relations, 11460
statewide climate of labor-management relations, foremen & union stewards, 11499
strategies, reduction of role conflict, cooperating union & management personnel, 11479
US Supreme Court decision on Detroit Edison v National Labor Relations Board case, open vs secure testing for personnel selection, 2240

Labor Relations [See Labor Management Relations]

Labor Union Members

attitude of union steward vs union members, number of grievances filed, union members & stewards, 11477
attitudes about union-management cooperation in worklife improvement efforts, union leaders, 11485
attitudes toward union role in negotiating quality of worklife & productivity & traditional issues, railroad union members, 6869
demographic characteristics & influence, trade union members, UK, 11505

external environment & behavioral predispositions & committee structure, facilitation of problem solving in bargaining, labor-management committee members, 11459
job status in managerial system & union activity, white collar government union members, 2204
negotiator strategies & degree of negotiator influence in labor-management negotiations, trade union members, 11491
pressure for management action to prevent workplace health risks, labor union members, Italy, 11494
statewide climate of labor-management relations, foremen & union stewards, 11499
strategies, reduction of role conflict, cooperating union & management personnel, 11479
union membership & military, attitudes toward union vs management, federal government workers, 11465
Labor Unions
attitudes about unions, morale & job involvement, blue collar workers, 11496
attitudes toward union role in negotiating quality of worklife & productivity & traditional issues, railroad union members, 6869
industrial/organizational psychology & labor unions, 4476
job status in managerial system & union activity, white collar government union members, 2204
legal right of labor union, access to company psychological test data, 7983
prolonged labor disputes, distress level & perceptions of anxiety & health & general functioning, air traffic controllers, Canada, 4 & 10 mo followups, 6872
psychological research on unions & union-management relations, 11460
relationship between organized labor & industrial psychology, literature review, 11408
trust in administrative decision making & need for power & satisfaction with work content & economic issues, pro-union voting, college faculty, 11149
Laboratories (Experimental) [See Experimental Laboratories]
Laborers (Construct and Indust) [See Blue Collar Workers]
Laborers (Farm) [See Agricultural Workers]
Labyrinth (Anatomy) [See Also Cochlea, Vestibular Apparatus]
bilateral labyrinthectomy, horizontal & vertical optokinetic reflexes, rabbits, 3098
Labyrinth (Apparatus) [See Mazes]
Labyrinth Disorders [See Menieres Disease, Motion Sickness]
Lactation
consumption by mother rats of pups' urine as indicated by transfer of radioactive water from pups to mothers, female rats & offspring, 12117
ergocornine hydrogen maleate & 2-bromo-alpha-ergocryptine, pituitary prolactin levels & lactation & aggression toward male intruders, parturient mice, 12386
estradiol & progesterone & nipple development & presence of young, postpartum aggression, female rats & mice, 637
ethanol administration during gestation vs lactation, maternal behavior & developmental & behavioral & pharmacological characteristics of offspring, female rats, 9925
exposure to unfamiliar neonates & parity, maternal behavior & fluid secretion from nipples, female rhesus monkeys, 12128
food restriction, investment of lactation energy in male vs female offspring, female wood rats, 12298
hashish extract, maternal nonsocial & nursing & locomotor activity & development of sucklings, lactating mice & their pups, 7642
lactation, meal patterns, female rats, 7422
maternal alcohol administration during lactation, shock avoidance & maze performance & behavioral development & maternal behavior, rat pups, 9917
nipple growth & suckling stimulation & lactation, maternal aggression, female parturient vs hysterectomized & fostered young mice, 7377
protein restricted diet during gestation & lactation & maternal removal-replacement, increased emotional responsiveness & decreased mother-kitten social interactions & attachment behavior, cats, 789
pup age & weight & cessation of lactation, cessation of nursing behavior, female hamsters, 669
reproductive state & home cage vs neutral environment, aggressive behavior, female mice during proestrus vs pregnancy vs lactation, 7402
size of litter & pup development, rat pups nursed by pregnant vs lactating dams, 2948
small medial preoptic area lesions, nest building & retrieving & crouching & nursing, lactating female rats, 3111
social facilitation, pup-directed activities, maternal lactating vs virgin rats, 2889
Lag (Response) [See Reaction Time]
Landscapes [See Topography]
Language [See Also Adjectives, Adverbs, Alphabets, Anagrams, Antonyms, Bilingualism, Consonants, Conversation, Cursive Writing, Dialect, Ethnolinguistics, Etymology, Foreign Languages, Form Classes (Language), Grammar, Handwriting, Handwriting Legibility, Homographs, Homonyms, Inflection, Initial Teaching Alphabet, Language Development, Letters (Alphabet), Linguistics, Literacy, Monolingualism, Morphemes, Morphology (Language), Multilingualism, Nonstandard English, Nouns, Numbers (Numerals), Orthography, Paragraphs, Phonemes, Phonetics, Phonology, Phrases, Printing (Handwriting), Pronouns, Psycholinguistics, Public Speaking, Readability, Semantics, Sentence Structure, Sentences, Sight Vocabulary, Sign Language, Slang, Syllables, Synonyms, Syntax, Verbs, Vocabulary, Vowels, Words (Phonetic Units), Written Language]
acoustic structure of syllables, hemispheric specialization, professional criticism, 12241
age & language, development of national identity, English- vs Afrikaans-speaking White 1st vs 3rd vs 5th vs 7th graders, South Africa, 5570
analysis of articulation errors according to distinctive features, articulation vs language disordered 3–8 yr olds, 6105
analysis of videotaped communicative interactions, language disordered 7–10 yr old dyads, 8291
anterior vs posterior right hemisphere damage, verbal comprehension & visuospatial deficits, patients, 6137
arguments for use of non-sexist language, 3579
attainment of formal operations stage, correctness & time to solution of operationally vs linguistically varied problems, college students, 3365
auditorily presented cloze procedure, test of language comprehension & expression, learning disabled 12–16 yr olds, 8104
averaged electroencephalic response technique, study of speech & language processing, literature review, 9796
behavioral techniques for remediation of speech & language skills, autistic children, 9048
brain functions & development, biological bases of thought & language & reading, children, 9763
characteristics of oral & written language, adult paranoid schizophrenics, 5961
communicative competence & method, language & mode use, profoundly deaf 3–5 yr olds & their hearing mothers, 6132
conceptual representational theories & research models, modeling of memory & language, 11974
concurrent & construct validity of Slingerland Screening Tests for Children with Specific Language Disability, 1st–4th graders, 4441
critique of definitional accounts of language structure, 5424
cultural & language factors in implicatory reasoning, college students, Malaysia vs Australia, 11884
deficits in processing perceptual information at normal rate, language & reading impairments, children, 10440
delayed auditory feedback of vowel vs tone during keytapping task, ear advantage, Japanese vs English speaking Ss, 732
development of theories on understanding of language & computer programs for natural language conversation, 11613
dichotic listening with language stimuli, 23–80 yr old illiterates, implications for hemispheric specialization for language, 12243
English "good and" intensifier as example of creative analogy, implications for theory of language acquisition & evolution, 12426
English vs Spanish instructions, employment test scores, Hispanic job applicants, 9173
English vs Swiss-German vs imagined homophone noun & verb meanings, evoked potential topography, native English vs Swiss-German speaking Ss, 9757
explicit informational feedback about errors, learning miniature artificial language, college students, 11938
German &/vs English as published scientific language in psychology, psychologists, West Germany, 2049
Halstead-Reitan Neuropsychological Test Battery, degree of motor vs language impairment, neuropsychologically impaired asthmatic 9–14 yr olds, 9333
imagery, language comprehension, literature review, 3239

information about class membership of words vs arbitrary vs phrasal grouping vs linguistic dependencies of successive words, knowledge of linear & hierarchical structures of artificial language, college students, 9978
intellectual ability, religious language comprehension, 12–15 yr old students of Catholic vs public secondary schools, 13613
interactive vs programed remedial language teaching methods, individual differences in improvement of syntactic constructions, expressive language delayed 3.5–5.7 yr olds, 6433
language usage, affective expression, patients with ego deficits, implications for social work treatment & diagnosis, 13403
linguistic coding & memory, children with infantile autism, review of studies, 6002
list & model of English palindromes, 5429
method for selection of specific language deficit, homogeneity in expressive vs receptive language & articulation skills, language impaired 4–8.5 yr olds, 6106
model & computer program for analysis of clarity judgments, comprehension of directions in natural language texts, 11600
nativity & years of US residence & metropolitan vs nonmetropolitan environment & educational & occupational level, English language use, Mexican immigrants, 3498
nonlinguistic symbolic & conceptual cognitive task performance, retarded vs nonretarded vs language impaired children, 8243
object labeling & categorizing skills without comprehension of representational function, chimpanzees, 7332
orientational vs ontological vs structural metaphorical concepts, cognitive science, 11899
origin & simplicity of Creole languages & children's language, 7835
paradigmatic training, reading comprehension, learning disabled 7–10 yr olds, 10-wk followup, 11272
paralanguage hierarchies, college students in dyads vs triads with strangers, 10333
patterning & organizational difficulties, language & learning disabilities, children, therapeutic & diagnostic implications, 10414
perceived value similarity & commonality, social interactions, indigenous vs Australian high school students, Papua New Guinea, 5613
phonetic disintegration & faculty phonetic realization, problems in motor implementation & internal phonemic representation, male motor aphasics, 8366
primitive conjunctions of emotion & language in patients after resolution of symptoms in psychotherapy, 10804
psychoanalysis & symbology of schizophrenic language, 1712
recall on dichotic listening task, psychiatric patients with vs without brain damage, implications for hemispheric assymmetry of language functioning, 13160
redundancy of social ordering information, French & English anagram solutions, implications for neuro- & psycholinguistic phenomena, 7211
reliability & validity of Discriminant Function Analysis dichotic monitoring test, assessment of laterality for language function, 17–64 yr old patients, 7049
research on miniature artificial languages, understanding nature of 1st vs 2nd language learning, 5431
right hemisphere language dominance as seen in lateralized object naming task, Navajo Indian college students, 12224
right vs left hemisphere damage, recognition of linguistic vs nonlinguistic visual symbols, aphasics, implications for unitary vs pluralistic theory of symbol processing, 10744
right vs left minor hemisphere lesions, speech & language performance on tests requiring visual-spatial information processing, 27–71 yr old right handed Ss, 1611
semantic structure of language, comparison of word association frequencies in English & French & German & Kirghiz & Estonian, 5436
sensitivity to intonational cues, native vs nonnative speakers of English, 7195
sex differences & language, literature review, 7724
sex & gender, language differences, 1195
sex & language spoken at home & self concept, extent of alcohol vs marihuana vs inhalant vs phencyclidine use, 9–17 yr old Spanish Americans in housing project, 12602
significance of expression of insults in Bangwa vs French vs Pidgin, Bangwa children & adolescents, Cameroon, 7892
supplementary motor region lesions, disturbances in language skills & speech emission & rhythm control & phonation & articulation, female 37–80 yr olds, 13113
symptoms of Broca's aphasia, implications for neuropsychological theory of language & disruptions due to brain damage, 6111
theories of L. Wittgenstein & constructivist framework, understanding natural language, 11546
treatment of language in psychological studies of children, comparison of various authors' views from end of 18th century to present, 7766
use of event-related potentials, hemispheric specialization during language vs nonlanguage tasks, deaf Ss vs patients with alexia vs agraphia vs normal adults, 10711
use of human language, apes, discussion of study by H. Terrace et al, 2891
verbal communication skills, language disordered vs normal speaking children, 8293
Language Arts Education [See Also Phonics, Reading Education, Spelling]
advocacy of student- vs product-centered schools, language arts researchers, 8876
copying from traditional still vs moving models, handwriting, 1st graders, 13593
evaluation & remediation of written language disorders, 11274
experimental approach to teaching Russian, learning, 4th graders, USSR, 8867
individual differences in French language speaking & listening comprehension achievement, native English speaking 1st graders in total early immersion program, Canada, 6685
introduction to special issue on language arts in "Learning Disability Quarterly", 9025
language comprehension, American Indian vs White 5–6 yr olds, implications for language education, 11227
multidimensional scaling procedures, assessment of changes in perceptions of Othello vs Sherlock Holmes characters, college students vs Sherlock Holmes Society members, 11232
noniconic symbol system, verbal performance, 9 & 11 yr olds with severe learning difficulties, 13642
nonimitative modeling & mimicry, use of singular copula, Black 4 yr old dialect speakers, 8877
sign language, development of reading & language skills & remediation of communication problems, 9055
teaching methods, acquisition of phonetics & spelling, 5–7 yr olds, 4327
teaching of talk as different approach to language teaching, 13572
use of retarded resident to teach another retarded resident alphabet & spelling, 13421
Language Development
ability to perceive linguistic ambiguities & correlation with ability to perceive pictorial ambiguities, 1st vs 3rd vs 5th vs 8th graders, 1015
acquisition of grammatical morphemes, children, criticism of E. L. Moerk & E. M. Block & F. S. Kessel & R. Brown's studies, 10091
acquisition of Hebrew inflectional morphology, preschool age children, Israel, 10021
administration of Elicited Language Inventory using standard vs modified procedure with contextual cues, spontaneous speech & elicited morpheme use, language-delayed vs normal speaking 1–11 yr olds, 9388
age, comprehension of hypotheses in reasoning & their verbal expressions, children with mean ages of 5.6–10.6 yrs, 3314
age, spontaneous metaphors in free play & comprehension of metaphoric relations, 2–6 yr olds, 3307
age & context & semantic strategies, verb comprehension, 2nd–7th graders, 10053
age differences, discrimination of utterances violating vs not violating conversational sequencing rules & correct evaluation of speaker intent, kindergartners through 3rd graders, 3297
age differences, use of indefinite article referents, 5–8 yr olds, 12561
age & intellectual experiences at home & in day care provided by caregivers vs child with emphasis on language mastery, performance on intelligence tests at age 3, 1–3 yr olds, 989
age of infant & context, maternal speech characteristics, Down's syndrome 3.7–17 mo old & his mother, longitudinal study, 8236
age & sensorimotor development & task difficulty, language comprehension on tasks measuring understanding of semantic & syntactic relationships, 10–21 mo olds, 1026
age & situational context, characteristics of speech in responding to questions & role of cognitive & linguistic & sociolinguistic factors, 3–5 yr olds, 991
age & symptom severity & developmental level, language faults, autistic 3–6 vs 7–9 vs 10–13 yr olds, 1492
age & syntactic environment, skill in combining sentences with temporal adjoiners, 4–6.6 yr olds, 12555
articulation & language development, 3–7 yr olds, 5481

Assessment of Children's Language Comprehension & Syntax Screening Test, measurement of linguistic structure comprehension, deaf 6 yr olds, 7050
assessment procedures, speech perception, children with phonological disorders, 10632
assessment procedures, speech perception, 3.1–9.9 yr olds with phonological disorders, 10633
assessment & reestablishment of previously learned functional speech repertoire, profoundly mentally retarded 16 yr old, 6-yr followup, 8505
auditory perceptual deficits, children with language disorders, literature review, 10634
awareness of syntactic structure in grammatical judgments & sentence repetitions & corrections, kindergartners through 2nd graders, 13607
balance in use of interrogative form in verbal interactions, 2.8–3.2 & 4.5–5.5 yr old dyads, 9998
bilingual education, 5 yr old male, 3399
bilingual social environment, English vs Spanish language socialization & content of communication, children of Mexican American mothers, 12481
biological vs socialization basis of language acquisition, criticism of E. H. Lenneberg's theory, 959
causal relationship encoding ability model of H. S. Cairns & J. R. Hsu, linguistic encoding of temporal concepts, college educated adults, 10046
causal statements linked by "because" vs "so" vs "and", sentence comprehension & recall performance, 1st vs 3rd vs 5th graders, 1013
children's language comprehension level, modifications of adults' child-directed talk, adults & language delayed 4 yr olds, 5437
clinical features & language & social characteristics of primary childhood aphasia & childhood autism, language training implications, 5902
coding & analysis of dialog, cognitive complexity & appropriateness of initiations & responses, 3 yr old females, 4666
cognitive changes in adolescence including linguistic & information processing skills, implications for learning disabilities, 10614
cognitive development & socialization, language & communication, children, 12470
cognitive processes & semantics & pragmatics & phonology & syntax, study of developmental language disorders, literature review, 6097
cognitive stage & age & sex differences & intellectual & academic abilities, comprehension of similies & quality judgments, 5–12 yr olds, 12518
compound vs coordinate bilingualism, speed & equivalency of intra- & interlingual free & restricted word associations, 18–42 yr olds, 12429
comprehension of declarative vs interrogative & positive vs negative indirect requests, 4–7 yr olds vs adults, 10028
comprehension & production of double object bitransitive sentences, 3–5 yr olds, 10088
computer program, theory of 1st language acquisition & English phrase structure, 7730
congruent vs noncongruent sentences, acquisition of awareness of semantic constraints in hierarchical trait structure, 3rd vs 5th graders, 3367
contextual categorization of "if" statements as measure of linguistic competence, adolescents & college students, 3312
contrastive stress, interpretation of pronouns in sentences, 5–7 yr olds, 5529
crying cat syndrome, 7.5 yr old female, 8374
cultural deprivation, language acquisition & development & utilization, children, 10089
curriculum, enhancement of language development, children, 11179
demographic characteristics, syntactic abilities, hearing impaired 8–9 yr olds, 13086
developmental age, auditory agnosia for environmental sounds & subsequent language disabilities, moderately & severely mentally retarded 3–6 yr olds, 8248
developmental differences, comprehension of negators "un" vs "not", 2–6.2 yr olds, 7828
developmental language program in classroom & clinical settings, language related development, 2–4.5 yr olds, 5-yr study, 8606
developmental patterns in use of focus vs substitution operations in ongoing discourse, language disordered 3.1–4.2 yr olds, 10641
development in structure & content & function of mother's questions & infant responses, 16–19 mo old infant & his mother, 5658
development of comprehension of 3rd person personal pronouns, 3–7 yr olds, 12544
development of negatives in language, logical denial, 18–36 mo olds, 1031
development of questionnaire for measurement of self concept of competency in German & communication skills, school children, 6767
development of vehicle & animal & fruit language categories, 1–1.7 yr olds, 10093
differential antecedents & development, language vs nonlanguage cognitive abilities, 3 case reports of children with impairments, 6098
dyadic interactions, sentence complexity & form & features of discourse, language impaired 4.3–6.4 yr olds with normal languaged children of similar CAs vs 2.2–3 yrs, 10626
early identification of language skills, assessment of skills needed for reading achievement, kindergartners, 9095
early postnatal contact, infant development & maternal attitudes, infants & their mothers, 36 hrs & 3 & 12 mo followups, 5636
emotional & language development, home reared vs day care attending 3.5–4 yr olds, 2-yr followup, 10013
English "good and" intensifier as example of creative analogy, implications for theory of language acquisition & evolution, 12426
failure to relate irregular past base forms & their past counterparts, 3.6–4.1 yr old male, longitudinal study, 10073
framework for viewing treatment of delayed linguistic development, 6218
French immersion vs traditional English curricula, development of plural & past tense morphological rules in English, elementary school students, longitudinal study in grades 1–4, 6656
grammatical or referential mistakes in presentation of miniature artificial language, language acquisition, college students, 12434
hemispheric asymmetry, linguistic disabilities, literature review, 10593
heredity & development, cerebral dominance & handedness, literature review, 1002
hydrocephalus & spina bifida, distinguishing the "cocktail party" syndrome, 5 yr olds, 2- & 5-yr followups, literature review, 8377
individual differences & hereditary influences in language acquisition, 10024
individual differences in language learning, language disorder as learning disability & developmental deviation, children, 10622
individual differences in maternal conversational input, acquisition of syntax, children, 1030
infant tests & home stimulation score, prediction of language & cognitive development, 4 mo to 2 yr olds, longitudinal study, 9413
institutional vs home rearing environment & sex differences, level of syntactic usage, Down's syndrome 6–12.7 yr olds, 8284
instructions & models & positive reinforcement, verbalization rates, language-deficient 3.4–4.5 yr olds, 4400
instrumental disturbances of written & oral communication, children with learning difficulties, 8235
intellectual & language & psychomotor development, male child with agenesis of corpus callosum & megaloencephaly from age 6–34 mo, 10739
internal encoding of sentence on Stroop color-naming task, 2nd vs 4th vs 6th graders, 7801
interpretive analysis, semantics of 2-word utterances, children, reply to C. Howe's criticism, 9259
irrelevant factors in reference field, acquisition of miniature artificial language, Japanese speaking Ss, 7723
knowledge of formal aspects of their children's speech, mothers of 2–3 yr olds, 1160
knowledge of grammatical relations in illocutionary sentences, deaf & hearing 9–10 yr olds, 3899
language ability for speaking vs reading vs writing vs understanding spoken English & thinking in English vs Spanish, Spanish-English bilingual 0–6 vs 7–13 yr olds, 12542
language & biological & cognitive & personality development & social experience, 12462
language & cognitive development, 47,XXX female 6–14 yr olds followed since birth, 3930
language development, autistic children, literature review, 6007
language development, 27 yr old female with callosal agenesis, 10662
language development & classification & contributing factors & prevention of language impairments, children, literature review, 10635
language differences, 2.5 yr old twins vs singletons, 7781

language disorders diagnosed at 8–60 mo of age, subsequent speech & language & academic abilities, 4–10 yr olds at 4–5 yr followups, 8286
language experience approach, teaching reading to deaf & hearing impaired children, 8994
language intervention in special education, language skills, developmentally delayed 5 yr olds from homes with English as 2nd language, 8963
language management intervention, expressive speech, 1.8 & 3.9 yr old males with deaf parents, 6439
language performance patterns, educable mentally retarded children, 8227
language & speech development, 2–20 yr olds, 12532
language therapy, amount & type of speech disfluencies, language-delayed 4–6 yr olds, 13367
left vs right handed tapping while reciting rhyme vs animal names vs memorizing shapes, right handed 3–12 yr olds, implications for development of speech output lateralization, 734
linguistic & cognitive & emotional development, severely language disabled male followed from 5 to 11.6 yrs, 10628
linguistic & oral motor ability & stuttering frequency & severity, 5–12 yr old stutterers, 10640
markedness of distinctive feature substitutions in articulation, articulation disordered vs linguistically delayed 3–7 yr olds, 6110
maternal mental ability & education & training in child development & socioeconomic status & birth weight & child experiences, verbal comprehension & verbal expression, 3 yr olds, 7831
metabolic & nutritional aspects, minimal brain dysfunction & attention deficits & learning & language disorders & hyperactivity, 8121
methodological analysis, language acquisition of coordination, children, criticism of G. Ardery's & B. Lust's & B. Lust & C. Meruis's studies, 9278
nature of mother-child interaction, child development, 12–30 mo olds & their mothers, longitudinal study, 5647
Non-Speech Language Initiation Program, number & color matching & sentence imitation & command-following & receptive & expressive vocabulary & spontaneous speech, nonverbal children living in institutions vs community, 8608
normal vs delayed language development & intonation cues, auditory sequential memory span & recall, 3.5–6 yr olds, 3337
noun vs syntactic emphasis in language development, 1 yr old female, 1008
origin & simplicity of Creole languages & children's language, 7835
parent & teacher & speech pathologist use of behavior management techniques, behavior change & language & speech development, autistic 4 yr old male, 2.5-yr longitudinal study, 8490
parent teaching, language learning, 3.3–5.8 yr old mentally handicapped, 8406
perception of phonemic categories, developmental dysphasic vs normal 5–9 yr olds, 6109
perceptual motor & language development, deaf 5–8 yr olds, 8303
phonological awareness & reading performance, 1st graders, 11235
phonological development & analysis of lexical errors, preschool age children, 10121
phonology & semantics & syntax & pragmatic & language delay, language disabled children, literature review, 10631
Piaget's vs L. S. Siegel's vs other wording, performance on class inclusion question, 4–8 yr olds, 10059
play & socioeconomic status & sex, achievement in prereading & language & writing, kindergarten students, 8924
pre-meaningful vocalizations, normal vs Down's syndrome 9–13 mo olds, 10613
production & perception of syntactic time cues in English, profoundly deaf children & adolescents, 8335
removal of brain hemisphere in infancy, written language acquisition, 10.3–11.8 yr olds, 3-yr followup, 10663
repetition of adult model's utterances, facilitation of spontaneous language acquisition, 9 vs 10 vs 11 mo olds, longitudinal study, 992
residential treatment, adaptive behaviors, emotionally disturbed children with mean age of 10–10.4 yrs, 10973
role of languages in early development, Alsatian male brought up to speak French & educated in German, 7740
second language acquisition, kindergartners to 5th graders, 3374
sensitivity to orthographic structure in printed English words, educable mentally retarded special education students, 11263
sensorimotor & language development, 12–19 mo old nonretarded infants vs 24–38 mo old Down's syndrome children of the same developmental age, 8251
sensorimotor skills including object permanence, language comprehension, autistic 39–74 mo olds, implications for language acquisition, 10524
sensorimotor training using means-ends & relating to objects schemes, protoimperative & protodeclarative performative communication, 7–9 mo olds, 10111
sentence grammaticality, judgment & repetition performance, kindergartners & 2nd & 4th graders, 3381
sex, acquisition of male vs female dialect, 4–12 yr olds, 973
sex & grade level & ethnicity & nonverbal problem-solving ability & socioeconomic status, oral language performance, reading disabled 2nd vs 4th vs 6th graders, 6075
sign language, development of reading & language skills & remediation of communication problems, 9055
situational context, allative bias in comprehension of deictic verbs & directional prepositions, preschool children with a mean age of 3.1 yrs, 10045
Slingerland Screening Tests for Identifying Children with Specific Language Disability, prediction of learning disabilities, learning disabled vs nondisabled 1st graders, 4419
standardized tests of language development vs clinical judgment, language evaluation, 36–47 mo olds, 9311
syntactic development & problems, construction of Test of Syntactic Abilities, deaf & hard of hearing & normal learning 8–18 yr olds, 4814
syntactic form & semantic complexity of novel labels & short term memory, production of label for action vs action for label, 2–6 yr olds, 7785
syntax vs language acquisition, 24–28 mo olds, 12500
teacher use of oral vs manual communication systems, language training, retarded children with delayed language development, 11291
temporal patterns & kind & frequency of mother-child verbalizations, 21 mo olds & their mothers, 12539
theoretical speculation concerning specific abilities lacking in social interaction & communication & imagination impairment syndrome, autistic & mentally retarded children, outgrowth of study by L. Wing & J. Gould, 5929
transference from psychological to grammatical word sequences in early speech development, children, 10117
treatment of language in psychological studies of children, comparison of various authors' views from end of 18th century to present, 7766
underlying cognitive structures, acquisition of prepositions, 3–5 yr olds, 3298
use of articles in definite vs indefinite referring expressions, 2.2–4.3 yr olds, 10037
use of grammatical morphemes, 3–10 yr old normal vs language impaired children, 8297
use of syntactic vs semantic cues, judgment of speaker's belief of entailment vs propositional truth in sentences, 1st vs 3rd vs 5th graders, 10126
visual & auditory memory & associative language skills, hyperlexic 5.8–9.6 yr olds, 10435
word order, 2–4 yr olds, implications for universal natural word order, 3398
word order & structural cues, interpretation of noun-verb-noun utterances, Hebrew speaking 4–10 yr olds, 10044
2nd language learning, voice onset time for production of Spanish vs English word initial stop consonants, 4 yr old normal vs 7 yr old language disordered Spanish speaking sisters learning English, 10623

Larvae

attack of termite prey with aggressive allomone, neuroptera larvae, 12131
chromosomal differences, breadth of foraging activity & feeding rate, Drosophila melanogaster larvae, 7419
developmental stage, aptitude for learning, grain beetle larvae, 9657
diet & feeding behavior, Brachydeutera longipes maggots, 5174
genotypic homozygosity for electrophoretically fast vs slow null alleles at alcohol dehydrogenase locus, role of acetaldehyde buildup in avoidance responses to various ethanol concentrations, Drosophila larvae, 7508
preference for ethanol in geographic populations, fly larvae, Australia & New Guinea, 2954
species differences & pheromonal communication, aggregation formations, Australian reptile tick larvae vs nymphs vs adult males vs females, 12151

Laryngeal Disorders
control of fundamental frequency in vocal pitch matching task, 54–58 yr old male esophageal speakers, 13071
esophageal vs artificial larynx speech, intelligibility, male proficient laryngectomized speakers, 10423
levels of isolated vowels & consonant environment, voice level, male esophageal speakers with average age of 74 yrs, 10650
postvocalic consonants, vowel duration in esophageal speech, laryngectomized 50–58 yr old males, 3907
realization of junctural contrasts in ambiguous phrases, male esophageal vs normal speakers, 13149
Larynx [See Also Vocal Cords]
brain stem motor nuclei, control of ultrasonic vocalizations, 10 day old rat pups, 733
laryngeal topical anesthesia, fundamental frequency perturbation, normal speaking 28–43 yr old males, implications for tactile & proprioceptive feedback, 337
mechanisms of ultrasonic emissions, Mongolian gerbils, 7518
visual signal, RI for laryngeal closure, phonating S, 9530
Latency (Response) [See Response Latency]
Latent Learning
latent visual learning, memory trace of visual pattern, crucians & goldfish, 9636
Lateral Dominance [See Also Handedness]
acoustic structure of syllables, hemispheric specialization, professional criticism, 12241
age, left vs right handed tactual recognition performance, 20–84 yr olds, 9792
age & sex & reading ability & socioeconomic status, lateral ear advantage, 6.7–10.7 yr olds, 10032
age & sex & task difficulty, lateralized finger recognition, 3 vs 4 yr olds, implications for cognitive development, 1043
bilateral presentation of print vs picturable nouns vs CVC nonwords vs line drawings, visual hemifield superiority in noun & word naming, adults, 7505
birth order & parental age & birth stress, lateral preference, 15–40 yr olds, 2971
caudate lesions, morphine self-administration, female rats, 3109
cognitive activity, lateral eye movements, 16–30 yr olds, 7488
commentary on M. C. Corballis & M. J. Morgan's argument for left-right maturational gradient in human laterality, 7459
cross validation of Luria-Nebraska Neuropsychological Battery, presence & lateralization & localization of brain injury, 23–86 yr old patients with brain lesions, 9339
developmental differences, consistency of lateral preference for hand & eye & foot & ear, 3–5 yr olds vs high school students, 10031
dichotic ear difference, ability & input asymmetry of hemispheres, college students, 12242
dichotic presentation of CV syllables & melodies, right vs left ear laterality, stutterers, 8294
dichotic presentation of verbal commands, right hemisphere understanding of verbs & manual responses, Ss with complete forebrain commissurotomy, 8328
dichotic vs binaural speech presentation, recognition of spoken digits, male vs female right handed college students, 11867
dichotic vs monaural presentation, identification of target words, college students, 12194
ear differences in processing superficial vs meaningful tasks, long term memory, college students, 9754
EEG abnormalities, language dysfunction & fluent posterior aphasia, affective disordered patients & schizophrenics, 10449
EEG alpha & theta & delta rhythm activity of right vs left occipital sites during melody detection task, right handed musically naive 17–43 yr olds, 7500
family patterns, hand & eye & foot & ear preference, parent-offspring triads & sibling pairs, 7395
field dependence, perception of line orientation on unilateral tactile test with left vs right hand, right handed college students, 3013
handedness & familial sinistrality, tactile-spatial & auditory-verbal processing asymmetries, male college students, 715
handedness & familial sinistrality & bilateral tachistoscopic presentation, asymmetry for rate of processing & decay of pictures, college students, 7490
handedness & side of previous psychogenic symptoms, lateral response to suggested sensation, 18–48 yr old nurses & psychiatric patients, 9766
handedness & writing posture, dichotic ear asymmetry, students & young adults, 7433
hemispheric asymmetries in color naming & matching & memory, 28 & 31 & 48 & 61 yr old split brain patients, 13126
heredity vs learning, handedness & laterality, humans vs monkeys, 7426
hypnotic induction & use of differing hemisphere functions, psychotic grief reaction after adoption of baby, 17 yr old female, 10955
induced hyperphenylalaninemia & cerebral lateralization, hyperactivity & learning ability, rats, implications for animal models of phenylketonuria, 7533
interaction of recency & visual field as determined by encoding vs retrieval processes, recognition memory for letters, college students, 11946
lateral dominance & torque, emotionally disturbed vs educable mentally retarded vs speech & hearing vs learning disabled 3rd graders, 10406
laterality of dichotic listening & alpha rhythm, adult stutterers vs fluent speakers, 10638
lateralization of neuroleptic induced dyskinesia as evidence of pharmacologic dominance in basal ganglia, psychiatric patients, 1878
lateralization of symptoms, schizophrenics, 8178
lateral preference, type of oral reading errors, male 7th grade good vs poor readers with vs without decoding skills, 11219
lateral preferences for hand & foot & eye & scholastic achievement, Chinese 4th & 5th graders vs college students, 5532
left hemisphere intracerebral hemorrhage, mixed aphasia, 56 yr old right handed monolingual Chinese female, 8352
left vs right handed tapping while reciting rhyme vs animal names vs memorizing shapes, right handed 3–12 yr olds, implications for development of speech output lateralization, 734
left vs right hemisphere damage due to stroke or tumor, motor performance, 45–56 yr old patients, 13104
lesion size after hemisphere cerebral infarction, severity of aphasia, 31–84 yr old right handed patients, 10710
mental imagery, bilateral transfer of rotary pursuit skills, 17–21 yr olds, 2659
methodological measurement problems & relationship to reading disabilities, lateral dominance patterns, children, literature review, 8249
methodological & theoretical issues of measurement of laterality, 12201
neutral vs emotionally loaded visual stimulation, GSR & respiration, male patients with dominant vs nondominant hemisphere damage & median ages of 60.8 vs 49.1 yrs, 13133
nigral transplants, striatal dopaminergic neurotransmission & spontaneous motor behavior & sensorimotor orientation & sensory attention, female rats with bilateral nigrostriatal dopamine pathway lesions, 12329
optically induced squint, monocular visual acuity & interocular alignment & cortical ocular dominance, kittens, 696
optic displacement of object in left vs right visual field, decision & movement times in guided reaching with left vs right arm, right handed males, 7473
patterned visual stimulation, hemispheric lateralization & handedness correlation of evoked responses, right vs left handed Ss, 7466
pictorial vs nonpictorial vs combination Chinese characters presented on left vs right side of fixation point in visual field, identification accuracy, Chinese college students, 7480
postural asymmetry assessed by tail pinch vs suspension vs holding vs path walking & dextroamphetamine, prediction of circling direction, male vs female rats, 9785
preparation to execute motor acts, premovement brain potentials, male college students, 7468
presentation in left vs right visual field, perception of facial expression or identity, right handed college students, 7495
presentation of stimuli to right vs left visual field, perceptual encoding vs memory, college students, 9780
presentation to right vs left visual field, naming & discrimination of Chinese characters, male Chinese vs North American Ss, 9772
problems in correlations of measures of laterality & total accuracy, 4874
reinforcement of left ear responses & initial preference for right ear, preferences in dichotic listening, 20–28 yr olds, 11880
reliability & interrelationships between behavioral measures of lateral dominance, male vs female college students, 2524
reliability of tests of laterality, 9313
right & left hand learning in tactuomotor finger maze task, female vs male college students, 2637

right vs left hand dexterity, 3–7 yr olds with developmental apraxia of speech, 6101
right vs left neocortical ablation & handling, brain & behavioral asymmetries for spatial preferences in open field, rats, 851
right vs left temporal lobe dysfunction, verbal auditory vs visual encoding strategies, adults, 10722
RT & hemispheric asymmetry in dichotic listening, 10 yr old male & 18 yr old female with callosal agenesis, 8340
same vs different stimulus pairing of dichotic digits & tones, performance & processing capacity & ear advantage, 16–60 yr old Ss, 408
school readiness & laterality & psychological handicaps, children entering school, 9104
sex differences, asymmetry in facial expressions, college students, implications for hemispheric asymmetry in control of emotional expression, 12190
sex differences, foot size asymmetries, right handed 7 & 11 & 15 yr olds, 12466
sex & hemispheric differences, novel task performance requiring detection of changes in sequence of neutral stimuli, college students, 11733
site of brain damage, processing of pitch & rhythm & tempo & phrasing information in music, 35–65 yr olds, 13152
spatial & verbal abilities & lateral preference patterns, learning disabled 8.3–12.7 yr olds, 1536
spatial vs verbal analytic questions, lateral eye movements, 2–11 yr olds, 3378
stimulation to face vs hand, hemisphere superiority of tactile perception, 5 yr olds, 3363
stimulus presentation to right vs left visual field, decision making in response to changes in signal-to-noise ratios vs payoffs, right handed college students, 428
stress vs verbal cognitive activity, bilateral electrodermal responses, right handed adults, 3039
time sharing & dichotic listening tasks, cerebral speech lateralization, learning disabled vs normal 7–11 yr olds, 8258
tone offsets vs onsets to right vs left ear, laterality of responses indicating superior echoic memory for right ear, college students, 12202
train of electrical pulses to preferred & nonpreferred hand, thresholds for detection of train irregularity, adult males, 11743
typical leftward vs rightward reflective eye movements on spatial vs nonspatial syllogisms, visual tracking performance, right handed females, 7497
unilaterally presented consonant trigrams, RTs & hemisphere asymmetry in target letter detection using right vs left hand, right handed college students, 12237
unilaterally presented music & bilateral tactile stimulation, right vs left hand use for response, college students, 12192
unilateral 6-hydroxydopamine injections into substantia nigra vs caudate nucleus, paw preference, male rats, 7692
verbal & nonverbal intelligence & demographic factors & eye-hand laterality reading performance & achievement & need for remediation, White vs non-White US Navy recruits, 4518
word list presentation to right vs left ear, immediate vs delayed recall, right handed college students, 9755
Law (Government) [See Also Criminal Law]
multi-phase process for developing individualized education programs in accordance with Public Law 94-142, severely handicapped adolescents & young adults, 6719
Law Enforcement [See Also Adjudication, Incarceration, Legal Arrest]
causal attributions, parole decisions, college students & parole decision makers, 3553
forecasting vs interrupted time series analysis vs contrasting results with controlled environment, design for experimental law enforcement program, 9298
independent vs conditional effects of threat of legal punishment & social disapproval & internalized moral commitment, inhibition of illegal activity, adult Ss, 3836

simulation model construction, superior & subordinate interactions, 10343
social evolution, emergence & perception of leadership, college students, 5714
social roles & moral reasoning & cultural values & social structure, 28–74 yr old male leaders vs nonleaders, Kenya, 12642
socioeconomic group & work experience & sex, leadership preferences, Chile, 13752
trainer self insight & emotional responses to group participants, 11438
US Army Infantry School Assessment Center ratings, prediction of field leadership performance, officers & noncommissioned officers, 6841
validity of Mullen Diagnostic Survey for Leadership Improvement, measurement of satisfaction with principals' leadership, high school teachers, 2444
within- & between-group variations in satisfaction & role perceptions of leadership, differential relationships of leaders to each subordinate, Army National Guardsmen, 4541

Leadership Style
behavioral styles of female managers of high- vs low-performing groups, attributions, college students, 12820
construction of leadership scale, measurement of coaching behavior, college students, 6748
group communication, quality of task solution, college students, 3605
group performance & leader & rater sex, ratings of leader behavior, college students, 10314
identification of combat unit leader skills & leader-group interaction processes, US Army personnel, 4526
leader personality traits & pathological structures, psychoanalytic interpretation of breakdown of group & organizational processes, 6867
leadership style & leniency bias, evaluation of employees' performance, 4522
leader's influence tactics & assessment of followers' motivation vs actual follower production, evaluations of followers, college students, implications for employee evaluations, 9147
leader task orientation vs supportive-interpersonal orientation, prediction of group performance, US Air Force enlisted men, test of validity of least preferred coworker scale interpretation, 4770
locus of control & leadership style & effectiveness in groups, Special Forces Reserves, implications for effectiveness of military units, 1311
managerial style & receptivity to change, middle management public school administrators, 2076
mass line leadership & thought reform, People's Republic of China, 12622
military knowledge & decisiveness, administrative & technical & combat performance, US Army officers, 4525
perception of leadership style, need satisfaction, teachers, 2077
sex, subordinate liking & leadership behavior of managers, college & graduate business students, 4537

social representations & proposed strategies, ability of student protest leaders to attract allies, college students, 10316
Learned Helplessness
aircraft noise, attentional strategies vs learned helplessness vs performance on cognitive task vs blood pressure, 3rd vs 4th graders, 1-yr longitudinal study, 12487
anxiety as cognitive control & learned helplessness, 3742
attributional style & helplessness & depression, college students & children, 12990
attribution of negative vs positive life events, depressed vs nondepressed college females, 1434
attributions for task success, mood & anagram performance deficits, clinically depressed 19–60 yr old patients, 1460
choice of performance enhancing vs inhibiting drug after task success vs failure, Type A vs B male college students, 13163
consideration of attribution theory & learned helplessness, development of methods for teaching learning disabled children, 11286
continuous vs partial reinforcement, treatment of learned helplessness vs naturally occurring depression & maintenance of change, female college students, 7277
control vs no control over noise & success vs failure vs no feedback on performance, cognitive task performance, male college students, 297
depression & helplessness & failure attribution, college students, 3747
desipramine vs GABA vs norepinephrine injected into frontal neocortex vs hippocampus vs lateral geniculate body, learned helplessness, male rats, 9961
ECS power & number of paws grounded, amount of aversive stimulation, female rats, 7340
expectations for distraction vs facilitation, performance after unsolvable problems, college students, implications for egotism explanation of problem solving, 11995
expected unchangeability of life stress, adjustment to economic &/vs health problems, aged Ss, cognitive theory of aging, 5467
functional vs motivational helplessness, performance, college students, 3-factor theory of learned helplessness & critique of M. E. Seligman's theory, 11991
internal vs external attributions for failure, learned helplessness, college students, 1268
labeling, failure attribution & success expectations, college students, 8055
lack of control, subsequent attribution process, college students, 5822
learned helplessness, changes in daily activities, married vs single vs widowed 65–85 yr olds, West Germany, 1161
learned helplessness & attributional style, risk factors for depression, 12991
learned helplessness & depression, 8152
model of learned helplessness, literature review, 1480
naloxone & naltrexone & inescapable shock, short & long term analgesic reaction, male rats, 9858
negative feedback, use of effective problem solving strategies, Black vs White children identified as retarded vs nonretarded, 8283
partial reinforcement, short term memory deficits in word association tasks, college students, implications for immunization against helplessness, 5034
partial reinforcement & effort attribution training, inoculation against learned helplessness, nondepressed college students, 13308
passive escape training vs noncontingent inescapable shock, degree of interference/helplessness in instrumental escape conditioning, male rats, 2863
perceived inability to surmount rejection & popularity of S, attributions for rejection, 4th & 5th graders, 3420
perception of locus & stability & controllability of causes of academic performance, affective reactions & expectations, college students, test of B. Weiner's model of attributions, 6683
perceptual or expectational bias vs anxiety arousal, learned helplessness effect in signal detection task, college students, 9471
progressive loss of reinforcement in FR schedule, condition similar to human reactive depression & reversal with chlordiazepoxide, male squirrel monkeys, 12023
sex & degree of prior control over aversive stimulation, learned helplessness, high school & college students, 7843
shock & morphine, antinociception & escape behavior, mice, 9857
social learning theory analysis of learned helplessness, individual & situational differences in development of helplessness, 3748
task success & failure, estimation of number of successes & failures, helpless vs mastery-oriented 4th–6th graders, 7859
Learning (Programed) [See Programed Instruction]
Learning Ability
acquisition & use of Blissymbols as means of communication, severely mentally retarded nonverbal 15 vs 18 yr olds, 8742
age & pretraining & active training, industrial inspection task, 20–65 yr olds, 11780
anxiety, learning performance, 2619
approach & cognitive styles, foreign language learning, multilingual vs monolingual 21–61 yr olds, 955
cannabis resin injection during pregnancy, brain & body weight & emotionality & learning capacity in offspring, female rats, 897
critical period vs optimum age vs developmental theory of second language acquisition, literature review, 5487
dosage of methylphenidate, learning vocabulary words, normal adults, 3187
evaluation method, measurement of student learning strategy level & amount of teacher-student interaction required for student task mastery, learning disabled children, 11310
go/no-go vs 2 choice paradigms, auditory discrimination learning, animals, literature review, 2838
induced hyperphenylalaninemia & cerebral lateralization, hyperactivity & learning ability, rats, implications for animal models of phenylketonuria, 7533
learning ability & postreinforcement EEG synchronization, cats, 9740
learning aptitude & error tolerance & achievement level, visual tracking task performance, US Army helicopter pilot training students vs dropouts, selection & training implications, 2241
learning performance, pneumo-encephalitic patients, 3937
lecture vs enhanced vs verbatim text & ability & study activities & motivation, examination performance, college students, 4309
pictorial vs verbal & analytic vs holistic learning strategies, science learning, male vs female college students, 5012
prenatal stress, learning ability, rat pups, 12077
protein malnutrition, physical development & learning ability, rats, 12304
reward vs nonreward training technique, learning ability, predators of humbug damselfish, 2845
rule assessment approach, existing knowledge & ability to learn, 5–17 yr olds, 12549
sugar in diet, judgment & learning ability & hyperactivity, children, implications for school nutrition & curriculum & teacher education, 11133
validity of Structure of Intellect Learning Abilities Test, identification of & prediction of teacher perception of gifted children, high achieving 4th–6th graders, 2175
Learning Centers (Educational)
objectives of learning centers, 11277
Learning Disabilities [See Also Dyslexia]
adaptation of whole language program, reading instruction, learning disabled children, 9019
adapted physical activity program, learning disabled children, 8990
age & ability differences, interpretation of ambiguous sentences, normal 5 & 6 vs 7 & 8 vs 12 yr olds vs learning disabled 12 yr olds, 10618
ALP minicalculator program, mathematics education, learning disabled elementary school students in 5th grade & over, 11268
analysis of Individualized Educational Programs & psychoeducational assessments, learning disabled children, 2163
analysis of Revised WISC profiles for differential diagnosis, learning disabled vs educable mentally retarded vs emotionally disturbed vs other impaired 4–19 yr old students, 11337
Arkansas ACLD Adult Committee, self help group for learning disabled adults, 8400
assessment, methods of correcting oral reading, learning disabled 13 & 14 yr olds, 9008
assessment of learning disabilities in mathematics, 7–12 yr olds, 4421
attention, academic skills of learning disabled children, literature review, 6088
auditorily presented cloze procedure, test of language comprehension & expression, learning disabled 12–16 yr olds, 8104
auditory vs visual training &/vs reading, word knowledge & reading & arithmetic achievement & process skills, learning disabled 8–9 yr olds, 4382
auditory vs visual vs multisensory preferences & instruction modality & praise & verbal feedback, recall of new words, learning disabled elementary school students, 4395
behavioral consultation, student productivity & teacher effectiveness, teachers of learning disabled 6–12 yr old males, 11357
behavior modification, learning disabled 1[illegible] yr old male, 4378

behavior therapy with labeling & expectations of success, restoration of morale & coping with learning difficulties, students & patients, 1826
Bender-Gestalt Test for Young Children & Beery Developmental Test of Visual-Motor Integration scores, learning disabled 5–11 yr olds, 2537
bilateral EEG biofeedback, verbal & visual spatial & creative skills, learning disabled male adolescents, 1778
cognitive & affective & demographic characteristics, relevance in distinguishing among exceptional categories, mentally retarded vs learning disabled vs emotionally disturbed 9–12 yr olds, 5908
cognitive changes in adolescence including linguistic & information processing skills, implications for learning disabilities, 10614
color vision deficiency, learning disabled elementary school students, 4393
combination mainstream & homeroom special education program, behavior change & academic achievement, learning disabled 9–13 yr olds with behavior problems, 2152
comparative quality of written expression, normal vs learning disabled 3rd–4th vs 5th–6th vs 7th vs 8th graders, 8263
comparison of learning disabled vs normal regular classroom children, literature review, 2168
comparison of Revised WISC & Wide Range Achievement Test, differential diagnosis of educationally handicapped & learning disabled, 8–16 yr old students, longitudinal study, 9086
conceptual vs phonetic vs linguistic similarity of monosyllabic words, auditory free recall, male learning disabled vs normal 1st graders, 8276
concurrent & construct validity of Slingerland Screening Tests for Children with Specific Language Disability, 1st–4th graders, 4441
consideration of attribution theory & learned helplessness, development of methods for teaching learning disabled children, 11286
construction of short screening procedure, identification of Ss at risk for learning disabilities, prekindergartners, 9101
construction & reliability of Special Needs Reinforcement Survey, identification of effective reinforcers, behaviorally disturbed & learning disabled & autistic & mentally retarded &/or developmentally delayed children, 4838
cooperative vs individualistic learning experiences, interpersonal attraction & achievement, learning disabled & nonhandicapped 5th & 6th graders, 11264
correlation between Revised WISC & Wide Range Achievement Test scores, 6–16 yr olds wih academic or learning difficulties, 9409
correlations between McCarthy General Cognitive Index & Revised WISC with Wide Range Achievement Test Reading scores, educable mentally retarded & learning disabled 6–8 yr olds, 11672
creative thinking ability, learning disabled vs normal 3rd–5th graders, 1540
cross age tutoring, tutor & tutee morpheme-reading performance, learning disabled 5th & 3rd & 2nd graders, 8973
cultural differences in teacher ratings of hyperactivity using Connors Abbreviated Symptom Questionnaire, normal & learning disabled 5.9–13.11 yr olds, Israel, 6769
decentering & role taking skills, popularity, learning disabled vs normal 3rd & 4th graders, 10600
description & critique of Developing Models for Special Education, educable mentally retarded & learning disabled & emotionally disturbed kindergartners through 2nd graders, 2147
description of tactilely defensive child, implications for special educator, 11311
Detroit Tests of Learning Aptitude subtests, prediction of academic achievement variables underlying process disorders, learning disabled 13–18 yr olds, 11379
Developmental By-Pass instructional strategies, learning disabled children, 11299
developmental & group differences, oral vs written language, normal vs learning disabled 5–7 yr olds, 8266
development & reliability & validity of structural family interaction scale, families with vs without learning disabled child, 9393
development & validity of Student's Perception of Ability Scale, measurement of academic self concept & identification of learning problems, 3rd–6th graders, 4415
deviations in developmental equations for EEG recordings, brain dysfunctions, 6–16 yr olds with learning disabilities & at risk for neurological disorders, 10404
diagnostic ability of Hebrew Revised WISC, learning disabled 8–12 yr old males, Israel, 13683
diagnostic screening technique, classification of writing disabilities, 4th grade normal vs poor readers, 9045
direct instruction method, oral & written language comprehension, learning disabled elementary school students, 9020
Disabled in American Culture curriculum unit, attitudes toward learning disabled, 9th grade social studies students & teachers, 11189
discrepancies & lateral preference, children of mean age 12.1 yrs with school learning problems, 10609
Draw-a-Family Test, assessment of learning difficulties, 10 yr old male, 154
dyadic verbal communication performance, learning disabled vs normally achieving male 4th & 5th graders, 13610
educational & legal trends, reading & learning disabilities education, 8996
educational programs, secondary school students with learning disabilities, 4383
effectiveness of participation in group problem solving task with peers, learning disabled vs normal 3rd–8th graders, 10589
EMG biofeedback & handwriting training, academic attainment, male learning disabled children, 11273
enrollment in regular classes with vs without additional assistance vs vocational training classes, social & vocational maturity, learning disabled high school students, 11292
evaluation method, measurement of student learning strategy level & amount of teacher-student interaction required for student task mastery, learning disabled children, 11310
evaluation of heredity in reading & learning problems, family & twin studies, 6066
exceptionality status & art instruction & time between test administrations, Goodenough-Harris Drawing Test standard IQs, nonexceptional & learning disabled & educable mentally retarded students, 6768
fading pictures of picture-word pairs, learning & retention of word lists, learning disabled 8 yr old male & 10 yr old female, 4392
family therapy as treatment of learning disabilities, 13247
figural & verbal creativity, learning disabled vs nondisabled 1st & 3rd & 5th & 7th graders, 3884
fuzzy set concepts in model of learning disability, 6073
group & self hypnotic training, academic performance & self esteem, learning disabled 7–13 yr olds & their parents & reading teachers, 1883
guidelines for educating disabled children, 8997
hand checking system of external cueing, remediation of digit reversals, learning disabled 5–8 yr olds, 11275
hemispheric specialization, gifted learning disabled children, 3873
human figure drawings, inferences about intelligence & emotional adjustment & personality, learning disabled children, 8279
identification of residual attentional deficit, adolescents & children, 1534
imagery vs verbal strategy instruction, organization & recall of noun pairs & performance on WISC & Revised WISC, learning disabled 9–12 yr olds, 11317
importance of neuropsychological knowledge for treatment of learning disabled, school psychologists, 11349
inclusion of cultural-economic disadvantaged children in learning disability special education programs & relationship to learning disabilities & brain dysfunction, 4391
individual differences in language learning, language disorder as learning disability & developmental deviation, children, 10622
individual differences in physiological arousal, picture vocabulary performance, learning disabled 7th & 8th graders, 1538
individual & group feedback, reduction of oral reading errors, 5th grade learning disabled vs non-learning disabled underachievers, 6741
individualized education program assessment model, learning disabled children, 11305
individualized 3-yr educational training program, visual perception & concept formation & language, male 10.5 yr old, 12.5-yr followup, 8958
informational adequacy of messages in conversation, request for message clarification & selection of referents, learning disabled 1st–8th graders in listener role, 6068
initial reading achievement & training to use context for error correction, changes in reading, learning disabled 8–13 yr olds, 9036
instructional use of fantasy & guided visual imagery, learning disabled & emotionally handicapped 1st–6th graders, 8968
instrumental disturbances of written & oral communication, children with learning difficulties, 8235
integration into regular classrooms, learning disabled & emotionally & intellectually & physically handicapped children, 4385

intelligence & achievement & visual-motor performance, learning disabled vs emotionally impaired children with mean ages of 10.32 vs 10.53 yrs, 10417
intelligence & sociometric status & academic & attentional competence, preferences for & adult judgment of social desirability of ingratiation tactics, learning disabled vs nonlearning disabled 3rd–6th graders, 13618
internal consistency & reliability of measures of children's behavior, emotionally disturbed or learning disabled elementary school through high school students, 13672
introduction to special issue on language arts in "Learning Disability Quarterly", 9025
kinesthetic-tactile component in visual-auditory-kinesthetic-tactile instruction, reading & retention & spelling of words, learning disabled males with mean age of 16.5 yrs, 11315
learning disabilities, ability to determine antecedents & consequences of pictured social situations, 9–11 yr olds, 6064
lesson plan forms & grading system, resource teachers of learning disabled students, 9061
linguistic cue use in oral reading behavior, learning disabled children, 3879
locus of attribution & level of control over error correction, performance following context cue use reading instruction, 3rd–5th grade learning disabled & slowly developing readers, 11302
locus of control, normal vs learning disabled male 2nd–4th graders, 3882
match between covert vs vocal vs visual-manual optimal response modes & method of task presentation, performance on paired associate task, learning disabled with mean age of 9.9 yrs, 13638
maternal behavior & child's social skills, learning disabled male children & their mothers, 10594
McCarthy Scales of Children's Abilities & General Cognitive Index & Revised WISC IQ, educable mentally retarded vs learning disabled vs normal 6–8 yr olds, 6083
methods for modification of classroom exams, teachers of mainstreamed secondary learning disabled students, 11287
modality impaired vs tested & semantic vs perceptual encoding, recall vs cued recall, auditorily vs visually impaired learning disabled 10 yr olds, 10591
mother's description of hypoactive preteen daughter, 10605
multicomponent model, training for improvement in test taking skills, learning disabled adolescents, 9022
multidisciplinary treatment, hyperactive learning disabled children, 5921
multisensory vs visual only test information, performance on visual pattern matching task, learning disabled male 6–8.9 yr olds, 10604
need for consideration of individual mental ability, learning disabled children, implications for teaching methods, 13667
neuropsychological assessment as basis for designing learning programs for learning disabled, school psychologists, 11386
neuropsychological model, interpretation of test data, learning disabled 9.5 yr old male, 10597
neurosensorimotor dysfunction, educational & behavioral problems, young children, 5926
noniconic symbol system, verbal performance, 9 & 11 yr olds with severe learning difficulties, 13642
number of sight words presented & response competition, sight word reading ability, 7–12 yr old learning disabled children, 11281
number of spelling words taught, percentage of words spelled correctly, learning disabled school age children, 2150
oral instructions & training, expansion of written language, learning disabled male 12 yr old, 11293
paradigmatic training, reading comprehension, learning disabled 7–10 yr olds, 10-wk followup, 11272
parent-directed intervention program, learning disabled children, 4405
patterning & organizational difficulties, language & learning disabilities, children, therapeutic & diagnostic implications, 10414
peer status & teacher preference & self appraisals of social status, mainstreamed learning disabled vs nondisabled 4th–6th graders, 4386
perceptual vs imaginal representation, performance on classification task, learning disabled vs normal 8.8–10.3 yr olds, 10606
performance on Developmental Test of Visual-Motor Integration & Wide Range Achievement Test & Student's Perception & Ability Scale & Revised WISC, learning disabled 3rd graders, 13673
performance on Revised WISC vs Woodcock-Johnson Tests of Cognitive Ability, learning disabled 4th graders, 11405
praise &/vs noncontingent vs contingent correct self recording, pronunciation during oral reading, 11 yr old learning disabled male, 4404
predictive validity of Slosson Intelligence Test, identification of learning disabilities, high risk kindergartners, 4413
problems in learning modern math, learning disabled children, 9060
"Project Heroes" humanities curriculum, learning disabled children, 11312
psychodrama techniques in group psychotherapy, emotional development & socialization, learning disabled 12 yr old males with peer group adjustment problems, 1750
psychoeducational assessment & goals & instructional objectives of Individualized Education Program, educable mentally retarded & emotionally disturbed & learning disabled students, implications for education of handicapped, 6737
psychological adaptation to difficulty of classroom material, learning disabled children, 13668
reactions & coping behavior, parents of learning disabled children, 13062
reading ability & listening to vs reading textbook material, retention of information, mildly handicapped 10th–12th graders, 4408
reading programs for learning disabled, laws effecting reimbursement of school systems & certification & training of reading specialists, 8969
reasoning strategies & abilities, normal vs learning disabled 6th grade readers, 8245
recategorization of Wechsler Preschool & Primary Scale of Intelligence scores by A. Bannatyne's pattern, 5.2 yr old kindergartners with learning problems, 13065
receptive & expressive language skills, early elementary learning disabled students, 4388
recommended curriculum for neuroeducators to aid learning disabled students, 6633
referential communication ability, male learning disabled vs nondisabled 9–11 yr olds, 3877
regression discrepancy method using ability & achievement tests, identification of learning disabled children, 6780
reliability of McCarthy Screening Test, identification of potential learning problems, 5 & 6 yr old kindergartners, 11401
remedial academic intervention, learning disabled 21–40 yr olds, 8991
remedial vs regular classroom placement, academic self concept, severely learning disabled & educable mentally retarded 8–12 yr olds, 8965
resource room instructional strategy, learning rates, learning disabled elementary school students, 9006
response opportunity & teacher-student interaction & social acceptance as criteria for placement in regular classroom, learning disabled students, 13647
Revised WISC IQ subtest scores, learning disabled & mentally retarded 8–14 yr olds, 2 yr followup, 237
Revised WISC subtest profiles, learning disabled & mentally retarded 7–8 yr olds, 12921
role clarification, remedial reading vs learning disabilities teachers, 8850
scatter analysis, Revised WISC profiles, learning disabled 6–12 yr olds with IQ above 120, 13067
school neuropsychology, 8781
school performance & attendance, male 10th & 11th & 12th graders 5–6 yrs after enrollment in special learning disabilities program, 13653
school & social & vocational adjustment, 16.1–23.4 yr olds who received educational services for learning disabilities as children, followup study, 13643
self contained special class placement, academic achievement & intellectual functioning, learning disabled 8 & 9 yr olds, 4377
self recording & tokens & contingent free time, reading comprehension, learning disabled 8.8–14.9 yr olds, 13665
Semel Auditory Processing Program, language performance, language/learning disabled 7.5–11 yr olds, 1889
separation of Digits Forward from Digits Backward of WISC Digit Span subtest, diagnosis of neurologically based learning disabilities, 5–15 yr olds, 11350
serial & discrete motor tasks, movement speed, educationally subnormal 11–13 yr old males, 8275
services for learning disabled students, school psychologists, 13656
sex, school behavior problems & maladjustment, learning disabled vs normal 7–12 yr olds, 13620

sex differences, personality traits & cognitive style & academic achievement & perceptual motor skills, learning disabled special education students with mean age 12 yrs, 10611
Slingerland Screening Tests for Identifying Children with Specific Language Disability, prediction of learning disabilities, learning disabled vs nondisabled 1st graders, 4419
social acceptance, mainstreaming, learning disabled 1st–6th graders, replication of study of J. B. Sheare, 6734
social comparison method, setting & evaluating academic objectives, learning disabled, 6723
social conversation patterns, learning disabled 3rd graders, 4403
social skills training, improved interpersonal skills & increased frequency of peer interaction, 12–16 yr old learning disabled males, 1802
socioeconomic bias in planning & placement decisions of Educational Placement & Planning Committees, learning disabled & educable mentally retarded & emotionally & otherwise impaired 4–19 yr old students, 11267
sound blending & auditory closure, word analysis skills & oral & silent reading, learning disabled 6–10 yr olds, 3867
spatial & verbal abilities & lateral preference patterns, learning disabled 8.3–12.7 yr olds, 1536
special class model of service delivery & ecological concepts in mental retardation & learning disabilities & emotional disorders, current transformation of special education, literature review, 13645
special education placement in self contained learning disabled classes vs individual tutoring, self concept & reading achievement, 3rd grade males, 4409
special vs regular class placement, meta-analysis of effect size, students with below average IQ vs behavior disorders vs emotional disturbances vs learning disabilities, 6721
stimulus complexity & change, RT & response reactions, learning disabled & normal 10–11 yr olds, 3875
suggestions for parents for home conditions, promotion of successful task completion, learning disabled children, 3866
Suggestive-Accelerative Learning & Teaching method of G. Lozanov, math & reading achievement, learning disabled 9th graders, 9042
symbiosis in learning therapy, hearing impaired & learning disabled 12 yr olds, 9007
task analysis & cognitive functioning, construction of instructional program for diagnosis of learning difficulties, 2167
teacher expectations, labeling, learning disabled students, 4406
teacher ratings of classroom hyperactivity & cognitive measures & patterns of ability, 105–148 mo old learning disabled vs 91–154 mo old nonlearning disabled children, 11340
teaching rules of logic free of specific learning content, learning disabled children, 8971
teaching word recognition with visual imagery, learning disabled 12 yr old male, 8977
time sharing & dichotic listening tasks, cerebral speech lateralization, learning disabled vs normal 7–11 yr olds, 8258
total & plasma free tryptophan & plasma cortisol & blood serotonin level, hyperactivity, 5–15 yr old hyperactive vs learning disabled children vs normal siblings, 13097
training & screening of paraprofessionals, learning disabled classroom, 11150
trends toward ethnic & racial mixture in special education classes, increased classification of Blacks as learning disabled, 6743
use of Revised WISC for intelligence assessment vs diagnosis, learning disabled students, literature review, 6757
use of Revised WISC vs McCarthy Scales of Children's Abilities vs Wide Range Achievement Test, differential diagnosis of learning disabled 2nd graders, 2200
use of strategy sheet for classroom activities, learning disabled students, 8986
use of volunteers in resource rooms, learning disabled 5–13 yr olds, 11278
utility & efficiency & effectiveness of procedures, screening for school learning difficulties, 11367
validity of McCarthy Scales of Children's Abilities, diagnosis of learning disabilities, learning disabled vs general education 7 yr olds, 9089
validity of Quick Neurological Screening Test, identification of learning disabilities, students previously given physical exam, 7103
variations of mirror image reversals on Bannatyne Visual-Spatial Memory Test, preschoolers & 1st–2nd graders with cerebral palsy vs learning disabilities, 8089
verbal expression &/vs verbal mediation deficits, learning disabilities, 7–9 yr olds with cleft palate, 1387
vestibulo-cochlear stimulation, auditory discrimination, learning disabled 6–17 yr olds, 8261
visual imagery & visualization & guided vs unguided fantasy as teaching tools, teachers & counselors of learning disabled children, 11285
visual-perceptual integration, hyperactive & emotionally disturbed & learning disabled male 7–12 yr olds, 8097
visual scanning strategies on Motor-Free Visual Perception Test, perceptually impaired 9.2–11.5 yr olds, 13063
visual vs auditory word presentation & distraction, retention, learning disabled 12–16 yr olds, 4380
visual vs aural input & output modality pairings & proficiency vs disability in mathematics, short term memory, 6th graders, 6093
WAIS profiles, learning disabled 17–25 yr old students, 13060
Wide Range Achievement Test vs Peabody Individual Achievement Test, academic achievement, learning disabled college students, 11341
yoga & motor activities, concentration performance, children with learning disabilities, 2155
3-level systems framework for assessment of attitudes toward learning disabled students, 13658

Learning Disorders [See Also Dyslexia, Learning Disabilities, Reading Disabilities]

behavioral neuropsychology, remediation & rehabilitation of organically induced behavior problems, school age children, implications for special education of learning disabled, 11289
behavior & learning problems & personality disorders, EEG assessment, adults referred to vocational counseling, 9164
biofeedback techniques, treatment of childhood behavioral & learning disorders, literature review, 10860
effectiveness of Bender Visual Motor Gestalt Test, screening for brain damage, school age children with learning problems, review of literature since 1970, 4785
epidemiology of educational & psychiatric & physical disorders, Isle of Wight studies, 9–11 yr olds, 1964–74, 5923
family structure & behavior patterns, learning disabilities with vs without hyperactive syndrome in offspring, male 5–12 yr olds, 6074
genetic influences & developmental correlates, academic learning difficulties, identical vs fraternal twins, 6081
hemispheric asymmetry, linguistic disabilities, literature review, 10593
hydrocephalus & spina bifida, distinguishing the "cocktail party" syndrome, 5 yr olds, 2- & 5-yr followups, literature review, 8377
individually designed reinforcement schedules, attending to task & math performance, behavior & learning disabled 12–17 yr old students, 2162
lateral dominance & torque, emotionally disturbed vs educable mentally retarded vs speech & hearing vs learning disabled 3rd graders, 10406
metabolic & nutritional aspects, minimal brain dysfunction & attention deficits & learning & language disorders & hyperactivity, 8121
neuroanatomical correlations, language disorders, 10608
neuropsychological procedures, differential assessment of learning disorders caused by CNS dysfunction, school psychologists, 11378
psychoanalytic interpretation of mother child relationship, severely neurotic learning disordered gifted 13 yr old male, 12903
sex chromosome aberrations, delayed development & learning disorders & mental retardation, male 18–45 yr old dyslexics & sex chromosome disordered children & adults, 5910
theory on formation of attitudes toward task undertaking, ability to function & academic consequences & behavior patterns, learning disordered students, 6077
time of neuropathological lesions, development of mental subnormality, 8230
validity & reliability of Acting out-Mood-Learning scale, measurement of emotional & learning problems, male vs female 4 yr olds in Head Start program, 155

Learning Rate

acquisition & use of Blissymbols as means of communication, severely mentally retarded nonverbal 15 vs 18 yr olds, 8742
conspicuous vs cryptic distasteful prey, number of trials in avoidance learning, male chicks, 533
developmental differences, learning rate & rate of forgetting in serial recall task, 3.3 vs 4.9 yr olds, 1037

emotionality & conditionability, rate of acquisition & extinction in active vs passive avoidance & active approach conditioning, Roman high vs low avoidance vs Maudsley reactive vs nonreactive rat strains, 5095
go/no-go vs 2 choice paradigms, auditory discrimination learning, animals, literature review, 2838
intensity of shock UCS, 1-trial backward fear conditioning, male rats, 5094
level 1 & 2 abilities as measured by rote learning vs reasoning & categorization, learning rate, 1st–3rd graders, test of A. R. Jensen's theory, 10099
number of passive spectators, speed of nonsense syllable learning, female college students, 1271
observation of male vs female model & number of response-relevant cues, leverpress acquisition rate in observational learning, mice, 606
prenatal decreased oxygen consumption, learning deficits, neonatal ducklings, 9850
repeated taste aversion trials, acquisition rate & attenuation of schedule induced polydipsia, female rats, 602
resource room instructional strategy, learning rates, learning disabled elementary school students, 9006
sequencing of visual & auditory stimuli, rate of learning words & Bliss symbols, trainable & profoundly mentally retarded 6–9 & 14–17 yr olds, 8238
structure of cognitive abilities, college students of Japanese vs North European Ancestry, Hawaii, 7946
time & ease of learning 2-letter & number vs 4-letter message reference code, army officers & enlisted personnel, 11437
transitive inference vs equivalence vs identity conservation, relative ease of learning sequence, mentally retarded 6–14 yr olds, 6060
truly random control vs backward conditioning vs CS-only response elimination procedures, reacquisition of autoshaping, pigeons, 615

Learning Schedules [See Distributed Practice, Massed Practice]

Learning Theory

assimilation theory of meaningful learning & retention, reply to criticism by R. C. Anderson et al, 4630
associative learning vs discriminative learning theses vs acquired value of relational stimulus of similarity, theories of imitation learning in infancy, 5518
assumptions & applicability to conceptual learning research, hypothesis theory, 7837
computer program called MAX, validation of learning hierarchies, 104
conceptual schema of instructional process, learner requirements & learner-environment interaction, 13565
conditioning theory of R. A. Rescorla & A. R. Wagner, literature review, 9661
definition & etiology & treatment of school phobia & followups & methodology, literature review, 5954
educational technology in phase with communication science & learning & cognitive theory, 11134
environmental context, conditioning, literature review, 2862
fruitlessness of attempt to restrict relationships that can be learned to preconception of exhaustive contingency classes, criticism of R. Bolles's assertions, 7246
hippocampus, conditioned operations & cognition, 2980
hippocampus, formation of attentional-associative networks, extension of N. J. Mackintosh attention theory, 2997
hippocampus, temporal processing of stimuli in conditioning, rabbits, literature review, 3006
hippocampus & memory, 2986
history & development of educational technology, 11138
inhibition of neurons vs perceptual & associative mechanisms, physiological learning theory, implications for minimally brain damaged children, 11941
level 1 & 2 abilities as measured by rote learning vs reasoning & categorization, learning rate, 1st–3rd graders, test of A. R. Jensen's theory, 10099
methodological & theoretical issues concerning external vs self reinforcement, literature review, 2788
model systems analysis of neurophysiology of learning, 12231
new ideas & theories, developmental & process aspects of learning, 1046
performance on Educational Set Scale, prediction of concept vs fact learning performance, college students, 11358
research on miniature artificial languages, understanding nature of 1st vs 2nd language learning, 5431
reward vs response cost & locus of control for positive vs negative outcomes & sex & age, task performance, 5th vs 6th graders, social learning theory implications, 1069
S's selective learning process, durability & type of memory trace, 9589
theoretical framework, factors affecting learning through educational TV, 13519
theoretical framework, proposed study of teaching methods for activity learning, 13570
theory of adaptive neural elements, prediction & expectation in classical conditioning, literature review, 731
theory of adult education emphasizing proficency as means of motivation & evaluation, 6623

Learning [See Also Related Terms]

age at preparation of brain lesions, adoption of alternative strategies in problem solving, cats, 3103
age & method of 1st trial presentation & 1st trial outcome, learning set acquisition, 3 vs 5 yr olds, 7777
age & sex differences, effectiveness of alien vs conventional external reinforcement, 3rd vs 6th graders, 12457
anatomical connections between anterior thalamus & cingulate-retrosplenial cortex, rabbits, correlation with neural activity during behavioral learning, 7435
anxiety, learning performance, 2619
arginine vasopressin, learning & memory, depressed cognitively impaired & ECT induced retrograde amnesia patients vs cognitively unimpaired adults, 13360
associative vs information processing vs contextual approaches, educational research on adult learning, 5500
attention & learning & memory strategies, mentally retarded, implications for education, 8232
bilateral lesions of pretectum & superior colliculus, learning of pattern vs object discrimination, male rhesus monkeys, 7596
brain norepenephrine turnover & individual power drive, mastery of power-related vs neutral material, male college students, 7542
classification, learning of distributed stimulus sets, college students, 2806
conceptual schema of instructional process, learner requirements & learner-environment interaction, 13565
confidence level in answers to earlier questionnaire vs structure of later related paragraph, response latency for questions on both, college students, 11975
contextual connotation & number of computer command terms, ease of learning & recall, experienced vs inexperienced computer users, 9211
development of filial attachment to static visual features of imprinting object, Khaki Campbell ducklings, 562
differential vs common suppression of CRs, response vs stimulus learning, male rats, 5093
discrepancy from expectation & retention interval & literal vs inferential comprehension type, learning & retention of prose material, 5th & 6th graders, 10029
dunce mutation of learning, cyclic adenosine monophosphate defect, fruitfly, 2827
editorial behavior during professional paper submission & review & acceptance/rejection & relationship to psychological phenomena, 13478
effects of experience, learning, 5019
environmental stimulation, recovery from experimentally induced problem solving deficits, ducklings, 9851
evidence for physiological amnesic mechanism mediated by endogenous opioid peptides, state dependency of learning upon release of beta-endorphin, literature review, 9775
experimental vs trial & error techniques, teaching of instruction-following, mentally retarded 7–10 yr olds, 6069
feature-positive vs negative learning, monkeys vs pigeons, 12059
herbicide 2,4,5-trichlorophenoxyacetic acid during incubation, learning & activity & jumping behavior, chickens, 12398
heredity vs learning, handedness & laterality, humans vs monkeys, 7426
inferotemporal lesions, visual discrimination learning, monkeys, 5341
internal vs external factors in orientational activity & reflex & reflection, children, implications for effect of play on learning, 1019
intracranial self stimulation, emotion & pain & reward & learning mechanisms, literature review, 9787
knowledge & cognitive development, 1016
learning, protein levels & synthesis, split-brain pigeons, 5336

learning to read as 2 part process including paired associate learning & cryptanalysis, 10050
motor skill level, cognitive controls & learner strategies & information processing, training implications, 308
multiple modeled variations, information acquisition, preschool children, 10027
new ideas & theories, developmental & process aspects of learning, 1046
parent education, management of child's behavior & learning, parents of educable mentally retarded children over age 6, 8410
photoperiod & exposure to bird song, enhanced vocal learning, male marsh wrens, 9646
physostigmine dosage, learning & memory, Alzheimer patients, 13315
pictorial vs verbal & analytic vs holistic learning strategies, science learning, male vs female college students, 5012
positive vs negative prior contact, reinforcing strength of approval, male 3rd–5th graders, 5460
posttraining pentylenetetrazol, facilitation of single-problem discrimination learning vs learning set, rhesus monkeys, 866
predetermined word order in serial anticipation task vs order reconstructed by S in free recall task, learning, 7209
prenatal exposure to cannabis, crossing of placenta & growth & development & behavior, animals, literature review, 857
quantity of large & hollow blocks, problem solving & imaginative play & learning, 4 yr old males, 10020
reasons for learning & pleasure obtained from work, teachers & actors & artists & writers, 3256
selective hippocampal lesions, behavior, rats, 3112
sex differences, spatial ability, literature review, 679
similarity of adjunct & test questions, study behavior & learning, male US Naval Training Center students, 13728
smaller vs larger number of entities, discrimination, monkeys, 2878
small group learning process using student consultants & senior supervisors, 6670
socioeconomic & ethnic differences, sibling variables & family learning environments, Anglo-Australian vs Greek vs Southern Italian families, Australia, 12638
stimulus orientation & spatial frequency, perceptual learning, 4910
structural modeling techniques vs learning hierarchy model as approaches to analysis of skilled behavior, literature review, 9561
synonym vs antonym vs rhyme production & intervening tasks, semantic activation & facilitation effects, college students, 4999
theory & research, instruction & learning aspects of play, children, 2066
training vs instructions, cognitive learning strategies, college students, 9599
use of mental images in cognitive operations & as aid in learning & memory, 11911
visual stimulus complexity & field independence, information processing, college students, 4976
yoga & motor activities, concentration performance, children with learning disabilities, 2155
2-choice visual discrimination learning, 25–72 yr old patients with Korsakoff's syndrome vs Huntington's disease vs Broca's aphasia vs alcoholism, 8109

Learys Interpersonal Check List
college norms for Leary Interpersonal Checklist personality measure, 193

Least Preferred Coworker Scale
leader score on Least Preferred Co-worker Scale, follower satisfaction, literature review, 10340
leader task orientation vs supportive-interpersonal orientation, prediction of group performance, US Air Force enlisted men, test of validity of least preferred coworker scale interpretation, 4770
multidimensionality & predictive & construct validity of Least Preferred Co-worker Scale, US Army reservists in field training, 4826
validity & reliability of Least Preferred Co-Worker Scale, measurement of least preferred co-worker's social characteristics & S's task competence, college students, 219

Lecture Method
cognitive & instructional style, learning performance, college students, 6662
computer assisted instruction vs programed text vs lecture method, achievement, US Air Force medical laboratory & radiology & dental assistant trainees, 2001
coping model vs lecture/discussion, target behavior change, education majors, 13574
evaluation of research on lecture notetaking, case study method, literature review, 9275
lecture format vs mass media campaign & type of information, reporting rates of shoplifting, college students, 10276
lecture vs enhanced vs verbatim text & ability & study activities & motivation, examination performance, college students, 4309
lecture vs small group discussion vs experiential task & videotapes, teaching family assessment, medical students, 8802
lecturing vs modeling vs role playing, remedial reading tutoring skills, paraprofessional tutors, 11170
preference for assigned notetaking vs full vs partial distributed notes, multiple-choice vs essay test scores, college students, 13555

Leg (Anatomy)
color differences in visual stimulation, leg strength, male students, 7415
conditioned H-reflexes prior to leg movement, healthy Ss, 829
electrical stimulation of sural & peroneal superficialis nerves, sensory action potentials & flexor reflexes of lower limb & pain sensation, 22–36 yr olds, 7590
local & central physiological adjustments, differential perceptions of leg & chest exertion during submaximal cycle ergometer exercise, male college students, 2668
mode of sensory integration of differential perceptions of leg & chest exertion during submaximal cycle ergometer exercise, male college students, 2667
position of hindlimbs & forelimbs, wiping reflex of hindlimb, spinal frogs, 5304
relative timing of limb segments within vs between modes of gait, male runners, 11755

Legal Arrest
closing of drug clinic, readdiction to heroin & rise in arrest vs incarceration rates, methadone clients, 2-yr followup, 11051
sensation seeking, alcoholic men with history of chronic public drunkenness, 1522

Legal Processes [See Also Adjudication, Adoption (Child), Commitment (Psychiatric), Expert Testimony, Incarceration, Law Enforcement, Legal Arrest, Legislative Processes, Parole, Probation]
amount of evidence withheld & relevancy to case, jurors' perception & evaluation of defendant's character, college students as mock jurors, 1292
assessment of competency to consent to voluntary admission, newly admitted psychiatric patients, implications for legal model applicability, 13406
basic principles of custody assessments, 5666
biased instructions & presence of offender & consequences for offender & realism, willingness to make lineup choice & identification errors, college students, 12699
case law, content validity of personnel selection tests, 5683
case of W. Chidley hospitalized for lunacy 1912–1916 because of eccentric beliefs on cure to societal problems, speculation about treatment under present mental health laws, Australia, 6552
child advocacy assumptions & history & strategies, 5680
collaborative role of child advocate attorneys & mental health professionals, 1177
coping with adversary relationships, elected public officials, 12700
covert societal & psychiatric values, treatment of psychosis, 6194
defendant's evidence withholding & prior record, jurors' decisions in simulated trial, college students, 5672
definition & criteria in determining malpractice, psychologists, 4240
dominance of legal process by psychiatry & mental health expert witnesses, criticism of G. E. Dix's allegations, 10275
empirical research by regulatory agencies, advertising legal inquiries & adjudication, 4609
ethical aspects & limitations of analogy between mental & physical health, subjectivity in determining mental health of convicted offenders, 10793
ethical standards & legal responsibility, counselors, 8764
fairness of lineups, accuracy of criminal identification, witnesses to staged crime, 12698
forced choice vs no choice option lineup instructions & vandal presence vs absence, correct identifications, college eyewitnesses, 10352
forensic psychiatry & psychology, 1979 New York Academy of Sciences symposium, 1185
forensic psychology, West Germany, 5665
guidelines for reducing dominance of legal process by mental health expert witnesses, 10273
historical background of child abuse & legal ramifications, 6029

hypothyroid psychosis, insanity defense in homicide, 31 yr old male, 5904
intelligence test administration under standard vs reinforcement conditions & with vs without psychotropic medication, test performance, institutionalized mentally retarded adults, legal implications, 6491
issues of "mind control" & informed consent regarding religious cults & role of parents & mental health practitioners, 1121
joint custody arrangement, children's & parents' perceptions of divorce & family adjustments, 12–15 yr olds & their divorced parents, 10195
juridical position, nonmedical psychotherapists, Netherlands, 8780
legal & administrative influences on suicide rate data collection, England & Wales since 1900, 6036
legal guardianship for medication against psychiatric patient's will, ethical dilemma, physicians, 6565
legal information needed by medical patients, 5669
legal recourse, sexual contact between psychotherapist & patient, 13482
legal right of labor union, access to company psychological test data, 7983
length of marriage & family size & educational level, personality traits & marital adjustment & dissolution rates, married couples in court ordered vs voluntary counseling, 1759
level of confidence & optimality of information processing, accuracy, eyewitnesses, 12690
lineup composition & race of suspect & witness & lineup constructor & confidence, identification accuracy, witnesses, 12689
mathematical models of conventional vs final offer arbitration processes, industrial disputes involving public safety personnel legally prevented from striking, 2250
medical aspects & patient's rights, side effects from neuroleptic drugs, 13320
medical legal debate, commitment of mentally ill, literature review, 1966
memorial & cognitive processes, correspondence of confidence & accuracy, eyewitnesses, 12696
merits of "best interests of child" vs "least detrimental alternative available" criteria & proposed alternative, decisions in disputed child custody cases, 1174
motivation & moral judgment ability & social pressure, acquiescent behavior & moral action, female college students, 5725
multiple psychologists as expert witnesses vs child-specialist-implemented consultation model, child custody determination, 1166
organizational models & management strategies for behavioral administration of residential treatment programs, 13409
overview of child custody issues, 1109
proposed reforms, criminal justice system procedures & jury responsibility, 1184
psychiatric & medical & ethical & legal issues, euthanasia, 2020
psychodynamics, custody battle, 7 yr old male, longitudinal study, 972
psychological & legal factors, juveniles' competency to waive rights in court, 1173
psychological & legal issues of treatment consent & planning, children & adolescents prior to age of consent, 10777
psychological significance of eyewitness research, 12707
psychology & legal change, 3555
psychometric principles for establishment of length of Examination for Professional Practice of Psychology, 7063
role of child psychiatrists, divorce & child custody, 5681
role of eyewitness memory in criminal justice system, 12706
role of family therapy in probate cases, 1758
role of marital/family therapist in forensic activities, 1175
supply of vs professional & judicial standards for mental health personnel & psychologists in state correctional institutions, 8790
therapeutic homes as alternative to traditional foster care without legal separation of parents & their emotionally disturbed children, 1920
transfer of patients from involuntary to voluntary commitment status, circumvention of judicial hearings, psychiatric hospital staff, 4160
underlying dynamics & psychogenic precursors & legal & psychological problems, transsexualism, 5696

Legibility [See Also Handwriting Legibility]
legibility distance & comprehension & preference & glance legibility of symbolic public information signs, 2274
type size & style & line width & spacing, reading speed & acceptance ratings, 60–84 yr olds, 2712

Legibility (Handwriting) [See Handwriting Legibility]

Legislative Processes
advantages & disadvantages of "truth in testing" legislation, Congressional hearings, 1183
assessment of involuntary commitment admissions following revised legislation, 1179
competencies & assessment criteria for regulation of behavioral treatment procedures, 13512
constituent group public opinion vs claims of public & special interest lobbyists, standardized testing, legislative implications, 12697
development & legislation, college programs, mentally retarded adults, 9013
development of statewide communications network for support of legislation by Massachusetts Psychological Association & its members, 6618
difficulties encountered during participation in legislative processes, psychologists, 6572
federal legislation & integration of vocational rehabilitation & special education, 8730
impact of state "sunset" laws for licensing of psychologists on clinical psychologists, symposium, 6554
legislation to regulate practice of psychology, Canada, 6610
legislative history of Massachusetts bill to extend authority & privileges of psychologists, 6556
legislative & political involvement & need for legislative training programs, psychologists, 6590
litigation & legislation, professional standards, school psychologists, 13533
medicine & education & parent advocacy & legislation, mental retardation, New Zealand, literature review, 8271
process for achievement of legislative objectives, state psychological associations, 13474
regulation of practice of marriage & family therapy, 2044

Leisure Time
descriptions of work vs nonwork time, compensatory vs spillover models of adjustment to work, pharmaceutical firm & research organization employees, 2218
extraversion & neuroticism, choice & avoidance of social situations, college students, 12851
flexitime, attitudes, employees, 4551
leisure, literature review, 3745
leisure activities & retirement satisfaction, retirees, Australia, 7886
likes vs dislikes of life experiences, 13–23 yr olds, Senegal, 10370
market research, development of public recreation & leisure policy, 6903
number of working hours, free time problems & personality traits, part-time vs full-time vs unemployed Ss, 13722
periods of inactivity vs strenuous mental work, catecholamine & cortisol excretion & heart rate, Type A vs B male college students, 1315
restricted TV viewing, leisure time use & IQ change & cognitive style, 6 yr olds, 3276
sex & household size & education & demographic characteristics, allocation of time to leisure activities, heads-of-households, Norway vs United States, 12621
use of leisure, mentally handicapped 13.3–19.7 yr olds, 6065
use of leisure time in education of masses, 1118
value of leisure, gifted & talented persons, 1327
work & leisure & family roles, farm households, US, 1920–55, 3552

Lens (Eye)
optical mechanisms of compound eyes, traditional concept of optically inhomogeneous lens cylinder vs mirror mechanism, crustacea, 7514

Lesbianism
acquisition of sex role behavior, 6–9 yr old children of lesbian vs heterosexual single mothers, 10163
development of homosexuality, female homosexuals who were vs were not only children, 5691
exclusive adult lesbianism, 33 yr old female with Turner's syndrome mosaicism, 6129
family background & respect for mothers & fathers, heterosexual vs homosexual females, 3474
final report to Board of Social & Ethical Responsibility for Psychology by Task Force on Status of Lesbian & Gay Male Psychologists of American Psychological Association, 6538
gender development & prevalence of disturbance, 5–12 yr old children of lesbian vs heterosexual mothers, 10169
history of attitudes toward male homosexuality & lesbianism in Eastern & Western cultures & recent adaptation of women to lesbianism, 10281

research on bisexuality & lesbianism & male homosexuality, 1975–1978, annotated bibliography, 7993
Lesions [See Also Brain Lesions, Hypothalamus Lesions, Neural Lesions]
bilateral labyrinthectomy, horizontal & vertical optokinetic reflexes, rabbits, 3098
blinding and home-cage lighting, aggressive behavior, male rats, 3106
chemical activation of gastrocnemius-soleus muscle afferents, synaptic responses in lumbar alpha-motoneurons, decerebrate & spinal cats, 12288
conditioned inhibition of nictitating membrane response, decorticate rabbits, 9895
decortication, feeding & sensory & motor deficits, rats, 12341
female flank glandectomy, sexual behavior, male hamsters, 3105
functional organization of posterior parietal association cortex & effects of lesions on attention & sensation & motor control, monkeys, 12222
hippocampus & neuroendocrine system, 3071
lesions of subfornical organ, mediation of drinking responses, rats, implications for central control of thirst, 12333
neocortical lesions, olfactory discrimination, male rats blinded by enucleation, 5346
partial glossectomy, oral behaviors within context of typical sexual behavior pattern, male hamsters, 839
penile sheath removal & spinal transection, penile reflex, male rats, 3119
pinealectomy, ultradian rhythms & short term activity, lake chubs, 840
portacaval anastomosis, spontaneous behavior in complex maze vs illuminated open field vs hexagonal runway, male rats, 7608
presence vs absence of retinal & extraretinal photoreceptors, light responses & entrainment of circadian locomotor activity rhythms, lake chubs, 7604
removal of right eye & crushing of optic nerve of left eye, ability of ipsilateral optic tectum to mediate vision when containing only spontaneous ipsilateral optic tectal projection, goldfish, 854
simultaneous vs serial olfactory bulb lesions, muricide & irritability & open field activity, female rats, 3131
surgical removal of corpora allata, role of juvenile hormone vs ovarian nervous or hormonal involvement in initiation of biting behavior, female mosquitoes, 5313
tailshock & body restraint technique, acute induction of gastric lesions, rats, 72
theories & contributions of H. Sjobring including concepts of mental functioning & personality variants & lesional disorders, 22
water deprivation, behavioral & physiological functions, Harderianectomized vs intact male gerbils, 7580
Lesson Plans
lesson plan forms & grading system, resource teachers of learning disabled students, 9061
Letters (Alphabet)
amount of paper space, accuracy of letter strokes vs manuscript strokes, suburban vs urban kindergartners vs 1st graders, 12559
change in movement duration, height of handwriting, 22–55 yr olds, 7160
correlation between reading of letters & words & sentence ordering & silent reading comprehension, dyslexic children aged 11 yrs & older, 13059
dichotomous visual presentation & list length, recall of attended vs unattended letters, 18–30 yr olds, 483
display mode & character size of vibrotactile letters, recognition, 18–23 yr olds, 11748
foveal vs parafoveal presentation of words vs letters, recognition response latency, 11–15 yr old dyslexic vs normal readers, 6063
guessing instructions vs familiarity with stimuli vs array structure vs retinal location, letter recognition accuracy, college & graduate students, 11802
Hebrew words written with correct vs incorrect vs no vowel signs, RT to name word, college students, 9979
individual differences & word vs nonword context, response latency in letter identification, college students, 11815
interactive activation model, perception of letters in words & other contexts, 11825
letter features vs word masks, mediation of word identification by component letter identification, high school & college students, 7255
memory units for Chinese letters called Kanji vs Japanese letters called Kana, students, 489
multilevel race model, orthographic & lexical familiarity effects in simultaneous alphabetic letter matching task, college & graduate students, 950
order of approximation to English letters & spacing & typeface, grapheme identification, college students, 4883
organization of letters in columns vs rows, role of reading experience on errors in letter identification, 4–6 yr olds vs English-speaking adults vs bilingual Chinese, 353
orthographic structure & familiarity, word superiority effect in physical & phonetic & semantic & lexical decision tasks, criticism of findings of T. H. Carr et al, 4986
perceptual quality & visual field of probe stimulus, memory search for letters, college students, 7174
physical identification & phonetic classification of characters in English vs Hebrew alphabets, bilingual college students, 956
physically identical vs different letter name vs case, RT, college students, 295
prior knowledge of fixed target set of letters, word superiority effect in letter identification task, college students, 5026
reading & writing strategies, alexic & agraphic 59 yr old male with intact spelling & letter recognition abilities, 10726
retinal locus vs cerebral dominance vs metacontrast vs letter symmetry vs ocular dominance, tachistoscopic letter recognition, college students, 11788
RT in matching of visually presented upper & lower case letters, college students, evidence for visual vs acoustic access to letter identities, 11893
sex differences, recall of letters &/vs letter positions, 8–11 yr olds, Ghana vs Scotland, replication of study by R. V. Kail & A. W. Siegel, 3500
similarity between target & nontarget letters, recognition of target letters, young adults, 9490
single letter vs repeated vs extraneous letter string presentation, matching of leftmost letter with target letter, college students, 4925
spatial organization & cognitive development sources of letter recognition errors, children, implications for labeling, 7780
story hearing & retelling, alphabet learning, preschoolers, 4297
suffixes, recall of tactual vs visual sequences of alphabetic characters, college students, 481
syllable duration, perception of distinction between stop consonant & semivowel, 4965
tabulation of bigram frequencies & versatilities by position in 2–9 letter words, 957
texts containing meaningless numbers printed in letters vs repetitive numerals inserted between meaningful words, oral reading time & memory for phrasing & meaning, college students, 9557
upper vs lower case & alone vs as part of pseudoword presentation, identification of alphabet letter, college students, 4911
visual presentation of letter sequences, immediate serial recall & phonemic similarity effect, college students, 11972
word isolation in successively vs simultaneously presented serial list, short term memory, college students, 11930
word vs 1st letter in word differences & word frequency, speed on simultaneous & delayed visual matching task, college students, 7239
writing vs printing & alphabet vs familiar words, speed of performance, college students, 9479
Leucine
haloperidol, 3H-4,5-leucine incorporation into limbic system, mice, 7651
intrahippocampal anisomycin, retention of brightness discrimination task, rats, 3174
Leucocytes [See Also Lymphocytes]
adult metachromatic leucodystrophy misdiagnosed as schizophrenia, female patient, 3891
entoptic observation method, measurement of retinal leukocyte flow rate & ophthalmologic diagnostic utility, 6991
enzyme activity of glucose-6-phosphate dehydrogenase vs gamma-glutamyl transpeptidase vs lysozyme in serum vs red vs white blood cells, schizophrenia, implications for functional deficiency in neutrophils of schizophrenics, 10450
erythrocyte & leucocyte & cyclic adenosine monophosphate levels in manic & depressive phases, manic depressive female, 10462
human leukocyte antigen typing, patients with endogenomorphic affective illness, 1441
Leukemias
California Psychological Inventory subscales as predictors of coping with child's leukemia, parents, 192

hypnosis, fear of dying, 9 yr old male with acute lymphocytic leukemia, 6425
psychiatric symptoms & distortion of perception of severity vs prognosis of child's illness, parents of children with cystic fibrosis & leukemia, 13101
school attendance & teachers' perceptions & academic achievement & classroom behavior, 5–11 yr olds with leukemia, 10665
Leukocytes [See Leucocytes]
Leukotomy [See Psychosurgery]
Levodopa
apomorphine vs RU 24213 vs dextroamphetamine vs bromocriptine vs levodopa & lesions of nigrostriatal pathway, stereotyped behavior & locomotion & rotation & anorexia & emesis, mice & rats, 865
levodopa & decarboxylase inhibitors, electroretinogram, Parkinson's patients, 13335
levodopa & levo-hydroxytrytophan doses, visual evoked response, cats, 3183
levodopa & melanocyte-stimulating-hormone inhibiting factor, disability score & intellectual functioning, Parkinson's disease patients, 4082
long-term dietary levodopa, body weight & locomotor activity & number of dopamine receptors, C57 vs BALB/C mice, 7689
neurochemistry & pathophysiology of parkinsonism & symptomatology of levodopa-induced psychosis, 1375
pretreatment with levodopa alone & with benserazide followed by drug challenge, locomotor stimulation & role of central dopamine receptor sensitivity, male mice, 895
Liberalism
analysis of the impact of community reactions on sheltered-care residents in different types of neighborhoods, 10993
demographic & other characteristics, divorce liberality, married couples, 3530
feeling of being understood/misunderstood by other group with regard to values of freedom & equality, groups of conservative vs liberal college students, 12741
relationship between liberalism & conservatism, male Army conscripts, Australia, test of F. N. Kerlinger's theory, 5881
Liberalism (Political) [See Political Liberalism]
Libido
analytic therapy with libidinal cathexis & emotional growth, hospitalized psychosomatic patients, 1963
Libraries (School) [See School Libraries]
Librium [See Chlordiazepoxide]
Licensing (Professional) [See Professional Licensing]
Lidocaine
lidocaine slow infusion, functionally effective spread, male rats, 3136
Life Experiences
age differences, consensual knowledge of experiential determinants of emotion, kindergartners & 3rd & 5th graders, 7847
analysis of informative vs evaluative vs obsessive types of reminiscence, aged, 12514
analysis of life course events, American- & foreign-born females, US, 1865–1915, 5547
argument against standard clinical methods of evaluation of mental & physical condition & support for oral history techniques, aged patients, 13369
attribution of negative vs positive life events, depressed vs nondepressed college females, 1434
belief in personal control over life events, divorced vs married White adults, 5637
biographical determinants & individual differences, processes of aging & aging status, aged, 7753
biographical variables, coping style in facing finitude of human life, aged, 7746
biography of Oscar Wilde, 11547
causal attribution & sex & professional status & past experiences, behavioral response to failure, rejected authors, 5844
changes in social support, level of psychological adjustment, adult family members, 1-yr longitudinal study, 8099
characteristics & experiences, Vietnam era US Army deserters in Special Discharge Review Program, 6786
coding procedures & open vs closed response format, temporal estimates of life event occurrence, college students, 7232
cognitive dimensional analysis, stressful life events, children, 1086
Collegiate Life Change Questionnaire as screening measure, college students in campus mental health service vs counseling center, 6778
correlation between & reliability of Schedule of Recent Events & Social Readjustment Rating Scale, alcohol & drug abuse clients, 7073
current life satisfactions & view of self vs others as aging individuals, college students, 12877
death of significant other & change in residence & work, sudden cardiac death, 25–64 yr old White females, 10655
demographic & experiential variables, prediction of attitudes toward disabled persons, college students, 10344
early loss of parent & life event ratings, 70 yr old males vs females, 7891
expectancy disconfirmation & contradictory role demands & sense of external control & loss of affiliative satisfactions & developmental life changes, personal & social alienation, professionals & managers, 4486
extent & role of stressful life events, suicides, 10557
family medical histories & life events prior to disease onset, families of 3–17 yr old cancer patients, 1590
family stress & coping, literature review, 1970's, 10250
financial situation & health & standard of living & family life, satisfaction across stages of adulthood, adults, 7882
impact of life events, myocardial infarction patients, 1565
induction of elated vs depressed moods, accessibility of memories of happy vs unhappy experiences, female college students, 11997
institutional experience, behavior & development, mentally retarded persons, 13429
involvement & mythicizing & reminiscing of one's past, 44–103 yr olds, 12540
language & biological & cognitive & personality development & social experience, 12462
learned helplessness, changes in daily activities, married vs single vs widowed 65–85 yr olds, West Germany, 1161
length of residence, life experiences & minor psychiatric morbidity, urban population, Australia, 10464
life change before disease onset, colorectal vs gastric cancer patients, 10698
life history method, literature review, 2323
life space interviewing, academic & social behavior, behaviorally disordered 12–15 yr old males in residential placement, 8688
life stressors & coping styles, urban 18–64 yr olds, 1321
likes vs dislikes of life experiences, 13–23 yr olds, Senegal, 10370
methodological problems, role of life events in affective illness, 13008
methodological problems in life events research, 9261
model of factors affecting career commitment, working women, Republic of South Africa, 13723
model of family history & high stress & subjective appraisal & somatization, hypertension, 21–65 yr old low income Black adults, 3927
nasal inoculation of rhinoviruses & recent life stress & personality traits, cold symptoms & infections, 18–49 yr olds, 10740
negative life events & suicide risk, male alcoholics with vs without secondary depression, 1513
neural & biological & sensory mechanisms underlying life after death experiences & role of cerebral dissociative hallucinatory activity, 5195
perceptions of control & desirability of life events, subsequent health, college students, 3737
personal & social variables, awareness of finality of human life, aged, 3275
planning & preparation for future crises, 70 yr olds, 3428
positive life experiences, well-being & social adjustment, college students, 12899
positive vs negative future events & knowledge of unrealistic optimism of others, prediction of occurrence for self & others, college students, 8087
prior life change, emotional impact of rape, adult female victims, 3851
psychosocial background, behavior during treatment in psychiatric institution, female adolescents, 6505
psychosocial differences & life satisfaction, volunteer workers vs non-volunteers over 65 yrs old, 12591
race & sex & social class & age-related adult life phases, life orientation & satisfaction, adults, 3283
recall of significant events over 2 yr period, 56 yr old male alcoholic, 8122
reliability of C. E. Ross & J. Mirowsky's life event weighting schemes, professional criticism, 2566
reliability of measurement of adverse life experiences, adults attending health clinics, 232

reliability of Schedule of Recent Experience, measurement of aversiveness of life stress events vs changes they entail, 242
roles & unreciprocity, homicide, male vs female homicide offenders vs murderers vs nonaggressive property offenders, 6038
self rated health & income, internal external locus of control vs life satisfaction, Ss 65 yrs old & over, 12597
sex, reporting & rating of life events, diabetic vs healthy 18–67 yr olds, 1561
sex differences & activity & time of day, subjective experience of freedom in daily life, 19–65 yr olds, 3679
sex & life events, hypochondriasis & sick role & symptoms, married couples, 8376
sex & locus of control & sexual influence stereotypes & sexual experience, unmarried college students, 12717
sex & marital status & relevance to self, ratings of life experiences, male vs female 70 yr olds, Sweden, 5879
simple count vs differential weighting, scaling life events, alcohol & drug abuse clients, 7101
social assets & personal & social functioning, 18–55 yr old psychiatric patients, 5966
socioeconomic group & work experience & sex, leadership preferences, Chile, 13752
stability of cross-situational patterns of anxiety behavior, 8th graders, 1081
stressful life events, return to heroin use, methadone maintenance patients, 4195
stressful life events & employment status, 16–18 yr olds, 12571
stressful life events experienced 6 mo prior to illness onset, neurotic vs nonneurotic depressives, 12941
subjectively vs statistically determined contributors, life satisfaction, male college faculty, 3735
synergistic approaches, life & career skills development & counseling strategies, 6813
therapeutic value of oral history techniques, aged, 12448
weighting scheme for life event analysis, reply to B. S. Dohrenwend's & R. C. Kessler's criticism, 2594
weighting strategy for analysis of life events by C. E. Ross & J. Mirowsky, professional criticism, 2581
written descriptions of events & behaviors of varying distances in the past, memory & dispositional shift in attributions, autobiographies of psychologists & college students, 10395
Lifestyle
African vs Western models & values, magazine advertisements, Africa, 1133
characterization of home environments & family lifestyles in California, 10269
concept of "disadvantaged" for social & economic & political inequality, ethnic & lower class children, 12454
drug use & lifestyle, college students, replication of study by P. A. Walters et al, 3589
employee attitudes & company policies toward job relocation, 9160
lifestyle factors, cancer, critique of article by R. Peto, 13095
lifestyles & health & stress levels, 20–49 yr old middle-income divorced female heads of families, Canada, 1164
lifestyle view & internal resonance according to Rorschach test, children, 5536
living conditions & quality of life, aged, West Germany, 1110
personality traits, lifestyle responses, 38–71 yr olds who had coronary artery bypass surgery, 8358
preseparation lifestyle & current happiness, males vs females in process of divorce, 5633
sensation seeking, alcoholic men with history of chronic public drunkenness, 1522
Type A attitudes & behavior, degree of coronary occlusion vs angina pectoris, employed males, 13168
Light [See Illumination]
Liking [See Affection]
Limbic System [See Also Amygdaloid Body, Hippocampus, Olfactory Bulb]
anatomical connections between anterior thalamus & cingulate-retrosplenial cortex, rabbits, correlation with neural activity during behavioral learning, 7435
autoradiographic study, septal & amygdalar efferents to hypothalamus which facilitate hypothalamically elicited intraspecific aggression & hissing, cats, 730
classical conditioning, neuronal responses recorded from limbic system brain structures, rabbits, 2967
dextroamphetamine & haloperidol, spontaneous neuronal activity in neostriatum vs nucleus accumbens, male rats, 7686
dextroamphetamine vs apomorphine & 6-hydroxydopamine injections into anterolateral hypothalamus vs mesolimbic & anterior striatal terminal fields, locomotor activity, male rats, 7641
dopamine vs noradrenaline vs 5-hydroxytryptamine injections into accumbens & caudate-putamen nuclei, exploratory & locomotor & stereotyped behavior, nialamide-pretreated male rats, 12385
estradiol vs dihydrotestosterone, absolute refractory period of testosterone-sensitive neurons of stria terminalis, castrated male rats, 796
extensive forebrain lesions, visual discrimination, turtles, 850
forced & self delivered electrical brain stimulation, water intake & control of self stimulation, male rats, 12321
haloperidol, 3H-4,5-leucine incorporation into limbic system, mice, 7651
hereditary aspects, abnormal skin conductance responses as evidence of limbic dysfunction, Huntington's chorea patients & 1st-generation asymptomatic offspring, 8341
hippocampus & neuroendocrine system, 3071
infrequent visual vs auditory stimulation, endogenous potentials in hippocampal formation & amygdala, adults, 7455
inhibition of auditory cortex neurons by "cingular" vocalization area during phonation, squirrel monkeys, 7479
limbic system influences on microsystem cellular network formation in neuronal conditioning & interaction between cortical & subcortical visual structures, cats, 2998
LSD, synapses in habenulae & interpeduncular nucleus, male frogs, 5384
neuroregulatory & neuroendocrine gonadotropin-releasing hormone pathways in hypothalamus & forebrain, baboons, 712
septal lesions, pre- & postoperative acquisition & retention of locomotor tasks, rats, 837
septum & mamilar nuclei & amygdaloid complex, control of aversive behavior, 717
sex differences, growth of sympathetic axons into denervated hippocampal regions following medial septal nucleus lesions, rats, 844
trifluoperazine, striatal & mesolimbic dopamine function, male rats, 5357
unilateral olfactory bulbectomy, opiate lignad binding in contralateral bulb, female mice, implications for limbic function & emotional behavior modulation, 5339
Limen [See Thresholds]
Linear Regression
computer programs BMDP & SPSS, stagewise multivariate linear regression, 80
least absolute value & Chebychev estimations, linear programing in exploratory data analysis, 2553
linear regression function for classification procedure wherein categories correspond to unidimensional male ranges of criterion variable, 7125
linear regression function with additional independent variable, tables for determination of increased significance of multiple correlation coefficient, 2567
statistic for testing null hypothesis population within-group regressions, determination of Johnson-Neyman region of significance, 277
uses of bootstrapping models & comparison to equal weighting models, clinical judgment, 245
Linguistic Analysis [See Etymology]
Linguistics [See Also Adjectives, Adverbs, Alphabets, Antonyms, Consonants, Ethnolinguistics, Etymology, Form Classes (Language), Grammar, Homographs, Inflection, Letters (Alphabet), Morphemes, Morphology (Language), Nouns, Orthography, Paragraphs, Phonemes, Phonetics, Phonology, Phrases, Pronouns, Psycholinguistics, Semantics, Sentence Structure, Sentences, Syllables, Syntax, Verbs, Vowels, Words (Phonetic Units)]
acquisition of verb–subject–object miniature linguistic system, college age Ss, 5045
algorithm depicting problem solving processes & structure, linguistic analysis of short published reports, 7220
anomalous monism as metalinguistic form of materialism, description of mental & physical events, 2333
Assessment of Children's Language Comprehension & Syntax Screening Test, measurement of linguistic structure comprehension, deaf 6 yr olds, 7050
causal relationship encoding ability model of H. S. Cairns & J. R. Hsu, linguistic encoding of temporal concepts, college educated adults, 10046

conceptual vs phonetic vs linguistic similarity of monosyllabic words, auditory free recall, male learning disabled vs normal 1st graders, 8276
critique of message model, linguistic communication, 5420
distinctive feature vs structuralist gradings, speech assessment, 7719
higher order units determined from grapheme-phoneme correspondences, reading instruction, 11178
linguistic organization of verbal reports of REM & NREM sleep, 19–25 yr old males, 2630
linguistics & semiotics, analysis of verbal communication, schizophrenic patient, 1477
previous experience with differentiated vs undifferentiated linguistic construction, facilitation of novel solution to problem, male college students, 425
sex & role & sex role in linguistics, 1187
theoretical & evolutionary perspectives, neurolinguistics, 9985
Lipid Metabolism
dorsomedial hypothalamic lesions at weaning & bilateral ovariectomy after maturity, body weight & food intake & efficiency of food utilization & growth & glucose incorporation into lipids, rats, 9879
Lipids [See Also Fatty Acids, Phosphatides]
estradiol benzoate, food intake & body weight & plasma triglycerides & free glycerol & fatty acids, ovariectomized female rats, 7684
insulin, food intake & dietary self selection of proteins vs carbohydrates vs fats & body weight, male rats, 7659
Lipreading
skills of visual analysis used in concept formation, lip reading vs signing deaf vs normal hearing 8–12 yr olds, 8316
stored auditory vs visual information, unimodal speech perception, prelingually deaf vs hearing & congenitally blind vs sighted 9–15 yr olds, 9519
visual-spatial ability & speech reading, college students, implications for rehabilitation of hearing impaired, 6430
Lips (Face)
feedback control, orbicularis oris reflex & voluntary lip muscle activation, 29–41 yr olds, 12261
reciprocity between movements of lower lip & jaw during production of front vowels, examination of O. M. Hughes & J. H. Abbs's procedures, 4968
reciprocity between movements of lower lip & jaw during production of front vowels, reply to criticism of H. M. Sussman, 4952
speech movement, platysma muscle motor unit activation, male S, 2994
stimulation of amygdala & pyriform cortex & parahippocampal gyrus, quiet biting attack response & trigeminal sensory fields of lip due to hypothalamic stimulation, cats, 3085
Listening [See Auditory Perception]
Listening Comprehension
amount & content of TV viewing, listening behavior, preschoolers, 7814
auditorily presented cloze procedure, test of language comprehension & expression, learning disabled 12–16 yr olds, 8104
children's language comprehension level, modifications of adults' child-directed talk, adults & language delayed 4 yr olds, 5437
clear vs distorted grammatical sentences, correctness of reiteration, volunteer listeners, implications for importance of minor structural cues, 9533
compression & whitening of speech & multitalker background & moderate vs drastic compression ratio, speech intelligibility, normal hearing Ss, 409
congruency vs incongruency between story facts & speaker's terminal utterance & awareness of facts, understanding of speaker's intentionality of false utterance, 1st vs 3rd graders vs college students, 7769
critique of message model, linguistic communication, 5420
development of understanding & recognition of spoken word, 5–9.5 yr olds, replication & extension of study by J. Downing & P. Oliver, 1012
dichotic presentation of verbal commands, right hemisphere understanding of verbs & manual responses, Ss with complete forebrain commissurotomy, 8328
direct instruction method, oral & written language comprehension, learning disabled elementary school students, 9020
dirty vs nondirty adjectives describing fictitious person, interpersonal attraction, college students, 12431
experience & instructions & preferences, compressed speech comprehension, US Army personnel, 2720
idiomatic vs literal interpretation of ditropically ambiguous sentences, graduate students & instructors, 11922
incentive & presentation rate, listening comprehension, 4956
increased tonal frequency &/vs speech rate & practice with various accelerations, sentence intelligibility & transfer from training, college students, 9534
individual differences in French language speaking & listening comprehension achievement, native English speaking 1st graders in total early immersion program, Canada, 6685
informational adequacy of messages in conversation, request for message clarification & selection of referents, learning disabled 1st–8th graders in listener role, 6068
information seeking strategies & instructions & experience & preferences, speed & comprehension in listening to compressed speech, US Army enlisted personnel, 4958
intelligibility of time-compressed sentences, normal hearing young adults, implications for auditory testing, 4955
language comprehension, American Indian vs White 5–6 yr olds, implications for language education, 11227
laterality of dichotic listening & alpha rhythm, adult stutterers vs fluent speakers, 10638
listening comprehension in classroom, 3rd graders, 8920
listening vs reading, comprehension of text content, dyslexic 6th–9th grade males, 11308
listening vs shadowing & digit monitoring, selective attention & digit detection & comprehension, college students, 11857
logical relations in conversation, college students, model of language comprehension, 12440
normal vs impaired expressive language, auditory comprehension & interrelationships of comprehension tests, 4–6 yr olds, 6103
performance patterns in auditory comprehension & verbal expression & reading & writing, 38–75 yr old aphasics, 13135
persisting auditory discrimination & speech comprehension problems, dyslexic young adults, 10601
personal characteristics of listener, verbal listening skill in interview, college students, 3730
phoneme processing & production disturbances vs general auditory comprehension disorders, aphasic patients, 8350
phonetically ambiguous pairs of words, listening comprehension & reproduction, college students, 2729
pictures vs character motivation story vs both, comprehension & recall of prose passage, college students, 9562
presentation speed & difficulty level, reading vs listening comprehension, college students, 4985
problems & recommended procedures, selective listening to conversation of others as information gathering technique, 7726
reading ability & listening to vs reading textbook material, retention of information, mildly handicapped 10th–12th graders, 4408
receiver's understanding of linguistic contexts, understanding semantic levels of message transmissions, literature review, 3252
right channel extinction in verbal dichotic listening, 2 patients with conduction aphasia, 1570
sensorimotor skills including object permanence, language comprehension, autistic 39–74 mo olds, implications for language acquisition, 10524
sentence recognition test delay, differential recognition & memory for script changes vs script implications in stories, college students, implications for script knowledge for everyday activities, 461
social class differences, comprehension of adult language, 8 yr old males of high vs low social class, 1011
stimulus complexity & message ambiguity, comprehension monitoring, preschoolers vs 4th graders, 7816
subvocalization, listening & reading comprehension, college students, 7269
temporally compressed speech, S-determined interruption of speech as measure of segmental speech processing, college students, 4971
word syllabic length & frequency & context, word recognition, college students, 11892
Literacy
dichotic listening with language stimuli, 23–80 yr old illiterates, implications for hemispheric specialization for language, 12243
literacy, Porteus Maze performance, 13–16 yr old male Campas vs their parents, Peru, 5533
Literature [See Also Autobiography, Biography, Poetry, Prose]
age vs stressful life events vs illness vs war, integrative complexity in personal correspondence, British novelists, 12444
analysis of W. Irving's "Rip Van Winkle", 7732
assumptions of C. Castaneda concerning reality & humanity & "personality theory", 9249

attraction to hero "Lassiter", fiction readers, 3267
balance theory, fairy tales, 9991
creativity & cognitive complexity, writers & audiovisual producers & directors, 10398
discussion of M. Foucault's "Madness and Civilization", 12446
examination of personality & writings & humanistic philosophy of T. More, 11544
influence of literature & aesthetics on research on schizophrenia & psychopathology of creativity, 5976
Jungian psychological types of work of S. Aleichem, 3259
literary & psychological visual models for perception of insane, 5952
multidimensional scaling procedures, assessment of changes in perceptions of Othello vs Sherlock Holmes characters, college students vs Sherlock Holmes Society members, 11232
nonuniform atmospheric refraction producing optical distortions, basis for concept of merman in medieval literature, 11818
parallels between accounts of childhoods, H. Hoover & C. Dickens's "David Copperfield", 1323
perverse polymorphic sociopathy, H. Ibsen's "Peer Gynt", 7731
philosophies & theories of D. H. Lawrence & Freud, 6940
processes in comprehension of & memory for stories, criticism of J. B. Black & R. Wilensky's evaluation of story grammar, 12418
psychoanalytic explanation of popularity of vampire myth, 9995
single vs multiple retelling & picture drawing & picture review as comprehension interventions, story recall, children from day care centers & preschools, 13566
societal destructiveness as reflected in works of D. H. Lawrence, 13029
Ss' race & physical attractiveness, White raters' evaluations of Ss' essays, Black vs White males, 5812
storytelling, young children, 10014
theme of loss & depression, R. Burton's "Anatomy of Melancholy", 961
usefulness of story grammars, criticism of J. B. Black & R. Wilensky's evaluation, 12420
use of "The Wizard of Oz" as parable for approaches to brief psychotherapy, 1722
Literature (Religion) [See Religious Literature]
Lithium
acute vs chronic administration of lithium, serum testosterone levels, male rats, 7682
age & sex & prescription of drugs, thyroid dysfunction, psychiatric inpatients, 13176
amiloride, lithium-induced diabetes-insipidus-like syndrome & lithium levels in plasma & brain & kidney & thyroid & red blood cells, rats, 12354
antipsychotics & antidepressants & neurotransmitters & diuretics & antihypertensives, intracellular lithium ratio, 5395
area postrema lesion, antiaggressive effects of lithium, rats, 801
area postrema lesions, taste aversions induced by lithium chloride & scopolamine methyl nitrate & amphetamine & antiaggressive effect of lithium, rats, 7576
chronic dietary lithium, acute effects of LSD & chlorimipramine on high-affinity tryptophan uptake & role of stabilization vs responsiveness enhancement to serotonin utilization, male rats, 931
chronic lithium treatment, failure to inhibit amphetamine induced stereotypy & hyperactivity & hypothermia, rats, 879
circadian rhythms, LiCl-induced conditioned taste aversion, preweanling vs adult rats, 5356
depressive symptom severity & intracellular sodium ion & lithium concentrations, 32 yr old female with chronic retarded depression, 12980
efficacy & risks & side effects, lithium therapy, 10937
interaction of indomethacin & ibuprofen, lithium treated manic 28–55 yr olds, 8601
intertrial interval, taste aversion learning, male rats, 2850
lithium, bradycardia & tardive dyskinesia & diabetes insipidus, female patient with manic depressive & paranoid psychosis, 13339
lithium, conditioned taste aversion, male Wistar rats, 929
lithium chloride, inhibition of denervation-induced increase in acetylcholine receptors in skeletal muscle, female rats, 5397
lithium chloride baiting of carcasses, predation on sheep & turkeys, coyotes, 7301
lithium chloride induced taste aversion, saccharin flavored water drinking & killing & consuming of mice, opossums, 7297
lithium chloride vs saline injection after exposure to petri dish of soiled bedding, conditioned aversion to bedding vs empty dish, 12–13 mo old male gerbils, 922
lithium chloride vs saline UCS, conditioned taste aversion for saccharin, rats, 12012
lithium chloride vs water injections & visual cues, ability to form illness-induced aversions, pigeons, 903
lithium vs amitriptyline, relapse rates, 25–65 yr olds who had recovered from depressive illness, 3-yr followups, 13352
lithium &/vs stress, free amino acid brain levels, rats, 7637
lithium withdrawal, relapse, bipolar manic depressives, 10928
long-term lithium therapy, glomerular filtration rate & calcium metabolism, 25–65 yr olds, 13356
longterm use & adverse effects of phenothiazines & lithium, 8589
misdiagnosis & response to lithium, 65 yr old male with depressive dementia, 10472
physostigmine infusion, subsequent response to lithium, 21–31 yr old schizophrenics, 10918
red blood cell distribution of lithium & sodium, depressed patients, 1454
saccharin flavor & lithium, aversion learning, 5 day old rats, 885
sequence of pentobarbital & lithium & saccharin & pentobarbital pairing, taste aversion, male rats, 7328
sex, rate of entry of lithium ion into erythrocytes, normal vs affective disorder patients, etiological implications, 3800
time of lithium & footshock pretreatment, preference for novel vs familiar auditory & visual & taste stimuli, rats, 9860
tricyclic antidepressants & lithium, treatment of tardive dyskinesia, 1869
Lithium Carbonate
cardiotoxicity & cardiovascular side effects & drug-drug interactions, antidepressants & lithium carbonate & tranquilizers & sedatives & hypnotics, 13350
clinical use vs pharmacology vs toxicology vs biology, lithium carbonate, 1978–80, bibliography, 12400
combined antipsychotic & lithium & hormone treatment, severe premenstrual exacerbation of schizophrenia, 18 & 21 & 27 yr old females, 4088
combined lithium & haloperidol toxicity, male patient, 13354
early & late symptoms of lithium toxicity, 1853
etiology & diagnostic problems & lithium therapy effectiveness, male & female patients with bipolar psychosis onset before age 16, 5958
genetic & lithium treatment studies, reconsideration of bipolar-unipolar classification of affective disturbances, literature review, 6009
lithium, aggressive behavior, 17–63 yr old mentally retarded patients, 8574
lithium & anticonvulsive drug therapy, increased petit mal seizures, 14 yr old female with seizures & affective disturbance, 4098
lithium carbonate, failure to treat dyskinesia, 56–70 yr old tardive dyskinesia patients, 6399
lithium carbonate, thyroid function, 16–79 yr old patients receiving lithium carbonate for 6 mo or more, 10929
lithium carbonate, weight gain, patients with bipolar affective disorder, 10934
lithium carbonate therapy, diabetes insipidus & renal damage & depletion of thyrotropin-stimulating hormone, 18 yr old male with Gilles de la Tourette syndrome, 4107
lithium carbonate therapy, transient CNS hypersensitivity, 57 yr old male manic depressive alcoholic, 1847
lithium carbonate treatment, memory, patients with chronic affective disorders, 13324
lithium carbonate treatment, neurological complications & organic brain syndrome & extrapyramidal side effects & seizures & EEG changes, 6383
lithium carbonate &/vs haloperidol, improvement & side effects, 37–41 yr old manic patients, 10920
lithium carbonate with vs without imipramine hydrochloride, prevention of relapse & subsequent illness, 18–65 yr old Bipolar I patients, 10935
lithium & diazepam & oxazepam, plasma concentrations, depressed patients, 3–26 mo followups, 8594
lithium therapy, glycine level change, bipolar & unipolar depressed patients, reevaluation of findings of S. Rosenblatt et al, 4084
lithium therapy, megaloblastic anemia, 40 yr old male bipolar patient, 13348
lithium treatment for 1–10 yrs, glomular filtration & urine osmolality & urine volume, 24–89 yr old affectively ill patients, 1848
long term lithium therapy, cognitive & affective functions, patients with affective disorders, 6392
long term lithium treatment, side effects, 20–65 yr old patients, 8605
maintenance lithium therapy combined with chlorpromazine & haloperidol, cardiac & respiratory arrest, 35 yr old manic female, 1861

manic depressive psychosis with daily shift of switching time in 48 hr cycle, 78 yr old male treated with lithium, 8167
methods for estimation of prevalence of bipolar affective disorders, 10475
MMPI personality correlates of response to lithium carbonate, 20–71 yr old psychiatric patients, 1834
predictability of MMPI scales, antidepressant responses to lithium therapy, male vs female outpatients, 9326
use of lithium, incidence of hospital admissions with mania, 10942
Liver
food intake for 1 hr daily & unlimited running wheel activity, development of stomach ulcers & levels of liver glycogen & bilirubin & serum proteins & glucose, male rats, 5317
induced stress & imipramine, plasma imipramine levels vs liver demethylase activity, male rats, 12381
liver temperature, food intake & chewing, male rats, 9837
nicotine, spontaneous motor activity & nicotine concentrations in brain & liver, male vs female & C57 vs C3H vs DBA strains of mice, 9936
subdiaphragmatic denervation & liver temperature, food intake, male rats, 9838
Liver Disorders
pencillamine, mental disorders associated with hepatolenticular degeneration, 8583
portacaval anastomosis, spontaneous behavior in complex maze vs illuminated open field vs hexagonal runway, male rats, 7608
Lizards
burst speed & distance running capacity & thermal dependence, lizards, 5249
estrogen & antiestrogen, sexual receptivity, female lizards, 3132
role of chemoreception via tongue extrusions, ingualid lizards, 12164
Lobotomy [See Psychosurgery]
Local Anesthetics [See Cocaine, Lidocaine, Quinine]
Localization (Perceptual) [See Perceptual Localization]
Localization (Sound) [See Auditory Localization]
Locus of Control [See Internal External Locus of Control]
Logic (Philosophy)
logical principle vs linguistic form, conditional reasoning performance, college students, 9980
methodological validation & practice & problems, nondirective & nonprestructured interviews, 114
problems in inference of competence from performance, criticism of Piaget's logical competence models, 5477
theoretical commonality of diverse developmental schemes, 5451
Logical Thinking
age differences, memory for stories containing easy vs difficult to understand spatial relationships, 1st vs 3rd vs 5th graders, 10106
cerebral dominance, performance on tactile & unimanual Piagetian tasks for spatial & logical thinking, left vs right handed children, 2966
compatibility & symmetry, time & distance & speed relationships, 11–13 yr olds, 7783
coronary prone behavior & irrational beliefs, college age vs older males, 12869
developmental differences, understanding of relationship between predictors & consequences, preschoolers vs 1st vs 4th vs 7th graders, 10022
development of negatives in language, logical denial, 18–36 mo olds, 1031
development & validity of Test of Logical Thinking, measurement of formal reasoning, 6th graders through college students, 7106
electronic apparatus, measurement of logical thinking, 6965
evidence for logical & sequential & introspective nature of deductive reasoning, review of recent studies, 420
field dependence, restructuring ability in logical problem solving, adolescents, 12526
formal instruction in logical reasoning, mentally retarded students, 4381
fuzzy quantifiers, syllogistic reasoning, college students, 419
generation of statements illustrating logical rules, logical correctness of responses to questions using same rules, college students, 11914
graphic respresentation of games, development of logical thinking, 3rd vs 4th graders, 5506
hypothesis generation, 3-yr study, 9539
law of noncontradiction in thinking, preadolescents, criticism of Piaget's & Johnson's propositions, 7804
level of decision making, effect of rationality on decision making process, 7219
logical concordance & complexity, accuracy of inference, college students, 7233
logical principle vs linguistic form, conditional reasoning performance, college students, 9980
logical reasoning tests & Metropolitan Achievement Tests as measures of propositional reasoning, 6th & 8th graders, 2519
logical relations in conversation, college students, model of language comprehension, 12440
negative components, ease of interpretation of disjunctive sentences, college students, 2741
pretraining on covariation concept & response format & cognitive strategies, accuracy of identification of relationship between events, 10th graders & college students, 7238
rational beliefs & extraversion & neuroticism, college students, 12874
repetitive study of & testing on same set inclusion structure & immediate feedback, conversion errors & RTs on test for integration of related information in prose, college students, 421
review & interpretation of M. Wertheimer's "Productive Thinking" from phenomenological perspectives, 9549
risk appraisal & irrational beliefs & amount of dating, social anxiety & dating confidence & satisfaction, male college students, application of cognitive theories of A. Beck & A. Ellis, 1226
syllogistic reasoning deficits, schizophrenics vs brain damaged patients, 10443
syllogistic vs nonsyllogistic order of report & clustering vs nonclustering of related items & retest interval, response latency & belief inconsistency, college students, 5000
teacher guidelines for program planning, logic development in young children, 4290
teaching rules of logic free of specific learning content, learning disabled children, 8971
transitive inference vs equivalence vs identity conservation, relative ease of learning sequence, mentally retarded 6–14 yr olds, 6060
understanding necessity of logical laws in discourse, children, criticism of views of Piaget & G. Johnson, 3340
validity & reliability of Irrational Beliefs Test, college students, 11667
Loneliness
combination of longitudinal design & structural equation methodology, separation of loneliness & depression constructs for experimental study, college students, 4754
locus of control, loneliness & coping with somatic & psychological distress, college students, 12883
loneliness & widowhood & being alone & degree of disability & age, social adjustment, institutionalized elderly, 4162
mental illness & loneliness & helplessness, recommendations for more holistic approach to treatment, 8656
ontological confrontation of death & loneliness, psychological distress, male maximum security inmates, 8220
validity, revised UCLA Loneliness Scale, college students, 4820
Long Term Memory
acquisition & representation of abstract materials in long term memory, college & graduate students, 2-yr followup, 448
bilateral ECT, memory for past events, depressed patients, 7-mo followup, 1675
brain damage & subsequent long term verbal memory deficits, disruptions in vocational & social & emotional functioning, 20 yr old male, treatment implications, 8378
cigarette smoking, immediate & delayed recall for new vs previously presented words & categorization, habitual smokers, 888
confidence level in answers to earlier questionnaire vs structure of later related paragraph, response latency for questions on both, college students, 11975
conscious attention in complex multiplication as primary task with/vs faces presented as secondary stimuli, delayed recognition of faces, college students, 300
criteria for definition of cognitive units as elements to be retrieved from long term memory, 7241
cycloheximide, protein synthesis & memory, praying mantis, 5380
display time & complexity of novel visual patterns & poststimulus processing time, short- & long term visual memory, college students, 449
ear differences in processing superficial vs meaningful tasks, long term memory, college students, 9754
external object context & age, knowledge of household item names & appropriate locations & retrieval from long term memory, 2–4 yr olds, 3376
hippocampal lesions, long- & short-term memory, rats, verification of cognitive map vs working memory theory of hippocampal function, 3123

illustrated vs unillustrated text, long term memory, 14–15 yr olds, 9567
inference processes in retrieval of information from long term memory, college students, 5040
intentional vs incidental learning instructions & immediate recall test & list structure, long term retention, college students, 9582
knowledge of elementary arithmetic, adults educated 10–20 yrs earlier, 2784
long term retention of conditioned taste aversion, preweanling vs adult rats, 7333
melody vs title cues of songs, familiarity vs time of popularity judgments vs lyric recall, middle aged vs elderly, 11927
object salience & previous visual processing &/vs naming, latency & update in picture naming & independence of visual & semantic & lexical memory codes, female college students, 7257
operative level as indicated by maturity of verticality concepts, copying &/vs reproduction of verticality drawings & immediate vs long term memory, 1st–5th graders, 1-wk & 5-mo followups, 3349
order of learning & recall of arm positioning movements, absence of proactive interference, 21 yr olds, 7147
picture-word lists of varying difficulty, acquisition & paced recall & relearning, college students, 11929
pleasantness & intensity of affect, retrieval of real life experiences from long term memory, college students, 4889
recall of motor behavior, college students, test of duomemory notion, 2633
recall of significant childhood events through sculpturing, sculptor, parallels process of art therapy, 8421
retention of long-delay one-trial conditioned preference, monkeys, 7299
Search of Associative Memory theory of long term memory retrieval, integration of 2 models including cue development probabilistic sampling & recovery from associative retrieval networks, literature review, 491
self categorization of words & list length, immediate & delayed recognition, college students, 11943
stab wound to brain & ECT & alcoholic Korsakoff syndrome, extent & patterns of remote memory impairment & retrograde amnesia, amnesiacs, 8315
student vs teacher-supplied lecture notes, immediate & long term recall, college students, 11228
subject similarity, recall order of words, college students, 5044
time in short-term storage, subsequent recall of words from long term memory, female college students, 498
time of day, immediate & delayed retention, male college students & female nurses, 459
time of day, retrieval from long term memory, adult females, 5037
training to recognize implied vs asserted advertising claims, rating claims for truth value immediately & 2 vs 7 vs 9 days later, college students, 6901
valence vs intensity of associated emotion, long term memory for experiences, 7244
validity of TV test, assessment of remote memory, Ss with mean age of 45.2 yrs, 11691
variations in response latency, recognition of memorized words from same vs different category, college students, 5030
verbal learning & long term memory & performance IQ, 21–65 yr old common neurotics vs patients with neurotic excoriations, 12922

Longevity [See Aged, Physiological Aging]

Longitudinal Studies
academic & personal indicators, career success, former doctoral students in educational administration, implications for program candidate selection, longitudinal study, 4277
achievement & affiliation & power motives, male vs female respondents, 1960 vs 1976, 5894
achievement orientation, 4th–9th graders of Western vs Eastern origin, Israel, longitudinal study, 6712
acoustic activation, heart & respiratory rate & skin potential & resistance, female with endomorph depression treated with thymoleptics, longitudinal study, 10514
age, psychological & pharmacological cigarette addiction, adult male VA outpatients, longitudinal study, 12729
age at which prism experienced, prism induced aftereffects, 6–9 mo olds, longitudinal study, 10081
age of infant & context, maternal speech characteristics, Down's syndrome 3.7–17 mo old & his mother, longitudinal study, 8236
aircraft noise, attentional strategies vs learned helplessness vs performance on cognitive task vs blood pressure, 3rd vs 4th graders, 1-yr longitudinal study, 12487
analysis of self reported coping behavior, 45–64 yr olds, 1-yr longitudinal study, 3416
changes in play behavior, 3 & 4 yr olds, short-term longitudinal study, 7897
changes in social support, level of psychological adjustment, adult family members, 1-yr longitudinal study, 8099
changes over time, sexual experience & birth control usage & sex education, unmarried college students, Canada, longitudinal study from 1968–78, 7987
childhood vs adolescent onset of behavior disorders, diagnoses & outcome, adolescents followed since infancy, 6056
chronicity effect of left temporoparietal lesion, 30 yr old male with encephalitis, 6-yr longitudinal study, 1614
comparability of WISC vs Revised WISC scores, 8–9 yr old mildly mentally handicapped special education students, longitudinal study, 9128
comparison of approaches, measurement of relative change for dichotomous variable in analysis of longitudinal categoric data, 2600
comparison of Revised WISC & Wide Range Achievement Test, differential diagnosis of educationally handicapped & learning disabled, 8–16 yr old students, longitudinal study, 9086
cross cultural differences, early childhood development & childrearing practices, European-American vs Chinese children from birth to 3 yrs old, US vs Hong Kong, comparison of longitudinal studies, 12565
days/week of preschool attendance & preschool group & age & sex, play behavior, preschoolers, 10-wk longitudinal study, 8948
demographic & social characteristics, behavior ratings at home & school, children at age 7 vs 11 vs 16 yrs, longitudinal study, 5556
depressed vs nondepressed state & depression-related cognitions & self esteem, randomly selected Ss, 1-yr longitudinal study, 5869
design of followup study, rehabilitated chronic schizophrenics released from state hospital, 20-yr followup, 11581
development, infants from birth through 1 yr of age born to parents with serious mental disorders, implications for vulnerability for schizophrenia, longitudinal studies, 12981
developmental language program in classroom & clinical settings, language related development, 2–4.5 yr olds, 5-yr study, 8606
development of "bad mother" concept, mother-child relationship & childhood asthma, mothers & asthmatic children observed at 14–30 mo & 4–6 yrs of age, 1578
development of cognitive & personality-social characteristics, 30 yr old mothers, 40 yr followup, 5461
development of Toddler Temperament Scale, ratings of temperament characteristics, mothers of 1–3 yr olds, longitudinal study, 7077
direct instruction using Distar language & reading programs, attainment of literacy skills & cognitive growth, mentally retarded 8–14 yr olds, 5-yr longitudinal study, 8966
epidemiology of educational & psychiatric & physical disorders, Isle of Wight studies, 9–11 yr olds, 1964–74, 5923
evaluation of mental retardation research, implications for longitudinal approach, 8234
evaluation of therapeutic programs at Ittleson Center for Child Research, psychotic children, longitudinal studies into adulthood, 13386
examination vs reexamination scores on McCarthy Scales of Children's Abilities, disadvantaged Black preschoolers, longitudinal study, 10038
factor analysis of Crites's Maturity of Vocational Attitudes Scale, high school leavers, Switzerland, longitudinal study, 11624
factors affecting pathological personality development, children, Czechoslovakia, longitudinal study, 1072
factors determining sample size, longitudinal field studies, 118
failure to find correlates with eidetic imagery, elementary school students, 10-yr longitudinal study & literature review, 1068
failure to relate irregular past base forms & their past counterparts, 3.6–4.1 yr old male, longitudinal study, 10073
family intervention method, long term management of schizophrenia & prevention of relapse, schizophrenics & their families, 4010
feelings between anorexic patient & psychotherapist, 9–15 yr old female, longitudinal study, 6270
French immersion vs traditional English curricula, development of plural & past tense morphological rules in English, elementary school students, longitudinal study in grades 1–4, 6656

frequency of vs no home intervention, intellectual & social development, severely subnormal preschool children, 3-yr study, 13661
genetic factors, etiology of personality traits, pairs of twins 1–7 yrs old, longitudinal study, 12606
incongruent marital role expectations, goal value consensus, newly married couples, longitudinal studies, 7959
infant tests & home stimulation score, prediction of language & cognitive development, 4 mo to 2 yr olds, longitudinal study, 9413
influence & expression of temperamental factors, Ss studied from infancy through adolescence, longitudinal study, 12573
instinctual drives, progression from symbiotic to separation-individuation phase, children from birth to 3 yrs old, longitudinal studies, 5572
interaction of heredity & environment, behavioral development, normal Puerto Rican & mildly mentally retarded & multihandicapped children, longitudinal studies, 3410
interaction quality at 2 mo, attachment security at 7 mo, father-infant dyads, longitudinal study, 7856
interrelationships of biomedical & environmental & developmental variables, Down's syndrome children followed from birth to 36 mo, 8265
IQ & age, performance on Monroe Visual III Test, 6 vs 10 vs 14 yr olds, longitudinal study, 12475
labor market performance & race & education & collective bargaining affiliation, locus of control & hourly wages, young male survey respondents, longitudinal study, 9144
longitudinal stability of personality trait ratings as measured by multitrait-multimethod criteria, 149
lost letter & lost postcard techniques for nonreactive measurement of attitudes toward controversial topics, return rates, New Zealanders, longitudinal study, 11651
mother-infant interactions, longitudinal studies, 3550
mother reports of developmental differences, personality & social behavior, fraternal vs identical twins from birth to 6 yrs old, longitudinal study, 9742
nature of mother-child interaction, child development, 12–30 mo olds & their mothers, longitudinal study, 5647
occupational role development & task performance & decision making involvement, 21–46 yr old physicians' assistants, longitudinal study from 1 mo prior to training graduation to 5 mo into job, 13748
perceptions of parental interest & social adjustment & school achievement & personality traits, unwanted children, longitudinal study at 9 & 15 yrs, Czechoslovakia, 5645
personality & parental treatment, behavior problems, children at ages 1–5 yrs, longitudinal study, 13022
predictive validity of short forms of Wechsler Preschool & Primary Scale of Intelligence, 4.5 & 8.5 yr olds, longitudinal study, 2442
prenatal narcotic addiction, behavioral concomitants including mental & psychomotor development & irritability of CNS, neonates, 3- & 6- & 12-mo followups, 6054
presence of inanimate objects, length of interaction with familiar vs unfamiliar peers, 10–14.5 mo olds, longitudinal study, 10166
prosocial intentions & behavior between friends, 1st vs 4th graders, longitudinal study, 7850
psychiatric disorders, adopted children & adolescents, 3-yr longitudinal study, 5965
psychiatric referral patterns, patients in general hospital inpatient wards, Canada, 5-yr longitudinal study, 1965
psychodynamics, custody battle, 7 yr old male, longitudinal study, 972
psychodynamics & demographic characteristics, depressed 6–13 yr olds admitted to residential unit, 6-yr longitudinal study, 11030
psychosocial variables & stress, incidence of cancer & internal diseases, Yugoslavia, 1965–1975, implications for prediction, 1584
receptive & expressive language problems & remediation, school age male with seizure disorder, longitudinal study during 1st–5th grades, 8103
relaxation &/vs biofeedback training, treatment of essential hypertension, 29–65 yr old veterans, report after 4 yrs of 6-yr longitudinal study, 8507
repetition of adult model's utterances, facilitation of spontaneous language acquisition, 9 vs 10 vs 11 mo olds, longitudinal study, 992
restrictive civil commitment laws, arrests of disruptive nondangerous mentally ill, suburban police officers, 5-mo longitudinal study, 7981
scale development, assessment of temperament, parents of infants at 3–12 mos, longitudinal study, 9406
sex differences, changes in attitudinal vs behavioral rigidity, male vs female 68–90 yr olds, longitudinal study, 7911
sex differences, conservation of numbers as kindergartners as predictor of arithmetic achievement, 2nd graders, longitudinal study, 6682
sex & length & phase of menstrual cycle, magnitude estimation of sucrose pleasantness & sweetness & feeding behavior, college students, 5-wk longitudinal studies, 754
sex roles & family relationships, male vs female adolescent offspring of chronic schizophrenic mothers, 10465
smoking behavior & related attitudes of cohort, 11–12 yr olds, 4-yr longitudinal study, 12734
socioeconomic status & demographic characteristics, schizophrenia vs affective psychotics vs neurotic outpatients, India, longitudinal study, 1493
socioeconomic status & IQ, delinquency, males born between 1944–47 & 1959–61, longitudinal studies, 1525
stability of peer- & self-ratings of popularity, children at ages 10 & 13 & 15, longitudinal study, 1051
status changes in foster care including discharge & adoption & hospitalization, Ss 12 yrs & under, longitudinal study, 6481
transcendental meditation, creativity, college students, 5-mo longitudinal study, 5085
unidimensional scaling, assessment of cognitive structure of interest in English lessons, secondary education students, Germany, longitudinal study, 4370
vascular element change, prediction of mood change, female manic depressive psychotic, longitudinal study, 1419
visual & auditory perception & lateral orientation, reading abilities & difficulties, 1st graders, longitudinal study, 3870
vocalization patterns, hearing impaired vs normal infants, longitudinal observations, 10705

Lorge Thorndike Intelligence Test
correlations between Quick Test vs Canadian Test of Basic Skills vs Canadian Lorge-Thorndike Intelligence tests, 4th & 5th graders, 2523
test bias with Lorge-Thorndike Intelligence & Peabody Picture Vocabulary tests & Metropolitan Achievement Tests, 6–13 yr old urban disadvantaged Blacks, 197

Loudness [See Also Noise Levels (Work Areas)]
annoyance & distraction level of power line noise, 18–38 yr olds, 9206
auditory discrimination ability, male chinchillas vs rats, 539
broadband noise & complex vibration, performance on mental counting task, 6880
correlation between sound pressure level & duration of French vowels & consonants, 9974
escape conditioning response-transfer procedure, assessment of aversiveness of tones of various sound pressure levels, female rats, 577
eye contact & vocal loudness & fluency, perceptions of peers' assertiveness, male college students, 3651
frequency range of auditory motion vs swept sound-level change aftereffects, experienced Ss, 11876
increase in time delay between tones, transfer of response from loud to normal volume instructions, profoundly mentally retarded 13–16 yr olds, 8559
intensity of monaural vs binaural tone bursts, inhibition of eyeblink reflexes elicited by percutaneous stimulation of supraorbital trigeminal nerve branch, adult Ss, audiometric implications, 708
interpersonal distance, vocal intensity, 3 vs 5 yr olds, 10063
model, prediction of loudness discrimination, 11872
Seashore loudness discrimination scores & detection threshold & age & sex & setting & musical background, most comfortable loudness level, geriatric patients, 9529
tone loudness in quiet vs white noise, eyeblink reflex modulation, college students, 11877
various dosages of ethanol & intensity of stimulus noise, RT, rhesus monkeys, 3194

Loudness Discrimination
construction of loudness scales, comparative loudness difference of 2 pairs of tones, Ss, 11878
hemispheric EEG activity during self reference judgments vs volume discrimination, right handed male college students, 9758
interactions between amplitude & frequency, independent detection of pitch & loudness modulations, S with sensorineural hearing loss, 6122
loudness ratings of verbally described familiar sounds, time required to generate auditory image & compare sounds, college students, 7140

model, prediction of loudness discrimination, 11872
right ear bias, perception of loudness of pure tones, right handed college students, 12245
Loudness Perception [See Also Loudness Discrimination]
age differences, association of absolute numbers with sensory magnitudes, 5 & 6 yr olds & college students, 5535
bandwidth & signal-to-noise ratio variations, remote identification of convoy vehicles using acoustic sensor, sensor operators, 11515
distribution of signal intensity, magnitude estimates of loudness, adult Os, 403
noise & 2-tone complex stimuli, binaural summation of loudness, adult Os, 405
proactive & retroactive inhibition & stimulus intensity & intertrial interval, retention of loudness of single tone, 7th–9th graders, 5472
proactive & retroactive interference & intertrial interval, memory for loudness of single tone, 5th graders, 5473
proactive & retroactive interference & tone intensity & intertrial interval, retention of tone intensity, 8th & 9th graders, 5474
stimulus intensity, visual & auditory potentials, hospital staff members, 7463
variations in proactive & retroactive interference tone intensity & interstimulus interval, memory of tone intensity, 4th & 5th graders, 5471
Loudness Threshold [See Auditory Thresholds]
Love
analysis of close relationships, literature review, 12771
conceptions of ideal romantic love relationship, male vs female college students, 12719
mate selection, 1970's, literature review, 10254
rigidity & parental discipline, male college students, 7976
romantic affect & self disclosure, male vs female college students, 12751
sex differences, eroticism & romanticism, Black vs White college students, 10164
social & economic factors, incidence of love within marriage & indications of change, Akan matrilineal elite, Ghana, 3479
taxonomy of heterosexual romantic relationships on dimensions of desirability & love & commitment & sexuality, college students, 5745
validity, measures of J. Lee's types of romantic love, dating couples, 4807
Lower Class
age difference & school attendance, future orientation & delay behavior, lower vs middle class children, 13523
concept of "disadvantaged" for social & economic & political inequality, ethnic & lower class children, 12454
intervention of adult model, levels of spontaneous imaginative play, middle vs lower class 4–5 yr olds, 12612
sex & lower vs middle class, self esteem & locus of control & perception of classroom social climate, 4th–8th graders, 11247
sex & socioeconomic class & symmetrically vs asymmetrically designed numerals, perceptual comprehension of numerals, kindergartners vs 1st graders, 990
social class & opinion leadership & product-user stereotypes, upper vs middle vs lower class 18–65 yr old females, 13797
Lower Income Level
early psychosocial support in inner city family health centers, low-income parents & infants, 10988
maternal employment in low income families, academic achievement, children, literature review, 7963
social sharing with mothers & maternal praise & encouragement, Black 19 mo old lower income infants & mothers, 3426
Loyalty
organizational commitment vs job satisfaction, motivation to resign from job, employees, 11497
union membership & military, attitudes toward union vs management, federal government workers, 11465
LSD (Drug) [See Lysergic Acid Diethylamide]
Lumbar Spinal Cord
locus coeruleus noxious & innocuous cutaneous electrical stimulation, lumbar spinal dorsal horn response, cats, 9871
naloxone, neuron response to noxious & non-noxious stimulation of spinal cutaneous receptive fields, male rats, 9946
Lumbrosacral Plexus [See Spinal Nerves]
Luminance [See Illumination]
Luminance Threshold [See Brightness Perception, Visual Thresholds]
Lunar Synodic Cycle
lunar phases, thyroxine surge prior to seaward migration, hatchery-reared salmon & anadromous trout, 12252
phase of moon & sex, seizure activity, 13–71 yr old chronically hospitalized patients, 3906
Lung
mechanisms of ultrasonic emissions, Mongolian gerbils, 7518
Lung Disorders [See Also Pulmonary Emphysema]
damage to gas exchange surface of lungs as result of freebase cocaine smoking, 21 & 27 yr olds, 10444
patterns of cigarette smoking usage & cessation & related illnesses since 1955, US & Canada, 5704
psychosocial factors, smoking cessation, obstructive pulmonary rehabilitation patients, 1571
Luteinizing Hormone
administration of long-acting gonadotropin releasing hormone, hormonal & behavioral response, male chimpanzees, 7633
age & sexual behavior & estradiol benzoate & progesterone, luteinizing hormone secretion, ovariectomized rats, 7680
anatomical relationship between central olfactory pathways & neurons containing luteinizing hormone-releasing hormone, male hamsters & rats, 719
classical conditioning, luteinizing hormone & testosterone secretion in anticipation of sexual activity, male rats, 7403
icv infusion of luteinizing hormone releasing hormone, behavior, homing pigeons, 7685
treatment with antibodies to luteinizing hormone releasing hormone, bisexual behavior, male rats, 12376
Lying [See Deception]
Lymphatic Disorders [See Blood and Lymphatic Disorders]
Lymphocytes
human lymphocyte antigen similarities, sibling pairs concordant vs disconcordant for primary affective disorder, 13005
human lymphocyte antigen-typing & genetics & family history, bipolar vs unipolar vs schizoaffective disorder vs alcoholism, 44–58 yr old siblings, 12931
lymphocyte MAO activity & plasma prolactin & growth hormone, female chronic schizophrenics with vs without tardive dyskinesia, 13112
lymphocyte production of sodium pump sites, manic depressives vs recovered manic depressives, 12183
Lysergic Acid Diethylamide
acute & chronic LSD administration, startle response, male rats, implications for use of LSD in schizophrenia research, 9920
chronic dietary lithium, acute effects of LSD & chlorimipramine on high-affinity tryptophan uptake & role of stabilization vs responsiveness enhancement to serotonin utilization, male rats, 931
LSD, acquisition of CRs, rats, 890
LSD, classical conditioning of jaw movement response, rabbits, 7648
LSD, synapses in habenulae & interpeduncular nucleus, male frogs, 5384
LSD & mescaline & 5-methoxy-N,N-dimethyltryptamine, dose dependent rotational behavior, female rats, 5368
LSD usage, age at onset of illness, chronic schizophrenics, 8172
LSD & 2-bromo-LSD & methysergide & photic stimulation, response of single neurons in striate cortex, paralyzed anesthetized cat, 5361
LSD-25, avoidance behavior & locomotor activity, mice, 5355
Machiavellianism
achievement vs Machiavellianism, male vs female managers, 4544
age, Machiavellianism, 3442
age & sex & attitudes & category of episode, perception of real-life aggressive episodes, college students, 5799
factorial structure of Mach V scale, proclivities for interpersonal manipulation & deceit, White vs Mexican American college students, 11669
Machiavellianism & locus of control as constructs of instrumentality-expectancy systems, 1326
Machiavellianism of lawyer & interview with adversary vs nonadversary lawyer, bias in testimony, college students as lawyers & witnesses, 3561
pupillary responses & Machiavellianism & role of lying, detection of guilty knowledge, male college students, 3704
S Machiavellianism & remorsefulness of wrongdoer, retaliatory aggression against confederate who stole money, female college students, 10327
social insight & manipulative tendencies, hospital managers vs workers, 13498
Magazines
African vs Western models & values, magazine advertisements, Africa, 1133

psychological articles in selected cultural magazines, annotated bibliography, 6607
public information strategies using TV & magazines, message communication, aged, 3228
Magical Thinking
IQ & cognitive operations, hebephrenic vs paranoid schizophrenics, 13009
Magnesium
pyridoxine & magnesium, clinical improvement, 3–16 yr olds with autistic symptoms, 10931
Mainstreaming (Educational)
annotated bibliography on children with special needs, mainstreaming handicapped students, 9018
attitudes & personal characteristics, classroom teachers who had vs had not recommended transfer of low ability students to special classes, 6645
attitudes toward mainstreaming, teachers, implications for inservice training, 11153
attitudes toward mainstreaming handicapped individuals, special education vs regular teachers vs nonteachers, 13662
classroom use of books about handicapped children, problems due to mainstreaming, 8874
combination mainstream & homeroom special education program, behavior change & academic achievement, learning disabled 9–13 yr olds with behavior problems, 2152
consultation model for mainstreaming behaviorally disordered children, 11300
decision making guidelines for mainstreaming handicapped children, 2159
degree of inservice training, attitudes toward mainstreaming, teachers, 13549
disability & IQ & work/personal behavior & prior academic achievement, class rank in mainstream vocational program, handicapped high school students, 11318
early childhood & special education retraining for work with young handicapped children, previously certified teachers, 11146
enrollment in regular classes with vs without additional assistance vs vocational training classes, social & vocational maturity, learning disabled high school students, 11292
extent of mainstreaming, 8–15 yr old educable mentally retarded, 2-yr followup, 9021
imitation learning from nondelayed peers in integrated classroom, developmentally delayed preschoolers, 9058
individual considerations, determination of least restrictive educational environment, handicapped students, 9054
individualized instruction & simulation & integration into regular classes, work study program, mildly mentally handicapped 14–19 yr old students, 9041
information about & experience with handicapped, mainstreaming knowledge & attitudes, regular education teachers, 8836
integration into regular classrooms, learning disabled & emotionally & intellectually & physically handicapped children, 4385
mainstreaming, educable mentally retarded children, criticism of R. E. Childs's study, 9057
mainstreaming, hearing impaired children, 6733
methods for modification of classroom exams, teachers of mainstreamed secondary learning disabled students, 11287
observation of normal peer models in discrimination task, task performance, autistic 5–7 yr olds, 8982
panel presentation by physically disabled, attitudes toward disabled, 3rd graders, implications for mainstreaming, 11248
parental involvement & development of handicapped children, 10422
peer status & teacher preference & self appraisals of social status, mainstreamed learning disabled vs nondisabled 4th–6th graders, 4386
peer tutoring model, training as "teacher tutors" of mainstreamed peers, 8th & 9th graders, 2154
play behavior in separate vs combined groups, minimally handicapped &/vs nonhandicapped 2.5–4 yr olds, 11282
remedial vs regular classroom placement, academic self concept, severely learning disabled & educable mentally retarded 8–12 yr olds, 8965
remediation of learning & behavior problems within regular classes, 8–11 yr olds with major academic skill deficits, 8962
response opportunity & teacher-student interaction & social acceptance as criteria for placement in regular classroom, learning disabled students, 13647
School Consultation Committee, teacher consultation for mainstreaming behaviorally disordered students, 11196
setting up mainstreaming program for children with special needs, 9026
social acceptance, mainstreaming learning disabled 1st–6th graders, replication of study of J. B. Sheare, 6734
sociometric mapping, assessment of mainstreaming effects on social achievement in elementary & junior high school classrooms, Israel & US, 6728
special vs regular class placement, meta-analysis of effect size, students with below average IQ vs behavior disorders vs emotional disturbances vs learning disabilities, 6721
standardized IQ & behavior & achievement test scores, development of criteria for exit from special classes, educable mentally retarded 5–14.3 yr olds, 9063
teacher inservice & advocacy & crisis program, student's attitudes & attendance & dropout rate, behaviorally disordered rural secondary school students, 11174
type & level of handicap, attitudes toward mainstreaming retarded students, public school principals, 8980
Major Tranquilizers [See Neuroleptic Drugs]
Maladjustment (Emotional) [See Emotional Adjustment]
Maladjustment (Social) [See Social Adjustment]
Male Animals
administration of long-acting gonadotropin releasing hormone, hormonal & behavioral response, male chimpanzees, 7633
age, fertility & competitive mating success, male flies, 3020
amount of previous sexual experience & frequency of testing, retention of copulatory behavior following castration, male golden hamsters, 842
androgens, responsiveness to aggression & stress-related odors, male mice, 3127
antihistamine, ionizing radiation protection, sexually intact male rats, 908
aromatization of testosterone within hypothalamus & behavioral action of androgen, male doves, 729
behavior & beak color of female, courtship behavior, male zebra finches, 9685
bilateral amygdala lesions, animal mating behavior & role of olfactory & vomeronasal senses, male hamsters, 7606
body size, mating opportunity & web occupation, male web-building spiders, 7386
brick pots vs plastic buckets as home environments, occupancy preferences & social interactions, male octopuses, 9668
castration & testosterone, aggressive behavior, male hamsters, 3080
castration & testosterone propionate, motor copulatory pattern, male rabbits, 7554
castration & testosterone replacement, courtship behavior & testicular weight & spermatogenic state & serum androgen levels & cell height of renal sex segment, male garter snakes, 12278
classical conditioning, luteinizing hormone & testosterone secretion in anticipation of sexual activity, male rats, 7403
clomiphene citrate, EEG activity, sexually mature male rats, 7660
con- vs heterospecific male odors, competition for space, voles, 5182
development from prepuberty to adulthood, sexual approach behavior toward males & females, male rats, 12113
development of early infant relationships within natal group, development of reproductive tactics in adulthood, young gorilla males, 12125
diet restriction at 5 mo of age, sexual behavior, obese 6 mo old male rats, 4-mo followup, 787
distance between individuals, aggressive behavior vs approach vs avoidance, male juncos, 9729
dominance assertion, male chimpanzees, 2902
duration & intensity of interaction, nature of behavioral strategies during agonistic interactions, male cockroaches, 9669
estradiol benzoate, sexual behavior & morphology, male rats, 878
estradiol benzoate & progesterone & length of mating experience, sexual behavior & male vs female footstomping & fighting, ovariectomized female Mongolian gerbils, 7570
estradiol & dihydrotestosterone, sexual behavior, male rats, 7517
estradiol vs dihydrotestosterone, absolute refractory period of testosterone-sensitive neurons of stria terminalis, castrated male rats, 796
evolution of song repertoires, male red-winged blackbirds, 12171
female flank glandectomy, sexual behavior, male hamsters, 3105
flehmen behavior elicited by female urine, vomeronasal organ function, male goats, implications for reproductive cycle, 646
harem size & duration & time of breeding access, reproductive success, adult male red deer, 9686
head & tail postural orientation during courtship, male eastern garter snakes, 638

high vs low copulation success & female receptivity, courtship displays vs rape attempts, male guppies, 9682
human chorionic gonadotropin, serum testosterone levels & copulatory behavior, male rhesus monkeys, 12367
identification & description of song types, male zebra finches, 9721
inhibitory role of 5-hydroxytryptamine, ejaculation latency & postejaculatory interval, male Wistar rats, 858
interactions between males & infants, macaques, test of agonistic buffering hypothesis, 9676
intermittent electric shock, penile reflexes, male rats, 3087
irradiation of parent, courtship activity of offspring, male guppies, 7583
isolation vs housing with sterile vs fertile female vs other male, aggressive responses to cage intrusions by similarly housed castrated vs ovariectomized vs intact males vs females, male rats, 530
juvenile social interaction, growth rate & size & age at maturity & social behavior, male fish, 2909
lateral projections of medial preoptic area & castration & testosterone implants, urine marking & copulation, male rats, 3128
lesions & dosage level of 6-hydroxydopamine in locus coeruleus with vs without desmethylimipramine, sexual behavior & catecholamine depletion & midbrain damage, male rats, 7556
lethal recessive mutations, haplodiploid sex ratios due to increased male mortality, parasitoid species, 7418
mating behavior, male Australian eumenid wasps, 7376
mimics of sexual flash signals, male fireflies, 7410
natural selection model, sex ratio control, parasitic wasps, 2899
neonatally placed septal lesions & estradiol benzoate & progesterone & testosterone, sexual behavior, male vs female vs androgenized female rats, 7571
neonatal spinal transection, penile vs other reflexes, male rats, 3110
nest building behavior, male Siamese fighting fish, 12103
novelty of mating partner & situation, sexual behavior, animals, literature review, 634
number of ejaculations, penile reflexes, male rats, 3025
olfactory bulbectomy & flank shock, copulation, male rats, 5312
olfactory tubercle vs corticomedial amygdaloid lesions & female estradiol benzoate & progesterone treatment & ovariectomy, sexual behavior, male rats, 7575
partial glossectomy, oral behaviors within context of typical sexual behavior pattern, male hamsters, 839
penile sheath removal & spinal transection, penile reflex, male rats, 3119
photoperiod & exposure to bird song, enhanced vocal learning, male marsh wrens, 9646
prenatal 1, 4, 6-androstatriene-3, 17 dione & testosterone propionate & castration, anogenital distance & body weight & sexual behavior, male rats, 7646
presence of rams, gonadotropin & prolactin levels & ovulation, female sheep, 2955
presentation of nonaggressive male mice vs crickets, aggressive & pedatory behavior, wild male mice, 2925
seasonal variations & predator abundance, social organization & roosting territoriality & mating, male vespertilionid bats, 9709
season & sexual maturity, urinary marking, male wild bank voles, 739
sexual behavior & reproductive competition, wild vs domestic male rats, 5162
sexual selection, evolution of complex songs, male European warblers, 7394
size & population density, mating behavior, male flies, 12102
social context, determinants of animal dominance, male rhesus monkeys, 9666
social dominance, aggression & sexual behavior & plasma testosterone levels, male talapoin monkeys, 7397
social dominance vs subordination & exposure to females, frequency of spontaneous ejaculation, male mice, 2914
social isolation & castration & testosterone, copulatory behavior, male rats, 2944
social rank in agonistic hierarchy, food access, male red deer, 7343
social status & age, antler casting date, red deer stags, 12093
spatial position & social & habitat-related behavior, female baboons in one-male-units, 12163
species-identifying information in bird song, agonistic behavior, male red-winged blackbirds, 5135
strain differences & territoriality & formation of leks & courtship displays, male orchid bees, 9699
tail wounds vs tube dominance vs territorial aggression vs attack behavior vs competition for water, animal dominance, male albino mice, 9665
temporal variation in male copulatory behavior, solitary bees, 5165
testicular size & serum testosterone levels, aggressive behavior & dominance & scent marking, male hamsters exposed to short- vs long-day photoperiods, 12177
testosterone, odor-induced flank marking, male hamsters, 9854
testosterone, weight of syrinx & activity of choline acetyltransferase & acetylcholinesterase in syringeal motor neurons & muscle, castrated adult male zebra finches & neonatal canaries, implications for regulation of singing, 799
testosterone & estradiol & 1,4,6-androstatriene-3,17-dione, male sexual behavior, male rats, 3188
trail following behavior, male wolf spiders, 5171
treatment with antibodies to luteinizing hormone releasing hormone, bisexual behavior, male rats, 12376
ultrasonic vocalizations during copulation, male rats, 3022
urine from castrated vs intact male mice, aggressive behavior, male mice, 2921
wind-borne female sex pheromone, upwind vs cross-wind flight maneuvers, male moths, 9698
zinc sulfate induced anosmia, reciprocal homosexual mounting behavior, male rats, 5410

Male Castration

amount of previous sexual experience & frequency of testing, retention of copulatory behavior following castration, male golden hamsters, 842
androgens, responsiveness to aggression & stress-related odors, male mice, 3127
castration & testosterone, aggressive behavior, male hamsters, 3080
castration & testosterone propionate, motor copulatory pattern, male rabbits, 7554
castration & testosterone replacement, courtship behavior & testicular weight & spermatogenic state & serum androgen levels & cell height of renal sex segment, male garter snakes, 12278
estradiol & dihydrotestosterone, sexual behavior, male rats, 7517
estradiol vs dihydrotestosterone, absolute refractory period of testosterone-sensitive neurons of stria terminalis, castrated male rats, 796
familiarity with others & breed, spatial behavior, castrated male sheep, 7389
isolation vs housing with sterile vs fertile female vs other male, aggressive responses to cage intrusions by similarly housed castrated vs ovariectomized vs intact males vs females, male rats, 530
lateral projections of medial preoptic area & castration & testosterone implants, urine marking & copulation, male rats, 3128
pharmacological treatment vs orchydectomy vs brain surgery, sex drive reduction, male patients with deviant sexual behavior, 13182
prenatal 1, 4, 6-androstatriene-3, 17 dione & testosterone propionate & castration, anogenital distance & body weight & sexual behavior, male rats, 7646
prepubertal ovarian hormones, feminization of adult open-field behavior, rats, 3129
social isolation & castration & testosterone, copulatory behavior, male rats, 2944
testosterone, odor-induced flank marking, male hamsters, 9854
testosterone vs estrogen, ability to induce vs detect estrus in ewes, castrated vs vasectomized male sheep, 7643

Male Criminals

canonical contingency-table analysis, frequency of violent vs nonviolent convictions, adult male offenders, 258
correlates of social insight, male prisoners, 4180
demographic characteristics & videotaped measure of preferred interpersonal distance, discrimination between violent vs nonviolent male criminals, 1516
frequency of spontaneous fluctuations vs orienting response recovery time vs amplitude, 18–45 yr old male nonrecidivistic domestic offenders vs highly recidivistic public offenders, followup study, 1518
nature of judge's instructions & defendant's race, jurors' leniency toward defendant, White college students as mock jurors, 1178
rearing social class & education, criminal behavior, adult males, 8207
recidivism, male offenders found guilty of sex offenses against females under 13 yrs old in 1951 & 1961, 24 & 15 yr followups, 13433
relative effectiveness & generalization of assertiveness vs anxiety reduction training, male prisoners, 13294

self reported abuse as children, males convicted of sexual crimes, 3852
sex of felon, degree of criminal stigmatization, male vs female college students & heads of household, 3856
validity, Survey on Ethical Attitudes, male repeat vs 1st offenders vs nonoffenders, 7056
validity & interrelationship & racial bias, MMPI alcohol & drug abuse scales, male prisoners with mean age 22.3 yrs, 11698
Male Delinquents
body image laterality & ability to relate to women & narcissism, 14–18 yr old male delinquents, 3861
factor analysis, demographic characteristics, male & female incarcerated juvenile offenders, 1973
identity & value norms, male delinquent vs nondelinquent French vs North African adolescents, France, 5598
impulsiveness & venturesomeness & empathy & psychoticism & extraversion & neuroticism & social desirability, 17–21 yr old male delinquents, 13025
institutionalization vs noninstitutionalization, anticipations & evaluations of future, 17–24 yr old delinquent males, 4192
interrater & test-retest reliability of Behavior Problem Checklist, institutionalized male delinquents, 9369
locus of control & fixed token economy & flexible behavioral contracting systems, number of offenses & recidivism rate, 13.5–16.2 yr old Black & White male delinquents, 13441
Performance-Verbal discrepancy on Revised-WISC, prediction of recidivism, 14- & 15 yr old adjudicated White male delinquents, 6032
social skills training, social skills & generalization to real life encounters, 10–16 yr old male offenders, 3-mo followup, 10902
validity of behavioral components of social interaction during interview with adult, 10–15 yr old male offenders, implications for social skills training, 2423
value orientations, 13 & 14 & 15 yr old delinquent vs nondelinquent males, implications for rehabilitative technique, 8213
Male Genital Disorders [See Klinefelters Syndrome, Testicular Feminization Syndrome]
Male Genitalia [See Also Penis, Testes]
aversively motivated discrimination task, anogenital odor discrimination & detection of physiological estrus, male vs female guinea pigs, 662
extraocular photoreception on genitalia, Chinese yellow swallowtail butterflies, 9753
Male Homosexuality
age, psychological well-being & involvement in gay community, 16–74 yr old male homosexuals, implications for professionals working with homosexuals & their parents, 7988
bias in recall of early sex role behavior, Swedish vs Australian male homosexuals, 12726
childhood development & relationship with mother & father, psychodynamics of male homosexuality, homosexuals & their parents, 1190
evolution of identity congruence, 28–51 yr old gay fathers, 10285
final report to Board of Social & Ethical Responsibility for Psychology by Task Force on Status of Lesbian & Gay Male Psychologists of American Psychological Association, 6538
history of attitudes toward male homosexuality & lesbianism in Eastern & Western cultures & recent adaptation of women to lesbianism, 10281
psychodynamics & latent homoerotic characteristics, male patients with gout, 13117
psychosocial characteristics, 14–24 yr old male prostitutes, interviews & limited 1-yr followup, 8188
relief of parental guilt, parents of effeminate & homosexual males, 1128
research on bisexuality & lesbianism & male homosexuality, 1975–1978, annotated bibliography, 7993
type & frequency of sexual behavior, males from 5 generations, 5689
Male Orgasm [See Also Nocturnal Emission, Premature Ejaculation]
androgen in neonatal period, ejaculatory & postejaculatory behavior, rats, 5320
covert self modeling & instructions, ejaculatory competence without masturbation, married couple, 10894
human chorionic gonadotropin, serum testosterone levels & copulatory behavior, male rhesus monkeys, 12367
number of ejaculations, penile reflexes, male rats, 3025
orgasmic reconditioning & covert sensitization, fire-setting behavior associated with masturbation for sexual gratification, 20 yr old male, 13289
prenatal 1, 4, 6-androstatriene-3, 17 dione & testosterone propionate & castration, anogenital distance & body weight & sexual behavior, male rats, 7646
social dominance vs subordination & exposure to females, frequency of spontaneous ejaculation, male mice, 2914
symptoms & etiology & treatment, retarded ejaculation, 10730
type & frequency of sexual behavior, males from 5 generations, 5689
use of anal probe to measure pelvic muscle contractions during orgasm, 24–35 yr old males, 11565
Males (Human) [See Human Males]
Malingering
features of psychiatric form of Munchausen Syndrome, 10519
Munchausen syndrome, 2 case reports, 8362
patient-hospital interactions, Munchausen syndrome, 26 yr old female with obstetrical complaints, 10518
psychodynamics of Munchausen's syndrome, 2 case reports, literature review, 3807
Malnutrition [See Nutritional Deficiencies]
Mammals [See Also Baboons, Bats, Cats, Cattle, Chimpanzees, Chinchillas, Deer, Dogs, Elephants, Foxes, Gerbils, Goats, Gorillas, Guinea Pigs, Hamsters, Horses, Mice, Monkeys, Norway Rats, Opossums, Pigs, Primates (Nonhuman), Rabbits, Rats, Rodents, Seals (Animal), Sheep, Squirrels, Wolves]
antidepressants, predatory behavior, male ferrets, 3209
behavior in residential maze, shrews, 2947
functional correlations & taxonomic relations, encephalic indices, mammals & primates, 2826
function of mandibular tooth comb, living & extinct mammals, 12154
maternal investment in sons vs daughters, red deer & other polygynous mammals, 12109
meal cost, meal frequency & size, ferrets, 2919
sex differences, philopatry & dispersal & mating behavior, male vs female birds & mammals, 9692
social organization & behavior & ecology & population density, blue duiker, 12112
stimulus transport & membrane charge, salt & acid & water taste reception, mammals, 12200
sucking behavior, infant mammals, 5137
synaptic plasticity in central nervous system, mammals, literature review, 5242
Mammary Neoplasms [See Breast Neoplasms]
Mammillary Bodies (Hypothalamic) [See Hypothalamus]
Man Machine Systems
alternative methods for production of abbreviations of single words, use in automated military systems, US Army personnel, 9208
architecture of software system to facilitate interactive man-computer communication, 6883
auxiliary task loading conditions, visual search performance in simulated remotely piloted vehicle utilization, pilot & nonpilot Os, 6881
bandwidth & signal-to-noise ratio variations, remote identification of convoy vehicles using acoustic sensor, sensor operators, 11515
computer applications, decision making in fault diagnosis, engineering & technical trainees, 4583
conceptual structures, analysis of operator behavioral data, 2271
contextual connotation & number of computer command terms, ease of learning & recall, experienced vs inexperienced computer users, 9211
description & critical analysis of human factors in computer systems operation & design, literature review, 2277
device for replication of pilot/seat interaction cues during aircraft acceleration in flight simulator, 2273
efficiency & reliability, mechanical vs human systems, 9150
evaluation of mental load on operator of man-machine system, 6885
inclusion of cognitive psychology theory in human-computer interaction studies, 11509
instruction & visual imagery & educational background, process control performance, male students, 4576
interactive TV laboratory, study of verbal & nonverbal interpersonal behavior, 1248
man-machine model for industrial ergonomics, 4577
military psychology, symposium proceedings, 11062
operator mental loading, voice recognition system performance, 13785
optimal preview control method, simulation of closed loop automobile driving, 11514
perceptual-motor components, ergonomic studies, 4587
perspective displays with predictors quickening vs crosspointer displays, curved landing approaches for aircraft, pilots, 9204

pressure sensitive digitizer, input of vector information for computer displays, 9209
psychological questions of using displays in man-computer interactions, 9213
questionnaire construction, elicitation of predominant responses to potentially ambiguous display-control relations & labeling & word usage, male engineers vs women vs human factors specialists, 9212
role of occupational analysis technology in cost effective maintenance systems, 11511
technical requirements & semantic/symbolic designation & message effectiveness, man machine interface in electrical signal communication of graphic data, 2281
use of microcomputers, more realistic pictorial flight displays for monitoring & prediction during transition to manual control, aircraft pilots, 9210
Man Machine Systems Design
adaptive design strategies, computer-based individualized instruction, 2103
architecture of software system to facilitate interactive man-computer communication, 6883

Marital Status Inventory, assessment of marital dissolution potential, 21–48 yr old couples seeking marriage counseling vs help with parent-child problems, 7034
marriage therapy, symptoms developed in attempt to balance division of power, spouses, 2 case reports, 4025
marriage values & norms, dual career married couples who live apart, 3527
paradoxical letters, marital enrichment, couples, 8481
parental instrumentality vs expressivity & marital relationship, behavior problems & childhood development, 7–12 yr olds, 10171
parental marital adjustment & masculinity-femininity, masculinity-femininity, 12–15 yr olds, 3425
participation in couple communication program, improvement in communication & relationship, married & unmarried couples, 4029
perceived marital equity, depression, married couples aged 19–91 yrs, 10261
perceived stress & marital satisfaction, police officers, 12671
personality correlates, divorced & legally separated vs adjusted married couples, 7968
personality & marital satisfaction & divorce, married vs divorced males vs females, 12661
personality traits, satisfaction with relationship, White middle-class 25–35 yr old married & cohabitating couples, 5639
physical attractiveness, marital adjustment, 64–86 yr old spouses, 3542
poetry, facilitation of couples group therapy, 13253
predictive variables, marital adjustment, married couples with at least one college student spouse, Australia, 5657
psychodynamics & diagnosis & treatment, paranoid wife syndrome, 13263
psychodynamics of battered wife driven to murder, 30 yr old female, 13019
psychodynamics of spouse killing, 21–62 yr old spouse killers, 13016
reciprocity in behavioral exchange & marital satisfaction, happy vs unhappy married couples in 4 stages of childrearing, 5643
reciprocity vs discussion-type counseling, marital adjustment, 20–50 yr old couples, 24-mo followup, 10820
reliability of spouses as observers of events occurring in own marriage, distressed vs nondistressed couples, 77
return to college, marital relationship & assertiveness, male vs female adult college students, 13622
self controlled exposure in vivo therapy, 18–56 yr old assertive vs unassertive agoraphobics with high vs low marital satisfaction, 6328
self report questionnaires for parents seeking help for child management problems, marital adjustment & normative data, abusive vs nonabusive parents, 10233
self & spouse rating of emotional maturity & marital adjustment, spouses, decade replication, 3516
separate vs joint spouse interviews, validity of marital intake interview, married couples, 6293
sequential analysis of interactional patterns, distressed vs nondistressed marital partners, 10247
sex & employment & education & social class, psychological symptom levels, 20–60 yr olds, England, 1413
sexual dysfunction & marital happiness, treatment recommendations, couples referred to outpatient family therapy unit, 1647
tribal tradition vs support vs prevalence of vs cultural context, wife beating, urban Aboriginal population, Australia, 13032
validity, Ryle Marital Patterns Test, married psychiatric vs family planning clinic patients, 7060
validity & reliability of measurement of marital satisfaction, married couples in therapy, 235
value system similarity & marital adjustment, married couples, 12675

Marital Separation [See Also Divorce]
advantages & disadvantages & assessment & intervention techniques in disputes, child's access to noncustodial parent after marital separation & divorce, 1101
age & social class, hostility & guilt, separated vs battered wives, Australia, 5651
attachment in adulthood & distress responses to marital separation, 5632
divorce & remarriage & desertion, 1970's, literature review, 10257
marital separation & divorce, parent-child communication & child's adjustment, families with 3–17 yr olds, 1155
personality correlates, divorced & legally separated vs adjusted married couples, 7968
school programs, alleviation of divorce & separation effects, school psychologists, 11343
taxonomy of appraisals & coping strategies, 20–59 yr old lone parents, 10228

Marital Status
ABO blood groups & race, personality type & marital status, anxious neurotic White vs Black vs Spanish American outpatients, 3802
age & income & job tenure & marital status & educational level & number of dependents, job satisfaction, steel industry 1st-line supervisors, 6862
age & sex & racial differences & marital status & strife & familial/familiar ties, offender-victim relationship in homicide-suicide cases, 1972–77, 1529
age & sex & socioeconomic & marital status, hopelessness, adults, 12858
anxiety & personality traits, premenstrual symptoms, menstrual vs nonmenstrual & married vs single parous vs nulliparous 21–30 yr old females, Nigeria, 5268
belief in personal control over life events, divorced vs married White adults, 5637
education & single status & occupational success, 30–60 yr old females, Australia, 3476
individual & family & social characteristics, psychiatric patients referred to "L'Infirmerie Psychiatrique", France, 8649
marital status, family ties & contracts, married vs never married male vs female professionals, 3512
marital status, self concept, single vs married females over 30 yrs old, 12854
marital status & sex & other characteristics & frequency of manic depressive illness, poor urban Blacks, 3788
race & marital status, need to be held, Black vs White married vs unmarried pregnant females, 8064
recipient sex & marital status, differences in informal support, 73.3–77.8 yr old residents of retirement communities, 12596
sex & marital status, mental illness, criticism of W. R. Gove's theory, 3779
sociodemographic variables, adjustment to new culture, 18–70 yr old American immigrants, Australia, 5610
socioeconomic status & demographic characteristics, schizophrenia vs affective psychotics vs neurotic outpatients, India, longitudinal study, 1493

Marketing
application of multiattribute attitude models to managerial problem solving & decision making, marketing, 13800
behavioral learning paradigm components, marketing, 6913
construct validity issues & marketing practices, literature review, 4608
consumer information sources, implications for government information policy, 6900

hopes & fears concerning self & others & society & world, household interview respondents, implications for social marketing in promotion of human services programs, 13395
market research, development of public recreation & leisure policy, 6903
market segmentation analysis, effect of product attributes & personal values & demographic characteristics on brand preference, fast food restaurant customers, prediction implications, 2299
measure unreliability, cross-national marketing research, 6906
Q sort administered by mail or personal interview, market research, 2403
social class &/vs income, segmentation of market for various consumption areas, 4610
trends in marketing psychology, Czechoslovakia, 9228
Markov Chains
autoaggression & grooming & walking, singly caged female macaque, 9689
computer program, simulation of discrete Markov chain, 4702
continuous time Markov chain as model of social networks, 266
linear structural model for comparison of quasi-Markov models across populations & factor analytic formulation for between group comparisons, 7136
Markov chain model, prediction of psychiaric inpatient utilization by age group, psychiatric patients, 4875
Markovian vs hierarchical families of techniques, structure in transition matrices, 4678
simulation model construction, superior & subordinate interactions, 10343
Marlowe Crowne Soc Desirabil Scale
signal detection theory methods, reduction of correlation between scores on German version of Rotter's Internal–External Locus of Control Scale & Marlowe-Crowne Social Desirability Scale, vocational rehabilitation participants, 2526
Marriage [See Also Exogamous Marriage, Interracial Marriage, Polygamy]
children of divorce & parental loss & remarried couples & stepparents & stepchildren, 7975
cohabitation in college, dating relationships & transition to marriage, dating couples, 12641
contraceptive technology & shift in proportion of marriageable age males to females, sex roles & women's liberation movement, 1960–75, US, 12632
divorce & remarriage & desertion, 1970's, literature review, 10257
duration of marriage, self esteem, college student spouses, 5655
ethnicity of fathers vs mothers, ethnicity of spouses, twice-married brides & grooms of mixed ethnic parentage, test of psychoanalytic theory of mate selection, 5640
family & old age, 1970's, literature review, 10265
genetic counseling, decisions about childbearing & marriage, people at risk for Huntington's chorea, 4130
marital quality & happiness & satisfaction & adjustment, 1970's, literature review, 10262
masculinity & femininity & androgyny, influence on marriage, 22–52 yr old married males vs females, 3545
mate selection, 1970's, literature review, 10254
migration, marriage & birthrate & urban demographic structure, France, 1906, 5599
occurrence of couples with females taller than males, married couples, implications for norms in mate selection & marital eligibility, 5594
remarriage, problems in "stepfamilies" & adjustment, 1156
role of aged among Bakongo, Angola, 7948
secular changes in degree of assortative mating for ability, literature review, 3529
social & economic factors, incidence of love within marriage & indications of change, Akan matrilineal elite, Ghana, 3479
trends & directions for family research & theories, 1980's, 10231
Marriage Attitudes
attitudes toward Euro-African mixed marriages, secondary school students, Senegal, 3486
change in attitudes about socially correct age for marriage since World War II, US, 3535
construct validity, attitude measure on marriage & sexual attitudes, 15–31 yr old Iranian vs British males vs females, 9355
demographic characteristics & professional experiences & perceptions of career-marriage interactions, female vs male psychiatrists, 8772
educational & environmental background, attitudes toward marriage & family structure & traditionalism, 18–25 vs over 40 yr old males, 12600
mate selection, 1970's, literature review, 10254
perceived consequences & normative pressures of career &/vs marriage, male vs female college students, 10376
perceptions & attitudes on marriage & childbearing, 22–68 yr old manic depressives & their spouses, 3823
perceptions of worker & spouse & parent roles & role combinations, male vs female college students, 1252
sex & parental socialization & need for achievement & affiliation & job & family involvement preferences, prediction of traditional vs egalitarian marriage preference, college students, 3531
sex & single parent vs reconstituted vs intact family structure, attitudes toward marriage & divorce & marriage roles, 15–17 yr olds, 10152
Marriage Counseling
analysis of repertory grid of interpersonal perceptions, evaluation of marital therapy progress, married couple, 4676
choice awareness workshops, marriage enrichment through cognitive & affective & behavioral choices, 8472
conjoint vs nonconjoint marital therapy, divorce at 5-yr followup, former clients, 8460
counseling & behavioral therapy, sexual dysfunction, married couple, 1763
Couple's Rorschach & Post-Rorschach, marital interaction assessment, 2440
discussion of creative divorce counseling, 13249
individual & joint marital & mechanical therapy, unconsummated marriages due to vaginismus, married couples, 4016
length of marriage & family size & educational level, personality traits & marital adjustment & dissolution rates, married couples in court ordered vs voluntary counseling, 1759
marital communication workshop as problem prevention service, couples & mixed groups, 4014
marital & family therapy, literature review, 1970's, 10835
marital interaction & conflict & sexual dysfunction, 26–53 yr old couples with vs without alcoholic member, treatment strategy implications, 5900
Marital Status Inventory, assessment of marital dissolution potential, 21–48 yr old couples seeking marriage counseling vs help with parent-child problems, 7034
marriage therapy, symptoms developed in attempt to balance division of power, spouses, 2 case reports, 4025
mid-phase of strategic therapy for marital difficulty & subway phobia, 8447
motivation, conjoint therapy, spouses, 6297
paradoxical letters, marital enrichment, couples, 8481
parent's marital conflict, behavior problems & need for psychotherapy referral, children with parents in marital psychotherapy, 4017
poetry, facilitation of couples group therapy, 13253
psychodynamics & diagnosis & treatment, paranoid wife syndrome, 13263
psychotherapy & meditative relaxation exercises, treatment of psychogenic retarded ejaculation, 33 yr old married male, 10802
reciprocity vs discussion-type counseling, marital adjustment, 20–50 yr old couples, 24-mo followup, 10820
regulation of practice of marriage & family therapy, 2044
role of marital/family therapist in forensic activities, 1175
separate vs joint spouse interviews, validity of marital intake interview, married couples, 6293
sexual dysfunction & marital happiness, treatment recommendations, couples referred to outpatient family therapy unit, 1647
strategies for concealing lack of knowledge from colleagues & clients, marriage therapists, 8775
types of marital & family therapy, treatment of psychosomatic illnesses, problems, 13261
use of paradoxical prescriptions with positive connotations, treatment of marital dysfunction with symptoms in 1 spouse, 10838
validity of marital problem inventory, distressed couples in behavioral marital therapy, 4788
validity & reliability of measurement of marital satisfaction, married couples in therapy, 235
value systems & attitudes toward sex, problems in sexual & marital counseling of disabled, counselors, 4020
Marriage Therapy [See Marriage Counseling]
Married Couples [See Spouses]
Marsupials [See Opossums]

Masculinity
analysis of factor structure, Bem Sex Role Inventory, male vs female college students, 2490
androgen independent brain masculinization, testicular feminized adult rats, 668
androgynous sex role development as adults & sex & age of siblings, male vs female college students, 1193
androgyny & descriptions of individual's mental health, mental health professionals, 10772
Bem Sex Role Inventory as measure of individual differences in self concepts vs global self images of masculinity & femininity, reply to J. T. Spence & R. L. Helmreich's criticism of gender schema theory, 4773
Bem Sex Role Inventory as measure of individual differences in self concepts vs global self images of masculinity & femininity, criticism of S. L. Bem's gender schemata, 4832
body type, sex role stereotyping, college students, 3695
changes in sexual behavior & conceptions of masculinity & femininity, male vs female college students, 13627
classification methodology, sex role affiliations, male vs female college students vs hospitalized alcoholic males vs members of Veterans of Foreign Wars, 9285
development & validity of male & female versions of sex role behavior & preferences self report inventory, male vs female college students, 4831
factor analysis of items in Bem Sex Role Inventory & Personal Attributes Questionnaire & Masculinity & Femininity scales of Adjective Check List, college students, 2510
gender-based schematic processing, sex typing, male & female college students, 5685
gender constancy, willingness to play with toy advertised by both gender children, 4–6 yr olds, 10189
gender & sex role identity, avoidance confrontation of existential issues, male vs female 16–50 yr old psychiatric inpatients, 3810
maschismo as salient component in ethos, truck drivers, Peru, 3488
masculine vs androgynous vs feminine candidates, choice for agentic vs communal roles, college students & business owner/managers, 12715
masculine vs feminine males vs females, attraction in sex role preferences, college students with traditional vs nontraditional attitudes toward females, 8051
masculinity & desire for sexual intercourse after vasectomy, vasectomized males, 6-mo followup, 5703
masculinity & femininity & androgyny, influence on marriage, 22–52 yr old married males vs females, 3545
masculinity & femininity assessed by MMPI vs Bem Sex Role Inventory vs Personal Attributes Questionnaire, 238
masculinity & femininity & self esteem & attitudes toward women, female college athletes, 3567
masculinity & femininity & sensation seeking, male vs female college students, 12891
masculinity vs femininity, achievement motivation & college achievement & health, male vs female college students, 5694
maternal employment, perception of mother & development of masculinity-femininity, 13–17 yr old females, 12453
measurement of masculinity & femininity using MMPI Mf vs California Psychological Inventory Fe scales, 4774
MMPI differences, male Hispanic-American vs White vs Black heroin addicts, 6043
needs for achievement & autonomy & self-monitoring & masculinity-femininity, hypnotic susceptibility, males vs females, 5073
parental marital adjustment & masculinity-femininity, masculinity-femininity, 12–15 yr olds, 3425
personality & behavioral correlates & importance for mental health, psychological androgyny, 10289
psychological androgyny & creativity, male vs female 9–11 yr olds, 12587
psychological androgyny & attitudes toward women, adult education students, 12893
psychological aspects of masculinity & femininity & achievement motivation, 3583
self perceived masculinity & femininity, college students, 3578
separation of instrumentality & expressiveness personality traits from sex role attitudes & behaviors, 12888
sex differences, masculinity & femininity & verbal vs spatial ability & stress reactions, college students, 3678
sex differences, reactions to children's cross gender verbal behavior, teachers vs college students, 10284
sex & home economics vs physical education major, assignment of ideal male vs female traits, college students, 3576
sex role attributes & anxiety & severity of menstrual distress & oral contraceptive use, Catholic vs Protestant vs Jewish females, 1581
sex role orientation & occupational choice, male registered nurses & high school teachers, 12716
sex role orientation & schizophrenia & depression & neurosis & anxiety & self esteem, annotated bibliography, 5702
sex role orientation & self reported assertiveness, male vs female college students, 12721
sex & Type A behavior & low masculinity sex role orientation, social self esteem & anxiety & depression, college students, 3681
theory of machismo as reaction formation against unresolved bisexuality, Spain, 3573
validity of Arabic version of MMPI Masculinity-Femininity scale, male vs female college students, Kuwait, 11693
Masking [See Also Auditory Masking, Visual Masking]
conditioning stimulus presented before vs after test stimulus on same vs different site, backward enhancement & suppression of vibrotactile sensation, trained Ss, 11764
Masochism
depression & psychosomatic illness, Japanese, 1385
diagnosis & treatment of pseudomasochism, female patient with narcissistic personality disorder, 1489
Mass Media [See Also Closed Circuit Television, Educational Television, Magazines, Newspapers, Radio, Telephone Systems, Television, Television Advertising]
critical issues in behavior therapy, 8561
forensic psychiatry & psychology, 1979 New York Academy of Sciences symposium, 1185
lecture format vs mass media campaign & type of information, reporting rates of shoplifting, college students, 10276
mass media image & function in society, psychiatrists, 13490
media emphasis on conflict & protest & leadership statements, White flight following desegregation, 3481
media sports coverage & player similarity & performance & team characteristics, ranking of favorite National Hockey League players & teams, hockey players, Canada, 4477
potential abuses & suggestions for psychologists, mass media presentation of individuals' private problems in programs on therapy, 2058
process of transmission of information via mass media, 12422
social learning theory applied to education about healthful lifestyles & habits, 1892
stochastic model of mass & interactively mediated diffusion of information, size N population, 262
theoretical ideas of practical value in mass communication research, literature review, 5417
Massed Practice
anxiety & neuroticism & sex & distributed vs massed practice & trials, digit-symbol coding task performance, college students, 466
correlation between recall & self predicted likelihood of free recall of words presented once vs twice & in massed vs distributed practice, college students, 5049
distributed &/vs massed practice, group assertion training effectiveness, female college students, 4-wk followup, 1748
massed practice &/vs distributed practice, performance on monaural localization task, 21–29 yr olds, 7203
Mastectomy
impact of disease & treatment & coping with stress, breast cancer patients, 10708
problems in sexual & other personal relationships, mastectomy patients & spouses, counseling implications, 4132
Masturbation
masturbatory reconditioning with nondeviant fantasies, change in sexual orientation, 20 yr old male pedophile, 1799
orgasmic reconditioning & covert sensitization, fire-setting behavior associated with masturbation for sexual gratification, 20 yr old male, 13289
systematic desensitization vs directed masturbation, sexual self acceptance & pleasure, 19–42 yr old females with primary inorgasmia & sexual anxiety or aversion, 10851
type & frequency of sexual behavior, males from 5 generations, 5689
Mate Swapping [See Extramarital Intercourse]
Materialism
analysis of basic psychological categories of general interconnection & development, basis for study of mental regulation of activity, 6952
anomalous monism as metalinguistic form of materialism, description of mental & physical events, 2333
materialistic vs psychophysical dualist theory of mind-brain relationship, implications for neuropsychiatry, 6947

research on work & management & social consciousness, Czechoslovakia, 9183
Maternal Behavior (Animal) [See Animal Maternal Behavior]
Maternal Behavior (Human) [See Mother Child Relations]
Maternal Deprivation [See Animal Maternal Behavior, Mother Absence, Mother Child Relations]
Mates (Humans) [See Spouses]
Mathematical Ability
arithmetic performance, bilingual vs monolingual 14–19 yr olds, 12517
back-to-basics approach, mathematics skills & teaching methods, 8862
correlates of mathematics anxiety, 19–59 yr old females, 13625
degree of occupational professionalization, requirements of intelligence & verbal & numerical ability, 4471
development of set of 3-class models, description of mathematical behaviors for ascertaining mastery levels, 7–11 yr olds, 9068
development of Structure of Intellect-Learning Abilities Test as measure or arithmetical ability, implications for arithmetic education, 6770
differentiation of W. C. Halstead's 4 factors of biological intelligence, theory explaining differential linguistic-quantitative ability patterns, 10079
digit difficulty, serial subtraction test, college students, 2752
electronic hand calculator in mathematics teaching, mathematics attitudes & achievement, 4th graders, 4319
factor structure, verbal & logical & visuospatial & mathematical ability, male vs female college students, 1050
father absence & socioeconomic status, verbal & mathematics skills, males, 3362
generation of aptitude-treatment interactions, teaching transformation geometry, 8th graders, 8898
individual vs heterogeneous grouping conditions, mathematical task performance, high vs medium vs low ability 11th graders, 11216
intellectual skills & instructions & prior knowledge & congeniality of essay with own attitudes, recall of essay on student activism, college students, 11986
mathematical ability & field independence & afterimage perception, college students, 9470
number based sharing strategies, 3.5–6.5 yr olds, implications for preschool mathematics curriculum, 5485
sex, mathematics performance & attributions & anxiety, 4351
sex differences, self esteem & performance expectancies, married couples, 3532
sex differences in mathematical reasoning, gifted 7th–10th graders, implications for environmental influences, 10019
Study of Mathematically Precocious Youth, program for acceleration of 7th graders with mathematical ability, 13664
understanding of interrelated dimensions of velocity & time & distance information, 5 vs 10 vs 17–34 yr olds, 1047
visual serial search task performance, college females with differential verbal & quantitative aptitude test scores, 4440
visual vs aural input & output modality pairings & proficiency vs disability in mathematics, short term memory, 6th graders, 6093
Mathematical Modeling
adaptation of Bradley-Terry-Luce choice model, multiattribute decision making, graduate business school students, 4857
additive & multiplicative models, concept of risk, 9451
algebraic models, relationship of stimulus intensity to perception for painful vs nonpainful electric shock, college & graduate students, 11745
alternative approaches for obtaining representations of multiattribute utility functions, 9444
alternative to Fitt's power law of movement time for motor control tasks, 11707
alternative to W. E. Hick & R. Hyman's & S. Sternberg's choice RT laws, 2373
analysis of correlation matrices, evaluation of circumplexity in bipolar personality data, literature review, 9462
application of H. Tajfel's model, intergroup discrimination, reply to criticism of K. M. Aschenbrenner & R. E. Schaefer, 10313
application of H. Tajfel's model, study of intergroup conflicts in minimal group situations, critique of study by A. Branthwaite et al, 10311
application of mathematical model, advertising exposures & purchase response patterns, consumers, 2304
application of polynomial approximation in psychology, 290
application of quantitative model of compensatory tracking to pursuit tracking, aircraft pilots, 4882
axiomatized formulation of expected utility & probability model, contingency plans for decision making, 4877
axioms stating conditions for establishment of cardinal utility function, 9439
binomial & beta-binomial models, problems in mental test theory, 2617
catastrophe model of perseveration changes induced by task difficulty, brightness discrimination, college students, 4951
computational method to extract surface slant & edge labels from optical flow velocity patterns, development of mathematical & physiological models & computer program, 53
consistency of item response models with observed test data, 134
correctness of results using mathematical model when one assumption of model is violated, 7138
critique of J. G. Anderson's identification & estimation of nonrecursive models, implications for educational research, 2606
data analysis strategy, assessment of variation in structure within object set, 2577
deficient information regarding direction of perpendicular from viewing location to surface, underestimation of slant angle, methodological implications & model development, 381
descriptive accuracy of mathematical theories, structural properties & outcomes of games, 3-person groups, 9458
development of maximum likelihood estimation procedure, multidimensional scaling of categorical similarity ratings, 143
differential predictability in selection model, graduate students, implications for validity testing, 4445
discrepancy & involvement & source credibility, attitude change, 12806
dynamic model of social networks, 254
elements of phonation theory & mechanics, 4899
equilibria concepts for noncooperative 2-person games, 278
extension of conditions for J. C. Falmagne's random utility systems to infinite choice set, 9441
extension of R. D. Luce's choice model to account for similarities between choice alternatives, 2610
extrapolation of abstract centers of rolling wheel-generated point-light displays, movement judgments, college students, 4936
factorial modeling, implications for educational policy manipulations prediction, 2586
geometric analogies, information processing & individual differences, college students, 11721
graph homomorphisms in analysis of social networks, 251
interpretation of absolute zero point, Rasch model, 11713
knowledge of team name, rating of football team quality & prediction of game outcome, college student fans vs oddsmakers, implications for use of mathematical model, 429
length of interval in VI schedule & number of contingent responses per reinforcement, operant matching in constant duration trials, male rats, test of quantified matching model, 540
linear discriminator & ordinal estimator & uncertain counter models for inconsistency of ratio scaling, 11704
linear models in psychiatric epidemiology, 9443
logarithmic mapping approach & quantitative model of human visual cortical representation of visual stimuli, 5194
log-linear & logit-linear models, analysis of contingency tables, implications for educational research, 2555
mathematical description of visual cortex channels, pattern recognition pathways, D. Gabor's representations, 12223
mathematical model, friendship choice distribution, 11722
mathematical model, identification of predominant odor of musk & n-propanol mixture in varying concentrations, 19–23 yr olds, 11741
mathematical model, US Air Force recruiting resources & goal allocation decisions, 6859
mathematical model, visual illusion research, 2690
mathematical modeling, memory experiment by E. K. Strong, 11984
mathematical modeling of ocular motoneurons, literature review, 5232
mathematical models for knowledge input during problem solving, 2762
mathematical models of conventional vs final offer arbitration processes, industrial disputes involving public safety personnel legally prevented from striking, 2250
method for adjusting contingency tables to remove effects of S & item differences, study of human memory, 4855
methods using theoretical & heuristic algorithms, obtaining visual representations of hierarchical system structures by computer, 2283

model for 4-mode component analysis, assessment of viewer response to repetitive TV advertising, 269
modeling accumulation of information with accumulation rate change over time, 2603
models, initiating vs receiving propensities vs role differentiation vs reciprocal interaction, small discussion groups, 1225
models & empirical test, comparison between spatial frequency detection & discrimination performance, 11831
monotone regression vs multidimensional scaling vs stochastic greatness techniques, generative model as approximation to stimulus similarity ratings, college students, 2616
multidimensional distance vs averaging model, similarity judgments of kinship terms, college students, 11902
necessary & sufficient conditions for solution of unconditional & conditional maximum likelihood estimation equations in Rasch model, 255
new language & analysis, multibar figures, 9461
optimization algorithm & estimator including RT & future discounting restraints, model of dynamic decision making & work load in multitask supervisory control, 121
planning horizons, maximizing rank position in 3 person coalition games, male college students, test of J. Laing & R. Morrison's myopic & hyperopic models, 11701
posterior analysis, implications for standard factor analysis model, 2556
procedure for selection of binomial populations, probability of success, 2618
properties introduced by P. Gardenfors, preferences on subsets of set, 2582
proposed axioms for numerical model with lexicographic additive differences, individual preference relations, 2571
quantitative model, temporal luminance integration & perception of frame or element movement in multielement stimulus frames & neurophysiological mechanisms, 344
quantitative signal detection model based on general zone theory of color & brightness perception, expression of stimulus detectability, 369
quasi-equiprobability model, measurement of observer agreement, 2558
random utility model of choice behavior, combined theories of L. L. Thurston & F. Restle, 2568
recidivism, reexamination of model by M. D. Maltz & R. McCleary, 11041
representation of Boolean functions, model of ethical choice process, 11708
review & comparison of mathematical models used in criterion referenced testing, 282
state-vector formalism, intra- & interpersonal & group interaction, implications for social psychology & psychiatry, 285
statistical model of power law estimation in psychophysics, 286
strategies for ANOVA in nonorthogonal designs, comparison of models strategy vs Method 1 general linear model analysis, 9456
tandem random walk model, decision making in psychological discrimination tasks, college students, 2574
use of simulation, social psychological research, literature review, 56
uses of bootstrapping models & comparison to equal weighting models, clinical judgment, 245
2-stage conditional estimation procedure for unrestricted latent class models, 2590

Mathematical Psychology
extension of conditions for J. C. Falmagne's random utility systems to infinite choice set, 9441
projective transformations, psychophysical maps, 2605

Mathematicians
organization of key programing concepts, beginner vs intermediate vs expert computer programers, 7229

Mathematics (Concepts) [See Also Algorithms, Number Systems, Numbers (Numerals)]
abacus, teaching addition, 8861
accuracy with which Golden Section & various proportions are drawn, college students, 7164
analysis of philosophical & mathematical characteristics of catastrophe theory, implications for experimental design, 9230
connection between inhibitions & distortion in sexual & intellectual realms, analysis of L. Carroll's commentary on mathematical puzzles, 5861
development of set of 3-class models, description of mathematical behaviors for ascertaining mastery levels, 7–11 yr olds, 9068
kinesthetic & visual stimuli vs verbal instructions, performance times for addition exercise & accompanying automatic responses, 4–5 vs 6–7 yr olds, 12477
knowledge & cognitive development, 1016
knowledge of elementary arithmetic, adults educated 10–20 yrs earlier, 2784
mathematics experience, use of left hemisphere in response to mathematical questions, right handed college students, 12215
number based sharing strategies, 3.5–6.5 yr olds, implications for preschool mathematics curriculum, 5485
problems in learning modern math, learning disabled children, 9060
psychometric approach to error analysis of computerized adaptive testing, response patterns on mathematics achievement test, 13690
relevance of quantum theory in psychokinesis, 4861
review passages & type & difficulty of review questions following self instructional materials, transfer of mathematics skills, 7th graders, 6689
self instructional program, learning addition & subtraction requiring regrouping skills, mildly mentally retarded 9–10 yr old students, 9011
teacher attitudes toward & achievement in mathematics, student attitudes & achievement, student teachers & their later 4th–6th graders, 11252
use of visual images, teaching abstract mathematical concepts, high school & college students, 11195

Mathematics Achievement
achievement test performance as predictor of high school mathematics grades, 8th graders, 1–3 yr followup, 2068
assessment of learning disabilities in mathematics, 7–12 yr olds, 4421
auditory vs visual training &/vs reading, word knowledge & reading & arithmetic achievement & process skills, learning disabled 8–9 yr olds, 4382
back-to-basics approach, mathematics skills & teaching methods, 8862
Behavior Analysis Model of Follow-through program, reading & mathematics achievement, Native American kindergartners through 3rd graders, 6665
classroom instruction with vs without textbooks vs radio instruction with worksheets, mathematics achievement, 1st graders, Nicaragua, 11190
congenital vs acquired deafness, reading ability & math skills, adults, 3902
consulting teacher service, reading & math achievement, mildly handicapped students with mean age of 9 yrs, 11226
correlation of scores on short vs full version of Vernon Arithmetic-Mathematics Test, junior high school students, 11374
development of set of 3-class models, description of mathematical behaviors for ascertaining mastery levels, 7–11 yr olds, 9068
direct vs indirect teacher behavior & student involvement, mathematical achievement, 4 & 5 yr olds, 6650
electronic hand calculator in mathematics teaching, mathematics attitudes & achievement, 4th graders, 4319
EMG biofeedback training & muscle tension reduction reinforcement, reduction of overactivity & problem behavior & increased attention to academic task, 6–10 yr olds, 1788
family educational background & atmosphere & socioeconomic status, math & reading comprehension level, 3rd graders, Canada, 6684
focused instruction & individual vs relative evaluation methods, mathematics achievement & attitudes, 7th graders, 11173
homogeneous vs heterogeneous achievement grouping with concept & skill games, mathematics learning, 7th graders, 4291
individualized mastery vs conventional instructional system, attitudes & achievement in calculus, college students, 6675
individually designed reinforcement schedules, attending to task & math performance, behavior & learning disabled 12–17 yr old students, 2162
individual vs heterogeneous grouping conditions, mathematical task performance, high vs medium vs low ability 11th graders, 11216
linguistic & quantitative abilities, Trail Making Test performance, female college students, 2751
predictive validity of 1976 Edition of Metropolitan Readiness Tests, subsequent reading & math achievement, female vs male 1st graders, 4447
preskills & strategy training, acquisition of multiplication & division skills, 8–9 yr old males, 13579
psychometric approach to error analysis of computerized adaptive testing, response patterns on mathematics achievement test, 13690

reading & math achievement & height of drawings of self in reading & math context, 4th graders, implications for academic achievement prediction, 2131
self contained special class placement, academic achievement & intellectual functioning, learning disabled 8 & 9 yr olds, 4377
sex, mathematics performance & attributions & anxiety, 4351
sex differences, conservation of numbers as kindergartners as predictor of arithmetic achievement, 2nd graders, longitudinal study, 6682
sex differences, intellectual development, 10–13 yr olds who had vs had not experienced change in home vs school situation, 7774
sex differences & cloze test & mathematics pretest performance, course grades, graduate students in educational statistics courses, 13615
short term resource-room intervention program, time on-task & reading & math achievement, 2nd & 3rd & 6th graders, 9032
Suggestive-Accelerative Learning & Teaching method of G. Lozanov, math & reading achievement, learning disabled 9th graders, 9042
teacher attitudes toward & achievement in mathematics, student attitudes & achievement, student teachers & their later 4th–6th graders, 11252
teacher planning strategy, mathematics performance, 15–18 yr old behavior disordered students, 2111
use of electronic calculators, mathematics achievement & attitudes, literature review, 11231
validity & reliability of Myklebust's Pupil Rating Scale, detection of reading & arithmetic difficulties, 1st & 2nd graders, 4438
videotape reinforcement, phonics & mathematics performance, 1st graders, 11187
Mathematics Education
abacus, teaching addition, 8861
adaptive-remedial & teaching-learning organization & computer program for teaching mathematics, 5th graders, 13589
ALP minicalculator program, mathematics education, learning disabled elementary school students in 5th grade & over, 11268
attendance vs number of reading & mathematics courses vs college aptitude test scores, knowledge of consumer economics & competency, high school students, 13598
back-to-basics approach, mathematics skills & teaching methods, 8862
classroom instruction with vs without textbooks vs radio instruction with worksheets, mathematics achievement, 1st graders, Nicaragua, 11190
development of set of 3-class models, description of mathematical behaviors for ascertaining mastery levels, 7–11 yr olds, 9068
development of Structure of Intellect-Learning Abilities Test as measure or arithmetical ability, implications for arithmetic education, 6770
development & publication of reading & mathematics materials, consumer-oriented evaluation of instructional media, 13568
direct vs indirect teacher behavior & student involvement, mathematical achievement, 4 & 5 yr olds, 6650
electronic hand calculator in mathematics teaching, mathematics attitudes & achievement, 4th graders, 4319
EMG biofeedback & handwriting training, academic attainment, male learning disabled children, 11273
format of multiple choice items in mathematics problem solving test, item difficulty & discrimination, junior high school students, 6755
generation of aptitude-treatment interactions, teaching transformation geometry, 8th graders, 8898
hierarchically sequenced introductory mathematics curriculum, moderately & severely retarded children, 4402
individualized mastery vs conventional instructional system, attitudes & achievement in calculus, college students, 6675
knowledge of elementary arithmetic, adults educated 10–20 yrs earlier, 2784
mathematics course based on empirical vs theoretical generalization, motivation for learning, 6th & 8th graders, 11199
mathematics experience, use of left hemisphere in response to mathematical questions, right handed college students, 12215
preskills & strategy training, acquisition of multiplication & division skills, 8–9 yr old males, 13579
problems in learning modern math, learning disabled children, 9060
remediation of math difficulties resulting from spatial orientation vs verbal-cognitive deficits, dyscalculic students, 9056
review passages & type & difficulty of review questions following self instructional materials, transfer of mathematics skills, 7th graders, 6689
self instructional program, learning addition & subtraction requiring regrouping skills, mildly mentally retarded 9–10 yr old students, 9011
Study of Mathematically Precocious Youth, program for acceleration of 7th graders with mathematical ability, 13664
teacher attitudes toward & achievement in mathematics, student attitudes & achievement, student teachers & their later 4th–6th graders, 11252
teaching method, multiplication facts, 11188
teaching strategies for solving math word problems, 11181
use of electronic calculators, mathematics achievement & attitudes, literature review, 11231
use of visual images, teaching abstract mathematical concepts, high school & college students, 11195
value & status as learnable skill, problem solving strategies, college students, 11885
Mating Behavior (Animal) [See Animal Mating Behavior]
Matriarchy
social conditions & matriarchal families, alienation from school & society, male vs female Black high school students, 11258
Matriculation [See School Enrollment]
Maturation [See Human Development]
Maturity (Emotional) [See Emotional Maturity]
Maturity (Vocational) [See Vocational Maturity]
Maxilla [See Jaw]
Maze Learning
acquisition & extinction of conditioned avoidance & maze learning employing fear vs reward motivation, plasma alpha-melanotropin levels, male rats, 755
activity & T-maze performances, iron deficient rats, 816
analog of ACTH 4–9, maze behavior, male mice, evidence for attentional alteration, 9941
anomalous sympathetic innervation of hippocampus, spontaneous alternation & spinal maze learning, male rats, 7565
avoidance conditioning vs maze learning vs aggressive vs nonaggressive learning tasks, open field activity, male mice, 12048
brightness &/or position cues, escape task/discrimination learning in T maze, toads, 582
caudate vs cortical lesions, place & response learning, male rats, 9904
changes in reward after conditioning, maze behavior, male rats, 7314
developmental stage, aptitude for learning, grain beetle larvae, 9657
dosage level of endorphin analog, maze running speed & errors, hungry rats, 12378
fornix & entorhinal cortex lesions, hippocampal unit activity & spatial orientation, male rats, 3121
hippocampus vs amygdala vs caudate nucleus vs frontal cortex lesions, spatial memory, male rats, 5331
hypothalamic noradrenaline, positive reinforcement in maze learning, male rats, 7627
kainic acid injection into dorsal hippocampus, neuronal depletion & acquisition & reversal of brightness discrimination & spontaneous alternation & locomotor activity & food & water intake & taste preferences, female rats, 7676
lesions of subcallosal fornix or medial half of fimbria, Y-maze learning & cue guided spatial reversal task & passive avoidance & open field testing, male rats, 832
maternal alcohol administration during lactation, shock avoidance & maze performance & behavioral development & maternal behavior, rat pups, 9917
medial frontal &/vs dorsomedial thalamic lesions, visual-tactile discrimination & spontaneous alternation, male rats, 7615
medial septal lesions, contingently reinforced T-maze alternation, male rats, 9902
memory for own vs others' drawings & block constructions & maze paths, play following failure, 3–4 yr olds, 10086
presence & transposition of extramaze stimuli, spatial performance, male rats, 5127
pretest exposure to contextual cues, facilitation of retrieval of complex maze learning, male rats, 558
preweaning exposure to enriched environment, subsequent maze learning, female rats & their pups, 578
protein & environmental deprivation during 1st 7 wks, growth & hormonal changes & brain structure & sex-associated activity & spatial skills, rats, implications for biosocial theory, 783
spatial memory task & similar task during retention interval, retroactive interference, male rats, 12013
spatial orientation & motivation, maze learning, rats, 545

species differences, learning & retention in delayed alternation paradigm, female mice vs male guinea pigs vs cats, 7316
strychnine sulfate injections following T maze learning trials, facilitation of retention, male rats, test of consolidation vs retrieval models, 899
student E expectancy bias about intelligence, performance on maze learning task, rats, replication of R. Rosenthal & K. L. Fode's study, 6976
time spent in Y-maze arms & multiple sessions, subsequent spontaneous alternations & responses, male rats, 12028
Maze Pathways
portacaval anastomosis, spontaneous behavior in complex maze vs illuminated open field vs hexagonal runway, male rats, 7608
Mazes [See Also Maze Pathways, T Mazes]
behavior in residential maze, shrews, 2947
response bias, chance performance on radial arm maze, 2357
shock-reinforced Y-maze procedure, measurement of color preferences, goldfish, 2409
time spent in Y-maze arms & multiple sessions, subsequent spontaneous alternations & responses, male rats, 12028
Mealtimes [See Feeding Practices]
Mean
BASIC program, analytical comparisons among means, 11606
power of univariate pairwise multiple comparison procedures under experimentwise Type I error control, 9457
tables for quick power estimates, comparison of means in ANOVA & analysis of covariance situations, 11706
tabulated data from 90 provinces for mean IQ & intellectual achievement & earnings & unemployment & infant mortality & migration, France, 10215
variations in mean IQ between geographic regions, Great Britain, criticism of R. Lynn's paper, 10214
Meaning [See Also Verbal Meaning, Word Meaning]
early exposure to TV, perceived relationship between figures & emotional or abstract concepts, college students, 2625
ethnic traditions & meaning & influence on personal & gender identity, names & naming customs, Canada, 1142
false heart rate feedback vs electronic bleeps & pictorial illustrations of skin disease, selective attention vs meaning of feedback, college students, 12268
idiomatic vs literal interpretation of ditropically ambiguous sentences, graduate students & instructors, 11922
priming in item recognition, memory for text, college students, 2790
religious community membership, religious orientation & meaning & purpose in life, members of Jesus People vs Hare Krishna vs Maharaj Ji Premies vs Catholic priest communities, 7953
semantic & propositional composition of texts, reading time, college students, 416
Meaningfulness
affective meaningfulness of course materials, learning & grades, college students, 11137
pairs of letters vs rotated letters vs nonsense forms presented simultaneously vs successively, RT for "same" vs "different" judgments, college students, 11852
phonological encoding, comprehension of meaningful vs meaningless sentences, 6–10 yr olds, 997
theory of emotions & intentionality & meaning of life, implications for psychotherapy, professional criticism of article by C. Goldberg, 13223
theory of emotions & intentionality & meaning of life, implications for psychotherapy, 13211
word meaningfulness & imagery value, recall on semantic vs nonsemantic tasks, graduate students, 11937
Measurement [See Also Related Terms]
accelerated attrition method, measurement of advertising effectiveness for established brands, 2303
accuracy of self reports of specific classroom behaviors, teachers, 13551
achievement tests, measurement of developed abilities, 9084
Adapted Modified Role Repertory Test, assessment of cognitive complexity, 8–15 yr old emotionally handicapped vs normal children, 2203
age & socioeconomic status & attitudes toward TV advertisements as measured by J. R. Rossiter's 7-item scale, 6–12 yr olds, 2472
amount of course credit as reward & E knowledge of S's fear & stated purpose of test, measurement of fear with Behaviour Avoidance Test, college students, 2473
apparatus & operant conditioning procedure for voluntary noninvasive blood pressure measurement, conscious unrestrained baboons, 4719
assessment of client suitability for psychoanalysis, 3980
assessment of competency to consent to voluntary admission, newly admitted psychiatric patients, implications for legal model applicability, 13406
assessment of perceptions of danger, implications for research on safety strategies, 5790
assessment of quality of work life professional activities, 4564
assessment of "wishful thinking", college students, 437
auditorily presented cloze procedure, test of language comprehension & expression, learning disabled 12–16 yr olds, 8104
carotid dP/dt as index of sympathetic myocardial effects, 5257
carotid dP/dt as index of sympathetic myocardial effects, reply to criticism by R. Heslegrave & J. Furedy, 5289
clinical & psychometrical evaluation of Neurological Dysfunctions of Children test, 9367
clinical test development, measurement of memory function deficits, 20–79 yr olds, 9402
coding & measurement of message control intensity, 4819
coding system, dyadic peer interaction, preschool & school age children, 234
cognitive style & reading achievement, implications for assessment & remediation, literature review, 10070
combination of longitudinal design & structural equation methodology, separation of loneliness & depression constructs for experimental study, college students, 4754
comparison of methods, measurement of job satisfaction, chemical industry workers, 9191
computerized system for measurement of force exerted during bicycling with each pedal revolution, 9260
computer vs human analysis of written language, deaf children, 6986
conceptions & measurement of achievement motive, literature review, 10401
concept of developed abilities & measurement of achievement, 9065
conceptualization & measurement, empathy, review of research, 182
concurrent & construct validity of Slingerland Screening Tests for Children with Specific Language Disability, 1st–4th graders, 4441
concurrent validity of Boehm Test of Basic Concepts, estimation of cognitive ability, kindergartners, 9317
concurrent validity of measures of death anxiety, effect of birth order, college students, 9383
construction & correlation to academic achievement & reliability & predictive validity of multidimensional motivation instrument, 1st–8th graders, 9429
construction & evaluation of Motoric Music Skills Test, measurement of motor skills development, 3–6 yr olds, 2470
construction & interrater reliability & validity of Play Therapy Observational Instrument as measure of playroom behavior, 4–10 yr olds, 2480
construction & reliability & validity of Progressive Figure Drawing Test, assessment of perceptual motor development, mentally retarded psychotic adults, 187
construction & validation of questionnaire, measurement of emotional patterns elicited in response to normative situations, college & graduate students, 4823
construction & validity of adolescent moral judgment scale based on Kohlberg's theory, high school & college students, Japan, 2550
construction & validity of Binge Scale, locus of control & behavioral & attitudinal parameters of bulimia, male vs female college students, 7057
constructs, educational & psychological measurement, 200
constructs & measures & measurement properties of social role taking, literature review, 10349
correlation between IQ & domain scores of Adaptive Behavior Scale, 7–43 yr old mentally retarded, 7088
correlation between & reliability of Schedule of Recent Events & Social Readjustment Rating Scale, alcohol & drug abuse clients, 7073
correlations between results of McCarthy Scales of Children's Abilities & other measures of cognitive & motor & perceptual development, 2–5 yr olds, 2492
cottage vs classroom setting, adaptive behavior ratings, institutionalized mentally retarded with mean age 18.32 yrs, 7006
criterion referenced testing, literature review, 2541
criticism of recent attempts at devising equity formula, 4845
criticism of use of everyday situations & familiar test stimuli to achieve ecological validity in cognitive development research, 4769
critique of computational method, job satisfaction measures, blue collar workers, 9435

degree of severity of items in part 2 of Adaptive Behavior Scale, measurement of psychological & behavioral problems, 2478
demographic & personality variables, norms for Kagan Matching Familiar Figures Test of impulsivity/reflectivity, adults, 7059
development of assessment procedures, measurement of psychophysiological reactions to stress, college students & male stress patients, 7527
development of behavioral measures of intraindividual variability vs consistency, comparison to self report & rating measures, college students, 2422
development of composite scale, identification of subjective job difficulty dimensions, medical & surgical staff nurses, 11659
development of diagnostic index, measurement of schizophrenia vs primary affective disorder, 169
development of Difficulty in Assertiveness Inventory, 3-mode factor analysis of self reported difficulty, female college students, 2416
development of matched task items investigating single word referent communication, measurement of cognitive slippage, schizophrenics & affective disordered patients, extension of test developed by E. E. Smith, 5970
development of self concept in controlled environment, component analysis, youth, 8396
development of set of 3-class models, description of mathematical behaviors for ascertaining mastery levels, 7–11 yr olds, 9068
development of standardized time constant, 4686
development of tennis-specific version of Test of Attentional & Interpersonal Style, 16–56 yr old tennis players, 9431
development & validity of astrological hostility scale, assessment of effects of Mars & Pluto, 2542
development & validity of instrument to assess academic & social skills, developmentally disabled adolescents, 7046
development & validity of picture-preference scale, range of thinking disturbances, psychiatric inpatients vs nonpatients, 9408
development & validity of Test of Logical Thinking, measurement of formal reasoning, 6th graders through college students, 7106
development & validity & reliability of Social Self-Esteem Inventory, college students, 2493
diagnostic index for schizophrenia vs primary affective disorder discrimination, classification of unclassified psychosis, inpatients, 1425
differing measurement scales, electrodermal recovery times & other measures, 4736
discussion of cognitive assessment practices, physically handicapped infants, 7070
Draw-a-Family Test, assessment of learning difficulties, 10 yr old male, 154
drug relevance of stimulus words, suppression of associations related to stages of addiction, male heroin or opiate addicts, implications for measurement of habit strength, 1517
dual importance of construct validity & ethical application, psychometrics, 7017
dual process model of arousal in schizophrenia, implications for research, 10490
early identification of handicapping disorders & onset of developmental delay, preschool age children, UK, 10446
effectiveness of training handbook, measurement of activity by elderly residents, researchers & health & social services staff, 65
effectiveness & sufficiency & similarity, techniques for detecting biased items on aptitude & achievement tests, 4768
efficacy of earliest childhood memory as psychodiagnostic technique, 5–11 yr olds, case reports, 8388
empathy scale, assessment of empathic content in therapist's responses to client, 7108
epidemiology & assessment of stress disorders, 10737
explication of dimensionality, set of tests & binary items, 2418
factor analysis, East-West Questionnaire & Zen Scale & Consciousness 1 & 2 & 3 Scale performances, college students, 5854
factor analysis, measures of affective complexity, female college students, 2424
factor analysis of Improvisation Test for Individuals, assessment of interpersonal style, adults, 171
factor analysis of items in Bem Sex Role Inventory & Personal Attributes Questionnaire & Masculinity & Femininity scales of Adjective Check List, college students, 2510
factor analysis of responses to Children's Behavioral Classification Project instrument, parents of 6–13 yr olds, 4783
factor analytic structure, measure of faith in God & people & self & technology & relation to locus of control scores, 17–70 yr olds, 2543
factorial validity of positive & negative components of Depression Adjective Check Lists, 7089
factor structure & internal consistency & reliability & validity of Manifest Needs Questionnaire, registered nurses, 2451
faculty ratings & nonverbal communications test scores, prediction of occupational success, graduate students in psychology & counseling, 13493
Figure Sorting Test, identification of concept formation disorders, children & youth, 7039
fixation to visual targets & associated auditory stimulation, measurement of auditory selectivity, 57–158 day olds, 12488
functional measurement criterion, choice of response scale, 239
Halstead-Reitan Neuropsychological Test Battery, differential diagnosis of schizophrenic vs brain damaged patients, 194
hierarchical vs nonhierarchical models, dominance in social organization, 2 yr olds, 3419
human O computerized system, measurement of conversational speech activity, 4668
identification & measurement procedure development, flight skills, fighter pilots, 11428
infant tests & home stimulation score, prediction of language & cognitive development, 4 mo to 2 yr olds, longitudinal study, 9413
information processing capacity as measure of intelligence, literature review, 9544
instruments for family psychological assessment & diagnosis, 7098
internal consistency & reliability of measures of children's behavior, emotionally disturbed or learning disabled elementary school through high school students, 13672
internal external locus of control, selected bibliography, implications for counseling & education of high risk & minority students, 12871
invalid use of Beck Depression Inventory, identification of depression, college students, 7091
item & factor analysis of Therapist Behavior Scale, assessment of client attitudes toward therapist directiveness, college students, 4784
jogging, mood change, 17–55 yr old experienced joggers, measurement implications, 3046
Kahn Test of Symbol Arrangement, determination of pathological thought processes, German speaking psychotics, 4813
left hemisphere intracerebral hemorrhage, mixed aphasia, 56 yr old right handed monolingual Chinese female, 8352
logical reasoning tests & Metropolitan Achievement Tests as measures of propositional reasoning, 6th & 8th graders, 2519
Male Dominance Index values, percentage of men in various occupations & college curricula & apprenticeships & professional degree fields, 6803
marital conventionality response bias, abbreviated version of Barrett-Lennard Relationship Inventory, rural vs urban middle aged couples, 2527
marital quality & happiness & satisfaction & adjustment, 1970's, literature review, 10262
Marital Status Inventory, assessment of marital dissolution potential, 21–48 yr old couples seeking marriage counseling vs help with parent-child problems, 7034
maximum amplitude vs total response measurement methods, penile & verbal responses to sexual cues, normal Ss vs 17–50 yr old sexual deviates, 4656
measurement, social competence, 3 & 4 yr olds, 3459
measurement & measurement reliability & experimental designs in applied behavior analysis research, 11587
measurement of dexterity with test vs interviewer judgment vs verbal responses, 73
measurement of effects of psychological pressure on performance in working & experimental conditions, 2246
measurement of masculinity & femininity using MMPI Mf vs California Psychological Inventory Fe scales, 4774
measurement of relationships between intellectual & motor abilities, normal & mentally deficient 10 yr olds, 4809
measurement of residual vision after occipital lobe damage, humans vs animals, 5348
measurement of self efficacy, posttreatment successful avoidance of smoking behavior, male & female heavy smokers, 8748
measures of verbal indicants of experienced anxiety in verbal performance situations, college students, implications for treatment in clinical settings, 4659
measure unreliability, cross-national marketing research, 6906
method for interpretation of manifest & latent content in Children's Apperception Test, 4759

method of test administration & cognitive style & testing conditions, performance scores, college students, 13674
methodological & theoretical issues of measurement of laterality, 12201
methodology, survey research, 2362
methods for identifying community leaders including reputation & decision & position measures, 107
microcomputer program, regression model analysis of predictive bias in educational & psychological tests, 124
military research on development & use of performance measure criteria, 236
model & research methodology & applications, technique for multidimensional measurement of involvement with social & political problems, 11610
Mother-Child Picture Test presented with perceptgenetic technique, measure of mother-child relations, mothers & their 7–8 yr olds, 9416
mother vs teacher reports of adaptive behavior, Black 2nd–4th graders in urban parochial school, 9130
multidimensionality of Adaptive Behavior Scales, 19–75 yr old mentally retarded patients, 11661
multimethod assessment, effects of race & sex & age on interpersonal distancing, Black vs White 7 vs 11 vs 15 yr old dyads, 1089
multiple retest & testing time conditions, intraindividual variability in fluid intelligence test performance, 60–84 yr olds, 9303
multiproduct advertising-sales model, measurement of consumer behavioral process, 2301
multitrait-multimethod validation of Interpersonal Judgment Scale vs social distance scale of M. S. Schwartz vs semantic differential scale, measurement of interpersonal attraction, male college students, 11629
need for standards of weight change measurement, children in weight reduction clinic, 11572
neuropsychological functioning as measured by Bender Gestalt visual-motor test & Luria's Neuropsychological Investigation, juvenile delinquents vs functional adolescents, 3863
normative data for Symbol-Digit Substitution test, measurement of visual information processing ability, schizophrenics & other hospitalized groups aged 16 & over, 9407
norms & error analysis of Inference Test, measurement of deductive reasoning, college students, 11636
norms & rater reliability of Improvisation Test for Individuals as measure of interpersonal styles, 17–55 yr olds, 199
objective psychological measurement, treatment orientation & behavior & attitudes, alcoholics, literature review, 10563
organizational climate & communications & job satisfaction & perceived productivity as criteria for assessment of organizational effectiveness, Air Force personnel, 11486
overview of dependent measures for assessment of client's problems before & during & after therapy with clinical psychologist, 205
overview of & questionnaires for measurement of alexithymia, 1556
Personal Assessment of Intimacy in Relationships, measurement of perceived vs expected intimacy, 18–61 yr old married vs unmarried Ss, 11686
Physical Health index as predictor of Mental Health index score, self report interview assessment, North African Jewish immigrants, Canada, 1377
physiological vs behavioral vs cognitive anxiety response channels, clinical vs analogue populations, literature review, 9293
prediction analysis & reliability, mastery test, 2427
predictive validity for 1st grade academic achievement, developmental tests, Black Head Start 5 yr olds, 6749
predictive validity of Home Observation for Measurement of Environment, prediction of academic achievement, Black 3–5 yr olds, 9324
problems in assessment & prediction of performance, individual differences in diurnal rhythm, 36
problems in correlations of measures of laterality & total accuracy, 4874
problems in inference of competence from performance, criticism of Piaget's logical competence models, 5477
problems & resolutions, staff of interdisciplinary geriatric research-assessment team, 8783
process analysis of caregiver behavior with Assessing Behaviour of Caregivers scale, 2534
Profile of Nonverbal Sensitivity vs measure of nonverbal coding ability vs Affective Sensitivity Scale, measurement of nonverbal decoding ability, college students & mental health professionals, 7007
psychodynamic vs symptomatic assessment, psychotherapeutic outcomes, 4002
psychometric & observational measures, diagnosis of hyperactivity, males with mean age of 7.2 yrs, 9357
psychometric principles for establishment of length of Examination for Professional Practice of Psychology, 7063
qualitative-analytic procedures, diagnostic value of psychological tests, 7015
quantitative vs qualitative assessment, cognitive skills, implications for educational diagnosis, literature review, 6763
quantity vs quality & frequency of solution responses measured by stringent vs lenient criteria, prediction of creative problem solving ability, college students, 9305
questionable validity of Test of Lateral Awareness & Directionality, measurement of left-right labeling ability, 9327
reanalysis of improvement following stuttering therapy & predictive value of revised Erickson S Scale, stutterers, criticism of discussions of B. Guitar & C. Bass & R. J. Ingham, 6440
regression equation for prediction of Wechsler Memory Scale visual reproduction subtest scores, geriatric patients with visual or manual dexterity handicaps, 2471
relationship between Matching Familiar Figures Test & measurement of school achievement & adjustment, kindergartners & 2nd & 5th graders, 11346
reliability of behavioral observation method, social functioning & peer interaction, 6–13 yr olds in short term psychiatric facility, 9385
reliability of M. Kohn & B. L. Rosman's Social Competence Scale, children in day care centers, 7038
reliability of Matching Familiar Figures Test, female college students, 2505
reliability of measurement of adverse life experiences, adults attending health clinics, 232
reliability of Present State Examination, assessment of psychiatric symptoms in general population survey by psychiatrists & clinical psychologists, Australia, 162
reliability of Schedule of Recent Experience, measurement of aversiveness of life stress events vs changes they entail, 242
reliability of tests of laterality, 9313
reliability of US Department of Labor's General Education Development scale, measurement of educational requirements of occupations, job analysts, 2548
reliability & predictive validity of teacher ratings vs sociometric measure, social competence, 2–5 yr olds in day care, 9075
reliability & validity, Western Aphasia Battery, aphasics, 2531
reliability & validity & friendship bias & user reactions, peer nominations vs ratings, police officers & their supervisors, 9450
reliability & validity of Beck Depression Inventory, measurement of depressive symptoms, 12–16 yr olds with psychiatric disturbances, 4835
reliability & validity of Beck Depression Inventory, normal Ss & patients including alcoholics & other depressed patients, 2455
reliability & validity of Clifton Assessment Schedule & Shortened Stockton Rating Scale, measurement of cognitive & behavioral functioning, institutionalized mentally retarded 60–82 yr olds, 11690
reliability & validity of Hebrew version of Depression Adjective Check Lists, measurement of state depression, college students & white collar employees & housewives, 9378
reliability & validity of Interview Schedule for Social Interaction, measurement of availability & perceived adequacy of social relationships, Ss in psychiatric clinics vs physical rehabilitation vs club for elderly, 11648
reliability & validity of standardized & comprehensive interview called Child Assessment Schedule, psychological & psychiatric assessment, 11652
reliability & validity of Symptom Schedule for Diagnosis of Borderline Schizophrenia, borderline schizophrenics, 2489
relief assessment test, measurement of effect of supplementing contour lines with other relief formats on map reading, 9507
Research Diagnostic Criteria, prevalance of schizoaffective disorder & assessments of family history vs drug response vs clinical vs laboratory variables, bipolar I depression patients, 1478
responses to process association tests of addiction, suppression vs enhancement of other responses & development of suppression scale, male opiate addicted prisoners, 7055
Revised Kendrick Battery, assessment of cognitive functioning & change & diagnosis of organic dementia, long term elderly psychiatric patients, 4786

Rockland Assessments of Functional Behavior, assessment of skilled functioning, mentally retarded, 7003
RT for noun to elicit mental image, measure of word imagery value, college students, 11571
scoring algorithm for "NASA" & other ranking tasks, accurate estimation of initial ability level, 9304
self esteem, satisfaction with reasonableness & usefulness of Self Directed Search for career guidance, 11th graders, 2173
self vs other presentation mode of Defining Issues Test, moral reasoning, college students, 11682
semantic arrangement of influences, semantic differential test, 2425
sequential criterion analysis for assessment of coping with chronic illness, 1623
sex of S & other person & acquaintance between them, convergent validity & correlations between personal space measures, college students, 191
shock-reinforced Y-maze procedure, measurement of color preferences, goldfish, 2409
social desirability, categorization on Bem Sex Role Inventory, college students, 4802
sociometry & developmental assessment, measurement of social & cognitive behavior, 4810
standardization of short version of Minnesota Differential Diagnosis of Aphasia Test, aphasics, 2511
standardization of "tests" that permit cheating, perceived difficulty rating & relative perceived difficulty ranking, college students, 7079
statistical analysis of successive measurements F tests to control probability of false positives in psychophysiological research, computer applications, 4859
tactical engagement simulation system, assessment of combat unit effectiveness, army personnel, 11445
technical merit of Acting out-Mood-Learning scale, detection of school maladaptation, 4th–6th graders, 160
techniques for identification of handicaps in young children, 10420
tests, brief assessment of confusion & depression, institutionalized aged, 13408
test taking attitudes, scores on Alcadd Test for alcoholism, 16–69 yr old male inpatients, 7041
theoretical framework for measurement of personality emphasizing social interaction & personality change, 3722
transformation of items from WHO Depression Scale, differentiation between endogenous & nonendogenous depression, depressed patients, 4772
unidimensional scaling, assessment of cognitive structure of interest in English lessons, secondary education students, Germany, longitudinal study, 4370
unrotated vs rotated standardized weights vs structure coefficients, interpretation of canonical variates, 9356
use of Bassin anticipation timer, measurement of coincidence anticipation in ball tracking skills, 101
use of synthetic criterion data to calculate predictor composites in test battery, 4766
use of test battery to predict suicide potential, hospitalized psychiatric patients, 9417
use of World Health Organization's Schedule for Standard Assessment of Depressive Disorders, investigation of depressive symptomatology, depressed patients in Canada vs Iran vs Japan vs Switzerland, 11604
validity, measures of J. Lee's types of romantic love, dating couples, 4807
validity, revised UCLA Loneliness Scale, college students, 4820
validity of Adjective Generation Technique, measurement of changes in anxiety in progressive relaxation training, college students, 11644
validity of auditory technique, measurement of personal space, college students, 7093
validity of classroom social climate inventory for use at early elementary level, 9115
validity of diagnostic interview, identification of borderline disorders, schizophrenic vs depressive vs borderline patients, 2536
validity of Draw-A-Tree test, measure of extroversion vs neuroticism, college students, 9361
validity of Mullen Diagnostic Survey for Leadership Improvement, measurement of satisfaction with principals' leadership, high school teachers, 2444
validity of problem-oriented record system, assessment of patient's change of status, 18–60 yr old nonpsychotic patients, 10796
validity of Reasons for Smoking scale, smokers at smoking cessation clinic, implications for prediction of quitting success, 9362
validity of self administered questionnaire, assessment of stages of pubertal development, 12–16 yr olds, 202
validity of SIMFAM & Identification Scale & Family Environment Scale & Family Sculpture Test, measurement of family cohesion & adaptability, 7090
validity of social skills measures, assessment of social competence, low sociometric status 3rd & 4th graders, 7054
validity of visual analogue scale, suicidal intent, 18–30 yr old females who attempted suicide, 9345
validity & reliability of Acting out-Mood-Learning scale, measurement of emotional & learning problems, male vs female 4 yr olds in Head Start program, 155
validity & reliability of code for classification of hand movements, 170
validity & reliability of measurement of marital satisfaction, married couples in therapy, 235
validity & reliability of Myklebust's Pupil Rating Scale, detection of reading & arithmetic difficulties, 1st & 2nd graders, 4438
validity & reliability of value measurement techniques, college students, 2515
Whitaker Index of Schizophrenic Thinking, differentiation between schizophrenics with vs without brain damage, state hospital residents, 9400
word prediction ability tests, diagnosis of reading disabilities, 147
Mechanical Aptitude
work behavior & product vs job knowledge & mechanical aptitude, test-retest reliability, trainee lathe operators, 11449
Media (Communications) [See Communications Media]
Media (Educational) [See Instructional Media]
Media (Mass) [See Mass Media]
Median Nerve [See Spinal Nerves]
Mediated Responses
delayed reinforcement, mediating responses, pigeons, 2858
lesions of subfornical organ, mediation of drinking responses, rats, implications for central control of thirst, 12333
vagotomy, acquisition & extinction of learned taste aversions, male rats, 12042
Mediation (Cognitive) [See Cognitive Mediation]
Medical Diagnosis [See Also Biopsy, Cardiography, Electro Oculography, Electrocardiography, Electroencephalography, Electromyography, Electroplethysmography, Electroretinography, Galvanic Skin Response, Ophthalmologic Examination, Plethysmography, Pneumoencephalography, Rheoencephalography, Roentgenography, Urinalysis]
adult metachromatic leucodystrophy misdiagnosed as schizophrenia, female patient, 3891
advance knowledge of correct diagnosis, probability estimates of 4 diagnoses & prediction of accuracy, physicians, 3945
dementia & deep white matter damage & hypertension, "Binswanger's disease", patients, 10691
diagnostic advances, functional origins of erectile dysfunction of penis, 8379
family history study, Briquet's syndrome patients, 6124
General Health Questionnaire as screening test, patients in hospital rheumatology clinic, implications for integrated & psychophysical approach, 2468
hypopituitarism, patients with paranoid psychosis, 1378
kinds & degrees of impairment & frequency in population, mentally retarded born between 1951–55, British city, 8267
medical diagnosis & physical attractiveness, reactions to patients who complain of pain, nursing students, 11083
medical evaluations, psychiatric patients, 6192
misdiagnosis of insane automatism, 36 yr old male with frontal lobe tumor, 6123
need for testing for food allergies in psychosomatic practice, 1624
psycho-pedagogical & medical diagnosis, development, blind children, Poland, 6159
unrecognized medical illness prompting psychiatric admission & diagnosis techniques, psychiatric patients, 4165
Medical Education [See Also Psychiatric Training]
background variables, cognitive preferences, medical school teachers, 13510
behavioral science in medical education, bibliography, 4234
correlation of intramural & extramural measures of knowledge in clinical medical sciences, 4466
death education course completion vs lack of death course, attitudes toward dying patients, physicians, 4219
development of teaching program, psychodynamics of psychosomatic pathogenesis, medical students & psychiatric residents, 2031

development & validation of analytic training program, medical suturing, medical students, 2041
education about mentally retarded, medical students in pediatrics, 8795
graduate & internship training programs in medical psychology, 11082
medical school admissions, causal attributions, successful vs unsuccessful applicants, 13506
noncognitive measures, medical school admission, 13509
personal background & training & education & salary & attitudes & treatment roles, psychiatrists vs psychiatric social workers vs nurses vs clinical psychologists vs mental health workers, 6545
problems with & recommendations for psychosomatic medicine education, medical students, 2043
professional activities & work attitudes & organizational models, psychologists holding academic appointments in medical schools, Canada, 11063
program with medical students & clergy "on call" together for crises intervention with dying patients & their families, 4216
psychotherapy training for psychosomatic medicine, medical students, 2048
retaking Medical College Admission Test, test scores, medical school applicants, 6760
Medical History [See Patient History]
Medical Internship
content & satisfaction with internship year in psychiatry, psychiatry residency directors, 8759
Medical Model
balanced service system, Joint Commission on Accreditation of Hospitals, 4125
biopsychosocial model of illnesses, 3943
holistic-medical framework of American psychiatry, 6953
medical model & psychiatric practice, 11069
medical vs behavioral model in psychiatry, 13183
need for biopsychosocial model of illnesses & role in primary care, 4150
need for psychiatry to change educational practices & role of biopsychosocial model, 4225
presence vs absence of stress & free association technique, resistance & transference, asthmatics & healthy adults, 3914
psychiatric training courses & role of biopsychosocial model, 4257
role of biopsychosocial model in psychiatric education, 4242
role of biopsychosocial model in psychiatric research, 2393
Medical Patients
application of oral history techniques, clinical medical practice, aging patients, 13373
argument against standard clinical methods of evaluation of mental & physical condition & support for oral history techniques, aged patients, 13369
assessment of psychological factors in pain disability, chronic pain patients, 9418
attitudes toward clinical tests of new drugs, hospitalized & ambulant patients, 871
comparison of personality inventories, psychiatric & physical rehabilitation patients, Netherlands, 2417
death education course completion vs lack of death course, attitudes toward dying patients, physicians, 4219
diagnostic problems, psychopathology masked by pseudodementia, medical-surgical patients, 12913
diet & emotional state & age & disease, medical hospital patients over 14 yrs old, 6160
EEG tracings & mental status & neurological testing, delirium occurrence, 6–17 yr old hospitalized patients with vs without acute CNS disorders, 3933
etiological model of sexual dysfunction & sex therapy, post myocardial infarction patients, 6304
group program, emotional support, hospitalized medical patients, 1954
item analysis & reliability of alexithymic & psychosomatic questionnaire, assessment of factors related to cognitive style, 19–51 yr old medical patients, 195
legal information needed by medical patients, 5669
long term digoxin therapy, psychosexual behavior, male patients, 6402
ongoing disease process & interviewer choice of words, patient choice of words referring to disease, cervical cancer patients, 6176
positive & negative affect as measured by Personal Adjustment & Role Skills scale, psychological well-being, male medical & surgical patients, 5907
program with medical students & clergy "on call" together for crises intervention with dying patients & their families, 4216
psychosocial factors, smoking cessation, obstructive pulmonary rehabilitation patients, 1571
reliability & item scale consistency of Luria-Nebraska Neuropsychological Battery, normal Ss vs psychiatric vs neurological patients, 174
role of & need for liaison psychiatry, intensive & coronary care & renal dialysis hospital units, 1951
self hypnosis, nausea & emesis inadvertently conditioned during chemotherapy, cancer patients, 10956
sensitivity to bodily nonverbal communication, practitioner-patient rapport, physicians & their patients, 1638
sex role stereotyped attitudes toward women patients, physicians, 1894
social psychotherapy, psychosocial disease-related factors, cancer patients, 1714
type & incidence of mental disorders, patients at primary health facilities with physical complaints, Colombia & India & Sudan & Philippines, 1896
willingness to participate in high vs low risk research, psychiatric vs medical patients, 4259
zimelidine, changes in augmentor-reducer tendency in visual evoked potentials vs pain measures, 25–65 yr old chronic pain patients, 10944
Medical Personnel [See Also Attendants (Institutions), General Practitioners, Nurses, Paramedical Personnel, Pediatricians, Physical Therapists, Physicians, Psychiatric Aides, Psychiatric Hospital Staff, Psychiatric Nurses, Psychiatrists]
bilingual rating scale development, measurement of acculturation level, Mexican American psychiatric hospital patients & staff & in-service training students, 7035
compliance behavior to no-smoking signs, hospital patients vs employees, 13412
factors in selection of psychiatric chief resident, 2029
geographical location & occupation & agency type vs personality traits & attitudes about mental illness, health providers, Alaska, 6542
granting right of access to own hospital records, treatment effectiveness & attitude toward hospital & staff, hospitalized psychiatric patients, 1955
moderators & correlates of role stress, hospital nurses & respiratory therapists, 4252
obesity in nonreactive setting, helping behavior & devaluation of ability & potential, public health administrators, 3628
resistance to orthomolecular medicine, medical establishment, 11079
role conflict & ambiguity, job-induced stress & job satisfaction & desirability of leaving organization, VA hospital staff, 4547
role in organization, predictability of job satisfaction, hospital administrators vs health care professionals, 11490
social insight & manipulative tendencies, hospital managers vs workers, 13498
technological groupings of subunits, perceived work environment, health organization employees & managers, 11493
user generated modifications of hospital ward design, mood & morale & perceived quality of health care, patients & staff & visitors, 1942
Medical Psychology
graduate & internship training programs in medical psychology, 11082
papers from meeting of Medico-Psychological Society, France, 1979, 1674
Medical Records Keeping
computerized review system, orders of psychotropic drugs, 86
granting right of access to own hospital records, treatment effectiveness & attitude toward hospital & staff, hospitalized psychiatric patients, 1955
patient-physician confidentiality & use of automated mental health data systems, recommendations of Canadian Psychiatric Association, 1900
psychiatric treatment & record organized by objectives, modifications of the Weed system, 11120
validity of problem-oriented record system, assessment of patient's change of status, 18–60 yr old nonpsychotic patients, 10796
Medical Residency
development & validity of instrument for measurement of clinical performance, medical residents, 2485
drug abuse prevalence, male vs female medical residents, India, 13049

guidelines for improvement, undergraduate education & residency in behavioral pediatrics, literature review, 1997
individual psychotherapy with ambulatory patients, psychiatric residents, 6222
in-house test of psychiatric knowledge, psychiatric residents, 4261
objectives for 1-mo training program in development disabilities, pediatric residents, 8808
psychological testing, psychiatric residents, 13508
trend toward family practice vs psychiatric medical residency, medical students, 6617
Medical Sciences [See Also Cardiology, Child Psychiatry, Community Psychiatry, Epidemiology, Forensic Psychiatry, Geriatrics, Immunology, Neurology, Neuropathology, Neuropsychiatry, Ophthalmology, Pathology, Pediatrics, Psychiatry, Psychopathology, Psychosomatic Medicine, Radiology, Social Psychiatry, Surgery, Transcultural Psychiatry]
behavioral medicine training program, clinical psychology students, 4202
correlation of intramural & extramural measures of knowledge in clinical medical sciences, 4466
liaison psychiatry as bridge between psychiatry & medicine, 13219
medicine & education & parent advocacy & legislation, mental retardation, New Zealand, literature review, 8271
psychiatric & medical & ethical & legal issues, euthanasia, 2020
resistance to orthomolecular medicine, medical establishment, 11079
roles & training needs, educational psychologists in health sciences, 2071
Medical Students
attitudes toward cancer, medical students & residents, 13487
attitudes toward ragging college freshmen & adjustment & thoughtfulness & religious beliefs & values, medical graduate students, 12846
development of teaching program, psychodynamics of psychosomatic pathogenesis, medical students & psychiatric residents, 2031
development & validation of analytic training program, medical suturing, medical students, 2041
differences in accuracy of patient interview data observed vs reported to supervisor, medical students, 13497
education about mentally retarded, medical students in pediatrics, 8795
group formation & group fantasy, psychohistory of medical school as group cultural setting, 1243
lecture vs small group discussion vs experiential task & videotapes, teaching family assessment, medical students, 8802
motivations & social support, medical career decision, male vs female medical students, 13491
noncognitive measures, medical school admission, 13509
performance of East-West Questionnaire indicating Eastern vs Western belief system orientation, Korean medical & nursing students vs US college students, 12648
program with medical students & clergy "on call" together for crises intervention with dying patients & their families, 4216
ratings of schizophrenic symptoms, staff psychiatrists vs medical students vs psychiatric residents, 4250
trend toward family practice vs psychiatric medical residency, medical students, 6617
Medical Therapeutic Devices [See Also Hearing Aids, Prostheses]
assessment procedures for recommendation of speech & language prostheses, non-oral clients, 11034
Medical Treatment (General)
child's legal rights in seeking medical treatment over parental objection, 3556
development & validation of Krantz Health Opinion Survey, measurement of preferences for different treatment approaches, college students, 7072
expectations for treatment success & self concept & depression & demographic variables, reported relief from low back pain, medical patients, 13425
medical & psychiatric standards in correctional facilities, 8720
psychotherapy with vs without medical treatment, changes in symptoms & ego strength, myasthenia gravis patients, 1654
satisfaction with Army family practice clinic, patients, 4124
treatment participation by liaison psychiatrist, clinical outcomes, elderly surgical patients, 13417
Medication [See Drug Therapy]
Medicine (Science of) [See Medical Sciences]
Meditation
creative problem solving & Zen koan study, 433
EEG readings before vs during vs after meditation, literature review, 527
hypnotic responsivity, prediction of outcome in meditation training, college students, 6424
intensive meditation & visualization, regression of cancer, female patient, 1656
Japanese method of psychotherapy called Naikan, autoanalysis with Buddhist techniques of ascetism & meditation, 13220
meditation, enhancement of creativity, 3694
meditation as relaxation technique, 13201
meditative relaxation training vs rest period, attention, behaviorally disturbed 8–11 yr olds, 10895
personality characteristics, regularity of meditation, 3683
personality traits, 18–33 yr olds with varying degrees of meditation experience, 12875
phenomenological investigation, insight meditation, college students, 519
short term meditation practice vs listening to lecture, hypnotic responsivity, male college students, 525
transcendental meditation, creativity, college students, 5-mo longitudinal study, 5085
transcendental meditation, reduction of encoded physiological stress, 13311
transcendental meditation, reflex times, male college students, 3056
transcendental meditation vs reading, concentration ability, meditation practitioners, 2821
transcendental meditation vs relaxation, anxiety & ego strength & dream content & recall, male college students, 3037
Medulla Oblongata
gustatory & mechanical stimulation of tongue, medullary responses, frogs, 2987
lesions of midline reticular area of medulla, acquisition of conditioned emotional response, rats, 9890
Melancholia [See Depression (Emotion)]
Melancholy [See Sadness]
Melatonin
constant light vs constant dark vs half light/dark & melatonin, food intake & body weight regulation, male albino rats, 12279
exogenous melatonin & 12:12 light-dark cycle, self administration of ethanol, rats, 5407
light intensity, suppression of nocturnal secretions of melatonin, humans, 9805
melatonin & amphetamine administration, wakefulness & REM sleep & hatching, chicks, 861
melatonin vs levopropranolol, sleep, male rats, 7674
methysergide & cyproheptadine & melatonin, tonic immobility, chickens, 3176
Mellaril [See Thioridazine]
Membranes [See Also Meninges, Nictitating Membrane, Olfactory Mucosa]
serotonin & methysergide & noradrenaline, membrane mechanisms underlying modulatory effects on facial motoneurone excitability, rats, 5412
Memory [See Also Eidetic Imagery, Long Term Memory, Memory Decay, Memory Trace, Short Term Memory, Spontaneous Recovery (Learning)]
accuracy of verbal description vs "Photofit" constructed likeness of target face, 29–63 yr olds, implications for eyewitness identification, 7248
ACTH, consolidation of memory, 33–60 yr old ECT-treated & untreated depressive patients, 13178
ACTH, memory retrieval, 23–67 yr old ECT-treated depressive patients, 13179
age, left vs right handed tactual recognition performance, 20–84 yr olds, 9792
age, recognition of White vs Japanese faces & inverted faces, White preschool age through adult Ss, implications for schema theory, 464
age differences, memory for stories containing easy vs difficult to understand spatial relationships, 1st vs 3rd vs 5th graders, 10106
age differences, simultaneous vs successive processing in memory task, 6 vs 11 vs 16 yr olds, 10108
age & education & cardiovascular disease & high blood pressure, intelligence & memory, 70 vs 75 yr olds, 5-yr followup, 12479
aging, performance on memory & localization components of Tactual Performance Test, 50–62 & 67–86 yr olds, 7773
alcohol vs marihuana after learning, subsequent facilitation of memory, male Ss, 3198
analysis of lexical semantic relationships for nouns, 3–6 yr olds, 10087

anesthetic doses of chlorpromazine, memory enhancement, chicks, 3156
arginine vasopressin, learning & memory, depressed cognitively impaired & ECT induced retrograde amnesia patients vs cognitively unimpaired adults, 13360
attention & learning & memory strategies, mentally retarded, implications for education, 8232
auditory sensory memory, educable mentally retarded adolescents vs normal 4th & 8th graders, 8226
auditory sequential memory & attention training, reading accuracy & comprehension, 2nd & 3rd graders with reading deficits, 8882
awareness of location requirement, performance on temporal coding task, 17–29 vs 60–75 yr olds, 7811
bias in recall of early sex role behavior, Swedish vs Australian male homosexuals, 12726
binary-to-octal digit recording, memory span at recall, 2800
Candida albicans, immunologic response & depression & difficulties in memory & reasoning & concentration, 10442
classification of impressionistic paintings by artist, immediate vs 2-wk delayed transfer test, college students, 11940
cognitive functioning & memory, ECT- vs nonECT treated depressive patients, 4 & 7 mo followup studies, 1685
color cues & cognitive development, categorizing strategies in picture matrix recall & reconstruction, 5–8 yr olds, 12502
color vs neutral words & color patch vs print color, incidental memory for color-word association in Stroop test, college students, 9563
color vs spatial location vs word attribute variations, recognition of pictures &/vs words, college students, 11965
comprehension processes & memory structures, anaphoric reference, college students, 4997
computer simulation tests of semantic networks & spreading activation models of human memory encoding & retrieval, 9585
conceptual representational theories & research models, modeling of memory & language, 11974
concreteness vs abstractness of positive vs negative spoken sentences, recognition memory, college students, 11978
congruence between correctness vs Ss judgments of correctness of response, amplitude of event related potentials, college students, 7460
construction of semantic memory model as problem solving system, 11923
construction & standardization of Subjective Memory Questionnaire, assessment of real-life memory, volunteers & graduate students & male chronic alcoholics & nondrinkers, 2438
construction & storage & retrieval of representations or "K-lines" in memory, 11908
convulsive stimulation with different waveforms & current intensities & training-ECS intervals & pulse widths & stimulus durations, amnesia, male mice, 12326
cooperative vs individual recall, implications for role of communication in memory, 11979
cues to forget vs remember & comparison task, directed forgetting, pigeons, 12052
cycloheximide with vs without nicotine, retention of passive avoidance task, mice, implications for memory storage, 9965
deficit in use of memory strategies, mentally retarded, 8255
diazepam vs tofisopam & ethanol, psychomotor skills & memory, 20–24 yr old medical students, 3210
differences in age & Piagetian stage, memory for horizontal lines in tilted figure, 7 vs 10 yr olds, 10074
direct access vs inferential retrieval in question answering, 7247
direct vs implied assertion of claims about products in commercials on radio & television, memory of implied advertising claims as facts, college students, 11526
discriminating & categorizing functions of verbal label associations, delayed recognition memory for ambiguous shape, college students, 490
dynamic aspects & strategies for improvement of memory, implications for mentally handicapped, 6067
efficacy of earliest childhood memory as psychodiagnostic technique, 5–11 yr olds, case reports, 8388
efficiency of 2 search strategies of auditory memory, 18–22 yr olds, 7196
emotions, memory & cognitive processes & social perception & judgment about others' personalities, 11724
encoding cue type & abstract vs concrete sentences, sentence recall, 474
encoding strategy & processing time & stimulus compatibility, recognition memory for shapes, US Navy recruit trainees, 9569
environment & cognitive maps vs tactual vs visual stimulation, orientation shifts, Ss, 299
etiracetam, memory retrieval deficits, Wistar rats, 927
evidence for physiological amnesic mechanism mediated by endogenous opioid peptides, state dependency of learning upon release of beta-endorphin, literature review, 9775
experimental arousal, individual differences in extraversion & story recall, Ss admitted for clinical psychological assessment, replication of findings of P. N. Johnson-Laird & R. Stevenson, 11728
expert psychological advice, judgment of accuracy of eyewitness testimony, jurors, 12705
exposure to story with vs without information about setting, story comprehension & memory, 2nd graders, 12553
factor analysis, creativity & intelligence & memory & recall, male inventors, 11924
fluency of verbal output, rehearsal of verbal information & encoding, male fluent vs nonfluent aphasic vs right brain damaged 31–75 yr olds, 10727
flurazepam & lorazepam & triazolam, sleep & recall & amnesia, normal male Ss, 9958
focused memory search in fact retrieval, college students, 486
fronto-frontal vs temporo-parietal ECT, retrograde memory, depressive inpatients with mean age of 41.3 yrs, 13180
general relaxation & neuromuscular tension control using EMG biofeedback, memorization & rotary pursuits & RTs, female college students & secretaries, 4067
guided memory interviews, photograph recognition accuracy 5 mo after eyewitness identification of offender, college students, 8049
handedness, recall, 5–6 yr old males, 10069
hemispheric asymmetries in color naming & matching & memory, 28 & 31 & 48 & 61 yr old split brain patients, 13126
high vs low imagery sentences, sentence verification, college students, 9540
high vs low probability visual stimulation, late positive component of evoked cortical potential, 3 mo olds, 12504
hippocampus, cognitive mapping & working memory, rats, 3125
hippocampus, conditioned operations & cognition, 2980
hippocampus, cue utilization, literature review, 3133
hippocampus, memory, rats, 3124
hippocampus & memory, 2986
hippocampus vs amygdala vs caudate nucleus vs frontal cortex lesions, spatial memory, male rats, 5331
holographic theory of memory & aftereffect, 9576
hypnosis, episodic memory, highly susceptible female college students, 5080
hypothesis generation, 3-yr study, 9539
iconic storage duration & encoding speed, performance deficits, mentally retarded, reply to K. E. Stanovich & D. G. Purcell's criticism, 1546
iconic storage duration & encoding speed, performance deficits, mentally retarded, criticism of study by D. P. Saccuzzo et al, 1547
imagery vs peg system vs link vs loci method as mnemonic techniques, word list recall with vs without positional criteria, college students, 5043
immediate free recall vs cuing of unrecalled words, memory performance in later recall-recognition test, high school & college students, 7806
immediate vs delayed repetition & problem solving & recognition vs recall test, memory, college students, 9572
immediate vs remembered visual vs auditory esthetic judgments of familiar environments, college students, 11958
impression formation vs memory task instructions, recall of behavior descriptions with vs without distinctive items, college & graduate students, 4984
individual differences in self consciousness, identification of self reference strategies in trait term memory tasks, college students, 1349
induction of elated vs depressed moods, accessibility of memories of happy vs unhappy experiences, female college students, 11997
influence of schemata, memory performance, college students, 454
influence of verbal vs sensory code, memory performance, 11977
information processing model, psychokinesis, 2313
input modality vs pronominalization vs response strategy, recognition memory of real-life discourse, college students vs Italian speaking adults, 9560
instructions to increase memory encoding distinctiveness & word frequency, word recognition, college students, 457
interaction of recency & visual field as determined by encoding vs retrieval processes, recognition memory for letters, college students, 11946

interstimulus interval & degree of difference between visual stimuli, recognition & sensory memory, college students, 11970
item exposure duration & intertrial interval & number of items, recognition accuracy, pigeons, 9649
judgment tasks, retrieval of information about past events & use of information to make decisions, college students, 7270
learning of episodic material, retrieval of semantic information, 17–34 yr olds, 5014
learning of relational aspects of items &/vs individual items, free recall & recognition, college students, 5023
level of anxiety & neuroticism & extraversion & motivation, subjective memory scores, 11973
level of aspiration vs presence of competitors, qualitative & quantitative performance on attention & verbal & memory tests, 16–19 yr olds, 7827
level of confidence & optimality of information processing, accuracy, eyewitnesses, 12690
level of problem uncertainty & curiosity, incidental recognition level, high school & college students, 12484
levels of processing & memory, 415
lexical storage & retrieval, performance on picture word interference task, Spanish-English bilingual young adults, 947
lithium carbonate treatment, memory, patients with chronic affective disorders, 13324
low vs high frequency categorized association lists, category name as retrieval cue, primary school students, implications for episodic memory vs tagging theories, 2755
marihuana, visual information processing, male marihuana users, 3144
mathematical modeling, memory experiment by E. K. Strong, 11984
memorial & cognitive processes, correspondence of confidence & accuracy, eyewitnesses, 12696
memory drug theory, comments on theory of F. M. Henry & D. E. Rogers, 430
memory for CS relationships, retention of differential autonomic conditioning, male students, 768
memory for own vs others' drawings & block constructions & maze paths, play following failure, 3–4 yr olds, 10086
memory for reward vs formal structure, serial-pattern learning, rats, criticism of research of E. J. Capaldi et al, 12039
memory for temporal order of events, patients with anterograde amnesia & mean age of 43 yrs, 12930
memory impairment, chronic amnesia, criticism of L. R. Squire & P. C. Slater's study, 5913
memory of previously recalled items, 6 vs 8 yr olds, 7791
memory set size & distance relationships between items & number of inferred "decision boundaries" needed to separate items, processing of digit vs unidimensional brightness stimuli, 477
memory units for Chinese letters called Kanji vs Japanese letters called Kana, students, 489
memory vs neutral instructions, recall of picture information in game context, 4 & 5 yr olds, 5526
memory vs vocabulary vs inference ability, recall of prose with vs without words relating sentences, college students, 11964
metamemory research, children, implications for education, 10082
metamemory & transfer of interrogative strategy, educable mentally retarded children, 3871
method for adjusting contingency tables to remove effects of S & item differences, study of human memory, 4855
misleading information about face, memory for face, college students, 11952
mnemotechnics, memory enhancement, literature review, implications for military training, 4505
models set at angle vs photographs of models, memory of orientation, 3rd & 5th & 6th graders, 3318
motor enactment vs imagination vs viewing of demonstration vs no cues, memory for action phrase, students, 7249
naloxone vs beta-endorphin, acquisition & memory & retrieval of shuttle avoidance & habituation learning, female rats, 3181
nature & context of cue, recall, college students, 9587
neurophysical status & personality change & memory loss & work capacity & friendships, 16–39 yr old patients with severe head injuries, 2-yr followup study, 1625
neutral vs biased presupposition source, memory for presupposed facts, high school students, 5423
normal iconic memory for stimuli invisible to rods, 343
normal vs delayed language development & intonation cues, auditory sequential memory span & recall, 3.5–6 yr olds, 3337
number of people & density as aspects of spatial crowding & sex, memory task performance & comfort & perception of environment, college students, 8016
nurturance of cognitive memory & convergent & evaluative & divergent thinking in classroom, ratio of higher process to total thinking, 5th & 6th graders, 11212
odor discrimination & memory, patients with Korsakoff's psychosis, 1598
oral vs tactual familiarization with shape, visual recognition memory & cross-modal transfer, 25.5–32 wk olds, 12543
organization of memory for genealogy, 17–30 yr olds, 5042
organized vs randomized presentation of word lists, memory, college students, 5018
partial report & sampling procedures vs click technique, overestimation of duration of iconic memory, college students, 757
partial vs no posthypnotic amnesia, memory for successful vs unsuccessful responses to hypnotic suggestions, college students, 7288
pattern reproduction, 1st–7th graders, Scotland vs Bukusu, 3305
perception & memory & thinking processes in communication, 435
perceptual quality & visual field of probe stimulus, memory search for letters, college students, 7174
perceptual vs conceptual object attributes, developmental trends in use of attributes for grouping & clustering in cued & free recall, 4 vs 5 vs 9 yr olds, 3359
perceptual vs memorial estimates of geographical area size, students, England, 2621
performance & behavioral information, immediate vs delayed leadership ratings, college student Os, 10358
performance on psychometric & laboratory measures of cognitive processes, idiopathic dementia patients, 6021
performance on visual scanning task & WAIS & Wechsler Memory Scale, patients with progressive supranuclear palsy vs other brain damage, 13114
personality & achievement motivation, performance on & predictive validity of Questionnaire Upon Mental Imagery scale, college students, 11905
physostigmine dosage, learning & memory, Alzheimer patients, 13315
physostigmine &/vs arecoline iv, memory, Alzheimer presenile dementia patients, 13323
picture vs name vs category encoding processes, memory, college students, 9555
pitch as phonemic cue in auditory memory, college students, implications for speech perception, 404
placement of information high vs low in passage structure, free recall, college students, 5020
placement of interpolated tones in interval between pure tones, retroactive inhibition in memorization of pitch, 11932
posthypnotic amnesia, disruption in memory search process & disorganization in memory retrieval, college student amnesiacs, 5072
posttraining ip injections of enkephalin & endorphin, memory consolidation of habituation of rearing task & shuttle avoidance, female rats, 894
preselection effect in psychomotor memory & generation effect in verbal memory, 11950
presentation of stimuli to right vs left visual field, perceptual encoding vs memory, college students, 9780
priming in item recognition, memory for text, college students, 2790
prior knowledge vs brief study & familiarity vs unfamiliarity of map, estimation of distance between sites, college students, 11730
prior vs no knowledge of person's occupation as waitress vs librarian, memory for prototype-consistent vs actual features, college students, 12794
processes in comprehension of & memory for stories, criticism of J. B. Black & R. Wilensky's evaluation of story grammar, 12418
psychological significance of eyewitness research, 12707
reading ability, memory access of visual patterns, college students, 5032
recall of related us unrelated & precued vs postcued & to-be-remembered vs -forgotten word lists, college students, 5031
recency of presentation & brain lesions, delayed non-matching, rhesus monkeys, 3107
recognition memory & object permanence & prediction, infants followed from 6 to 11 mo, 10064
recognition vs recall, hockey actions, college students, 2781
recognition vs recall of typical vs atypical actions in scripted activities, college students, 5024

reconstructive vs specific memory effects in within-Ss transformational picture memory test design, college students, replication of J. M. Mandler & G. H. Ritchey's study, 480
regression equation for prediction of Wechsler Memory Scale visual reproduction subtest scores, geriatric patients with visual or manual dexterity handicaps, 2471
rehearsal vs generation of imaginary scene & memory set size, recognition RT, 467
relative vs absolute adjectives & sentence syntactic form, memory RT & errors, college & graduate students & nonstudent Ss, 438
reliability of recall phase of Bender Gestalt Test for Young Children, measurement of age differences in memory, 5–14 yr olds, 2521
reliability & validity of experimental apparatus for measuring operative memory, 6970
reliability & validity of Wechsler Memory Scale, chronic alcoholic males of mean age 37.7 yrs, 11641
repetition of sentences having externally-supplied vs S-generated sentence-completing words, subsequent misidentification of words as self-generated, 427
reponse mode, speed of access to different types of information in memory, college students, 2791
retention interval, recognition for facial identity & expression & orientation, 18–31 yr old females, 5047
retrieval cues, differential recall of typical vs atypical sentences, 3rd & 6th graders & college students, 3352
role & activation of metamemory in development of mnemonic performance, 7 vs 10 vs 17 yr olds, 1048
role of brain protein synthesis in memory formation, criticism of P. E. Gold & D. B. Sternberg's work by L. R. Squire et al & rebuttal, 3054
role of eyewitness memory in criminal justice system, 12706
role of perception & memory & coding processes in mental representation & transformation, recall & recognition performance, 20–23 yr olds, 2738
same vs different judgments in verbal comparison task & subsequent recognition, event related potentials, college students, 7487
school instruction, development of memory, preschoolers & 1st graders, 2089
scotophobin, motor activity, mice, implications for effects on memory transfer, 941
self constructed vs structured partially ordered information, pairwise comparison RT, college students, 9597
semantically high vs low related episodic sentences, recognition RT, college students, evidence against claim by E. J. Shoben et al concerning semantic-episodic memory distinction, 11954
semantic stimuli of limited vs extended response mode, semantic contrast, college students, 11912
semantic vs structuring vs nonstructuring perceptual processing, word recognition memory, 12–20 yr olds, 7779
series of rewards terminating in nonreward & stimulus generalization from reward memories, serial anticipation pattern learning & transfer, male rats, 12019
sex & neutral vs negative imagery & perceived emotionality of faces, right hemisphere superiority for discriminating memorized from nonmemorized faces, college students, 9781
sex of viewer vs viewed, recognition & attractiveness rating of Canadian vs British faces, males vs females, Canada, 12816
S familiarity with free-response target pool, ESP & memory processing in ESP task, 12
short vs long term vs semantic memory, dyslexic 8–14 yr olds, 10607
similarity of simultaneously vs successively presented colors &/vs color names, discrimination RT of color & color-word stimulus pairs, college students & faculty members, 7168
sleep deprivation, spatial memory, male rats, 12280
sleeper effect in recall of false presuppositions, college students, implications for reconstructive vs interference memory theories, 2799
social communicative vs self memorial vs associative instructions for verbal encoding of figures, communicability of codes, 2nd vs 5th graders vs college students, 12513
social isolation & age & sex differences, spatial memory & response strategies, rats, 5100
social isolation & intracranial potassium chloride vs ouabain vs cycloheximide, memory formation for passive avoidance task, chickens, 7631
social relationships, propensity to recall another's completed vs incompleted tasks, male 17–20 yr olds & graduate students, 1229
spatial memory task & similar task during retention interval, retroactive interference, male rats, 12013
spatial metaphors in memory theories in cognitive psychology, 493
spatial & temporal patterns, recovery of cached seeds, Eurasian nutcracker, 2888
standard vs elaborated pictorial presentation & lists of noun pairs & instructions, pictorial elaboration effects in incidental paired associate memory, kindergartners vs 2nd graders, 10068
stimulus familiarity, semantic memory, college students, 2789
storage & retrieval cue value of spatial location of auditory stimuli, college students, 4887
study-test vs anticipation learning methods, learning performance with difficult material, college students, implications for retention interval hypotheses, 2785
subvocalization rate as predictor variable, immediate memory span, college students, 9592
suggested amnesia & verbal inhibition, disorganized recall of word list, 18–42 yr olds, 2628
systematic errors, memory for maps & spatial environments & visual forms, 7271
tacit vs conscious knowledge, pattern recognition, implications for models of human memory, 471
tactile display scanning training, memory of spatial relationships, blind 4th–12th grade braille students, 13637
tactual experience &/vs observation, concrete object recall, college students, 2794
target word primed by word near vs far from target & presentation time, facilitation of word recognition, college students, implications for spreading activation model, 11971
temporal structure vs sense modality, memory organization in free recall, college students, 11935
test anxiety, recall of self descriptive vs nondescriptive words, college students, 9586
testing procedure & delay interval, recognition memory performance, 5 vs 8 vs 11 yr olds vs young adults, 12525
texts containing meaningless numbers printed in letters vs repetitive numerals inserted between meaningful words, oral reading time & memory for phrasing & meaning, college students, 9557
theories of W. Wundt, psychology of memory, 6958
time, changes in memory of length of line, college students, 447
time referents, recall of personal events & accuracy of dating of public events, 7260
tone offsets vs onsets to right vs left ear, laterality of responses indicating superior echoic memory for right ear, college students, 12202
true-false ratings of series of statements & feedback & subsequent rating of same statements, memory of original knowledge state, college students, 9578
unguided learning instructions vs high- vs low-level orienting task, recognition memory for faces & random shapes, 55–59 yr old male amnesic alcoholic Korsakoff patients, 8107
unitary vs spatially separated multidimensional stimuli & name & training, recognition memory, kindergartners vs 2nd graders, 12485
use of contingency tables in analysis for memory research, reply to criticism of D. L. Hintzman, 4863
use of mental images in cognitive operations & as aid in learning & memory, 11911
use of semantic vs perceptual organization strategies, free recall & recognition tasks, 4 vs 6 vs 10 yr olds vs adult vs aged Ss, 10127
validity of WAIS subtests, diagnosis of temporal lobe vs generalized seizures, patients with mean age of 31.2 yrs, replication of study by W. Millberg et al, 9321
variation in luminance & duration & wavelength & interstimulus interval, demonstration of retinal basis for iconic memory, college students, 2700
varied target duration & luminance & interstimulus interval, accuracy in detection of gap between 2 rectangles, 2 Os, implications for iconic memory, 365
various dosages of morphine hydrochloride, memory facilitation & involvement of reinforcement mechanisms, male mice, 3193
verbal coding vs processing vs memory skills, reading comprehension skill, 3rd–8th graders, 10058
verbal vs nonverbal memory tasks, intrahemispheric EEG alpha coherence asymmetry & alpha band power, male right handed college students, 695
violent vs nonviolent incident & number of perpetrators, accuracy of subsequent eyewitness identification & testimony, college students, 8037
visual & auditory memory & associative language skills, hyperlexic 5.8–9.6 yr olds, 10435

Visual Sequential Memory subtest of Illinois Test of Psycholinguistic Abilities, applicability across ages & nationalities, 2–26 yr olds, New Zealand, 9346
visual spatial memory task performance, desert Aboriginal vs White Australian 10–16 yr olds, 7803
vividness of evidence influencing availability in memory & favorableness of defendant, judgments of defendant's guilt immediately & after 48 hrs, college students, 3656
voice identification, human listeners, literature review, 11861
word association vs rote memorization, immediate vs delayed recall, 3rd–10th graders, 7829
word category size, serial memorization, college students, 2777
word list organization imagery level, recall & recognition, male alcoholic Korsakoffs patients with mean age 61 yrs, 10493
word meaningfulness & imagery value, recall on semantic vs nonsemantic tasks, graduate students, 11937
working memory capacity, reading comprehension, college students, 2775
world knowledge & discriminability & truth value of beliefs, comprehension & memory of text, college students, 495
written descriptions of events & behaviors of varying distances in the past, memory & dispositional shift in attributions, autobiographies of psychologists & college students, 10395
Memory Decay
air ionization, decay of learned avoidance response, rats, 12291
discrepancy from expectation & retention interval & literal vs inferential comprehension type, learning & retention of prose material, 5th & 6th graders, 10029
readaptation vs memory decay, reduction of prism aftereffects, female college students, 2636
Memory Disorders [See Also Amnesia]
clinical test development, measurement of memory function deficits, 20–79 yr olds, 9402
Guild Memory Test normative data, criterion for memory impairment, Ss aged 60–69 vs 70 yrs & older, 11633
memory disorders & intellectual achievement & personality, aged, 12460
memory function impairment, hospitalized depressed patients, 12946
short term memory traces & forms of memory impairment & pathology, 1445
Memory for Designs Test
Bender Gestalt Test & Memory for Design Test, normal vs schizophrenic vs organic males, 7067
personality traits, edging on memory for designs test, detention center youths vs criminals vs college students vs psychiatric outpatients, 181
Memory Trace
latent visual learning, memory trace of visual pattern, crucians & goldfish, 9636
modality of cue vs distraction task, effectiveness of retrieval cues, college students, 11948
reduction-method model, 3-dimensional memory traces, college students, 2792
short term memory traces & forms of memory impairment & pathology, 1445
simulation of exemplar-based classification model for demonstrating differential forgetting of prototypes & old instances, 4987
S's selective learning process, durability & type of memory trace, 9589
Men [See Human Males]
Menarche
age at menarche, females of Gujar caste in Punjab, India, 1122
attitudes toward proposed cultural tradition to acknowledge 1st menstrual period, mothers & daughters, 1079
stress & stimulation, age at onset of menarche & body height vs weight, females, 12447
Menieres Disease
remote masking as method of diagnosing cochlear partition rigidity, 8–90 yr olds with Meniere's disease & acoustic neuromata & sensorineural lesions & presbyacusis, 6118
Meninges
body marking vs handling, variations in mast cell numbers in brain, preweanling rats, 12394
Meningitis
assessment & aural rehabilitation, post-meningitic hearing loss, 2.9–5.9 yr old males, 8353
Menopause
demographic & personality variables, subjectively perceived menopausal symptoms, menopausal & postmenopausal females, 8357
factor analysis of menopausal symptoms, 36–50 yr old females, 13110
psychiatric disturbance, 35–50 yr old menopausal women, 8154
Menstrual Cycle [See Also Menarche, Menstruation, Ovulation]
anxiety & personality traits, premenstrual symptoms, menstrual vs nonmenstrual & married vs single parous vs nulliparous 21–30 yr old females, Nigeria, 5268
blood pressure & heart rate & body temperature & nasal airflow & respiration rate correlates of olfactory sensitivity changes during menstrual cycle, 18–37 yr old females, 12248
circadian rhythms, locomotor activity & drinking behavior, reproductively senescent female rats in entrained & free running conditions vs young rats with normal estrous cycles, 746
effects of menstrual cycle on human performance, females in nontraditional occupations, bibliography, 9182
exposure to pheromone androstenol, responses to questionnaire regarding menstrual cycle & mood change, female college students, 12351
high vs low frequency of sporadic sexual activity, incidence of aberrant menstrual cycle length, female college students, 5251
menstrual cycle, acute psychiatric syndromes, females, 1397
menstrual cycle, normal & abnormal & sexual behavior, human females, 5252
menstrual cycle phase, violent crime, female criminals, 1510
normality of and stage in mentrual cycle, perceptual motor performance, female 19–38 yr olds, 5281
perceptions of short time intervals at various phases of menstrual cycle, nulliparous females, 3023
phase of menstrual cycle, RT & detection tasks & pain & affect, female college students with increased negative affect around menstruation time, 753
sex & length & phase of menstrual cycle, magnitude estimation of sucrose pleasantness & sweetness & feeding behavior, college students, 5-wk longitudinal studies, 754
sex role attributes & anxiety & severity of menstrual distress & oral contraceptive use, Catholic vs Protestant vs Jewish females, 1581
temporal lobe epilepsy as premenstrual behavioral syndrome, 44 yr old female, 10720
Menstrual Disorders [See Also Dysmenorrhea, Premenstrual Tension, Pseudocyesis]
anxiety & personality traits & sex role attitudes, females with vs without premenstrual symptoms, 10746
attitudes toward female roles, menstrual symptoms, 18–22 yr old female teacher education students, 3940
introversion-extraversion & menstrual distress, unmarried females of mean age 21 yrs, 13085
personality variables & menstrual symptoms, college students, 8301
sex role attributes & anxiety & severity of menstrual distress & oral contraceptive use, Catholic vs Protestant vs Jewish females, 1581
Menstruation [See Also Menarche]
development & replication of factor analytic structure of original population, Menstrual Attitude Questionnaire, college students & female adolescents, 9325
level of trait anxiety, state anxiety raised during menstruation, 14–25 yr old nursing students, Nigeria, 7520
personality variables & menstrual symptoms, college students, 8301
Mental Age
developmental age, auditory agnosia for environmental sounds & subsequent language disabilities, moderately & severely mentally retarded 3–6 yr olds, 8248
MA differences, picture classification in incidental learning task, educable mentally retarded children, 1539
MA vs CA, symbolic play level, Down's syndrome 1.7–4.4 yr olds, 10599
Mental Confusion [See Also Doubt]
cosyntropin, mental confusion, geriatric patients, 1866
living vs mixed vs nonliving stimuli, identification & investigation of animistic responses, 10 vs 14 yr olds, 10078
opportunity vs no opportunity for thought following confusing film, reduction of confusion without resort to dissimilar other, male college students, 12822
removal of milk & butter & yogurt from diet, symptoms of confusion & delusion & memory impairment & poor mental efficiency & fatigue, patients with thought disorders, 10757
tests, brief assessment of confusion & depression, institutionalized aged, 13408
Mental Deficiency [See Mental Retardation]
Mental Disorders [See Also Related Terms]
abortion vs refused abortion, mental health problems, mothers & children, 4131

acculturation stress & transitional role conflict & psychopathology, adolescent & young adult male Eskimos, Canada, 1143
accuracy of computerized information system data, 4691
activity & traditional psychotherapy, treatment of anhedonia, 6278
adoption studies, interaction of heredity & childhood environment factors in psychiatric disorders, 1361
aggression & antisocial behavior & criminal activity & psychiatric involvement, aggressive & disturbed 17–20 yr olds, 18-yr follow-up, 10550
analysis of the impact of community reactions on sheltered-care residents in different types of neighborhoods, 10993
assessment of attitudes toward crippled & mentally retarded & mentally ill, 3rd & 6th graders, implications for social labeling theory of mental disorders, 1099
attitudes toward mental illness & future of psychiatry, society & psychiatrists, 11067
behavioral changes following brain stem lesions, 58 yr old male & 21 yr old female patients, 13159
behavioral mechanism, abnormal behavior, 3755
brain damage & psychiatric disorders, neuropsychological diagnosis, 9–15 yr olds, 8120
brain damage & psychiatric disorders, 5–14 yr olds with overt neurological conditions, 12925
Butler Hospital Code, psychiatric problems & treatments, manual, 8708
case management approaches, treatment of chronic mental illness, 10773
case of W. Chidley hospitalized for lunacy 1912–1916 because of eccentric beliefs on cure to societal problems, speculation about treatment under present mental health laws, Australia, 6552
case reports of 2 men found "not guilty by reason of insanity", 1180
changes in classification of mental diseases over past 150 yrs, 12969
child abuse, attempted suicide, parents, 8215
child & adolescent mental health & assessment & treatment, bibliography, 1382
childhood separation from parent & emotional traumata, adolescent mental disorder, 14–19 yr olds, England, 5957
choroid plexus & system disease, mental illness, 6001
chronic homicidal & suicidal vs assaultive tendencies, violent psychiatric patients, 5972
classification of abnormal illness behaviors, 5996
classifications of family pathology including child- & parent- & marital-reactive & unresolved triangular & panpathological, therapeutic implications, 6015
classification & treatment, mentally handicapped, 6071
clinical psychiatric syndrome prevalence, mentally retarded 4–22 yr olds, followup study, 8112
clinical psychiatric vs societal reaction approach to mental disorders, 3824
clinical syndromes & dream phenomena & treatment approach, Holocaust survivors in Hasidic & ultra-orthodox Jewish communities, 1733
Collegiate Life Change Questionnaire as screening measure, college students in campus mental health service vs counseling center, 6778
community-based psychiatric epidemiology, 5986
competent offspring of psychiatrically ill parents, literature review, 1421
conceptual model identifying environmental sources of psychological dysfunction in women, implications for clinical behavior therapy, 10856
concomitant problems, school age stutterers, 10620
construction of scale, measurement of attribution of mental illness, mentally ill vs healthy persons, 4805
corticosteroid therapy, psychiatric side effects, literature review, 1858
cost & sensitivity of 3 methods of psychiatric case detection, village population, India, 4701
current research areas of Center for Rehabilitation Research & Training in Mental Health, 6515
demographic characteristics, psychiatric referrals of mentally handicapped, Scotland, 6080
demographic characteristics & medical & psychiatric disorders & treatment implications, 17–39 vs 40–54 yr old female offenders, 13431
depot fluphenazine decanoate, therapeutic & side effects, hospitalized mentally handicapped patients with behavior disorders, 6379
development & complications of self induced vomiting, 18–27 yr old females, 10667
development of multiple criterion screen for identification of psychiatric disorders, secondary students, 2190
diagnosis & prognosis, mental breakdown, 14–19 yr olds, England, 2-yr followup study, 6501
diagnosis & treatment, mental health problems, primary care physicians, 4119
diagnosis vs no diagnosis of mental disorder, nonpsychiatric disorders, Norway, 1358
diagnostic distribution & prognosis & outcome & mortality, psychogeriatric disorders, aged patients, US vs UK vs Canada, 4-yr followup, 1420
diagnostic problems, psychopathology masked by pseudodementia, medical-surgical patients, 12913
diagnostic significance of Qualitative score on Porteus Maze Tests, emotionally disturbed vs normal 10–18 yr olds, 8175
distinctions between physical & mental health & illness, 12935
divorce & marital discord, psychiatric impairment, 5656
dopamine autoreceptors, role in psychiatric disorders, review of clinical & preclinical research, 2996
drug therapy & ECT, auditory brain stem evoked potentials, psychiatric patients, 13194
early death of mother, symptoms of psychiatric disturbance, female psychiatric patients, 12945
early family transactions, personality development & psychopathological outcomes, children, 1076
EEG tracings & mental status & neurological testing, delirium occurrence, 6–17 yr old hospitalized patients with vs without acute CNS disorders, 3933
effect of dietary substances on mental function, clinical psychiatric implications, 5305
efficacy of antianxiety drugs, fear & stress, implications for appropriate usage with physical vs psychiatric disorders, 1836
environmental & occupational stress, neurotic & psychotic & other mental disorders, Norwegian islanders, 1426
epidemiology, psychological disorders, Indian immigrants, England, 12949
epidemiology of educational & psychiatric & physical disorders, Isle of Wight studies, 9–11 yr olds, 1964–74, 5923
ethnic group & sex & psychiatric diagnosis, Black vs White vs Hispanic psychiatric outpatients, 10455
evaluation centers & workshop settings, initial social adaptation, retarded & mentally ill & physically handicapped adults, 8728
evaluation of patients' decision-making process regarding informed consent to ECT, psychiatrists, 13184
extent & role of stressful life events, suicides, 10557
factors in primary prevention of psychiatric disorder, literature review, 10784
failure of traditional approaches & importance of social rehabilitation, treatment of mental illness, 13440
family situation, children with severely mentally ill parents, 3777
family size & birth order & intellectual competence & psychiatric status & height, 19 yr old males born between 1944–47, 12449
features of psychiatric form of Munchausen Syndrome, 10519
function of endorphins in brain & possible role in opiate addiction & mental disorders, review of research, 698
geriatric psychology & psychiatry, sociocultural aspects of mental illness, aged psychiatric patients, India, 1494
head injury & pretraumatic neuroticism, posttraumatic psychiatric disturbance, 16–55 yr olds, 3-mo followup, 12918
health care & needs & mental impairment, foster children up to age 15 yrs, 13398
history & reliability & validity of Iowa Structured Psychiatric Interview, psychiatric epidemiological screening, 9427
home hemodialysis training dropouts, couples with mean age of 46 yrs entering training for treatment of end-stage renal disease, 10979
incidence of psychiatric treatment for mental disorders in 1966, male vs female 15–19 yr olds, British Columbia, 1659
inherent defect in insanity defense, criminal responsibility, 7985
interrater reliability & procedural validity of Renard Diagnostic Interview, diagnosis of mental disorders, psychiatrists & lay interviewers, 1373
kinds & degrees of impairment & frequency in population, mentally retarded born between 1951–55, British city, 8267
leader personality traits & pathological structures, psychoanalytic interpretation of breakdown of group & organizational processes, 6867
length of residence, life experiences & minor psychiatric morbidity, urban population, Australia, 10464

limitations of Western concepts of mental illness treatment & proposed community alternative, Africa, 1636
literary & psychological visual models for perception of insane, 5952
material social circumstances & clinical symptoms & genetic risk, prediction of course of minor psychiatric disorders, psychiatric outpatients, 5964
menstrual cycle, acute psychiatric syndromes, females, 1397
mental disorders & attempted suicide & homosexual experiences & various problems, 6–16 yr olds with primary peptic ulcers, 1364
mental health & frequency & etiology of mental disorders, college students, 1422
mental hospital admissions rates & psychiatric symptoms, immigrants, England, 5937
mental illness & compulsory hospitalization of C. R. Hyndman, mental health law issues, Australia, 10476
mental illness & loneliness & helplessness, recommendations for more holistic approach to treatment, 8656
mentally ill as "scapegoats" & role of psychiatry in alleviating alienation of individual from society, 5998
mental symptoms & body weight change & previous history, 17–39 yr old females in first week after childbirth, 10263
method for estimation of lifetime prevalence of schizophrenia & other mental disorders, 5974
motion level changes, mental disorders, 10516
motivation to continue job in regimental environment, degree of disturbance, 19–44 yr old male psychiatric patients, 8147
need for least restrictive setting & role of family, nondangerous mentally ill patients, 1633
occurrence of psychiatric illness, adolescent & adult offspring of bipolar manic-depressives, 1498
open heart surgery, psychiatric disorders, 8117
overview of dependent measures for assessment of client's problems before & during & after therapy with clinical psychologist, 205
parental pressure to suppress memories of childhood events & parents' disconfirmation of children's observations, subsequent psychopathology, 1404
pencillamine, mental disorders associated with hepatolenticular degeneration, 8583
performance on psychometric & laboratory measures of cognitive processes, idiopathic dementia patients, 6021
phenomenology of mystical experiences, contexts of occurrence & impact on personality, 2337
phenothiazine-induced tardive dyskinesia, pseudodementia, 1852
poetry as therapeutic tool in individual & group & family therapy, troubled adolescents, 10776
political factors in explanations of insanity, 17th & 18th century, England, 10497
popular beliefs about concept of nervous breakdown, 18–71 yr olds, 12988
Present State Examination-CATEGO computer program, standardization of clinical diagnostic psychiatric judgments, 10536
prevalence of drug therapy, behavior problems & emotional disorders, institutionalized retarded children, 8600
prevalence of mental disorders, 70 yr old urban dwellers, Sweden, 5995
prevalence of psychoses & other mental disorders, Tonga, 5985
prevalence of schizophrenia & other mental disorders, Ireland, 6018
pre- vs post-accident behavior & psychiatric disorders, children with severe vs mild head vs orthopedic injuries, 10410
pre- vs post-operative disorders, elective surgery patients with mean age of 73 yrs, 12920
psychiatric aspects of Parkinson's disease & effect of drug treatment, literature review, 3758
psychiatric diagnosis, male vs female 15–60 yr old sex reassignment surgical patients, 6444
psychiatric disability, US Air Force fliers, 2243
psychiatric disorders, adopted children & adolescents, 3-yr longitudinal study, 5965
psychiatric disorder & social functioning, psychiatric patients, 10527
psychiatric disturbance, 35–50 yr old menopausal women, 8154
psychiatric disturbance & lowered intellectual functioning, relationship of psychosis & mental retardation during developmental period, 6–22 yr old psychiatric patients, 5922
psychiatric factors, etiology & control of diabetes mellitus, 12936

prevalence estimates, mental retardation, US, 8240
psychiatric disturbance & lowered intellectual functioning, relationship of psychosis & mental retardation during developmental period, 6–22 yr old psychiatric patients, 5922
rebuttal of professional criticism reply by D. F. Saccuzzo, 6089
season of birth, incidence or degree of mental retardation, mentally retarded, 10610
serum aluminum levels, 64–92 yr old patients with primary degenerative dementia vs mental retardation, 10523
sex chromosome aberrations, delayed development & learning disorders & mental retardation, male 18–45 yr old dyslexics & sex chromosome disordered children & adults, 5910
sex & urban vs rural residence & age & geographic locale, prevalence of mild mental retardation, Anglo vs Black vs Mexican American vs Papago Indian 1st–9th graders, 6087
special class model of service delivery & ecological concepts in mental retardation & learning disabilities & emotional disorders, current transformation of special education, literature review, 13645
time of neuropathological lesions, development of mental subnormality, 8230
unilateral vs bilateral hemispheric dysfunction, left-handedness in epilepsy & mental retardation, adults & children, Canada & Turkey & Netherlands & US, 6168
use of Rorschach test, diagnosis of mental deficiency & intellectual potential, literature review, 6084
Mental Retardation (Attit Toward)
acceptance of mildly mentally retarded by nonretarded peers, literature review, 8987
assessment of attitudes toward crippled & mentally retarded & mentally ill, 3rd & 6th graders, implications for social labeling theory of mental disorders, 1099
connotations of terms identifying children with subnormal intellectual capacity, attitudes toward special education classes, mildly mentally handicapped vs nonhandicapped 10–16 yr olds, 9051
educable mental retardation label &/vs psychometric information, teachers' attributions & instructional prescriptions, elementary school teachers, 8845
labeling, failure attribution & success expectations, college students, 8055
sex education & attitudes & policies toward sexuality of mentally retarded in facilities for retarded, 8682
strategies for improvement of public attitudes toward & community acceptance of mentally retarded persons, literature review, 8655
TV programs about mentally retarded individuals, attitudes of parents toward their mentally retarded children, 7710
type & level of handicap, attitudes toward mainstreaming retarded students, public school principals, 8980

use of leisure, mentally handicapped 13.3–19.7 yr olds, 6065
willingness to accept mentally retarded tenants, landlords, 13064
Mentally Retarded [See Also Educable Mentally Retarded, Home Reared Mentally Retarded, Institutionalized Mentally Retarded, Profoundly Mentally Retarded, Severely Mentally Retarded, Trainable Mentally Retarded]
age-appropriate leisure activity, community integration, mentally retarded adults, 8654
age differences, overselectivity on discrimination tasks, mentally retarded 11.2 vs 14.1 yr olds, 10590
age & sex, human figure drawing, mentally retarded students, 8233
ammonia in aversive therapy for self injurious behavior, difficulty in use & possible side effects, mentally retarded 13 yr old female & 8 yr old male, 8522
attention & learning & memory strategies, mentally retarded, implications for education, 8232
audiovisual speech teaching in adult training centers, 8607
auditory & visual feedback, contact & manipulative activity with play materials, normal 1–2 yr olds vs mentally retarded 3–16 yr olds functioning at 1–2 yr old stage, 1549
aversive training procedure, inappropriate eating behavior, retarded adolescent, 13305
basal skin conductance vs spontaneous autonomic activity, mentally retarded vs normal children & adolescents, 8228
behaviorally oriented parent training programs, parents of retarded children, literature review, 8509
behavioral procedures, treatment of chronic vomiting & rumination, normal & mentally retarded children & adolescents, literature review, 8492
behavioral teaching methods, attainment of laundry skills, mentally retarded 19–21 yr olds, 8491
behavioral training, ability to make emergency telephone calls, mentally retarded 26–52 yr olds, 8736
behavior modification training manual with monitoring & feedback, use of behavioral principles with mentally retarded clients, direct care staff, 13469
behavior therapy, treatment of self injury, male 13 yr old de Lange syndrome patient, 6362
biblical perspectives vs philosophies underlying habilitation of mentally retarded & developmentally disabled persons, 13444
CA-appropriate vs norm referenced curricula, severely handicapped adolescents & young adults, 8967
challenges facing educators of mentally retarded students, conversation with J. V. Greer & B. A. Hare, 11314
childrearing attitudes, prediction of success as teachers of own children, parents of mentally retarded 4.5–8.4 yr olds, 9050
choice of occupational interests, mentally retarded adolescents, 8273
classroom-based instruction in restauranting skills, skill acquisition & generalization & maintenance, mentally retarded 17–22 yr old males with emotional disorder vs epilepsy vs deafness, 8743
classroom training with vs without role playing, home accident prevention, 27–37 yr old mentally retarded, 4168
client characteristics & environmental factors, community adaptation after deinstitutionalization, mentally retarded, 8686
clinical psychiatric syndrome prevalence, mentally retarded 4–22 yr olds, followup study, 8112
cognitive & affective & demographic characteristics, relevance in distinguishing among exceptional categories, mentally retarded vs learning disabled vs emotionally disturbed 9–12 yr olds, 5908
communication patterns, moderately mentally retarded 4–20 yr olds with Trisomy 9p, 8260
community residential environment characteristics, performance of community living skills & satisfaction with environment, mentally retarded Ss released from state school, 6451
computer controlled training program, number conservation development, mentally retarded 9–14 yr olds, 9016
conceptual & scientific & moral bases for objection, deinstitutionalization of retarded persons, 8712
construction & reliability of Special Needs Reinforcement Survey, identification of effective reinforcers, behaviorally disturbed & learning disabled & autistic & mentally retarded &/or developmentally delayed children, 4838
construction & reliability & validity of Progressive Figure Drawing Test, assessment of perceptual motor development, mentally retarded psychotic adults, 187
contingent pre-instruction, acquisition & maintenance & generalization & social validation of vocational skills, 26 yr old female mentally retarded, 11040
contrasts cued by steady state vs spectral information, discrimination of minimally paired sounds, mentally retarded 3 yr olds vs normal 7 mo olds, 1537
correlation between IQ & domain scores of Adaptive Behavior Scale, 7–43 yr old mentally retarded, 7088
current trends & status of public residential facilities for mentally retarded, 8657
deficit in use of memory strategies, mentally retarded, 8255
deinstitutionalization, number & needs of clients seeking help at community based service system, formerly institutionalized mentally retarded clients, 8640
deinstitutionalization of mentally retarded adult member, crisis experience, families, 8716
delayed vs immediate reinforcement using token system, work behavior in classroom setting, mentally retarded 14 yr old male & 17 yr old female, 9024
delivery of services to mentally retarded, Denmark vs UK, 1922
demographic characteristics, psychiatric referrals of mentally handicapped, Scotland, 6080
developmental changes in problem solving process, probability learning, mentally retarded vs normal 4–7 & 10 yr olds, 1548
developmental level & level of play, mentally retarded preschoolers, 8259
development of word list of essential career/vocational words for mentally retarded students, vocational education professionals, 11309
diagnosis & haloperidol treatment of Gilles de la Tourette syndrome, 6–12 yr old mentally retarded, 8579
diagnostic & therapeutic & research functions, hospital art therapy program, mentally handicapped, 8702
differences in visual discrimination & perceptual skills in size & form & order, Mongoloid vs subnormal non-Mongoloid vs normal children, 6091
differential reinforcement in token economy program, decrease in inappropriate motor responses, mentally retarded & behaviorally disturbed 11 yr old male, 6346
direct instruction using Distar language & reading programs, attainment of literacy skills & cognitive growth, mentally retarded 8–14 yr olds, 5-yr longitudinal study, 8966
discussion & critique of behavior modification technique training, parents of mentally retarded children, 8542
DRO vs overcorrection vs lemon juice vs aromatic ammonia, suppression of self poking behavior, male deaf & blind & retarded 5 yr old, 6356
dynamic aspects & strategies for improvement of memory, implications for mentally handicapped, 6067
education about mentally retarded, medical students in pediatrics, 8795
effectiveness & durability of behavioral treatments for self injurious behavior, mentally retarded 6–13 yr olds, 3-yr followup, 10900
efficacy of behaviorally oriented training programs, parents of mentally retarded children, 8541
emotional & artistic significance, art, mentally retarded, 8241
empirical selection of lemon juice punisher, reduction of finger gnawing, 5 yr old mentally retarded male, 10876
errorless teaching method, matching to sample performance, 25 yr old mentally retarded mute male, 6082
evaluation, instructional program on completing job applications, 15–18 yr old minimally retarded juvenile delinquents, 6518
evaluation centers & workshop settings, initial social adaptation, retarded & mentally ill & physically handicapped adults, 8728
evaluation of transitional vocational services vs academic program, mentally retarded multiply handicapped high school students, 4397
experimental design, errorless discrimination learning, mentally retarded 8–16 yr olds, 85
experimental methods of achieving generalization of learned skills, mentally retarded, literature review, 8956
experimental tasks of similar structure hypothesis of cognitive development, normal vs mentally retarded &/vs organically impaired Ss, implications for training of mentally retarded, 8282
experimental vs trial & error techniques, teaching of instruction-following, mentally retarded 7–10 yr olds, 6069
features of culture transition shock, deinstitutionalized mentally retarded, 8681
food quantity, frequency & duration of ruminating, 19–24 yr old mentally retarded males, 4065
formal instruction in logical reasoning, mentally retarded students, 4381

form & frequency & breadth & constancy of color preferences on Color Pyramid Test, normal vs mentally handicapped Ss, 4824
formula for determining reimbursement of consultants & foster parents of retarded children, 6462
games as reinforcement, exercise behavior maintenance, 20–56 yr old mentally retarded, 4035
group TV news watching & discussion, current affairs awareness, predelinquent vs delinquent mentally retarded 13–17 yr old males, 6522
haloperidol & chlorpromazine & chlorprothixene & thioridazine, adverse reactions, 37 & 43 yr old disturbed retarded female phenylketonuria patients, 6416
iconic storage duration & encoding speed, performance deficits, mentally retarded, criticism of study by D. P. Saccuzzo et al, 1547
iconic storage duration & encoding speed, performance deficits, mentally retarded, reply to K. E. Stanovich & D. G. Purcell's criticism, 1546
identification of prerequisite skills, training & generalization & followup in measurement skills, mentally retarded students, 9046
Information subtest scores of Revised WISC & Peabody Individual Achievement Test, use of Peabody Individual Achievement Test as screening device, 7–11 yr olds, 4414
institutional size, resident- vs institution-oriented care & personal adjustment, mentally retarded, 8612
instructional program in calculator use for supermarket shopping, mentally retarded 13–17 yr olds, 11319
in vivo gradual approximations approach to desensitization, toilet phobia, mentally retarded autistic 5 yr old male, 8567
issues in applied research with mentally retarded, 6984
kinds & degrees of impairment & frequency in population, mentally retarded born between 1951–55, British city, 8267
lack of evidence for therapeutic effect, patterning treatment for brain damaged & retarded children, 10795
lithium, aggressive behavior, 17–63 yr old mentally retarded patients, 8574
management of aggressive & antisocial behavior, mentally retarded, literature review, 1657
matching of careprovider preferences & client characteristics, community placement success, developmentally delayed clients, 8660
measurement of discrimination learning with AVC scale including motor & visual & auditory discrimination skills, mentally retarded 3–36 yr olds vs normal 13–35 yr olds, 3872
memory scanning of shapes vs colors vs shape-color compounds, RT, retarded vs nonretarded 20–30 yr olds, 3878
mentally retarded as defendants in legal system & as incarcerated offenders, 6085
model for psychological consultation, retarded children in rural child development centers, 6457
model of interpersonal behavior, facilitation of research on teaching of interpersonal skills, mentally retarded, 8960
multidimensionality of Adaptive Behavior Scales, 19–75 yr old mentally retarded patients, 11661
negative feedback, use of effective problem solving strategies, Black vs White children identified as retarded vs nonretarded, 8283
neuroleptic drugs, induction of tardive dyskinesia & other movement disorders, handicapped children & youth, 8582
nonlinguistic symbolic & conceptual cognitive task performance, retarded vs nonretarded vs language impaired children, 8243
Non-Speech Language Initiation Program, number & color matching & sentence imitation & command-following & receptive & expressive vocabulary & spontaneous speech, nonverbal children living in institutions vs community, 8608
onset & characteristics & effect of haloperidol treatment, Gilles de la Tourette syndrome, mildly retarded female 16 yr old, 6388
operant techniques, analysis & modification of self injurious behavior, mentally retarded, literature review, 8517
orally administered true-false vs multiple choice test items, assessment of achievement, retarded adolescents, 6764
parental involvement in individualized educational programs, retarded children, 11303
parent teaching, language learning, 3.3–5.8 yr old mentally handicapped, 8406
parent training programs, need for special guidelines for investigation & reporting & evaluation, parents of retarded children, 8470
parent vs social worker perception, adjustment to child's development, parents of mentally retarded children, 8285
perceived problems & training needs, provision of counseling services for mentally retarded students, school counselors, 9108
performance on spatial vs temporal components of continuous tracking & drawing tasks, Down's syndrome 7.2–14.3 yr olds vs mentally retarded 7.3–14.5 yr olds, 10598
personality & attitude factors, successful employment & work adjustment, mentally retarded adults in halfway house, 13439
personality traits, academically handicapped vs gifted students, 4389
play characteristics, mentally retarded children, therapeutic implications, literature review, 8250
position cues, visual discrimination, Down's syndrome vs other mentally retarded 6.8–15.3 yr olds, 10615
posture training as part of normalization, mentally retarded, 8741
predicted charges, provision of residential services for mentally retarded, Australia, 13405
prediction of WAIS Full Scale IQs from Quick Test scores, mentally retarded psychiatric patients, 9394
preference for symmetrical vs nonsymmetrical figures, Down's syndrome 6.4–15.8 yr olds vs non-Down's syndrome subnormal 7.8–16.4 yr olds vs normal 3.9–4.5 yr olds, 8274
prevalence in county of Cornwall, mental handicaps, birth to 19 yrs old, England, 10603
procedure for estimation of Stanford-Binet IQs, mentally retarded & gifted Ss, 2533
protective head gear, head hitting & other self injurious behavior, 17 yr old mentally retarded male, 6987
psychodiagnostic screening & care, retarded preschoolers at child care center, 4175
quality of relationship with adoptive family, mentally retarded children adopted 1940–76, 8237
reinforcement, attending to task & task completion speed, mentally retarded 22–37 yr old males in vocational training program, 8738
relaxation training, potential use with mentally retarded, 8513
Revised WISC IQ subtest scores, learning disabled & mentally retarded 8–14 yr olds, 2 yr followup, 237
Revised WISC subtest profiles, learning disabled & mentally retarded 7–8 yr olds, 12921
Rockland Assessments of Functional Behavior, assessment of skilled functioning, mentally retarded, 7003
role & responsibilities of human rights committees, monitoring conditions in residential facilities for mentally disabled, 8637
Rorschach technique, evaluation of mental resources, mentally retarded vs intellectually repressed 7–16 yr olds, 6495
school based remedial parent training & educational camp for children, knowledge & teaching skills, parents of mentally retarded children, 11270
school & family problems & intellectual level, mentally retarded 4–14 yr olds, 1550
season of birth, incidence or degree of mental retardation, mentally retarded, 10610
secondary parental problems caused by children's primary handicapping condition, parentalplegia, parents of mentally retarded & cerebral palsied children, suggestions for remediation, 10833
seizure histories, mentally retarded vs borderline 22 yr olds, retrospective study, 8113
setting & demographic & partner characteristics, behavior categories for observation, mentally disabled adults, implications for communal facility setting, 8707
sex & size & score of self drawing & IQ, self concept, mentally retarded 11–22 yr olds, 1544
sex & socioeconomic status & CA & IQ, Lock Box performance, mentally retarded vs normal 2–7 yr olds, 6072
sexual awareness & desire for sex education, spastic & mentally retarded further education students, 4379
short-term institutionalization, 9 yr old severely & profoundly mentally retarded, followup study, 8690
size & number of disability groups served & type of experience provided & resident characteristics, environmental normalization in residential facilities for mentally retarded, 8639
skin conductance response recovery time & onset & offset angles, mentally retarded vs normal children & adolescents, 8229
social & demographic characteristics, mentally retarded persons referred to institutional vs community care services, 8699
social-interpersonal skills rated as relevant to job tenure for mentally retarded adults, sheltered workshop job placement personnel, 8725
social perspective taking & verbal justifications, mentally retarded children, 1-yr followup, 6062
social skills training, basic interaction skills, 28–66 yr old mentally retarded, 6337

social skills training followed by "buddy system" monitoring of another patient's behavior, appropriate social behavior, 33–38 yr old female retarded-psychotic patients, 6350
social validation, operationalization & evaluation of community placement for mentally retarded, 10984
social & vocational survival skills, mentally retarded, 8739
special vs regular class placement, meta-analysis of effect size, students with below average IQ vs behavior disorders vs emotional disturbances vs learning disabilities, 6721
strategies for improvement of public attitudes toward & community acceptance of mentally retarded persons, literature review, 8655
strategy for research on use of nonvocal communication systems, special reference to severely mentally retarded children, UK, 6198
subtest scatter on Revised WISC & higher intellectual potential, 8–17 yr olds in special classes for mentally retarded, 11388
supernumerary X-chromosome, mental & behavioral disturbances, mentally retarded 17.5–26 yr olds, 10-yr followup, 6070
target speed & length of viewing time, coincidence anticipation in velocity judgment, normal vs mentally retarded 8–13 yr olds, 1551
teacher use of oral vs manual communication systems, language training, retarded children with delayed language development, 11291
theoretical speculation concerning specific abilities lacking in social interaction & communication & imagination impairment syndrome, autistic & mentally retarded children, outgrowth of study by L. Wing & J. Gould, 5929
thioridazine vs SCH-12679, aggressive behavior, mentally retarded patients, 1843
time based differential reinforcement schedules, disruptive & aggressive behaviors, mentally retarded 6 & 8 & 13 yr olds in specialized treatment settings, 8535
token reinforcement program, grooming behavior change, mentally retarded adults, implications for community based programs for deinstitutionalized populations, 13277
traditional institutional design vs normalized ward, activity & social relations & self help skills, female mentally retarded patients, 6514
transitive inference vs equivalence vs identity conservation, relative ease of learning sequence, mentally retarded 6–14 yr olds, 6060
TV programs about mentally retarded individuals, attitudes of parents toward their mentally retarded children, 7710
types of validity & reliability, construction of adaptive behavior scales, mentally retarded, 7027
use and adaptation of American Sign Language in classroom & for communication between deaf children & hearing parents & with individuals with handicaps other than deafness, 6203
use & effectiveness in behavior therapy & clinical treatment, relaxation training, developmentally disabled & mentally retarded, 8534
use of leisure, mentally handicapped 13.3–19.7 yr olds, 6065
use of service for mentally retarded, Black families with mentally retarded family member, 13390
verbal command vs gestural directions vs illuminated target appearance, eye &/vs head movements, mentally retarded vs normal children, 6061
videotapes of own on-task & off-task behavior, modification of habitual tantrums, 7 yr old mentally retarded female, 4051
views toward care of mentally retarded, UK, 8624
visual stimulus novelty, habituation & changes in respiratory period & peripheral & cephalic pulse amplitude, autistic vs mentally retarded 4–17 yr olds, 8102
visual vs proprioceptive or no knowledge of results, performance on visual target localization task, mentally retarded 12–17 yr olds vs normal 4–6 yr olds, 13057
WAIS & Slosson Intelligence Test scores, mentally retarded adults, 3883
5-hydroxytryptophan & carbidopa & imipramine, self-mutilative behavior, 5–14 yr olds with Lesch-Nyhan syndrome, 8596

Meprobamate
pentobarbital & chloral hydrate & meprobamate & chlordiazepoxide, effectiveness of auditory vs electrical CS in eliciting CR, cats, implications for drug-stimulus hypothesis & state-dependent learning, 9836

Mercury (Metal)
mercury switches as aids in behavior modification, 2383
methylmercuric chloride poisoning, eating & drinking changes & sensorimotor symptoms, male pigtailed macaques, 3179

Mercury Poisoning
methylmercuric chloride poisoning, eating & drinking changes & sensorimotor symptoms, male pigtailed macaques, 3179

Mercy Killing [See Euthanasia]

Mescaline
alpha-methylparatyrosine pretreatment, mescaline-induced increase in avoidance rate, rats, 5375
LSD & mescaline & 5-methoxy-N,N-dimethyltryptamine, dose dependent rotational behavior, female rats, 5368

Mesencephalon [See Also Inferior Colliculus, Superior Colliculus]
amphetamine & phenylpropanolamine & high fat vs pellet diet, food intake, female rats with ventromedial hypothalamus vs dorsal tegmental lesions, 12315
apomorphine, contralateral turning, male rats, 5387
bilateral lesions of pretectum & superior colliculus, learning of pattern vs object discrimination, male rhesus monkeys, 7596
bilateral superior colliculus/pretectum lesions, learning dark-light discriminations & distractibility, cats, 12343
characteristics of acoustic input, neuron response in red nucleus, cats, 5217
dendritic release of dopamine in substantia nigra, literature review, 12198
dextroamphetamine vs levoamphetamine, firing rates of dorsal substantia nigra vs ventral tegmental area dopamine neurons, rats, 9921
dorsal vs ventral midbrain tegmentum lesions & diet & amphetamine vs mazindol, food & water intake & weight gain, male rats, 12292
dynamic rotational vestibular &/vs optokinetic stimulation, convergence of vestibularly & visually evoked signals in mesencephalon, frogs, 12239
electrical jamming stimulation, phase-changing alteration of electric organ discharge & role of mesencephalic neurons in object localization, electric fish, 2965
electrical stimulation of central gray substance vs other neural structures, ultrasonic vocalization, rats, 5329
electrical stimulation of substantia nigra & electrolytic vs 6-hydroxydopamine lateral hypothalamus lesions, rotation, female rats, 12308
electrical stimulation of ventrolateral midbrain tegmentum, attack behavior, cats, 9877
electrode placement in mesencephalic reticular formation, development of latent inhibition, rats, 5324
intranigral injections of GABA & muscimol following pretreatment with bicuculline vs haloperidol vs atropine vs strychnine, circling behavior & role of nigrostriatal dopaminergic system, female rats, 896
intranigral 6-hydroxydopamine & denervation, dopamine receptors & adenosine cyclic monophosphate & dopamine content in caudate nucleus, male rats, 5315
iprindole & amfonelic acid, modulation of amphetamine-induced long lasting striatal dopamine depletion, male rats, 883
labeling fibers with horseradish peroxidase, retinotopic analysis of fiber pathways in optic tract & tectum, adult newt, 9804
locus coeruleus noxious & innocuous cutaneous electrical stimulation, lumbar spinal dorsal horn response, cats, 9871
long term dextroamphetamine, substantia nigra self stimulation response sensitization & depression & role of dopamine neurotransmission, rats, implications for animal model of amphetamine psychosis, 797
mesencephalic lesions, conditioned inhibition of nictitating membrane response, rabbits, 7593
naloxone administration into periaqueductal gray vs icv vs systemically, behavioral syndromes, male rats, 9940
nigral transplants, striatal dopaminergic neurotransmission & spontaneous motor behavior & sensorimotor orientation & sensory attention, female rats with bilateral nigrostriatal dopamine pathway lesions, 12329
norepinephrine depletion produced by locus coeruleus lesions, cerebral oxidative metabolism, male rats, 9892
picrotoxin injections into ventral tegmentum followed by GABA injections into globus pallidus, locomotor activity, male rats, 910
radio frequency lesions & intracranial hormone implants in nucleus intercollicularis region of midbrain, nest coos in response to male courtship & follicular growth, female ring doves, 9832
removal of right eye & crushing of optic nerve of left eye, ability of ipsilateral optic tectum to mediate vision when containing only spontaneous ipsilateral optic tectal projection, goldfish, 854
repeated ECS & antidepressants, dopamine autoreceptor subsensitivity, male rats, 7555
retinal projection of displaced & giant ganglion cells to accessory optic nuclei, turtles, 9791

self stimulation vs stimulation escape, evidence for mediation by same vs different medial forebrain bundle neurons, male rats, 7584
somatic sensory stimulation & electrical stimulation of peripheral sensory nerves, neuronal activity of substantia nigra, male rats, 3094
stimulation of various sites in midbrain tegmentum, evoked synaptically-mediated excitation in pontine reticular formation neurons & evidence of excitatory projections, rats, 713
substantia nigra lesions, abnormal behavior & caudate modulation in centromedian-parafascicular complex, cats, 12330
substantia nigra transplantation to neostriatum, nigrostriatal dopamine pathway destruction, female rats, 5298
systemic injections of dextroamphetamine & injections of apomorphine into substantia nigra, nigrostriatal impulse flow, male rats, 12362
unilateral 6-hydroxydopamine injections into substantia nigra vs caudate nucleus, paw preference, male rats, 7692
ventral tegmental lesions & disproportionate amounts of dietary amino acids, hyperphagia & food intake, male rats, 5342
Messages
coding & measurement of message control intensity, 4819
communication media & subsidiary information & stimulus features, message redundancy, Ss, 12423
communicator credibility & S ego involvement, self esteem after exposure to counterattitudinal message, college students, replication of authors' initial investigation, implications for psychotherapy, 3633
computer model for simulated message handling in field exercises, US Army personnel, 6884
direct vs indirect & positive vs negative communications & expressions given, actual vs perceived peer appraisal, male vs female 4th–8th graders, 1060
informational adequacy of messages in conversation, request for message clarification & selection of referents, learning disabled 1st–8th graders in listener role, 6068
legibility distance & comprehension & preference & glance legibility of symbolic public information signs, 2274
length & informativeness of model messages, communication accuracy, kindergartners, 10125
level of distraction & pro- vs counterattitudinal communication, perceived extremity of communication & pro- vs counterargumentation, college students, 1273
perceived consequences & communicator likeability & topic & position advocated & number of arguments, heuristic vs systematic information processing in persuasion, college students, 8035
premessage expectancy & information on communicator's background, attribution & opinion change & comprehension of communicator's message, female college students, 12832
problems & recommended procedures, selective listening to conversation of others as information gathering technique, 7726
process of transmission of information via mass media, 12422
public information strategies using TV & magazines, message communication, aged, 3228
receiver's understanding of linguistic contexts, understanding semantic levels of message transmissions, literature review, 3252
relationship between speaker's expectations & message context & requirements of listener, accuracy of interpersonal verbal communication, college students, 8012
S anxiety & rumor believability & transmission from peer vs authority figure, rumor repetition, college students, 5716
self perception & congruence & message concordance vs discrepancy with self evaluation, readiness to undertake growth tasks, college students, 12870
sentence structure & semantically essential vs nonessential adjectives & adverbs, reproduction of adjective & adverb in response to message, college students, 3243
sex differences, spontaneous vs enacted encoding & decoding of nonverbal emotional messages, college students, 1262
simulation model construction, superior & subordinate interactions, 10343
S locus of control & level of fear appeal in questionnaire, attitudes & intentions, community residents, 8057
stimulus complexity & message ambiguity, comprehension monitoring, preschoolers vs 4th graders, 7816
stochastic model of mass & interactively mediated diffusion of information, size N population, 262
suicide notes, motivation, 18–74 yr olds, 13033
tactical intelligence indications, intelligence analysis, military intelligence specialists, replication of study by D. Jaarsma, 11444
technical requirements & semantic/symbolic designation & message effectiveness, man machine interface in electrical signal communication of graphic data, 2281
theories on persuasive messages, attitude change, female college students, 12801
time & ease of learning 2-letter & number vs 4-letter message reference code, army officers & enlisted personnel, 11437
Metabolism [See Also Anabolism, Basal Metabolism, Carbohydrate Metabolism, Lipid Metabolism, Metabolites, Protein Metabolism]
amitriptyline, plasma tricyclic drug levels, 19–67 yr old depressed patients, 4102
behavioral approach to education & self care & metabolic control, diabetes mellitis patients, 1830
blood tryptophan metabolism, chronic schizophrenics, 12961
decapitation &/vs immobilization stress, adaptation of peripheral neuroendocrine mechanisms of sympatho-adrenal system, Wistar-Kyoto vs Brown-Norway rat strains, 9845
electrical stimulation of ventromedial hypothalamus, increased brown adipose tissue thermogenesis, rats, implications for hypothalamus regulation of energy balance, 12324
fluctuations of catecholamine metabolism & adrenocortical hormones during recovery & drug therapy, patients with endogenous vs neurotic depression, 1875
grouping vs isolation, feeding & food conversion & energy expenditure, domestic chicks, 5193
imipramine vs maprotiline, pharmacokinetics & side effects, 75–83 yr old females, 8585
imipramine vs thyrotropin releasing hormone, metabolism vs uptake of brain catecholamines, male rats, 12395
iprindole & amfonelic acid, modulation of amphetamine-induced long lasting striatal dopamine depletion, male rats, 883
limited access to water, increased hypothalamic norepinephrine metabolism, male rats, implications for control of thirst & water regulation, 12295
long term chlorpromazine vs fluphenazine therapy, antipyrine elimination kinetics, 17–49 yr old psychotics, 4091
long-term lithium therapy, glomerular filtration rate & calcium metabolism, 25–65 yr olds, 13356
MAO B inhibitor levodeprenyl, methylhistamine metabolism, implications for treatment of Parkinson's disease, 5363
metabolism chamber for measurement of oxygen consumption, laboratory rat pups, 105
ovariectomy & food intake, body weight, female rats, 9896
phosphate transport & adenosine triphosphate metabolism in red cells, 22–62 yr olds with bipolar & unipolar & neurotic depression, 10529
plasma levels & in vivo methylation of tricyclic antidepressants, depressive 30 yr old female who suffered fatal nortriptyline overdose, 8602
promethazine, blockade of histamine- & impromidine-induced cyclic adenosine monophosphate activity in H sub 2-receptors in intact guinea pig hippocampal cells vs cell-free preparations, 7628
propranolol, therapeutic & metabolic effects, chronic schizophrenics, 8590
psychodynamics & latent homoerotic characteristics, male patients with gout, 13117
psychomotor stimulants, abnormal behavior, 5362
spontaneous vs post-food restriction body weight gain, feeding efficiency, dormice, 802
tranylcypromine isomers, norepinephrine-H^3 metabolism in rat brain , 3202
Metabolism Disorders [See Also Cushings Syndrome, Diabetes, Diabetes Insipidus, Diabetes Mellitus, Phenylketonuria]
adult metachromatic leucodystrophy misdiagnosed as schizophrenia, female patient, 3891
behavioral manifestations of heritable metabolism disorder called Lesch-Nyhan syndrome, treatment possibilities including behavior modification & pharmacological methods, 6207
chronic excessive glutethimide intake, severe hypocalcemia, 37 yr old female, 13137
EEG tracings & mental status & neurological testing, delirium occurrence, 6–17 yr old hospitalized patients with vs without acute CNS disorders, 3933
icv 5-thioglucose, increased feeding & hyperglycemia, male rats, 7693
metabolic & nutritional aspects, minimal brain dysfunction & attention deficits & learning & language disorders & hyperactivity, 8121
psychosocial factors & psychosomatic aspects of gout, 3926

5-hydroxytryptophan & carbidopa & imipramine, self-mutilative behavior, 5–14 yr olds with Lesch-Nyhan syndrome, 8596
Metabolites [See Also Homovanillic Acid, Serotonin Metabolites]
cerebrospinal fluid concentration of monoamine metabolites, psychiatric patients who had attempted suicide, 13055
intraventricular self administration of acetaldehyde as reinforcement in operant voluntary consumption of ethanol, male rats, 868
metabolites & derivative of delta-9-tetrahydrocannabinol, generalization of delta-9-tetrahydrocannabinol discrimination, pigeons & rats, 12373
neutral stimuli paired with footshock, 3-methoxy-4-hydroxyphenylglycol sulfate concentrations in response to neutral stimuli only, male rats, 2841
plasma levels of phenelzine & acetylated metabolite, antidepressant response, 3196
single vs repetitive oral tryptophan administration, blood tryptophan & serotonin & kynurenine concentrations, male 20–50 yr olds, 12416
symptoms following cerebellar tumor surgery as evidence for role of circulatory insufficiency to temporoparieto-occipital region during space flight motion sickness induced visual hallucinations, 6170
Metallic Elements [See Also Calcium, Copper, Iron, Lithium, Magnesium, Mercury (Metal), Potassium, Potassium Ions, Sodium, Sodium Ions]
dietary zinc &/vs manganese, copper levels, schizophrenics & arthritics & psoriasis patients, 10753
serum aluminum levels, 64–92 yr old patients with primary degenerative dementia vs mental retardation, 10523
vitamin & zinc levels, Down's syndrome 29–55 yr olds with vs without hyperkeratosis, 10431
Metaphysics
construction as ego-metaphysics, reply to R. L. Fetz, 6961
derivation of operant factor structure for subjectivity using Isaac Newton's Fifth Rule & Q sort, application to educational psychology theory & practice, 6626
Methadone
fetal exposure to methadone & heroin, sleep as measurement of nervous system disorders, neonates, 3158
prenatal vs postnatal methadone, discrimination learning, adult rats, 3223
propoxyphene napsylate vs methadone hydrochloride, effectiveness as maintenance treatment, 19–55 yr old narcotic addicts, 11055
Methadone Maintenance
closing of drug clinic, readdiction to heroin & rise in arrest vs incarceration rates, methadone clients, 2-yr followup, 11051
efficacy of monitoring saliva drug levels, depot neuroleptic clinic vs methadone program outpatients, humanitarian & clinical & economic implications, 8575
length of time spent in methadone maintenance vs therapeutic community vs outpatient drug-free treatment, follow-up outcomes, drug abusers under 18 vs over 30 yrs old, 11054
morphine free urine contingent reinforcement, drug use reduction, methadone maintenance clients, 13457
pretreatment source of income, response to methadone maintenance, narcotic-dependent males, 6-month followup, 13456
stressful life events, return to heroin use, methadone maintenance patients, 4195
Methamphetamine
methamphetamine, time discrimination performance, male rats, 12387
test location novelty & E familiarity, modification of nonspecific motor activity by methamphetamine, female rats, 893
Methedrine [See Methamphetamine]
Methionine
intraspinal morphine & methionine-enkephalin & intravenous naltrexone, C-fiber & polysynaptic reflexes, decerebrate low spinal cats, 3139
methionine & homocysteine, induction of convulsions, mice, 5371
Methodology [See Also Related Terms]
action research in US Department of Labor programs with counseling & guidance components, 2217
adaptation of Bradley-Terry-Luce choice model, multiattribute decision making, graduate business school students, 4857
additional methodology detail on theory testing, reply to criticism of E. E. Izard, 11543
administration & validity & reliability & training, diagnostic interview, borderline patients, 8151
adopted-away offspring of schizophrenic parents & evidence for genetic etiology of schizophrenia, critique of Danish-American studies by D. Rosenthal et al, 10496
advantages of 6 research designs for study of developmental change in individuals & families, 4665
analysis of concomitant time series as research methodology, 2350
analysis of data categories & research issues in laboratory vs field setting, industrial & organizational psychology, 2208
analytical & synthetical diagnostic methods, prediction of performance & social behavior in sports, 9152
applicability of method of descending limits, audiometric test potential of eyeblink reflex modulation, male college students, 11599
applicability of Personal Construct Theory & repertory grid technique, cross cultural research, 11594
application of Stiles-Crawford function data, determination of foveal fixation, 33 yr old female, 38
appropriateness of pretest- vs posttest-only designs, field experiment, college students, 11596
auditory processing & speech discrimination & hearing problems, aged, literature review, 9524
averaged electroencephalic response technique, study of speech & language processing, literature review, 9796
Bayesian approach, confirmatory factor analysis, 9449
Bayesian least squares technique, estimation of stimulus-response curves, 9438
benefits of artificiality in social psychology research design, 4698
biphasic membrane penetration model for action of gymnemic acids & ziziphins on taste receptor cells, methodological & experimental design implications, 742
blood phencyclidine detection, psychiatric hospital patients, 6485
cable technique for 24 hr EEG & EMG & brain temperature recording, rats, 83
carotid dP/dt as index of sympathetic myocardial effects, 5257
carotid dP/dt as index of sympathetic myocardial effects, reply to criticism by R. Heslegrave & J. Furedy, 5289
causes & consequences of childbearing, adolescent females, literature review, 1970–80, 10140
caveats concerning use of visual masks, 4687
change from use of nonalterable to alterable variables, educational research, 9069
classical conditioning vs concept formation experimental paradigms, generalization of responses to phonemes, college students, 7722
classification & description of ultrasounds emitted during various phases of copulation, male & female gerbils, 642
classification methodology, sex role affiliations, male vs female college students vs hospitalized alcoholic males vs members of Veterans of Foreign Wars, 9285
client's perception of counselor characteristics, counselor power, review of research & methodologies, 1934
coding & measurement of message control intensity, 4819
cognitive domain modeling vs estimation of degree of implementation, measurement of educational treatment, literature review, 9277
collaborative action research, alternative approach to school counseling research, 2194
comparative advertising with copy claim variation, increased advertising effectiveness, 4613
comparison of behaviorally anchored rating scales vs other rating scales, literature review, 4764
computational methods, greatest lower bound to reliability vs constrained minimum trace in factor analysis, 9460
concept & methodology of cultural psychiatry, 4230
conceptual & methodological issues in contemporary developmental psychology, 12463
conflict, facilitation of GSR latency reduction as measured by probe stimulus technique, college students, 780
construct validity assessment, Examination for Professional Practice of Psychology, 6568
construct validity issues & marketing practices, literature review, 4608
consumer surveys & buyer's judgments of consumers' intentions, 4611
cooperative vs competitive vs individualistic social orientation as measured by behavioral & sociometric methods, 4th–6th graders, 6977
correctness of results using mathematical model when one assumption of model is violated, 7138

cost & sensitivity of 3 methods of psychiatric case detection, village population, India, 4701
counseling analog setting, causal attributions of counselor behavior & characteristics ratings, female college students, 6982
criticism of recent attempts at devising equity formula, 4845
criticism of use of everyday situations & familiar test stimuli to achieve ecological validity in cognitive development research, 4769
critique of computational method, job satisfaction measures, blue collar workers, 9435
critique of J. G. Anderson's identification & estimation of nonrecursive models, implications for educational research, 2606
cross cultural differences, data collection on psychopathology through interviews, 2353
cross lagged correlational analysis, perceptions of role ambiguity & conflict & organizational effectiveness & job satisfaction & alienation & teamwork, management trainees in 3 simulated organizations, 11412
cross validation vs jackknife procedure, appropriateness for discriminative analysis in psychophysiology, 6–18 yr olds, 7118
deficient information regarding direction of perpendicular from viewing location to surface, underestimation of slant angle, methodological implications & model development, 381
definition & etiology & treatment of school phobia & followups & methodology, literature review, 5954
definition & methodology for study & ethical concerns in experimentation, aggression, 5746
demographic characteristics, refusal to participate in interviews, 2354
determination of intelligibility/comprehensibility thresholds of compressed speech, 4683
developmental structuralist approach, classification of adaptive & pathological personality organizations, infants & children, 12585
dextroamphetamine vs apomorphine, behavior, male rats, observational method for measurement & analysis, 5370
differing measurement scales, electrodermal recovery times & other measures, 4736
discussion of multiaxial diagnostic system, schizophrenia, 8176
edited translation & criticism of methodology & results, 1st experimental psychology doctoral thesis awarded to M. Friedrich in 1880, 6917
educational aspects & value in social casework, process recording, 4263
EEG & EMG spectral analysis & Hjorth method, sleep-wakefulness cycle, male rats, implications for physiological & pharmacological investigations, 58
effectiveness of professional vs paraprofessional helpers, criticism of review by J. A. Durlak, 2035
effectiveness & validity of statistical consensus information, 253
efficacy of monitoring saliva drug levels, depot neuroleptic clinic vs methadone program outpatients, humanitarian & clinical & economic implications, 8575
efficacy of Prisoner's Dilemma Game for study of interpersonal conflict, 1235
entoptic observation method, measurement of retinal leukocyte flow rate & ophthalmologic diagnostic utility, 6991
evaluation of cognitive behavioral procedures from theoretical & methodological points of view, 13307
evaluation of mental retardation research, implications for longitudinal approach, 8234
evaluation of research on lecture notetaking, case study method, literature review, 9275
evaluation of statistical methodology, analysis of contingency table data on animal ethology, 9263
evolution of research methodology, studies on social perception, 57
experiential & anecdotal material vs replications in psi research, 11538
experimental design in social psychological experiments in which Ss receive stimuli only once, 4705
experimental procedure, measurement of individual preference in choice of grocery store, 4822
experimenter variables, quality of parapsychological research, 4628
factor analysis of verbal behavior, implications for methodology & theory, 4735
family theories, 1970's, 10241
fear of success, theory & methodology & research, 10393
feedback function of response rate determining reinforcement rate in VI reinforcement, 4722
field based vs physical science/laboratory model for guidance & counseling research, programs in deliberate psychological education, 2199
followup letter only vs questionnaire & letter followups, response rate to mail survey, business respondents, 9296
framework for study, Muslim "millat" character, 2381
friction coefficient & driver behavior & studded vs unstudded tires, risk of skidding, drivers, 13786
functional measurement vs decision tree methodologies, rule assessment, children, 3397
genetics & family research problems in prevalence of neurosis, 5936
group vs private & on-site vs telephone program evaluation methodology, drug abuse agencies, 2045
guidelines & strategies & issues, research in community mental health agencies, 1909
guidelines for research with ethnic minority communities, Australia, 4673
guidelines for systematic research & evaluation, counseling in school setting, 2182
haloperidol & apomorphine, spontaneous activity & stereotypy responses during & after haloperidol withdrawal, rats, implications for methodology in neuroleptic treatment studies, 9971
"hard-science" &/vs "anthropological" approach to evaluation research, 11582
hippocampus, memory, rats, 3124
holographic assessment of microwave hearing, criticism of A. H. Frey & E. Coren, 2348
identification & evaluation, self initiated method for self control of poor study behavior, successful vs unsuccessful college students, 6974
identification system for members of social groups, monkeys, 2398
imitation & reinforcement procedures, language remediation, methodological criticism of J. Courtright & I. Courtright's study, 13362
interpretive analysis, semantics of 2-word utterances, children, reply to C. Howe's criticism, 9259
interpretive analysis of semantic relations, children, reply to studies by R. M. Golinkoff & L. Bloom et al, 9273
invalid use of Beck Depression Inventory, identification of depression, college students, 7091
investigations of anger exemplifying theoretical assumptions & methodology of phenomenological philosophies of K. Lewin vs E. Husseil, 9229
in vivo exposure, treatment of phobias, literature review, 8530
justification of intervention evaluation, 4734
Kansas City Preventative Patrol Experiment, methodological critique of R. C. Larson's criticism, 12702
laboratory method of research instruction & W. Wundt's Leipzig University laboratory, 19th century, Germany, 6919
laboratory vs field studies, findings in attitude-behavior research, 6973
Lagrange Multiplier method, constrained maximization & extension to incremental transfer effectiveness, 48
lateral specialization, group differences in cognition, left handed adults, criticism of methodology of E. Fennell et al, 7434
marital quality & happiness & satisfaction & adjustment, 1970's, literature review, 10262
measurement & description of magnitude of observer agreement, 4847
measurement & measurement reliability & experimental designs in applied behavior analysis research, 11587
measurement technique for human operator stability, aiming tasks, 4694
merging of humanistic trends with verification procedures of experimental parapsychology, replicability of experiments, summary of symposium papers, 11536
meta analysis as cross discipline research method, 2406
method for automatic recording of topological differences in keypecking for food & water reinforcement, 115
method for estimation of lifetime prevalence of schizophrenia & other mental disorders, 5974
method for formative evaluation of learning hierarchies by R. T. White & R. M. Gagne, 2178
method for optic discrimination of action potentials, 6975
method for representation of clustering, free recall, 2591
method of integrating analytical & judgmental phases, decision making, 7236
method of K. Weltner vs W. L. Taylor's cloze procedure, measurement of determining subjective information in text, 6972

methodological analysis, language acquisition of coordination, children, criticism of G. Ardery's & B. Lust's & B. Lust & C. Meruis's studies, 9278
methodological approach, decision making in urban development, 6891
methodological criticism, studies of children of Nazi Holocaust survivors, literature review, 6994
methodological criticism of cigarette assays revealing reduction of tar & nicotine yields, 4708
methodological discussion, discrepancies between religious preference & affiliation, survey research, 6992
methodological discussion, naturalistic research, 2397
methodological flaws in theory of facial expressions & experience of emotion, criticism of methodology used by R. Tourangeau & P. C. Ellsworth, 11580
methodological issues & overview of publications in cross societal family research, 1970's, literature review, 10218
methodological problems, epidemiology & depression, 12954
methodological problems, experimental validity, 2340
methodological problems, field study of psychosocial processes, mixed couples of Black African males & French women, 2404
methodological problems, role of life events in affective illness, 13008
methodological problems, testing of decoding sufficiency hypothesis, critique of study of L. S. Fleischer et al, 7775
methodological problems in experimental study of differences in cognitive processes, 4662
methodological problems in life events research, 9261
methodological problems in psychotherapy research, literature review, 11609
methodological & theoretical issues, cognitive processes in individual decision making in organizations, managers, 2255
methodological & theoretical issues, study of development of visual perception strategies, 12546
methodological & theoretical issues concerning external vs self reinforcement, literature review, 2788
methodological validation & practice & problems, nondirective & nonprestructured interviews, 114
methodology, analysis of goal structure within & between persons in social situations, female occupational therapy & nursing students, 10325
methodology, interpersonal perceptive organization & stabilization of individual in cultural system, 1276
methodology, social development research using concepts of dominance & bidirectionality, 9270
methodology, survey research, 2362
methodology & advancement of knowledge in psychology in past century, 11531
methodology for analysis of decision/problem state, 59
methodology for examination of defense & anxiety & impulse in therapist interpretations, brief psychotherapy, 8443
methodology for inferring hierarchical choice processes from panel data, 4730
methodology for self analysis & application as research tool, psychoanalysts, 6547
methodology for writing reviews of literature, 11094
methodology & instrumentation used, National Institute of Health's research program on psychobiology of affective disturbances, 11605
methodology suggestions for increased valid inferences from case studies, 2023
method & philosophy of theory construction, unification of psychological theories, 11558
methods for assessment of performance of school psychologists, literature review, 11140
methods for collection & analysis of task analysis data, 11407
methods for description & measurement of physiology of aggression, animals, literature review, 12180
methods for estimation of prevalence of bipolar affective disorders, 10475
methods & problems of risk analysis, technological decision making, 4746
model & research methodology & applications, technique for multidimensional measurement of involvement with social & political problems, 11610
multidimensional scaling & tree-fitting & clustering, representation of psychological structure of stimuli, 4744
need for naturalistic research in special education, 6738
new data collection & analysis procedures & positions model, perspective taking ability & spatial development, 1st–6th graders & college students, 7789
pain rating scales, episiotomy pain, females with mean age of 24.6 yrs, implications for need for multidimensional assessment methods, 9403
paraprofessional vs professional helpers, reply to criticism by M. T. Nietzel & S. G. Fisher, 2004
parent child relationships, 1970–79, literature review, 10267
partial vs selective vs total sleep deprivation, task performance, literature review, 1970 to present, 3083
path analysis in counseling research, 4862
perceived identity of speaker & evaluation of speech style, male & female speakers, implications for evaluation methodology, 7205
perceived vs actual genetic similarity, co-twin differences in cognitive & personality & physical development, monozygotic & heterozygotic same-sex twin pairs, methodological implications, 979
perceptual view of attribution, implications for research & methodology, 12810
persistence of clumping, mice, implications for methodological difficulties in use of density as variable, 656
phenomenological description as method for understanding roles & functions of counselor, 2355
philosophical & methodological problems, psychological research, 9232
physiological vs behavioral vs cognitive anxiety response channels, clinical vs analogue populations, literature review, 9293
preferred model selection, validation of hierarchical learning scales for subtraction tasks, 8–11 yr olds, 2171
premarital sex, 1970's, literature review, 10286
principal components analysis, reliability of repertory grid data, 7020
problem based approach to research methodology, social psychology, literature review, 2395
problems with integration of results in conceptual replications of affiliative behavior, 11583
problems with traditional validation methods for clinical personality scales, 2538
psychophysical concepts & methods, quality control of industrial products, 9817
psychotherapy, depressed elderly patients, ethical & design & implementation of research implications, 9281
Q methodology in newspaper readership studies, alternative to traditional demographic research, 4739
quantitative assessment of brain lesions, 130
quantitative vs nonquantitative criteria for phonological process analysis, reduction in identifiable processes, 3–13 yr olds with functional articulation problems, 4716
questionnaire vs simulation & convergent vs divergent sequences in studying division of rewards, 6999
radioimmunoassay for plasma concentrations of fluphenazine, 6983
rate of giving opinions on fictitious issue, survey respondents, 2343
reciprocity between movements of lower lip & jaw during production of front vowels, reply to criticism of H. M. Sussman, 4952
reciprocity between movements of lower lip & jaw during production of front vowels, examination of O. M. Hughes & J. H. Abbs's procedures, 4968
relative extent of reliability as independent variable, skin conductance recovery time, White 18–75 yr olds & Mauritanian 3 yr olds, 6998
reliability, artificial dream insemination as experimental technique, males, 125
reliability & intervention effect & meaningfulness & generalizability, visual inference in single S studies, school psychologists, 11348
reliability of personal construct theory, study of schizophrenia, literature review, 8146
research methodology, development of abstraction process, children, 9257
research methodology, psychotherapy, 3981
research methods, study of fathering & father's role, 74
research problems in semantic equivocality of verbal designations, conceptual or undefined vs behavioral or defined personality traits, 2372
research program on reactions to uncontrollable negative outcomes & life crises, 3746
research & treatment with 2nd generation antidepressant drugs, 10938
resonance Raman spectroscopy, photoisomerization of bound retinal chromophore of rhodopsin as primary event in vision, 11800

role conflict, physiological & affective & performance variables, 20–48 yr old female nurses in simulated hospital experience, 2030
role of W. Wundt in experimental psychology & criticism of contemporary social psychology experimentation, 2336
scaling & data simplification methodological problems, repertory grid analysis, 4743
sequential testing effects, word recognition & correlation with recall, criticism of E. Tulving & S. Weisman's method & theory, 470
sexism, abstracts of studies using disguised or unobtrusive measures, 1188
standardized procedures & documentation systems, analysis of task analysis data, training, US Air Force technical personnel, implications for computerized task analysis data bank, 4500
state notation programing languages, psychology, 4713
statistical analysis of successive measurements F tests to control probability of false positives in psychophysiological research, computer applications, 4859
statistical validity & calibration differences, self observation vs use of telephone for reporting headache activity, headache sufferers, 47
strategies for evaluation of community services outcome, chronically mentally ill, 8658
strategies & issues & guidelines, field research, university counseling center practitioners, 2172
subliminal psychodynamic activation method for laboratory study of "Freudian" motives, literature review, 6993
supportive organization climate, action research by counselors in school systems, 2189
surgical technique for implantation of magnetic search coils in front of insertions of extraocular muscles, measurement of eye position, animals, 79
tailshock & body restraint technique, acute induction of gastric lesions, rats, 72
taxonomy of organization development research variables & methodologies, literature review, 9295
technical & psychological approaches to reliability of performance, 9175
technique for intracranial cannulation of small animals with floating or fragile skull bones, mice, 69
technique for isolation & quantification of photomechanical influences on visual adaptation, 117
technique for testing eliciting effects of color patterns, fishes, 120
telephone vs face to face interview, data differences, 2370
terfenadine vs diphenhydramine vs placebo, visual analog scale vs check list in assessment of side effects, 20–27 yr old volunteers, 3190
theoretical assumptions & research procedures, assessment of intelligence, male children with Duchenne muscular dystrophy, 3921
time constraints & risk & cue discrimination, assessment of racquet sport performance, 2670
time cue technique, time perception & responses on mail surveys, 4606
traditional attitude research & subjective probability models & decision making theories, implications for social action program strategies, 2339
triangular vs 3-alternative forced choice methods, measurement of signal detection with olfactory stimuli, Ss, 11578
type of therapy & patient diagnosis, psychotherapy outcome, review of research, implications for research standards, 10806
types of fallacious aggregation of data about individuals in educational research, 11363
types of field research, social sciences, 6988
usefulness & practicality & validity of conjoint analysis, preferences in simulated contractor negotiation, 6971
use of direct magnitude estimation scales, telephone public opinion surveys, 6996
use of educational research for improvement of teaching skills, response to article by J. H. Dettre, 6671
use of expert ratings of task difficulty vs actual difficulty criterion, 112
use of P. Fitts' Law, predictor of capture time for velocity control system, male vs female 18–23 yr olds, 323
use of practice interviews for prediction of interview behaviors, 2344
use of Q-methodology, study of Kubler-Ross stage theory & perception of illness, seriously ill patients & spouses, 4718
use of simple reaction time in motor programing studies, response to criticism of S. T. Klapp et al, 322
use of simulation, social psychological research, literature review, 56
use of superconducting quantum interference device, measurement of brain magnetic field, humans, 2371
utility of cohort analysis for applied social & behavioral science, 2407
validated procedures for task analysis, military technical personnel training, 2228
validation methodology, computer simulated decision making models, 4751
validity of research methodologies, indigenous psychology, Asia & Philippines, 6924
validity & reliability of psychodiagnostic interview method, diagnosis of in- vs out- vs non- vs ex-patients, lay interviewers vs psychiatrists, 1389
variable detection state, Triangular Constant Method of sensory threshold determination, 9445
vehicle following maneuvers, time headway, experienced truck drivers, 4569

Methohexital
pentobarbitol vs other drugs, drug discriminative behavior, pigeons, 9938

Methylatropine [See Atropine]

Methyldopa
methyldopa, judgmental learning, hypertensive patients vs normal Ss, 4076
neuroleptics & methyldopa vs rubidium vs tryptophan-benserazide, symptoms, schizophrenics, implications for brain dopamine deficiency, 1838
5-hydroxytryptophan & carbidopa & imipramine, self-mutilative behavior, 5–14 yr olds with Lesch-Nyhan syndrome, 8596

Methylmorphine [See Codeine]

Methylphenidate
automated method for study of stereotyped gnawing induced by methylphenidate, rats, 4720
dosage of methylphenidate, learning vocabulary words, normal adults, 3187
flurazepam, methylphenidate-induced stereotyped behavior, mice, 7687
methylphenidate, behavior, homicidal & hypoglycemic prisoners, 6374
methylphenidate, self punitive running, male rats, 3186
methylphenidate, spontaneous autonomic activity & classroom behavior, hyperactive children, 8599
methylphenidate & neuroleptics & withdrawal of phenothiazine & dyskinesia-dystonia, 2 yr old hyperkinetic male, 8586
methylphenidate & other treatment methods, hyperactivity, literature review, 8598
methylphenidate treatment, teacher & student interaction, 7–11 yr old hyperkinetic males, 1880
oral vs ip injections of methylphenidate hydrochloride vs dextroamphetamine sulfate vs placebo, level of locomotor activity, male rats, 7694
response cost program &/vs methylphenidate, behavior & academic performance, hyperactive 7 & 8 yr olds, 1667
standard vs sustained release methylphenidate, minimal brain dysfunction, 6–14 yr olds, 4109
stimulant drug therapy, hyperactive children, literature review, 13316
6-hydroxydopamine & desmethylimipramine vs dextroamphetamine vs methylphenidate vs scopolamine, brain dopamine & norepinephrine levels & hyperactivity, newborn vs infant rats, 7678

Methysergide [See Serotonin Antagonists]

Metrazole [See Pentylenetetrazol]

Metropolitan Readiness Tests
canonical variate analysis of scores on Primary Mental Abilities Test vs Metropolitan Readiness Test vs Otis-Lennon Mental Abilities Test vs Iowa Test of Basic Skills, 6th graders, 9118
invariance of factor structure of Metropolitan Readiness Tests, Black vs White male vs female 1st graders, 4453
predictive validity of Metropolitan Readiness Test & Meeting Street School Screening Test, subsequent scores on Metropolitan Achievement Test, 1st graders, 9127
predictive validity of 1976 Edition of Metropolitan Readiness Tests, subsequent reading & math achievement, female vs male 1st graders, 4447
race & sex differences, differential validity of Horst Reversals Test as predictor of reading achievement, Black vs White 1st graders, 9098

Mexican Americans
academic preference & performance, Chicano vs Anglo college students, 4343

antisocial behavior & father absence, social egocentrism, 13–17 yr old Mexican American females, 12452
bilingual rating scale development, measurement of acculturation level, Mexican American psychiatric hospital patients & staff & in-service training students, 7035
bilingual social environment, English vs Spanish language socialization & content of communication, children of Mexican American mothers, 12481
causal attributions in achievement situations, Anglo vs Mexican American vs Black 4th & 5th graders, 7881
changes in 7 yr period in utilization of community outpatient psychiatric center, Mexican Americans, 6460
concern for death & psychological adjustment, Mexican American vs Anglo American college students, 12650
counselor ethnicity & sex & amount of information provided about qualifications, client preference, Chicano vs Anglo college students, 3956
Culture Fair Intelligence Test vs Revised WISC test scores, White vs Black vs Mexican American juvenile delinquents, 3837
demographic & symptomatic variables, length of mental health treatment in neighborhood health center, Mexican American & Anglo & Black & American Indian patients, 6465
ethnic & socioeconomic background, self concept, Euro- vs Afro- vs Mexican American middle vs lower income 10 yr old females, 1062
extent & determinants of use of alcohol & inhalants & marihuana & phencyclidine, Mexican American 9–17 yr olds, 5707
factorial structure of Mach V scale, proclivities for interpersonal manipulation & deceit, White vs Mexican American college students, 11669
factorial validity of test item classification on Boehm Test of Basic Concepts, Mexican American & Anglo preschoolers & kindergartners, 9112
familism, participation in government work-training programs, Chicanos 55 yrs of age & over, 12639
family income & sex & familism, locus of control as measurement of fatalism, Anglo vs Mexican American high school students, 1132
family & social relationships, mental health, Anglos vs Blacks vs Chicanos, 5603
father's occupation & delinquent peer associations & rationalization & self reported minor vs predatory vs aggressive delinquency, Anglo vs Mexican American college students, 1524
infant behavior ratings & concurrent & subsequent mental test scores, Mexican American infants at 12 & 24 & 36 mo of age, 12522
labeling child as educable mentally retarded, impressions of attractiveness & academic & behavioral potential of Black vs White vs Mexican American children, elementary school teachers, 6628
length of enrollment in bilingual education, 6th & 7th grade reading levels & GPA & self concept, Mexican American 7th graders, 13560
level of cultural assimilation, fertility level, 35–45 yr old married Japanese American vs Mexican American women, 7939
locus of control & self esteem & field independence, reading & math achievement, Anglo American vs Mexican American 4th & 5th & 6th graders, 13605
meaning of & problems with school, Mexican American adolescents, 6702
nativity & years of US residence & metropolitan vs nonmetropolitan environment & educational & occupational level, English language use, Mexican immigrants, 3498
parent educational background & language & family structure & socioeconomic level, prediction of intellectual performance, Mexican American preschoolers, 10120
perceived parental acceptance-rejection & self reported behavioral dispositions, Anglo vs Mexican American vs Mexican 8–15 yr olds, 1084
perceptions of psychiatric & folk-medical disorders, curanderos vs mental health professionals, 12645
preferences for mother or father vs TV, Mexican American 3–21 yr olds, 3443
racial & cultural variations, Asian American & Black & Chicano & Native American families, U.S., literature review, 1970's, 10221
racial & ethnic identification & preferences, 4 & 5 yr old White vs Black vs Mexican American Head Start children, 3450
reasons for premature psychotherapy termination, Mexican American vs Black- vs Anglo-American patients, 6219
recommendations for mental health service delivery, Mexican Americans, literature review, 1919
self concept & demographic & cultural variables & prospect of personal involvement, expectations about school busing, 9–17 yr old Mexican American students, 6710
sex & high vs low fear conditions, affiliation motivation, Mexican vs Anglo American 10th–12th graders, 1083
sex & urban vs rural residence & age & geographic locale, prevalence of mild mental retardation, Anglo vs Black vs Mexican American vs Papago Indian 1st–9th graders, 6087
socioeconomic status & ethnic group, childrearing behaviors, Mexican American vs Black vs Anglo mothers, implications for parent education, 3548
underlying factor structure of Revised WISC, Anglo vs Mexican-American 8–15 yr olds, 7037
validity & reliability of Wide Range Achievement Test, Mexican American 4th & 5th graders, 9386
variations in socioeconomic structure, Mexican American communities, 7937

Mexico

childrearing practices & incidence of hostility without violence, Zapotec Indians, Mexico, 3505
cultural factors & school & home environment & family characteristics, cognitive & perceptual & personality development, American vs Mexican 6.7 vs 9.7 vs 12.7 yr olds, 6-yr longitudinal study, 12459
development & validity of entrance examination for autonomous university, college students, Mexico, 9064
locus of control, creativity, college students, Mexico, 3728
nature & acquisition of preference for chili pepper, 4–56 yr olds, Mexico vs United States, 1337
parent behavior patterns, parents observed in parent-child interactions, Mexico, implications for cross cultural differences, 7957
perceived parental acceptance-rejection & self reported behavioral dispositions, Anglo vs Mexican American vs Mexican 8–15 yr olds, 1084
psychological & social factors, mystical possession, socially marginal Chinese-Mexican 39 yr old male with hysterical personality, Mexico, 8142
socioeconomic class & powerlessness, recognition of mental illness & recommendations for treatment, females, US vs Mexico, replication of study by P. L. Heller et al, 5616

Mice

abnormal dense clusters of small vesicles at synapses & myelin deficiency, role of neuronal & neurotransmission changes in behavioral symptoms, mutant mice, 5219
ACTH &/vs naloxone, offspring growth & eye & vaginal opening & open field activity & threshold for heat, pregnant mice, 12389
administration of sleep-promoting factor & delta sleep-inducing peptide, REM & NREM sleep, mice, 913
adrenalectomy, puberty-delaying pheromone, female mice, 5337
age, capability to learn & retain active avoidance response, infant mice, 5114
age & dietary choline manipulations, retention of passive avoidance, 3–23 mo old & older mice, 863
age differences & repeated exposure to novel environment, activity habituation & retention, 2 vs 12 vs 24 mo old male mice, 9639
age & sex, role of social experiential factors in preference for odors from stressed vs nonstressed conspecific male, mice, 628
alcohol & chlordiazepoxide & intruder in home cage vs neutral cage, attack & threat behavior, male mice, 3192
altered rest-activity & feeding schedule, shift of motor activity rhythm, mice, 5316
alternative wood chewing & wheel running & cage exploration, nest building, wild house mice, 9663
amygdala & stria terminalis lesions & familiarization with mice, parachlorophenylalanine-induced mouse killing, rats, 5321
analog of ACTH 4–9, maze behavior, male mice, evidence for attentional alteration, 9941
androgens, responsiveness to aggression & stress-related odors, male mice, 3127
animal strain differences & septal lesions, avoidance behavior, mice, 845
apomorphine vs dextroamphetamine vs propylnorapomorphine, stereotypic cage climbing, male mice, 12413
apomorphine vs RU 24213 vs dextroamphetamine vs bromocriptine vs levodopa & lesions of nigrostriatal pathway, stereotyped behavior & locomotion & rotation & anorexia & emesis, mice & rats, 865
audiogenic seizure susceptibility & proposal for systematic nomenclature, Rb-1 vs Rb-2 vs DBA/2J mice, 9747

avoidance conditioning vs maze learning vs aggressive vs nonaggressive learning tasks, open field activity, male mice, 12048
avoidance training in shuttle boxes, measurement of hearing thresholds, albino house mice, 2873
beta-carboline-3-carboxylic acid ethyl ester, diazepam displacement from brain tissue blockade of pentylenetetrazole-induced clonic seizures, mice, 9968
brain glutamic acid decarboxylase activity & glutamate & GABA concentrations, open-field activity, BALB/cJ vs C57BL/6J mice, 5186
breeding, agonistic behavior, female mice, 7406
cage scent of same vs opposite sex conspecific, ultrasound emission, male vs female woodmice, 12122
cessation of chronic consumption of ethanol vs tertiary-butanol vs pentobarbital, acquisition of shock avoidance task, male mice, 3212
chlordiazepoxide vs diazepam vs medazepam vs bromazepam with vs without amphetamines, spontaneous locomotor activity, male mice, 9960
chlordiazepoxide vs diazepam vs medazepam vs bromazepam, scopolamine-induced locomotor stimulation, mice, 12399
cochlear development & electrophysiological determinants of deafness, "deafness" strain of mice, 7421
conditioned defensive burying, 30 vs 60 vs 90 day old rats vs CD-1 vs CF-1 vs BALB mice vs hamsters vs gerbils, 12080
conspecific intruders, aggressive behavior, 10 day to 13 wk old female deer mice, 5133
constant light & water vs food deprivation, circadian rhythms for food vs water consumption, male mice, 3027
convulsive stimulation with different waveforms & current intensities & training-ECS intervals & pulse widths & stimulus durations, amnesia, male mice, 12326
cycloheximide with vs without nicotine, retention of passive avoidance task, mice, implications for memory storage, 9965
delta-9-tetrahydrocannabinol, morphine-induced locomotor activity, mice, 3222
desglycinamide-9-arginine-8-vasopressin, ethanol hypothermic tolerance, recombinant inbred mice, 3155
development of mother-offspring interactions, spiny mice, 9712
dextroamphetamine & apomorphine, flash-evoked afterdischarge as model of petit mal epilepsy, rats, 5385
dextroamphetamine vs gamma-butyrolactone vs haloperidol, motor activity & loss of righting reflexes & brain dopamine levels, mice bred for differing sensitivity to alcohol, 678
dextro- & levo-amino acids & morphine, analgesia & locomotor activity, male DBA vs C57 mice, 5349
diet of oats vs wheat, preference for familiar food, house vs wood mice vs bank vs short-tailed voles, 12061
different psychoactive drugs, serum & brain tryptophan levels, Albino-Swiss male mice, 936
enkephalin analog vs morphine, locomotor activity, male mice, 12406
ergocornine hydrogen maleate & 2-bromo-alpha-ergocryptine, pituitary prolactin levels & lactation & aggression toward male intruders, parturient mice, 12386
estradiol & progesterone & nipple development & presence of young, postpartum aggression, female rats & mice, 637
ethanol, behavior change vs body temperature vs brain histamine, male mice, 12392
ethanol, electrophysiological changes of cerebellar Purkinje neurons, mice lines with different sleep times, 9963
exploratory behavior & vocalization, sylvester field mice, 667
exposure to escapable shock with subsequent inescapable shock, escape behavior & norepinephrine depletion in hypothalamus & hippocampus & cortex, male mice, 737
exposure to inescapable shock & clonidine & apomorphine prior to shock vs testing, escape deficits & mediation by dopamine & norepinephrine, male mice, 860
fasting, cholecystokinin binding to receptors in hypothalamus & olfactory bulb & insulin binding, male mice, 12306
fenmetozole, ethanol-induced impairment of aerial righting reflex, male rats & female mice, 3169
fetal testosterone treatment, fighting in adult life, female mice, 5373
flurazepam, methylphenidate-induced stereotyped behavior, mice, 7687
free-operant avoidance task, successful shock avoidance, C57BL/6J vs DBA/2J vs B6D2F$_1$ mice, 7312
GABA & picrotoxin & clonidine & morphine & cyproheptadine, locomotor activity & gross behavior, male rats & mice & rabbits, 5406
genetic vs postnatal genotype-dependent maternal influences, behavior & growth, male DBA/2 vs C57BL/6 mice, 9748
genotype, frequencies and temporal patterns of jumping over barriers, inbred mice strains & their F sub 1 hybrids, 7405
genotype, life span changes in electrophysiological vs behavioral auditory thresholds & cochlear hair cell & hearing loss, 2 strains of mice, 5256
haloperidol, 3H-4,5-leucine incorporation into limbic system, mice, 7651
hashish extract, aggressive behavior & dominance, male drug-treated mice & untreated intruder, 9962
hashish extract, maternal nonsocial & nursing & locomotor activity & development of sucklings, lactating mice & their pups, 7642
hashish extract, social & overall activity & submissive & sexual & aggressive & nest-building behavior & dominance, male mice, 7691
hydrocortisone acetate vs deoxycorticosterone acetate, alcohol consumption, C57BL/Crgl vs C3H/Crgl/2 mice, 9935
hypophysectomy & aurothioglucose, weight gain & obesity, mice, 809
imipramine-like antidepressants & anticholinergics, yohimbine toxicity, mice, 7667
immobilization stress, impairment of macrophage tumoricidal function, male mice, 918
infant handling, maternal behavior & pup vocalizations & temperature changes, C57BL/6J vs A/J female mice & cross-fostered pups, 9739
injections of anisomycin 5 hr vs 20 min prior to training, amnesia & impairment of retention of passive avoidance, male mice, 872
intruder sex & other factors, attack behavior, lactating female mice, 2885
irradiation of paternal spermatozoa, offspring agonistic behavior, male mice, 7577
kanamycin & exposure to intense auditory stimulus during critical neural development, cochlear hair cell damage, various mice strains differentially susceptible to priming-induced audiogenic seizures, 815
lateral hypothalamic stimulation, approach & escape reactions, BALB/c vs DBA/2 mice, 5323
length of individual vs group housing, corticosterone level & open field & emergence behavior, female mice, 9664
light-dark schedule, sleep-waking cycle, anophthalmic mice, 7400
liquid food from weaning, circadian amounts & rhythms of slow wave & paradoxical sleep & tongue activity, C57Br mice, 12282
locomotor activity & somatosensory orientation & EEG arousal, C57BL/6 vs DBA/2 male mice, 5196
long-term dietary levodopa, body weight & locomotor activity & number of dopamine receptors, C57 vs BALB/C mice, 7689
LSD-25, avoidance behavior & locomotor activity, mice, 5355
materials & construction & operation of outdoor enclosures, mice & rats, 11566
maternal behavior & milk ejection reflex, mice, 631
measurement technique, long term food hoarding behavior in home environment, mice, 39
methionine & homocysteine, induction of convulsions, mice, 5371
mother & pup inbreeding, retarded postnatal development, mouse pups, 2961
mutation involving cerebellar disease, mouse, 12174
naloxazone vs naloxone, ACTH-induced grooming, mice, 9927
new glutarimide compounds & pentobarbitone, duration of barbiturate anesthesia, mice, 9953
nicotine, spontaneous motor activity & nicotine concentrations in brain & liver, male vs female & C57 vs C3H vs DBA strains of mice, 9936
nicotine injection vs passive tobacco smoke inhalation, sucrose taste aversion conditioning, mice, 5101
nipple growth & suckling stimulation & lactation, maternal aggression, female parturient vs hysterectomized & fostered young mice, 7377
N-n-propyl-norapomorphine & haloperidol, footshock-elicited & predatory & isolation-induced aggression, rats & male mice, 7619
novel vs familiar flavor & lithium chloride, taste aversion formation, mice, 12069
obesity induced by neonatal administration of monosodium glutamate, feeding behavior & activity & thermoregulation & response to catecholamines, mice, 12352
observation of male vs female model & number of response-relevant cues, leverpress acquisition rate in observational learning, mice, 606
olfactory sensitivity & estrus cycle, female mice, 12187

online automatic sleep classification, laboratory rats & mice, 51
open field activity & rate of food ingestion & rate of development of autoshaped operant response, BALB/cJ vs C57BL/6J vs DBA/1J vs CBA/CaJ mice, implications for evolutionary history, 9620
overview of behavioral studies using genetically defined mice, bibliography, 2399
oxotremorine & alfa-methyl-para-tyrosine methylester & nialamide, retention & dopamine & norepinephrine levels in brain, male mice, 5379
pentylenetetrazol, behavior & EEG activity & cyclic adenosine monophosphate & cyclic guanosine monophosphate brain levels, female mice, 5365
persistence of clumping, mice, implications for methodological difficulties in use of density as variable, 656
pharmacological treatment, phencyclidine-induced behavioral stimulation, female mice, 12357
phencyclidine administered through gestation, gestation & maternal behavior & characteristics of pups, female mice & their offspring, 3173
pigmentation & light deprivation, light reactivity, mice, 7425
possible confound & role of olfaction in aggressive interaction, mice, 2377
posttraining icv corticosterone injection, memory of appetitive discriminative task, mice, 9949
potassium deficiency, preference for potassium deficient vs sufficient fluids, male mice, 3082
preferences for solutions of sugars & salts & acids, Egyptian spiny mice, 3018
prenatal exposure to barbiturate, altered sensitivity to ethanol, female Sabra mice & their male offspring, 942
presentation of nonaggressive male mice vs crickets, aggressive & pedatory behavior, wild male mice, 2925
presumptive occipital cortex transplantation to host amina cribosa area of partial or total bulbectomy, regrowth of olfactory sensory axons into transplant, mice, 7601
pretreatment with levodopa alone & with benserazide followed by drug challenge, locomotor stimulation & role of central dopamine receptor sensitivity, male mice, 895
Preyer reflex audiogram & absolute audiogram, mice vs voles vs rats, 12250
quipazine vs morphine & pizotifen maleate & naltrexone, hot-plate & tail-flick latencies, male mice, 7675
recognition of natural predators from own vs different habitat, deermouse subspecies, 12126
reproductive state & home cage vs neutral environment, aggressive behavior, female mice during proestrus vs pregnancy vs lactation, 7402
restraint & water immersion stress, distribution of tritiated dopamine in adrenal medulla, male mice, 794
sc haloperidol, immune response to 1-chloro, 2,4-dinitrobenzene, female mice, 12402
scotophobin, motor activity, mice, implications for effects on memory transfer, 941
selection for age of sexual maturation, mice, implications for population regulation, 9736
sex differences, taste aversion learning, deer mice, 7329
shock & morphine, antinociception & escape behavior, mice, 9857
simultaneous & successive discrimination between envenomated vs nonenvenomated mice, rattlesnakes, 7355
sleep & activity rhythms, mice, literature review, 5228
social dominance vs subordination & exposure to females, frequency of spontaneous ejaculation, male mice, 2914
social isolation, effect of salbutamol on hypothermia, male mice, 9932
social & physical stress, tumor growth, male mice, 7579
sodium n-dipropylacetate & muscimol hydrobromide & nipecotic acid amide & dosage, isolation-induced aggressive behavior, mice, 9954
species differences, learning & retention in delayed alternation paradigm, female mice vs male guinea pigs vs cats, 7316
stages of increase in brain weight, EEG development, humans & kittens & rats & mice & guinea pigs, 9737
strain differences & selection for isolation-induced interfemale aggression, maternal aggression, female mice, 682
strain & individual differences, developmental period for cardiovascular system, Bailey recombinant inbred vs progenitor strains of mice, 681
suckling behavior, prediction of obesity, mice, 9731
suprachiasmatic lesions, sleep-wakefulness rhythms, mice, 5340
tail wounds vs tube dominance vs territorial aggression vs attack behavior vs competition for water, animal dominance, male albino mice, 9665
thiorphan & naloxone, pain perception, mice, 7688
tobacco smoke exposure during gestation & nicotine, fertility & maternal care & tissue nicotine levels & liver weight & offspring survival & activity, female mice bred for high vs low open field activity, 9825
training to test interval & timing of pretest hippocampal electrical stimulation, retention of appetitive operant conditioning, male mice, 12040
tryptophol, brain 5-hydroxytryptamine metabolism, male mice, 5372
unilateral olfactory bulbectomy, opiate lignad binding in contralateral bulb, female mice, implications for limbic function & emotional behavior modulation, 5339
urine from castrated vs intact male mice, aggressive behavior, male mice, 2921
various dosages of morphine hydrochloride, memory facilitation & involvement of reinforcement mechanisms, male mice, 3193
various indirectly acting sympathomimetic amines, stereotypy & norepinephrine uptake, male mice, 3221
visual complexity of maze, activity & exploratory behavior, various strains of male mice, 650
withdrawal from chronic alcohol consumption & subsequent ethanol injection, impairment of avoidance behavior, male mice, 3211

Microcephaly
facial screening, self injury, 11 mo old mildly microcephalic severely retarded male, 6363

Microcounseling
microcounseling training, school counselors, 8838
microtraining system for teaching interviewing skills, counselor students & professionals, 2007
programmed learning vs microtraining, interview performance & empathy ratings, telephone hotline workers, 6606

Micturition [See Urination]

Middle Aged
age, institutional & professional attitudes & demographic characteristics, academic professional personnel, 11417
age, self concept & self esteem, 18–22 vs 29–39 vs 40–55 vs 60–75 yr old females, 10149
age differences, dream & fantasy content, 27–64 yr old males, 12564
age differences, frustration & lack of satisfaction, male 20–60 yr olds, 3409
age & kibbutz vs city environment, collective possession, US kindergartners vs 2nd vs 5th vs 11th graders vs 40–50 yr olds vs Israeli kindergartners vs 5th graders, 10150
age & sex & partner, sexual activity, married male vs female 46–71 yr olds, 10288
age & sex & somatic complaints, test performance & feelings, 55–75 yr olds, 7754
analysis of self reported coping behavior, 45–64 yr olds, 1-yr longitudinal study, 3416
biological & family changes & personality differences, divorce in involutional period, married couples in their 50s & 60s, 1151
conservation abilities, male vs female noninstitutionalized vs institutionalized elderly vs middle aged Ss, 3291
counseling strategies, voluntary & involuntary midlife career change, males, 6806
demographic characteristics & medical & psychiatric disorders & treatment implications, 17–39 vs 40–54 yr old female offenders, 13431
development & familial occurrence of schizophrenia & paranoia, midlife paranoia patients, 1499
education, aged workers, 9171
goals & themes & evaluation, midlife career decision making workshop, 13706
involvement & mythicizing & reminiscing of one's past, 44–103 yr olds, 12540
melody vs title cues of songs, familiarity vs time of popularity judgments vs lyric recall, middle aged vs elderly, 11927
models for career development, adults at midlife, 6804
neurotic illness & preoccupation with physical fitness, 40 yr old males, 3804
opportunities for midlife career development or change, Blacks, 13715
prediction of WAIS Full Scale IQs from Quick Test scores, 46–78 yr old mental health center patients, 9395
psychological changes, midlife–old age, implications for mental health maintenance, 7762

reliability & validity of Life Satisfaction Index, 55–66 yr old normal males & psychiatric patients 55 yrs & older, 7023
rest & hyperventilation & photostimulation, normality of EEG traces & regularity of background alpha activity, healthy 40–60 yr olds, 2977
type & purpose of criminal acts, psychopathic vs sociopathic vs antisocial personality differentiation, 31–52 yr old males, 10579
Middle Class
age difference & school attendance, future orientation & delay behavior, lower vs middle class children, 13523
intervention of adult model, levels of spontaneous imaginative play, middle vs lower class 4–5 yr olds, 12612
sex & lower vs middle class, self esteem & locus of control & perception of classroom social climate, 4th–8th graders, 11247
sex & socioeconomic class & symmetrically vs asymmetrically designed numerals, perceptual comprehension of numerals, kindergartners vs 1st graders, 990
social class & opinion leadership & product-user stereotypes, upper vs middle vs lower class 18–65 yr old females, 13797
Middle Class Attitudes
characteristics & emphasis on obedience, speech patterns, working class families, Scandinavia, 7928
Middle East
group affiliations to religion & family & citizenship & national origin, 11–16 yr olds, Kuwait, 1108
intergroup contact, ethnic change, Israeli Jews & West Bank Arabs, 12644
marital relations, choice of permanent vs reversible birth control method, married females, Lebanon, 10234
onset & involution of delusion, schizophrenics & other paranoid psychotics, Middle East, 3776
somatization of emotional problems & passivity & factors in successful therapy, female patients, Saudi Arabia, 6161
validity of Arabic version of MMPI Masculinity-Femininity scale, male vs female college students, Kuwait, 11693
Middle Income Level
lifestyles & health & stress levels, 20–49 yr old middle-income divorced female heads of families, Canada, 1164
Middle Level Managers
degree of subordinate involvement permitted in decision situations requiring high vs low quality solutions, 20–58 yr old middle level managers, 11462
Eastern & Western perspectives in transpersonal belief systems, members of Association for Transpersonal Psychology vs middle management business personnel, 12855
employee ability, relationship of role conflict & ambiguity to job satisfaction, middle management personnel, 13750
management level, difficulty & variety of tasks, local government managers, 13751
managerial style & receptivity to change, middle management public school administrators, 2076
perception of need satisfaction, workers & supervisors, 2264
Migraine Headache
biofeedback training, migraine & tension headaches, literature review, 1814
biofeedback training to raise vs lower skin temperature, number & severity of migraine headaches, female migraine patients, 6341
design & implementation of controlled evaluation of biofeedback treatment of migraine headaches, 1975 to present, 8554
diet changes vs relaxation exercises vs nondirective group counseling, migraine headaches, 8–11 yr olds, 8416
finger warming-forehead cooling vs frontalis EMG relaxation vs alpha enhancement vs vasoconstriction of temporal arteries biofeedback, migraine headaches, patients with mean age of 42 yrs, 10861
skin temperature biofeedback training, migraine headaches as assessed by regional cerebral blood flow, normal Ss vs migraine patients, 13273
temperature biofeedback, migraine headaches, 8499
Migration (Human) [See Human Migration]
Migratory Behavior (Animal)
amount & location of food, frequency & direction of emigrations, army ants, 9723
celestial cues, ontogeny of nonvisual migratory orientation, garden warblers, 7388
food deprivation, weight change during winter flocking phase & dominance behavior, silvereyes, 7564
group aerial movements, dunlin, 5143
intergenerational vs postnatal malnutrition, growth & home-orienting behavior & survival rates, rat pups, 9842
isolation vs group rearing, flight behavior, successive generations of desert locusts, 9706
lunar phases, thyroxine surge prior to seaward migration, hatchery-reared salmon & anadromous trout, 12252
migratory & feeding & swimming behavior, wild juvenile plaice, 9687
olfactory deprivation, homing ability, anosmatic vs normal pigeons, 624
pheromone vs exploratory trail, mass recruitment response, working army ants, 5172
scent marking, swarm emigration, social wasps, 12130
sex differences, philopatry & dispersal & mating behavior, male vs female birds & mammals, 9692
size of induced turns, reverse turning at corridor exits, centipedes, 666
solar cues, migratory orientation, sparrows, 5160
variation of population density, swarming vs recession, desert locusts, 12144
visual cues & physical & spatial pathway properties, travel task, squirrel vs titi monkeys, implications for open field behavior, 12116
Mildly Mentally Retarded [See Educable Mentally Retarded]
Milieu Therapy [See Therapeutic Community]
Militancy
deprivation & financial dissatisfaction, militancy as seen at farmers' protest rally, farmers & graziers, 3478
Military Desertion [See Antisocial Behavior]
Military Enlistment
development of Military Aptitude Predictor, selection of military personnel, 11439
Likelihood Function Estimation model for enlistment standard, prediction of first term success, airmen, 11426
number & absolute magnitude of incentives, enlistment in US Navy, 16–22 yr old civilian males, 4507
number of performance outcome items, prediction of satisfaction & perceived effort & intentions to reenlist, US Army enlisted personnel, 228
Military Officers [See Commissioned Officers]
Military Personnel [See Also Air Force Personnel, Army Personnel, Commissioned Officers, Enlisted Military Personnel, Marine Personnel, National Guardsmen, Navy Personnel, Noncommissioned Officers, ROTC Students, Volunteer Military Personnel]
combat reaction, 16–30 yr old soldiers, 1396
construction of abridged version of Racial Attitudes & Perception Survey, measurement of racial climate, military personnel, 9390
description of executive job in government bureaucracy, rating of projected degree of satisfaction & probability of job acceptance, civilian professionals & military officers in postgraduate administrative training, Peru, 13712
descriptive model, intelligence analysis, military personnel, 4527
development of Racial Attitudes & Perceptions survey, Black vs White military personnel, 9352
factor structure & suggested new construct, Armed Services Vocational Aptitude Battery, 229
high vs low stress in staff member-superior relations & intelligence & experience, performance evaluations, Coast Guard officers & petty officers & civilian employees, 4533
human factors research in military organizations & systems, 9205
identification of combat unit leader skills & leader-group interaction processes, US Army personnel, 4526
intercultural awareness & personality traits, interracial encounters, White vs Black military personnel, training implications, 4517
keyword method, foreign language learning, US Army personnel, 4504
military psychology, symposium proceedings, 11062
military service as providing needed structured environment, borderline patients with severe personality disturbance, 8130
personal experiences, evaluation of conflict resolution procedures, 18–23 yr old male post court-martial military personnel, 12694
personality traits of wife/mother, family dysfunction & adjustment, families with husband/father missing in action, 3515
prediction of weapons effectiveness in suppressive fire, military personnel, 9179
relief shading vs layer tints as supplements to contour lines, map use problem solution, military personnel, 2207
role of women in military, Australia vs Canada vs UK vs US, 10296
satisfaction with Army family practice clinic, patients, 4124
tactical engagement simulation, unit proficiency assessment, combat units, 4529

use of military maps to locate military targets & relate them to own position, Os, training implications, 2213
Military Psychology
factor analysis, combat intelligence rating structure, 4765
military psychology, symposium proceedings, 11062
Military Recruitment
development of Military Aptitude Predictor, selection of military personnel, 11439
Likelihood Function Estimation model for enlistment standard, prediction of first term success, airmen, 11426
mathematical model, US Air Force recruiting resources & goal allocation decisions, 6859
Military Schools
curriculum development & organizational variables, evaluation of military & nonmilitary course authoring systems, 2096
Military Training
abstracts of Army Research Publications, 1974 & 75, 122
academic performance & retraining status & aptitude & amount of military service & career status & background experience, performance in technical school, US Air Force retrained airmen, 13747
accuracy of Motivational Attrition Prediction computerized algorithm, prediction of graduation, US Air Force pilot & basic military & technical trainees, 6837
aircrew training requirements & aircrew training device fidelity features, US Air Force personnel, 13737
aptitude & training measures, prediction of tank driver & gunner & tank commander performance, US Army trainees, implications for tank crew position assignment, 13695
attitudes toward Computer-Assisted Instruction, training performance, army enlisted personnel, 11432
authoring systems vs languages & computer based instruction & artificial intelligence, implications for Department of Defense, 13692
backward chaining, air-to-surface weapons delivery training, US Air Force pilots, 2223
basic military training, emotional & social & intellectual functioning, male young adults, Sweden, 4514
Basic Rifle Marksmanship Test pre- and post-training application, measurement of attitudes on instructional programs, male vs female army trainees, 11441
battlefield simulation in training, job motivation & satisfaction, soldiers, 6787
change in occupational specialty, academic performance & attrition rate, retrained US Air Force enlistees in technical schools, 6835
college background pipeline assignment, flight training performance & drop out rate, Black vs White US Navy flight officer candidates & officers-under-instruction, 6816
combat simulation vs conventional rifle training, motivation & job satisfaction, US Army personnel, 11440
computer assisted battle simulation vs conventional manual command post exercise, training for battle command & control, commanders, 13734
computer assisted team training, review & evaluation of literature, 2234
computer generated day vs night scenes, training effectiveness for acquisition of takeoff & landing skills, novice Air Force pilots, 11434
cost & effectiveness of computer-based instruction in military training, 2236
day vs night visual scenes, jet pilot training, 4512
demographic & pre- & posttraining job experience factors, job performance, US Air Force Security Police, 6846
detection ranges for features of armored vehicles, 9143
development of improved tactical symbology & application to military map making, 2205
development & US Army training applications, light-attenuating devices for simulation of night visibility during daylight, 9197
distance, recognition & identification of armored vehicles, US Army helicopter crewmen, 11429
factors influencing use of aircrew training devices, US Air Force Personnel, 13726
ground attack training, stress reactions, student pilots, 4510
imagery techniques, maintenance training, US Air Force students, 4501
instructor behavior, stress and performance, student pilots, 4509
learning aptitude & error tolerance & achievement level, visual tracking task performance, US Army helicopter pilot training students vs dropouts, selection & training implications, 2241
light attenuating devices for night armor training in daylight, 11423
light attenuating devices for simulation of night conditions vs night training, tank driving & machine gun assembly night performance, army trainees, 11424
long range recognition & identification for camouflaged armored vehicles, training implications for helicopter crewmen, 7193
military psychology, symposium proceedings, 11062
military research on development & use of performance measure criteria, 236
mnemotechnics, memory enhancement, literature review, implications for military training, 4505
model for criterion-referenced system of evaluation for combat operations unit effectiveness, US Army personnel, 6847
motor skill level, cognitive controls & learner strategies & information processing, training implications, 308
multidimensionality & predictive & construct validity of Least Preferred Co-worker Scale, US Army reservists in field training, 4826
number of flights & level of naval flight officer training, incidence of airsickness & vomiting & inflight performance, Naval Flight Officer students, 11431
potential use of state-of-the-art simulation, flight simulator maintenance training, US Air Force personnel, 6789
prediction of air-to-ground target recognition in reconnaissance missions as function of photometric & geometric characteristics, 9137
predictive validity of 16PF prediction of military performance as measured by officers' ratings & peer nominations & course grades, female officer trainees, 7047
primary training with support training & studying strategy, acquisition of technical skills & knowledge, college students, 2227
REALTRAIN combat simulation, job satisfaction, military trainees, 4516
research on military training & battalion systems & illicit drug use, US Army personnel, selected military reports, 2216
runway textured visual cues, flight simulator landing performance, military instructor pilots, 6818
similarity of adjunct & test questions, study behavior & learning, male US Naval Training Center students, 13728
simulation games as part of model training system, learning tactical decision making, small combat arms unit leaders, 9174
simulation of night visual conditions during day, night rifle marksmanship performance, US Army personnel, 9198
simulator field of view requirements for carrier landing training, 11425
speed judgments of moving targets & spatial estimates of visual displays, gunner trainees, 4508
standardized procedures & documentation systems, analysis of task analysis data, training, US Air Force technical personnel, implications for computerized task analysis data bank, 4500
tactical engagement simulation, unit proficiency assessment, combat units, 4529
tactical engagement simulation system, assessment of combat unit effectiveness, army personnel, 11445
tactical engagement simulation training method, identification of critical combat behaviors, 2239
training effectiveness, visual & motion simulation, US Air Force pilots, 13739
Training Extension Course vs regular combat arms instruction, performance & retention, US Army personnel, 9167
training priorities model, assignment of occupational training, US Army supervisors & instructors, 6822
training program, use of acoustic sensor to identify convoy vehicles, sensor operators, 11436
use of military maps to locate military targets & relate them to own position, Os, training implications, 2213
use of pilot self assessment data, analysis of pop-up weapon delivery maneuver performance, Air Force pilots, training implications, 6791
validated procedures for task analysis, military technical personnel training, 2228
Military Veterans
change in attitudes toward smoking over 4-yr period, smoking vs nonsmoking patients in VA hospital, 7998
college enrollment & performance, veterans with honorable vs general discharges, 13606
combat experience, posttraumatic stress reactions, male Vietnam veterans seeking treatment for drug abuse, 5919
hospital self help programs, control of chronic benign pain, veterans, 8672

hypnotherapy, Vietnam Combat Delayed Stress Response Syndrome, 32 yr old male veteran, 10948
phenelzine therapy, improved adjustment, male veterans with war neurosis, 1850
possible applications for biofeedback training in VA hospital system, 8711
reactivation of stress disorder, 55 yr old World War II veteran, 8141
Minimal Brain Disorders
decreased role taking ability, 7–13 yr olds with minimal brain dysfunction-590 02, 13145
drug therapy, 18–46 yr old psychiatric patients with minimal brain dysfunction, 1851
etiology & symptoms of early childhood minimal brain dysfunction, 13088
factor analysis of primary symptoms of minimal brain dysfunction/hyperkinesis, variance due to information sources, 4–12 yr old males, 6144
hyperactive & distractible syndromes vs dyslexia as categories of minimal brain dysfunction, 8094
incidence of minimal brain dysfunction, 5–7 yr old children of mothers aged 35 or older at time of birth, 8326
metabolic & nutritional aspects, minimal brain dysfunction & attention deficits & learning & language disorders & hyperactivity, 8121
neurochemistry & clarification of basis for serious developmental disturbances & psychoactive medication, children, 12902
pemoline therapy & presence vs absence of childhood hyperactivity, adults with attention deficit disorder, 1879
pimozide, treatment of minimal brain dysfunction, 22 yr old male, 6404
socioeconomic status & parenting styles, primary & secondary symptoms, hyperkinetic minimal brain dysfunction males, 6157
standard vs sustained release methylphenidate, minimal brain dysfunction, 6–14 yr olds, 4109
validity of Sudden Interruption of Continuity on Bender-Gestalt Test, group screening for minimal brain dysfunction, 13077
Minimally Brain Damaged
impulse control procedure, hyperkinesis, minimally brain damaged male 8 yr old, 11330
inhibition of neurons vs perceptual & associative mechanisms, physiological learning theory, implications for minimally brain damaged children, 11941
Ministers (Religion)
conservative vs liberal theological orientation & seminary training level & counseling experience & training, facilitativeness in pastoral counseling, Protestant ministers, 2051
psychological & theological components & role of childhood experiences, R. C. Stapleton's ministry of inner healing, reply to J. M. Alsdurf & H. N. Malony's criticism, 7940
psychological & theological components & role of childhood experiences, R. C. Stapleton's ministry of inner healing, criticism of J. M. Alsdurf & H. M. Malony's article, 7932
psychological & theological components & role of childhood experiences, R. C. Stapleton's ministry of inner healing, reply to criticism of J. M. Alsdurf & H. N. Malony, 7933
psychological & theological components & role of childhood experiences, R. C. Stapleton's ministry of inner healing, reply to J. M. Alsdurf & H. N. Malony's criticism, 7950
psychological & theological components & role of childhood experiences, R. C. Stapleton's ministry of inner healing, reply to criticism of W. Buell & L. Propst, 7930
psychological & theological components & role of childhood experiences, R. C. Stapleton's ministry of "inner healing", 7929
role of pastoral counselors & counseling as sacramental act, 1139
Minn Multiphasic Personality Inven
anesthesiologic vs psychiatric treatment & sex & type of pain, MMPI scores, chronic pain patients, predictive implications, 1677
attitudes toward success & failure, psychological maladjustment as measured by MMPI, male VA hospital inpatients, 1427
changes over time & age & yr of birth, MMPI profiles, police academy recruits, 9330
comparison of personality inventories, psychiatric & physical rehabilitation patients, Netherlands, 2417
computerized interpretation of MMPI results, implications for clinical use, 4801
demographic characteristics & type & severity of psychopathology as measured by MMPI, patients of private practice psychologists & psychiatrists, 4007
development of MMPI index, prediction of acting-out hostility, female prisoners, 11676
development & validity & reliability of MMPI alexithymia scale, 15–72 yr old hospitalized respiratory patients, 11662
diagnostic accuracy of Mini-Mult form of MMPI, 19–58 yr old male psychiatric patients & female nursing students, 2504
discriminatory accuracy of MMPI scales vs 2-point codes, schizophrenic vs neurotic vs brain damaged vs alcoholic patients, 179
field dependence & scores on MMPI Hysteria & Psychasthenia scales, female psychiatric patients, 1448
incremental validity of MMPI in neurological decision making, 9411
masculinity & femininity assessed by MMPI vs Bem Sex Role Inventory vs Personal Attributes Questionnaire, 238
measurement of masculinity & femininity using MMPI Mf vs California Psychological Inventory Fe scales, 4774
MMPI, predictor of weight loss, females, 2547
MMPI alexithymia & panic-fear personality scores, days of rehospitalization & severity of illness, adult asthmatics, 13116
MMPI differences, male Hispanic-American vs White vs Black heroin addicts, 6043
MMPI norms, male alcoholics, US vs Norway, 2498
MMPI profiles, physicians hospitalized in psychiatric institution vs drug treatment center vs healthy physicians, 1367
MMPI scores, predictors of outcome of short vs long term hospitalization, schizophrenics vs nonschizophrenics, 2428
MMPI scores indicative of psychopathology, male psychiatric outpatients without sexual dysfunction vs premature vs retarded ejaculators, 3925
MMPI standard vs modified F scale & behavioral ratings, Black vs White psychiatric patients, 4829
MMPI two-point code type frequencies, 15–28 yr old drug abusers, 2509
MMPI vs D. Offer's Self-Image Questionnaire, measurement of personality dimensions & psychopathology, 14–21 yr old patients, 9332
patient characteristics & posttreatment alcohol abstinence & polydrug abuse, MMPI profile, inpatient alcoholics, 8219
predictability of MMPI scales, antidepressant responses to lithium therapy, male vs female outpatients, 9326
predictive ability of MMPI, imipramine response, hospitalized male depressives, replication of study by E. F. Donnelly et al, 11679
prorating incomplete J. S. Wiggin's Content Scales & MacAndrew Alcoholism Scale from partial MMPI, 9422
Psychiatric-Organic Special Scale of MMPI, differential diagnosis, male organic & psychiatric patients with mean age of 58 yrs, 9358
psychosexual development, panic-fear personality types, 14–76 yr old asthmatic patients, 1573
published procedures for MMPI, diagnostic discrimination between organicity & schizophrenia, 11657
reciprocal analysis of acute symptoms & MMPI test data, diagnosis & therapeutic decision, psychotherapy clients, 6253
selected MMPI scales, differentiation between violent & nonviolent prisoners, 18–40 yr old inmates, 9363
use of Mini-Mult profile signs to identify appropriate psychotherapeutic drugs, community mental health center clients, 11688
validity & interrelationship & racial bias, MMPI alcohol & drug abuse scales, male prisoners with mean age 22.3 yrs, 11698
validity of Arabic version of MMPI Masculinity-Femininity scale, male vs female college students, Kuwait, 11693
validity of MMPI, need for regionally adapted norms, high school students, Argentina, 11634
validity of MMPI codetypes, diagnosis of DSM-II vs -III schizophrenia & depression, schizophrenic & affectively ill patients, 4843
validity & stability of MMPI panic-fear scale in asthma, 13–72 yr old asthmatics, 4781
validity & use of MMPI & Goldberg Index, screening & differentiation of acceptable vs unacceptable police applicants, 9384
Minnesota Teacher Attitude Inventory
information about purpose of test results, scores on Minnesota Teacher Attitudes Inventory, college students, implications for validity, 2459
Minor Tranquilizers [See Also Chlordiazepoxide, Chlorprothixene, Oxazepam]
chlordiazepoxide vs diazepam vs medazepam vs bromazepam, scopolamine-induced locomotor stimulation, mice, 12399
drug abuse prevalence, male vs female medical residents, India, 13049
effect of minor tranquilizers & convulsants & anticonvulsants applied to benzodiazepine receptor sites, male rats, 12393
flurazepam, methylphenidate-induced stereotyped behavior, mice, 7687

ketazolam vs diazepam 1 vs 3 times/day, anxiety symptoms, anxious 18–67 yr old outpatients, 8569
nitrazepam vs triazolam, 19–20 yr old male psychiatric insomniac inpatients, 13319
Minority Group Discrimination
antidiscrimination legislation, validity criteria for job selection process, Australia, 6826
equal employment opportunity issues for women & minorities, 4515
Jungian psychological types of work of S. Aleichem, 3259
prejudice & discrimination, Turkish emigrants working in West Germany, 5606
reliability of measure of institutional discrimination against minorities, 173
research & theory on discrimination, literature review, 3494
sociology of sports, literature review, 3610
survey of prejudices & discrimination in school psychology profession, members of Division of School Psychology of American Psychological Association, 8751
Minority Groups
cognitive skills training program, trainable mentally retarded 13–14 yr olds, implications for use with minority students, 11322
conservatism & general vs specific ethnocentrism, Protestant vs Catholic adolescents, Northern Ireland, 12655
desegregation & classroom environment & learning techniques, liking for other students & reduced competition & interest in school & self esteem, Anglo vs minority students, 4265
equal employment opportunity issues for women & minorities, 4515
historical & social structure factors, police-minority conflict, 3472
impact of majorities vs minorities & proposed theory of social influence as unitary concept, 12770
internal external locus of control, selected bibliography, implications for counseling & education of high risk & minority students, 12871
nondiscriminatory psychological assessment for minorities, future of school psychology, 13688
prevalence of communicative disorders & needs of minority groups, child health care center, 8628
problems in provision of mental health services for ethnic minority females, 10991
racial & cultural variations, Asian American & Black & Chicano & Native American families, U.S., literature review, 1970's, 10221
suggestions for employment interview behaviors, minority applicants, 9170
validity of standardized academic achievement tests, minority & disadvantaged children, 11647
Misbehavior [See Behavior Problems]
Miscarriage [See Spontaneous Abortion]
Miscegenous Marriage [See Interracial Marriage]
Misconduct [See Behavior Problems]
Misdemeanors [See Crime]
Mistakes [See Errors]
Mnemonic Learning
congruity between mnemonic learning & type of task, free recall of verbal material, 2803
eidetic imagery, recall accuracy, 3.5–4.5 yr olds, 3371
historical roots & contemporary implications, experimental research on mnemonics, 7253
imagery vs peg system vs link vs loci method as mnemonic techniques, word list recall with vs without positional criteria, college students, 5043
keyword method, foreign language learning, US Army personnel, 4504
keyword method of teaching Spanish language vocabulary, keyword learning, kindergartners & preschoolers, 11201
keyword technique, recall of vocabulary words from definitions, college students, 11968
metamemory research, children, implications for education, 10082
mnemonic keyword method, foreign language learning, college students, 5028
mnemonic strategies, facilitation of prose recall, college students, 11939
mnemonic strategies, short term memory in motor learning, educable mentally retarded, 3881
mnemonic strategy & motivation to learn, paired associate learning, college students, 9568
mnemotechnics, memory enhancement, literature review, implications for military training, 4505
organization training, grouping & recall of words in list, 4–6 yr old kindergartners, 2100
role & activation of metamemory in development of mnemonic performance, 7 vs 10 vs 17 yr olds, 1048
study-test vs anticipation learning methods, learning performance with difficult material, college students, implications for retention interval hypotheses, 2785
use of mental images in cognitive operations & as aid in learning & memory, 11911
Mobility (Occupational) [See Occupational Mobility]
Modeling [See Simulation]
Modeling Behavior [See Imitation (Learning)]
Models [See Also Medical Model]
absenteeism & personal characteristics & job situation & satisfaction, production employees, evaluation of R. M. Steers & S. R. Rhodes's model, 9195
accuracy of rank-related attractiveness model, adult female monkeys, 5150
activation version of consistency model of personality, 5838
adaptive topographics, models of kin selection, 7971
adequacy of stage models, decisions to accept innovation, transportation personnel, 4549
African vs Western models & values, magazine advertisements, Africa, 1133
analysis of auditory localization models by R. Gatehouse & W. Cox vs Searle et al, 11865
analysis of 5-factor model, natural language of personality, 133
animal models of developmental disorders including hyperkinesis, 10428
applicability of M. Fishbein's model of attitudes & beliefs vs other models, changes in attitudes & beliefs between disagreeing peers, college students, 10337
applicability of scientist-professional model & future trends in clinical psychology, 2018
application of multiattribute attitude models to managerial problem solving & decision making, marketing, 13800
applications & Bayesian model, multimembership & multiperspective classification in pattern recognition, 2557
aspects of service organization & development of emergency room & mobile response models, emergency psychiatric services in community mental health centers, 13385
association with same-sex peers, 18–20 yr old males, implications for nonhuman primate model of subadult developmental stage, 1078
associative vs information processing vs contextual approaches, educational research on adult learning, 5500
Augmented Transition Network vs 2-stage parsing model in sentence comprehension, 958
availability of options, influence on perception & sense of injustice, 1260
background luminance & oscillation of peripheral gratings, elevation of foveal increment thresholds, test of threshold detection models, 4948
behavioral mechanism, abnormal behavior, 3755
behavior & environment & medication in diagnosis & treatment of hyperactive children, evolutionary model, 8351
bilateral presentation of print vs picturable nouns vs CVC nonwords vs line drawings, visual hemifield superiority in noun & word naming, adults, 7505
biphasic membrane penetration model for action of gymnemic acids & ziziphins on taste receptor cells, methodological & experimental design implications, 742
causal attribution & efficacy questions in family therapy, 13242
causality & logic models in epidemiological psychiatry, comment on P. Bebbington's paper, 4858
causal model, effect of teacher communication of expectations on sustained student achievement, 8913
causal models in epidemiological psychiatry using contingency tables, comment on P. Bebbington's paper, 4853
causal models in epidemiological psychiatry, comment on P. Bebbington's paper, 4876
causal relationship encoding ability model of H. S. Cairns & J. R. Hsu, linguistic encoding of temporal concepts, college educated adults, 10046
child focused mental health consultation model, teachers, 2180
client expectancy & motivation & approach tendency & avoidance tendency, therapeutic success in client-centered counseling, 20–40 yr olds, 4000
CNS, regulation of rhythmic movements, animals, 7446
cognitive attribution & emotion & action model of judgments of help giving behavior, 3665
cognitive-behavioral intervention involving changes in parenting style, child abuse, 8547

cognitive domain modeling vs estimation of degree of implementation, measurement of educational treatment, literature review, 9277
cognitive vs affective processing systems & models of humans, 12746
commentary on H. J. Eysenck's conditioning model of neurosis, 6941
complexity of welfare administration project computer model, optimization of total welfare in decision making, college students, 95
computational method to extract surface slant & edge labels from optical flow velocity patterns, development of mathematical & physiological models & computer program, 53
computer simulation, central neural activities of pain vs touch perception, 9280
computer simulation tests of semantic networks & spreading activation models of human memory encoding & retrieval, 9585
conceptual model identifying environmental sources of psychological dysfunction in women, implications for clinical behavior therapy, 10856
conceptual models of family image & psychological family & relationship to custody & adoption & foster care, 7978
conceptual model & theoretical framework, training group therapists, 4201
conceptual representational theories & research models, modeling of memory & language, 11974
conceptual structures, analysis of operator behavioral data, 2271
construction of semantic memory model as problem solving system, 11923
consultation model for mainstreaming behaviorally disordered children, 11300
correlation of personality traits, speed & confidence of inferences from given to probe traits, college students, implications for weighted averaging models of trait integration, 5802
critical issues in behavior therapy, 8561
critique of descriptive diagnostic models, schizophrenia, implications for phenomenologic approach, 8136
critique of life span research models, adult development, women, 5463
critique of message model, linguistic communication, 5420
curriculum development & model, social skills training program, literature review, 1655
cybernetic model showing impossibility of justification of scientific knowledge by epistemological constructivism, 6960
deal purchases & consumer characteristics, repeat purchase probability, logit model, 6910
decision-theoretical model of moral behavior & act- vs rule-utilitarian theory, voting behavior, 5595
definition & distinction between models, primary mental health prevention, 13382
description & critique of Developing Models for Special Education, educable mentally retarded & learning disabled & emotionally disturbed kindergartners through 2nd graders, 2147
descriptions of work vs nonwork time, compensatory vs spillover models of adjustment to work, pharmaceutical firm & research organization employees, 2218
descriptive model, intelligence analysis, military personnel, 4527
deterrance model of interaction between motivation & costs, income tax cheating, 13047
developmental model, concept formation, 5530
developmental model & measurement technique, defense against perceptgenetic threat, female college students, 12834
developmental model of career/vocational assessment, handicapped students, 2165
development of set of 3-class models, description of mathematical behaviors for ascertaining mastery levels, 7–11 yr olds, 9068
dextroamphetamine & apomorphine, flash-evoked afterdischarge as model of petit mal epilepsy, rats, 5385
differential diagnosis-prescriptive teaching instructional model in special education, literature review, 8955
discrepancy & involvement & source credibility, attitude change, 12806
discrimination model of rational repetitive choice, criticism of Siegel-Ofshe model of gain maximization, 11710
distribution of activity model, prediction of interactive effects of 2 simultaneous movement directions on movement aftereffects, 4930
dopaminergic breakdown & cognitive deficit in schizophrenia, 3789
dual process model of arousal in schizophrenia, implications for research, 10490
ecological model of family's childrearing role, 7956
ecological perspectives of coping process, development of model for community psychology, 12861
econometric model of crime & punishment of G. S. Becker, criticism & literature review, 1508
educational programs, facilitation of social cognitive development described by stage sequence & utilization & acquisition processes model, 1st & 6th graders, 4299
elements & analysis of model, triadic interaction patterns in families, 2319
emotionality & REM sleep deprivation, swimming model, male rats, implications for drug therapy of depression in humans, 3784
empirical evidence for vs against neurological model of J. Levy & M. Reid of writing hand/posture, 7503
empirical test of M. A. Nowakowska's 2-group model of group participation, 287
equations derived from V. C. Smith & J. Pokorny's cone sensitivity values, chromatic discrimination models, 11776
estimation of differences between stimulus pairs, organization of stimuli along dimensions, graduate students, 11769
ethnic variations, model of interpersonal orientation in consultation, Black vs White school mental health consultees, 4424
evaluation-remediation program model, significantly handicapped, 8740
evidentiary value vs theme probability models, evaluation of judicial evidence in criminal cases, judges & prosecutors, 5675
evolutionary & genetic model of emotions, decision making, 5468
excitatory-inhibitory model for spatiotemporal characteristics of visual mechanisms, 4850
exemplar vs prototype models of category representation, aural classification, 4954
expectancy of future need & affect, helping behavior, college students, 3648
experimental procedure, measurement of individual preference in choice of grocery store, 4822
explanation & research & models of human behavior & natural disasters, literature review, 1318
extension of traditional play therapy model, family play interactions, 8471
family practice model, clinical psychology, 3960
family therapy model, independence of aged family members & improved intergenerational relationships, 13255
feature frequencies among focal instances & degree of overlap with contrast instances, typicality ratings & frequency estimates of whole stimuli & features in prototype formation, college students, 7221
field based vs physical science/laboratory model for guidance & counseling research, programs in deliberate psychological education, 2199
flexibility in executive strategies for problem solving, 10374
flowchart model, psychodramatic process, 6306
forms of mental representatives & reasoning processes & inference & representations of word meanings, cognitive science, 11549
formulation & validity, computerized instructional adaptive testing model, 9097
functional learning curricula model, handicapped secondary school students, 2169
fuzzy set concepts in model of learning disability, 6073
generic vs single substance abuse model, alcohol addiction, 10570
genetic model, research in schizophrenia, 3781
geometric analogies, information processing & individual differences, college students, 11721
Goals vs Systems Models for organizational effectiveness evaluation, special services departments in public schools, 11369
goodness of fit tests for probabilistic response models, 2573
guidelines for value orientation analysis in counseling research, adaptation of F. Kluckhohn's anthropological model, 4675
hierarchical model, description of 19th century psychological-psychiatric theory development, 9251
hierarchical model, sequencing of psychomotor skill acquisition, right handed 18–30 yr old males, 7155
hierarchical vs heterarchical vs coalitional models of motor organization & control, application to theories of apraxia, 10695
hierarchic representations of output in motor programing, playing music of Chopin & Bach & Bartok, professional pianists, 7237
imaginal & propositional representations of moving objects, college students, implications for mental rotation hypothesis & propositional model, 11915
individual differences, model of adaptive behavior, 2310

induced hyperphenylalaninemia & cerebral lateralization, hyperactivity & learning ability, rats, implications for animal models of phenylketonuria, 7533
inference processes in retrieval of information from long term memory, college students, 5040
information processing model, psychokinesis, 2313
information processing model of perception based on psychophysics & phenomenology & information processing aspects of visual perception, 4891
injury, activation of fear motivation system & accompanying defensive behaviors & pain motivation & accompanying recuperative behaviors, animals, 5138
integrated model of functional interhemispheric relations, selective attention, literature review, 7454
integrative model of organizational behavior & management of change, 4559
integrative models of explaining behavior, short courses in teacher training seminars, 6643
intent to stay & opportunity & general training & job satisfaction, causal model of turnover, nurses, 13500
interactive activation model, perception of letters in words & other contexts, 11825
interpretation of absolute zero point, Rasch model, 11713
intrastriatal kainic acid & pentylenetetrazol, induction & potentiation of clonic convulsions, male rats, animal model of human temporal lobe epilepsy, 5398
"intuitive lawyering" alternative to scientific model in attribution process, 8041
investigation of models for shifts of attention to parts of visual field without changes in fixation, college students, 2746
latent trait models, probabilistic measurement structures, 2564
leadership as means of solving organizational problems, problem appropriate behavior model, 13759
learning stations model, management of behavior & individualization of instruction in resource rooms, 8972
letter features vs word masks, mediation of word identification by component letter identification, high school & college students, 7255
Likelihood Function Estimation model for enlistment standard, prediction of first term success, airmen, 11426
limitations in use of conceptual model & performance measures of signal detection theory, measurement of vigilance & visual search & auditory detection, college students, 7153
list & model of English palindromes, 5429
literary & psychological visual models for perception of insane, 5952
log-linear & logit-linear models, analysis of contingency tables, implications for educational research, 2555
man-machine model for industrial ergonomics, 4577
masking model, contrast detection & discrimination & masking phenomena, adult O's, 11817
McCarron-Dial Work Evaluation System, development of vocational goals & objectives within individualized education program, 16–21 yr old handicapped students, 2160
medical vs behavioral model in psychiatry, 13183
meta-analytic investigation, statistical validity of F. E. Fiedler's contingency model of leadership effectiveness, 10341
methodology for inferring hierarchical choice processes from panel data, 4730
model, detection & recognition of 2 parallel lines based on detection of individual lines, Ss, 11807
model, prediction of intrinsic vs extrinsic work attitudes, managers, 11468
model, prediction of loudness discrimination, 11872
model, study of family & child & school relations during school initiation stress, 11260
model based on asymmetry in mate selection, study of familiar similarity, 12175
model & computer program for analysis of clarity judgments, comprehension of directions in natural language texts, 11600
model for adjustment of examination marks, 9090
model for crisis intervention, students, 6746
model for criterion-referenced system of evaluation for combat operations unit effectiveness, US Army personnel, 6847
model for hospital ward design evaluation, working environment satisfaction, nurses, 6573
model for implementation of mental health program performance measurement system, 6466
model for observation & classification of triangulation in families & other groups, 7979
model for primary prevention, child psychiatry, 1634
model for psychological consultation, retarded children in rural child development centers, 6457
model for sequencing & synthesizing & summarizing subject matter content, instruction, 8896
model of attitudinal vs dispositional vs situational interpersonal predictions, impression formation, male vs female college students, 10355
model of bargaining & conflict, 2-person systems at group & organizational & societal & supranational system levels, 1227
model of clarification process for problem solving & decision making, 417
model of decision/problem state, 418
model of experiences of & adjustment to interracial marriage, Chinese husbands of Western wives, Hong Kong, 12673
model of factors affecting career commitment, working women, Republic of South Africa, 13723
model of functional psychoses, 5989
model of human sentence parsing mechanism, reply to criticisms by E. Wanner, 12428
model of instructional variables, identification of influential factors affecting effectiveness of traffic safety education, 11206
model of interpersonal behavior, facilitation of research on teaching of interpersonal skills, mentally retarded, 8960
model of learned helplessness, literature review, 1480
model of length of time after prison release until recidivism, evaluation of correctional program, 13446
model of psychiatric care, hospitalized patients, 6500
model of psychotherapy for psychosomatic disorders, 1698
model of risk of falling, psychogeriatric patients, 1366
model of school & teacher variables, academic achievement, students, literature review, 8911
model of self fulfilling prophecy, 5846
model & research methodology & applications, technique for multidimensional measurement of involvement with social & political problems, 11610
models, processes underlying magnitude estimation, 11591
models of affective education, 13582
models of analytic group psychotherapy, 13260
models of educational research, 13540
models of interpersonal conflict behavior, male college students, 8004
models of prospective membership & anxiety associated with forgetting vs remembering without performing, college students, 11955
models of role orientations, faculty & administrators at research oriented university, 11167
models of student behavior & achievement in small group vs individual settings, implications for teaching & classroom grouping practices, 2113
model & specific treatment techniques, divorce adjustment therapy, 10818
model systems analysis of neurophysiology of learning, 12231
multidimensional model of personality, 1308
multidimensional scaling analysis of work outcomes, criticism of extrinsic vs intrinsic dichotomous models, 243
multimodal behavior therapy approach, assessment & treatment, children in child care agencies, 10989
multimodal therapy model, diagnosis & treatment, children in social service center, 10990
multiproduct advertising-sales model, measurement of consumer behavioral process, 2301
multivariate aptitude-treatment-interaction data, 284
natural selection model, sex ratio control, parasitic wasps, 2899
neuroleptic induced reinnervation sprouting in CNS, model for development of tardive dyskinesia & supersensitivity psychosis, 10735
neuropsychological models of cognitive processes & strategies, implications for mental retardation, 7478
neuropsychological models on role of CNS, developmental dyslexia, literature review, 8231
new data collection & analysis procedures & positions model, perspective taking ability & spatial development, 1st–6th graders & college students, 7789
oblique vs orthogonal rotational analyses of J. P. Guilford's structure of intellect model vs alternative model, 264
optimal property of least squares weights, prediction models, 9446
outline of information theory in psychology & engineering psychology & mental models of problem solving, 11560
path analysis in counseling research, 4862

path analytic validation, Weiner's cognitive model of achievement behavior, 4653
phenomenological model, ego-consciousness, schizophrenics, 13003
physiologic mechanisms in animal models of "sudden death", 2367
prediction of intention to attend church & church attendance, college students, comparison of H. C. Triandis's & M. Fishbein's models, 5788
predictive validity, linear-logistic test model for analysis of progressive matrices, 15–18 yr olds, 7018
predictive validity, model for assessment of prediction of job preference & anticipated satisfaction, college students, 4837
predictive validity, models for decision making in signal detection task using simultaneous auditory & visual stimuli, college students, 11751
preferences & perceptions of communication styles, husbands & wives, 3528
preferred model selection, validation of hierarchical learning scales for subtraction tasks, 8–11 yr olds, 2171
probability model based on binomial distribution, variability in speech discrimination scores, 4767
problem centered systems model, family therapy, 13243
problems in inference of competence from performance, criticism of Piaget's logical competence models, 5477
procedures based on 1- vs 3-parameter logistic models, reliability of tailored achievement tests, college students, 9106
process model, primary mental health prevention programs, 4152
process model of behavioral therapy, 8524
process of habituation, model of human aging, 12461
prototypical models & development & operation, independent living programs, 8726
psychoanalytic kindergarten as model, prevention of psychic disease, 1629
psychophysical models of iconic storage, 341
psychophysiological model for work systems based on industrial research, 9202
psychosocial events, atypical bleeding & application of conversion model, 14 mo old male hemophiliac, 3896
purchase vs doctor-patient vs process consultation models of consultation with teachers, 11161
quantitative structural neuronal circuit model, orientation selectivity in striate cortex, 5206
random configurations in PINDIS model for individual differences scaling, expected fit values, 136
Rasch model as loglinear, 11712
rational emotive psychotherapy, characteristics of client's private thoughts, 8432
reconceptualized expectancy model used for predictions of key entry performance, actual average performance, key entry operators, 11447
reduction-method model, 3-dimensional memory traces, college students, 2792
reference level model of expectancy & alcohol intoxication, literature review, 1204
restructuring of functional control arrangement of wrist movement based on multilevel neuromuscular control model, restoration of function lost by Parkinson's disease related pathology, 6143
retrieval-dependent vs -independent models of knowledge of routine activities, 1283
scalar vs linear values of differentials in statistics, 9464
scaling model, survey monitoring of subjective indicators, 37
school psychological consultation service, preference for consultation vs referral models & perceptions of severity of acting out & withdrawal & academic problems, teachers, 2185
self efficacy model of career development, women, 4484
"self theory" for consumer personality research, 11528
sentences explicitly &/vs implicitly defining agent &/vs patient &/vs instrument, identification as true vs false vs uninformative vs implied, college students, 9983
sequential criterion analysis for assessment of coping with chronic illness, 1623
set of computer-implemented models, solution of physics problems in ways characteristic of more & less competent human solvers, 11589
sex & ethnic & socialization differences, early drug use, Black vs Puerto Rican inner city 7th graders, implications for socialization into drug use causal model, 1107
sex roles & family & society, literature review, 10220
simplex vs common factor causal models of drug use, 7th–9th graders, 12589
simulation model construction, superior & subordinate interactions, 10343
simulation of exemplar-based classification model for demonstrating differential forgetting of prototypes & old instances, 4987
social reinforcement & learning model, alcohol usage, hospitalized adolescents, 13052
socioeconomic determinants of intelligence, aged, 7760
sociological & clinical models of family, literature review, 10244
spatial metaphors in memory theories in cognitive psychology, 493
spatial model representing interrelationships among affective dimensions, 5062
speaker friendliness & O's position on topic, influence in controversial discussion, male vocational high school students, analysis by process models, 7853
specification of patronage models for retail center choice, suburban consumers, 4603
statistical models for determination of nature of timing control among distinct movement phases in repeated motor activity, 292
STEPPS model, evaluation of school psychological services, 11347
structural equation analysis & model, impact of attitudes on behavior vs behavior on attitudes, college students, 12837
structural modeling techniques vs learning hierarchy model as approaches to analysis of skilled behavior, literature review, 9561
structural model involving job factors & perceived influence upon them, job satisfaction, semiskilled industrial workers, Israel, 13763
structuring decision problems for decision analysis, 5010
strychnine sulfate injections following T maze learning trials, facilitation of retention, male rats, test of consolidation vs retrieval models, 899
tacit vs conscious knowledge, pattern recognition, implications for models of human memory, 471
target word primed by word near vs far from target & presentation time, facilitation of word recognition, college students, implications for spreading activation model, 11971
taxonomic model for psychology of work, 11409
taxonomy & framework for appraisal, counseling program evaluation models, 4153
testing of model, telephone crisis intervention, 13383
theoretical directions in schizophrenia research, 12989
theoretical model, cognitive mediation of vocational interests & abilities & performance & success, 11415
theoretical model, effects of expectancies on placebo effect, 11555
theoretical model, humanistic counseling research, 99
theories & models, human development, 7765
tribal model of scientific communities, 6548
urban territoriality & social networks & urban design, resident-based model of community crime prevention, 1125
usage & conceptualization of mental health constructs, gerontologists, 7905
utility of curvilinear "comfort" models, interpersonal distance preferences, college students, 1245
utility of variables in selection model as predictors of candidate selection & future performance, clinical psychology & counseling Master's degree applicants, 8784
validation methodology, computer simulated decision making models, 4751
validity & generalizability of multivariate predictive model of organizational commitment, employees at facilities for developmentally disabled, 13773
validity & use of skilled performance information processing model in Aircraft Landing test for pilot selection, Canadian Forces pilot trainees, 2230
various neuroleptics, induction of dystonia & dyskinesias & other extrapyramidal side effects, male squirrel monkeys, implications for animal models, 902
verification vs disconfirmation model, processing time for complex kinship statements, college students, 9536
views about issues & orientations in clinical psychology training, clinicians & directors of clinical training, 6605
vulnerability model in epidemiological psychiatry, comment on P. Bebbington's paper, 4849
Weibull vs Gaussian distributions, human task performance times, 9437
2-dimensional spectral analysis of cortical receptive field profiles, 7445
2-operation vs 3-operation model, process for determination of subjective ratios & differences in visual discrimination, models of C. T. Veit vs S. J. Rule & D. W. Curtis, 9484
Moderately Mentally Retarded [See Trainable Mentally Retarded]
Mohave Indians [See American Indians]

Mollusca [See Also Octopus, Snails]
acquisition of associative behavior change, membrane depolarization, mollusks, 9752
appetitive food stimulation, defensive reflexes, slugs, 622
arginine vasotocin-like neuropeptide in nervous system, bursting activity of neurons & gill withdrawal reflexes, Aplysia, 9784
huddling behavior, conservation of water, slugs, 12111
level of ambient illumination & influence of diurnal factors, initiation & characteristic features of locomotion, nudibranchs, implications for sensory adaptation, 648
light & rotation, modification of photopositive behavior, mollusk, 552
location of shoreline positioning in relation to high vs low tidal levels, utilization of time for foraging behavior, limpets, 12108
modified tritiated 2-deoxyglucose technique, localization of 2-deoxyglucose in single neurons, gastropod mollusks, 7491
muscular apparatus & motoneural organization in feeding behavior, mollusks, 3007
paired vs random presentation of light vs rotation, change in response latencies, mollusks, 9764
Monetary Incentives
change in amount of monetary reinforcement, negative vs positive incentive contrast effects in RT task, humans, 11999
development of work motivation program using wage incentives, productivity, key entry operators, 13745
friend vs stranger with high vs low cost for helping, help seeking behavior, female college students, 1293
group financial incentives, energy conservation, residents of master-metered apartments, 6893
models of interpersonal conflict behavior, male college students, 8004
monetary incentive vs information, voluntary heart rate control, male college students, 12260
monetary rewards, response strategies & bias in brightness discrimination task, deaf vs hearing 9–12 yr olds, 3895
moral context in which bribe offered, amount of bribe needed to effect attitude change & self presentation of those bribed to observers, college students, 5827
number & absolute magnitude of incentives, enlistment in US Navy, 16–22 yr old civilian males, 4507
performance contingent rewards & productivity, data entry processors, 11442
Performance-Contingent Reward System using economic incentives, analysis of cost effectiveness in terms of production, civil service data transcribers, 13740
preventive care instruction &/vs fee reduction, plaque control, periodontal patients, 6-mo followup, 4120
self modeling with video replay & cash rewards, workshop productivity, physically handicapped, 8723
withdrawal of performance contingent pay system involving monetary incentives, perceptions of supervisors' influence & power, paper plant personnel, 13755
Monetary Rewards
change in amount of monetary reinforcement, negative vs positive incentive contrast effects in RT task, humans, 11999
contingent reinforcement, work performance & behavior, retail clerks, 9180
developmental differences, effect of material vs praise rewards on motivation, kindergartners vs 4th graders, 7898
interdependence vs dependence vs independence, use & development of taking ability, college students, 3663
judgments of others' just vs equal vs equitable allocations, evaluation of equality principle & own allocations, male vs female college students, 3641
monetary rewards, response strategies & bias in brightness discrimination task, deaf vs hearing 9–12 yr olds, 3895
performance contingent rewards & productivity, data entry processors, 11442
probability learning & stimulus monetary value, P3 component of average evoked responses, college students, 772
reward for compliance with small request, subsequent compliance with larger request, housewives, 5836
self modeling with video replay & cash rewards, workshop productivity, physically handicapped, 8723
social evolution, emergence & perception of leadership, college students, 5714
social vs expectancy comparisons, judgments of fairness & satisfaction with reward, college students, 5785
stimuli positively vs negatively correlated with monetary reinforcement & degree of effort, key pressing & observing & plunger pulling behavior, 26–34 yr old male industrial workers, 9588
stimulus presentation to right vs left visual field, decision making in response to changes in signal-to-noise ratios vs payoffs, right handed college students, 428
task design & reward contingency, task performance & satisfaction & measures of extrinsic & intrinsic motivation, college students, 5067
Money
age & sex, understanding of socioeconomic concepts, 6–15 yr old Malaysian Chinese, 7836
curriculum for teaching coin skills, educable mentally retarded with mean age of 9.7 yrs, 11283
interest in & understanding of money, 3–11 yr olds, 7795
Mongolism [See Downs Syndrome]
Monitoring [See Also Vigilance]
computer simulation model, simultaneous control over continuous & discrete tasks, 11512
concurrent performance of failure detection/monitoring & RT tasks, assessment of perceptual & response loads, application of Sternberg's additive factors methodology, 11907
efficacy of monitoring saliva drug levels, depot neuroleptic clinic vs methadone program outpatients, humanitarian & clinical & economic implications, 8575
feedback & stimulus control, pulse transit time discrimination, female college students, 5288
flexible work schedule, self report of family time allocation assessed through log entries, federal workers, 9196
motivation & success expectations & physiological monitoring & voice intonation & spectral analyses, assessment of emotional stress during skill performance, aviators & astronauts & controllers, 6852
nicotine fading & self monitoring, cigarette consumption & abstinence, smokers, 30-mo followup of study by R. M. Foxx & R. A. Brown, 11047
number of monitored channels & accuracy/bandwidth of monitoring, detection of auditory signals of uncertain frequency, college students, 4963
random response technique, assessment of accuracy of self reports, 2342
scaling model, survey monitoring of subjective indicators, 37
self determined reinforcement, accuracy of self reporting for correct daily work, 1st grade arithmetic pupils, 13588
self monitoring, addictive behaviors, review of research, 8198
self monitoring, control of behavior deficits or excesses, college students, 1812
self monitoring, daydreaming frequency, college students, 9615
self monitoring & assertion skill & positive statements, lying & provocative peer statements & appropriate social behavior, 18 yr old female delinquent, 9-mo followup, 10887
self monitoring & EMG biofeedback, anxiety level & EMG, 18–52 yr olds, 1787
self monitoring styles, male vs female college students, 5852
sex differences & participation in performance monitoring & reinforcement, achievement, 6th grade social studies students, 6699
social skills training followed by "buddy system" monitoring of another patient's behavior, appropriate social behavior, 33–38 yr old female retarded-psychotic patients, 6350
steering with vs without rear monitoring & peripheral field of view & steering frequency in simulated tractor operation, RT to & detection of peripheral light stimuli, male graduate students & university staff members, 2272
stimulus complexity & message ambiguity, comprehension monitoring, preschoolers vs 4th graders, 7816
taped radar control room noise, ability to sustain attention to complex monitoring task, males vs females, 2824
temporal order of self monitoring, cigarette smoking, smokers, 13452
Monkeys
accuracy of rank-related attractiveness model, adult female monkeys, 5150
acute vs chronic delta-9-tetrahydrocannabinol administration, sequential pressing of 2 vs 5 differently colored keys, squirrel monkeys, 12348
acute vs chronic propylene glycol dinitrate exposure, operant avoidance behavior & visual evoked responses, monkeys, 5389
age differences, duration of mating, female rhesus monkeys, 9732

alliance formation & proximity & rank & competition, grooming behavior, adult female monkeys, 5169
allogrooming, subsequent proximity & locomotion, male/female pairs of macaques, 7357
amygdalectomy in infancy vs adulthood, escape & avoidance conditioning time, female monkeys, 9903
amygdalo-hippocampal vs selective hippocampal vs entorhinal resections, visual & tactual recognition & object discriminations, monkeys, 12336
animal alarm calls, behavioral responses, free ranging monkeys, 7372
anterior vs posterior inferotemporal lesions, visual discrimination reversal, rhesus monkeys, 5332
apomorphine & biperiden & alpha-methylparatyrosine & physostigmine & muscimol & picrotoxin, haloperidol-induced dystonia, monkeys, 7625
arousal inducement through behavioral task & dextroamphetamine, gains in horizontal vestibullo-ocular reflex, male rhesus monkeys, 12358
auditory & visual stimulation, frontal cortex single cell responses, awake squirrel monkeys, 5248
autoaggression & grooming & walking, singly caged female macaque, 9689
background & maternal & infant variables, prediction of survival at 30 days, infant pigtailed macaques, 2911
behavioral sequences & strategies during group formation, crab-eating monkeys, 5179
beta-phenylethylamine vs pargyline vs apomorphine vs haloperidol, blink rate, male monkeys, 12377
bilateral lesions of pretectum & superior colliculus, learning of pattern vs object discrimination, male rhesus monkeys, 7596
brain injections of immunoglobulin from acute schizophrenics, positive EEG recordings, rhesus monkeys, 864
brain-stimulation reward & feeding, neuronal activity, rhesus & squirrel monkeys, 3003
breeding season, aggressive behavior, female rhesus monkeys, 12140
breeding season vs social condition vs area vs donation by stranger vs known animal & laboratory enclosure vs rain forest, reactions to urine spreading, monkeys, 7351
cell function distribution in parietal association area 7, stump-tailed monkeys, 12214
chlorpromazine, production of dyskinesia vs aggressive behavior vs social interactions, rhesus monkeys, 12388
chlorpromazine & dextroamphetamine with vs without various dosages of naloxone, avoidance behavior changes, squirrel monkeys, 3178
classically conditioned aggression & conditioned suppression, monkeys, 5105
clorgyline vs pargyline pretreatment, reduction in phenylethylamine dose required to produce checking & other behavioral changes, rhesus monkeys, 930
color & brightness preferences in visual stimuli, male rhesus monkeys, 2898
color of visual cue, long term retention of poison based aversion, monkeys, 2854
concentration of GABA, GABA-ergic neurons & receptors in epileptic vs nonepileptic hemispheres, rhesus monkeys, 12328
concurrent shock-postponement FI shock-presentation schedule, maintenance of responding, squirrel monkeys, 543
continuous-access phencyclidine self-administration, physical dependence, rhesus monkeys, 7620
converging visual & somatic sensory cortical input to intraparietal sulcus, rhesus monkey, 725
cortex removal, cross modal recognition, female monkeys, 9884
cross modal matching of objects & photographs, male monkeys, 9650
delayed response performance & visual & acoustic stimulation, single cell activity in prefrontal cortex, squirrel monkeys, 5209
delta-9-tetrahydrocannabinol with vs without cannibidiol, FI responding vs rate dependency, rhesus monkeys, 12347
developmental changes, contrast sensitivity, infant macaques, 529
development of alarm calling behavior, vervet monkeys, 12160
dextroamphetamine, simultaneous & successive discrimination task with required response, marmosets, 5401
dextroamphetamine vs morphine vs clozapine & time limit variations, response under FR schedules of food presentation & stimulus shock termination, squirrel monkeys, 7671
distribution of thyrotropin releasing hormone receptor binding in CNS, monkeys, 12229
dosage levels of buspirone vs diazepam, aggressive behavior & hypoactivity & ataxia, rhesus monkeys, 12408
drinkometer for members of social groups, monkeys, 2369
drug & iv injection dose & access conditions for codeine vs cocaine vs etorphine, drug maintained leverpressing rates, rhesus vs pigtail macaques, 9973
electrical stimulation at diencephalic vs brain stem vs cerebellar sites, aversive reactions vs elevation of tooth shock pain thresholds, rhesus monkeys, 826
environmental stress, infanticide, gray langur monkeys, criticism of S. B. Hrdy, 2905
establishment of Cayo Santiago primate colony, US National Regional Primate Research Center Program, 5089
ethanol & phenobarbital & baclofen, ethanol withdrawal, rhesus monkeys, 7698
exposure to unfamiliar neonates & parity, maternal behavior & fluid secretion from nipples, female rhesus monkeys, 12128
fear of snakes & flooding sessions, fear reduction, wild vs laboratory reared monkeys, 12009
feature-positive vs negative learning, monkeys vs pigeons, 12059
fixation on spot of light followed by vertical sinusoidal grating stimuli, eye movements & narrow spatial & temporal frequency tuning in visual evoked potential, Java monkeys, 714
flickering stimulus area & luminance, psychophysical temporal modulation sensitivity, monkeys & human Os, 9504
forest invasion & adaptation, savannah monkeys, Cameroon, 5158
functional organization of posterior parietal association cortex & effects of lesions on attention & sensation & motor control, monkeys, 12222
haptic to visual matching, transcortical event related potentials, cynomologous monkeys, 7437
heredity vs learning, handedness & laterality, humans vs monkeys, 7426
heroin vs codeine vs dextropropoxyphene vs pentazocine, progressive FR performance, rhesus monkeys, 5378
human chorionic gonadotropin, serum testosterone levels & copulatory behavior, male rhesus monkeys, 12367
human speech & low-frequency tones, average evoked potentials & multiple unit activity in primary cortex, monkeys, 5240
identification system for members of social groups, monkeys, 2398
immediate causes & functions, head cocking, newborn to 6.8 yr old marmosets, 12143
individual recognition of contact calls, pygmy marmosets, 5170
infantile malnutrition, incidental learning & attention & curiosity, monkeys, 5307
inferotemporal lesions, response to luminance & nonrewarded stimulus & change in sensitivity, rhesus monkeys, 849
inferotemporal lesions, visual discrimination learning, monkeys, 5341
inferotemporal vs bilateral partial striate lesions, categorical perception of visual stimuli, monkeys, 12342
inferotemporal vs foveal prestriate lesions, visual discrimination during serial reversal learning, rhesus monkeys, 5334
inhibition of auditory cortex neurons by "cingular" vocalization area during phonation, squirrel monkeys, 7479
interactions between males & infants, macaques, test of agonistic buffering hypothesis, 9676
intertrial vs interstimulus intervals, proactive interference, monkeys, 12054
irrelevant cue salience, discrimination & reversal, monkeys, 2871
isolation vs presence of mother vs peer from same vs different social group, plasma cortisol levels & agitated behavior & physical contact & vocalization, mother-reared rhesus monkeys captured from their social groups, 7404
jacket for protection of chronically indwelling jugular catheters, rhesus monkeys, 4752
left-right relationship of hemispheric activation amplitudes during auditory & visual learning, rhesus monkeys, 12209
lesions of Brodmann's areas 1 & 2 in postcentral gyrus, tactile deficits, macaque monkeys, 9881
lesions of prefrontal convolution & region between intraparietal & superior temporal sulci & anterior cingulate cortex, tactual to visual cross-model matching, rhesus monkeys, 7591
long wavelength foveal insensitivity, rhesus monkeys & human O with normal color vision, 9793
luminance of spot light, on-center retinal ganglion cell responses to small light displacements, monkeys, 12235
manganese/zinc deficiencies & streptomycin, vestibular systems & hiding & withdrawal behavior, rhesus monkeys, 5319

marihuana smoke & delta-9-tetrahydrocannabinol, brain function & ultrastructure, rhesus monkeys, 5377
matching black/white & silhouette photographs vs outline drawings with novel objects that could only be touched, male rhesus monkeys, 12079
maternal separation, social behavior, 3–5 yr old monkeys, 9667
maternal separation & disruption of attachment, behavioral & physiological changes indicative of depression, macaque monkey infants, 660
metacontrast masking & brightness discrimination, temporal response of striate cortex cells, monkeys, 2968
method for recording simultaneous spike trains from 2 independent electrodes, awake monkeys, 2374
methylmercuric chloride poisoning, eating & drinking changes & sensorimotor symptoms, male pigtailed macaques, 3179
mother-infant relationships, free ranging vs captive rhesus monkeys, 5136
muscle force required in self paced hand movements, increase in premovement slow potentials in premotor & motor & somatosensory cortices, adult monkeys, 5214
nalorphine & shock increment schedules, response under electric shock titration, male squirrel monkeys, 7636
nasal marking in response to novel olfactory stimuli & role of arousal, squirrel monkey groups, 752
operant control of precentral neurons, rhesus monkeys, 3012
pattern recognition system, identification of spontaneous behavioral acts, macaca, 4706
peer-infant separation & rewarding brain stimulation, behavior, pigtail macaque & rhesus macaque infants raised in pairs from birth, 3089
perception of dynamic random dot correlograms, cortical evoked potentials, monkeys vs humans, 12226
performance of visual tracking task involving flexion & extension of wrist at onset of visual cue, responses of single neurons in caudate nucleus & globus pallidus, monkeys, 692
posttraining pentylenetetrazol, facilitation of single-problem discrimination learning vs learning set, rhesus monkeys, 866
presentation of color videotaped TV images of conspecific social behavior as operant reinforcement, response rate, juvenile macaques, 613
progressive loss of reinforcement in FR schedule, condition similar to human reactive depression & reversal with chlordiazepoxide, male squirrel monkeys, 12023
recency of presentation & brain lesions, delayed non-matching, rhesus monkeys, 3107
receptive fields on glabrous hand of neurons in areas of somatosensory cortex, cynomolgus monkeys, 5241
recognition & retention of serial list items, 5 yr old rhesus monkey, 2870
relative numerosity judgments, adult male squirrel monkeys, 7337
retention of long-delay one-trial conditioned preference, monkeys, 7299
reversal retraining, spatial probability learning, cats & monkeys, 2880
rewarding unpreferred hand, persistence in reaching with preferred hand, stumptail monkeys, 9703
self administration of cocaine vs dextroamphetamine vs phenmetrazine vs fenetylline, performance on FI vs VI vs FR schedules, rhesus monkeys, 12369
separation, 8 mo old rhesus monkeys reared in social isolation vs group of peers vs natural group with mother, 7375
serial position curve & accuracy on serial probe recognition task, male rhesus monkey & 22 yr old human female, 5123
sex differences, sneezing, monkeys, 7359
smaller vs larger number of entities, discrimination, monkeys, 2878
social context, determinants of animal dominance, male rhesus monkeys, 9666
social dominance, aggression & sexual behavior & plasma testosterone levels, male talapoin monkeys, 7397
social grooming frequency, mother rank-order, 2–14 mo old female monkeys, 2890
social group spacing in outdoor enclosures, monkey troops, 7347
social isolation, self administration of dimethyltryptamine, monkeys, 7578
social isolation rearing, abnormalities in social & individual behavior & exploration, pigtailed vs rhesus vs crab-eating macaque monkeys, 2939
subspecies differences, curiosity & activity, Bolivian vs Columbian squirrel monkeys, 9745
superior colliculus lesions, gaze shifts to eccentrically displayed stimuli & visual discrimination, rhesus monkeys, 3117
susceptibility to motion sickness, squirrel monkeys, 748
tactile interaction with partner, autoaggression, female stumptailed macaques, 5152
tactile stimulus velocity differences & pentobarbital, velocity discrimination vs signaling by cortical neuron firing frequency, humans vs rhesus monkeys, 5204
temporal lobe ablation, sequential auditory & visual discriminations, monkeys, 855
territoriality & scent marking & exudate eating, sap collecting behavior, wild marmosets, 12135
type of predator, acoustically different evoked alarm responses, vervet monkeys, 9718
various dosages of ethanol & intensity of stimulus noise, RT, rhesus monkeys, 3194
various neuroleptics, induction of dystonia & dyskinesias & other extrapyramidal side effects, male squirrel monkeys, implications for animal models, 902
vestibulo-ocular reflex function, monkeys, literature review, 5189
visual cues & physical & spatial pathway properties, travel task, squirrel vs titi monkeys, implications for open field behavior, 12116
visually initiated hand movements & cerebellar hemispherectomy, surface & depth potentials of premotor & motor cortex & premovement potentials, monkeys, 12339
wrist movements in pursuit tracking, gamma fusimotor vs alpha motoneuron activity, monkeys, 7489
24 hr water deprivation & sham drinkings & iv infusions of water vs saline solution, water intake & systematic fluid balance, male rhesus monkeys with dwelling cardiac catheters, 9866

Monoamine Oxidase Inhibitors [See Also Isocarboxazid, Nialamide, Pargyline, Phenelzine, Tranylcypromine]
acute vs chronic propylene glycol dinitrate exposure, operant avoidance behavior & visual evoked responses, monkeys, 5389
antidepressant & antianxiety effects of clorgyline vs pargyline, depressed patients, 6398
clorgyline vs pargyline pretreatment, reduction in phenylethylamine dose required to produce checking & other behavioral changes, rhesus monkeys, 930
Deprenil vs levo-5-hydroxytryptophan vs benserazide, antidepressant potentiation, bipolar vs unipolar depressed patients, 1860
deprenyl, sleep & mood & alertness & pre-sleep systolic blood pressure, 21–35 yr old males, 7699
MAO B inhibitor levodeprenyl, methylhistamine metabolism, implications for treatment of Parkinson's disease, 5363
MAO inhibitors, schizophrenia, literature review, 6377
species differences vs dopamine vs MAO inhibitors, drug deamination vs sensitivity, adult humans vs nonhuman primates vs rodents, 12359
viloxazine treatment, plasma viloxazine levels & depressive symptoms, 26–62 yr old depressive patients, 6403

Monoamine Oxidases
alcohol withdrawal syndrome, platelet MAO activity, alcoholic patients, 13015
anxiety, platelet MAO & enzymes, anxious subjects, 10430
caudate nucleus & frontal cortex MAO activity, schizophrenics, 12998
clomipramine treatment, MAO activity & onset of mania, unipolar depressed patients, 6419
clorgyline vs pargyline pretreatment, reduction in phenylethylamine dose required to produce checking & other behavioral changes, rhesus monkeys, 930
dopamine-beta-hydroxylase & MAO activity, schizophrenics vs their 1st degree relatives vs hospital workers, 10473
haloperidol or fluphenazine treatment, platelet MAO activity, schizophrenics, extension of study by D. Leelavathi & R. Smith, 13322
homovanillic acid & MAO activity in cerebral cortex & basal ganglia, Huntington's disease patients, implications for primary aminergic lesion, 10703
lymphocyte MAO activity & plasma prolactin & growth hormone, female chronic schizophrenics with vs without tardive dyskinesia, 13112
MAO & dopamine-beta-hydroxylase activity, 24–65 yr old depressed patients, 1469
plasma & low & high molecular weight plasma fractions, MAO activity in platelets, chronic schizophrenics vs unipolar depressives vs alcoholics with decreased platelet MAO activity, 12907

platelet MAO activity, nonbipolar depression, 21–71 yr old psychiatric inpatients, 1416
Monoamines (Brain) [See Catecholamines]
Monocular Vision
age & colors presented unilaterally vs monocularly, visual asymmetry on lateralized color naming task, 5–10 yr olds, 1004
angular selectivity of monocular rivalry with achromatic gratings & computer simulation, college students, 9489
change in distance of fixation during monocular viewing, optic axis translation & cyclotorsion of iris & pupil, normal Os, 2689
exposure to bright field on dark or colored surround with 1 eye, illusion in other eye fixating on neutral field, O, 11850
hypnotherapy, one-eyed 28–62 yr olds, 6426
interocular transfer of brightness vs pattern discriminations, hooded vs albino rats, 9782
line orientation vs retinal loci, perceived length of line, college students, 11842
monochromatic vs bichromatic wavelength combinations, dichoptic summation, color normal vs dichromatic Ss, 9514
monocular deprivation, spatial resolution of on-center retinal ganglion cells in area centralis using different retinal eccentricities in retina of deprived eye, cats, 785
monocular occlusion during early life, physiological effects & shift of cortical ocular dominance & recovery as measure of sensitive period of visual cortex, kittens, 836
monocular viewing of 3-dimensional display while moving head laterally, perception of absolute distance, graduate students, 11795
ocular dominance & field of view & monocular vs binocular viewing conditions, median place estimates, females & males with left- vs right-eye dominance, 393
optically induced squint, monocular visual acuity & interocular alignment & cortical ocular dominance, kittens, 696
scanning patterns during training, monocular color discrimination, homing pigeons, 3017
spatial frequency & orientation & color, binocular rivalry vs monocular pattern alternation, college students, 11810
surgically induced strabismus, role of anomalous visual input of deviated eye vs neurophysiological factors in reduced visuomotor capacity, cats, 786
temporal frequency of phase reversing grating pattern, binocular vs monocular sensitivity to movement or flicker, Os, 9510
training with novel color & novel vs familiar sucrose taste during monocular occlusion, subsequent acquisition &/vs interocular transfer of aversion with trained or untrained eye open, chicks, 566
unilateral vs bilateral lesions of telencephalic Wulst, monocular vs binocular visual discrimination, pigeons, 9897
Monolingualism
arithmetic performance, bilingual vs monolingual 14–19 yr olds, 12517
aural vs visual presentation, RT & memory span for digits, mono- vs bilingual 14–19 yr olds, implications for interdependent bilingual storage, 7261
bilingualism vs monolingualism, cognitive ability to label vs relabel objects, preschool children, 12534
monolingual English vs bilingual English/Spanish instructional mode, self concept & reading skills, Hispanic vs non-Hispanic 9th graders, 13562
Monotony
auditory RT & threshold & critical flicker frequency, resistance to monotony on visual tracking task performance, male adults, implications for work productivity, 9472
personal & occupational factors, fatigue, 24–42 yr old factory workers, Japan, 11500
Monozygotic Twins
anorexia nervosa in 1 vs both twins, female monozygotic twins, 1557
auditory stimulation, cortical evoked potentials, 8–13 yr old monozygotic twins vs unrelated children, 2960
concordance for obsessive compulsive neurosis, 2 pairs of female 24 yr old monozygotic twins, 5981
concordance of deviant smooth pursuit eye movements, monozygotic & dizygotic twins discordant for schizophrenia, replication of authors' earlier study, 1439
extreme personality change following accidents, monozygotic male twin who murdered his wife & daughter, 8211
genetic influences, selective attention & speed, 12–38 yr old monozygotic vs dizygotic twin pairs, 7391
handedness & birthweight differences, 5–25 yr old sets of monozygotic & dizygotic twins, 12178
heritability, 2nd-order intelligence factors, 12–18 yr old male identical vs fraternal twins vs siblings, 9735
mother reports of developmental differences, personality & social behavior, fraternal vs identical twins from birth to 6 yrs old, longitudinal study, 9742
perceived vs actual genetic similarity, co-twin differences in cognitive & personality & physical development, monozygotic & heterozygotic same-sex twin pairs, methodological implications, 979
personal & family background & psychological assessment & treatment, female monozygotic twins discordant for obsessive compulsive neurosis, implications for genetic predisposition, 1437
phenotypic correlations & cultural & genetic factors, monozygotic & dizygotic twins & their families, 2957
phenotypic similarity, 20–70 yr old White American married couples & Swedish monozygotic & dizygotic twins & their spouses, 3544
physical & behavioral characteristics of child & parental attitudes & characteristics, parental perception of child & child's personality development, parents of identical twins, 5537
Montessori Method
play in secular & religious education, Piaget's & M. Montessori's theories of play, 5550
religious beliefs of M. Montessori & her resultant religious education curriculum, 6651
Moods [See Emotional States]
Moral Development
aesthetic development as complementary to moral education, 3288
affect, moral reasoning, college students, 2753
aggression in prosocial vs standard children's TV cartoons, learning moral messages from aggressive "heroes", children, 3232
cognitive maturity & complexity of moral dilemma, quality of moral deliberation outcome, 3rd–10th graders, 5546
concepts of God & blasphemous expressions, 10 & 13 yr old males, 3427
construction & validity of adolescent moral judgment scale based on Kohlberg's theory, high school & college students, Japan, 2550
cultural & sex differences, moral judgment, Hindu vs Muslim 10 & 11 yr olds, India, 5585
developmental curriculum, psychological development & moral reasoning & identity, 15–19 yr old immigrants vs American-born high school students, 3269
experimental test of sequentiality of D. C. Gutkin's stages of moral judgments, kindergartners & 1st–2nd graders, 1082
formal vs concrete operational priming, principled moral reasoning, college students, 4994
intent vs consequences, moral judgment, educable mentally retarded vs normal school age children vs trainable mentally retarded adolescents, 8224
limitations of H. Werner's orthogenetic principle & proposed alternative, spiritual development & spiritual pathology, 7936
locus of control & moral reasoning & socioeconomic status, male vs female Hausa adolescents, Nigeria, 7880
locus of control & stages of moral reasoning, male vs female 16–19 yr olds, Nigeria, 3436
maturity of moral judgment, personality traits, educational guidance students, 3412
maturity of moral judgment, resistance to temptation & social influence/authority & student activism & prosocial & antisocial behavior, implications for L. Kohlberg's theory, 1074
model for moral development education emphasizing cognitive & affective goals, gifted, 6745
moral development, social equity phenomenon in simulated job performance, college students, 10201
moral education programs in classrooms, 8894
moral maturity & mental health, criticism of L. Kohlberg's moral development theory, 3429
motivation & moral judgment ability & social pressure, acquiescent behavior & moral action, female college students, 5725
parental childrearing practices & self image & moral judgment development, 10th graders, 12594
priority of values, level of moral judgment, male vs female college students, 8075
religious intrinsic/extrinsic orientation vs denomination vs active/conflictual involvement, moral development, males vs females, 12578
self vs other presentation mode of Defining Issues Test, moral reasoning, college students, 11682
sex & child's perception of & actual maternal disciplinary practices, moral judgment development, 12–15 yr olds, 1087

sex & conflict manipulation of Piagetian task, moral judgments, preschoolers vs 4th vs 5th graders, 3449
sex & socioeconomic status, moral development, 6–7 vs 9–10 vs 12–13 yr olds, Philippines, 3423
Morale
attitudes about unions, morale & job involvement, blue collar workers, 11496
behavior therapy with labeling & expectations of success, restoration of morale & coping with learning difficulties, students & patients, 1826
employee ego strength & supervisor orientation, employee production & morale, blue collar workers & supervisors, 6876
neighborhood environment, psychological & social well being, aged planned housing tenants, 7877
professional morale & identity & career choice satisfaction, social workers in Connecticut, implications for training, 6591
professional morale & identity & career choice satisfaction, social workers, implications for training, criticism of L. Reiter's study, 6574
relationship of self report measures to supervisory & administrative ratings, individual & unit level performance & morale, US Army enlistees in combat unit, 13701
user generated modifications of hospital ward design, mood & morale & perceived quality of health care, patients & staff & visitors, 1942
ward atmosphere, job satisfaction, psychiatric nurses, 4223
Morality
attitudes toward societal moral norms & rules, 21–30 yr old criminals, 6045
conceptual & scientific & moral bases for objection, deinstitutionalization of retarded persons, 8712
construction & validity of adolescent moral judgment scale based on Kohlberg's theory, high school & college students, Japan, 2550
correlation between ratings of self & others on moral attributes, college students, implications for social comparison theory, 3638
decision-theoretical model of moral behavior & act- vs rule-utilitarian theory, voting behavior, 5595
exposure to internal vs external emotion-attribution moral theories, cheating behavior, college students, 9601
fallacy of attempts to form moral basis for behavior from examination of self actualized individuals, 9242
Gestalt view of human valuing & morality, 5891
independent vs conditional effects of threat of legal punishment & social disapproval & internalized moral commitment, inhibition of illegal activity, adult Ss, 3836
locus of control & stages of moral reasoning, male vs female 16–19 yr olds, Nigeria, 3436
maturity of moral judgment, resistance to temptation & social influence/authority & student activism & prosocial & antisocial behavior, implications for L. Kohlberg's theory, 1074
moral context in which bribe offered, amount of bribe needed to effect attitude change & self presentation of those bribed to observers, college students, 5827
motivation & moral judgment ability & social pressure, acquiescent behavior & moral action, female college students, 5725
nature & development of values, moral decision making & values & ethical norms as intuitive vs intellectual operations, implications for religious education & rituals, 5627
religious beliefs & practices & moral judgments, adolescents, Northern Ireland, replication of 1968 study, 3496
religious intrinsic/extrinsic orientation vs denomination vs active/conflictual involvement, moral development, males vs females, 12578
reporting vs nonreporting of serious vs nonserious crimes, perception of morality of action & moral level & likeability of reporter vs nonreporter, college students, 5803
sex & moral character of defendant, jury verdict, high vs low authoritarian male vs female college students, 1215
sex & various aggressive behaviors under different circumstances, moral approval, 17–68 yr olds, 3713
social roles & moral reasoning & cultural values & social structure, 28–74 yr old male leaders vs nonleaders, Kenya, 12642
validity, Survey on Ethical Attitudes, male repeat vs 1st offenders vs nonoffenders, 7056
values & moral reasoning, teachers & counselors, reply to C. C. Anderson's criticism, 2015
Morals
attitudes toward societal moral norms & rules, 21–30 yr old criminals, 6045
conformity & moral judgment & personality, attitudes toward authority, college students, 12863
correlation between ratings of self & others on moral attributes, college students, implications for social comparison theory, 3638
cultural & sex differences, moral judgment, Hindu vs Muslim 10 & 11 yr olds, India, 5585
decision-theoretical model of moral behavior & act- vs rule-utilitarian theory, voting behavior, 5595
development & validity of Ethics Position Questionnaire, measurement of ethical perspectives including situationism & absolutism & subjectivism & exceptionism, college students, 2467
experimental test of sequentiality of D. C. Gutkin's stages of moral judgments, kindergartners & 1st–2nd graders, 1082
influence of churches & parents, attitudes on religious affiliations & morals, adolescents, 10159
interpersonal consequences & cooperative vs solitary task, evaluation of hypothetical actor's task achievement & outcome attributions & moral judgment, male vs female college students, 1214
locus of control & stages of moral reasoning, male vs female 16–19 yr olds, Nigeria, 3436
maturity of moral judgment, resistance to temptation & social influence/authority & student activism & prosocial & antisocial behavior, implications for L. Kohlberg's theory, 1074
religious & moral values & setting with constraints vs no constraints on return of money, individual differences in money returning, college students, 1216
Mores [See Values]
Morons [See Educable Mentally Retarded]
Morphemes
acquisition of grammatical morphemes, children, criticism of E. L. Moerk & E. M. Block & F. S. Kessel & R. Brown's studies, 10091
administration of Elicited Language Inventory using standard vs modified procedure with contextual cues, spontaneous speech & elicited morpheme use, language-delayed vs normal speaking 1–11 yr olds, 9388
age, mean length of utterance in morphemes, 17–59 mo olds, 10083
cross age tutoring, tutor & tutee morpheme-reading performance, learning disabled 5th & 3rd & 2nd graders, 8973
familiarity & homogeneity of Latinate & non-Latinate morpheme stems, acceptability of pseudo words formed from stem & affix & "ity", students, 12437
memory units for Chinese letters called Kanji vs Japanese letters called Kana, students, 489
use of grammatical morphemes, 3–10 yr old normal vs language impaired children, 8297
Morphine
acute & chronic morphine & nalorphine induced withdrawal, time-course response of brain & adrenal dopamine & norepinephrine induced by alpha-methylparatyrosine, female rats, 891
bicuculline vs picrotoxin vs strychnine vs morphine vs aminooxyacetic acid vs 3-mercaptopropionate vs thiosemicarbazide, di-n-propylacetate-induced abstinence behavior, male rats, 12353
brief tail shock vs social vs individual housing vs 1 vs 4 days of social isolation vs morphine, vocalizations, young rats, 12303
catheterization, oral morphine consumption, male rats, 5299
caudate lesions, morphine self-administration, female rats, 3109
chlordiazepoxide with morphine vs cold water swims, change in jump thresholds, rats, 3142
chronic morphine withdrawal with apomorphine ester vs lergotrile, locomotor activity, male rats, 3220
delta-9-tetrahydrocannabinol, morphine-induced locomotor activity, mice, 3222
dextroamphetamine vs morphine vs clozapine & time limit variations, response under FR schedules of food presentation & stimulus shock termination, squirrel monkeys, 7671
dextro- & levo-amino acids & morphine, analgesia & locomotor activity, male DBA vs C57 mice, 5349
electrical foreleg stimulation as conditioned reinforcement, lethal self administration of morphine, female rats, 7293
electrical stimulation of periaqueductal grey matter & iv morphine & naloxone, activity of ascending axons from C & Ald fibers in spinal cord, rats, 3072
enkephalin analog vs morphine, locomotor activity, male mice, 12406
familiar vs novel environment, morphine tolerance of tail flick reflex, rats, 3135
GABA & picrotoxin & clonidine & morphine & cyproheptadine, locomotor activity & gross behavior, male rats & mice & rabbits, 5406

hypophysectomy, behavioral activation to morphine, adult male rats, 795
intraspinal morphine & methionine-enkephalin & intravenous naltrexone, C-fiber & polysynaptic reflexes, decerebrate low spinal cats, 3139
maternal morphine, fetal spinal cord volume, rats, 7663
methergoline & methysergide & mianserine & cyproheptadine & pizotifen administration & morphine & codeine & fentanyl induced catalepsy, catalepsy changes, male rats, 3191
morphine, CA1 field potentials in hippocampal slices, male rats, 870
morphine & dextroamphetamine sulfate & pentobarbital sodium, shock & light discrimination, male rats, 7649
morphine dosage, self stimulation & stimulation escape, male rats, 7690
morphine & drug dosage level & food deprivation vs nondeprivation, food vs water intake, rats, 12307
morphine injection into periaqueductal-periventricular gray & naloxone, septal-lesion-induced reactivity to somatosensory stimulation, male rats, 7561
morphine & naloxone, EEG of medial thalamus & hippocampus & frontal cortex, drug naive & morphine dependent paralyzed male rats, 9947
morphine & naloxone, performance under discriminated approach vs avoidance schedules, male rats, 7618
morphine & naloxone, pressing for intracranial stimulation of amygdaloid region, male rats, 7557
morphine & naloxone, schedule-controlled response rates, morphine-dependent vs postdependent male rats, 7623
morphine & naloxone, tonic immobility, male guinea pigs, 911
morphine & pentazocine & naloxone & barbiturates & ice-water stress & heat, tail-flick latency, male rats, 7668
morphine self administration, neurotransmitter turnover, male rats, 5408
morphine vs haloperidol, catalepsy, male rats, 7630
morphine vs naloxone, acquisition & extinction of homing behavior, 917
morphine vs naloxone vs enkephalin, tardive dyskinesia, psychiatric patients, 4078
noise stress & morphine, conditioned preference response, rats, 583
pentobarbitol vs other drugs, drug discriminative behavior, pigeons, 9938
quipazine vs morphine & pizotifen maleate & naltrexone, hot-plate & tail-flick latencies, male mice, 7675
self administered enkephalin, opiate seeking behavior, morphine-dependent rats, 3218
shock & morphine, antinociception & escape behavior, mice, 9857
various dosages of morphine hydrochloride, memory facilitation & involvement of reinforcement mechanisms, male mice, 3193

Morphology
changes in morphology of dendritic spines on calycal interneurons associated with experience, newly emerged vs nurse vs forager honeybees, 701
computer program, theory of 1st language acquisition & English phrase structure, 7730
estradiol benzoate, sexual behavior & morphology, male rats, 878
housing in complex vs isolated environment from weaning to 145 days of age, plasticity of visual cortex neurons of Layer 3 pyramidal & Layer 4 stellate cell types & Layer 5 pyramidal apical dendrites, male rats, 709
infant behavioral expressiveness & morphological appearance, adult perceptions of infant appearance, literature review, implications for parent-infant relations, 8033
morphological measurement of growth patterns, female gymnasts, Canada, 978
packing density of pinealocyte nuclei, speed of wheel running, male rats, testing of proposal by M. Reiss et al, 12234
visual response & morphology of tectal neurons, crucian carp, 7481

Morphology (Language)
acquisition of Hebrew inflectional morphology, preschool age children, Israel, 10021
analysis of meaning vs phonetic components of Japanese onomatopoeias, Ss, 12435
French immersion vs traditional English curricula, development of plural & past tense morphological rules in English, elementary school students, longitudinal study in grades 1–4, 6656
linguistic structure of sign language, literature review, 7728

Mortality [See Death and Dying]

Mortality Rate
abstinence vs alcoholism & psychiatric disorders, male alcoholics over age 65 yrs, 3-yr followup, 10580
availability & acceptability of lethal instruments, suicide mortality, Europe & Australia & US, 13026
background & maternal & infant variables, prediction of survival at 30 days, infant pigtailed macaques, 2911
diagnostic distribution & prognosis & outcome & mortality, psychogeriatric disorders, aged patients, US vs UK vs Canada, 4-yr followup, 1420
ethanol administration during gestation vs lactation, maternal behavior & developmental & behavioral & pharmacological characteristics of offspring, female rats, 9925
evaluation of morbidity vs mortality rate, committed psychiatric patients, 11024
fetal development & mortality & height & weight development through age 12, children of mothers refused legal abortion, 7742
geographical analysis of suicide rates, 1940 vs 1977, 13040
intergenerational vs postnatal malnutrition, growth & home-orienting behavior & survival rates, rat pups, 9842
legal & administrative influences on suicide rate data collection, England & Wales since 1900, 6036
lethal recessive mutations, haplodiploid sex ratios due to increased male mortality, parasitoid species, 7418
lower mortality rates & better life expectancy, family structure, US, 5661
mortality rate, females with Briquet's syndrome vs primary unipolar depression, 42-yr followup study, 10412
mortality rate prior to vs post psychotropic drug use, psychiatric inpatients, 11003
psychological aspects, risk of mortality, widows, 1163
shift in age distribution of suicide & homicide & violent death rates, 1966–75, US, 13048
shipping of pregnant females, mortality rate in offspring, rats, 9292
suicide rate, psychiatrists, 1967–72, US, 4253
tabulated data from 90 provinces for mean IQ & intellectual achievement & earnings & unemployment & infant mortality & migration, France, 10215

Mosaicism [See Chromosome Disorders]

Moslems [See Islam]

Mother Absence
early death of mother, symptoms of psychiatric disturbance, female psychiatric patients, 12945
early separation from mother, development & frequency of animal play behavior, kittens, 12095
hospital visits with mother following childbirth, behavior after mother's return home, 1–3.5 yr old firstborn siblings of newborns, 10198
maternal deprivation, child's mental health, criticism of N. McConaghy's study, 10252
maternal deprivation in early childhood, mental health, children, implications for mother's decision to work & governmental policy, 10249
maternal separation, social behavior, 3–5 yr old monkeys, 9667
maternal separation & disruption of attachment, behavioral & physiological changes indicative of depression, macaque monkey infants, 660
presence of mother vs age vs sex of child vs behavior setting, responses to child's demands in shopping center, fathers, 7973
reserpine & dextroamphetamine & maternal deprivation, hyperactivity & cardiac & respiratory rates & body temperature, rat pups, 9852

Mother Child Relations
abortion vs refused abortion, mental health problems, mothers & children, 4131
academic achievement & school adjustment, 8 yr old children of Black young adolescents vs 20–24 yr olds, 4345
age of child, gaze patterns, mothers & their 6 vs 20 vs 36 mo old children, 3521
age of mother, mother-child interaction patterns, 13–40 yr old Black & Hispanic mothers & their children, 12681
aggressiveness & pathogenic variables, aggressive 2–5 yr olds, 7874
allergic factors, autonomy & self assertion in mother-child relationship, 14–30 mo old asthmatic children, 13103
assessment & comparison to maternal care attributes, coping behavior, 1 yr olds, 7868
attachment behavior toward mothers vs teachers, 9–31 mo old Black infant-daycare-reared children, 12662
behavior modification of child's disruptive behavior, mother's severe abdominal pain, disturbed male 8 yr old & his mother, 2-yr followup, 10867
cerebral gigantism, social & emotional implications, female 23 mo old, 10701

childhood development & relationship with mother & father, psychodynamics of male homosexuality, homosexuals & their parents, 1190
children's deviant & noncompliant behavior & parents' positive behavior, clinic-referred vs nonreferred mothers & their children, 4066
children's sex & temperament & mothers' permissiveness, goodness of fit in mother-child relations, 34–53 mo olds & their mothers, 1153
child's perceptions of mother & mother's social & emotional health, 4 yr old firstborns & their mothers, 1165
clothes & maternal image, 1056
conflicting attitudes toward their children's eating & dependency & depression, mothers of asthmatic sons, 1157
crisis intervention program in preschool education, behavior & intellectual development following divorce, single-parent 3.5–5 yr olds, 5448
deterioration vs improvement in maternal care following adoption, adaptation disturbance, newborns to 2 wk olds, 5663
development, 6–24 mo old esophageal atresia infants, 3903
development & object constancy & attachment to mother, low birth weight preterm quintuplets & quadruplets, 10008
development of "bad mother" concept, mother-child relationship & childhood asthma, mothers & asthmatic children observed at 14–30 mo & 4–6 yrs of age, 1578
development of eye contact with mother, normal vs Down's syndrome infants during 1st 6 mo of life, 13058
differences, maternal verbal behavior & reports of child behavior problems, mothers of neglected vs behavior problem vs nonproblem children, 10541
direction & type of rocking movement as soothing intervention, distressed 24–72 hr olds, implications for facilitation of positive caregiver-infant relationship, 12570
disturbed mother-child communications, psychosomatic disorders & endogenous depression, children, 1388
early postnatal contact, infant development & maternal attitudes, infants & their mothers, 36 hrs & 3 & 12 mo followups, 5636
efficacy of generalization strategy parent training group, transfer of parenting skills, mothers of 1.5–12.3 yr olds, 13302
failure of bond formation, child abuse & neglect & maltreatment, mothers who had limited contact with newborn at birth, 8197
family background & respect for mothers & fathers, heterosexual vs homosexual females, 3474
Freudian theory of maternal role in growth in child's 1st 3 yrs, 970
individual differences in maternal conversational input, acquisition of syntax, children, 1030
infant-mother attachments, personality & social development, infants, 3456
insular vs noninsular patterns of community contact & parent training, mother–child interactions & coping with child's coerciveness & change in blame orientation, mothers, 4-mo followup, 6311
interaction between mother & firstborn child before vs after birth of sibling, mothers & their 18–43 mo old firstborns, 1152
interaction with 4 yr olds in communication & block sort task, mothers vs preschool teachers, 4306
marital relationships, attitudes toward child-bearing & affective reactions, females who had borne a child, 5662
maternal behavior & child's social skills, learning disabled male children & their mothers, 10594
maternal care variables & maladjustment, mothers & their 7–8 yr old children, followup study, 7977
maternal control & development of inhibitory responses, paranoid schizophrenics vs sociopaths, 12996
maternal deprivation, child's mental health, criticism of N. McConaghy's study, 10252
maternal deprivation in early childhood, mental health, children, implications for mother's decision to work & governmental policy, 10249
maternal employment, perception of mother & development of masculinity-femininity, 13–17 yr old females, 12453
maternal employment, sex role concepts & personality adjustment & academic achievement, 10 yr olds from working & middle class Francophone families, Canada, 7865
maternal expectations, interactions between mother-son vs mother-daughter, 10246
maternal parenting behavior, child temperament, 3–7 yr olds, 10191
maternal sensitivity & vocalization during infant feedings, 6 & 9 mo olds & their mothers, 3547
maternal strategies for regulation of child's behavior, mothers & their young children, US vs Japan, 1105
mother-child interactions in dependency problem solving task, locus of control orientation, 2nd graders, 10155
Mother-Child Picture Test presented with perceptgenetic technique, measure of mother-child relations, mothers & their 7–8 yr olds, 9416
mother-child relations, deaf vs normal 5–6.5 yr olds, 8309
mother-infant interactions, longitudinal studies, 3550
mother-infant interactions, 20–30 yr old true vs unfamiliar mothers & neonates, 12663
mother's control strategies in dyadic mother/child conversations, 3.1–3.4 yr olds & their mothers, 1-yr follow up, 5644
mother's description of hypoactive preteen daughter, 10605
mothers' encouragement of verbalization & knowledge of letters & numbers, 3 yr olds, 12538
mother's strategies in teaching her Down's syndrome child, mother & Down's syndrome child, 3864
motor & social contact behavior in interactions with mothers, abused 3 yr olds, 6046
nature of mother-child interaction, child development, 12–30 mo olds & their mothers, longitudinal study, 5647
observation manual for coding mother-infant interaction, mothers & neonates, 11602
parental involvement, reading achievement, 7–8 yr olds, 11222
parental relationships, schizophrenics vs their siblings, 8177
parent-child attitudes & communication patterns, 28–50 yr old parents of stuttering vs nonstuttering 4–13 yr olds, 8290
parent contingency management technique, reduction in morning school preparation time, 4 & 9 yr olds & their mother, 10909
parent education, promotion of parent-child-educator relationships, parents of handicapped children, 2156
patterns of recognition of mother under conditions of emotional stress, 2.5 yr old autistic female & 12 yr old schizophrenic male, 1468
perceptions of parental interest & social adjustment & school achievement & personality traits, unwanted children, longitudinal study at 9 & 15 yrs, Czechoslovakia, 5645
perceptions of praise & affection & confidence & discipline given by mothers & fathers, male vs female high school students, Senegal, 1097
permissive abortion, subsequent child abuse & mother-infant bonding, 1527
presence vs absence of mother vs stranger, separation anxiety & exploratory behavior & crying, 1 yr olds, Brazil, replication of M. D. Ainsworth & S. Bell's study, 3408
psychoanalytic interpretation of mother child relationship, severely neurotic learning disordered gifted 13 yr old male, 12903
psychotherapy, coping with chaotic environment, 4 yr old female, 6234
quality of mother-firstborn interactions following sibling birth & sex of firstborn, sibling interaction 14 mo later, 18–43 mo olds & neonate siblings, 3518
recognition of neonates' cries, 21–38 yr old mothers, Japan, 5648
reported parental characteristics, agoraphobics & social phobics, 5991
rhythm & development of interactions, newborn infants & their mothers, 10258
secure vs anxiously avoidant vs anxiously resistant attachment to mother, sociability & positive vs negative orientation to peers & mother, 20–23 mo olds, 3447
security of attachment, child's obedience to mother & stranger & internal controls & maternal intervention, 21 mo olds & their mothers, 3433
sex & child's perception of & actual maternal disciplinary practices, moral judgment development, 12–15 yr olds, 1087
social behavior while alone vs with interactive vs passive mother vs stranger, 15 vs 30 wk olds, 10142
social bond & development of infant attachment, several comments on article by D. W. Rajecki et al & their response, 1052
social class, mother–child interaction, White mothers & their preschool children, 3470
social sharing with mothers & maternal praise & encouragement, Black 19 mo old lower income infants & mothers, 3426
socioeconomic level, parent-child relations & treatment responsiveness, mother-child pairs, 10897
split transference in psychoanalytic treatment of family members, 9 yr old female & her mother, 13207
S's refusal to participate in research & subsequent sampling bias in mother-infant interaction study, pregnant females, 66

temporal patterns & kind & frequency of mother-child verbalizations, 21 mo olds & their mothers, 12539
time interval, organization of perceptions about maternal childrearing control & nurturance, 5 vs 8 vs 14–18 yr olds, implications for retrospective studies, 10057
transference in residential treatment, junior school age maladjusted children, 6269
Mothers [See Also Schizophrenogenic Mothers, Unwed Mothers]
ability to discriminate between mother's vs stranger's photographs, 3 mo olds, 10017
abortion vs refused abortion, mental health problems, mothers & children, 4131
academic achievement & school adjustment, 8 yr old children of Black young adolescents vs 20–24 yr olds, 4345
acquisition of sex role behavior, 6–9 yr old children of lesbian vs heterosexual single mothers, 10163
adolescent childbearing, postnatal development, 3278
affective attachment to deceased & personality change, mothers who had experienced recent vs distant loss of infant, 8081
age of infant & context, maternal speech characteristics, Down's syndrome 3.7–17 mo old & his mother, longitudinal study, 8236
age of mother, mother-child interaction patterns, 13–40 yr old Black & Hispanic mothers & their children, 12681
asexuality vs sexuality, motherhood, 5701
attitudes, value of affective education at elementary level, mothers & teachers, 8860
attitudes & practices, breast vs bottle feeding, mothers, England, 12672
attitudes toward proposed cultural tradition to acknowledge 1st menstrual period, mothers & daughters, 1079
behavior modification of child's disruptive behavior, mother's severe abdominal pain, disturbed male 8 yr old & his mother, 2-yr followup, 10867
causes & consequences of childbearing, adolescent females, literature review, 1970–80, 10140
children's deviant & noncompliant behavior & parents' positive behavior, clinic-referred vs nonreferred mothers & their children, 4066
communicative competence & method, language & mode use, profoundly deaf 3–5 yr olds & their hearing mothers, 6132
conflicting attitudes toward their children's eating & dependency & depression, mothers of asthmatic sons, 1157
denial of abortion to mother, somatic & psychosocial development, initially unwanted children, 15-yr followup, 12451
development in structure & content & function of mother's questions & infant responses, 16–19 mo old infant & his mother, 5658
development of "bad mother" concept, mother-child relationship & childhood asthma, mothers & asthmatic children observed at 14–30 mo & 4–6 yrs of age, 1578
development of cognitive & personality-social characteristics, 30 yr old mothers, 40 yr followup, 5461
development of "psychose passionnelle", 32 yr old female with mother who developed similar syndrome 22 yrs earlier, 5933
development of questionnaire measuring attitudes toward mother's role & working mothers, mothers, implications for work behavior & child development, 11639
development of Toddler Temperament Scale, ratings of temperament characteristics, mothers of 1–3 yr olds, longitudinal study, 7077
differences, maternal verbal behavior & reports of child behavior problems, mothers of neglected vs behavior problem vs nonproblem children, 10541
distinction among mechanisms used for joint visual attention, 6–18 mo olds & their mothers, 5480
distress due to denial of abortion, complications during pregnancy & delivery & puerperium, mothers, 13076
early death of mother, symptoms of psychiatric disturbance, female psychiatric patients, 12945
efficacy of generalization strategy parent training group, transfer of parenting skills, mothers of 1.5–12.3 yr olds, 13302
employment status & sex role attitudes, suburban mothers, 5604
employment status vs number & age of children, anxiety, part time vs full time working vs nonworking mothers, 10266
expectations for child mastery of developmental skills, mothers of 4 yr olds, Japan vs US, 12635
expectations & values of employment, married 26–36 yr old mothers of children aged 4 yrs & younger, 4496
fetal development & malformations, children born to mothers denied legal abortions, 8307
fetal development & mortality & height & weight development through age 12, children of mothers refused legal abortion, 7742
gender development & prevalence of disturbance, 5–12 yr old children of lesbian vs heterosexual mothers, 10169
guilt over thoughts of harming their babies & self concept as inadequate mother, postpartum depression, mothers, treatment implications, 6226
home intellectual environment & maternal IQ, child IQ, children of mean age 12 yrs, 12515
improvement vs decline vs stability of son's apparent performance on learning task, rewards & punishment, 24–45 yr old mothers of 4–7.5 yr old males, 12678
incidence of child abuse & inclusion of husbands in family treatment, battered females in aid houses, 6475
incidence of minimal brain dysfunction, 5–7 yr old children of mothers aged 35 or older at time of birth, 8326
interaction with 4 yr olds in communication & block sort task, mothers vs preschool teachers, 4306
isolation vs presence of mother vs peer from same vs different social group, plasma cortisol levels & agitated behavior & physical contact & vocalization, mother-reared rhesus monkeys captured from their social groups, 7404
knowledge of formal aspects of their children's speech, mothers of 2–3 yr olds, 1160
levotryptophan for 10 days after delivery, "maternity blues" & psychiatric symptoms, bottle feeding multiparous females, 6386
maternal attitudes & Lamaze training participation & demographic characteristics, prediction of length & manageability of labor, mothers, 13368
maternal behavior & child's social skills, learning disabled male children & their mothers, 10594
maternal care variables & maladjustment, mothers & their 7–8 yr old children, followup study, 7977
maternal employment, perception of mother & development of masculinity-femininity, 13–17 yr old females, 12453
maternal employment, sexual behavior & attitudes, female college students, 12714
maternal employment in low income families, academic achievement, children, literature review, 7963
maternal employment & resultant benefits/stress & child day care decisions, 10236
maternal mental ability & education & training in child development & socioeconomic status & birth weight & child experiences, verbal comprehension & verbal expression, 3 yr olds, 7831
maternal sensitivity & vocalization during infant feedings, 6 & 9 mo olds & their mothers, 3547
mental symptoms & body weight change & previous history, 17–39 yr old females in first week after childbirth, 10263
miscarriage vs stillbirth vs neonate death, emotional reactions, mothers, 3723
mother reports of developmental differences, personality & social behavior, fraternal vs identical twins from birth to 6 yrs old, longitudinal study, 9742
mother's control strategies in dyadic mother/child conversations, 3.1–3.4 yr olds & their mothers, 1-yr follow up, 5644
mothers' & fathers' sex role conflicts, expectant/new parents, 10222
mother vs teacher reports of adaptive behavior, Black 2nd–4th graders in urban parochial school, 9130
multidimensional structure of locus of control, English speaking White mothers, South Africa, 1302
nature of mother-child interaction, child development, 12–30 mo olds & their mothers, longitudinal study, 5647
obstetric complications & seasonal variations, births to schizophrenic mothers, Finland, 8185
parental influence, animistic responses, 5th & 6th graders, implications for development of concept of life, 985
parent contingency management technique, reduction in morning school preparation time, 4 & 9 yr olds & their mother, 10909
parent educational program in poor urban environment, prevention of child abuse & neglect, Black mothers, 8648
parent report of preschool development using Minnesota Child Development Inventory, prediction of reading difficulty, kindergartners, 3-yr followup at end of 2nd grade, 11339
perceived parental practices, evaluation of self & mother & father, college students, 3537
personality traits of wife/mother, family dysfunction & adjustment, families with husband/father missing in action, 3515
political & religious attitudes of self & youths' attributions of parents' attitudes, mothers & fathers & their 16–26 yr old youths, 3460

pre- & perinatal characteristics, victims of Sudden Infant Death Syndrome vs survivors, 10700
project for increasing confidence & self esteem in role as parent, mothers of socially disadvantaged children, Israel, 1124
psychiatric symptoms & MMPI schizophrenia scale scores & attentional deviance, adolescent offspring of schizophrenic mothers raised in foster homes, 1451
psychiatric treatment subsequent to artificial insemination, donors & mothers & sterile fathers & children, 1662
self concept & emotional adjustment, women during 1st postpartum wk, 3551
sex & child's perception of & actual maternal disciplinary practices, moral judgment development, 12–15 yr olds, 1087
sex roles & family relationships, male vs female adolescent offspring of chronic schizophrenic mothers, 10465
sex & working vs nonworking mothers, sex role stereotyped vs neutral categorization of activities, 1st vs 2nd graders, 5563
social class, mother–child interaction, White mothers & their preschool children, 3470
social class differences, comprehension of adult language, 8 yr old males of high vs low social class, 1011
social & economic change, childrearing attitudes & practices, mothers, Japan, 1930 vs post-World War II period vs 1979, 3485
social sharing with mothers & maternal praise & encouragement, Black 19 mo old lower income infants & mothers, 3426
sociocultural causes, psychological problems, emotionally immature mothers, 10232
socioeconomic level, parent-child relations & treatment responsiveness, mother-child pairs, 10897
socioeconomic status & ethnic group, childrearing behaviors, Mexican American vs Black vs Anglo mothers, implications for parent education, 3548
stability of childrearing attitudes over time, mothers of 8 mo olds, followup when infants 3.5 yrs old, 7962
working through ambivalent feelings about motherhood, females studied at University of Turku, Finland, 7972

Moths
interactions between plant odors & pheromone reception, ermine moths, 12257
role of visual cues & olfactory stimulation, mating behavior, Egyptian cotton leafworm moths, 9679
wind-borne female sex pheromone, upwind vs cross-wind flight maneuvers, male moths, 9698

Motion Perception [See Also Apparent Movement, Autokinetic Illusion]
active movement wearing vision-reversing goggles followed by stationary viewing of moving stripe display, self rotation illusion in same direction as stripe, adult Ss, 378
apparatus for study of visual perception of rotational motion, 11597
auditory vs visual velocity discrimination, college students & adults, 2678
beliefs about motion of objects in absence of external forces, college students, 9478
changing size & sideways motion for different directions, linearization of visual responses in judgments of speed & motion in depth, 11835
color relationship between inspection & test stimuli, thresholds for detection of form vs motion, adult Ss, 366
computational method to extract surface slant & edge labels from optical flow velocity patterns, development of mathematical & physiological models & computer program, 53
continuously moving visual patterns, extracellular action potentials in lobula complex, blowflies, 538
development of relative speed & distance & movement duration judgments, 1st–7th graders, 7770
direction & position of stimulus light displacement, displacement detection during saccadic eye movements, college students, 11803
distance & angle of direction change & visibility of starting point & concurrent counting, processing of location information during locomotion, high school students, 12482
distortion of visual field spatial geometry, reduction of sensory adaptation in movement perception & application to traffic accident prevention, 19–50 yr olds, 4907
distribution of activity model, prediction of interactive effects of 2 simultaneous movement directions on movement aftereffects, 4930
encoding of completing vs preparatory motion, college students, 7224
extrapolation of abstract centers of rolling wheel-generated point-light displays, movement judgments, college students, 4936
free fall & increased gravitoinertial force in parabolic flight, visual & postural aftereffects, 301
frequency & predictability of active & passive hand movements, adaptation to visual displacement, right handed college students, 372
imaginal & propositional representations of moving objects, college students, implications for mental rotation hypothesis & propositional model, 11915
influence of motion parallax, motion perception by moving S, college students, 7170
length of scale & stimulus duration & fixation point, perceived visual direction of flashes, 2706
light & rotation, modification of photopositive behavior, mollusk, 552
luminance of spot light, on-center retinal ganglion cell responses to small light displacements, monkeys, 12235
measurement of displacement thresholds in visual perception, Ss, 11816
movement duration & line length & stimulus luminance, foveal vs peripheral detection of line movement, 4922
movement predictability, visual tracking of actively & passively moved hand vs target light, college students, 371
movement & size of target relative to O & degree of articulation of surround, size estimates, 2684
perception of induced motion, college students, 332
perceptions of centroid of curvilinearly bounded shapes, college students, 11834
practice & awareness of study's purpose, detection of global 3-dimensional organization of visual patterns corresponding to projection of rotating sphere, Os, 361
preferential response to objects which move vertically by retinal amacrine cells, catfish, 9786
psychophysical criteria for visual simulation systems, 11513
quantitative model, temporal luminance integration & perception of frame or element movement in multielement stimulus frames & neurophysiological mechanisms, 344
retinal loci & simulated blur patterns, thresholds for detection of divergence, college students, 11798
spatial separation between retinal points of stimulation, spontaneous movement perception, 2680
speed & direction of moving target, movement sensitivity in different zones of visual field, college students, 9485
temporal frequency of phase reversing grating pattern, binocular vs monocular sensitivity to movement or flicker, Os, 9510
thresholds for detection of direction of movement, implications for existence of direction-sensitive mechanisms in human visual system, 4903
unpredictable target waveforms, smooth pursuit tracking, 9482
vertical &/vs horizontal background patterns, prediction of object's directionality, female vs male 6 yr olds, 3379
vertical vs horizontal target motion toward vs away from fixation & stimulus eccentricity, RT to motion onset & contrast thresholds, 342

Motion Pictures [See Also Motion Pictures (Entertainment)]
creativity & cognitive complexity, writers & audiovisual producers & directors, 10398
motion pictures of approaching vs receding objects at different speeds, size constancy, college students, 11847

Motion Pictures (Entertainment)
aggressive aspects & oedipal complex, F. Zeffirelli's movie "Brother Son, Sister Moon", 3257
influence of Motion Picture Association of America film ratings, motion picture attendance, 15–18 yr olds, 7709
theatrical motion pictures, stress reactions, 16–72 yr olds, 12443

Motion Sickness
development of screening procedure involving biographical & personality & physiological data, prediction of performance under sickness inducing motion, seamen, 4528
development of symptoms of motion sickness, changes in blood pressure & heart rate & body temperature, 1582
number of flights & level of naval flight officer training, incidence of airsickness & vomiting & inflight performance, Naval Flight Officer students, 11431
perceptions of wave action & motion sickness in small craft harbors, boat owners & marina manager/owners, British Columbia, 6898
role of inner ear vs cerebral cortex in visual symptoms during space flight motion sickness, astronauts, 6171
sudden deceleration of bodily rotation within vertically striped enclosure, quick assessment of motion sickness manifestations, 4693

susceptibility to motion sickness, squirrel monkeys, 748
symptoms following cerebellar tumor surgery as evidence for role of circulatory insufficiency to temporoparieto-occipital region during space flight motion sickness induced visual hallucinations, 6170
symptoms following intracerebral lesions as evidence for role of circulatory insufficiency to temporoparieto-occipital region during space flight motion sickness induced visual hallucinations, 6172
Motivation [See Also Academic Achievement Motivation, Achievement Motivation, Affiliation Motivation, Animal Motivation, Educational Incentives, Employee Motivation, Extrinsic Motivation, Fear of Success, Hunger, Incentives, Intrinsic Motivation, Monetary Incentives, Sex Drive, Thirst]
age differences, use of discounting principle, kindergartners vs 2nd graders, 10065
age & personal background & motivation, dominance of Hungarian vs Russian language, bilingual 3.4–4.8 vs 5.8–6.9 yr olds, Hungary, 12508
anamnesis & personality, treatment motivation, psychosomatics vs neurotics, 5924
approaches to encouraging conservation behavior, literature review, 9215
approval motive & hostility, 17–23 yr old college students, 12892
assessment of "wishful thinking", college students, 437
attribution of motives, rapists, literature review, 10558
audience & task- vs ego-oriented motivational instructions, short term memory & arousal as measured by GSR, students, 11990
behavioral contracts for counting behaviors & role of self control, reduction of smoking, college students, 1983
bibliotherapy self help programs, weight loss, overweight 18–59 yr olds, 8408
brain norepenephrine turnover & individual power drive, mastery of power-related vs neutral material, male college students, 7542
causal attributions in achievement situations, Anglo vs Mexican American vs Black 4th & 5th graders, 7881
certainty of self perception, self presentation behaviors, female college students, 1351
chance & contingency factors vs personal qualities, vocational choice, 18–63 yr olds, 11420
choice of response to be learned on paired associate task, performance on RT task, college students, 511
choice vs no choice in type of activity, attendance at exercise program, female adults, 2814
client expectancy & motivation & approach tendency & avoidance tendency, therapeutic success in client-centered counseling, 20–40 yr olds, 4000
client motivation problems, success of clinical application of biofeedback training, 8566
cognitive attribution & emotion & action model of judgments of help giving behavior, 3665
cognitive factors & audience presence, motivation, college students, 2811
cognitive motivational psychology & other experimentation trends in general psychology, 2747
comparison of individual motivation vs official community doctrine, community residents, 8036
conflicting motives induced by intellectual performance stress, alcohol consumption, male college students, 1209
conjoint measurement analysis of integration of motivational information, ratings of other's future performance, college students, 12795
consolidation vs reactive inhibition, individual differences in reminiscence in rotary pursuit task, extraverted vs introverted college students, 9604
construction & correlation to academic achievement & reliability & predictive validity of multidimensional motivation instrument, 1st–8th graders, 9429
contact & lottery procedures, attendance & fitness in aerobic exercise groups, female college students, 8009
customary performance alone vs in groups, social loafing during group effort, college students, 5750
degree of effort rewarded in conceptual task, persistence in perceptual task, college students, 2808
degree of intimacy motivation on TAT, group behavior & content of original dramatic scenario, college students, 12813
desire for control & proattitudinal vs counterattitudinal arguments, attitude change, college students, 10346
deterrance model of interaction between motivation & costs, income tax cheating, 13047
developmental differences, effect of material vs praise rewards on motivation, kindergartners vs 4th graders, 7898
development & influence of work motivation, 9139
development of possessive behavior, children, 12581
differences in self perception & motivation & social support through 7 stages of family life cycle, male vs female adults, 12685
downward comparison principle as motivation in several social psychology phenomena, 10307
drug abuse style & type & neuropsychological impairment, polydrug users, 8096
drug career of amphetamine & opiate abusers, followup studies, 6525
duration of mental preparation period, performance on leg strength test, college students, 9612
educational background & training & motivation & job satisfaction & stress factors, 27–46 yr old upwardly mobile Black managers, South Africa, 13756
expectancy & desire for hypnotic experience, reported depth of hypnotic experience, college students, 12006
experimental formation of cognitive & helping social motivation, 9 yr olds, 5566
explanations for choosing "unknown" candidates, voters, 5668
extraversion & neuroticism & muscle tonus & pulse frequency, continuous performance task, 20–26 yr old male endurance athletes, 5283
formation of motives & interests & independence, children, Czechoslovakia, 1077
frustrated oral needs, career preference, college students, 11418
functional vs motivational helplessness, performance, college students, 3-factor theory of learned helplessness & critique of M. E. Seligman's theory, 11991
goal setting, performance, literature review, 1969–80, 7276
guilt feelings as motivating force behind writings on religious alienation, East Indian writer, 3266
halving time of P-technique, statistical-psychometric reliability, use of Motivational Analysis Test for alcoholic S, 4852
helpers' physical attractiveness & expectations for future interaction, help seeking behavior, female college students, 5817
heterogeneity of prosocial motivation in personality development, 3448
high vs low anxiety, simple vs complex task performance, male college students, India, 7279
individual differences in decisions on effort level, high school & graduate students, behavioral decision approach to V. H. Vroom's expectancy theory, 512
individual vs group gains, just vs unjust allocations of resources, 3642
influence of Motion Picture Association of America film ratings, motion picture attendance, 15–18 yr olds, 7709
instinctual drives, progression from symbiotic to separation-individuation phase, children from birth to 3 yrs old, longitudinal studies, 5572
interdependence vs dependence vs independence, use & development of taking ability, college students, 3663
interpersonal relations between individuals & couples, volitional effort in isometric contraction of upper limb, sports group members, 5275
introversion & self reported reasons for & times of urge & role of tranquilizing properties, smoking, college students, 1202
knowledge that attributions would be observed by opposite sex peer, attribution statements, college students, 10350
level of anxiety & neuroticism & extraversion & motivation, subjective memory scores, 11973
level of aspiration vs presence of competitors, qualitative & quantitative performance on attention & verbal & memory tests, 16–19 yr olds, 7827
level of social functioning & task motivation, 12 yr olds, 7875
levels of drive & persuasive communication, speed of agreement with opinion & conditioned attitude strength, college students, 12829
low vs high empathy vs ease of escape, egoistic vs altruistic motivation to help victim, female college students, 12785
Minor Sentence Completion Scale, measure of motivation, female college students, 2449
mnemonic strategy & motivation to learn, paired associate learning, college students, 9568
model of factors affecting career commitment, working women, Republic of South Africa, 13723
motivation, conjoint therapy, spouses, 6297

motivational dynamics, disadvantaged females with mean age 26.3 yrs, 12860
motivational factors, job acceptance, teachers of severely & profoundly mentally retarded children, 11157
motivational instruction & age & race, paired associate learning, Black vs White females, 2801
motivational program, school attendance, 13–14 yr old truant behavior disordered regular & special education students, 13536
motivational theory of D. E. Berlyne vs C. L. Hull, 5065
motivational vs cue properties of incentives, choice discriminations, 5–6 yr olds, 7824
motivation for & perceived outcome of treatment, therapists vs clients, 4190
motivation for referral for inpatient treatment at psychiatric institute, therapists, 2033
motivation & moral judgment ability & social pressure, acquiescent behavior & moral action, female college students, 5725
motivation & noise intensity & tobacco smoke exposure, annoyance response during task performance, 18–29 yr old nonsmokers, 2813
motivations & social support, medical career decision, male vs female medical students, 13491
motivation & success expectations & physiological monitoring & voice intonation & spectral analyses, assessment of emotional stress during skill performance, aviators & astronauts & controllers, 6852
motivation to continue job in regimental environment, degree of disturbance, 19–44 yr old male psychiatric patients, 8147
motives & techniques, induced jealousy, heterosexual couples, 1249
nonverbal model for coping behavior, depressed person, 3765
offense & defense & submission & patrol/marking motivational systems of agonistic behavior, muroid rodents, literature review, 12089
original drive theory of motivation by J. B. Watson & J. J. B. Morgan in 1917, 9610
phenomenological theory of motivation, 3636
prediction of intention to attend church & church attendance, college students, comparison of H. C. Triandis's & M. Fishbein's models, 5788
preference for music listening vs juice as reinforcement, 2 phases of motivation & reward in learning, profoundly mentally retarded, 10899
procedural effects vs actual reward value, measurement of reward strength of self stimulation behavior, male rats, 7300
psychological techniques in pain regulation, 3979
psychophysical function for mapping duration of rewarding brain stimulation to reward value, rats, 9868
quota set by male and female, card sorting task performance, male vs female college students, 5718
ratings, type of behavioral problems possible to solve with willpower, laypersons, implications for behavior therapy, 10380
repression-sensitization & variation motivation, mode of anxiety response to hypothetical threat situations, college students, 1307
research & theory on discrimination, literature review, 3494
responses to hypnotic vs waking task stimulus, 12 vs 18 yr olds, implications for subconscious motives, 7287
self perception & congruence & message concordance vs discrepancy with self evaluation, readiness to undertake growth tasks, college students, 12870
sex differences, attributions of motivation & personality traits to actors & observers, college students, 3672
sex & race & region, methods of suicide, test of theories of lethality of intent & different socialization with firearms, 3858
socioeconomic status & age, future time perspective in motivational goals, 18–25 vs 26–45 v. 46–65 yr olds vs 66 yrs old & older, 1075
strength of motivation to manage, managerial orientation in career planning, graduate students in management course, 13758
student vs instructor vs course vs situational factors, course withdrawal, college students, implications for advisors & instructors & course selection, 6625
study of personality in motivational psychology, 12835
subjective stimulus, enjoyment derived from destructive acts, college students, implications for aesthetic theory, 5855
subliminal psychodynamic activation method for laboratory study of "Freudian" motives, literature review, 6993
success vs failure in task affecting self esteem, helping behavior in similar vs different task, female college students, 2807
success vs failure on attention concentration test, motivation to change performance level, 11996
success vs failure on important vs unimportant test, attribution of causality as lack of effort vs ability, male college students, 1284
suggested amnesia & verbal inhibition, disorganized recall of word list, 18–42 yr olds, 2628
suicide notes, motivation, 18–74 yr olds, 13033
theories on motivations of reaction formation, literature review, 12865
theory of intentionality, relation of intention to action, 11557
type of motivation aroused, imitation, preschoolers, 12620
unconscious motivation of guilt, crime, 49 yr old male, 1526
validity of Reasons for Smoking scale, smokers at smoking cessation clinic, implications for prediction of quitting success, 9362
value & imminence of goals & disrupted goal striving & other affect variables & commitment intensity, frequency with which goals thought about, college students, 5806
willingness but inability to perform initial request, compliance with subsequent costlier request by same vs different person, college students, 12788
wishes, male vs female 4th–7th grade gifted students, 10168
3-level taxonomy of motivators for vocational retraining, 19–42 yr olds in retraining programs, 4494

Motivation Training
psychoactivating method for training stimulation of volitional activity, 1806

Motor Coordination
alternative to Fitt's power law of movement time for motor control tasks, 11707
construction & evaluation of Motoric Music Skills Test, measurement of motor skills development, 3–6 yr olds, 2470
development of Charlop-Atwell Scale of Motor Coordination, 4–6 yr olds, 2453
drawn sequences of positions, performance of motor coordination tasks, children, 8855
etiology & incidence & diagnosis & treatment, developmental dyspraxia, 10661
hierarchical vs heterarchical vs coalitional models of motor organization & control, application to theories of apraxia, 10695
hypnotic anesthesia of limb, performance on motor coordination tasks, college students, 9616
level of skilled 2-hand coordination task performance & correlation with task attentional demands as measured by random number generation performance, male college students, 296
motor training, psychomotor performance of preferred & nonpreferred hand, right handed Ss, 7152
perceptual & motor adaptation to inverted vision, 26 yr old male, 7177
postnatal ethanol administration, brain growth & motor coordination, infant rat pups, 877
restructuring of functional control arrangement of wrist movement based on multilevel neuromuscular control model, restoration of function lost by Parkinson's disease related pathology, 6143
RT & steadiness & neuroticism, 22–30 yr olds, 8068
serial & discrete motor tasks, movement speed, educationally subnormal 11–13 yr old males, 8275
soft signs of neurological damage & minor physical anomalies & gross motor coordination, 8.3–12.9 yr old males in residential treatment center, 13140
unilateral motor cortical lesions, contralateral & ipsilateral forepaw motor control, male rats, 12338
upper limb movement characteristics, 4–9 yr old meningomyelocele children, 13082

Motor Cortex
muscle force required in self paced hand movements, increase in premovement slow potentials in premotor & motor & somatosensory cortices, adult monkeys, 5214
unilateral motor cortical lesions, contralateral & ipsilateral forepaw motor control, male rats, 12338
visually initiated hand movements & cerebellar hemispherectomy, surface & depth potentials of premotor & motor cortex & premovement potentials, monkeys, 12339

Motor Development [See Also Psychomotor Development, Speech Development]
age & sex & task difficulty, lateralized finger recognition, 3 vs 4 yr olds, implications for cognitive development, 1043
ball size & color, catching performance, male vs female 7–8 yr olds, 12505
conceptional age differences, observable behavior during neurological examination, premature infants of conceptual age 29–40 wks, 9997
construction & evaluation of Motoric Music Skills Test, measurement of motor skills development, 3–6 yr olds, 2470

construction & reliability & validity of Progressive Figure Drawing Test, assessment of perceptual motor development, mentally retarded psychotic adults, 187
correlations between results of McCarthy Scales of Children's Abilities & other measures of cognitive & motor & perceptual development, 2–5 yr olds, 2492
games analysis, motor development & sex-appropriate play patterns & peer acceptance, 10 yr old gender disturbed male, 8537
genetic influences, manual torque, male & female twins & their 4–9 yr old siblings, 3357
genetic influences & developmental correlates, academic learning difficulties, identical vs fraternal twins, 6081
independence of perceptual & perceptual motor performance, 2nd graders, 3330
intellectual & language & psychomotor development, male child with agenesis of corpus callosum & megaloencephaly from age 6–34 mo, 10739
linguistic & oral motor ability & stuttering frequency & severity, 5–12 yr old stutterers, 10640
measurement & development of RT & movement & total response time, hockey goalkeepers, 2673
measurement of relationships between intellectual & motor abilities, normal & mentally deficient 10 yr olds, 4809
method of childbirth, social & motor development, 5–9 mo olds, 969
novel motor skill performance, male vs female 2nd vs 4th vs 6th graders, 1036
perceptual motor & language development, deaf 5–8 yr olds, 8303
perceptual motor test results & teacher ratings, evaluation of motor developmental differences, male vs female 3rd vs 6th graders, 4411
postnatal ethanol administration, brain growth & motor coordination, infant rat pups, 877
rhythmic stereotypies as manifestations of central motor programs, ethological viewpoint, infants, 3390
sensorimotor & language development, 12–19 mo old nonretarded infants vs 24–38 mo old Down's syndrome children of the same developmental age, 8251
smiling & sitting & crawling behavior development, infants, Uganda vs Kenya vs US, 1017
sudden unexpected change in load characteristics, rapid positioning limb movements, college students, support for mass-spring model of unidirectional limb action, 334
teaching through movement activities, motor & perceptual & social development, children, 11191
Motor Disorders [See Nervous System Disorders]
Motor Evoked Potentials [See Somatosensory Evoked Potentials]
Motor Neurons
chemical activation of gastrocnemius-soleus muscle afferents, synaptic responses in lumbar alpha-motoneurons, decerebrate & spinal cats, 12288
electrical stimulation of connectives & siphon nerve driving motor neurons in abdominal ganglia, inking behavior, Aplysia, 9867
isolation of monoclonal antibodies, identification of sensory & motor neurones, leeches, 12247
neurons comprising central pattern generator, generation of rhythmic behavior patterns, 12236
paired training, facilitation of synaptic input to motor neurons indicating aversive associative learning, Aplysia californica, 12020
pinna movement, discharge of brainstem neurons, cats, 7492
selective fatigue in human motor systems, female 17–38 yr olds, 2978
serotonin & methysergide & noradrenaline, membrane mechanisms underlying modulatory effects on facial motoneurone excitability, rats, 5412
sexually dimorphic motor nucleus, hormone accumulation & role in copulatory behavior, male rats, 7624
speech movement, platysma muscle motor unit activation, male S, 2994
testosterone, weight of syrinx & activity of choline acetyltransferase & acetylcholinesterase in syringeal motor neurons & muscle, castrated adult male zebra finches & neonatal canaries, implications for regulation of singing, 799
vibrations to distal tendons of biceps & triceps with eyes closed vs open, muscle stretching & contractions & kinesthetic sensations, human Ss, 3028
wrist movements in pursuit tracking, gamma fusimotor vs alpha motoneuron activity, monkeys, 7489
Motor Performance [See Also Finger Tapping, Jumping, Running, Walking]
action potential & intracellular stimulation of Mauthner cell, tail-flip, bullfrog tadpole, 9794
age differences & repeated exposure to novel environment, activity habituation & retention, 2 vs 12 vs 24 mo old male mice, 9639
alternative wood chewing & wheel running & cage exploration, nest building, wild house mice, 9663
amygdalectomy, running speed following large vs small rewards & delay of reinforcement, female rats, 9888
attention to internal vs external stimuli & expectations, performance on steadiness task, college students, 314
augmentation vs reduction, performance of gross motor coincidence-anticipation task, college students, 4896
autoaggression & grooming & walking, singly caged female macaque, 9689
ball size & color, catching performance, male vs female 7–8 yr olds, 12505
brain lesions in left vs right frontal vs central vs temporal vs parietal regions, performance of complex arm & facial movements, 12–55 yr olds, 13120
chlordiazepoxide vs diazepam vs medazepam vs bromazepam, scopolamine-induced locomotor stimulation, mice, 12399
chronic haloperidol, prenatal & postnatal development, rats, 7695
cognitive processes & strategies, learning & performing complex motor behaviors, 11758
cognitive strategies & ability & sex, tennis serves, 18–25 yr old tennis players, 310
competition & trait anxiety, state anxiety & muscular strength & endurance task performance, 18–22 yr old males, implications for social facilitation in sports competition, 1236
computerized system for measurement of force exerted during bicycling with each pedal revolution, 9260
computer simulation of continuous motor control learning, human operator performance, 9177
continuous-access phencyclidine self-administration, physical dependence, rhesus monkeys, 7620
delayed & displaced visual feedback, motor control of hand during target directed movement, college students, 33f
depressive illness & age, performance on speed vs power task, 15–59 yr old depressed vs nondepressed females, 8182
dextroamphetamine vs apomorphine & 6-hydroxydopamine injections into anterolateral hypothalamus vs mesolimbic & anterior striatal terminal fields, locomotor activity, male rats, 7641
dextro- & levo-amino acids & morphine, analgesia & locomotor activity, male DBA vs C57 mice, 5349
dissolved oxygen concentration & life cycle stage, surfacing behavior & buccal movement, frog tadpoles, 3021
diurnal cycle, spontaneous rotational behavior, female gerbils, 5167
dopamine vs noradrenaline vs 5-hydroxytryptamine injections into accumbens & caudate-putamen nuclei, exploratory & locomotor & stereotyped behavior, nialamide-pretreated male rats, 12385
duration of mental preparation period, performance on leg strength test, college students, 9612
enkephalin analog vs morphine, locomotor activity, male mice, 12406
exercise vs electrical stimulation of subthalamic locomotor region, respiration, unanesthetized decorticate cats, 12281
expectancy & pharmacological effects of alcohol, cognitive & motor performance, male college students, 5416
exposure to cold, RT & movement & total performance time in arm movement task, right handed male college athletes, 330
far-lateral hypothalamic lesions, wheel-running activity, rats, 5338
flurazepam, methylphenidate-induced stereotyped behavior, mice, 7687
food intake for 1 hr daily & unlimited running wheel activity, development of stomach ulcers & levels of liver glycogen & bilirubin & serum proteins & glucose, male rats, 5317
GABA & picrotoxin & clonidine & morphine & cyproheptadine, locomotor activity & gross behavior, male rats & mice & rabbits, 5406
grooming behavior, rat pups & adults, 9715
gyrus proreus lesions, delayed vs nondelayed responses to cutaneous discriminative stimuli & transfer of learning, cats, 9887
Halstead-Reitan Neuropsychological Test Battery, degree of motor vs language impairment, neuropsychologically impaired asthmatic 9–14 yr olds, 9333
hashish extract, maternal nonsocial & nursing & locomotor activity & development of sucklings, lactating mice & their pups, 7642
hashish extract, social & overall activity & submissive & sexual & aggressive & nest-building behavior & dominance, male mice, 7691
heroin vs levorphanol & naloxone, rigidity & explosive motor behavior, male rats, 5353

high fat diet, reactions to quinine adulteration & sugar solution & shock stimulation & drinking "shocked" water & activity level & food motivated operant behavior, early- vs late-onset obese male rats, 5309
high vs low frontalis muscle tension & instructions as to rate of responding & schedule of reinforcement, buttonpress responding, 30–66 yr old schizophrenics, 13014
hippocampal vs cortical lesions, Pavlovian eyeblink & heart rate & EMG conditioning & free-field activity, rabbits, 9900
hypophysectomy & stress, novelty-induced grooming & locomotion & open field exploration, male rats, 7600
illumination & superior colliculus lesions, locomotor activity, male rats, 3116
implanted strain gauge & EMG amplifier, recording of axial movement, rats, 4738
induced hyperphenylalaninemia & cerebral lateralization, hyperactivity & learning ability, rats, implications for animal models of phenylketonuria, 7533
interocular transfer of color discrimination vs motor response training, pigeons, 612
interstimulus intervals, motor response latency, 21–32 yr olds, 2643
kainic acid injection into dorsal hippocampus, neuronal depletion & acquisition & reversal of brightness discrimination & spontaneous alternation & locomotor activity & food & water intake & taste preferences, female rats, 7676
left vs right hemisphere damage due to stroke or tumor, motor performance, 45–56 yr old patients, 13104
level of skilled 2-hand coordination task performance & correlation with task attentional demands as measured by random number generation performance, male college students, 296
locomotor activity & somatosensory orientation & EEG arousal, C57BL/6 vs DBA/2 male mice, 5196
locomotor & begging behavior & position in nest, distribution of food, early vs late hatched nestlings of great tits & black birds & fieldfares, 12158
locus of control & verbal praise, motor performance, educable mentally retarded elementary students, 8999
long-term dietary levodopa, body weight & locomotor activity & number of dopamine receptors, C57 vs BALB/C mice, 7689
manifest anxiety, time interval estimation & motor speed, female college students, India, 5061
maternal alcohol administration during lactation, shock avoidance & maze performance & behavioral development & maternal behavior, rat pups, 9917
measurement & development of RT & movement & total response time, hockey goalkeepers, 2673
mesolimbicocortical dopamine terminal field denervation by hypothalamic 6-hydroxydopamine injections & desmethylimipramine & apomorphine & clonidine & pimozide, locomotor & exploratory behavior, rats, 5367
microwave doppler radar activity monitor, animals, 4715
modeling & tuition & sanctions, self control of motor behavior, 6 vs 7 vs 9 vs 11 yr olds, 3346
monoamines & their agonists & precursors, atropine-resistant neocortical low voltage fast activity & motor activity, reserpinized rats, 7703
motor enactment vs imagination vs viewing of demonstration vs no cues, memory for action phrase, students, 7249
motor performance feedback, self confidence & motor performance, male vs female 6–10 yr olds, 3274
motor skill level, cognitive controls & learner strategies & information processing systems, 11759
motor & social contact behavior in interactions with mothers, abused 3 yr olds, 6046
motor training, psychomotor performance of preferred & nonpreferred hand, right handed Ss, 7152
movement precuing & subsequent motor performance RT, inference about motor programing of aimed hand movements, college students, 9469
movement strategy, muscle activity during ballistic movement, 25–36 yr old males, 12274
nervous system properties, motor performance, human Ss, 2640
neurological tests for determination of lesions of parietal cortex, 9398
number of Os & room size, pegboard task performance, junior high school students, 12535
outcome on bicycle riding task, attributions of ability &/vs effort &/vs task difficulty &/vs luck, male college students, 1335
pairing with nonretarded students & teacher praise for motor skill performance vs social interaction, social interaction, trainable mentally retarded 12.6–14.8 yr olds, 9040
parachlorophenylalanine & atropine, alert immobility & rhythmic slow activity, rats, 3170
participant modeling, high avoidance motor task performance, educable mentally retarded 12 yr old male, 3-wk followup, 10869
peer-infant separation & rewarding brain stimulation, behavior, pigtail macaque & rhesus macaque infants raised in pairs from birth, 3089
performance of exercises using ergometer, male college student introverts vs extraverts, 335
pharmacological treatment, phencyclidine-induced behavioral stimulation, female mice, 12357
physical conditioning, preferred work load level & performance on bicycle ergometer, female soccer players, 2642
placement on inclined surface & age differences, orientation & move toward gravity, male rats, 9720
postmoult behavior, water-stick insects, 5250
practicing motor skill under fatigue vs nonfatigue condition, learning & performance under heavy fatigue condition, male college students, 2679
preparation to execute motor acts, premovement brain potentials, male college students, 7468
psychological & physiological sex differences in human performance, bibliography, 10291
putamen cooling, visuomotor pointing task, baboons, 3062
ratio of work & rest periods, rotary pursuit tracking performance, college students, 2650
reaching behavior, neonates, 10002
reserpine & dextroamphetamine & maternal deprivation, hyperactivity & cardiac & respiratory rates & body temperature, rat pups, 9852
rocking stimulation & sleeping vs alert state, cardiac & behavioral responses, neonates, 12269
scratching, activity of fastigial nucleus neurons, cats, 5199
scratching, activity of interpositus & lateral nuclei neurons, cats, 5200
serial & discrete motor tasks, movement speed, educationally subnormal 11–13 yr old males, 8275
severity of brain damage resulting from localized head injury, intelligence & reading & cognitive & motor performance, school age children, 1566
short term memory as a load variable, manual vs verbal performance, adolescents & young adults, 2623
signaled escape & regular classical conditioning, heart rate & movement & EMG activity, restrained vs unrestrained female rats, 7411
social & spatial density, group performance & affective reactions to interactive motor task, male college students, 5736
speech movement, platysma muscle motor unit activation, male S, 2994
stage of estrous cycle & pseudopregnancy, circadian activity rhythms, female rats, 9801
strength & balance & kinesthesis & flexibility & rhythm & motor ability, female dancers vs gymnasts vs athletes vs untrained Ss, 7506
subdiaphragmatic vagotomy, schedule-induced licking & drinking & schedule-dependent lever pressing, male rats reduced in body weight, 7581
substantia nigra transplantation to neostriatum, nigrostriatal dopamine pathway destruction, female rats, 5298
target & dart color, throwing performance, male college students, 11740
teachers' expectations & students' self concept & sex, motor performance expectations, 3rd & 4th graders, 2141
temporal variations in motor activity during early posthatching period, chicks, 5260
time constraints & risk & cue discrimination, assessment of racquet sport performance, 2670
ultrasonic monitoring system for recording locomotor activity, octopus, 4657
unilaterally presented music & bilateral tactile stimulation, right vs left hand use for response, college students, 12192
upper limb movement characteristics, 4–9 yr old meningomyelocele children, 13082
ventral noradrenergic bundle lesions, food intake & body weight & running activity & body composition & insulin & growth hormones & hypothalamic norepinephrine concentrations & body length, male rats, 7592

weight training & basketball programs, basketball skills, male 7th graders, 4302
wheel-running behavior, muroid rodent species, 5146
wrist movements in pursuit tracking, gamma fusimotor vs alpha motoneuron activity, monkeys, 7489
5,7-dihydroxytryptamine injections into fornix-fimbria, locomotor activity & 5-hydroxytryptamine hippocampal re-uptake, rats pretreated with desipramine, 12414
6-hydroxydopamine & desmethylimipramine vs dextroamphetamine vs methylphenidate vs scopolamine, brain dopamine & norepinephrine levels & hyperactivity, newborn vs infant rats, 7678
Motor Processes [See Also Exercise, Finger Tapping, Jumping, Motor Coordination, Motor Performance, Motor Skills, Physical Agility, Physical Dexterity, Running, Sucking, Tonic Immobility, Walking]
age & sex & throwing arm, accuracy of throwing task, preschoolers, implications for structural development theories of Piaget & R. Schmidt, 980
ambient cold vs normal temperatures, diurnal activity level, male rats on low-iron diet, 5311
amphetamine, circling behavior, female cats, implications for endogenous asymmetry in striatal dopamine activity, 12361
anatomical connections & electrophysiological responsivity of cortical area 3a & role in conscious perception of limb position & movement, literature review, 5218
apomorphine & lateral hypothalamic stimulation in shuttlebox, locomotor initiation & escape behavior, male rats, 9914
apomorphine vs RU 24213 vs dextroamphetamine vs bromocriptine vs levodopa & lesions of nigrostriatal pathway, stereotyped behavior & locomotion & rotation & anorexia & emesis, mice & rats, 865
atropine & reserpine & nialamide, neocortical low voltage fast activity during immobility & tremor & face-washing vs walking & struggling & postural changes & head movement, male rats, 7704
attentional disruption, self touching, 10 yr old males, 3270
auditory signal intensity, choice RT & heart rate, male college students, 5293
auditory & visual feedback, contact & manipulative activity with play materials, normal 1–2 yr olds vs mentally retarded 3–16 yr olds functioning at 1–2 yr old stage, 1549
awareness & attention, human conditioning, literature review, 7142
bicuculline vs picrotoxin vs strychnine vs morphine vs aminooxyacetic acid vs 3-mercaptopropionate vs thiosemicarbazide, di-n-propylacetate-induced abstinence behavior, male rats, 12353
burst speed & distance running capacity & thermal dependence, lizards, 5249
buttonpress vs counting choice RT tasks & response on same vs opposite side of stimulus, spatial & temporal characteristics of hemispheric electrical activity, 3002
category scales vs semantically constructed scales vs heart rate, ratings of perceived exertion during bicycle riding, experienced vs untrained vs inexperienced Ss, 2448
cerebral asymmetry in facial expression & emotional attribution, reply to P. Ekman's & C. A. Nelson's & F. D. Horowitz's & S. I. Spinrad's comments on study by H. A. Sackheim et al, 2973
change in distance of fixation during monocular viewing, optic axis translation & cyclotorsion of iris & pupil, normal Os, 2689
chlordiazepoxide vs diazepam vs medazepam vs bromazepam with vs without amphetamines, spontaneous locomotor activity, male mice, 9960
chromosome differences, lines of Drosophila melanogaster selected for locomotor activity, 689
chronic morphine withdrawal with apomorphine ester vs lergotrile, locomotor activity, male rats, 3220
circadian rhythms, locomotor activity & drinking behavior, reproductively senescent female rats in entrained & free running conditions vs young rats with normal estrous cycles, 746
CNS, regulation of rhythmic movements, animals, 7446
conceptional age differences, observable behavior during neurological examination, premature infants of conceptual age 29–40 wks, 9997
concurrent musical task, facilitation of left-hemisphere mediated motor task, college students, 11763
consistency of seat activity & cognitive & motor steadiness measures, reading retarded 7–12 yr olds, 2-yr followup, 2429
crawling speed, power of locomotion & oxygen consumption, terrestrial slugs, 740
cue to signal muscle contraction & interspersal of control trials, role of voluntary intent on automatic long-latency stretch reflex, normal Ss, CNS anatomical implications, 3051
decortication, feeding & sensory & motor deficits, rats, 12341
delta sleep inducing peptide & arginine vasotocin, sleep & motor activity, male rats, 5411
delta-9-tetrahydrocannabinol, morphine-induced locomotor activity, mice, 3222
development of agonistic behavior vs larval motor processes vs early intraspecific social interactions, newly hatched to 4 mo old blue gourami, 9722
development of social vs manipulatory vs postural vs locomotor behavior, free living baboons, 7353
development of supersensitivity to locomotor stimulant effect of apomorphine, rats with experimentally induced hypokinesia, 9970
dextroamphetamine, augmentation vs attenuation of ambulation vs rearing vs stereotyped activity, female rats, 12368
dextroamphetamine vs gamma-butyrolactone vs haloperidol, motor activity & loss of righting reflexes & brain dopamine levels, mice bred for differing sensitivity to alcohol, 678
dichlorvos, open field behavior & motor activity & correlation with regional brain levels of norepinephrine & dopamine & serotonin, male rats, 859
dichotic presentation of verbal commands, right hemisphere understanding of verbs & manual responses, Ss with complete forebrain commissurotomy, 8328
diphenylhydantoin, spontaneous motor activity, male rats, 7696
dishabituated visual & auditory stimuli in conditioning paradigm, latency of evoked EMG & head movements & visual cortex responses, cats, 12325
divergent selection on locomotor activity, Drosophila melanogaster of distinct geographical origin, 690
electrical stimulation & acetylcholine chloride & potassium chloride & penicillin in pulvinar-lateral posterior complex, turning behavior, cats, 12323
electrical stimulation of substantia nigra & electrolytic vs 6-hydroxydopamine lateral hypothalamus lesions, rotation, female rats, 12308
eliciting contexts, rhythmical stereotyped behavior, normal infants less than 1 yr old, 12472
EMG biofeedback training & muscle tension reduction reinforcement, reduction of overactivity & problem behavior & increased attention to academic task, 6–10 yr olds, 1788
encoding of completing vs preparatory motion, college students, 7224
eserine & atropine & ether & pentobarbital, hippocampal EEG & evoked potentials & behavior, male rats, 5388
extent of movement & terminal position & practice, range effect in positioning task as seen in over- & undershooting errors, college students, 2656
force & direction uncertainty, choice RT in isometric force production task, college students, 11767
frontal EMG biofeedback vs relaxation training, manual motor functioning, Parkinson's patients, 1824
full vs half day school attendance, peer interaction & motor activity, 2.5–4.5 yr olds, 11257
functional organization of posterior parietal association cortex & effects of lesions on attention & sensation & motor control, monkeys, 12222
genetic deficiency for vasopressin in suprachiasmatic nuclei, circadian rhythms in locomotor activity & drinking & pineal serotonin N-acetyltransferase, Brattleboro rats, 749
genetic influences, manual torque, male & female twins & their 4–9 yr old siblings, 3357
genotype, frequencies and temporal patterns of jumping over barriers, inbred mice strains & their F sub 1 hybrids, 7405
giant interneurons, flight activity, cockroaches, 5231
grip preferences on ladder apparatus, 2–8 yr olds & college students, 3325
haloperidol & apomorphine, spontaneous activity & stereotypy responses during & after haloperidol withdrawal, rats, implications for methodology in neuroleptic treatment studies, 9971
hand movements, braille reading ability, blind 13–21 yr olds, 10660
hand vs head movements during visually presented problem solving task, 8 yr olds & children with muscular dystrophy, Netherlands, 3898
high intensity cutaneous stimulation to hindlimb during various phases of step cycle, crossed extension & flexion responses to contralateral hindlimb, high decerebrate cats, 9870
high vs low self concept, hand & body & viewing behaviors, junior high school students, 3440
hippocampal electrical stimulation, evoked potentials in hippocampal CA1 region & behavior & EEG, male rats, 5326

idiographic manipulation of cognitive & autonomic & motoric & environmental factors, anxiety management, patients, 8562
immobilization stress, impairment of macrophage tumoricidal function, male mice, 918
information load & task difficulty & age, movement speed on serial & discrete task, 6 vs 8 vs 10 vs 12 yr olds, 1039
interaural sound reversal with vs without head movements, sound localization, Ss, 11870
intracranial self stimulation & ACTH 4–9 related synthetic peptides, response frequency & general activity, male rats, 9942
intranigral injections of GABA & muscimol following pretreatment with bicuculline vs haloperidol vs atropine vs strychnine, circling behavior & role of nigrostriatal dopaminergic system, female rats, 896
intraventricular vs periaqueductal gray injections of bombesin, receptor distribution in brain & nociception & locomotor activity, rats, 921
iris pigmentation, premotor & motor RTs & latency & motor components of reflex time, college students, 5278
kinesthetic RT task, control mechanisms in bilateral arm responses, right handed 20–30 yr olds, 2676
latency & parameters of motor component of response, RT, 20–35 yr olds, 317
lateral head position preference, newborn infants with right handed vs non-right-handed parents, 7471
level of ambient illumination & influence of diurnal factors, initiation & characteristic features of locomotion, nudibranchs, implications for sensory adaptation, 648
LSD & mescaline & 5-methoxy-N,N-dimethyltryptamine, dose dependent rotational behavior, female rats, 5368
LSD-25, avoidance behavior & locomotor activity, mice, 5355
mechanisms of ultrasonic emissions, Mongolian gerbils, 7518
migratory & feeding & swimming behavior, wild juvenile plaice, 9687
minor physical anomalies & obstetrical history & newborn dopamine-beta-hydroxylase, irritability & unsociable response & activity levels, infants at 5 mo & 1 yr, 12468
motion level changes, mental disorders, 10516
motor control processes framework, stuttering, 13070
motor requirements of RT & time estimation tasks, heart rate & skin conductance, adult Ss, 759
motor & verbal practice, Stroop Color Word Test response latencies, college students, 333
movement patterns & structural aspects of environment, cognitive representation of spatial relationships, college students, 307
movement time & amplitude & average velocity, response initiation time in discrete linear timing movements, college students, 7151
muscle force required in self paced hand movements, increase in premovement slow potentials in premotor & motor & somatosensory cortices, adult monkeys, 5214
naloxone administered in familiar vs unfamiliar test arena, exploratory & social behavior & motor activity, male rats, 9929
naloxone-reversible enkephalinamide effects, behavioral activity, male rats, 7652
neurons comprising central pattern generator, generation of rhythmic behavior patterns, 12236
nicotine, spontaneous motor activity & nicotine concentrations in brain & liver, male vs female & C57 vs C3H vs DBA strains of mice, 9936
nigral transplants, striatal dopaminergic neurotransmission & spontaneous motor behavior & sensorimotor orientation & sensory attention, female rats with bilateral nigrostriatal dopamine pathway lesions, 12329
obesity induced by neonatal administration of monosodium glutamate, feeding behavior & activity & thermoregulation & response to catecholamines, mice, 12352
oral vs ip injections of methylphenidate hydrochloride vs dextroamphetamine sulfate vs placebo, level of locomotor activity, male rats, 7694
order of learning & recall of arm positioning movements, absence of proactive interference, 21 yr olds, 7147
parachlorophenylalanine & tryptophan, sleep & EEG & motor activity, male rats, 9918
phencyclidine, hippocampal modulation of amphetamine-induced rotation, female rats, 3172
phonetic disintegration & faculty phonetic realization, problems in motor implementation & internal phonemic representation, male motor aphasics, 8366
picrotoxin injections into ventral tegmentum followed by GABA injections into globus pallidus, locomotor activity, male rats, 910
pinealectomy, ultradian rhythms & short term activity, lake chubs, 840
pinna movement, discharge of brainstem neurons, cats, 7492
postnatal exposure to lead acetate, hyperactivity & emotionality, female rats, 884
postural asymmetry assessed by tail pinch vs suspension vs holding vs path walking & dextroamphetamine, prediction of circling direction, male vs female rats, 9785
precision of knowledge of results, gross motor coincidence-anticipation task performance, college students, 11744
pretreatment with levodopa alone & with benserazide followed by drug challenge, locomotor stimulation & role of central dopamine receptor sensitivity, male mice, 895
prior intrashock activity, shock-elicited fighting behavior, male rats, 12317
proprioception, perception & control of movement, persons with metacarpophalangeal joint & joint capsule replacement, 5282
reciprocity between movements of lower lip & jaw during production of front vowels, examination of O. M. Hughes & J. H. Abbs's procedures, 4968
reciprocity between movements of lower lip & jaw during production of front vowels, reply to criticism of H. M. Sussman, 4952
recognition vs recall, hockey actions, college students, 2781
reduced auditory feedback & increased kinesic self stimulation, regulation of cognitive interference on Stroop Color-Word Test & resultant errors, 18–28 yr olds, 320
reproductive isolation, lines of Drosophila melanogaster selected for locomotor activity, 688
retention of habituation & sensitization of forelimb withdrawal response over varied retention intervals, 3–15 day old rat pups, 548
rhythmic stereotypies as manifestations of central motor programs, ethological viewpoint, infants, 3390
RT for forefinger button pressing & nonspeech & speech mode vocal initiation, stuttering vs nonstuttering 19–59 yr olds, 10639
saline & cyclophosphamide, motor processes, rat offspring of treated males, 3134
scotophobin, motor activity, mice, implications for effects on memory transfer, 941
septal lesions, pre- & postoperative acquisition & retention of locomotor tasks, rats, 837
sex, decision & movement time components of visual choice RTs, college students & exhibition visitors, 9467
sinusoidal tracking movements with forearm, reflex changes in EMG activity of biceps & triceps muscles, humans, 315
solar light-dark cycles & circadian rhythms, pursuit tracking task, workers in high Arctic, 4593
sound vs shock conditioning stimuli, electrodermal vs vasomotor vs eyelid reactions, 17–30 yr old college students, differential analysis of human conditioning, 9286
spatial & verbal abilities & lateral preference patterns, learning disabled 8.3–12.7 yr olds, 1536
specific vs ambiguous precue conditions & type of precue, movement initiation time, 18–30 yr olds, 9466
speech motor activity, blink frequency, 19–44 yr olds, 7519
spontaneous & pentylenetetrazol-induced spike-wave discharges in electrocorticogram & locomotor arrest & clonic facial movements, rats, similarities to human petit mal epilepsy, 7485
statistical models for determination of nature of timing control among distinct movement phases in repeated motor activity, 292
stimulus-related motor activity, temporal integration of visual information, 5 vs 7 yr olds, Netherlands, 3323
strychnine &/vs glycine & GABA, increase in spontaneous motility & strychnine antagonism of decreases, 7-day chick embryo, 3203
sudden unexpected change in load characteristics, rapid positioning limb movements, college students, support for mass-spring model of unidirectional limb action, 334
superior colliculus lesions, amphetamine-induced increases in locomotor activity & stereotyped behavior, male rats, 9898
superior colliculus lesions, lack of head dipping in hole-board test & increased locomotor activity, male rats, 5335
teaching through movement activities, motor & perceptual & social development, children, 11191
technique for measurement of intracranial spread of current from monopolar vs bipolar brain stimulation by using motor response from VII nerve stimulation, rats, 7588
territorial & courtship behavior, chromis cynanea, 632
test location novelty & E familiarity, modification of nonspecific motor activity by methamphetamine, female rats, 893

thioridazine vs thiothixene, activity & parkinsonism & prolactin levels, chronic schizophrenic 18–65 yr old outpatients, 13327
transcutaneous electrical neurostimulation, physical & social interaction & pain behavior & treatment response, pain patients, 8412
tryptophan, motor activity & open field behavior as affected by 5-HT receptor blockers, male rats, 3219
use of simple reaction time in motor programing studies, response to criticism of S. T. Klapp et al, 322
use of stairs vs elevator to ascend 4-story building, obese vs overweight vs normal weight Ss, 3901
various dosage levels of cocaine hydrochloride, spontaneous motor activity & stereotypy, rats, 3141
various indirectly acting sympathomimetic amines, stereotypy & norepinephrine uptake, male mice, 3221
verbal codability & degree of difficulty & quantity of visually presented problem, hand movements, female 9 yr olds, Netherlands, 3395
visually initiated hand movements & cerebellar hemispherectomy, surface & depth potentials of premotor & motor cortex & premovement potentials, monkeys, 12339
yoga & motor activities, concentration performance, children with learning disabilities, 2155
Motor Skill Learning [See Perceptual Motor Learning]
Motor Skills
age & sex & cognitive ability, torque & visual spatial task performance, 7 vs 9 yr olds, 10062
amount of paper space, accuracy of letter strokes vs manuscript strokes, suburban vs urban kindergartners vs 1st graders, 12559
background music, motor skill performance, educable mentally retarded vs normal 10–12 yr old males, 3869
ball size & color, catching performance, male vs female 7–8 yr olds, 12505
cognitive processes & learner strategies, motor skill acquisition & retention & transfer, 11757
construction & evaluation of Motoric Music Skills Test, measurement of motor skills development, 3–6 yr olds, 2470
EMG biofeedback for tension control, learning & performance of pursuit rotor backing task, male college students, 764
etiology & incidence & diagnosis & treatment, developmental dyspraxia, 10661
hierarchic representations of output in motor programing, playing music of Chopin & Bach & Bartok, professional pianists, 7237
imagery vs kinesthetic vs labeling vs informed choice learning strategies, initial learning & retention & transfer of motor skill, college students, 496
individualized physical activity, fine & gross motor skills & self concept & risk-taking behavior, developmentally disabled children, 11304
knowledge of performance & videotape replay, improved performance on balance-beam routine, female 12–13 yr olds, 1035
measurement & development of RT & movement & total response time, hockey goalkeepers, 2673
measurement of discrimination learning with AVC scale including motor & visual & auditory discrimination skills, mentally retarded 3–36 yr olds vs normal 13–35 yr olds, 3872
measurement of relationships between intellectual & motor abilities, normal & mentally deficient 10 yr olds, 4809
motor skill level, cognitive controls & learner strategies & information processing systems, 11759
motor skill level, cognitive controls & learner strategies & information processing, training implications, 308
motor training, psychomotor performance of preferred & nonpreferred hand, right handed Ss, 7152
novel motor skill performance, male vs female 2nd vs 4th vs 6th graders, 1036
passive vs active music reinforcement, increase in preacademic & motor skills, severely retarded 8–18 yr olds, 10768
perceptual & motor skills & verbal comprehension performance on McCarthy Scales of Children's Abilities, Puerto Rican 5–8 yr olds, 3386
practicing motor skill under fatigue vs nonfatigue condition, learning & performance under heavy fatigue condition, male college students, 2679
serial & discrete motor tasks, movement speed, educationally subnormal 11–13 yr old males, 8275
social class & sex, vigilance & motor inhibition, 4–7 yr olds, 10075
use of Bassin anticipation timer, measurement of coincidence anticipation in ball tracking skills, 101
videotape feedback given early &/vs midway through instructional cycle vs no feedback, tennis serving form, beginner & intermediate tennis players, 2666
whole body vibrations, proprioceptive tasks & visual tracking & control of static vs dynamic torques, right handed 17–35 yr olds, implications for helicopter & other vibrating vehicle operation, 9473
Motor Traffic Accidents
daylight savings time change, increase in motor traffic accidents, Great Britain, 11519
distortion of visual field spatial geometry, reduction of sensory adaptation in movement perception & application to traffic accident prevention, 19–50 yr olds, 4907
improvements in motorcycle & motorcyclist day- & nighttime conspicuity, number of multivehicle motorcycle crashes, motorcyclists, 2276
outline of alternative research approach, human factors & highway-accident causation, 4586
personality factors, accident prone drivers, 10394
psychiatric vs physical illness, accidents & traffic code violations, 18–67 yr old patients, 10407
respect for law & empathy & peer influence, involvement in prior automobile accidents, US males enrolled in "driving while drunk" classes, replication of study by A. W. Clark in Australia, 6041
Motor Vehicles [See Automobiles]
Mourning [See Grief]
Mouth (Anatomy)
temporal patterns in smoking rate, mouth level nicotine exposure, 18–48 yr olds, 1207
Movement Perception [See Motion Perception]
Movements (Activist) [See Activist Movements]
Movements (Social) [See Social Movements]
Movies [See Motion Pictures (Entertainment)]
Multidisciplinary Treatment Approach [See Interdisciplinary Treatment Approach]
Multilingualism [See Also Bilingualism]
approach & cognitive styles, foreign language learning, multilingual vs monolingual 21–61 yr olds, 955
multilingualism & fluid language repertoire, implications for use of several languages in schools, 1st graders, Zambia, 2106
Multiple Births [See Also Heterozygotic Twins, Monozygotic Twins, Twins]
development & object constancy & attachment to mother, low birth weight preterm quintuplets & quadruplets, 10008
Multiple Choice (Testing Method)
construct validity of free response vs machine scorable versions of Formulating Hypotheses test, college students, implications for graduate student selection, 6785
drug relevance of stimulus words, suppression of associations related to stages of addiction, male heroin or opiate addicts, implications for measurement of habit strength, 1517
latent trait model to estimate item difficulty & discriminations & lower asymptotes using simulation data from multiple choice achievement tests, derivation of goodness-of-fit statistic, 7137
orally administered true-false vs multiple choice test items, assessment of achievement, retarded adolescents, 6764
partial knowledge & scoring multiple choice tests, 185
personality correlates, patterns of changing answers on multiple choice tests, college students, 6695
preference for assigned notetaking vs full vs partial distributed notes, multiple-choice vs essay test scores, college students, 13555
short-answer vs multiple choice format, retention of research concepts & procedures, college students, 6759
technically worded options, multiple choice test performance, college students, implications for testwiseness, 4459
Multiple Personality
behavior therapy, transient dual personality, female 33 yr old, 10893
diagnosis & characteristics, multiple personality syndrome, 5944
history of multiple personality & early examples from B. Rush, 3772
hypnosis & psychotherapy, multiple personalities resulting from childhood & adolescent trauma, 29 yr old female, 1671
Multiple Sclerosis
click stimuli repetition rate, auditory brainstem responses, normal hearing 14–26 yr olds vs 19–47 yr olds with multiple sclerosis vs 70–91 yr olds, 13151
critical flicker fusion thresholds, 22–56 yr old females mildly impaired by multiple sclerosis, implications for diagnostic use, 10692
hyperbaric oxygen therapy, multiple sclerosis, 10782

relationship between auditory evoked potentials & interaural time discrimination, multiple sclerosis patients, 1585
validity of General Health Questionnaire, measure of emotional disturbance, multiple sclerosis patients, 11678
visual pattern reversal evoked potentials, differential diagnosis of multiple sclerosis, 6128
Multiple Therapists [See Conjoint Therapy]
Multiply Handicapped
classroom-based instruction in restauranting skills, skill acquisition & generalization & maintenance, mentally retarded 17–22 yr old males with emotional disorder vs epilepsy vs deafness, 8743
evaluation of transitional vocational services vs academic program, mentally retarded multiply handicapped high school students, 4397
individual vs small group instruction, learning, multihandicapped 4.3–5.5 yr olds, 8984
interaction of heredity & environment, behavioral development, normal Puerto Rican & mildly mentally retarded & multihandicapped children, longitudinal studies, 3410
interlocking progressive-ratio reinforcement schedule, determination of reinforcement preferences, 10.8–18.4 yr old multihandicapped severely & profoundly mentally retarded, 8545
job placement program including comprehensive diagnostic & workshop evaluations & work exposure, employment, multiply handicapped epileptics, 2-yr followup, 1979
Murder [See Homicide]
Muscle Contraction Headache
biofeedback training, migraine & tension headaches, literature review, 1814
EMG biofeedback &/vs progressive relaxation, tension headaches, clients with muscular contraction headaches, 8528
frontalis EMG biofeedback & shaping & generalization procedures, chronic tension headache & personality variables & psychosomatic complaints & medication intake, 25–60 yr old patients, 13272
hypnotic analgesia & frontalis EMG feedback with vs without Jacobson progressive relaxation, chronic prefrontal muscle contraction headache, patients, 8418
Muscle Contractions
age changes, growth in amplitude of acoustic reflex, 20–79 yr olds, implications for decrease in stapedius muscle contractions, 1040
amount & type of feedback vs auditory encouragement, maximum voluntary contraction of isometric quadriceps, 16–25 yr olds, 2663
caffeine withdrawal, anxiety & muscle tension & RT, college students, 5415
feedback control, orbicularis oris reflex & voluntary lip muscle activation, 29–41 yr olds, 12261
heroin vs levorphanol & naloxone, rigidity & explosive motor behavior, male rats, 5353
high vs low frontalis muscle tension & instructions as to rate of responding & schedule of reinforcement, buttonpress responding, 30–66 yr old schizophrenics, 13014
interpersonal relations between individuals & couples, volitional effort in isometric contraction of upper limb, sports group members, 5275
rapid decrease in vocal pitch by isotonic contraction of vocalis muscles, male Ss instructed to match own voice with frequency modulated tones, 4961
use of anal probe to measure pelvic muscle contractions during orgasm, 24–35 yr old males, 11565
vibrations to distal tendons of biceps & triceps with eyes closed vs open, muscle stretching & contractions & kinesthetic sensations, human Ss, 3028
voluntary arm flexion, anticipatory control of postural & task muscles, adults, 2660
Muscle Cramps [See Muscular Disorders]
Muscle Relaxation
active vs passive biofeedback training techniques, muscular tension, adults, 9822
audiotape & printed aversive smoking & deep muscular relaxation instructions, cigarette smoking, smokers, 13453
behavioral counseling vs relaxation training, muscle tension, anxiety & return to work, myocardial infarct patients under 60 yrs of age, 4047
computerized biofeedback instruments, striated muscle control, psychiatric patients, 1773
continuous vs intermittent biofeedback information, maintenance of low levels of frontal EMG activity, 25–59 yr old male patients, 8500
diagnostic use of progressive relaxation & stress inoculation & EMG biofeedback training, chronic low back pain, male 44 yr old, 10905
EMG biofeedback training, treatment of frontalis muscle tension, male 51–67 yr old hospitalized patients with chronic obstructive pulmonary disease, 8564
EMG biofeedback &/vs progressive relaxation, tension headaches, clients with muscular contraction headaches, 8528
EMG feedback, tinnitus & EMG activity of frontalis muscle, 60 yr old female, 10857
EMG muscle relaxation training, shortening 1st-stage labor in Lamaze childbirth method, women experiencing 1st pregnancy, 8611
free feeding & gastric counterinfusion, intragastric pressure & gastric relaxation, male rats, 12259
frontalis EMG feedback, generalization of EMG reduction to adjacent muscle groups, literature review, 9823
general relaxation & neuromuscular tension control using EMG biofeedback, memorization & rotary pursuits & RTs, female college students & secretaries, 4067
isometric exercise vs relaxation vs hypo- vs hyperventilation with vs without feedback, heart rate mediation, college students, 3038
patient education handout information, biofeedback relaxation therapy procedures, 10866
progressive muscle relaxation & desensitization, toilet phobia, 4 yr old male with encopresis, 1828
relaxation & EMG biofeedback training, treatment of diazepam withdrawal syndrome, female 24 yr old, 8489
relaxation & hemisphere strengthening exercises, dyslexia dysfunctions resulting from cerebral dominance problem, 15 yr old female, 3916
relaxation instructions & EMG biofeedback & threat of shock, frontal EMG & arousal, college students, 9807
relaxation training, controllability of imagery & EMG activity & tension, college students, 8510
selection of patients & individualized training programs, muscle relaxation training, 8506
self hypnosis as anesthesia, cholecystectomy, 1905
short term relaxation training with EMG feedback, tension levels of muscles in forehead vs back of neck, 20–67 yr olds, 7544
Muscle Relaxation Therapy [See Relaxation Therapy]
Muscle Relaxing Drugs [See Diazepam, Meprobamate, Succinylcholine]
Muscle Spasms
EMG biofeedback training, voluntary control of muscle spasticity below injury level, male quadriplegics, 8496
Muscles [See Also Facial Muscles, Oculomotor Muscles]
central & peripheral neural mechanisms for swimming, bullfrog tadpoles, 3008
computerized biofeedback instruments, striated muscle control, psychiatric patients, 1773
EMG biofeedback training & muscle tension reduction reinforcement, reduction of overactivity & problem behavior & increased attention to academic task, 6–10 yr olds, 1788
extraversion & neuroticism & muscle tonus & pulse frequency, continuous performance task, 20–26 yr old male endurance athletes, 5283
implanted strain gauge & EMG amplifier, recording of axial movement, rats, 4738
linguameter, measurement of tongue muscle control, normal volunteers, implications for sensorimotor pathology, 4726
lithium chloride, inhibition of denervation-induced increase in acetylcholine receptors in skeletal muscle, female rats, 5397
muscle tone & changes in autonomic balance, cognitive style, 17 yr old students, 3289
muscular apparatus & motoneural organization in feeding behavior, mollusks, 3007
position holding, human spindle afferent activity from finger extensor muscles & position responses, 9800
reproducibility of EMG recordings, cats, 7586
selective fatigue in human motor systems, female 17–38 yr olds, 2978
sinusoidal tracking movements with forearm, reflex changes in EMG activity of biceps & triceps muscles, humans, 315
speech movement, platysma muscle motor unit activation, male S, 2994
testosterone, weight of syrinx & activity of choline acetyltransferase & acetylcholinesterase in syringeal motor neurons & muscle, castrated adult male zebra finches & neonatal canaries, implications for regulation of singing, 799

vibrations to distal tendons of biceps & triceps with eyes closed vs open, muscle stretching & contractions & kinesthetic sensations, human Ss, 3028
Muscular Atrophy
skeletal muscle morphology, 4–8 yr old hypotonic schizophrenic males with formal thought disorder, 1410
Muscular Disorders [See Also Muscle Contraction Headache, Muscular Atrophy, Muscular Dystrophy, Myasthenia Gravis, Myotonia, Torticollis]
apomorphine & biperiden & alpha-methylparatyrosine & physostigmine & muscimol & picrotoxin, haloperidol-induced dystonia, monkeys, 7625
behavioral & biofeedback treatments, writer's cramp, 37 yr old male, 4050
methylphenidate & neuroleptics & withdrawal of phenothiazine & dyskinesia-dystonia, 2 yr old hyperkinetic male, 8586
torsion dystonia incorrectly diagnosed as conversion hysteria & occupational cramps, 3754
various neuroleptics, induction of dystonia & dyskinesias & other extrapyramidal side effects, male squirrel monkeys, implications for animal models, 902
Muscular Dystrophy
hand vs head movements during visually presented problem solving task, 8 yr olds & children with muscular dystrophy, Netherlands, 3898
theoretical assumptions & research procedures, assessment of intelligence, male children with Duchenne muscular dystrophy, 3921
Musculocutaneous Nerve [See Spinal Nerves]
Musculoskeletal Disorders [See Also Arthritis, Joint Disorders, Muscle Contraction Headache, Muscular Atrophy, Muscular Disorders, Muscular Dystrophy, Myasthenia Gravis, Myotonia, Torticollis]
frequency of depression, 7–12 yr olds with musculoskeletal disorders hospitalized for orthopedic procedures, 12917
paced respiration training, treatment of Tietze's syndrome pain, 46 yr old male with coronary heart disease, 1794
skeletal muscle morphology, 4–8 yr old hypotonic schizophrenic males with formal thought disorder, 1410
Musculoskeletal System [See Arm (Anatomy), Facial Muscles, Feet (Anatomy), Fingers (Anatomy), Hand (Anatomy), Jaw, Joints (Anatomy), Leg (Anatomy), Muscles, Oculomotor Muscles, Thorax, Wrist]
Music
adjunctive hypnotherapy & use of music, social skills & cognitive development, 16 yr old autistic male, 1882
age of S & melody familiarity & key distance, recognition of transposed melodies, musically experienced vs inexperienced college students & kindergartners through 3rd graders, 982
auditory stimuli in aversion therapy, sexual deviations, 8538
auditory-verbal vs visual-spatial processing deficit, evoked potentials to word vs music chord stimuli, dyslexic 8–12 yr old males, 10670
background music, motor skill performance, educable mentally retarded vs normal 10–12 yr old males, 3869
cognitive orientation toward music, implications for music education, 3264
competition & achievement expectations & pressure to be slim, development of anorexia nervosa vs excessive dieting concerns, college students studying professional dance vs modelling vs music, 13102
composer's age at composition & historical time, computerized content analysis of thematic fame & melodic originality in classical music, 963
concurrent musical task, facilitation of left-hemisphere mediated motor task, college students, 11763
conservation of meter in violin playing, kindergartners & 3rd graders, 5514
contingent-interrupted music, treatment of disruptive crying & head banging, severely retarded nonambulatory 8 yr old female, 10852
contingent music, behavior modification, profoundly mentally retarded male 26 yr old, 8493
EEG alpha & theta & delta rhythm activity of right vs left occipital sites during melody detection task, right handed musically naive 17–43 yr olds, 7500
exploration of how critical observing function of psychiatrist's ego views creating composer of music, 12840
familiarity of background music & test difficulty, reading comprehension test scores, college students, 4429
hierarchic representations of output in motor programing, playing music of Chopin & Bach & Bartok, professional pianists, 7237
left ear advantage, recognition of chords, 19–28 yr old right handed nonmusicians, 3001
length of musical training, preference for right vs left ear in identification of recurring melodies & excerpts, college faculty vs student musicians vs nonmusicians, 7499
level of musical competence, degree of left ear superiority for perception of dichotically presented musical chords, professional vs amateur musicians, 402
melodic patterns & emotional states, criticism of methodology of D. Cooke & C. Gabriel's attempted replication, 3255
melodic patterns & emotional states, criticism of C. Gabriel's study of D. Cooke's theory, 3262
melodic patterns & emotional states, reply to criticisms by N. Nettheim & N. Cazden, 3258
melody vs title cues of songs, familiarity vs time of popularity judgments vs lyric recall, middle aged vs elderly, 11927
memory test vs adaptation vs classical vs atonal vs jazz music, bioelectrical skin reactivity, music major college students, 12271
music, development of cognitive skills, preschool age children, 10080
music, retention in paired associate task, male vs female educable mentally retarded 7–11 yr olds, 6732
musical content & familiarity with piece & musical training, musical preference & equality ratings, college students, 5440
musical hallucinations, 52 yr old deaf male, 6162
musical intervals, variation in psychological effect, college students, 2725
music with vs without verbal suggestion vs silence, heart rate & self reported arousal, graduate music students, 5269
perception of musical & metronomic tempo changes, undergraduate music majors, 4970
positive vs negative affect-provoking music & photographs of attractive vs unattractive males, evaluation of personal character & attraction, female college students, 10353
preference for music listening vs juice as reinforcement, 2 phases of motivation & reward in learning, profoundly mentally retarded, 10899
reinforcement music controlled with "mercury devices", head posturing, Ss with cerebral palsy, 10910
site of brain damage, processing of pitch & rhythm & tempo & phrasing information in music, 35–65 yr olds, 13152
song vs violin sounds, cross-series adaptation in acoustic-auditory perception, college students, 407
soothing vs stimulating vs aversive music, positive vs negative feelings & helpfulness, college students, 5438
spontaneous vs analytical listening, evoked cortical activity in right vs left hemispheres, musicians vs nonmusicians, 5225
structural vs physical markers denoting phrase boundaries, accuracy of identification of point in music at which clicks occur, college music students, 7157
structure & segmentation of tone sequences, recall, musically trained college students, 11888
Suggestive-Accelerative Learning & Teaching method of G. Lozanov, math & reading achievement, learning disabled 9th graders, 9042
tonal pattern &/vs rhythm differences, recognition of melodies, right handed nonmusicians, 7482
unilaterally presented music & bilateral tactile stimulation, right vs left hand use for response, college students, 12192
Music Education
cognitive orientation toward music, implications for music education, 3264
creativity in music education, 6668
musical content & familiarity with piece & musical training, musical preference & equality ratings, college students, 5440
Music Therapy
analytical music therapy, exploration of fantasy & unconscious material, 32 yr old male schizophrenic, 6266
familiar & affective music, reduction of anxiety, college students, 8414
music based treatment, reality orientation, geriatric patients, 8413
music ear training, auditory discrimination abilities, trainable mentally retarded, 10769
music in sociotherapeutic club, emotional expression & resocialization & social interactions & self acceptance, mental patients, 1681
overview of art & dance & drama & music therapies, 3958
passive vs active music reinforcement, increase in preacademic & motor skills, severely retarded 8–18 yr olds, 10768

ratings of necessary entry level skills for music therapists, clinicians & educators & interns, educational implications, 11068
research attitudes & knowledge, research in music therapy, music therapists, 10779
self evaluations of videotaped student-client interactions vs instructor evaluations, competencies, music therapy majors, 11060
survey of duties & responsibilities of current music therapy positions, 11107
videotaped vs field based feedback, development of applied clinical skills, music therapist trainees, 11088
visual feedback in training music therapy competencies, transfer from classroom to field situation, 11087
vocal range assessment, geriatric patients, 6193
Musical Ability
construction & evaluation of Motoric Music Skills Test, measurement of motor skills development, 3–6 yr olds, 2470
musicality, parents vs children, 5184
ratings of necessary entry level skills for music therapists, clinicians & educators & interns, educational implications, 11068
sex & social class differences, vocal range & pitch, children, literature review, 3396
strategies for same-different judgments of familiar lyricless musical phrases, 35–65 yr olds with Broca's aphasia vs right anterior brain damage, 8332
Muslims [See Islam]
Mutations
abnormal dense clusters of small vesicles at synapses & myelin deficiency, role of neuronal & neurotransmission changes in behavioral symptoms, mutant mice, 5219
dunce mutation of learning, cyclic adenosine monophosphate defect, fruitfly, 2827
irradiation of parent, courtship activity of offspring, male guppies, 7583
irradiation of paternal spermatozoa, offspring agonistic behavior, male mice, 7577
lethal recessive mutations, haplodiploid sex ratios due to increased male mortality, parasitoid species, 7418
mutation involving cerebellar disease, mouse, 12174
mutations involving photoreceptors, mating success, drosophila melanogaster, 684
Mutism [See Also Elective Mutism]
errorless teaching method, matching to sample performance, 25 yr old mentally retarded mute male, 6082
sensory deprivation, development of conservation of liquids, deaf & mute 6–13 yr olds, 8318
type & amount of aggressive behavior & presence vs absence of regressive behavior & acceptance of therapy, classification of mutism, mute children, 1553
verbalizing model &/vs reinforcement, speech output, male near-mute 47–68 yr old schizophrenics, 1886
Myasthenia Gravis
psychotherapy with vs without medical treatment, changes in symptoms & ego strength, myasthenia gravis patients, 1654
Myelin Sheath
abnormal dense clusters of small vesicles at synapses & myelin deficiency, role of neuronal & neurotransmission changes in behavioral symptoms, mutant mice, 5219
Myocardial Infarctions
behavioral counseling vs relaxation training, muscle tension, anxiety & return to work, myocardial infarct patients under 60 yrs of age, 4047
biofeedback training, raising vs lowering heart rate, over 50 yr old males having suffered myocardial infarction under 1 mo vs over 3 mo previously, 8504
etiological model of sexual dysfunction & sex therapy, post myocardial infarction patients, 6304
impact of life events, myocardial infarction patients, 1565
knowledge & anxiety about postcoronary sexual activity, 43–64 yr old wives of postcoronary patients, 13164
personality traits, male myocardial infarction patients, 3917
predictability of aversive stimulus, GSR amplitude & cardiac anticipatory acceleration, male infarction patients & Ss with high vs low infarction risk, 8383
survival of myocardial infarction, state & trait anxiety, female vs male coronary patients, implications for liaison psychology services in coronary care units, 6117
Type A behavior, myocardial infarction patients & rheumatics, Poland, 13166
Myopia
behavioral training with stimulus fading & feedback, uncorrected visual acuity, myopic Ss, 4043
selectivity of spatial frequency channels, normal contrast sensitivity to gratings vs poor visual acuity, strabismic amblyopes vs myope, 9508
size of target & correction for empty-field myopia, 4927
Myotonia
anthracene-9-carboxylic acid, myotonia, frogs & toads, 3145
Mysticism
phenomenology of mystical experiences, contexts of occurrence & impact on personality, 2337
psychodynamic determinants seen in personal life & writings, Freud's mysticism, 9253
religious & unity criteria of mysticism, Baptist vs non religious college students, 3504
Taoistic view, awareness & authenticity in interpersonal relationships, 1123
Mythology [See Literature]
Myths
ancient mythological perspectives, understanding mortality & treatment of dying patients, 1660
attraction to hero "Lassiter", fiction readers, 3267
humanness/animality & unpleasantness & incongruity ratings of mythological hybrid figures, college students, 2626
hypnotic suggestion through personalized fairy tales, insomnia, 3 & 8 yr olds, 10954
nonuniform atmospheric refraction producing optical distortions, basis for concept of merman in medieval literature, 11818
processes in comprehension of & memory for stories, criticism of J. B. Black & R. Wilensky's evaluation of story grammar, 12418
psychoanalytic explanation of popularity of vampire myth, 9995
sexuality duality & religion & mythic imagination, 12640
usefulness of story grammars, criticism of J. B. Black & R. Wilensky's evaluation, 12420
Myxedema [See Hypothyroidism]
NAch [See Achievement Motivation]
Nail Biting
overcorrection with artificial nails, chronic fingernail biting, moderately mentally retarded 9 yr old female, 8485
Naloxone
ACTH &/vs naloxone, offspring growth & eye & vaginal opening & open field activity & threshold for heat, pregnant mice, 12389
chlorpromazine & dextroamphetamine with vs without various dosages of naloxone, avoidance behavior changes, squirrel monkeys, 3178
dextroamphetamine &/vs naloxone, self stimulation thresholds, male rats, 3161
electrical stimulation of periaqueductal grey matter & iv morphine & naloxone, activity of ascending axons from C & Ald fibers in spinal cord, rats, 3072
electric shock with naloxone, craving for narcotics, methadone treatment patients, 4200
ethyl alcohol & pentobarbital injections into median thalamus & periaqueductal gray matter & nucleus of tractus solitarius & naloxone, sleep EEG, rabbits, 12407
evidence for physiological amnesic mechanism mediated by endogenous opioid peptides, state dependency of learning upon release of beta-endorphin, literature review, 9775
food deprivation during light vs dark phase of light-dark cycle & naloxone, fluctuations in pain sensitivity & role of endogenous opioid system, male rats, 5390
footshock & ACTH in conjunction with cues & ACTH blocking by naloxone & naltrexone, avoidance learning, male rats, implications for endogenous opioid involvement in fear learning, 12025
heroin vs levorphanol & naloxone, rigidity & explosive motor behavior, male rats, 5353
hypophysectomy & naloxone, analgesia following ECS, male rats, 12293
induced stress & naloxone, hypnotic analgesia, highly hypnotizable college students, 3167
ip ethanol & naloxone, ethanol aversion, male rats, implications for animal model of ethanol dependence, 9654
lanthanum microinjections, orofacial thermal & tail & paw nociception & naloxone & calcium reversibility of analgesia, male rats, 12379
morphine injection into periaqueductal-periventricular gray & naloxone, septal-lesion-induced reactivity to somatosensory stimulation, male rats, 7561

morphine & naloxone, EEG of medial thalamus & hippocampus & frontal cortex, drug naive & morphine dependent paralyzed male rats, 9947
morphine & naloxone, performance under discriminated approach vs avoidance schedules, male rats, 7618
morphine & naloxone, pressing for intracranial stimulation of amygdaloid region, male rats, 7557
morphine & naloxone, schedule-controlled response rates, morphine-dependent vs postdependent male rats, 7623
morphine & naloxone, tonic immobility, male guinea pigs, 911
morphine & pentazocine & naloxone & barbiturates & ice-water stress & heat, tail-flick latency, male rats, 7668
morphine vs naloxone, acquisition & extinction of homing behavior, 917
morphine vs naloxone vs enkephalin, tardive dyskinesia, psychiatric patients, 4078
naloxazone vs naloxone, ACTH-induced grooming, mice, 9927
naloxone, auditory hallucinations, schizophrenic 25–67 yr olds, 13329
naloxone, enhancement of sexual arousal, adult females with low sexual arousability, 6375
naloxone, facilitation of kindled behavioral seizures induced by amygdaloid electrical stimulation & role of endogenous opioid blocking, female rats, 792
naloxone, failure to reverse catalepsy, 35 yr old male schizophrenic, 8593
naloxone, frequency of distress vocalizations elicited by electrical stimulation of dorsomedial thalamus or septum-preoptic area, guinea pigs, 12286
naloxone, hallucinations, chronic schizophrenic 22–59 yr old males, 8570
naloxone, neuron response to noxious & non-noxious stimulation of spinal cutaneous receptive fields, male rats, 9946
naloxone, suppression of diazepam induced eating & leverpressing, male rats, 3213
naloxone administered in familiar vs unfamiliar test arena, exploratory & social behavior & motor activity, male rats, 9929
naloxone administration into periaqueductal gray vs icv vs systemically, behavioral syndromes, male rats, 9940
naloxone pretreatment, electric shock induced aggression, female rats, 7638
naloxone-reversible enkephalinamide effects, behavioral activity, male rats, 7652
naloxone vs beta-endorphin, acquisition & memory & retrieval of shuttle avoidance & habituation learning, female rats, 3181
naloxone vs beta-endorphin dosages, shuttle avoidance learning & tone response habituation, female rats, 12372
painful visceral stimulation & inhibition by naloxone, diffuse noxious inhibiting controls & evidence for role of endogenous opiates, male rats, 12290
quipazine vs morphine & pizotifen maleate & naltrexone, hot-plate & tail-flick latencies, male mice, 7675
thiorphan & naloxone, pain perception, mice, 7688
water & food deprivation & osmotic thirst stimulus & naloxone, food & water consumption, male rats, 9833

Narcissism
alternate form reliability & construct validity of Narcissistic Personality Inventory, college students, 2516
body image laterality & ability to relate to women & narcissism, 14–18 yr old male delinquents, 3861
narcissistic focal interpretive approach, group psychotherapy, hospitalized borderline personality patients, 6295
narcissistic omnipotence of Joseph as illustrated in Old Testament saga, 5441
narcissistic theory of H. Kohut, art therapy, 3964
object destruction & mourning, behavior & responses, psychotherapy patients, 1727
redefinition of psychoanalytic concepts, borderline disorders & neurosis & psychosis & narcissistic conditions, 1431

Narcissistic Personality
binding process & narcissistic psychopathology, 3786
diagnosis & treatment of pseudomasochism, female patient with narcissistic personality disorder, 1489
narcissistic traits, severely abused & emotionally disturbed 2 wk through 6 yr olds, 8186
redefinition of psychoanalytic concepts, borderline disorders & neurosis & psychosis & narcissistic conditions, 1431
transference & countertransference relationships, "fitness" for psychoanalysis, patients with narcissistic vs borderline personality organizations, 1703

Narcoanalysis [See Sleep Treatment]
Narcoanalytic Drugs [See Amobarbital]

Narcolepsy
definition & etiology, narcoleptic syndrome, 5912
sleep & sleep disorders, literature review, 6183

Narcosis
repeated exposure to diving environment, adaptation to narcosis, 21–48 yr old males, 9819

Narcotic Antagonists [See Also Naloxone]
acute & chronic morphine & nalorphine induced withdrawal, time-course response of brain & adrenal dopamine & norepinephrine induced by alpha-methylparatyrosine, female rats, 891
fenmetozole, ethanol-induced impairment of aerial righting reflex, male rats & female mice, 3169
intraspinal morphine & methionine-enkephalin & intravenous naltrexone, C-fiber & polysynaptic reflexes, decerebrate low spinal cats, 3139
naloxone & naltrexone & inescapable shock, short & long term analgesic reaction, male rats, 9858
naltrexone & stage of pregnancy & parturition, endorphin-mediated pain threshold increases, rats, 5374

Narcotic Drugs [See Also Apomorphine, Atropine, Codeine, Heroin, Methadone, Morphine]
drug use, members of football team at small liberal arts college, 8000
electric shock with naloxone, craving for narcotics, methadone treatment patients, 4200
heroin vs levorphanol & naloxone, rigidity & explosive motor behavior, male rats, 5353
issues in illegal narcotic use, young people, 10300

Nasal Mucosa [See Olfactory Mucosa]

National Guardsmen
violence at Kent State as response to perceived threat to self esteem, National Guardsmen, 3623
within- & between-group variations in satisfaction & role perceptions of leadership, differential relationships of leaders to each subordinate, Army National Guardsmen, 4541

Nationalism
age & language, development of national identity, English- vs Afrikaans-speaking White 1st vs 3rd vs 5th vs 7th graders, South Africa, 5570

Natural Childbirth
EMG muscle relaxation training, shortening 1st-stage labor in Lamaze childbirth method, women experiencing 1st pregnancy, 8611

Natural Disasters
animal behavior, prediction of earthquakes, kangaroo rats, 2829
awareness & changing assessment of flood plain hazards, occupants of Hunter River Valley flood plain, Australia, 11520
development of hypertension & somatization & anxiety & other reactions, 35–84 yr old female flood victims, 5-yr followup, 1379
explanation & research & models of human behavior & natural disasters, literature review, 1318
perceived control & attributions for outcome of major brushfire, homeowner victims vs nonvictims of fire, 5821
perception & adjustments to earthquake hazard, residents of west coast of North America, 11517
survival of Buffalo Creek flood disaster, behavior changes & developmental impairments, children under 12, 5462
tectonic strain & seismic activity accompanying earthquakes, number of antecedent reports of unidentified flying objects, 4597

Nausea
pretreatment nausea as conditioned response, cancer chemotherapy patients, 1864
self hypnosis, nausea & emesis inadvertently conditioned during chemotherapy, cancer patients, 10956

Navaho Indians [See American Indians]

Navy Personnel
aircraft accidents early in career, subsequent accident liability, naval aviators, 4520
college background pipeline assignment, flight training performance & drop out rate, Black vs White US Navy flight officer candidates & officers-under-instruction, 6816
development of screening procedure involving biographical & personality & physiological data, prediction of performance under sickness inducing motion, seamen, 4528
dimensionality & validity of multidimensional locus of control scale, prediction of health & job related outcomes in military environments, US Navy enlisted men, 11630
energy conservation attitudes & behaviors, Navy family housing residents, 11525

high vs medium vs low cognitive complexity, perceived characteristics of work environment, US Navy enlisted personnel, 2261
individual differences in attentiveness to opportunities for influencing supervisors, effect of influence on job performance & satisfaction, Navy enlisted aircraft maintenance personnel, 13770
intelligence & demographic & occupational characteristics, US Navy personnel applying for off-duty education, 6788
job satisfaction, intent to reenlist, Navy enlistees, 13776
number & absolute magnitude of incentives, enlistment in US Navy, 16–22 yr old civilian males, 4507
number of flights & level of naval flight officer training, incidence of airsickness & vomiting & inflight performance, Naval Flight Officer students, 11431
personality traits, prediction of career success, divers & trainees & US Navy applicants vs trainees in divers' courses, 6848
similarity of adjunct & test questions, study behavior & learning, male US Naval Training Center students, 13728
stability & reliability of 2 job task inventory scales & effect of sample size on stability, US Navy personnel, 207
verbal & nonverbal intelligence & demographic factors & eye-hand laterality reading performance & achievement & need for remediation, White vs non-White US Navy recruits, 4518
work experience, perceived characteristics of work environment & intent to reenlist, US Navy enlistees, 4553
Nearsightedness [See Myopia]
Neck (Anatomy)
sleep & wakefulness & tonic immobility, cortical EEG & EOG & nuchal EMG, male rabbits, 9790
Neck (Wry) [See Torticollis]
Need Achievement [See Achievement Motivation]
Need for Affiliation [See Affiliation Motivation]
Need Satisfaction
job involvement & need satisfaction, intrinsically vs extrinsically motivated managers, India, 11466
level of job stress, affiliation & autonomy need satisfaction, nurses, 4235
neighborhood environment, psychological & social well being, aged planned housing tenants, 7877
perception of leadership style, need satisfaction, teachers, 2077
perception of need satisfaction, workers & supervisors, 2264
predictive validity, model for assessment of prediction of job preference & anticipated satisfaction, college students, 4837
religiousness as quest vs intrinsic end in itself, responsiveness of helping behavior to needs of other, female college students, 12784
Needs
attitudes & needs, parents of cerebral palsied children, 3915
attraction & internal vs external cause of need, allocation of money, male vs female high school students, 10334
behavioral decision making modeling, measurement of need for power & affiliation & achievement, scientists & engineers & graduate students & management executives, 3696
bogus pipeline manipulation, self & other deceptive components in social desirability responding & need for approval, college students, 10389
brain norepenephrine turnover & individual power drive, mastery of power-related vs neutral material, male college students, 7542
community based service & basic needs approaches to development planning, deprived children under 15 yrs of age, Asia, 1907
community size of early socialization, work needs in adulthood, accountants, 13703
conceptions & measurement of achievement motive, literature review, 10401
educational goals & motivation & achievement & needs, female college students with vs without educational interruption, 2062
factor structure & internal consistency & reliability & validity of Manifest Needs Questionnaire, registered nurses, 2451
identification of needs & referrals for aftercare services, psychiatric patients prior to hospital discharge, 13427
individual higher order need strength, attitudes toward job & job characteristics, 16 yr olds, followup study, 2259
individual need states, perceptions of leader behavior, employees of hospital nursing service, 3650
instrumental vs expressive learning needs, older adults, implications for adult education program planning, 6658
mentally ill as "scapegoats" & role of psychiatry in alleviating alienation of individual from society, 5998
need for body contact for creation of space & origin of psychomotor problems, neonates & infants, 10697
need strengths & perceptions of job scope & task characteristics, turnover & absenteeism, state & county government employees, 13774
other's general & specific need state, altruistic behavior, kindergartners & 4th graders, 3432
personality & family situational variables, career persistence & activity pattern, female college students, 13720
prevalence of communicative disorders & needs of minority groups, child health care center, 8628
race & marital status, need to be held, Black vs White married vs unmarried pregnant females, 8064
reciprocity of & agreement about needs & family disagreement & clarity of rules & rigidity of family expectations & anxiety & satisfaction, families with disturbed vs nondisturbed adolescents, 10237
religiousness as quest vs intrinsic end in itself, responsiveness of helping behavior to needs of other, female college students, 12784
subjective assessment of status with regard to desired outcome, relative felt deprivation, college students, 5786
sympathetic activation & immune function & illnesses, college males rated high in need for power & inhibition & power stress, 1600
types of suicidal acts based on H. A. Murray's need system, 3855
unmet needs in mental health & foster & institutional & day care, children, 13370
utility of absolute vs relative theories, prediction of size vs direction of accentuation effects, 9468
victim's need & previous accusation of theft & sex differences, bystanders' reactions to theft, college students, 8042
Negative Reinforcement
changes in reward after conditioning, maze behavior, male rats, 7314
changes in teachers' positive & negative reinforcement patterns, achievement & social behavior, 8–10 yr olds, 6669
concurrent schedules of negative reinforcement, response rates for shock avoidance, pigeons, 9637
extensive training using positive vs negative stimuli, level of stimulus control, male rats, 5113
negative reinforcement, shock-induced aggression, male rats, 12044
positive vs negative vicarious reinforcement vs no reinforcement of model's choice response, imitation of response, 4 & 6 yr olds, 7826
septum & mamilar nuclei & amygdaloid complex, control of aversive behavior, 717
shock-reinforced Y-maze procedure, measurement of color preferences, goldfish, 2409
Negative Transfer
anxiety & degree of response overlearning, negative transfer, college students, 9593
approach response mediation & response competition, operant transfer of learning in noncontingent phase, male rats, implications for methodological validity of transfer experiments, 597
cross-modal presentation of stimuli, negative transfer, college students, 2774
identical variations in preliminary problems, problem solving response latencies with positive vs negative transfer effects, college students, 501
response competition vs interference, paired associate learning, 42–65 yr old Korsakoff amnesics & nonamnesic alcoholics, 8106
Negativism
cognitive restructuring & response acquisition, assertiveness & treatment of social anxiety & faulty self approval, college students, 8497
expectations for distraction vs facilitation, performance after unsolvable problems, college students, implications for egotism explanation of problem solving, 11995
Negotiation [See Also Bargaining]
applicability of M. Fishbein's model of attitudes & beliefs vs other models, changes in attitudes & beliefs between disagreeing peers, college students, 10337
attractiveness of 3rd party arbitrator vs mediator, negotiating behavior, male college dyads, 5735
effectiveness of participation in group problem solving task with peers, learning disabled vs normal 3rd–8th graders, 10589
negotiator strategies & degree of negotiator influence in labor-management negotiations, trade union members, 11491
quality of constituency's position, negotiating behavior in technical negotiation, male vs female college students, 8015
usefulness & practicality & validity of conjoint analysis, preferences in simulated contractor negotiation, 6971
Negroes [See Blacks]

Neighborhoods
analysis of the impact of community reactions on sheltered-care residents in different types of neighborhoods, 10993
factor analysis, dimensions of perception of physical characteristics of homes & neighborhoods & high schools & university residence rooms, 9th & 10th graders & college students, 7016
in vivo exposure in groups zoned vs unzoned according to neighborhood geography, increased social contact, agoraphobics with mean age of 36.33 yrs, 10901
neighborhood environment, psychological & social well being, aged planned housing tenants, 7877
neighborhood familiarity, affective responses to photographs of neighborhoods, 21–30 yr old residents, 13789
personal & social ties, satisfaction & perceptions of strain in changing neighborhood, 19–90 yr old females, 12634
social area factors including neighborhood & housing racial character & tenant race, well being, aged tenants in federally assisted housing, 4595
traffic noise & neighborhood satisfaction & anxiety & concern about accidents, individual differences in annoyance response to traffic noise & health, survey respondents, 11518
Nembutal [See Pentobarbital]
NeoFreudian School [See Neopsychoanalytic School]
Neonatal Development
ethnic differences, behavior, 2 day old Blacks vs Whites vs Puerto Ricans, 10047
Freudian theory of maternal role in growth in child's 1st 3 yrs, 970
pre- & perinatal characteristics, victims of Sudden Infant Death Syndrome vs survivors, 10700
Neonatal Disorders [See Also Anencephaly, Cleft Palate, Crying Cat Syndrome, Downs Syndrome, Klinefelters Syndrome, Phenylketonuria, Turners Syndrome]
bioethical issues, medical care, defective newborns, 6551
ethical issues, treatment of severely impaired newborns & minors without parental consent & research involving children, 6584
fetal development & malformations, children born to mothers denied legal abortions, 8307
transient neonatal symptoms, later intellectual & behavioral functioning, male vs female 10–11.9 yr olds, 12464
Neonates
appropriateness of crib & playpen toys, 3292
automated hearing screening technique, newborns, 9279
autoregressive time series model, detection of statistically significant change in cortical evoked responses to tones, sleeping neonates, 993
behavioral responses & impedance & brainstem electric potentials as methods of audiological evaluation, 24–144 hr olds, 11562
bioethical issues, medical care, defective newborns, 6551
circumcision, gender differences in human neonatal behavior, 9999
conceptional age differences, observable behavior during neurological examination, premature infants of conceptual age 29–40 wks, 9997
cortical visual evoked responses, development of binocular visual cortex, infants aged 4 wks to 8 mos, 10026
cross cultural differences, early childhood development & childrearing practices, European-American vs Chinese children from birth to 3 yrs old, US vs Hong Kong, comparison of longitudinal studies, 12565
deterioration vs improvement in maternal care following adoption, adaptation disturbance, newborns to 2 wk olds, 5663
direction & type of rocking movement as soothing intervention, distressed 24–72 hr olds, implications for facilitation of positive caregiver-infant relationship, 12570
ethnic differences, behavior, 2 day old Blacks vs Whites vs Puerto Ricans, 10047
failure of bond formation, child abuse & neglect & maltreatment, mothers who had limited contact with newborn at birth, 8197
fetal exposure to methadone & heroin, sleep as measurement of nervous system disorders, neonates, 3158
identification of risk factors, neonates, 3761
imitation of tongue protrusion & mouth opening, 17–20 day olds, 12458
instinctual drives, progression from symbiotic to separation-individuation phase, children from birth to 3 yrs old, longitudinal studies, 5572
interrelationships of biomedical & environmental & developmental variables, Down's syndrome children followed from birth to 36 mo, 8265
intrauterine environment & genetics & childrearing practices, social behavior & alertness & activity, neonates, Zambia vs US, 5447
lateral head position preference, newborn infants with right handed vs non-right-handed parents, 7471
miscarriage vs stillbirth vs neonate death, emotional reactions, mothers, 3723
mother-infant interactions, 20–30 yr old true vs unfamiliar mothers & neonates, 12663
mother reports of developmental differences, personality & social behavior, fraternal vs identical twins from birth to 6 yrs old, longitudinal study, 9742
narcissistic traits, severely abused & emotionally disturbed 2 wk through 6 yr olds, 8186
observation manual for coding mother-infant interaction, mothers & neonates, 11602
prenatal narcotic addiction, behavioral concomitants including mental & psychomotor development & irritability of CNS, neonates, 3- & 6- & 12-mo followups, 6054
reaching behavior, neonates, 10002
recognition of neonates' cries, 21–38 yr old mothers, Japan, 5648
rocking stimulation & sleeping vs alert state, cardiac & behavioral responses, neonates, 12269
sex differences & auditory stimulation, behavioral responsiveness, Black not yet circumcised males & females, 12251
Neonates (Animal) [See Infants (Animal)]
Neonaticide [See Infanticide]
Neoplasms [See Also Brain Neoplasms, Breast Neoplasms, Leukemias, Terminal Cancer]
age at onset, psychological adjustment, 5.8–36 yr old pediatric cancer survivors, 1593
anxiety & tension & insecurity & depression, cancer patients, 13139
attitudes toward cancer, medical students & residents, 13487
dependency, development of cancer vs benign tumors vs hypertension vs gastrointestinal ulcers, male VA domiciliary residents, 10679
development of learned food aversions during tumor growth, development of tumor anorexia, rats, 544
family medical histories & life events prior to disease onset, families of 3–17 yr old cancer patients, 1590
intensive chemotherapy & prolonged hospitalization, social behavior, 18 mo through 21 yr old cancer patients, 10788
intensive meditation & visualization, regression of cancer, female patient, 1656
left vs right hemisphere damage due to stroke or tumor, motor performance, 45–56 yr old patients, 13104
life change before disease onset, colorectal vs gastric cancer patients, 10698
lifestyle factors, cancer, critique of article by R. Peto, 13095
misdiagnosis of insane automatism, 36 yr old male with frontal lobe tumor, 6123
neuropsychological test data, diagnosis of subcortical tumor, hyperactive male 16 yr old, 10712
observational scale for measurement of anxiety & pain, children with cancer, criticism of work by E. R. Katz et al, 4825
observational scale for measurement of anxiety & pain, reply to criticism by S. Shacham & R. Daut, 4800
ongoing disease process & interviewer choice of words, patient choice of words referring to disease, cervical cancer patients, 6176
pretreatment nausea as conditioned response, cancer chemotherapy patients, 1864
psychosocial variables & stress, incidence of cancer & internal diseases, Yugoslavia, 1965–1975, implications for prediction, 1584
social & physical stress, tumor growth, male mice, 7579
social psychotherapy, psychosocial disease-related factors, cancer patients, 1714
sociocultural & economic & pharmacologic aspects & psychiatric implications & role in oral carcinoma, betel chewing, Papua New Guinea, 1104
stress, carcinogenic process, literature review, 1620
treatment, cancer pain, literature review, 10780
Neopsychoanalytic School [See Also Individual Psychology, Jungian Psychology]
cross cultural differences in postpartum sex taboo & polygyny & male initiation rites & infant sleeping arrangements, sexual foreplay, implications for neo-Freudian perspective, 1111
Neostigmine
intraventricular carbachol vs muscarine vs eserine vs neostigmine, affective aggressive behavior & autonomic & motor phenomena & convulsions, cats, implications for central cholinergic mechanisms, 5351
Nerve (Accessory) [See Cranial Nerves]
Nerve (Acoustic) [See Acoustic Nerve]

Nerve (Facial) [See Facial Nerve]
Nerve Cells [See Neurons]
Nerve Endings [See Also Chemoreceptors, Neural Receptors, Photoreceptors, Proprioceptors, Synapses, Thermoreceptors]
GABA transport in nerve endings, normal vs vitamin B-12 deficient fruit bats, 5203
Nerve Tissues [See Myelin Sheath]
Nerves (Adrenergic) [See Adrenergic Nerves]
Nerves (Cholinergic) [See Cholinergic Nerves]
Nerves (Cranial) [See Cranial Nerves]
Nerves (Peripheral) [See Peripheral Nerves]
Nerves (Spinal) [See Spinal Nerves]
Nervous Breakdown [See Mental Disorders]
Nervous System [See Also Acoustic Nerve, Adrenergic Nerves, Amygdaloid Body, Auditory Cortex, Auditory Neurons, Autonomic Nervous System, Axons, Basal Ganglia, Brain, Brain Stem, Caudate Nucleus, Central Nervous System, Cerebellum, Cerebral Cortex, Cerebral Ventricles, Chemoreceptors, Cholinergic Nerves, Cones (Eye), Corpus Callosum, Cranial Nerves, Dendrites, Diencephalon, Dorsal Roots, Extrapyramidal Tracts, Facial Nerve, Frontal Lobe, Ganglia, Geniculate Bodies (Thalamus), Globus Pallidus, Hippocampus, Hypothalamus, Inferior Colliculus, Limbic System, Lumbar Spinal Cord, Medulla Oblongata, Meninges, Mesencephalon, Motor Cortex, Motor Neurons, Myelin Sheath, Nerve Endings, Neural Analyzers, Neural Receptors, Neurons, Occipital Lobe, Olfactory Nerve, Optic Chiasm, Optic Nerve, Parietal Lobe, Peripheral Nerves, Photoreceptors, Pons, Proprioceptors, Pyramidal Tracts, Reticular Formation, Rods (Eye), Sensory Neurons, Somatosensory Cortex, Spinal Cord, Spinal Ganglia, Spinal Nerves, Superior Colliculus, Sympathetic Nervous System, Synapses, Telencephalon, Temporal Lobe, Thalamic Nuclei, Thalamus, Thermoreceptors, Trigeminal Nerve, Vagus Nerve, Ventral Roots, Visual Cortex]
genetic approach to nervous system development, literature review, 5197
luminance intensity, ciliary nerve response, rabbits, 7462
nervous system development, mechanisms in reduction in number of synapses, 5230
nervous system properties, performance on search task, 12210
neural & biological & sensory mechanisms underlying life after death experiences & role of cerebral dissociative hallucinatory activity, 5195
neurosensorimotor dysfunction, educational & behavioral problems, young children, 5926
unsuccessful inner adaptation of nervous system & hormone production & role of ego, predisposition to psychosomatic illness, 1612
Nervous System Disorders [See Also Acalculia, Agraphia, Alcoholic Hallucinosis, Alzheimers Disease, Anencephaly, Aphasia, Ataxia, Autonomic Nervous System Disorders, Brain Damage, Brain Disorders, Brain Lesions, Brain Neoplasms, Central Nervous System Disorders, Cerebral Palsy, Cerebrovascular Accidents, Convulsions, Delirium Tremens, Dyskinesia, Encephalitis, Epilepsy, Epileptic Seizures, Gilles de la Tourette Disorder, Grand Mal Epilepsy, Hemiplegia, Huntingtons Chorea, Hydrocephaly, Hyperkinesis, Hypothalamus Lesions, Korsakoffs Psychosis, Meningitis, Microcephaly, Minimal Brain Disorders, Multiple Sclerosis, Muscular Dystrophy, Myasthenia Gravis, Neuralgia, Neuromuscular Disorders, Organic Brain Syndromes, Paralysis, Paraplegia, Parkinsons Disease, Petit Mal Epilepsy, Presenile Dementia, Sclerosis (Nervous System), Senile Dementia, Senile Psychosis, Toxic Psychoses]
art therapy, relief of presurgery anxiety, 9 yr old male with disordered speech & movement & general behavior who was facing hernia operation, 8390
behavioral changes following brain stem lesions, 58 yr old male & 21 yr old female patients, 13159
brain damage & psychiatric disorders, 5–14 yr olds with overt neurological conditions, 12925
clinical & psychometrical evaluation of Neurological Dysfunctions of Children test, 9367
deviations in developmental equations for EEG recordings, brain dysfunctions, 6–16 yr olds with learning disabilities & at risk for neurological disorders, 10404
drug abuse style & type & neuropsychological impairment, polydrug users, 8096
fetal exposure to methadone & heroin, sleep as measurement of nervous system disorders, neonates, 3158
frequency of anesthopic disturbances, neurological patients, 10677
frequency of voice tremors, 40–81 yr old patients diagnosed as having spastic dysphonia vs essential (voice) tremor, implications for differential diagnosis, 10408
incremental validity of MMPI in neurological decision making, 9411
malnutrition vs prematurity vs neural tube defects, educational aptitude & achievement, 10–14 yr olds, implications for special education personnel preparation, 8846
neuroleptic drugs, induction of tardive dyskinesia & other movement disorders, handicapped children & youth, 8582
neurological soft signs & diagnostic group & psychotropic drug effects, patients with alcoholism vs bipolar vs unipolar affective illness vs schizophrenia vs mixed diagnosis, 1365
patient & family history & neurological abnormalities, schizophrenics, 1490
reliability & item scale consistency of Luria-Nebraska Neuropsychological Battery, normal Ss vs psychiatric vs neurological patients, 174
similarity of hemispheric function, readjustment to neurological impairment, implications for special education, 9043
sites of subcortical damage, diseases resembling schizophrenia, 8092
temporal course of masking of tinnitus, excessive neural activity in brainstem, tinnitus patients, 10716
upper limb movement characteristics, 4–9 yr old meningomyelocele children, 13082
Nervous System Neoplasms [See Brain Neoplasms]
Nervousness
audience size & status & number of other performers, stage fright, college students, 12802
number of flights & level of naval flight officer training, incidence of airsickness & vomiting & inflight performance, Naval Flight Officer students, 11431
Nest Building
alternative wood chewing & wheel running & cage exploration, nest building, wild house mice, 9663
hashish extract, social & overall activity & submissive & sexual & aggressive & nest-building behavior & dominance, male mice, 7691
nest building behavior, male Siamese fighting fish, 12103
proximity of cats to nest, time spent in & scanning nest area, female blue tit, 12137
small medial preoptic area lesions, nest building & retrieving & crouching & nursing, lactating female rats, 3111
Netherlands
attitudes toward social issues, citizens & students, Netherlands, 8045
comparison of personality inventories, psychiatric & physical rehabilitation patients, Netherlands, 2417
emotional & social problems, adopted children of other races & nationalities, Netherlands, 7925
factors in behavior ratings of students, 1st & 6th class teachers, Netherlands, 8928
invariance of personality questionnaire factors, Netherlands, 2545
juridical position, nonmedical psychotherapists, Netherlands, 8780
organizational measures & medicalization as threats to professional functioning of psychotherapy, Netherlands, 4008
personality tests as basis for personality impression, job applicants, Netherlands, 2411
previous suicidal behavior vs intensity of problem situations, suicidal behavior, psychiatric inpatients, Netherlands, 3756
Rogerian therapy training, Netherlands, 1947–64, 8800
survey study, assertiveness training programs, Netherlands, 4057
validation of Dutch translation of Spielberger State-Trait Anxiety Inventory, Netherlands, 2544
Neural Analyzers
electrical jamming stimulation, phase-changing alteration of electric organ discharge & role of mesencephalic neurons in object localization, electric fish, 2965
Neural Lesions
anomalous sympathetic innervation of hippocampus, spontaneous alternation & spinal maze learning, male rats, 7565
ECS & cauterization of VIIIth nerve, vestibular compensation at various intervals, male rats, 812
hippocampus, memory, rats, 3124
homovanillic acid & MAO activity in cerebral cortex & basal ganglia, Huntington's disease patients, implications for primary aminergic lesion, 10703
left dorsal & ventral ansa subclavian transection, heart rate & left ventricular systolic pressure & pressure development during shock avoidance task, dogs, 3108
mechanisms of ultrasonic emissions, Mongolian gerbils, 7518
neonatal spinal transection, penile vs other reflexes, male rats, 3110

nerve stump length following transection of glossopharyngeal nerve, magnitude of summated taste solution-elicited responses, gerbils, 847
oral & ip thyrotropin releasing hormone & MK-771 & reserpine & alpha-methylparatyrosine & phenoxybenzamine & methazolamide & picolinic acid, flexor activity, female rats with spinal transections, 7569
organ of Corti destruction by amikacin, acoustically evoked neural activity from brainstem & auditory cortex, guinea pigs, 5300
penile sheath removal & spinal transection, penile reflex, male rats, 3119
remote masking as method of diagnosing cochlear partition rigidity, 8–90 yr olds with Meniere's disease & acoustic neuromata & sensorineural lesions & presbyacusis, 6118
subdiaphragmatic denervation & liver temperature, food intake, male rats, 9838
time course of tone decay as indication of retrocochlear pathology, support for findings of T. Wiley & D. Lilly, 6173
unilateral olfactory bulbectomy, opiate lignad binding in contralateral bulb, female mice, implications for limbic function & emotional behavior modulation, 5339
unilateral sectioning of optic nerve, pattern reversal electroretinographic responses, cats, 12335
Neural Receptors [See Also Chemoreceptors, Photoreceptors, Proprioceptors, Thermoreceptors]
absolute sensitivity of optomotor neuron in 3rd optic ganglion to single photons, female blowflies, 12221
acetylcholine hippocampal muscarinic receptors in kindling, male rats, 3104
aging effects on dopaminergic receptors coupled to formation of cyclic adenosine monophosphate, rats, 7475
amygdala kindled seizures, reductions of muscarinic receptors in limbic system, male rats, kindling model of epilepsy, 9762
circadian & seasonal rhythms in numbers of alpha- & beta-adrenergic receptors in forebrain & hypothalamus, male rats, 9778
concentration of GABA, GABA-ergic neurons & receptors in epileptic vs nonepileptic hemispheres, rhesus monkeys, 12328
cytosol & cell nuclear androgen receptors in brain, perinatal female rats, implications for brain sexual differentiation, 2991
distribution of angiotensin II binding sites in brain, male rats & mice & gerbils & degus & hamsters, 12211
distribution of thyrotropin releasing hormone receptor binding in CNS, monkeys, 12229
dopamine analog called 6,7-dihydroxy-2-dimethylaminotetralin vs apomorphine, locomotor activity & pre- & postsynaptic receptor activity, rats, 9934
dopamine autoreceptors, role in psychiatric disorders, review of clinical & preclinical research, 2996
dosage of yohimbine, paradoxical sleep, male rats, 5382
drug induced changes in noradrenergic transmission, lordosis & steroid action within hypothalamic target cells, female guinea pigs, 9952
frequency of flicker light stimulation, striate cortex neuron response, cats, 12217
intermittent haloperidol, caudate dopamine receptor binding, mice, implications for prevention of tardive dyskinesia, 3138
intraventricular vs periaqueductal gray injections of bombesin, receptor distribution in brain & nociception & locomotor activity, rats, 921
kanamycin & exposure to intense auditory stimulus during critical neural development, cochlear hair cell damage, various mice strains differentially susceptible to priming-induced audiogenic seizures, 815
luminance of spot light, on-center retinal ganglion cell responses to small light displacements, monkeys, 12235
mepacrine treatment before immobilization-induced desensitization, prevention of decrease in beta-adrenoceptors in hypothalamus & brain stem, male rats, 12409
meta-chlorophenylpiperazine vs LM-5008 vs quipazine vs fenfluramine, anorexia & food intake & related serotonergic mechanisms, female rats, 925
multiplicative visual noise, visual signals & performance, 11819
organ of Corti destruction by amikacin, acoustically evoked neural activity from brainstem & auditory cortex, guinea pigs, 5300
pretreatment with levodopa alone & with benserazide followed by drug challenge, locomotor stimulation & role of central dopamine receptor sensitivity, male mice, 895
psychotropic drugs, neurotransmitter receptors & schizophrenia & animal behavior, 5391
tryptophan, motor activity & open field behavior as affected by 5-HT receptor blockers, male rats, 3219
ultradian rhythms & chronic imipramine, specific dopamine receptor binding of tritiated spiroperidol in striatum, male rats, 912
Neuralgia
early affective deprivation & masked depression & dental or facial intervention & emotional stress, onset of facial pain, cluster headache vs atypical facial neuralgia, 13161
Neurasthenic Neurosis
clinical neurasthenia neurotic syndrome & relationship with neurotic & psychopathic personality types, psychiatric outpatients & disability applicants, verification of theory of A. van Dantzig & J. Waage, 6017
Neuroanatomy
afferent neurological network underlying affective attack sites in hypothalamus, cats, 727
afferent neurological network underlying quiet biting attack sites in hypothalamus, cats, 728
afferent projections to ventral lateral geniculate nucleus, cats, 9773
anatomical connections & electrophysiological responsivity of cortical area 3a & role in conscious perception of limb position & movement, literature review, 5218
anatomical features & cognitive & perceptual functioning in corpus callosum agenesis, 7–48 yr olds, review of reported cases, 8312
autoradiographic study, septal & amygdalar efferents to hypothalamus which facilitate hypothalamically elicited intraspecific aggression & hissing, cats, 730
brain density & advantage of dominant hemisphere over nondominant, chronic alcoholics, 13028
brain functions & development, biological bases of thought & language & reading, children, 9763
brain stem motor nuclei, control of ultrasonic vocalizations, 10 day old rat pups, 733
cognitive deficit & functional specialization within integrated brain, operationalization & review of K. Goldstein's ideas, 8247
correlation between number of basic taste qualities & number of taste buds per fungiform papilla, 18–35 yr old volunteer Ss, 2962
correspondence between neurological factors & optics of eye & acuity data on smallest foveal channel, 367
distribution of angiotensin II binding sites in brain, male rats & mice & gerbils & degus & hamsters, 12211
estradiol vs dihydrotestosterone, absolute refractory period of testosterone-sensitive neurons of stria terminalis, castrated male rats, 796
functional organization of posterior parietal association cortex & effects of lesions on attention & sensation & motor control, monkeys, 12222
inhibition of auditory cortex neurons by "cingular" vocalization area during phonation, squirrel monkeys, 7479
interocular transfer of brightness vs pattern discriminations, hooded vs albino rats, 9782
language development & classification & contributing factors & prevention of language impairments, children, literature review, 10635
left vs right hemisphere speech representation, asymmetry of posterior Sylvian branches of middle cerebral artery, patients, 7484
logarithmic mapping approach & quantitative model of human visual cortical representation of visual stimuli, 5194
neuroanatomical correlations, language disorders, 10608
neuroanatomy of visual pathway, literature review, 2989
packing density of pinealocyte nuclei, speed of wheel running, male rats, testing of proposal by M. Reiss et al, 12234
picrotoxin injections into ventral tegmentum followed by GABA injections into globus pallidus, locomotor activity, male rats, 910
quantitative structural neuronal circuit model, orientation selectivity in striate cortex, 5206
removal of right eye & crushing of optic nerve of left eye, ability of ipsilateral optic tectum to mediate vision when containing only spontaneous ipsilateral optic tectal projection, goldfish, 854
restructuring of functional control arrangement of wrist movement based on multilevel neuromuscular control model, restoration of function lost by Parkinson's disease related pathology, 6143
sleep vs wakefulness, role of paucisynaptic connections in theta wave origins in nucleus lateralis posterior & neocortex & hippocampus & pulvinar & thalamus, free-moving cats, 2972
stimulation of olfactory tract & olfactory epithelium with electric current & amino acids, electrical activity of olfactory bulb vs tract & role of neuroanatomical subdivisions, tenches, 704

stimulation of various sites in midbrain tegmentum, evoked synaptically-mediated excitation in pontine reticular formation neurons & evidence of excitatory projections, rats, 713
threshold vs suprathreshold levels of various sweet compounds, individual differences in stimulus detection, adult Ss, implications for cooperation between several receptor sites in chemoreception, 316
visual functioning role of extrastriatal projections from thalamus to occipital-temporal cortex, rats, 699

Neurobiology

discussion of integration of psychoanalytic theory & neurobiology, 6943
history & rationale for development of research program for study of psychobiology of affective disorders, literature review, 11592
"pandevelopmental retardation" & genetic history, neurobiologic disorders, pre-schizophrenic infants, literature review, 12910

Neurochemistry

acute & chronic ethanol treatment, brain & pituitary endorphin levels, male Sprague-Dawley rats, 928
acute & chronic morphine & nalorphine induced withdrawal, time-course response of brain & adrenal dopamine & norepinephrine induced by alpha-methylparatyrosine, female rats, 891
acute vs chronic administration of fluoxetine & paroxetine & zimelidine & trazodone & amitryptyline, potentiation of tranylcypromine- & levotryptophan-produced serotonin syndrome, male rats, 7655
adrenal corticoids, sensitivity of noradrenaline receptor-coupled adenylate cyclase in brain, rats, 3122
amiloride, lithium-induced diabetes-insipidus-like syndrome & lithium levels in plasma & brain & kidney & thyroid & red blood cells, rats, 12354
amyl acetate vs suckling pheromone stimulation, olfactory bulb uptake of 2-deoxy-dextro-glucose, rat pups, 3216
anisomycin & estradiol & progesterone, cerebral protein synthesis & sexual behavior, ovariectomized female rats, 3201
aromatization of androstenedione & testosterone in cultured brain cells, turtles, 7441
aromatization of testosterone within hypothalamus & behavioral action of androgen, male doves, 729
beta-carboline-3-carboxylic acid ethyl ester, diazepam displacement from brain tissue blockade of pentylenetetrazole-induced clonic seizures, mice, 9968
brain amines & dopamine & endorphin, affective disorders & schizophrenia, 10526
brain glutamic acid decarboxylase activity & glutamate & GABA concentrations, open-field activity, BALB/cJ vs C57BL/6J mice, 5186
brain levels of phenylethanolamine & m-octopamine & p-octopamine, Roman strains of rats, 702
chronic dietary lithium, acute effects of LSD & chlorimipramine on high-affinity tryptophan uptake & role of stabilization vs responsiveness enhancement to serotonin utilization, male rats, 931
citalopram, brain levels of serotonin & 5-hydroxyindoleacetic acid & wet-dog shakes induced by tranylcypromine & tryptophan, rats, 7661
clinical vs research vs neuroendocrine criteria, validity of endogenous depression diagnosis, depressed outpatients, 5938
concentration of GABA, GABA-ergic neurons & receptors in epileptic vs nonepileptic hemispheres, rhesus monkeys, 12328
cycloheximide, protein synthesis & memory, praying mantis, 5380
distribution of 1 beta-lipotropin & ACTH & 1 alpha-melanocyte-stimulating hormones in rat brain, 718
ECS, brain synaptic proteins, rats, 12318
ECT & thyrotropin releasing hormone, thyroid stimulating hormone response, depressive & bipolar patients, 10469
estradiol & dihydrotestosterone, sexual behavior, male rats, 7517
fluctuations of catecholamine metabolism & adrenocortical hormones during recovery & drug therapy, patients with endogenous vs neurotic depression, 1875
GABA transport in nerve endings, normal vs vitamin B-12 deficient fruit bats, 5203
haloperidol, 3H-4,5-leucine incorporation into limbic system, mice, 7651
history of use & neurochemical action, hallucinogenic mushrooms, implications for search for endogenous hallucinogens in psychoses, literature review, 906
hydrocortisone, norepinephrine & serotonin & dopamine reuptake in hypothalamus, male rats, implications for clinical study of depression, 7669
hypothalamus & ventral tegmental area injections of 6-hydroxydopamine, 2-deoxy-dextroglucose incorporation, male rats, 3185
intrahippocampal anisomycin, retention of brightness discrimination task, rats, 3174
intranigral 6-hydroxydopamine & denervation, dopamine receptors & adenosine cyclic monophosphate & dopamine content in caudate nucleus, male rats, 5315
intrastriatal kainic acid, regional brain glucose utilization, male rats, need for histological controls, 7708
ip beta-endorphin & training & stimulation, memory retention & beta-endorphin immunoreactivity in brain, rats, 7656
learning, protein levels & synthesis, split-brain pigeons, 5336
lithium &/vs stress, free amino acid brain levels, rats, 7637
manic depressive psychosis due to infectious mononucleosis, 23 yr old female, 5909
meta-chlorophenylpiperazine vs LM-5008 vs quipazine vs fenfluramine, anorexia & food intake & related serotonergic mechanisms, female rats, 925
modified tritiated 2-deoxyglucose technique, localization of 2-deoxyglucose in single neurons, gastropod mollusks, 7491
morning vs afternoon immobilization stress, plasma & adrenal corticosterone & brain epinephrine & norepinephrine & dopamine levels, male rats, 9864
neurochemistry & clarification of basis for serious developmental disturbances & psychoactive medication, children, 12902
neurochemistry & pathophysiology of parkinsonism & symptomatology of levodopa-induced psychosis, 1375
norepinephrine depletion produced by locus coeruleus lesions, cerebral oxidative metabolism, male rats, 9892
obesity induced by neonatal administration of monosodium glutamate, feeding behavior & activity & thermoregulation & response to catecholamines, mice, 12352
overview of brain chemistry & behavior, 5187
oxotremorine & alfa-methyl-para-tyrosine methylester & nialamide, retention & dopamine & norepinephrine levels in brain, male mice, 5379
pentylenetetrazol, behavior & EEG activity & cyclic adenosine monophosphate & cyclic guanosine monophosphate brain levels, female mice, 5365
phenobarbital tolerance, phenobarbital-induced depression of potassium-stimulated 5-hydroxytryptamine release in brain, male rats, 9948
pimozide, norepinephrine concentrations in cerebrospinal fluid, schizophrenics, 10941
promethazine, blockade of histamine- & impromidine-induced cyclic adenosine monophosphate activity in H sub 2-receptors in intact guinea pig hippocampal cells vs cell-free preparations, 7628
red blood cell distribution of lithium & sodium, depressed patients, 1454
removal of right eye & crushing of optic nerve of left eye, ability of ipsilateral optic tectum to mediate vision when containing only spontaneous ipsilateral optic tectal projection, goldfish, 854
restraint & water immersion stress, distribution of tritiated dopamine in adrenal medulla, male mice, 794
septal lesions of hippocampal membrane, binding of tritiated methyldioxolane & flunitrazepam, male Sprague-Dawley rats, 848
serotonin binding in human postmortem brain tissue, 9771
single & repeated doses of triazolam &/vs desipramine, pharmacologic responses & brain catecholamine levels, rats, 9945
single & repeated neuroleptic dosages, noradrenaline & 3-methoxy-4-hydroxyphenylethyleneglycol & cyclic adenosine monophosphate in forebrain & spinal cord, male rats, 9910
sleep vs wakefulness, diazepam binding in brain, hamsters, 720
tetrahydrocannabinol & its derivatives, acetylcholine turnover in hippocampus, male rats, 3204
thyrotropin-releasing hormone, plasma prolactin response, depressive & bipolar patients receiving ECT, 10470
thyrotropin-releasing hormone immunoreactivity in brain & spinal cord & pancreas & neurotransmitter function, rats, 7494
time of posttraining phentolamine &/vs propranolol administration into amygdala, retention, rats, 9933
tritiated apomorphine labeling of dopamine postsynaptic receptors & autoreceptors, rats, 7493
tritiated imipramine high-affinity binding to platelet membranes, untreated depressed 20–65 yr old females, 1407
tryptophol, brain 5-hydroxytryptamine metabolism, male mice, 5372
use of fluorescent microscopy, visualization of specific angiotensin II binding sites, rats, 7666
vaginocervical stimulation, selective increases in brain metabolic activity, female rats, 12191

yohimbine, desipramine-induced decrease of corticocerebral beta-adrenergic receptors, male rats, implications for clinical effects of antidepressants, 7706
5,7-dihydroxytryptamine injections into fornix-fimbria, locomotor activity & 5-hydroxytryptamine hippocampal re-uptake, rats pretreated with desipramine, 12414
5, 7-dihydroxytryptamine median raphe nucleus lesions, ECS-induced retrograde amnesia of passive avoidance conditioning & brain 5-hydroxytryptamine levels, male rats, 12300
6-hydroxydopamine & desmethylimipramine vs dextroamphetamine vs methylphenidate vs scopolamine, brain dopamine & norepinephrine levels & hyperactivity, newborn vs infant rats, 7678
Neurodermatitis
habit reversal technique, scratching from neurodermatitis, 16–34 yr old females, 10898
psychological distress & stressful events & alexithymic traits, inpatients with psoriasis & chronic urticaria & fungal infections, 8320
Neuroinfections [See Infectious Disorders, Nervous System Disorders]
Neuroleptic Drugs [See Also Chlorpromazine, Fluphenazine, Perphenazine, Phenothiazine Derivatives, Reserpine, Sulpiride, Trifluoperazine]
antidepressants & atropine & antiparkinson drugs & neuroleptics & pentobarbital & diazepam & methamphetamine, tetrahydrocannabinol induced long lasting muricide, male rats, 882
decrease & discontinuation of neuroleptic therapy, tardive dyskinesia & relapse, chronic schizophrenics, 4080
dextroamphetamines vs neuroleptics, negative vs positive symptoms of schizophrenia, 20–44 yr old schizophrenics, 13314
diazepam &/vs neuroleptic treatment, urine levels & clinical management, patients with acute phencyclidine intoxication, 4108
duration of depot neuroleptic maintenance therapy & prognosis following discontinuation, schizophrenics, 6389
electric & drug stimulation of brain serotonergic system, mouse-killing behavior, male rats, 3074
group pharmacotherapy, withdrawn schizophrenic patients, 8597
Hoffmann reflex recovery curves, 18–53 yr old psychiatric patients, 5983
lateralization of neuroleptic induced dyskinesia as evidence of pharmacologic dominance in basal ganglia, psychiatric patients, 1878
maprotiline, level of activity & symptoms, anergic schizophrenic receiving neuroleptic drugs, 1881
medical aspects & patient's rights, side effects from neuroleptic drugs, 13320
methylphenidate & neuroleptics & withdrawal of phenothiazine & dyskinesia-dystonia, 2 yr old hyperkinetic male, 8586
neuroleptic blood levels, clinical efficacy, acutely manic psychotic & schizophrenic patients, 8573
neuroleptic drugs, induction of tardive dyskinesia & other movement disorders, handicapped children & youth, 8582
neuroleptic drugs, prevention of relapse in schizophrenia, report of workshop, 4092
neuroleptic induced reinnervation sprouting in CNS, model for development of tardive dyskinesia & supersensitivity psychosis, 10735
neuroleptics & methyldopa vs rubidium vs tryptophan-benserazide, symptoms, schizophrenics, implications for brain dopamine deficiency, 1838
neuroleptic vs antidepressive drug therapy, depression, acute schizophrenic vs depressive patients, 8592
prevalence of presumed tardive dyskinesia, psychiatric patients with & without exposure to neuroleptics, 5911
propranolol & flupentixol decanoate, symptoms, chronic schizophrenics, 4096
propranolol &/vs neuroleptic drug therapy, active & passive avoidance learning, 19–57 yr old schizophrenics, 4089
severe tardive dyskinesia, 15–66 yr old Hungarian schizophrenic outpatients, implications for side effects of drug therapy, 10919
single & repeated neuroleptic dosages, noradrenaline & 3-methoxy-4-hydroxyphenylethyleneglycol & cyclic adenosine monophosphate in forebrain & spinal cord, male rats, 9910
sub-syndromes of tardive dyskinesia, psychiatric patients, 5914
trifluoperazine, striatal & mesolimbic dopamine function, male rats, 5357
ultradian rhythms & chronic imipramine, specific dopamine receptor binding of tritiated spiroperidol in striatum, male rats, 912
various neuroleptics, induction of dystonia & dyskinesias & other extrapyramidal side effects, male squirrel monkeys, implications for animal models, 902
Neurological Disorders [See Nervous System Disorders]
Neurology
integration of physiological & biological & neurological knowledge in training programs, special education teachers, criticism of H. B. Reed's study, 8832
mild vs severe childhood head vs orthopedic injuries, course of psychological recovery & extent & nature of resulting cognitive vs behavioral impairment, children, followup study, 13148
neurologic development, preterm infants, 9996
neuropsychological models on role of CNS, developmental dyslexia, literature review, 8231
summary & commentaries on "The Hippocampus as a Cognitive Map" by J. O'Keefe & L. Nadel, 716
Neuromuscular Disorders [See Also Cerebral Palsy, Gilles de la Tourette Disorder, Hemiplegia, Muscular Dystrophy, Myasthenia Gravis, Paralysis, Paraplegia, Parkinsons Disease]
linguameter, measurement of tongue muscle control, normal volunteers, implications for sensorimotor pathology, 4726
serum creatine kinase activity during hospitalization, psychotic patients, implications for neuromuscular dysfunction in psychosis, 1456
Neurons [See Also Auditory Neurons, Axons, Cones (Eye), Dendrites, Motor Neurons, Rods (Eye), Sensory Neurons]
acquisition of associative behavior change, membrane depolarization, mollusks, 9752
action potential & intracellular stimulation of Mauthner cell, tail-flip, bullfrog tadpole, 9794
acute vs chronic ethanol treatment & withdrawal, climbing fiber burst activity & total firing rates & rebound indicating tolerance & dependence, male rats, 3206
afferent neurological network underlying affective attack sites in hypothalamus, cats, 727
afferent neurological network underlying quiet biting attack sites in hypothalamus, cats, 728
age & fluphenazine & haloperidol & dextroamphetamine & norepinephrine & GABA & 6-hydroxydopamine & reserpine, spontaneous discharge of cerebellar Purkinje neurons, male rats, 7670
anatomical connections between anterior thalamus & cingulate-retrosplenial cortex, rabbits, correlation with neural activity during behavioral learning, 7435
anatomical relationship between central olfactory pathways & neurons containing luteinizing hormone-releasing hormone, male hamsters & rats, 719
brain-stimulation reward & feeding, neuronal activity, rhesus & squirrel monkeys, 3003
central & peripheral neural mechanisms for swimming, bullfrog tadpoles, 3008
changes in morphology of dendritic spines on calycal interneurons associated with experience, newly emerged vs nurse vs forager honeybees, 701
chronic ethanol consumption, neuronal loss in hippocampus, rats, implications for alcohol effects in humans, 939
classical conditioning, neuronal responses recorded from limbic system brain structures, rabbits, 2967
computer simulation, central neural activities of pain vs touch perception, 9280
continuously moving visual patterns, extracellular action potentials in lobula complex, blowflies, 538
control of ventilation by nonspiking neurons, crabs, 3005
correspondence between neurological factors & optics of eye & acuity data on smallest foveal channel, 367
cortical conditioning stimuli, responses of thalamic taste cells to stimulation of chorda tympani, male rats, 736
delayed response performance & visual & acoustic stimulation, single cell activity in prefrontal cortex, squirrel monkeys, 5209
dextroamphetamine & haloperidol, spontaneous neuronal activity in neostriatum vs nucleus accumbens, male rats, 7686
dextroamphetamine vs levoamphetamine, firing rates of dorsal substantia nigra vs ventral tegmental area dopamine neurons, rats, 9921
diffuse noxious inhibitory controls, activity of trigeminal nucleus caudalis neurons, rats, 5303
dorsal raphe noradrenergic input & 5,7-dihydroxytryptamine, innervation & identification of serotonin neurons, male rats, implications for serotonin cell activity during REM sleep, 9915
ECS induced generalized seizures, hippocampal neuronal loss, female rats, 821

electrical jamming stimulation, phase-changing alteration of electric organ discharge & role of mesencephalic neurons in object localization, electric fish, 2965
estradiol vs dihydrotestosterone, absolute refractory period of testosterone-sensitive neurons of stria terminalis, castrated male rats, 796
ethanol, electrophysiological changes of cerebellar Purkinje neurons, mice lines with different sleep times, 9963
ethanol, potentiation of inhibition of cortical neurons by GABA, cats, implications for alcoholism etiology, 915
genetic deficiency for vasopressin in suprachiasmatic nuclei, circadian rhythms in locomotor activity & drinking & pineal serotonin N-acetyltransferase, Brattleboro rats, 749
giant interneurons, flight activity, cockroaches, 5231
glucose, suppression of basal firing of dopaminergic neurons & haloperidol induced increases in firing, male rats, 9959
housing in complex vs isolated environment from weaning to 145 days of age, plasticity of visual cortex neurons of Layer 3 pyramidal & Layer 4 stellate cell types & Layer 5 pyramidal apical dendrites, male rats, 709
kainic acid injection into dorsal hippocampus, neuronal depletion & acquisition & reversal of brightness discrimination & spontaneous alternation & locomotor activity & food & water intake & taste preferences, female rats, 7676
lesions of dopaminergic A10 neurons, retention of delayed alternation, male rats, 853
limbic system influences on microsystem cellular network formation in neuronal conditioning & interaction between cortical & subcortical visual structures, cats, 2998
lost nerve cell components in temporal lobe, aged patients with Alzheimers disease, 1560
mathematical modeling of ocular motoneurons, literature review, 5232
modified tritiated 2-deoxyglucose technique, localization of 2-deoxyglucose in single neurons, gastropod mollusks, 7491
monocular deprivation, spatial resolution of on-center retinal ganglion cells in area centralis using different retinal eccentricities in retina of deprived eye, cats, 785
monocular paralysis with bilateral lid suture, latencies of response onset for lateral geniculate nucleus cells following optic chiasm shock & role of extraretinal cues, cats, 811
morphine, CA1 field potentials in hippocampal slices, male rats, 870
morphine self administration, neurotransmitter turnover, male rats, 5408
muscular apparatus & motoneural organization in feeding behavior, mollusks, 3007
neuroanatomy of visual pathway, literature review, 2989
neuronal activity in nucleus parabrachialis medialis related to cardiac cycle during sleep-waking state, cats, 5239
operant control of precentral neurons, rhesus monkeys, 3012
optically induced squint, monocular visual acuity & interocular alignment & cortical ocular dominance, kittens, 696
performance of visual tracking task involving flexion & extension of wrist at onset of visual cue, responses of single neurons in caudate nucleus & globus pallidus, monkeys, 692
position & angular velocity of sinusoidal tilt, response of neurons in lateral ventricular nucleus, precollicular decerebrate cats, 3102
quantitative structural neuronal circuit model, orientation selectivity in striate cortex, 5206
receptive fields on glabrous hand of neurons in areas of somatosensory cortex, cynomolgus monkeys, 5241
receptive field types & dimensions & orientation selectivity & ocular dominance of areas 17 & 18, cats, 12230
repeated tricyclic antidepressant administration, apomorphine depression of spontaneous activity of single dopamine neurons, male rats, 7626
rostral vs caudal reticular formation, ventromedial hypothalamic area neurons, cats, 3091
saccadic eye movements, responses of simple vs complex striate cortex cells, cats, 536
scratching, activity of fastigial nucleus neurons, cats, 5199
scratching, activity of interpositus & lateral nuclei neurons, cats, 5200
self stimulation, energizing & directing of behavior, rats, 824
self stimulation vs stimulation escape, evidence for mediation by same vs different medial forebrain bundle neurons, male rats, 7584
sex differences & estrus & endogenous gonadal steroids, pyramidal cell excitability in hippocampal brain slices, rats, 3217
signal-to-noise ratio of bar & visual background noise, threshold responses of single neurons in lateral geniculate nucleus & visual cortex, cats, 5216
spontaneous activity of neuronal pairs in nucleus parabrachialis medialis during sleep-waking state, cats, 5213
stimulation of various sites in midbrain tegmentum, evoked synaptically-mediated excitation in pontine reticular formation neurons & evidence of excitatory projections, rats, 713
ventral bundle noradrenergic neurons, sensory components of sexual behavior & pseudopregnancy, rats, 706
visual functioning role of extrastriatal projections from thalamus to occipital-temporal cortex, rats, 699

Neuropathology

central deafness & subcortical motor aphasia, clinical & autopsy results from right handed 62 yr old male, 1596
neuropathology & social factors, glue sniffing, 8090
time of neuropathological lesions, development of mental subnormality, 8230
use of computerized axial tomography, clinicopathological correlations in aphasiology, 102

Neuropathy [See Nervous System Disorders]

Neurophysiology

abnormal dense clusters of small vesicles at synapses & myelin deficiency, role of neuronal & neurotransmission changes in behavioral symptoms, mutant mice, 5219
afferent duodenal receptor signals, activation of hypothalamic noradrenergic inhibitory neurons to control feeding upon satiation, 3024
anatomical connections & electrophysiological responsivity of cortical area 3a & role in conscious perception of limb position & movement, literature review, 5218
anatomical relationship between central olfactory pathways & neurons containing luteinizing hormone-releasing hormone, male hamsters & rats, 719
autoradiographic study, septal & amygdalar efferents to hypothalamus which facilitate hypothalamically elicited intraspecific aggression & hissing, cats, 730
background luminance & oscillation of peripheral gratings, elevation of foveal increment thresholds, test of threshold detection models, 4948
background wavelength & wavelength mixture, detection of brief-duration long wavelength incremental flashes, test of linear additivity function of photoreceptor quantum catch, 2713
biphasic membrane penetration model for action of gymnemic acids & ziziphins on taste receptor cells, methodological & experimental design implications, 742
brain functions & development, biological bases of thought & language & reading, children, 9763
cell function distribution in parietal association area 7, stump-tailed monkeys, 12214
chronic dietary lithium, acute effects of LSD & chlorimipramine on high-affinity tryptophan uptake & role of stabilization vs responsiveness enhancement to serotonin utilization, male rats, 931
CNS, regulation of rhythmic movements, animals, 7446
combination of clinical & biological criteria for psychiatric diagnosis of affective disorders, 10405
computer simulation, central neural activities of pain vs touch perception, 9280
conditioned avoidance to amyl acetate vs dextrocamphor, salamanders, implications for role of trigeminal vs vomeronasal systems, 594
continuously moving visual patterns, extracellular action potentials in lobula complex, blowflies, 538
converging visual & somatic sensory cortical input to intraparietal sulcus, rhesus monkey, 725
cooperative activity of spatial channels indicated by frequency discrimination, amblyopes, 6136
correspondence between neurological factors & optics of eye & acuity data on smallest foveal channel, 367
dark adaptation & stimulus intensity & location & color adaptation & stimulus color, streak of light trace phenomenon, implications for central vs retinal influences, 354
dexamethasone suppression test, measurement of hypothalamic pituitary-adrenal axis activity, 18–65 yr old depressed vs nondepressed patients, 1481
drinking ice water, cerebral blood flow & mean temperature on right vs left side of head, right vs left handed Ss, 7444
ependymal tanycytes projecting to ventromedial hypothalamic nucleus, male albino Wistar rats, 711

estradiol vs dihydrotestosterone, absolute refractory period of testosterone-sensitive neurons of stria terminalis, castrated male rats, 796
existence of spatial frequency selectivity of adaptation aftereffect, amblyopes, 6135
extraction & purification & description of compounds with vs without surface active properties, modification of sweetness taste, 23–26 yr olds, 324
frequency & intensity of conditioning & test pulse pairs, self stimulation of lateral hypothalamus & circling in raphe region, male rats, implications for use of trade-off double pulse technique, 12322
function of endorphins in brain & possible role in opiate addiction & mental disorders, review of research, 698
heredity vs learning, handedness & laterality, humans vs monkeys, 7426
hierarchy of "reptilian" & "old mammalian" & "new mammalian" brains working together in humans, psychological functioning, 2992
hippocampus & memory, 2986
hippocampus & neuroendocrine system, 3071
incorporation of additive effect from background quanta in chromatic adaptation experiments on color perception, criticism of J. Walraven's hypothesis, 2708
inhibition of auditory cortex neurons by "cingular" vocalization area during phonation, squirrel monkeys, 7479
inhibition of neurons vs perceptual & associative mechanisms, physiological learning theory, implications for minimally brain damaged children, 11941
injury, activation of fear motivation system & accompanying defensive behaviors & pain motivation & accompanying recuperative behaviors, animals, 5138
iris pigmentation, premotor & motor RTs & latency & motor components of reflex time, college students, 5278
lesions of subfornical organ, mediation of drinking responses, rats, implications for central control of thirst, 12333
limbic system influences on microsystem cellular network formation in neuronal conditioning & interaction between cortical & subcortical visual structures, cats, 2998
locational identity of opponent site in visual pathway & site of blue/yellow cancellation, Os, 4937
logarithmic mapping approach & quantitative model of human visual cortical representation of visual stimuli, 5194
long-duration long wavelength foveal test flash incremental thresholds, test of hypothesized chromatically coded pathway, 2714
methodological & theoretical issues of measurement of laterality, 12201
model systems analysis of neurophysiology of learning, 12231
motor control processes framework, stuttering, 13070
narrow-band high vs low spatial frequency disparate texture displays, role of frequency tuned channels in control of vergence movements, 4912
nerve stump length following transection of glossopharyngeal nerve, magnitude of summated taste solution-elicited responses, gerbils, 847
neurons comprising central pattern generator, generation of rhythmic behavior patterns, 12236
neurophysical status & personality change & memory loss & work capacity & friendships, 16–39 yr old patients with severe head injuries, 2-yr followup study, 1625
neurophysiological aspects of distractibility, schizophrenics, literature review, 1424
neurophysiological mechanisms, self perception, 2964
neurophysiology & biochemistry, augmenting-reducing response in visual evoked potentials, 22–70 yr old psychiatric patients, 13012
neuroregulatory & neuroendocrine gonadotropin-releasing hormone pathways in hypothalamus & forebrain, baboons, 712
nonolfactory sensory pathway to telencephalon, teleost fish, 7450
orthogonal dimensions of grating pattern, contrast thresholds for given spatial frequency, amblyopic vs normal Ss, 6134
overlapping symptom clusters & lowered threshold in food intake mechanisms, anorexia nervosa, 24 yr old suicidal female, 8313
performance of visual tracking task involving flexion & extension of wrist at onset of visual cue, responses of single neurons in caudate nucleus & globus pallidus, monkeys, 692
picrotoxin injections into ventral tegmentum followed by GABA injections into globus pallidus, locomotor activity, male rats, 910
pituitary-adrenal disinhibition as response to dexamethasone suppression test, subtyping primary vs secondary depression, 20–73 yr old depressed inpatients, 1409
processing visual & auditory & tactual information, eye movements, college students, testing of neurolinguistic programing hypothesis, 7496
production of adaptive behavior, criticism of article by D. Bindra & reply to criticism of E. A. Asratyan, 693
psychoanalytic & neurophysiological analysis of dreams, 2820
quantitative model, temporal luminance integration & perception of frame or element movement in multielement stimulus frames & neurophysiological mechanisms, 344
quantitative structural neuronal circuit model, orientation selectivity in striate cortex, 5206
restructuring of functional control arrangement of wrist movement based on multilevel neuromuscular control model, restoration of function lost by Parkinson's disease related pathology, 6143
role of dorsal column lemniscal system input, reticular formation, adult cats, 9795
role of inner ear vs cerebral cortex in visual symptoms during space flight motion sickness, astronauts, 6171
role & site of brain peptides as neurotransmitters, literature review, 2959
selective fatigue in human motor systems, female 17–38 yr olds, 2978
sex differences & estrus & endogenous gonadal steroids, pyramidal cell excitability in hippocampal brain slices, rats, 3217
sexually dimorphic motor nucleus, hormone accumulation & role in copulatory behavior, male rats, 7624
site of lesion & visual stimulation, evoked potential amplitudes & fluctuations & asymmetry, Ss with frontal lobe & other lesions, implications for attention, 13091
summary & commentaries on "The Hippocampus as a Cognitive Map" by J. O'Keefe & L. Nadel, 716
surgically induced strabismus, role of anomalous visual input of deviated eye vs neurophysiological factors in reduced visuomotor capacity, cats, 786
surgical removal of corpora allata, role of juvenile hormone vs ovarian nervous or hormonal involvement in initiation of biting behavior, female mosquitoes, 5313
target field & background configuration, asymmetry in bright & dark Broca-Sulzer effects, differential neural processing implications, 4949
theoretical & evolutionary perspectives, neurolinguistics, 9985
topographic sensory mapping in claustrum, cats, 9788
unilateral olfactory bulbectomy, opiate lignad binding in contralateral bulb, female mice, implications for limbic function & emotional behavior modulation, 5339

Neuropsychiatrists [See Psychiatrists]

Neuropsychiatry
materialistic vs psychophysical dualist theory of mind-brain relationship, implications for neuropsychiatry, 6947

Neuropsychology
age & sex differences in neuropsychological development, academic performance, kindergartners vs 2nd graders, 1042
analysis of empirical studies using Luria-Nebraska Neuropsychological Battery, support for theories on structure of cognitive function, literature review, 9392
aorta-coronary bypass, psychiatric & neurologic status, 8101
applicability of neuropsychological diagnosis, special education, criticism of H. B. Reed's study, 9039
application of neuropsychological knowledge in school environment, reply to criticism by J. Sandoval & R. M. Haapmanen, 11359
behavioral deficit as compensatory use of alternative neural systems until recovery of damaged function occurs, brain damaged Ss, 8343
behavioral neuropsychology, remediation & rehabilitation of organically induced behavior problems, school age children, implications for special education of learning disabled, 11289
brain damage & psychiatric disorders, neuropsychological diagnosis, 9–15 yr olds, 8120
brain damage & subsequent long term verbal memory deficits, disruptions in vocational & social & emotional functioning, 20 yr old male, treatment implications, 8378
cautions about oversimplification in use of neuropsychology in special education, critique of articles in present issue of journal, 11392
cognitive deficit & functional specialization within integrated brain, operationalization & review of K. Goldstein's ideas, 8247
comparison & construct validity of Halstead-Reitan vs Luria neuropsychological test batteries, psychiatric patients, 159

correlation between brain scanner reports & Luria's Neuropsychological Investigation modified for White English speaking adults, 20–69 yr old brain damaged Ss, South Africa, 11696
cross validation of WAIS & Wechsler-Bellevue Intelligence Scales, identification of brain impairment, acute & chronically impaired Ss, 9374
discussion of neuropsychology & special education, H. B. Reed's reply to professional criticism, 9038
drug abuse style & type & neuropsychological impairment, polydrug users, 8096
evaluation of Luria-Nebraska Neuropsychological Test Battery, 4833
factor analysis & validity of WISC & Revised WISC, 6–9 yr olds with various neuropsychological diagnoses, 198
Halstead Category Test & Wisconsin Card Sorting Test as diagnostic measures, brain damaged Ss, 190
Halstead-Reitan Battery & Wechsler Scales, clinical neuropsychological assessment, bibliography, 211
Halstead-Reitan Neuropsychological Test Battery, differential diagnosis of schizophrenic vs brain damaged patients, 194
Halstead-Reitan vs Luria-Nebraska Neuropsychological Battery, intertest relationship & effectiveness in diagnosis of brain damage, 39 yr old patients, 4787
Halstead-Reitan vs standardized Luria-Nebraska Neuropsychological Test Battery, diagnosis of brain damage, brain-damaged vs psychiatric patients, 4799
hippocampus, conditioned operations & cognition, 2980
importance of neuropsychological knowledge for treatment of learning disabled, school psychologists, 11349
interaction of biological deficits & teaching & academic achievement, special education, criticism of H. B. Reed's study, 9028
intracranial self stimulation, emotion & pain & reward & learning mechanisms, literature review, 9787
long term neuropsychological dysfunction, 16–37 yr old patients who sustained traumatic head injury with coma, 10664
Luria-Nebraska & Halstead-Reitan neuropsychological batteries, intercorrelation of findings, brain damaged & non-brain damaged patients, 7109
methods for diagnosis for organic brain damage, patients with mental symptomatology, 13146
neuroanatomical correlations, language disorders, 10608
neuropsychological assessment as basis for designing learning programs for learning disabled, school psychologists, 11386
neuropsychological assessment & educational prescription, auditory-linguistic dyslexic 10 yr old male, 11301
neuropsychological functioning as measured by Bender Gestalt visual-motor test & Luria's Neuropsychological Investigation, juvenile delinquents vs functional adolescents, 3863
neuropsychological model, interpretation of test data, learning disabled 9.5 yr old male, 10597
neuropsychological models of cognitive processes & strategies, implications for mental retardation, 7478
neuropsychological models on role of CNS, developmental dyslexia, literature review, 8231
neuropsychological procedures, differential assessment of learning disorders caused by CNS dysfunction, school psychologists, 11378
neuropsychological test performance, female alcoholics, 1987
neuropsychology training opportunities in American Psychological Association-approved internship settings, 6562
practices & trends in neuropsychological assessment training, school psychology program directors, 2021
reanalysis of W. C. Halstead's correlational matrix of neuropsychological tests, factor solution, 7009
redundancy of social ordering information, French & English anagram solutions, implications for neuro- & psycholinguistic phenomena, 7211
relevance of neuropsychology to special education, criticism of H. B. Reed's study, 9044
school neuropsychology, 8781
size of cerebral ventricles & impairment measured by Standardized Luria-Nebraska Neuropsychological Battery, 20–40 yr old chronic schizophrenics, 1370
survey results, opinions on professional issues, National Academy of Neuropsychologists members, 11089
symptoms of Broca's aphasia, implications for neuropsychological theory of language & disruptions due to brain damage, 6111
utility of clinical-actuarial prediction & description of brain impairment using Wechsler-Bellevue Intelligence Scales, graduate students & clinicians, 9375
validity of Quick Neurological Screening Test, identification of learning disabilities, students previously given physical exam, 7103
value of brief screening measures, assessment of neuropsychological organization, 9302
Visual Organization Test, measurement of organicity, 15–49 yr old normal Ss & 16–71 yr old psychiatric patients, 7080
WAIS Verbal-Performance discrepancy, prediction of lateralization of lesion, brain lesioned males, 7028
Neurosciences [See Also Neuroanatomy, Neurobiology, Neurochemistry, Neurology, Neuropathology, Neurophysiology, Neuropsychiatry, Neuropsychology]
role of neurosciences in development of ethical values, 4617
study of human nervous system & complex adaptive behavior, 12205
Neurosis [See Also Anxiety Neurosis, Conversion Neurosis, Experimental Neurosis, Neurasthenic Neurosis, Neurotic Depressive Reaction, Obsessive Compulsive Neurosis, Phobic Neurosis, Traumatic Neurosis]
affective aspects of dreams, normal vs neurotic vs hysterical Ss, discussion of Vujic's theories on dream interpretation, 521
amitriptyline &/vs diazepam, depression & anxiety, neurotic outpatients, 1854
anamnesis & personality, treatment motivation, psychosomatics vs neurotics, 5924
brief hospital admission, neurotic & psychotic symptoms, psychiatric patients, 4166
cardiac anxiety neurosis, aged patients, 6138
category of neurosis including anxiety & depression & hysteria, estimations of task oriented time, neurotics, 3773
causes & treatment of chronic pain in schizophrenia & neurosis & hysteria, 10707
chronic illness, facade behavior & psychoneurotic disorders & personality traits, patients with chronic physical illness, 10687
chronic neurotic syndrome with somatic multiple symptomatology, Muslim females, India, 8155
clinical development of neurosis during adolescence, 1457
clinical vs epidemiological differences, concept of neurosis, 5948
clomipramine, school refusal & neurotic disorders & depression, male vs female children, 13317
commentary on H. J. Eysenck's conditioning model of neurosis, 6941
construction & reliability & validity of Middlesex Hospital Questionnaire, self rated psychoneurosis, normal college students, 7026
deficiency in social bonds, neurosis, urban Ss over age 18, 10486
deficiency in social relationships & adversity & prevalence of neurosis, Ss from general population, Australia, 10485
discriminative ability, Rorschach test, borderline vs acute vs chronic schizophrenics vs neurotics, 13004
discriminatory accuracy of MMPI scales vs 2-point codes, schizophrenic vs neurotic vs brain damaged vs alcoholic patients, 179
early parental loss, depressed vs neurotic patients, 1479
educational background & psychotherapy selection processes, neurotic vs psychosomatic patients, 1694
environmental & occupational stress, neurotic & psychotic & other mental disorders, Norwegian islanders, 1426
fluctuations of catecholamine metabolism & adrenocortical hormones during recovery & drug therapy, patients with endogenous vs neurotic depression, 1875
genetics & family research problems in prevalence of neurosis, 5936
group psychotherapy, neurotic outpatients, 13237
group psychotherapy, 72–99 yr olds in private retirement home, 8458
group size, dynamics in group psychotherapy, neurotic & borderline patients, 1747
hysterical reactions & organic brain disease & depression, hysterical neurosis patients, 8115
inpatient & outpatient group psychotherapy, effectiveness evaluation, neurotic & psychosomatic patients, followup study, 1762
level of ego development, prediction of type & severity of psychopathology, neurotic & psychotic & character disordered patients, replication of L. R. Vincent & K. R. Vincent's study, 1500
masculine & masculine-derived & neutral vs feminine names, personality characteristics including femininity, female college students, 5848
neurotic illness & preoccupation with physical fitness, 40 yr old males, 3804
nosological differentiation, endogenous psychoses & neuroses, 3799
personality traits & history of neurosis & symptoms of anxiety & depression, epileptics, 1391

phenelzine therapy, improved adjustment, male veterans with war neurosis, 1850
prelogical thinking & anxiety, neurotics, 1408
psychoanalytic interpretation of mother child relationship, severely neurotic learning disordered gifted 13 yr old male, 12903
psychoanalytic treatment strategy, psychotic vs neurotic personality, 4006
psychoanalytic vs behavior therapy in clinical psychology, 13203
psychotherapy, neurotic aged, 6283
recurrent anniversary crises, neurotic & psychotic patients, 1453
redefinition of psychoanalytic concepts, borderline disorders & neurosis & psychosis & narcissistic conditions, 1431
relationship of values vs emotions vs behaviors, schizophrenics vs neurotics vs patients with personality disorders, 12975
responses to positive vs negative facial emotions, schizophrenics vs neurotics vs alcoholics, 3751
self evaluation of values, psychosomatically ill vs neurotic depressive Ss, 5915
sex differences & lack of occupational training & religious affiliation & psychiatric problems in family, prevalence of psychosomatic & neurotic syndromes, 19–20 yr olds, Switzerland, 12944
sex role orientation & schizophrenia & depression & neurosis & anxiety & self esteem, annotated bibliography, 5702
socioeconomic status & demographic characteristics, schizophrenia vs affective psychotics vs neurotic outpatients, India, longitudinal study, 1493
theoretical & technical aspects, clinical psychotherapy with psychotic patients, 8433
trazodone vs amitriptyline, improvement & side effects, neurotic depressed patients, 10921
validity of short form of Security Insecurity Inventory, neurotic male adults, 11683
verbal learning & long term memory & performance IQ, 21–65 yr old common neurotics vs patients with neurotic excoriations, 12922
viloxazine vs doxepin, therapeutic effects, depressive neurotics, 8595
Neurosurgery [See Also Decerebration, Decortication (Brain), Hemispherectomy, Psychosurgery, Sympathectomy, Vagotomy]
commissurotomy & practice, performance of unimanual vs bimanual sorting tasks requiring same vs different vs opposite simultaneous decisions by left & right hemispheres, patients, 8319
commissurotomy & subvocal number assignment, psychophysical scaling of lateralized tactile & visual stimuli, right handed male patients, 8331
diagnosis & neurosurgical intervention, depression & memory deterioration & personality decomposition, male in mid 50's, 10733
dichotic presentation of verbal commands, right hemisphere understanding of verbs & manual responses, Ss with complete forebrain commissurotomy, 8328
hemispheric asymmetries in color naming & matching & memory, 28 & 31 & 48 & 61 yr old split brain patients, 13126
hypnosis, reduction of left hand tactile anomia, 28 yr old corpus callosotomy patient, 13361
stimulus onset asynchrony, temporal order judgments for pitch sequences, temporal lobectomy patients, 8373
surgical section of infraorbital nerve, survival & growth & suckling & ingestive behaviors, 17 vs 12 vs 7 vs 1 day old rats, implications for role of tactile processes, 12332
Neurotic Depressive Reaction
category of neurosis including anxiety & depression & hysteria, estimations of task oriented time, neurotics, 3773
erythrocyte catechol-O-methyltransferase activity, endogenous vs neurotic depressed vs manic vs normal patients, 1423
group vs individual cognitive therapy with vs without antidepression medication, neurotic depressive patients, 1670
hospital program, treatment of neurotic depression, 6487
phosphate transport & adenosine triphosphate metabolism in red cells, 22–62 yr olds with bipolar & unipolar & neurotic depression, 10529
psychiatric & biographical characteristics, hysterical neurotic vs depressive neurotic patients, 3818
psychotic vs neurotic depressives, criticism of comments by M. Roth et al & reply to M. Ni Bhrolcháin's criticism, 12986
salivation & sleep disturbance, neurotic vs endogenous unipolar depressed patients, 10451
Neuroticism
ABO blood type, neuroticism, 18–65 yr olds, Greece, 1474
acquiescence in extraversion & neuroticism & authoritarianism questionnaires, 153
antisocial behavior & criminal propensity & extraversion & neuroticism & psychoticism & lie scale scores, 13–15 yr old well vs badly behaved vs delinquent males, 13046
anxiety & neuroticism & sex & distributed vs massed practice & trials, digit-symbol coding task performance, college students, 466
development of multiple criterion screen for identification of psychiatric disorders, secondary students, 2190
dogmatism & extraversion & neuroticism, high school students, 7864
environmental vs personality factors, responses to neuroticism inventory, male 15–60 yr olds, 2419
extraversion & neuroticism, choice & avoidance of social situations, college students, 12851
extraversion & neuroticism & achievement need, job mobility, textile mill workers, 2267
extraversion & neuroticism & muscle tonus & pulse frequency, continuous performance task, 20–26 yr old male endurance athletes, 5283
factor analysis, measures of anxiety & neuroticism & psychoticism & intelligence & academic achievement, male postgraduate students, 6783
frequency of self reference & physiological measures & neuroticism & extraversion, degree of proneness toward cardiovascular disorders, Type A & Type B male college students, 8347
head injury & pretraumatic neuroticism, posttraumatic psychiatric disturbance, 16–55 yr olds, 3-mo followup, 12918
impulsiveness & venturesomeness & empathy & psychoticism & extraversion & neuroticism & social desirability, 17–21 yr old male delinquents, 13025
intermittent white noise vs silence, recall from semantic memory, neurotic vs stable high school & college students, 5469
level of anxiety & neuroticism & extraversion & motivation, subjective memory scores, 11973
marginal orientation & extraversion & neuroticism, college students, 12896
neuroticism & personality traits measured by 16PF, premenstrual symptoms, volunteers vs nonvolunteers with mean age of 25 yrs, 10738
neuroticism & self esteem & sex & parental characteristics & extraversion & locus of control, vulnerability to depression, postgraduate students, 8077
neuroticism & social desirability, anticipations & attributions affecting self disclosure, college students, 5876
personality tests as basis for personality impression, job applicants, Netherlands, 2411
personality type & aircraft noise intensity & accompanying illumination intensity, annoyance judgments, 19–50 yr olds, 4600
personality type & aircraft noise levels & accompanying illumination, annoyance responses, 22–49 yr olds, 4599
psychological correlates of cardiovascular disorder diagnosis, male vs female 25–68 yr olds, 13154
psychoticism & neuroticism, covariation patterns of 2-flash threshold & autonomic arousal at low range of arousal, male college students, 5292
rational beliefs & extraversion & neuroticism, college students, 12874
relationship between P. Kline's & E. Howarth's scales, assessment of anality/psychoticism & oral optimism/extraversion & oral pessimism/neuroticism, college students, 11654
RT & steadiness & neuroticism, 22–30 yr olds, 8068
self mutilation & personality disorders, nonpsychotic self mutilating patients, 6049
sociocultural deprivation & neuroticism, deprived vs advantaged 17–20 yr old males, 7904
validity of Draw-A-Tree test, measure of extroversion vs neuroticism, college students, 9361
New Guinea
cross cultural differences, beliefs about out of body experiences, Papua New Guinea, 6929
current trends & past history & future of psychiatry, Papua New Guinea, 10759
perceived value similarity & commonality, social interactions, indigenous vs Australian high school students, Papua New Guinea, 5613
schooling, classification performance, 7–14 yr old Melpa, New Guinea, 8923
schooling vs age vs sex vs language-culture, number vs length vs quantity vs area conservation, 3rd–6th graders, Papua New Guinea, 3385

sociocultural & economic & pharmacologic aspects & psychiatric implications & role in oral carcinoma, betel chewing, Papua New Guinea, 1104
value systems & perceptions of others' values, 16–20 yr olds, Australia vs Papua New Guinea, 3495
New Zealand
analysis of self reported alcohol consumption, New Zealand, 10302
attitudes toward alcohol & drinking, survey respondents, New Zealand, 1203
citation statistics, university psychologists, New Zealand, 11115
cluster analysis, political & social attitudes, New Zealand, 9440
comparison of level of psychological functioning, cross cultural test of personality integration hypothesis, immigrant vs indigenous Polynesian vs immigrant vs indigenous European male supervisors, New Zealand, 5875
development of social skills unit in university setting, referral services & research & training of professionals, New Zealand, 2192
incidence of color blindness, Cook Island males, New Zealand, implications for genetic factors, 1575
increase in left handedness in high socioeconomic stratum, 1880–1969, Australia & New Zealand vs US, 7439
intra- vs interindividual conflict condition & spatial transformation tasks, performance, Pakeha vs Pacific Island children, New Zealand, 3435
medicine & education & parent advocacy & legislation, mental retardation, New Zealand, literature review, 8271
perceived contributions of industrial/organizational psychologists to human resources management, personnel executives in US vs New Zealand vs Israel, 4545
residential mobility, interpersonal relations, adolescents, New Zealand, 1073
social play & games, 10–11 yr olds, New Zealand, 1092
survey of employment & educational history, continuing education involvement, members of New Zealand Psychological Society, 11074
Visual Sequential Memory subtest of Illinois Test of Psycholinguistic Abilities, applicability across ages & nationalities, 2–26 yr olds, New Zealand, 9346
Newborn Infants [See Neonates]
Newsletters (Professional) [See Scientific Communication]
Newspapers
expectations of outcome, attributions of athletic competition successes & failures in newspaper accounts, 3644
political viewpoint of newspaper read for 2 yrs, cognitive complexity of judgment of role labels, male college students, West Germany, 414
Q methodology in newspaper readership studies, alternative to traditional demographic research, 4739
Nialamide
atropine & reserpine & nialamide, neocortical low voltage fast activity during immobility & tremor & face-washing vs walking & struggling & postural changes & head movement, male rats, 7704
dopamine vs noradrenaline vs 5-hydroxytryptamine injections into accumbens & caudate-putamen nuclei, exploratory & locomotor & stereotyped behavior, nialamide-pretreated male rats, 12385
oxotremorine & alfa-methyl-para-tyrosine methylester & nialamide, retention & dopamine & norepinephrine levels in brain, male mice, 5379
Nicotine
cigarette smoking as form of drug dependence, 12735
cycloheximide with vs without nicotine, retention of passive avoidance task, mice, implications for memory storage, 9965
discriminative stimulus properties of levonicotine vs dextronicotine, male Sprague-Dawley rats, 907
ethanol & tobacco, auditory vigilance performance, 18–30 yr old male smokers & drinkers, 933
influence of availability of low nicotine cigarettes on smoking, teenage females, 10304
introversion & self reported reasons for & times of urge & role of tranquilizing properties, smoking, college students, 1202
methodological criticism of cigarette assays revealing reduction of tar & nicotine yields, 4708
nicotine, spontaneous motor activity & nicotine concentrations in brain & liver, male vs female & C57 vs C3H vs DBA strains of mice, 9936
nicotine chewing gum, smoking cessation, volunteers who wanted to stop smoking, 11050
nicotine & coffee, cigarette smoking, college students, 10303
nicotine & extraversion, skin conductance & EMG & heart rate & self reported responses to emotional stimuli, habitual cigarette smokers, 7644
nicotine fading & self monitoring, cigarette consumption & abstinence, smokers, 30-mo followup of study by R. M. Foxx & R. A. Brown, 11047
nicotine injection vs passive tobacco smoke inhalation, sucrose taste aversion conditioning, mice, 5101
progressive reductions in tar & nicotine content of cigarettes, carbon monoxide & saliva thiocyanate levels & smoking rate, Ss in smoking treatment program, 6531
temporal patterns in smoking rate, mouth level nicotine exposure, 18–48 yr olds, 1207
tobacco alkaloid anabaseine identified as poison gland secretion which functions as attractant, ants, 12258
tobacco smoke exposure during gestation & nicotine, fertility & maternal care & tissue nicotine levels & liver weight & offspring survival & activity, female mice bred for high vs low open field activity, 9825
Nictitating Membrane
behavioral vs neural responses, noise threshold perception, rabbits, 12041
classical conditioning, neuronal responses recorded from limbic system brain structures, rabbits, 2967
conditioned inhibition of nictitating membrane response, decorticate rabbits, 9895
conditioned inhibition training, subsequent nictitating membrane UCR amplitude in presence of reinforced CS vs conditioned inhibitor, rabbits, 557
dorsal hippocampectomy vs partial neodecortication, differential conditioning of nictitating membrane response, rabbits, 9880
electrical brain stimulation as UCS, classical conditioning of nictitating membrane response, rabbits, 2866
electrical hippocampal stimulation, latent inhibition in classical conditioning of nictitating membrane response, rabbits, 827
electrical stimulation of hippocampus, conditioning & latent inhibition, rabbits, 3092
hippocampus, temporal processing of stimuli in conditioning, rabbits, literature review, 3006
interstimulus intervals of 48 to 125 seconds, nictitating membrane conditioning, rabbits, 605
mesencephalic lesions, conditioned inhibition of nictitating membrane response, rabbits, 7593
neural unit activity in sensorimotor cortex during classical conditioning of nictitating membrane response, albino rabbits, 2981
prior exposure to paired vs unpaired tone CS with water UCS in classical paradigm, subsequent acquisition of aversive nictitating membrane CR, rabbits, 607
temporal distribution of increased unit activity in hippocampus, amplitude-time distribution of nictitating membrane response during classical conditioning, male rabbits, 697
trials per session & sessions per day of conditional inhibition training, nictitating membrane response, rabbits, 12011
Nightmares
description of night terror/nightmare syndrome & dream anxiety attacks, 5916
family contingency contracting, sleepwalking & sleeptalking & nightmares, 13 yr old male, 10826
modified systematic desensitization, recurring nightmare of actual trauma, 29 yr old male Vietnam veteran, 1821
psychodynamics & psychopathology, nightmare sufferers, 13105
traumatic dreams, psychosomatic patients, 8344
Nitrazepam
nitrazepam vs triazolam, 19–20 yr old male psychiatric insomniac inpatients, 13319
nitrazepam & flurazepan & triazolam, EEG & EMG & EOG evidence of residual effects following sleep induction & maintenance, healthy volunteers, 916
Nitrogen
aversive diet & food restriction, feed efficiency, male rats, 7572
Nocturnal Behavior (Animal) [See Animal Nocturnal Behavior]
Nocturnal Emission
type & frequency of sexual behavior, males from 5 generations, 5689
Nocturnal Teeth Grinding
continuous-access phencyclidine self-administration, physical dependence, rhesus monkeys, 7620
Noise (Sound) [See Auditory Stimulation]
Noise (Visual) [See Figure Ground Discrimination, Visual Stimulation]

Noise Effects
age & sex differences, classroom noise & intellectual performance, 1st vs 3rd vs 5th graders, 2119
aircraft noise, attentional strategies vs learned helplessness vs performance on cognitive task vs blood pressure, 3rd vs 4th graders, 1-yr longitudinal study, 12487
aircraft noise, performance on audiovisual task, psychology students, 2288
aircraft noise, psychological vs physiological disturbances, urban dwellers in areas of varying aircraft noise exposure, 13791
aircraft noise exposure, use of nonprescribed & psychotropic drugs & use of health care services, "very annoyed" vs "less annoyed" survey respondents over 16 yrs old, 11523
ambient noise level, attention distribution between tracking & detection task components, normal hearing Ss, replication of study by G. R. Hockey & critique of study of P. M. Forster & A. T. Grierson, 12002
annoyance & distraction level of power line noise, 18–38 yr olds, 9206
broadband noise & complex vibration, performance on mental counting task, 6880
compression & whitening of speech & multitalker background & moderate vs drastic compression ratio, speech intelligibility, normal hearing Ss, 409
continuous & time-varied broadband noise, color-word test performance & word reading RTs, college students, 2627
environmental white noise, anxiety level, college students, 13790
field dependence vs field independence & noise, reaction to simulated driving emergency, male college students, 4566
increased noise levels by supersonic aircraft, annoyance levels & time estimations, airport area residents, 2287
intermittent white noise vs silence, recall from semantic memory, neurotic vs stable high school & college students, 5469
loudness & annoyance levels for summation of noises, college students, 4591
loud noise, proficiency in dominant vs subordinate language, bilinguals, 946
measurement of occupational noise-induced hearing loss, 13123
motivation & noise intensity & tobacco smoke exposure, annoyance response during task performance, 18–29 yr old nonsmokers, 2813
nature of task, degree & type of noise effect, office workers, 9222
noise, human behavior, literature review, 3073
noise & dental conditions, speech disruption, college students, 4959
noise effects, divided attention & performance on dual tracking & signal detection task, answer to criticism reply by P. M. Forster, 12004
noise level, attention distribution & performance on dual tracking & signal detection task, reply to criticism of L. R. Hartley, 12001
noise & palatal dental appliance, vocal intensity & articulation, 5 yr olds, 5491
noise & social & spatial density, task performance, implications for cognitive control of stress, 1221
noise stress & morphine, conditioned preference response, rats, 583
noise vs silence, attention on oral vs written tasks, introverted vs extraverted college students, 5083
nonverbal cues & sex & noise, helping behavior, pedestrians & college students, 12763
overall noisiness & background noise level, long term vs instantaneous judgment of noise & noisiness, 20–40 yr old females, 2295
personality, noise tolerance & performance, literature review, 5872
personality type & aircraft noise intensity & accompanying illumination intensity, annoyance judgments, 19–50 yr olds, 4600
personality type & aircraft noise levels & accompanying illumination, annoyance responses, 22–49 yr olds, 4599
septal forebrain lesions, REM sleep under noisy vs quiet conditions, rats, 7603
taped radar control room noise, ability to sustain attention to complex monitoring task, males vs females, 2824
theory, effect of noise on performance, answer to criticism reply of E. C. Poulton, 12003
theory, experimental effects of noise on performance, reply to critique of L. R. Hartley, 12007
traffic noise & cognition of anxiety vs relaxation training, ability to relax, 20–22 yr olds, 12275
traffic noise & neighborhood satisfaction & anxiety & concern about accidents, individual differences in annoyance response to traffic noise & health, survey respondents, 11518
white noise emitted during photopic vs scotopic period, carbon dioxide output, 4 vs 12 mo old male rats, 9862

Noise Levels (Work Areas)
age & sex differences, classroom noise & intellectual performance, 1st vs 3rd vs 5th graders, 2119
nature of task, degree & type of noise effect, office workers, 9222
self recording vs microcompressor audiometer, auditory threshold testing, industrial workers, 2364
Nomenclature (Psychological) [See Psychological Terminology]
Noncommissioned Officers
correlation between assessment center ratings & subsequent field performance, US Army officers, 4523
US Army Infantry School Assessment Center ratings, prediction of field leadership performance, officers & noncommissioned officers, 6841
Nonconformity (Personality)
acceptance of cultural diversity in designing programs for changing behavior, counselors of emotionally disturbed children, 6776
conformity of painting evaluation to standard judgment, title recall ratio as index of inner tension level, college students, 12890
correlation between Barron's Ego Strength Scale & Smith's Non-Conformity Scale, female vs male college students, 2500
Nondirected Discussion Method
lecture vs small group discussion vs experiential task & videotapes, teaching family assessment, medical students, 8802
Nondirective Therapy [See Client Centered Therapy]
Nonlinear Regression
model-free regression vs Rasch model evaluation of equating & scaling, estimation of differential ability-induced test bias on Metropolitan Achievement Tests, 7004
nonlinear principal components analysis, quadratic function of behavioral data, 9447
test for asymmetric relationships between 2 reciprocally related variables, 259
Nonmetallic Elements [See Chloride Ions, Nitrogen, Oxygen]
Nonparametric Statistical Tests [See Also Chi Square Test, Wilcoxon Sign Rank Test]
BASIC program, nonparametric post hoc comparisons, 11567
limitations and appropriateness of nonparametric statistics, 4860
nonparametrical testing of significance of stanine correlations, 11709
nonparametric test of dispersion with paired replicates data, assessment of treatment effects in psychiatric populations, 279
random introduction & repeated alternation of treatments, overcoming obstacles for use of randomization tests in single-S experiments, reply to criticisms of A. E. Kazdin, 2570
randomization tests in single-S experiments, restrictions to proposals of E. S. Edgington, 2580
time homogeneity of items as defined by multivariate axial symmetry & nonparametric test for J-item homogeneity, 7013
validity of randomization tests for single-S experiments, 2569
Nonprofessional Personnel [See Paraprofessional Personnel]
Nonprofit Organizations
nonprofit organization of parents & health care personnel for needs of hospitalized children & parents, 11009
Nonprojective Personality Measures [See Also Bannister Repertory Grid, Barrett Lennard Relationship Invent, Barron Welsh Art Scale, California Psychological Inventory, Childrens Manifest Anxiety Scale, Edwards Personal Preference Schedule, Embedded Figures Testing, Eysenck Personality Inventory, High Sch Personality Questionnaire, Learys Interpersonal Check List, Marlowe Crowne Soc Desirabil Scale, Memory for Designs Test, Minn Multiphasic Personality Inven, Personal Orientation Inventory, Repression Sensitization Scale, Rod and Frame Test, Rokeach Dogmatism Scale, Rotter Intern Extern Locus Cont Scal, Sixteen Personality Factors Question, State Trait Anxiety Inventory, Taylor Manifest Anxiety Scale]
administration & scoring procedures & normative data, Michill Adjective Rating Scale, high school & college students & obese adults, 9401
California Psychological Inventory & Opinion Scale, prediction of success in counselor education Master's degree program, graduate students, 4450
collapsed scoring methodology, effects of varied response options on reliability of personality & attitude scales, 7087
concurrent validation of Kahn Test of Symbol Arrangement & EPPS, personality correlates of test scores, male vs female college students, 223
development & reliability of multidimensional individual difference measure of empathy, 4780

factorial structure of Mach V scale, proclivities for interpersonal manipulation & deceit, White vs Mexican American college students, 11669
personality questionnaire scale scores, job applicants, implications for effect of testing circumstances, 2229
relationship between P. Kline's & E. Howarth's scales, assessment of anality/psychoticism & oral optimism/extraversion & oral pessimism/neuroticism, college students, 11654
sex role categorization agreement between Bem Sex Role Inventory & Personality Attributes Questionnaire, college students, 9338
validity of Personal Attribute Inventory in measurement of self concept & personality profiles, female vs male college students, 2483
validity & reliability of Irrational Beliefs Test, college students, 11667
validity & reliability of Levenson Locus of Control Scales, male vs female college students, 4806
Nonrapid Eye Movement Sleep [See NREM Sleep]
NonREM Sleep [See NREM Sleep]
Nonsense Syllable Learning
number of passive spectators, speed of nonsense syllable learning, female college students, 1271
simultaneous verbal & spatial visual task administration, dichotic nonsense syllable test of perceptual asymmetry, college students, 5246
use of synthesized vs rhythmic sound vs nonsense syllables, paired associate learning, institutionalized patients, 8713
Nonstandard English
Black vs standard American English background, phonological differences in consonantal development, Black vs White 4–5 yr olds, implications for articulation testing, 10101
Nonverbal Communication [See Also Body Language, Eye Contact, Facial Expressions, Gestures, Smiles]
acquisition & use of Blissymbols as means of communication, severely mentally retarded nonverbal 15 vs 18 yr olds, 8742
act of "looking" as self expression & psychoanalytic phenomenon & means of knowledge acquisition, 2–6 yr olds observed in nursery school, 7737
athletes' nonverbal expressiveness, attributions for athletic effort & performance, volunteer Ss, 5823
city size & sidewalk density, eye contact & smiling & verbal responses to strangers, pedestrians, 1217
classification of nonverbal greetings in face-to-face interactions, college students, 10322
criteria for adoption of augmentative communication system, speech disordered patients, 4113
crowding with physical contact vs uncrowded environment, physiological & cognitive & nonverbal responses, male college students, 10318
development of positive body image & communicative qualities, 1320
distinction among mechanisms used for joint visual attention, 6–18 mo olds & their mothers, 5480
emotional words, nonverbal vs verbal anxiety responses & RTs & GSRs, repressor vs sensitizer Ss, 8084
face-to-face vs TV-mediated interviews & conversation topic intimacy level, looking & smiling behaviors, male college students, 5747
faculty ratings & nonverbal communications test scores, prediction of occupational success, graduate students in psychology & counseling, 13493
family resemblance in accuracy of decoding nonverbal cues & recognition of audio vs visual cue discrepancy vs superior influence of visual cues, 9–15 yr old sibling pairs, 943
interactive TV laboratory, study of verbal & nonverbal interpersonal behavior, 1248
interpersonal space as model for nonverbal analysis of interpersonal relations, 12759
interrater reliability, observations of social & communication behavior, Os of developmental delayed vs normal 2.8–7.8 yr olds, 11617
level of nonverbal communication & mode of presentation, ratings of job interviewee behavior, female college students, implications for job applicant counseling, 9172
low social competence & high anxiety in social interaction, sensitivity to nonverbal cues, female college students, 1223
marital adjustment & sex, quality of nonverbal communication, spouses, 5650
Non-Speech Language Initiation Program, number & color matching & sentence imitation & command-following & receptive & expressive vocabulary & spontaneous speech, nonverbal children living in institutions vs community, 8608
nonverbal abilities & behaviors & verbal-nonverbal congruence, judgments of counseling outcome, psychology graduate student counseling dyads, 1935
nonverbal behavior during truth-telling vs lying, college students, 3230
nonverbal communication, teaching process, literature review, 8950
nonverbal communication & ESP & other psi phenomena, 11535
nonverbal cues & sex & noise, helping behavior, pedestrians & college students, 12763
nonverbal immediacy level of accomplice, increase in S's heart rate & nonverbal adjustment, female college students, testing of model of M. L. Patterson, 12758
nonverbal model for coping behavior, depressed person, 3765
nonverbal sensitivity to facial cues vs unknown others vs dating partner, exclusively dating couples, 1241
nonverbal teaching roles & moves, teachers, 4304
observational rating grid, assessment of verbal & nonverbal group interaction, 20–25 yr olds, 5729
observation of nonverbal intimacy in airport arrival & departure, traveler dyads, 1228
pantomimic expression & recognition deficits, aphasic vs right hemisphere damaged patients with mean ages of 63 & 64.2 yrs, replication of study by R. J. Duffy et al, 13093
paraverbal therapy with another child patient as "assistant therapist", elective mutism & acting out, 9–13 yr old patients, 6245
patients' nonverbal behavior & social vs work-related difficulties, therapeutic speech & judgment reactions, psychology students, 3998
physical presence vs visual communication, content & style of conversation, sighted vs blind Ss, 13147
Profile of Nonverbal Sensitivity vs measure of nonverbal coding ability vs Affective Sensitivity Scale, measurement of nonverbal decoding ability, college students & mental health professionals, 7007
race & belief & dialect similarity, interpersonal attitudes & behavior, White female college students, 5713
ratings of vocal verbal & nonverbal communication discrepancy, schizophrenic vs non-schizophrenic families, 1432
sequential analysis of interactional patterns, distressed vs nondistressed marital partners, 10247
sex differences, spontaneous vs enacted encoding & decoding of nonverbal emotional messages, college students, 1262
sex differences & language, literature review, 7724
sex & iris pigmentation, response to pupillary attributions of happy & angry faces, male vs female college students, 3667
spatial arrangement considerations, construction of communication board, physically handicapped, 6964
symbolic communication with semantography, handicapped children, applications to special education, 4396
travelers' demographic characteristics & verbal & nonverbal behavior, deception judgments, US Custom Service inspectors vs laymen, 8046
use of behavioral cues in judges' perceptions of dominance in dyadic conversations, college students, 10365
use of social interaction & nonverbal communication, facilitation of social competence in education & therapy, 8818
verbal conditioning & psychotherapy, 3986
verbal encoding, retrieval of complex picture characteristics, college students, 2771
verbal vs nonverbal communication with strangers vs acquaintances, Down's syndrome 17–37 yr olds, 10602
Nonverbal Learning
act of "looking" as self expression & psychoanalytic phenomenon & means of knowledge acquisition, 2–6 yr olds observed in nursery school, 7737
errorless teaching method, matching to sample performance, 25 yr old mentally retarded mute male, 6082
geometric analogies, information processing & individual differences, college students, 11721
Nonverbal Reinforcement
cognitive technique & aversive stimulus & positive nonverbal reinforcement, classroom thumb sucking, 4th grade female, 13682
Noradrenaline [See Norepinephrine]
Norepinephrine
adrenal corticoids, sensitivity of noradrenaline receptor-coupled adenylate cyclase in brain, rats, 3122

afferent duodenal receptor signals, activation of hypothalamic noradrenergic inhibitory neurons to control feeding upon satiation, 3024
age & fluphenazine & haloperidol & dextroamphetamine & norepinephrine & GABA & 6-hydroxydopamine & reserpine, spontaneous discharge of cerebellar Purkinje neurons, male rats, 7670
brain norepenephrine turnover & individual power drive, mastery of power-related vs neutral material, male college students, 7542
catecholamine measures, diagnosis & treatment of depressive disorders, 10436
cerebrospinal fluid noradrenaline & homovanillic acid & 5-hydroxyindole acetic acid & cyclic nucleotides, 22–45 yr old acute vs chronic schizophrenics, 8150
desipramine vs GABA vs norepinephrine injected into frontal neocortex vs hippocampus vs lateral geniculate body, learned helplessness, male rats, 9961
dextroamphetamine & apomorphine, flash-evoked afterdischarge as model of petit mal epilepsy, rats, 5385
dichlorvos, open field behavior & motor activity & correlation with regional brain levels of norepinephrine & dopamine & serotonin, male rats, 859
dopamine vs noradrenaline vs 5-hydroxytryptamine injections into accumbens & caudate-putamen nuclei, exploratory & locomotor & stereotyped behavior, nialamide-pretreated male rats, 12385
dorsal raphe noradrenergic input & 5,7-dihydroxytryptamine, innervation & identification of serotonin neurons, male rats, implications for serotonin cell activity during REM sleep, 9915
drug treatment of schizophrenics, cerebrospinal fluid norepinephrine elevation, schizophrenics, criticism of report by C. R. Lake et al & response by C. R. Lake et al, 6394
exposure to escapable shock with subsequent inescapable shock, escape behavior & norepinephrine depletion in hypothalamus & hippocampus & cortex, male mice, 737
exposure to inescapable shock & clonidine & apomorphine prior to shock vs testing, escape deficits & mediation by dopamine & norepinephrine, male mice, 860
genetic selection for differences in behavioral reactivity, blood pressure & heart rate & plasma norepinephrine levels under resting conditions, reactive vs nonreactive rats, 7393
hydrocortisone, norepinephrine & serotonin & dopamine reuptake in hypothalamus, male rats, implications for clinical study of depression, 7669
hypothalamic noradrenaline, positive reinforcement in maze learning, male rats, 7627
injections of alpha-adrenergic agonists &/vs antagonists, REM & NREM sleep & drowsy & aroused waking, male cats, 900
intrathecal administration of serotonin & norepinephrine & dopamine & their agonists, acoustic startle reflex, male rats, 9913
lesions & dosage level of 6-hydroxydopamine in locus coeruleus with vs without desmethylimipramine, sexual behavior & catecholamine depletion & midbrain damage, male rats, 7556
lesions of medial prefrontal cortex using 6-hydroxydopamine alone & with desipramine pretreatment, spontaneous motor activity & dextroamphetamine induced stereotyped behaviors & norepinephrine & dopamine turnover, male rats, 834
lesions of noradrenergic projections to paraventricular nucleus of hypothalamus & noradrenergic stimulation, feeding behavior, male rats, 7567
limited access to water, increased hypothalamic norepinephrine metabolism, male rats, implications for control of thirst & water regulation, 12295
monotonous vigilance vs various undemanding vs self paced RT vs color-word conflict tasks vs non-engaging movie, adrenal & noradrenaline & cortisol excretion levels & distress & effort, 18–34 yr old college students, 9818
morning vs afternoon immobilization stress, plasma & adrenal corticosterone & brain epinephrine & norepinephrine & dopamine levels, male rats, 9864
neuroleptics, neuromelanin levels in substantia nigra & locus ceruleus, schizophrenics, 3790
neutral stimuli paired with footshock, 3-methoxy-4-hydroxyphenylglycol sulfate concentrations in response to neutral stimuli only, male rats, 2841
norepinephrine depletion produced by locus coeruleus lesions, cerebral oxidative metabolism, male rats, 9892
operant blood pressure conditioning, plasma catecholamine & renin levels & systolic & diastolic blood pressure & heart rate, male baboons, 9738
overview of brain chemistry & behavior, 5187
oxotremorine & alfa-methyl-para-tyrosine methylester & nialamide, retention & dopamine & norepinephrine levels in brain, male mice, 5379
pimozide, norepinephrine concentrations in cerebrospinal fluid, schizophrenics, 10941
pseudoconditioning vs classical conditioning vs avoidance without stimulus pairing vs 2-way avoidance, brain dopamine & noradrenaline levels, rats, 3053
serotonin & methysergide & noradrenaline, membrane mechanisms underlying modulatory effects on facial motoneurone excitability, rats, 5412
single & repeated neuroleptic dosages, noradrenaline & 3-methoxy-4-hydroxyphenylethyleneglycol & cyclic adenosine monophosphate in forebrain & spinal cord, male rats, 9910
time of day & footshock stress, plasma epinephrine & norepinephrine levels, male rats, 9872
time of posttraining phentolamine &/vs propranolol administration into amygdala, retention, rats, 9933
tranylcypromine isomers, norepinephrine-H^3 metabolism in rat brain , 3202
various indirectly acting sympathomimetic amines, stereotypy & norepinephrine uptake, male mice, 3221
ventral noradrenergic bundle lesions, food intake & body weight & running activity & body composition & insulin & growth hormones & hypothalamic norepinephrine concentrations & body length, male rats, 7592
weight & mood & dexamethasone suppression test results & norepinephrine metabolism, anorexia nervosa patients, 3908
6-hydroxydopamine & desmethylimipramine vs dextroamphetamine vs methylphenidate vs scopolamine, brain dopamine & norepinephrine levels & hyperactivity, newborn vs infant rats, 7678

Normal Distribution
equation for finding asymptotic relative efficiency of Wilcoxon rank-sum test & independent means t-test under mixtures of 2 distributions, 2561
Monte Carlo investigation, likelihood ratio test for numbers of components in normal distribution, 252
NGD FORTRAN IV program for fitting normal generated distribution, 111
psychometric precision of intelligence tests & myth of Gaussian curve, 4815

Normalization (Test) [See Test Standardization]
Norms (Statistical) [See Statistical Norms]
Norms (Test) [See Test Norms]

North America
perception & adjustments to earthquake hazard, residents of west coast of North America, 11517
return of migrants from North America back to European homelands, effects of cross cultural changes, literature review, 7914

Northern Ireland
clinical psychology community services, Great Britain & Northern Ireland, 8632
conservatism & general vs specific ethnocentrism, Protestant vs Catholic adolescents, Northern Ireland, 12655
religion & sex, value systems, 15 yr olds, Northern Ireland, 3503
religious beliefs & practices, adolescents, Northern Ireland, comments on J. Greer's study, 3511
religious beliefs & practices & moral judgments, adolescents, Northern Ireland, replication of 1968 study, 3496
sex differences, job involvement & attitudes toward women as managers, professional vs managerial vs nonmanagerial personnel, Northern Ireland, 6855

Nortriptyline [See Antidepressant Drugs]

Norway
development & trends in family therapy, Norway, 8473
diagnosis vs no diagnosis of mental disorder, nonpsychiatric disorders, Norway, 1358
environmental & occupational stress, neurotic & psychotic & other mental disorders, Norwegian islanders, 1426
historical overview of psychoanalysis in Norway, 4629
MMPI norms, male alcoholics, US vs Norway, 2498
perception of children in art & literature, Norway, 5443
relative fertility, female psychiatric 1st admissions, Norway, 8165
role of psychiatrist in crisis intervention & primary health service, northern Norway, 1897
sex & household size & education & demographic characteristics, allocation of time to leisure activities, heads-of-households, Norway vs United States, 12621

Norway Rats
decapitation &/vs immobilization stress, adaptation of peripheral neuroendocrine mechanisms of sympatho-adrenal system, Wistar-Kyoto vs Brown-Norway rat strains, 9845
immobilization stress, catecholamine & choline acetyltransferase responses, Wistar-Kyoto vs Brown-Norway rats, 9846
Nose [See Also Olfactory Mucosa]
mechanisms of ultrasonic emissions, Mongolian gerbils, 7518
microcomputer-controlled olfactometer, 4663
nasal cannulation for olfactory stimulation, rats, 4723
Nouns
analysis of lexical semantic relationships for nouns, 3–6 yr olds, 10087
bilateral presentation of nouns acquired early vs later in life, visual hemifield differences in naming, right handed adults, 311
bilateral presentation of print vs picturable nouns vs CVC nonwords vs line drawings, visual hemifield superiority in noun & word naming, adults, 7505
context, judgment of semantic stimuli, male vs female college students, 11913
encoding pattern of Serbo-Croatian nouns, performance on lexical decision task, college students, 7225
existence & acoustical frequencies of word boundaries between noun & adjective in French language, speakers & listeners, 7725
familiarity & concreteness of stimulus nouns, paired associate learning, college students, 9564
imbalance in use of gender of nouns & pronouns in term papers on sex role stereotyping, student teachers, 3234
lateral asymmetries, identification of concrete vs abstract "Kanji" nouns, college students, 7449
linguistic marking of anaphor & antecedent, sentence comprehension, college students, 9989
noun vs syntactic emphasis in language development, 1 yr old female, 1008
presentation context & age differences & cognitive complexity, evaluation of semantic attributes of nouns, 10–12 vs 14–15 vs 17–18 vs over 20 yr olds, 7840
ratings of randomly selected nouns for age of acquisition & imagery & concreteness & familiarity & ambiguity, college students, 5426
RT for noun to elicit mental image, measure of word imagery value, college students, 11571
Novel Stimuli [See Stimulus Novelty]
Novelty Seeking [See Sensation Seeking]
NREM Sleep
administration of sleep-promoting factor & delta sleep-inducing peptide, REM & NREM sleep, mice, 913
clonidine vs phentolamine following alpha-methylparatyrosine, sleep-waking cycle & REM & NREM sleep periods, cats, 901
EEG analysis, arousal & REM & NREM sleep, male rats, 63
injections of alpha-adrenergic agonists &/vs antagonists, REM & NREM sleep & drowsy & aroused waking, male cats, 900
linguistic organization of verbal reports of REM & NREM sleep, 19–25 yr old males, 2630
liquid food from weaning, circadian amounts & rhythms of slow wave & paradoxical sleep & tongue activity, C57Br mice, 12282
melatonin vs levopropranolol, sleep, male rats, 7674
ontogenesis of quiet sleep state & thermogenesis & thermoregulation, accompanying EEG activity, 48–79 day old Virginia opossums, 3033
pendulum techniques for paradoxical sleep deprivation, recovery patterns of slow wave & paradoxical sleep during dark vs light periods, male rats, 12312
sleep environment, sleep & dreams, college students, 5068
Nuclear Family
collective educational setting vs rural nuclear family, development of role taking & competitive & cooperative behavior, 6–8 yr olds, Hungary, 3422
family resemblance in serum uric acid level, biologically related nuclear family members, 7390
Nucleic Acids [See Adenosine, Cyclic Adenosine Monophosphate, Nucleotides]
Nucleotides [See Also Cyclic Adenosine Monophosphate]
cerebrospinal fluid noradrenaline & homovanillic acid & 5-hydroxyindole acetic acid & cyclic nucleotides, 22–45 yr old acute vs chronic schizophrenics, 8150
ethanol, cerebrospinal fluid levels of cyclic 3,5-adenosine & cyclic 3,5-guanosine monophosphate, 5413
pentylenetetrazol, behavior & EEG activity & cyclic adenosine monophosphate & cyclic guanosine monophosphate brain levels, female mice, 5365
Number Comprehension
computer controlled training program, number conservation development, mentally retarded 9–14 yr olds, 9016
hierarchically sequenced introductory mathematics curriculum, moderately & severely retarded children, 4402
number based sharing strategies, 3.5–6.5 yr olds, implications for preschool mathematics curriculum, 5485
numerical skills, 22 wk old infants, 7833
yes/no judgments vs manipulative tasks & counting ability, understanding of quantity, 2–5 yr olds, 3347
Number Systems
number representation problems preserving linear structure of semiorders, 2611
Numbers (Numerals)
acoustic characteristics of digit names, perceptual center for Dutch digits & comparison with English data of S. M. Marcus, college students & faculty members, 7199
affirmative thought pattern, prenumber conservation response by young children, 1024
age differences, association of absolute numbers with sensory magnitudes, 5 & 6 yr olds & college students, 5535
binary-to-octal digit recording, memory span at recall, 2800
configurality in multiple cue probability learning, college students, 11956
digit difficulty, serial subtraction test, college students, 2752
display module allowing electronic superimposition of digital data on televised pictures, 4661
hand checking system of external cueing, remediation of digit reversals, learning disabled 5–8 yr olds, 11275
memory set size & distance relationships between items & number of inferred "decision boundaries" needed to separate items, processing of digit vs unidimensional brightness stimuli, 477
same vs different stimulus pairing of dichotic digits & tones, performance & processing capacity & ear advantage, 16–60 yr old Ss, 408
texts containing meaningless numbers printed in letters vs repetitive numerals inserted between meaningful words, oral reading time & memory for phrasing & meaning, college students, 9557
verbal vs numerical information & number of alternatives & dimensions, cognitive processes & strategies in decision making, naive Ss, 4989
visual vs auditory presentation of consonants &/vs numbers & information load, short term memory, college students, 475
Numerical Ability [See Mathematical Ability]
Numerosity Perception
affirmative thought pattern, prenumber conservation response by young children, 1024
age differences, association of absolute numbers with sensory magnitudes, 5 & 6 yr olds & college students, 5535
numerical skills, 22 wk old infants, 7833
overestimation of elements in regular vs random pattern displays, college students, 11794
preschool learning, recognition of symmetrical arrangements, kindergartners, 1021
relative numerosity judgments, adult male squirrel monkeys, 7337
sets, judgment of "more", 3–4 yr olds, 10051
sex & socioeconomic class & symmetrically vs asymmetrically designed numerals, perceptual comprehension of numerals, kindergartners vs 1st graders, 990
smaller vs larger number of entities, discrimination, monkeys, 2878
stimulus intensity & onset asynchrony, perceptions of tone temporal order & number, college students, 11862
variation in visual angle, numerosity perception of red vs green lights, 7181
yes/no judgments vs manipulative tasks & counting ability, understanding of quantity, 2–5 yr olds, 3347
Nuns
personality traits & psychopathology, evangelical seminarians vs Catholic nuns vs male vs female college graduates, Colombia, 12857
Nurse Patient Interaction [See Therapeutic Processes]
Nursery School Students
age differences, separation anxiety & stranger anxiety, 6–54 mo olds, implications for most desirable age to begin nursery school, 2146
age differences, social participation in mixed vs single age groups, 3 & 4 yr olds, implications for preschool education, 11245
Black vs White testers, performance on perceptual organization task, 3.11–5.9 yr old Blacks in federally funded preschool programs, implications for preschool screening of low-income Black children, 11373

classroom verbal communication & social interaction, 4–5 yr old normal vs handicapped preschool students, 8933
crisis intervention program in preschool education, behavior & intellectual development following divorce, single-parent 3.5–5 yr olds, 5448
days/week of preschool attendance & preschool group & age & sex, play behavior, preschoolers, 10-wk longitudinal study, 8948
direct vs indirect teacher behavior & student involvement, mathematical achievement, 4 & 5 yr olds, 6650
ethnolinguistic status & 2nd-language fluency, social interaction & friendship choices, 3–5 yr old Anglophones vs Francophones attending preschools operating in 1st vs 2nd language, Canada, 8932
factorial validity of test item classification on Boehm Test of Basic Concepts, Mexican American & Anglo preschoolers & kindergartners, 9112
free-play behavior, socially maladjusted vs normal preschoolers, 8934
friendship choice & racial attitudes, 4–10 yr old White vs non-White primary school students, 11240
full vs half day school attendance, peer interaction & motor activity, 2.5–4.5 yr olds, 11257
inservice training, ability to identify creatively gifted children, female day care workers, 4278
parent & teacher ratings of child sociability & school absenteeism, nursery school teachers, 11250
play behavior in separate vs combined groups, minimally handicapped &/vs nonhandicapped 2.5–4 yr olds, 11282
single vs multiple retelling & picture drawing & picture review as comprehension interventions, story recall, children from day care centers & preschools, 13566
stimulus variation between positive vs negative examples, formation of misconceptions, 4–6 yr olds & 2nd–5th graders, 13556
story hearing & retelling, alphabet learning, preschoolers, 4297
teacher guidelines for program planning, logic development in young children, 4290
teaching English as 2nd language through total development program & maintenance of 1st language, preschoolers, 2091
therapeutic preschool, change in problem behaviors, anxious & hostile-aggressive 3–6 yr olds, 8954
token reinforcement program, command following & out-of-seat behavior, emotionally disturbed 4 yr olds of average intelligence, 13657
understanding & management of aggression & hostility, infants & preschool age children, 4354
vestibular stimulation & characteristics of explosiveness & irritability & social interaction, classroom behavior, 4 & 5 yr old hyperactive males, 4390

Nursery Schools
enrollment in nursery school vs home care, peer vs parent-child interaction, 3 yr olds, 3451
nursery school activities, development, pre-school children, Poland, 6660
nursery school vs parent-run nurseries, preschool socialization & goals & attitudes & behavior of nurses vs parents, literature review, 3444
staff linguistic style & verbal control techniques, day nursery staff & children with mean ages of 1.8 vs 2.7 yrs, 12441
telephone information line for preschool & nursery services, 10995

Nurses [See Also Psychiatric Nurses]
analysis of multivariate structure of design evaluation, conceptualizations of hospital wards, nurses, 246
assertiveness & locus of control, female nurses of mean age 37.6 yrs, 13501
assessment of deliberate self poisoning patients, doctors vs nurses, 6549
congruency & consistency & differentiation constructs by J. L. Holland as predictors of job satisfaction within nursing occupation, 22–60 yr old registered nurses, 4232
construction & reliability & validity, attitude measure regarding work vs street attire, nurses, 9420
correlates of job satisfaction, pediatric nurse practitioners, 4210
cross cultural differences, locus of control, African vs European vs Indian nurses, 10225
development of composite scale, identification of subjective job difficulty dimensions, medical & surgical staff nurses, 11659
employee performance evaluation interview, process characteristics & outcome, nurses, 13467
evaluation of effective performance interviews, nursing supervisors & subordinates, 6838
factor structure & internal consistency & reliability & validity of Manifest Needs Questionnaire, registered nurses, 2451
fixed vs rotating work schedules, mental health & job satisfaction & organizational commitment, nurses & industrial workers, 13769
high vs low status, response to merger of groups, State Registered vs State Enrolled nurses, 6602
intent to stay & opportunity & general training & job satisfaction, causal model of turnover, nurses, 13500
level of job stress, affiliation & autonomy need satisfaction, nurses, 4235
model for hospital ward design evaluation, working environment satisfaction, nurses, 6573
moderators & correlates of role stress, hospital nurses & respiratory therapists, 4252
nursery school vs parent-run nurseries, preschool socialization & goals & attitudes & behavior of nurses vs parents, literature review, 3444
nursing subunit technology, instability & uncertainty & variability, nurses, replication of study by P. Overton et al, 11102
role conflict, physiological & affective & performance variables, 20–48 yr old female nurses in simulated hospital experience, 2030
role conflict & ambiguity, employee ability & tolerance for conflict & supervisory support & group cohesion, nurses & respiratory therapists, 2038
training & utilization in behavior therapy clinic, nurse therapists, 4062
validity & reliability of Psychogeriatric Dependency Scales, assessment of elderly mentally ill by nurses, 4842
verbal helping responses, counselors vs nurses vs salespersons vs teachers, 6536
workload & cost analysis, outpatient mental health program, nurses, 6601

Nursing
behavioral analysis & intervention in nursing care, 1941
congruency & consistency & differentiation constructs by J. L. Holland as predictors of job satisfaction within nursing occupation, 22–60 yr old registered nurses, 4232
high vs low status, response to merger of groups, State Registered vs State Enrolled nurses, 6602
nursing subunit technology, instability & uncertainty & variability, nurses, replication of study by P. Overton et al, 11102

Nursing Education
training & utilization in behavior therapy clinic, nurse therapists, 4062

Nursing Homes
activities & announcements & verbal & nonverbal prompts & positive reinforcement, participation in daily activities program, 19–88 yr old residents of intermediate care facility, 13416
development & application of recreational board games, remediation of sensory deprivation & social isolation, nursing home residents, 8685
effectiveness of training handbook, measurement of activity by elderly residents, researchers & health & social services staff, 65
role of psychology & psychologists, geriatric institutions, 1953
social implications of deinstitutionalization, 8678
social-recreational programs for nursing home care, psychogeriatric patients, 4163
social reinforcement of activity vs problem solving training, depression, nursing home patients over 60 yrs of age, 1789
staff response to dependent vs independent self care skills, 52–97 yr old nursing home residents, 11001
type of living accommodation, environmental perception & interaction preferences regarding privacy & solidarity, 60–89 yr old nursing home residents, 8691

Nursing Students
concept of death, nursing vs other students, 4247
group stress management program, trait anxiety, female nursing students, 1774
medical diagnosis & physical attractiveness, reactions to patients who complain of pain, nursing students, 11083
performance of East-West Questionnaire indicating Eastern vs Western belief system orientation, Korean medical & nursing students vs US college students, 12648
self report on honesty, response bias & self esteem measurement, nursing students, 13495
social adjustment & responsibility & self control & achievement via conformance, nursing students, 11111
social desirability vs defensiveness, self-report psychiatric inventory scores, student nurses, 13499

Nurturance [See Animal Maternal Behavior, Parent Child Relations]

Nutrition
acceptance of jowar in food preparation, college students, India, 5318
addition of sucrose octaacetate to 1 or both protein food sources, protein vs carbohydrate selection & nutrient balance & total calorie intake, female rats, 798
behavioral counseling vs nutrition education, weight loss & maintenance & diet & exercise, overweight females, 7-mo followup, 8394
diet & emotional state & age & disease, medical hospital patients over 14 yrs old, 6160
effect of dietary substances on mental function, clinical psychiatric implications, 5305
fasting therapy, psychosomatic patients, 1689
gastric nutrient content vs volume of nutrient content required for satiation, male rats, 7559
metabolic & nutritional aspects, minimal brain dysfunction & attention deficits & learning & language disorders & hyperactivity, 8121
nutrition, EEG & hormones during sleep, normal Ss, literature review, 677
nutritional assessment, handicapped 2–19 yr olds, 8093
previous background feeding & color vs taste vs nutritional value of foods, food preferences, bank voles, 12060
resistance to orthomolecular medicine, medical establishment, 11079
sugar in diet, judgment & learning ability & hyperactivity, children, implications for school nutrition & curriculum & teacher education, 11133
vegetable vs meat breakfasts, self ratings of positive emotionality, male college students, Canada, 3057
Nutritional Deficiencies [See Also Protein Deficiency Disorders, Vitamin Deficiency Disorders]
activity & T-maze performances, iron deficient rats, 816
age at menarche, females of Gujar caste in Punjab, India, 1122
age at treatment inception & nutritional enrichment & sensorimotor & cognitive stimulation, psychomotor development, severely malnourished 3.3–13.3 mo olds, 6493
age & dietary choline manipulations, retention of passive avoidance, 3–23 mo old & older mice, 863
ambient cold vs normal temperatures, diurnal activity level, male rats on low-iron diet, 5311
early food intake restriction, perception of sensory cues in homing to nest, rat pups, 9840
early malnutrition & electrical stimulation of fornix, hippocampal seizure threshold & potassium content, rats, 804
enriched vs impoverished environment, brain & body weight, previously undernourished rats, 9856
gastric nutrient content vs volume of nutrient content required for satiation, male rats, 7559
infantile malnutrition, incidental learning & attention & curiosity, monkeys, 5307
intergenerational vs postnatal malnutrition, growth & home-orienting behavior & survival rates, rat pups, 9842
malnutrition vs prematurity vs neural tube defects, educational aptitude & achievement, 10–14 yr olds, implications for special education personnel preparation, 8846
manganese/zinc deficiencies & streptomycin, vestibular systems & hiding & withdrawal behavior, rhesus monkeys, 5319
metabolic & nutritional aspects, minimal brain dysfunction & attention deficits & learning & language disorders & hyperactivity, 8121
method for producing infantile malnutrition, maternal behavior, female rats, 9834
nutritional assessment, handicapped 2–19 yr olds, 8093
operant testing of food motivation, rehabilitated malnourished adult Long-Evans rats, learning implications, 572
potassium deficiency, preference for potassium deficient vs sufficient fluids, male mice, 3082
protein & environmental deprivation during 1st 7 wks, growth & hormonal changes & brain structure & sex-associated activity & spatial skills, rats, implications for biosocial theory, 783
protein restricted diet during gestation & lactation & maternal removal-replacement, increased emotional responsiveness & decreased mother-kitten social interactions & attachment behavior, cats, 789
thiamine deficient diet & associations of subsequent chocolate thiamine-enriched diet with illness recovery, avoidance of chocolate diet following lithium chloride aversion, female rats, 12016
tryptophan-free diet, acoustic startle reflex, male rats, 5322
undernourishment in early life & DRL, witholding of barpressing responses in operant conditioning, adult rats, 9861
Nystagmus
ambient air pressure & oxygenation, alcohol induced nystagmus, rabbits, 3077
arousal inducement through behavioral task & dextroamphetamine, gains in horizontal vestibullo-ocular reflex, male rhesus monkeys, 12358
direction of vestibular & optokinetic stimuli, visibility of head-fixed display & visual suppression of vestibulocular reflex, male Ss, 4893
earth- vs head-fixed vs darkness visual target conditions, vestibulo-ocular reflex induced by voluntary head movement at various frequencies, 19–56 yr old males, 4921
mental task instructions, optokinetic nystagmus to left & right, right handed male college students, 388
mental tasks, optokinetic nystagmus, implications for development of more sensitive clinical testing for origins & hemianopia, 8363
response latency & duration & amplitude & nystagmic beat frequency & speed of slow component, adults with calorically induced nystagmus, implications for caloric interstimulus & vestibular response fatigue, 3932
time courses of horizontal saccades & quick phases of vestibular nystagmus, cats, 7511
velocities of peripheral optokinetic stimuli & interaction with vestibular stimuli, suppression of vestibulo-ocular reflex, US Navy trainees, 2649
visual deprivation & surgical section of optic chiasm, abolition of optokinetic nystagmus, cats, 5308
voluntary saccades vs nystagmus, assessment of strength between retinal image subjective stabilization & saccadic suppression, 4933
Obedience
characteristics & emphasis on obedience, speech patterns, working class families, Scandinavia, 7928
mass suicide, attributions regarding Guyana incident, laypersons, 8194
race & social distance, willingness to shock White vs Black S, White college students, 5734
security of attachment, child's obedience to mother & stranger & internal controls & maternal intervention, 21 mo olds & their mothers, 3433
viewing vs not viewing S. Milgram's obedience film, predictions of punishment level in obedience situation, college students, 1291
Obesity
age & free feeding vs caloric restriction, food-motivated behavior, male obese vs lean rats, 7423
anorexia nervosa & obesity & binge eating & bulimia & bulimarexia & compulsive eating, bibliography, 6145
behavioral counseling vs nutrition education, weight loss & maintenance & diet & exercise, overweight females, 7-mo followup, 8394
behavioral program with vs without spouse participation, weight loss & maintenance of loss, overweight females, 3- & 6- & 12-mo followups, 1813
behavioral weight control program, weight loss, 18–24 yr old residence hall students, posttreatment followup, 8495
behavioral weight management techniques, weight loss & changes in eating behavior & home environment, obese 16 yr old females, 6322
behavioral weight reduction program, obese psychiatric patients, 6366
behavior modification with vs without diethylpropion hydrochloride, weight loss, obese 22–69 yr olds, 1627
behavior therapy &/vs pharmacotherapy, treatment of obesity, 23–66 yr old females, 1-yr followup, 8389
behavior therapy with computer-feedback, weight loss, obese females, Sweden, 1784
bibliography update, behavioral approaches to weight reduction & obesity, 1972–78, 4059
bibliotherapy self help programs, weight loss, overweight 18–59 yr olds, 8408
biobehavioral model of diverse origins and treatments, obesity, 8512
body fat & choice of camping equipment, 18–39 yr old campers, 1324
body image, male vs female obese patients, 10715
causes & social psychological factors & treatment, obesity, females, 10682
conceptual model identifying environmental sources of psychological dysfunction in women, implications for clinical behavior therapy, 10856

conditioned taste aversion to sodium chloride vs sucrose, obese vs lean female rats, 12029
delay of gratification & locus of control & eating patterns, obese vs nonobese 3rd–5th graders, 10673
demonstration on hypnosis, efficacy of hypnotherapy as treatment for obesity, 23–52 yr old females in nonhypnotic behavior modification group vs hypnosis group with vs without special phenomenon demonstration, 10952
depressive states, onset & maintenance of obesity, adults, 5918
development of inventory for measurement of eating practices, female college students, 9350
diet palatability & caloric content & dorsomedial hypothalamic lesions, food consumption & lipogenesis, mature female rats with dietary obesity, 12276
diet restriction at 5 mo of age, sexual behavior, obese 6 mo old male rats, 4-mo followup, 787
estradiol benzoate, food intake & body weight & length & ano-nasal length, intact vs ovariectomized female rats on high calorie diet, 12390
experienced control & participation in behavioral treatment of obesity, completion of treatment, 22–57 yr old females, 13304
Health Locus of Control Questionnaire, prediction of performance in weight reduction program, 17–33 yr old college students, 11631
high calorie sucrose ingestion, imagined vs real food tastes, overweight vs normal vs underweight college students, 318
high fat diet, reactions to quinine adulteration & sugar solution & shock stimulation & drinking "shocked" water & activity level & food motivated operant behavior, early- vs late-onset obese male rats, 5309
hypnosis & behavioral self control techniques, weight reduction, 26–45 yr olds, 10760
hypophysectomy & aurothioglucose, weight gain & obesity, mice, 809
individual vs couple behavioral contracting for weight reduction, weight loss, adults, 4049
level of energy intake, salivation vs hunger vs appetite, 17–68 yr old obese female dieters, 9839
liquid meal intake, pre- vs postmeal self perception of fatness vs anxiety level vs sexual arousal, obese Ss, 10724
low levels of anxiety & depression, obese rural 17–70 yr olds, replication of A. H. Crisp & B. McGuinness's study, 13090
meal size & duration & bites & rate of ingestion, obese vs nonobese males, 10694
measurement of general obesity using Lee obesity index, rats, 2400
mechanisms that affect human growth, literature review, 7748
need for standards of weight change measurement, children in weight reduction clinic, 11572
obesity induced by neonatal administration of monosodium glutamate, feeding behavior & activity & thermoregulation & response to catecholamines, mice, 12352
obesity-inducing hypothalamic knife cuts & insulin, adipose tissue lipoprotein lipase activity, female rats, 3075
obesity in nonreactive setting, helping behavior & devaluation of ability & potential, public health administrators, 3628
obesity & octapeptide cholecystokinin & bombesin, food intake, weanling rats, 5392
octapeptide of cholecystokinin, feeding behavior, obese vs lean rats, 7673
octapeptide vs impure cholecystokinin, feeding & drinking behavior, obese vs lean female rats, 7672
perceived self infliction, attribution of personality traits of obese & handicapped Ss, college students, 3666
personality factors & body image, female college students with high vs low percentage of body fat, 1355
personal vs sociocultural factors, moderate obesity, 40–59 yr old male construction workers, 1592
proprioceptive & pictorial stimuli, emotional responses & facial expressions, normal vs overweight college students, 3919
self perception, individual differences in response to E's foot-in-the-door procedure, overweight vs normal weight Ss, 5896
S sex & weight & model sex & amount of model eating, eating rates, obese vs normal college students, implications for externality hypothesis of obesity, 1569
stimulus control & self reinforcement procedures, acquisition & maintenance of exercise program, overweight 47–56 yr old males, 1797
suckling behavior, prediction of obesity, mice, 9731
suggested categories for degree of overweight, 10683
suggestion with vs without hypnotic induction in weight reduction program, weight loss, 19–68 yr old obese females, 6421
use of stairs vs elevator to ascend 4-story building, obese vs overweight vs normal weight Ss, 3901
use of stairs vs escalators, obese vs nonobese Ss, 3922
weight & sex, eating behavior, 6–70 yr olds, 10402
weight therapy, disabled obese at rehabilitation center, 6516

Objectives [See Aspirations]

Objectives (Organizational) [See Organizational Objectives]

Objectivity

degree of concurrence, subjective vs objective ratings of physical attractiveness, college students, 12811
derivation of operant factor structure for subjectivity using Isaac Newton's Fifth Rule & Q sort, application to educational psychology theory & practice, 6626
measurement & description of magnitude of observer agreement, 4847
need for outside objectivity & inside understanding in social action research, 6920
rejection of phenomenalism, comments on C. I. Lewis, 4650
subjectively vs statistically determined contributors, life satisfaction, male college faculty, 3735
suggestions for improving jury impartiality, 1172
theory of constancy & historical development of Gestalt psychology, 9246

Oblique Rotation

alpha factor analysis, new model for analysis of image correlation matrix, 2579
computer program, rotation of 2 factor matrices to common resolution, 45
oblique vs orthogonal rotational analyses of J. P. Guilford's structure of intellect model vs alternative model, 264

Obscenity

concepts of God & blasphemous expressions, 10 & 13 yr old males, 3427
cross cultural swearing patterns & sexism in language, 1191
dirty vs nondirty adjectives describing fictitious person, interpersonal attraction, college students, 12431

Observation Methods

coding system for discrete social acts, measurement of social competence, 3 yr olds, 11584
computer derived measures vs over-shoulder scoring method, screening radar performance, air traffic control trainees, 6817
direct observation & behavioral profile, psychotherapy groups of borderline & dependent patients with personality disorders, implications for treatment effectiveness evaluation, 6291
direct observation of patient behavior during occupational therapy, evaluation of sessions & patient change, psychogeriatric ward patients, 6441
discussion of E bias & scientific method as observation & hypothesis & experiment, 2378
distinction between behavior & performance for analysis of observations, 4750
E bias, observation of teachers' social approval vs disapproval, graduate students, experimental replication, 6967
effectiveness of training handbook, measurement of activity by elderly residents, researchers & health & social services staff, 65
given vs not given standard definition of stuttering, identification of words as stuttered, college student O's of adult stutterers, implications for interobserver reliability for stuttering criteria, 13069
group therapy, behavior improvement & method of assessment by O, 5–7 yr old behaviorally disturbed males, 1746
identification of types of self correction attempts of aphasic clients, Os, 4714
informational vs controlling verbal rewards & level of surveillance, task interest, college students, 1285
interrater reliability, observations of social & communication behavior, Os of developmental delayed vs normal 2.8–7.8 yr olds, 11617
level of cross interview agreement as validation method, 4725
methodological discussion, naturalistic research, 2397
methodological problems, field study of psychosocial processes, mixed couples of Black African males & French women, 2404
observational rating grid, assessment of verbal & nonverbal group interaction, 20–25 yr olds, 5729
observation manual for coding mother-infant interaction, mothers & neonates, 11602
observation methods in school psychological services, 11328
observation method with running recording, structuralization of child's "life field" & teacher-child relationship, school children, 2070

observation of whole vs 5 min segments of psychoanalytic session, judgments regarding therapeutic relationship, psychoanalysts, 8431
parent–infant interaction, bibliography of observational studies from 1971–79 with methodological summaries, 1148
phases of task & roles, coding of parent-child interaction with verbal response mode taxonomy, parents & 4th–6th graders identified as aggressive vs withdrawn vs nondeviant, 10583
phenomenological description as method for understanding roles & functions of counselor, 2355
potential effect of future Os, results of parapsychological tests, test of modified observational theories, 11534
quantitative vs qualitative coding of peer verbal interaction, moderately mentally retarded 13–14 yr olds, 7002
quasi-equiprobability model, measurement of observer agreement, 2558
ratio adjustment technique as baseline procedure for observation of classroom behavior, implications for behavior modification, 11336
reliability of behavioral observation method, social functioning & peer interaction, 6–13 yr olds in short term psychiatric facility, 9385
reliability of spouses as observers of events occurring in own marriage, distressed vs nondistressed couples, 77
reliability & validity of psychiatric interviews with patient vs next of kin vs nurses ratings, psychotic female patients, 1639
self observation phenomenological method, pictorial symbolization of faces-goblet stimulus display, graduate students, 391
setting & demographic & partner characteristics, behavior categories for observation, mentally disabled adults, implications for communal facility setting, 8707
single vs multiple video replays vs live gymnastic vaults, reliability of scores, judges, 6990
system for observation of childbirth & delivery, manual, 1126
training in use vs observation & analysis of verbal skills, interpersonal communication skills, speech-language pathology students, 6575
transitivity & O agreement in judgments of articulation effort, college students O's, 9299
validity & reliability of observation method for assessment of parent-child interaction, parents & their 2–7 yr olds with conduct problems, 220

Observational Learning

age & amount of information, acquisition of seriation-of-length rule through observational learning, 3.4–4.4 vs 4.5–5.4 vs 5.5–6.4 yr olds, 10095
imitation vs observation vs E vs S manipulation of solid, anticipation of figure rotation & development of surfaces, nursery school students with mean ages of 4.9 & 5.7 mo, 12557
observational learning & modeling, implications for counseling, literature review, 13213
observational vs productivity training method, verbal quality & production, preschool age children, 6661
observation of male vs female model & number of response-relevant cues, leverpress acquisition rate in observational learning, mice, 606
observation of skilled vs unskilled companions vs no observation, learning, quail, 12071
observed vs nonobserved demonstrations, imitation of learned avoidance reaction, male rats, 2837
psychological & theological constructs, learning by imitation, 7262
relationship between observation & concept formation & explanation of behavior, proceedings of Ripon College's 1979 conference, 11894
tactual experience &/vs observation, concrete object recall, college students, 2794
task & performance vs observation, verbal discrimination learning & retention, high school students, 3356
task performance vs observation & ease of conceptualization, verbal discrimination learning & retention, high school students, 7263
verbal reinforcement of performances, central vs incidental recall of performers vs Os, 2nd vs 4th vs 6th graders, 12533

Observers

anticipated discussion & knowledge level of 3rd party, causal attributions, male vs female college student actors vs Os, 1274
approach of human O & amount of human intrusion, frequency of alarm barks, black tailed prairie dogs observed in isolated vs heavily visited towns, 2929
auxiliary task loading conditions, visual search performance in simulated remotely piloted vehicle utilization, pilot & nonpilot Os, 6881
cognitive factors & audience presence, motivation, college students, 2811
computer program for comparison of independently derived estimates of chance-corrected rater agreement levels, 52
cues of maximum movement & height & intensity & syntax & semantics, identification of tonics in speech, 12427
evaluation & design & outcome, advanced training experience using Tavistock method of group study, conference participants, 5732
given vs not given standard definition of stuttering, identification of words as stuttered, college student O's of adult stutterers, implications for interobserver reliability for stuttering criteria, 13069
group size & density & number of Os & group member similarity, self consciousness & disinhibited behavior, college students & adults, 5739
human O computerized system, measurement of conversational speech activity, 4668
infant & O sex & O experience with young children, ratings of infants' emotional arousal, college students, 5688
interrater reliability, observations of social & communication behavior, Os of developmental delayed vs normal 2.8–7.8 yr olds, 11617
knowledge that attributions would be observed by opposite sex peer, attribution statements, college students, 10350
measurement & description of magnitude of observer agreement, 4847
number of Os & room size, pegboard task performance, junior high school students, 12535
observation of mock crime on TV newscast vs controlled conditions, ability to correctly identify culprit in line-up, voluntary TV viewers & participants of legal seminars, 10272
potential effect of future Os, results of parapsychological tests, test of modified observational theories, 11534
public vs private disclosure situtation, actor vs O attributions for success vs failure, female college students, 1294
race of allocator & participant & observer & beneficiary-victim status, reactions to inequitable allocation, Black vs White 4th & 5th graders, 5557
research hypotheses & S characteristics, observer bias in special education research, literature review, 6736
time decay, validity & reliability of binary coding of speech & glances, 7000
valance of evaluation & distinctiveness of evaluator, causal attributions & predictions of evaluator's future behavior, evaluated vs noninvolved college student Os, 5798
victim's need & previous accusation of theft & sex differences, bystanders' reactions to theft, college students, 8042

Obsessions

cognitive modification of obsessive thinking, 22 yr old female rape victim, 13209
directed reverie therapy, 14 yr old phobic male with obsessional defenses, 1706
obsessionality before vs after onset of schizophrenia, literature review, 8131
obsessional personality traits & state & trait anxiety, Ss with anxiety neurosis or ulcerative colitis, 1386
reinforcement contingent upon success in response prevention, chronic obsessive rituals, middle aged male patient, 1827
standardization of Sandler-Hazari Obsessionality Inventory, discrimination between clinical & nonclinical populations, 7045

Obsessive Compulsive Neurosis

amitriptyline, obsessive compulsive neurosis, 26 & 29 yr old females, 4106
behavior modification, female 13 yr old with obsessive compulsive neurosis, followup study, implications for treatment in Malaysian Chinese, 10890
cognitive structure & content, obsessive compulsive patients, replication of F. Makhlouf-Norris & H. Norris's results, 8163
concordance for obsessive compulsive neurosis, 2 pairs of female 24 yr old monozygotic twins, 5981
exposure & response prevention strategies, morbid rumination & compulsive avoidance, 23 & 58 yr old obsessive compulsive males, 4046
imipramine vs phenelzine, improvement, 52 yr old female with obsessive compulsive disorder, 13334
loss of control & destructive aggression, obsessive compulsive male, case report, 6000

obsessionality before vs after onset of schizophrenia, literature review, 8131
obsessional neurosis, personal account, 1463
personal & family background & psychological assessment & treatment, female monozygotic twins discordant for obsessive compulsive neurosis, implications for genetic predisposition, 1437
tranylcypromine, rapid therapeutic response, 22 yr old female & 39 yr old male with severe obsessive compulsive disorder, 13337
treatment of obsessive compulsive disorders, literature review, 3968
Obsessive Compulsive Personality
clomipramine hydrochloride as treatment for obsessive-compulsive disorder, cerebrospinal fluid metabolites, 6414
clomipramine vs nortriptyline hydrochloride, treatment of obsessive-compulsive disorder, 19–60 yr old patients, 6413
cortisol levels in cerebrospinal fluid, depressed vs suicidal vs obsessive compulsive vs normal patients treated vs not treated with clomipramine, 1491
facade compulsive personality as type of latent schizophrenia, 22 yr old male, 3826
obsessional personality traits & state & trait anxiety, Ss with anxiety neurosis or ulcerative colitis, 1386
Obsessive Neurosis [See Obsessive Compulsive Neurosis]
Obstetrical Complications
amplitude & latency & interwave differences & ratios of brainstem auditory evoked potentials, preterm vs high risk vs healthy infants, 9799
differential development, brainstem auditory evoked potentials, normal vs high-risk infants for birth- or pregnancy-related CNS damage, prognostic implications, 8367
distress due to denial of abortion, complications during pregnancy & delivery & puerperium, mothers, 13076
minor physical anomalies & obstetrical history & newborn dopamine-beta-hydroxylase, irritability & unsociable response & activity levels, infants at 5 mo & 1 yr, 12468
obstetric complications & seasonal variations, births to schizophrenic mothers, Finland, 8185
patient-hospital interactions, Munchausen syndrome, 26 yr old female with obstetrical complaints, 10518
Obturator Nerve [See Spinal Nerves]
Occipital Lobe [See Also Visual Cortex]
left-right relationship of hemispheric activation amplitudes during auditory & visual learning, rhesus monkeys, 12209
measurement of residual vision after occipital lobe damage, humans vs animals, 5348
parieto-occipital vs frontal lesions, visuo-constructive deficits & visual cue vs action compensation, cerebral lesion patients, 8355
presumptive occipital cortex transplantation to host amina cribosa area of partial or total bulbectomy, regrowth of olfactory sensory axons into transplant, mice, 7601
role of inner ear vs cerebral cortex in visual symptoms during space flight motion sickness, astronauts, 6171
Occupation (Parental) [See Parental Occupation]
Occupational Adjustment
behavior therapy vs traditional psychiatric treatment modalities, job satisfaction & job related attitudes, psychiatric nursing staff members, 11127
brain damage & subsequent long term verbal memory deficits, disruptions in vocational & social & emotional functioning, 20 yr old male, treatment implications, 8378
descriptions of work vs nonwork time, compensatory vs spillover models of adjustment to work, pharmaceutical firm & research organization employees, 2218
job placement program including comprehensive diagnostic & workshop evaluations & work exposure, employment, multiply handicapped epileptics, 2-yr followup, 1979
neurophysical status & personality change & memory loss & work capacity & friendships, 16–39 yr old patients with severe head injuries, 2-yr followup study, 1625
personality & occupational deviance & sex & role overload, fear of success, 30–60 yr olds, 3566
postsurgical psychological & sexual & socioeconomic adjustment, male-to-female & female-to-male transsexuals, 13375
realistic job previews, reduced turnover, retail store employees, 13768
school & social & vocational adjustment, 16.1–23.4 yr olds who received educational services for learning disabilities as children, followup study, 13643
self perception & personality traits, unemployed vs employed 20–35 yr old hemophiliacs, 6150
social incompetence vs antisocial & emotionally disturbed behaviors, termination from competitive employment, mild & moderately retarded 23–59 yr olds, implications for vocational rehabilitation, 11035
social & occupational adjustment, American teachers, Australia, 6629
social & psychological prevention of cardiovascular diseases, 1601
Occupational Aspirations
age & sex & race & self esteem & self concept, educational & career goals & career commitment expectations & sex role attitudes, Black vs White 18–25 yr olds, 1356
attitudes about scientific value & career impact of replication research, noneditor & journal editor American Psychological Association members, 11128
candidates' vs recruiters' assessments, perceived attainability of job related goals, college students registered at placement office, 13710
career expectations & demographic & personality characteristics & sex, career exploration, graduate students 7 & 4 mo prior to graduation, 13721
childhood & adolescent role models, occupational choice, college professors vs blue collar workers from blue collar backgrounds, 10223
demographic characteristics & employment experience & university status, perceptions of personal appearance in job acquisition & retention & promotion, college students, 10196
desire for children & satisfaction with parenthood & number of children & employment aspirations, married female 18–49 yr olds, 5630
employee & organizational factors, career planning process, 2211
individual & organizational correlates, refusal of seniority-based promotions, production employees of average age 36.7 yrs, 11416
intelligence & demographic & occupational characteristics, US Navy personnel applying for off-duty education, 6788
McCarron-Dial Work Evaluation System, development of vocational goals & objectives within individualized education program, 16–21 yr old handicapped students, 2160
model of factors affecting career commitment, working women, Republic of South Africa, 13723
parental attitudes & maternal employment, career choice & commitment, female college students, 4483

structure & goals of counseling service called "Just the Job", unemployed 16–20 yr olds, 13707
support systems & counseling for adult career changes, 6814
synergistic approaches, life & career skills development & counseling strategies, 6813
trait-factor approach to problem solving, vocational guidance & counseling & rehabilitation, 13713
translation of occupational & interest inventory scores into locations on "world-of-work" maps, 13718
use of college educated ex-offenders in Inmate College Advisory Project, training inmates for careers after release, 13432
vocational guidance applications for "data/ideas" & "things/people" work task dimensions for occupations, 6808
Wheel of Fortune vocational development program, work values, female adolescents, 9162

Occupational Interest Measures [See Also Kuder Occupational Interest Survey, Strong Vocational Interest Blank]
concurrent validity of California Occupational Preference System Interest Inventory, prediction of college major, freshman level college students, 4434
construction & validity & readability of Dalton Vocational Importance Questionnaire, measurement of occupational choice in tentative period, 5th–12th graders, 7029
development & validity, Pictorial Interest Inventory as measure of vocational interests, Air Force enlistees, 4841
factor analytic study of construct validity of Self-Directed Search, measurement of vocational choice consistent with personality, professional accountants, 7084
factorial validity of vocational interest scales of Vocational Preference Inventory, high school students, Australia, 7025
factor structure & suggested new construct, Armed Services Vocational Aptitude Battery, 229
job titles vs job descriptions on questionnaires, interest patterns, female 15 yr olds, 6805
paired comparisons response intransitivity over 2 yrs, responses on Minnesota Importance Questionnaire, 8th & 10th graders, 2476
public impact of vocational interest inventories, 1972–78, 11619
revision of diagnostic pattern scores for Survey of Work Interests, 4828
scores on vocational interest inventories, prediction of job performance, police officers & cadets, 2245
sex differences, Strong-Campbell Interest Inventory twin occupational scales scores, 7040
translation of occupational & interest inventory scores into locations on "world-of-work" maps, 13718
validity & sex balance of Strong-Campbell Interest Inventory vs Unisex ACT Interest Inventory, area of occupational choice, female college students, 9301

Occupational Interests
career interests as measured by Vocational Preference Inventory & level of agreement, choice of college major, female college students, 2221
choice of occupational interests, mentally retarded adolescents, 8273
concurrent validity of J. L. Holland's theory assessed by Vocational Preference Inventory & Self Directed Search, employed non-college-degreed Black females, 4497
congruency & consistency & differentiation constructs by J. L. Holland as predictors of job satisfaction within nursing occupation, 22–60 yr old registered nurses, 4232
demographic & psychological variables, productivity, farmers, India, 9149
importance of work conditions & satisfaction & desired changes & relation between inside vs outside occupations, Francophones vs Anglophones working as 2nd language instructors, Canada, 11148
low profiles on Strong-Campbell Interest Inventory of SVIB, vocational needs & personality traits, females over 25 yrs of age, 11419
model for career development program, severely physically disabled youth, 4491
occupational sex role stereotyping & vocational interests, 5–6 & 11–12 yr olds, 7866
personality traits & vocational interests & attitudes, average age 27.5 yr old male prison inmate college students, 11045
sex, academic achievement & vocational interests & intelligence & salience of school activities, 10th graders, 11253
sex & sex role & occupational sex composition, interest & perceived personal success in lawyer as occupation, male vs female college students, 13705
socioeconomic status & sex & high school educational climate & academic involvement & contact with university faculty, orientations toward scientific & scholarly careers, college freshmen, 1968–1969, 4366
subscale correlations on Kuder Occupational Interest Survey, police trainees, 4487
theoretical model, cognitive mediation of vocational interests & abilities & performance & success, 11415
translation of occupational & interest inventory scores into locations on "world-of-work" maps, 13718
work interests analysis, home economists, implications for definition of profession, 6812

Occupational Mobility
career patterns & attitudes & path potential, ineffective vs effective plateaus vs no plateaus in career, managers, 13761
educational background & training & motivation & job satisfaction & stress factors, 27–46 yr old upwardly mobile Black managers, South Africa, 13756
extraversion & neuroticism & achievement need, job mobility, textile mill workers, 2267
individual & organizational correlates, refusal of seniority-based promotions, production employees of average age 36.7 yrs, 11416
managerial positions & job mobility, females, 6860
role conflict & ambiguity, job-induced stress & job satisfaction & desirability of leaving organization, VA hospital staff, 4547

Occupational Preference
attitudes toward & preference to work with physically handicapped vs nonhandicapped, vocational rehabilitation counseling graduate students, 1969
career expectations & demographic & personality characteristics & sex, career exploration, graduate students 7 & 4 mo prior to graduation, 13721
career interests as measured by Vocational Preference Inventory & level of agreement, choice of college major, female college students, 2221
congruency & consistency & differentiation constructs by J. L. Holland as predictors of job satisfaction within nursing occupation, 22–60 yr old registered nurses, 4232
factorial validity of vocational interest scales of Vocational Preference Inventory, high school students, Australia, 7025
frustrated oral needs, career preference, college students, 11418
job titles vs job descriptions on questionnaires, interest patterns, female 15 yr olds, 6805
learning through interaction vs individual problem solving method of group vocational counseling, counseling effectiveness & evaluation, people- vs task-oriented college students, 9158
occupational information, occupational preference ratings, 16–17 yr old students, 8953
occupational valence & instrumentality & expectancy, occupational choice, college students, 11422
predictive validity, model for assessment of prediction of job preference & anticipated satisfaction, college students, 4837
sex, values & vocational preferences, student teachers, 11141
sex differences, perceptions of desired occupational rewards & availability & match between own abilities & occupational requirements, college students majoring in business vs education, 6815
sex role & occupational preference, attractiveness as coworker & to prospective employer & social attractiveness, college students, 12727
sex & sex role & occupational sex composition, interest & perceived personal success in lawyer as occupation, male vs female college students, 13705
usefulness of worker function profiles, differentiation of intraoccupational specialties in psychology, psychology graduate students, 13515
validity & sex balance of Strong-Campbell Interest Inventory vs Unisex ACT Interest Inventory, area of occupational choice, female college students, 9301
vocational selections & values, male high school students, 6810
Occupational Safety
self recording vs microcompressor audiometer, auditory threshold testing, industrial workers, 2364
Occupational Status
academic performance & retraining status & aptitude & amount of military service & career status & background experience, performance in technical school, US Air Force retrained airmen, 13747
birth- vs occupational-cohort membership & occupational status, psychosocial development, 35–64 yr old males, 5549
career patterns & attitudes & path potential, ineffective vs effective plateaus vs no plateaus in career, managers, 13761
causal attribution & sex & professional status & past experiences, behavioral response to failure, rejected authors, 5844
degree of occupational professionalization, requirements of intelligence & verbal & numerical ability, 4471
educational & occupational status inconsistency & incompatibility, life & marital dissatisfaction, husbands & wives, 12667
frequency of photographs of psychologists in introductory psychology textbooks as index of eminence, 6604
high vs low status, response to merger of groups, State Registered vs State Enrolled nurses, 6602
job seniority & experimental instructions, styles of ingratiating behavior, technical vs nontechnical male workers, 2266
job status in managerial system & union activity, white collar government union members, 2204
managerial positions & job mobility, females, 6860
motivations & social support, medical career decision, male vs female medical students, 13491
nativity & years of US residence & metropolitan vs nonmetropolitan environment & educational & occupational level, English language use, Mexican immigrants, 3498
occupational status, suicide, 13050
physical attractiveness & educational attainment & occupational prestige, 1953 male college students, 12887
position in status vs functional system in mental health services, role conflict, paraprofessionals, 6540
prestige attributed to chosen profession, early childhood education & institutional care students, 2061
self perception & personality traits, unemployed vs employed 20–35 yr old hemophiliacs, 6150
sex, subordinate liking & leadership behavior of managers, college & graduate business students, 4537
sex, upward communication strategies in superior-subordinate dyads, graduate students, 3624
sex differences, dominance behavior toward & from opposite-sex coworkers & superiors, university employees, 6809
sex & occupational level & wage-earner status, job satisfaction, county employees, 4556
territoriality & dominance, college professors, 4284
Occupational Stress
educational background & training & motivation & job satisfaction & stress factors, 27–46 yr old upwardly mobile Black managers, South Africa, 13756
elimination of information overload & job burnout, managers, 13760
emotional stress, psychotherapists, 2056
environmental & occupational stress, neurotic & psychotic & other mental disorders, Norwegian islanders, 1426
factor analysis, occupational role conflict & ambiguity scales developed by J. R. Rizzo et al, 9426
high vs low stress in staff member-superior relations & intelligence & experience, performance evaluations, Coast Guard officers & petty officers & civilian employees, 4533
intra- vs intersender vs interrole role conflict, job satisfaction & job anxiety & propensity to leave organization, supermarket department managers, 9189
level of job stress, affiliation & autonomy need satisfaction, nurses, 4235
life stressors & coping styles, urban 18–64 yr olds, 1321
measurement of effects of psychological pressure on performance in working & experimental conditions, 2246
moderators & correlates of role stress, hospital nurses & respiratory therapists, 4252
past research & future research areas, job related psychosocial stress, 11492
perceived stress in marriage & lifestyle, wives of US Air Force missile launch officers, 5634
personality traits, prediction of career success, divers & trainees & US Navy applicants vs trainees in divers' courses, 6848
personal & occupational factors, fatigue, 24–42 yr old factory workers, Japan, 11500
power & leadership & stress management in organizations, 4543
role conflict, physiological & affective & performance variables, 20–48 yr old female nurses in simulated hospital experience, 2030
role conflict & ambiguity, job-induced stress & job satisfaction & desirability of leaving organization, VA hospital staff, 4547
scale development, measurement of job related stress & dissatisfaction, police officers & college students & teachers, 7113
social class & other factors, Type A behavior, men & their wives & other family members, 5884
social support, effect of occupational stress on job-related strain & health, males in varied occupations, support for validity of buffering hypothesis, 4554
stress, male police officers vs department store managers, 4473
tonic & phasic heart rate, measurement of mental fatigue, 9821
video display terminal use, attitudes toward work & office automation & mood & physical symptoms, office workers with mean age of 23 yrs, 13766
video display terminal use & working conditions, job stress & health complaints & psychological mood, clerical vs professional operators, 13777
Occupational Success
attitudes about scientific value & career impact of replication research, noneditor & journal editor American Psychological Association members, 11128
career patterns & role in history of psychology, women psychologists, 6595
construct validity of Miner Sentence Completion Scale & Self-description Index, measurement of role behavior & abilities & traits characteristic of successful business executives, female college students, 11628
content analysis of prime time TV, compatibility of work & marriage for women, 10297

individual & group & organizational factors, introduction into work groups in traditionally male career fields, females, annotated bibliography, 9142
individual vs group vs organizational factors, introduction of females into traditionally male careers, annotated bibliography, 4481
job placement program including comprehensive diagnostic & workshop evaluations & work exposure, employment, multiply handicapped epileptics, 2-yr followup, 1979
locus of control, occupational structure, 21–57 yr olds, 4482
Male Dominance Index values, percentage of men in various occupations & college curricula & apprenticeships & professional degree fields, 6803
occupation & competence & role overload of successful women & Ss' attitudes toward women, liking for observed women, female vs male college students, 3584
opportunities for midlife career development or change, Blacks, 13715
parttime employment, family & peer & coworker relations, 10th & 11th graders, 1066
perceptions of worker & spouse & parent roles & role combinations, male vs female college students, 1252
personal relevance of information about crime & employment & politics in local vs distant setting, use of information in decision making, college students, 1119
psychoanalytic view, influence of work on human development, 4474

psychological questions of professional careers, 9140
reliability of US Department of Labor's General Education Development scale, measurement of educational requirements of occupations, job analysts, 2548
self perception & personality traits, unemployed vs employed 20–35 yr old hemophiliacs, 6150
sex & employment & education & social class, psychological symptom levels, 20–60 yr olds, England, 1413
sex & sentence cues with male vs female stimulus person succeeding vs failing in occupations with varying sex domination, approach & avoidance imagery, college students, 2220
sex & sex role & occupational sex composition, interest & perceived personal success in lawyer as occupation, male vs female college students, 13705
stressful life events & employment status, 16–18 yr olds, 12571
suggested guidelines, career education & employment programs, urban Black youth, 9156
survey of employment & educational history, continuing education involvement, members of New Zealand Psychological Society, 11074
training & placement in McDonald's restaurants, turnover, mildly & moderately mentally retarded 21–52 yr olds, 8719
trait adjectives consistent vs unrelated vs inconsistent with occupational group stereotypes, estimation of frequency of use of each adjective, high school & college students & adults, 8040
usefulness of worker function profiles, differentiation of intraoccupational specialties in psychology, psychology graduate students, 13515
validity generalization & reliability, cognitive tests for employment in petroleum industry, personnel in 2 job types, 7094
vocational guidance applications for "data/ideas" & "things/people" work task dimensions for occupations, 6808
work experience, socialization & development, adolescents, literature review, 7867
work interests analysis, home economists, implications for definition of profession, 6812
work patterns, family development, implications for school psychologists, 7964
Octopus
brick pots vs plastic buckets as home environments, occupancy preferences & social interactions, male octopuses, 9668
ultrasonic monitoring system for recording locomotor activity, octopus, 4657
Ocular Dominance
developmental differences, consistency of lateral preference for hand & eye & foot & ear, 3–5 yr olds vs high school students, 10031
monocular deprivation, ocular dominance column of New World primate as seen in autoradiography, marmosets, 9835
monocular occlusion during early life, physiological effects & shift of cortical ocular dominance & recovery as measure of sensitive period of visual cortex, kittens, 836
ocular dominance & field of view & monocular vs binocular viewing conditions, median place estimates, females & males with left- vs right-eye dominance, 393
ocular hypopigmentation, cortical function as measured by visually evoked potential & ocular dominance, cats, 9797
receptive field types & dimensions & orientation selectivity & ocular dominance of areas 17 & 18, cats, 12230
retinal locus vs cerebral dominance vs metacontrast vs letter symmetry vs ocular dominance, tachistoscopic letter recognition, college students, 11788
training with novel color & novel vs familiar sucrose taste during monocular occlusion, subsequent acquisition &/vs interocular transfer of aversion with trained or untrained eye open, chicks, 566
visual perceptual stability & sighting dominance, 19–27 yr old females, 7184
visual stimulus alignment test, sighting dominance, female college students, 7185
Oculomotor Muscles
surgical technique for implantation of magnetic search coils in front of insertions of extraocular muscles, measurement of eye position, animals, 79
Oculomotor Nerve [See Cranial Nerves]
Oculomotor Response [See Eye Movements]
Odor Discrimination
aversively motivated discrimination task, anogenital odor discrimination & detection of physiological estrus, male vs female guinea pigs, 662
biological odors of donor rats having vs not having received rewards & sequence of reward vs nonreward, learned responses, male rats, 7302
chemical stimuli produced by conspecifics in reproductive state, short- vs long term behavior patterns, intact vs anosmic vs sham-operated adult male cichlids, 2903
commonality in reward vs nonreward odor excretions, runway response patterns, male vs female pathmaking vs pathfinding rats, 7303
discrimination between odors from living vs dead conspecifics, male rats, 9671
ear gland secretion odors in discrimination of diestrous female vs castrated vs intact conspecifics, sexually experienced male hamsters, 647
lithium chloride vs saline injection after exposure to petri dish of soiled bedding, conditioned aversion to bedding vs empty dish, 12–13 mo old male gerbils, 922
mathematical model, identification of predominant odor of musk & n-propanol mixture in varying concentrations, 19–23 yr olds, 11741
neocortical lesions, olfactory discrimination, male rats blinded by enucleation, 5346
odor discrimination & memory, patients with Korsakoff's psychosis, 1598
pyridyl ketones, perceived qualitative odor similarity, 25–50 yr old experienced Ss, 11761
selective removal of alleyway flooring & air, assessment of locus of nonreward odor, male rats, 7334
selective removal of reward vs nonreward odors, pattern responding, male rats, 7335
simple exposure vs exposure associated with conspecific & sensory affective bias, establishment & maintenance of preference for olfactory stimuli, rat pups, 565
Oedipal Complex
aggressive aspects & oedipal complex, F. Zeffirelli's movie "Brother Son, Sister Moon", 3257
family therapy, only-child families, 13244
Offenders (Adult) [See Criminals]
Offenders (Juvenile) [See Juvenile Delinquents]
Officers (Commissioned) [See Commissioned Officers]
Officers (Noncommissioned) [See Noncommissioned Officers]
Ojibwa Indians [See American Indians]
Old Age [See Aged]
Olfactory Bulb
amyl acetate vs suckling pheromone stimulation, olfactory bulb uptake of 2-deoxy-dextro-glucose, rat pups, 3216
fasting, cholecystokinin binding to receptors in hypothalamus & olfactory bulb & insulin binding, male mice, 12306
high frequency olfactory tubercle stimulation & atropine, sleep & EEG & behavior, cats, 9827
lesions in areas caudal to olfactory bulb, hyperreactivity, male rats, 5330
olfactory bulbectomy, ultrasound production & scent marking, female hamsters, 3115
olfactory bulbectomy & flank shock, copulation, male rats, 5312
olfactory tubercle vs corticomedial amygdaloid lesions & female estradiol benzoate & progesterone treatment & ovariectomy, sexual behavior, male rats, 7575
presumptive occipital cortex transplantation to host amina cribosa area of partial or total bulbectomy, regrowth of olfactory sensory axons into transplant, mice, 7601
simultaneous vs serial olfactory bulb lesions, muricide & irritability & open field activity, female rats, 3131
stimulation of olfactory tract & olfactory epithelium with electric current & amino acids, electrical activity of olfactory bulb vs tract & role of neuroanatomical subdivisions, tenches, 704
unilateral olfactory bulbectomy, opiate lignad binding in contralateral bulb, female mice, implications for limbic function & emotional behavior modulation, 5339
Olfactory Evoked Potentials
suggestion vs transient olfactory stimulation, EEG evoked potentials & electrodermal response, males who wintered-over in Antarctica, 694
Olfactory Mucosa
alanine sensitivity in olfactory membrane, skate, 12228
flehmen behavior elicited by female urine, vomeronasal organ function, male goats, implications for reproductive cycle, 646
N-ethylmaleimide vapor, spike activity of receptor cells of olfactory epithelium, frogs, 12199

Olfactory Nerve
anatomical relationship between central olfactory pathways & neurons containing luteinizing hormone-releasing hormone, male hamsters & rats, 719
Olfactory Perception [See Also Odor Discrimination, Olfactory Thresholds]
androgens, responsiveness to aggression & stress-related odors, male mice, 3127
antennular chemoreceptors, medial vs lateral flagellae in olfactory orientation, spiny lobster, 5264
blood pressure & heart rate & body temperature & nasal airflow & respiration rate correlates of olfactory sensitivity changes during menstrual cycle, 18–37 yr old females, 12248
constant flow rate olfactometer with calibrated concentrator for studying insect electroantennogram without thermic or mechanical interference, 62
con- vs heterospecific male odors, competition for space, voles, 5182
cross-fostering after birth, development of olfactory preferences, male vs female cross-fostered vs in-fostered vs nonfostered adult lemmings, 9697
dry vs washed with detergent solution vs anesthetized lambs, recognition of own vs alien lamb, mother Merino ewes, 7342
early food intake restriction, perception of sensory cues in homing to nest, rat pups, 9840
environment of cyclohexanone vs deodorized air, olfactory sensitivity, male rat pups, 7566
ethyl bromoacetate as olfactory probe, frogs, 5360
flehmen behavior elicited by female urine, vomeronasal organ function, male goats, implications for reproductive cycle, 646
hormones & olfactory-vomeronasal deafferentation & stimulus situational factors, initiation of maternal behavior, hysterectomized-ovariectomized nonpregnant female rats, 9859
hyperthyroidism, nasal chemosensitivity, rat pups, 3147
interactions between plant odors & pheromone reception, ermine moths, 12257
olfactory deprivation, homing ability, anosmatic vs normal pigeons, 624
olfactory recognition & recall, 34–68 yr old hospitalized Korsakoff vs non-Korsakoff alcoholics, 12914
possible confound & role of olfaction in aggressive interaction, mice, 2377
predatory constriction of mice, tongue flicking rate as measure of chemosensory investigation mediated by vomeronasal system, bull snakes, 5142
prefrontal cortex dysfunction, odor perception, patients with prefrontal lesions vs alcoholic Korsakoff patients, 10719
relationship between air flow rate & odor perception, reply to critique by M. Teghtsoonian et al, 11754
sex differences, responses to odors of familiar vs novel sex partners, rats, 2897
single trial exposure to novel taste &/vs odor stimuli followed by poison, subsequent aversion to taste vs odor, male rats, 599
Olfactory Stimulation
age & sex, role of social experiential factors in preference for odors from stressed vs nonstressed conspecific male, mice, 628
amyl acetate vs suckling pheromone stimulation, olfactory bulb uptake of 2-deoxy-dextro-glucose, rat pups, 3216
cage scent of same vs opposite sex conspecific, ultrasound emission, male vs female woodmice, 12122
chemical stimuli produced by conspecifics in reproductive state, short- vs long term behavior patterns, intact vs anosmic vs sham-operated adult male cichlids, 2903
clean cages with vs without fecal odors, defecation latency & investigatory behavior, snakes, 7354
commonality in reward vs nonreward odor excretions, runway response patterns, male vs female pathmaking vs pathfinding rats, 7303
conditioned avoidance to amyl acetate vs dextrocamphor, salamanders, implications for role of trigeminal vs vomeronasal systems, 594
constant flow rate olfactometer with calibrated concentrator for studying insect electroantennogram without thermic or mechanical interference, 62
con- vs heterospecific male odors, competition for space, voles, 5182
environment of cyclohexanone vs deodorized air, olfactory sensitivity, male rat pups, 7566
exposure to pheromone androstenol, responses to questionnaire regarding menstrual cycle & mood change, female college students, 12351
female sexual cycle & sex pheromones, male agonistic behavior, rats, 7382
habituation to visual vs auditory vs olfactory stimulus, crossmodal generalization, male rats, 2832
microcomputer-controlled olfactometer, 4663
nasal cannulation for olfactory stimulation, rats, 4723
nasal marking in response to novel olfactory stimuli & role of arousal, squirrel monkey groups, 752
neonatal thyroxine, classical conditioning, infant rats, 7662
odor cues, transfer of single & double alternation patterning, male rats, 2868
olfactory bulbectomy, ultrasound production & scent marking, female hamsters, 3115
possible confound & role of olfaction in aggressive interaction, mice, 2377
presentation of novel olfactory stimulus while suckling, preference for stimulus, infant rats, 12015
relationship between air flow rate & odor perception, reply to critique by M. Teghtsoonian et al, 11754
response contingent aromatic ammonia, clinically significant vs therapeutic control of self injury, profoundly mentally retarded 15 & 16 yr old females, 8558
role of visual cues & olfactory stimulation, mating behavior, Egyptian cotton leafworm moths, 9679
simple exposure vs exposure associated with conspecific & sensory affective bias, establishment & maintenance of preference for olfactory stimuli, rat pups, 565
suggestion vs transient olfactory stimulation, EEG evoked potentials & electrodermal response, males who wintered-over in Antarctica, 694
taste & odor & cage & bottle stimuli, taste aversion conditioning & extinction, male rats, 541
testosterone, odor-induced flank marking, male hamsters, 9854
triangular vs 3-alternative forced choice methods, measurement of signal detection with olfactory stimuli, Ss, 11578
Olfactory Thresholds
olfactory sensitivity & estrus cycle, female mice, 12187
smell & taste thresholds, 65–93 yr olds, 1041
temperature & humidity, flow thresholds of nonodorous air, male graduate students, 782
Oligophrenia [See Mental Retardation]
Oligophrenia (Phenylpyruvic) [See Phenylketonuria]
On the Job Training
applications of flight simulators for maintenance training, 6820
on-the-job training capacity & mission performance quality, US Air Force operational units, implications for development of estimation methodology, 6797
Onset (Disorders)
age at illness onset & EEG & morbidity risk for affective disorder & alcoholism & antisocial personality in 1st-degree relatives, bipolar probands, 1485
age at occurrence of psychological development disturbance, behavioral disorders vs depression, children, 5950
age at onset, psychological adjustment, 5.8–36 yr old pediatric cancer survivors, 1593
childhood vs adolescent onset of behavior disorders, diagnoses & outcome, adolescents followed since infancy, 6056
clinical & sleep EEG findings, subaffective dysthymias vs character spectrum disorders as subtypes of characterological depressions, 1399
clomipramine treatment, MAO activity & onset of mania, unipolar depressed patients, 6419
course of psychotic symptoms prior to first hospital admission, schizophrenics, prevention & prognosis implications, 12963
delayed development of psychosomatic skin disorders, survivors of Nazi concentration camps, 1619
depressive states, onset & maintenance of obesity, adults, 5918
etiology & diagnostic problems & lithium therapy effectiveness, male & female patients with bipolar psychosis onset before age 16, 5958
experiential & psychological factors, psychogenesis & onset of anorexia nervosa, 10647
family history & psychotherapeutic outcomes & prognosis & mode of onset, schizophrenic & paranoid symptoms, depressed patients, 12947
LSD usage, age at onset of illness, chronic schizophrenics, 8172
obsessionality before vs after onset of schizophrenia, literature review, 8131
occurrence of psychiatric illness, adolescent & adult offspring of bipolar manic-depressives, 1498

onset & characteristics & effect of haloperidol treatment, Gilles de la Tourette syndrome, mildly retarded female 16 yr old, 6388
onset & involution of delusion, schizophrenics & other paranoid psychotics, Middle East, 3776
onset of mania, bipolar manic depressive patients, 10488
perceptual & physiological abnormalities, early onset psychosis, literature review, 3787
reduced activity of angiotensin converting enzyme in postmortem study of basal ganglia in early onset schizophrenia, 1401
seasonal variations for episodes of recurrent depressive or manic affective psychoses, 10480
severity of brain damage resulting from localized head injury, intelligence & reading & cognitive & motor performance, school age children, 1566
sleep & depression, 61 yr old female catatonic schizophrenic, 8135
social support & residual adversity & life stress, symptom severity 7 mo after onset of depressive illness, 22–65 yr old patients, 1484
stressful life events experienced 6 mo prior to illness onset, neurotic vs nonneurotic depressives, 12941
Ontogeny [See Development]
Open Classroom Method
classroom environment & student locus of control & sex differences, teacher ratings of achievement & behavior, 3rd–5th graders in open vs traditional classrooms, 2067
traditional structured vs free play school settings vs open education to match cultural values, American Indian children, 8869
Open Field Behavior (Animal) [See Animal Open Field Behavior]
Openmindedness
dogmatism & field dependency, cognitive vs perceptual style vs openness of attitude, 12880
scoring of sentence completion responses for ego development level & correlation with personality trait measures, 35–80 yr old males, 5873
Operant Conditioning [See Also Avoidance Conditioning, Conditioned Emotional Responses, Escape Conditioning, Eyelid Conditioning]
acquisition & extinction & reversal performance of operant visual spatial tasks, male rats with superior colliculus lesions, 856
acute vs chronic delta-9-tetrahydrocannabinol administration, sequential pressing of 2 vs 5 differently colored keys, squirrel monkeys, 12348
advantages of augmented biofeedback vs operant conditioning procedures for research & clinical use, 8486
age at training, learning vs performance of response inhibition, 20–45 day old male rats, 9648
age differences, conditioning requiring slow response, weanling vs adolescent rats, 9632
age & free feeding vs caloric restriction, food-motivated behavior, male obese vs lean rats, 7423
ambiguity of discriminative cues, discrimination learning, pigeons, test of R. W. Leary's approach-avoidance explanation, 573
amount of previous training on VI operant task, choice of freely-available vs response-contingent food, pigeons, implications for response variability in studies involving free food, 5111
amygdalectomy, running speed following large vs small rewards & delay of reinforcement, female rats, 9888
apomorphine, elicited vs operant pecking, pigeons, 12345
apparatus & operant conditioning procedure for voluntary noninvasive blood pressure measurement, conscious unrestrained baboons, 4719
approach response mediation & response competition, operant transfer of learning in noncontingent phase, male rats, implications for methodological validity of transfer experiments, 597
arrangement of concurrently available reinforcement schedules & stimulus disparity, relative responding, pigeons, 12056
behavioral analysis, explanation for exploratory behavior, infants & animals, 9626
bilateral hippocampus lesions, superstitious operant behavior, male rats, 838
change in reinforcement density as aspect of behavioral contrast, response rate, pigeons, 12073
changes in reward after conditioning, maze behavior, male rats, 7314
combination of discrete trial psychophysical & tracking procedures & response pattern analysis, within-trial stimulus thresholds in key pecking task, pigeons, 12179
combination of Lewinian field theory & Skinnerian behavior modification, rehabilitation, disabled, 4184
commonality in reward vs nonreward odor excretions, runway response patterns, male vs female pathmaking vs pathfinding rats, 7303
competitive vs cooperative tasks, dominance behavior, captive male red-winged blackbirds, 2894
component duration, contrast during reinforcement vs extinction, pigeons, 12083
continuous reinforcement with vs without partial reinforcement, resistance to extinction, college students, 11961
continuous vs partial reinforcement with nonrewarded-rewarded vs rewarded-nonrewarded trial transitions during acquisition of discrete-trial keypecking vs lever pressing response, extinction, male pigeons & rats, 570
covert reinforcement vs rehearsal vs information control vs attention placebo vs delayed treatment, test-taking anxiety, college students, 6708
criticism of Skinner's operant behaviorism, 33
delayed reinforcement & reinforcers as stimuli & alternative response, self control, pigeons, implications for W. Mischel's results with preschoolers, 7306
delta-9-tetrahydrocannabinol &/or pentobarbital, key selection discrimination, pigeons, 3182
dextroamphetamine, simultaneous & successive discrimination task with required response, marmosets, 5401
dextroamphetamine vs morphine vs clozapine & time limit variations, response under FR schedules of food presentation & stimulus shock termination, squirrel monkeys, 7671
different tone intensities within nondifferential reinforcement schedule, response rates, rats, 7327
discriminative conditioning of avoidance response, neuronal activity of circulate cortex & anteroventral thalamus, rabbits, 9767
dosage of phenobarbital as discriminative stimulus, stimulus control, pigeons, 5091
duration vs intensity of auditory signal in conditional discrimination training, temporal discrimination learning, albino rats, 12070
exposure to Pavlovian conditioned suppression & acceleration procedures following VI food reinforcement training, leverpressing vs "freeloading" pellet consumption rates in presence of Pavlovian CSs, male rats, 553
extinction of stimulus vs response association in behavior conditioned by stimulus & response reinforcement, persistence of responding, male rats, 9653
extinction vs pimozide & intermittent reinforcement, operant task response rate, male rats, 7700
fading negative vs positive stimulus in prompting procedures, acquisition of visual discriminations, autistic 4.5–13 yr olds, 4068
feedback function of response rate determining reinforcement rate in VI reinforcement, 4722
fimbria-fornix lesions, cue learning in response-dependent paradigm & importance of cue location, male rats, 833
FI vs DRO schedules of reinforcement, keypecking behavior, pigeons, 9647
fixed vs random sequence of reward magnitude, differential running, rats, 9629
food deprivation level at time of initial exposure to food reinforcer, acquisition & extinction of instrumental response, male rats, 12062
force band level & width, differential reinforcement of finger press response peak force, adults, 11734
genetic & environmental determinants, individual differences in sensory contingent bar pressing, rats, implications for motivation, 2864
high fat diet, reactions to quinine adulteration & sugar solution & shock stimulation & drinking "shocked" water & activity level & food motivated operant behavior, early- vs late-onset obese male rats, 5309
high vs low frontalis muscle tension & instructions as to rate of responding & schedule of reinforcement, buttonpress responding, 30–66 yr old schizophrenics, 13014
hyperstriatal/hippocampal brain damage, discriminatory approach to auditory stimulation, guinea fowl, 5344
identity of correct vs uncorrect comparison stimulus, matching & oddity learning, pigeons, 12084
instructions & contingency of reinforcement, operant conditioning of phasic heart rate change, college students, 7545
interreinforcement response frequency, postreinforcement pause length, pigeons, 9623
intraventricular self administration of acetaldehyde as reinforcement in operant voluntary consumption of ethanol, male rats, 868

learning ability & postreinforcement EEG synchronization, cats, 9740
learning in drugged vs nondrugged state & continuous vs FR reinforcement, reward maximization, male rats, 7645
length & variability of duration of food signal, activity & leverpressing & eating performance, male rats, 5112
lesions of subcallosal fornix or medial half of fimbria, Y-maze learning & cue guided spatial reversal task & passive avoidance & open field testing, male rats, 832
levels of drive & persuasive communication, speed of agreement with opinion & conditioned attitude strength, college students, 12829
mass line leadership & thought reform, People's Republic of China, 12622
memory for reward vs formal structure, serial-pattern learning, rats, criticism of research of E. J. Capaldi et al, 12039
metabolites & derivative of delta-9-tetrahydrocannabinol, generalization of delta-9-tetrahydrocannabinol discrimination, pigeons & rats, 12373
methodological reduction of competing & noxious stimuli, discrimination learning of instrumental response, Drosophila melanogaster, 5117
morphine & naloxone, performance under discriminated approach vs avoidance schedules, male rats, 7618
morphine & naloxone, schedule-controlled response rates, morphine-dependent vs postdependent male rats, 7623
nalorphine & shock increment schedules, response under electric shock titration, male squirrel monkeys, 7636
naloxone, suppression of diazepam induced eating & leverpressing, male rats, 3213
negative instances & correction & number of incorrect alternatives, oddity learning, pigeons, 12085
noncontingent reinforcement schedules, operant conditioning, 2375
observation of male vs female model & number of response-relevant cues, leverpress acquisition rate in observational learning, mice, 606
observation of skilled vs unskilled companions vs no observation, learning, quail, 12071
ONLINE BASIC microcomputer program for control & recording of events in operant conditioning experiments, 90
operant blood pressure conditioning, plasma catecholamine & renin levels & systolic & diastolic blood pressure & heart rate, male baboons, 9738
operant conditioning, disruptive behavior, 8th grade males, 13569
operant contingencies, schedule-induced interim drinking, pairs of hooded rats, 601
operant control of precentral neurons, rhesus monkeys, 3012
operant self control procedure, compulsive hair pulling, 19–25 yr old females, 6325
operant technology principles, treatment of behavioral disorders, adolescents, literature review, 13300
operant training to discriminate dextroamphetamine vs 2,5-dimethoxy-4-methylamphetamine from saline, generalization tested with mescaline vs methylphenidate, rats, 610
orgasmic conditioning, assessment of work of D. J. Keller & A. Goldstein, 4074
pairing of 1st order CS used for autoshaping vs omission training with food, 2nd order autoshaping, pigeons, 12082
partial vs continuous reinforcement, speed of running, 18–20 & 52–54 day old rats, 9631
partial vs continuous reinforcement schedule & subsequent abrupt change in reinforcement magnitude, resistance to extinction, male rats, 598
partial vs continuous vs changed reinforcement vs nonreinforcement, speed of acquisition & extinction & transfer on runway task & 2-wk retention, 14–15 day old rats, 2843
personality traits & feedback, operant heart rate conditioning, male college students, 3047
phencyclidine dose, behavioral tolerance, male rats trained in barpressing, 3207
pipradrol & nonspecific stimulus change & feeding in test environment & prior exposure to conditioned stimulus, acquisition of responding with conditioned reinforcement, rats, replication of findings by R. T. Hill, 5352
positive induction during conditioning & extinction, male rats, 12038
postconditioning devaluation of instrumental reinforcer, extinction performance, male rats, 5090
posttraining icv corticosterone injection, memory of appetitive discriminative task, mice, 9949
preference for punishment of instrumental vs consummatory response, male Long-Evans rats, 604
presence vs absence of food signals & termination of reinforcement to 1 key, switching to reinforced key & continued pecking of extinguished key & role of signals as reinforcers vs informants, doves, 5096
presentation of color videotaped TV images of conspecific social behavior as operant reinforcement, response rate, juvenile macaques, 613
procedures for establishing generalization & maintenance of treatment effects, operant tradition in behavior therapy, 13306
reinforcement schedule on 2nd link of 3-link chain, matching to sample accuracy, pigeons, 9659
reinforcer magnitude, preference for response alternative associated with certain vs uncertain reinforcement, male pigeons, 7341
relative reinforcement rates & durations & food reinforced multiple VI VI schedule training, unreinforced choice & relation to schedule slope, pigeons, 561
repeated acquisition of 4-member response sequence, male rats, 5124
repeated extinction & reacquisition, response rates, male rats with complete vs lateral vs medial septal lesions, 9899
rule encoding in serial learning, animals, reply to S. H. Hulse's criticism of work of E. J. Capaldi et al, 12018
self reinforcement following response requirement in pigeon experiments & application to behavior modification in 26 yr old female, 1829
self vs externally imposed performance standards & reinforcement, persistence & accuracy on academic tasks, 3rd–6th graders, test of H. Kanfer's self regulation model, 2117
series of rewards terminating in nonreward & stimulus generalization from reward memories, serial anticipation pattern learning & transfer, male rats, 12019
signaled vs unsignaled shock, preference & extinction of contextual fear, male rats, 12031
simultaneous vs sequential CS presentation in feature negative discrimination training, conditioned inhibition learning, pigeons, 568
social reinforcement & verbal feedback, increase in rehabilitative behaviors in token economy program with psychiatric patients, support personnel, 13479
stimuli correlated with 3 alternating FI schedules, extent & rates of observing responses maintained, pigeons, 7296
stimuli positively vs negatively correlated with monetary reinforcement & degree of effort, key pressing & observing & plunger pulling behavior, 26–34 yr old male industrial workers, 9588
stimulus duration & VR reinforcement, discriminability & response rate & choice, pigeons, 9651
stimulus element arrangement, matching to sample of compound stimuli performance, pigeons, 12049
stimulus fading vs traditional discrimination training, discrimination of braille patterns, college students, 458
stimulus fading with graded response criteria, speech reinstatement, selectively mute 6 yr old female, 6345
superior colliculus lesions, running latencies in straight runway & brightness discrimination with spatially separated stimulus-response sites, male rats, 846
synthesis of operant conditioning & ethology for science of explanation of behavior, 4652
taste & odor & cage & bottle stimuli, taste aversion conditioning & extinction, male rats, 541
theoretical background of biofeedback & review of self regulation of visceral & glandular responses by operant conditioning, 12263
training to test interval & timing of pretest hippocampal electrical stimulation, retention of appetitive operant conditioning, male mice, 12040
trials per session & sessions per day of conditional inhibition training, nictitating membrane response, rabbits, 12011
true discrimination vs single stimulus vs pseudodiscrimination training with line angles & variable vs fixed reinforcement schedules, transfer to wavelength discriminations, pigeons, 9656
UCS intensity during Pavlovian conditioning of skin-conductance response, role of instrumental reinforcement process in CR amplitude & resistance to extinction, college students, 485
undernourishment in early life & DRL, witholding of barpressing responses in operant conditioning, adult rats, 9861
value of reinforcement contingency, response rate, rats, 9641
variable ratio punishment schedules, rates of reinforced responding, pigeons, 7317

variations in local reinforcement rate, local response rate, rats trained to leverpress for sucrose, 7318
VI schedule of reinforcement & conditioned suppression paradigm & novel environments, CS extinction, rats, 12036
visual beat-by-beat vs no vs VR biofeedback, self control of heart rate, male college students, 7535
visual vs auditory stimulation, perching time, lovebirds, 556
vocational response chains, performance during extinction, severely retarded 40 yr old male & 24 & 52 yr old females, 8729
Operation (Surgery) [See Surgery]
Ophidiophobia
alcohol & expectancy of alcohol, fear & avoidance behavior, snake-fearful Ss, 9956
fear of snakes & flooding sessions, fear reduction, wild vs laboratory reared monkeys, 12009
public statement of self efficacy, behavioral avoidance performance, snake fearful college students, 6333
Ophthalmologic Examination [See Also Electro Oculography, Electroretinography]
effectiveness of preschool examinations, detection of visual defects, school entrants with mean age 5.6 yrs, England, 13374
entoptic observation method, measurement of retinal leukocyte flow rate & ophthalmologic diagnostic utility, 6991
eye examinations, identification of cause of congenital hearing impairment, children, 10652
Ophthalmology
symposium proceedings on intense light hazards, eye damage, 13156
Opiates [See Also Apomorphine, Codeine, Heroin, Morphine]
changes in ego structure, functional psychosomatic illness, opium addicts, 1395
daily opiate injections of various dosages, log dose/response curve flattening, rats, 9951
drug career of amphetamine & opiate abusers, followup studies, 6525
drug & iv injection dose & access conditions for codeine vs cocaine vs etorphine, drug maintained leverpressing rates, rhesus vs pigtail macaques, 9973
drug relevance of stimulus words, suppression of associations related to stages of addiction, male heroin or opiate addicts, implications for measurement of habit strength, 1517
endogenous opiates, stress induced eating, male rats, 5394
ethyl alcohol & pentobarbital injections into median thalamus & periaqueductal gray matter & nucleus of tractus solitarius & naloxone, sleep EEG, rabbits, 12407
function of endorphins in brain & possible role in opiate addiction & mental disorders, review of research, 698
heroin vs codeine vs dextropropoxyphene vs pentazocine, progressive FR performance, rhesus monkeys, 5378
level of met-enkephalin-arg-6-phe-7 in brain, opioid agonistic effects, rats & cattle & humans, 7486
naloxazone vs naloxone, ACTH-induced grooming, mice, 9927
naloxone, neuron response to noxious & non-noxious stimulation of spinal cutaneous receptive fields, male rats, 9946
painful visceral stimulation & inhibition by naloxone, diffuse noxious inhibiting controls & evidence for role of endogenous opiates, male rats, 12290
responses to process association tests of addiction, suppression vs enhancement of other responses & development of suppression scale, male opiate addicted prisoners, 7055
response to clean vs drug relevant vs drug word stimuli as indicator of stage of addiction vs steps in drug taking vs drug effects, male opiate vs heroin addicts, 13030
stress induced by pain anticipation, monosynaptic & nociceptive flexion reflex & heart rate & respiratory frequency, 23–24 yr olds, 5247
trifluoperazine vs sulpiride with vs without dexamethasone, opiate activity in pituitary extracts, male rats, 3214
unilateral olfactory bulbectomy, opiate lignad binding in contralateral bulb, female mice, implications for limbic function & emotional behavior modulation, 5339
Opinion (Public) [See Public Opinion]
Opinion Change [See Attitude Change]
Opinion Questionnaires [See Attitude Measures]
Opinion Surveys [See Attitude Measures]
Opinions [See Attitudes]
Opium Alkaloids [See Alkaloids, Opiates]
Opium Containing Drugs [See Opiates]
Opium Derivatives [See Opiates]
Opossums
captive maintenance & food preferences & activity patterns & functional behavior, Marmosa murina, 7361
lithium chloride induced taste aversion, saccharin flavored water drinking & killing & consuming of mice, opossums, 7297
ontogenesis of quiet sleep state & thermogenesis & thermoregulation, accompanying EEG activity, 48–79 day old Virginia opossums, 3033
striate cortical lesions, evidence for 2 terminal fields in pretectal complex including intrabrachial & subbrachial nuclei, opossums, 9894
subfornical organ, effect of angiotensin II on drinking behavior, North American opossums, 5366
water vs sugar solution, choice behavior, opossums, 2915
Optic Chiasm
neuroanatomy of visual pathway, literature review, 2989
visual deprivation & surgical section of optic chiasm, abolition of optokinetic nystagmus, cats, 5308
Optic Nerve
labeling fibers with horseradish peroxidase, retinotopic analysis of fiber pathways in optic tract & tectum, adult newt, 9804
neuroanatomy of visual pathway, literature review, 2989
optic nerve distention, cichlid fishes, 9765
removal of right eye & crushing of optic nerve of left eye, ability of ipsilateral optic tectum to mediate vision when containing only spontaneous ipsilateral optic tectal projection, goldfish, 854
striate cortical lesions, evidence for 2 terminal fields in pretectal complex including intrabrachial & subbrachial nuclei, opossums, 9894
unilateral sectioning of optic nerve, pattern reversal electroretinographic responses, cats, 12335
visual receptive fields of neurons in nucleus of basal optic root, accessory optic system, pigeons, 9756
Optical Illusions [See Illusions (Perception)]
Optimism
developmental changes in school attitude & self esteem & locus of control & optimism & motivation, middle- & lowerclass children at beginning vs end of 1st grade, 11254
positive vs negative future events & knowledge of unrealistic optimism of others, prediction of occurrence for self & others, college students, 8087
validity & reliability of Optimism-Pessimism Test Instrument, measurement of tendency to expect positive vs negative outcomes, 1st–2nd graders, 233
Optometry
polarized vernier optometer, 113
Oral Communication [See Verbal Communication]
Oral Contraceptives
perceived consequences & normative influences, use of oral contraceptives, college students, 5711
progestin level in oral contraceptives & trimester of pregnancy, sweetness preference, 17–31 yr old females, 3159
sex role attributes & anxiety & severity of menstrual distress & oral contraceptive use, Catholic vs Protestant vs Jewish females, 1581
Oral Reading
assessment, methods of correcting oral reading, learning disabled 13 & 14 yr olds, 9008
changes in vocalization, choral reading with recorded other speaker, stutterers vs normal speakers, 1552
concurrent activities such as silent vs oral reading vs solving block design problem, interference with left vs right index finger tapping, college students, 7457
delayed vs immediate attention to errors, oral reading accuracy & self correction, 2nd graders, 13604
diagnostic teaching using trained observation & listening, oral reading, 8892
difficulty of reading material, oral reading strategies, 4th–7th grade disabled readers, 8246
Hebrew words written with correct vs incorrect vs no vowel signs, RT to name word, college students, 9979
individual & group feedback, reduction of oral reading errors, 5th grade learning disabled vs non-learning disabled underachievers, 6741
lateral preference, type of oral reading errors, male 7th grade good vs poor readers with vs without decoding skills, 11219
linguistic cue use in oral reading behavior, learning disabled children, 3879
praise &/vs noncontingent vs contingent correct self recording, pronunciation during oral reading, 11 yr old learning disabled male, 4404

processing of word associates, 38 yr old male with semantic paralexia, 6076
pseudocues & supercues, prediction of oral reading comprehension as measured by cloze test, 2nd & 3rd & 4th & 6th graders, 4451
pupil oral reading behaviors & background factors, corrections & cues & length of reading assignments, primary grade teachers, implications for teacher expectations, 13585
reading ability & sentence complexity, oral vs silent reading rate & comprehension, 2nd & 5th graders, 11225
round robin vs diagnostic error detection strategies in oral reading, implications for teacher education, 2098
self recording & tokens & contingent free time, reading comprehension, learning disabled 8.8–14.9 yr olds, 13665
sound blending & auditory closure, word analysis skills & oral & silent reading, learning disabled 6–10 yr olds, 3867
story hearing & retelling, alphabet learning, preschoolers, 4297
teacher responses to student miscues during oral reading, 2nd grade students & teachers, 8903
text distortion to reduce shape vs sound vs orthographic cues, oral reading speed, 5.8–8.4 yr old good vs poor readers, 12550
Organ of Corti [See Cochlea]
Organ Transplantation
consultation-liaison psychiatry, renal transplant hospital unit, 1948
nigral transplants, striatal dopaminergic neurotransmission & spontaneous motor behavior & sensorimotor orientation & sensory attention, female rats with bilateral nigrostriatal dopamine pathway lesions, 12329
presumptive occipital cortex transplantation to host amina cribosa area of partial or total bulbectomy, regrowth of olfactory sensory axons into transplant, mice, 7601
regressive megalomanic vs progressive hypomanic models, "one day at a time" syndrome, post-kidney transplant patients, 1899
Organic Brain Syndromes [See Also Alcoholic Hallucinosis, Alzheimers Disease, Delirium Tremens, Korsakoffs Psychosis, Presenile Dementia, Senile Dementia, Senile Psychosis, Toxic Psychoses]
Bender Gestalt Test & Memory for Design Test, normal vs schizophrenic vs organic males, 7067
criticism of "senility myth" & responsibility of medical practitioners in diagnosis of organic disorders in aged, 13081
cross-validation of booklet form & original Halstead Category Test, 18–88 yr olds with organic brain syndrome vs schizophrenia vs personality disorder, 9380
differential diagnosis, organic brain syndromes & psychoses, aged, 1626
lithium carbonate treatment, neurological complications & organic brain syndrome & extrapyramidal side effects & seizures & EEG changes, 6383
methods for diagnosis for organic brain damage, patients with mental symptomatology, 13146
Psychiatric-Organic Special Scale of MMPI, differential diagnosis, male organic & psychiatric patients with mean age of 58 yrs, 9358
published procedures for MMPI, diagnostic discrimination between organicity & schizophrenia, 11657
Organic Therapies [See Also Drug Therapy, Electroconvulsive Shock Therapy, Electrosleep Treatment, Psychosurgery, Shock Therapy, Sleep Treatment, Vitamin Therapy]
ascorbic acid & B complexes & minerals & dextrose & fluids, recovery from excess anesthesia & paranoid delusions & short term depression & degenerative & thought disorders, 15–79 yr old patients, 10790
dietary zinc &/vs manganese, copper levels, schizophrenics & arthritics & psoriasis patients, 10753
removal of milk & butter & yogurt from diet, symptoms of confusion & delusion & memory impairment & poor mental efficiency & fatigue, patients with thought disorders, 10757
Organization (Spatial) [See Spatial Organization]
Organizational Behavior
adequacy of stage models, decisions to accept innovation, transportation personnel, 4549
amount & equivocality of information processing, variety & analyzability of activities, organizational work units, 11476
antecedents & role in information transfer into organizations, boundary spanning professionals, 4563
application of family systems & organizational principles to family businesses, 2258
autonomy vs centralization vs communication vs formalization vs job satisfaction, innovation & large scale instructional development, military vs federal vs commercial vs university organizations, 11489
components of organizational control system including goal setting & measurement & corrective actions, satisfaction & performance, managers, 11454
cross lagged correlational analysis, perceptions of role ambiguity & conflict & organizational effectiveness & job satisfaction & alienation & teamwork, management trainees in 3 simulated organizations, 11412
current status & application of psychosociology, institutional analysis & organizational intervention & action research, 1116
difference score measures of organizational behavior, literature review, 261
frequency & location & nature of conflict in hospital purchasing, hospital administrators & purchasing managers, 4539
group communication, quality of task solution, college students, 3605
hospital privileges & staff membership, psychologists, 4214
integrative model of organizational behavior & management of change, 4559
job seniority & experimental instructions, styles of ingratiating behavior, technical vs nontechnical male workers, 2266
major premises of comparative organization theory, 6874
multicomponent theory, organizational & managerial decision making, 11469
no fault disciplinary system, employee absenteeism, 13772
organizational analysis, scapegoating, study groups in Tavistock Group Relations training conference, 10317
organizational climate & communications & job satisfaction & perceived productivity as criteria for assessment of organizational effectiveness, Air Force personnel, 11486
organizational commitment, manager's ratings of employee performance, bus service employees, 2242
organizational commitment vs job satisfaction, motivation to resign from job, employees, 11497
organizational structure, accommodation to uncertainty & decision analysis, 6873
perceived commander's behavior & organizational climate & unit effectiveness & subordinate's behavior, US Army company enlisted personnel, 4550
power & leadership & stress management in organizations, 4543
priority issues in mental health administration, participants in 1977 National Institute of Mental Health conference, 6469
reliability of measure of institutional discrimination against minorities, 173
research on work & management & social consciousness, Czechoslovakia, 9183
Organizational Change
application of theories of social change & organizational development to schools, Sweden, 6622
autonomy vs centralization vs communication vs formalization vs job satisfaction, innovation & large scale instructional development, military vs federal vs commercial vs university organizations, 11489
conflict of goals & personnel patient & class differences, innovative treatment failure in public mental institutions, psychiatrists & psychiatric nurses & aides & patients, literature review, 6550
developmental trends & sociocultural variables, overview of personnel management, South Africa, 9188
efficiency & reliability, mechanical vs human systems, 9150
evaluation and demise, New York Center of the A. K. Rice Institute, 6583
frameworks for research, processes of innovation & change in higher education, 8813
implementation of internal change team in urban school district, facilitation of school integration, 11159
integrative model of organizational behavior & management of change, 4559
managerial style & receptivity to change, middle management public school administrators, 2076
organizational development & facilitation of change, 4469
organizational theory & consulting practices, organizational change, 11508
organization of community mental health center by project or service vs department only, 6478
policy-capturing, indirect attitude measure to detect prejudice in organizational diagnoses, male college students, 4803
tank crew composition changes, gunnery performance, US Army tank crew members, 2244
taxonomy of organization development research variables & methodologies, literature review, 9295

Organizational Climate
accurate interpretation of employee attitude surveys through analysis of organizational context, 2257
curriculum development & organizational variables, evaluation of military & nonmilitary course authoring systems, 2096
department size & personnel education & task routineness & workflow interdependence & environmental uncertainty & formal structure, leader behavior, book publishing company department managers, 4540
development & benefits of industrial recreation programs, 11478
factors related to job satisfaction, workers in large vs small firms, 11475
formal grievance procedures in organizations, conflict management & adjudication & agreement clarification & communication & due process, 6866
leader personality traits & pathological structures, psychoanalytic interpretation of breakdown of group & organizational processes, 6867
length of service & job involvement, job satisfaction & positive perception of organizational climate, Air Force civilian vs military personnel, 6868
organizational climate & communications & job satisfaction & perceived productivity as criteria for assessment of organizational effectiveness, Air Force personnel, 11486
organizational environment, internal power patterns, organizational executives, 11461
perceived commander's behavior & organizational climate & unit effectiveness & subordinate's behavior, US Army company enlisted personnel, 4550
positive team building intervention, overall organizational effectiveness, supervisor group, 11472
realistic job previews, reduced turnover, retail store employees, 13768
statewide climate of labor-management relations, foremen & union stewards, 11499
supportive organization climate, action research by counselors in school systems, 2189
user generated modifications of hospital ward design, mood & morale & perceived quality of health care, patients & staff & visitors, 1942
ward atmosphere, job satisfaction, psychiatric nurses, 4223
work experience, perceived characteristics of work environment & intent to reenlist, US Navy enlistees, 4553
Organizational Crises
leader personality traits & pathological structures, psychoanalytic interpretation of breakdown of group & organizational processes, 6867
leadership as means of solving organizational problems, problem appropriate behavior model, 13759
Organizational Development
application of family systems & organizational principles to family businesses, 2258
application of theories of social change & organizational development to schools, Sweden, 6622
autonomy vs centralization vs communication vs formalization vs job satisfaction, innovation & large scale instructional development, military vs federal vs commercial vs university organizations, 11489
cross lagged correlational analysis, perceptions of role ambiguity & conflict & organizational effectiveness & job satisfaction & alienation & teamwork, management trainees in 3 simulated organizations, 11412
developmental trends & sociocultural variables, overview of personnel management, South Africa, 9188
employee & organizational factors, career planning process, 2211
frameworks for research, processes of innovation & change in higher education, 8813
management-consulting approach to evaluation, 13762
organizational development & facilitation of change, 4469
organizational theory & consulting practices, organizational change, 11508
philosophy underlying practice of organizational development, 11506
policy-capturing, indirect attitude measure to detect prejudice in organizational diagnoses, male college students, 4803
purpose & methods of organizational diagnosis in human systems, 4565
taxonomy of organization development research variables & methodologies, literature review, 9295
Organizational Goals [See Organizational Objectives]
Organizational Objectives
length of service & job involvement, job satisfaction & positive perception of organizational climate, Air Force civilian vs military personnel, 6868
management by objectives in American cities, 11467
models of role orientations, faculty & administrators at research oriented university, 11167
organizational models & management strategies for behavioral administration of residential treatment programs, 13409
organizational objectives, winning vs losing, National Football League teams, 4555
priority issues in mental health administration, participants in 1977 National Institute of Mental Health conference, 6469
recommendations for action by industrial & organizational psychologists to increase productivity & growth, 2249
Organizational Psychology [See Industrial Psychology]
Organizational Structure
amount & equivocality of information processing, variety & analyzability of activities, organizational work units, 11476
analogy between occurring social & cognitive communication systems & automated distributed computation within organizations, 49
antecedents & role in information transfer into organizations, boundary spanning professionals, 4563
autonomy vs centralization vs communication vs formalization vs job satisfaction, innovation & large scale instructional development, military vs federal vs commercial vs university organizations, 11489
culture & organizational structure & educational level & achievement orientation, job satisfaction, factory workers, India vs Western countries, 6871
department size & personnel education & task routineness & workflow interdependence & environmental uncertainty & formal structure, leader behavior, book publishing company department managers, 4540
evaluation of administration & facilities & activities & services of National Industrial Recreation Association, association members, 9145
history & current status & organizational structure & function & priorities of psychology department clinic, 8796
job expectancy & perceptions of job & company & selling constraints & personal characteristics, selling success, industrial salespeople, 4535
organizational structure, accommodation to uncertainty & decision analysis, 6873
organizational structure, reactions to work & work context, employees, 2265
organizational structure & job characteristics, job satisfaction & performance, publishing company nonsupervisory employees & their supervisors, 13764
organization of community mental health center by project or service vs department only, 6478
position in status vs functional system in mental health services, role conflict, paraprofessionals, 6540
reaction to organization structure, Japanese vs Japanese-American vs American employees of Japanese-owned firms in US, 2263
structural formalization, role ambiguity & conflict & identification with organization & alienation, engineers & scientists in organizations, 11495
systems theoretic approach, complex organizational managerial strategies, 2252
Organizations [See Also Alcoholics Anonymous, Business Organizations, Government Agencies, Labor Unions, Nonprofit Organizations, Professional Organizations]
actual vs ideal distribution of control, workers in industrial organizations, Yugoslavia, 11463
antecedents & role in information transfer into organizations, boundary spanning professionals, 4563
autonomy vs centralization vs communication vs formalization vs job satisfaction, innovation & large scale instructional development, military vs federal vs commercial vs university organizations, 11489
belief in scientific solutions to social problems, dominance of professionals & bureaucratic organization in human services, 4123
career development in work organizations, review of research & practice, 4485
citation analysis, organizational science journals, 1957 & 1967 & 1977, 9136
current status & application of psychosociology, institutional analysis & organizational intervention & action research, 1116

development of survey feedback tool for assessment of management styles & attitudes & organizational analysis, plastics firm top managers, 2435
differences in norms used for definition of mental retardation by social agencies, 13436
evaluation and demise, New York Center of the A. K. Rice Institute, 6583
evaluation of administration & facilities & activities & services of National Industrial Recreation Association, association members, 9145
gathering & use of information, organizations, 11482
group affiliation, assimilation & contrast effects biasing rating of organizations, male college students, 12817
group vs private & on-site vs telephone program evaluation methodology, drug abuse agencies, 2045
major premises of comparative organization theory, 6874
methodological & theoretical issues, cognitive processes in individual decision making in organizations, managers, 2255
past research & future research needs, guidelines for interorganizational cooperation, 11501
purpose & methods of organizational diagnosis in human systems, 4565
reimbursement guidelines for psychological services, insurance companies, 4224
reliability of measure of institutional discrimination against minorities, 173
role stress & job design characteristics & organizational technology, employee work satisfaction, managerial & nonmanagerial personnel in manufacturing & banking, 4546
School Consultation Committee, teacher consultation for mainstreaming behaviorally disordered students, 11196
techno-industrial organizations, implications for decision making & social planning, 6870
victim's race & organizational affliction, cross-racial discrimination in helping behavior, Blacks vs Whites, 5719
Orgasm [See Also Female Orgasm, Male Orgasm, Nocturnal Emission, Premature Ejaculation]
orgasmic conditioning, assessment of work of D. J. Keller & A. Goldstein, 4074
Orientation (Perceptual) [See Perceptual Orientation]
Orientation (Spatial) [See Spatial Orientation (Perception)]
Orienting Reflex
internal vs external factors in orientational activity & reflex & reflection, children, implications for effect of play on learning, 1019
pictorial slides depicting personal recreational interest, GSR & relation to orienting response, male college students, 7504
Orienting Responses
auditory & visual stimuli, heart rate orienting response, 8–19 day old rat pups, 12253
complex sequences of stimuli, generalization of habituation of electrodermal component of orienting response, college students, 7522
correction-maneuver vs perceptual tropism explanation for steering shift when meeting oncoming car, drivers, criticism of M. Helander's study, 2284
frequency of spontaneous fluctuations vs orienting response recovery time vs amplitude, 18–45 yr old male nonrecidivistic domestic offenders vs highly recidivistic public offenders, followup study, 1518
psychophysiological differences, psychopaths vs schizophrenics, maximum security patients, 5962
repeated ECS preceded by footshock, orienting responses in open field test, male rats, implications for amnesic properties of ECS, 596
size of induced turns, reverse turning at corridor exits, centipedes, 666
stimulus magnitude & novelty, evoked cardiac response of heart rate deceleration & skin resistance response & respiratory pause & peripheral pulse amplitude response of vascular constriction, college students, 9806
swamp vs song sparrow vocalizations, cardiac orienting response indications of perceptual selectivity toward conspecific song, young swamp sparrows, 2907
task relevance & stimulus information, amplitude & habituation of visual orienting & skin conductance reactions, college students, 5295
task vs no task & stimulus variability, habituation of skin resistance component of orienting response, college students, 7476
Originality [See Creativity]
Orphans
early parental loss, depressed vs neurotic patients, 1479
Orthogonal Rotation [See Also Varimax Rotation]
computer program, rotation of 2 factor matrices to common resolution, 45
levels of common variance & error & under- vs overrotation of factors, distortion & total amount of variance for which matrix accounts, 257
oblique vs orthogonal rotational analyses of J. P. Guilford's structure of intellect model vs alternative model, 264
ORPOCO program, orthogonal polynomial coefficients, 11611
PET based program, stepwise orthogonal hand rotation, 11601
Orthography
color names written in Kanji vs Kana, color naming frequency, Japanese adults, 3242
knowledge of orthography, conceptualization of phonemic structure of words, 4th graders, 5486
learning to read as 2 part process including paired associate learning & cryptanalysis, 10050
multilevel race model, orthographic & lexical familiarity effects in simultaneous alphabetic letter matching task, college & graduate students, 950
orthographic structure & familiarity, word superiority effect in physical & phonetic & semantic & lexical decision tasks, criticism of findings of T. H. Carr et al, 4986
sensitivity to orthographic structure in printed English words, educable mentally retarded special education students, 11263
tabulation of bigram frequencies & versatilities by position in 2–9 letter words, 957
traditional orthographic vs logographic symbol systems, word learning, 4.3–5.6 yr olds, 5483
visual detection task, reading skills, hearing vs congenitally deaf 7–19 yr olds, 10721
Orthopedically Handicapped [See Physically Handicapped]
Oscilloscopes
method for optic discrimination of action potentials, 6975
Otosclerosis
frequency selectivity, Ss with normal hearing vs conductive vs otosclerotic vs noise-induced vs degenerative hearing losses, 6130
Outcomes (Psychotherapeutic) [See Psychotherapeutic Outcomes]
Outpatient Psychiatric Clinics [See Psychiatric Clinics]
Outpatient Treatment
changes in 7 yr period in utilization of community outpatient psychiatric center, Mexican Americans, 6460
day hospital treatment including psychodrama, 21 yr old twin females with folie a deux, 6239
demographic characteristics & domiciliary vs outpatient treatment & medical vs nonmedical therapists, treatment session attendance & outcome, self poisoning patients, 10974
demographic & symptomatic variables, length of mental health treatment in neighborhood health center, Mexican American & Anglo & Black & American Indian patients, 6465
efficacy of monitoring saliva drug levels, depot neuroleptic clinic vs methadone program outpatients, humanitarian & clinical & economic implications, 8575
evaluation, home care treatment program, over 18 yr old acutely ill psychiatric patients, 1-yr followup, 8709
group psychotherapy, neurotic outpatients, 13237
history of functions & development & success in treatment, partial psychiatric hospitalization, 8703
hospital & outpatient care, psychotic patients, Turkey, 6449
interdisciplinary approach in Canadian Back Education Unit, self rated improvement & evaluation of course, outpatients with low back pain, 1960
length of time spent in methadone maintenance vs therapeutic community vs outpatient drug-free treatment, follow-up outcomes, drug abusers under 18 vs over 30 yrs old, 11054
outpatient counseling service, adolescents, 4151
outpatient psychotherapeutic techniques, psychosomatic patients, 1737
overt commitment, compliance with outpatient treatment, hospital clinic outpatients, 6344
provision of mental health services & treatment prevalence, psychiatric outpatients in rural vs urban areas, Finland, 8644
sex differences, mental health referral practices & voluntary vs involuntary disposition, referred clients, 4143
sociotherapeutic & pharmacological program, outpatient treatment of discharged schizophrenics, 11008
supportive group intervention, psychological benefits, metastatic cancer patients, 4033

theoretical framework, planning & evaluation of psychosocial rehabilitation of deinstitutionalized psychiatric patients, 8661
token economy with contingency management vs information feedback, chronic psychiatric patients in day hospital setting, 6369
workload & cost analysis, outpatient mental health program, nurses, 6601
Outpatients
credit criterion system, increase in fee payments, community mental health center outpatients, 4137
ensuring attendance compliance, outpatient schizophrenics in group psychotherapy, 8477
factor analysis, results of Symptom Checklist-90, state hospital outpatients, 2463
fluphenazine vs flupenthixol decanoate injections, maintenance treatment, schizophrenic outpatients, 6393
frequency of previously undiagnosed physical abnormalities, psychiatric clinic outpatients, 13134
ketazolam vs diazepam 1 vs 3 times/day, anxiety symptoms, anxious 18–67 yr old outpatients, 8569
material social circumstances & clinical symptoms & genetic risk, prediction of course of minor psychiatric disorders, psychiatric outpatients, 5964
model of risk of falling, psychogeriatric patients, 1366
patient's & therapist's ethnicity & psychiatric diagnosis, Black vs White vs Hispanic psychiatric outpatients & therapists, 10980
psychiatric morbidity as measured by General Health Questionnaire, outpatients over 21 yrs of age referred for audiologic evaluation, 1392
social class & sex & in-vs outpatient status, patterns of psychopathology, 12–18 yr olds, 6020
specialized social-recreation-fitness treatment program, transfer from hospital-based program to community self maintenance, chronic patients, 4181
token reinforcement procedures, cigarette smoking & reduction maintenance at 1-yr followup, psychiatric outpatients, 13451
Ovariectomy
age & sexual behavior & estradiol benzoate & progesterone, luteinizing hormone secretion, ovariectomized rats, 7680
anisomycin & estradiol & progesterone, cerebral protein synthesis & sexual behavior, ovariectomized female rats, 3201
brain stem transection & estrogen &/vs progesterone, lordotic behavior, ovariectomized rats, 12296
dexamethasone, sexual behavior, ovariectomized mares, 3097
dorsomedial hypothalamic lesions at weaning & bilateral ovariectomy after maturity, body weight & food intake & efficiency of food utilization & growth & glucose incorporation into lipids, rats, 9879
dual cuts in preoptic area & hypothalamus, lordosis behavior, ovariectomized rats, 7616
estradiol benzoate, food intake & body weight & length & ano-nasal length, intact vs ovariectomized female rats on high calorie diet, 12390
estradiol benzoate, food intake & body weight & plasma triglycerides & free glycerol & fatty acids, ovariectomized female rats, 7684
estradiol benzoate & progesterone & length of mating experience, sexual behavior & male vs female footstomping & fighting, ovariectomized female Mongolian gerbils, 7570
estradiol benzoate & testosterone & androstenedione & dihydrotestosterone, sexual behavior, ovariectomized female cattle, 7563
estradiol-17-beta, number of muscarinic receptors in hypothalamus, ovariectomized rats, 5400
estrogen & antiestrogen, sexual receptivity, female lizards, 3132
estrogen & progesterone, proceptive behavior, female rats, 3130
ethynyl estradiol vs mestranol vs estradiol & progesterone, food & water intake & sexual behavior & body weight, ovariectomized rats, 5409
hormones & olfactory-vomeronasal deafferentation & stimulus situational factors, initiation of maternal behavior, hysterectomized-ovariectomized nonpregnant female rats, 9859
hypothalamic estradiol benzoate implants, food intake & vaginal epithelium & adipose tissue lipoprotein lipase & cytoplasmic progestin receptors, female ovariectomized rats, 7573
isolation vs housing with sterile vs fertile female vs other male, aggressive responses to cage intrusions by similarly housed castrated vs ovariectomized vs intact males vs females, male rats, 530
kainic acid vs electrolytic septal lesions, receptivity & rejection & reactivity, ovariectomized rats, 9847
medial preoptic area lesions, maternal behavior, pregnant hysterectomized & ovariectomized rats, 7612
olfactory tubercle vs corticomedial amygdaloid lesions & female estradiol benzoate & progesterone treatment & ovariectomy, sexual behavior, male rats, 7575
ovariectomy & food intake, body weight, female rats, 9896
ovariectomy & seasonal anovulation, sexual behavior, pony mares, 3096
prepubertal ovarian hormones, feminization of adult open-field behavior, rats, 3129
prostaglandins & clonidine & estrus, lordosis, ovariectomized guinea pigs, 9939
retention interval & gonadectomy, passive avoidance behavior, male vs female rats, 12340
Ovaries
radio frequency lesions & intracranial hormone implants in nucleus intercollicularis region of midbrain, nest coos in response to male courtship & follicular growth, female ring doves, 9832
Overlearning
anxiety & degree of response overlearning, negative transfer, college students, 9593
criterion vs overtraining conditions, cue association & discrimination learning, kindergartners, 1029
educative & suppressive effects of positive practice & restitutional overcorrection, eating behavior & puzzle performance, severely retarded adults, 8721
level of skilled 2-hand coordination task performance & correlation with task attentional demands as measured by random number generation performance, male college students, 296
modified overcorrection technique, inappropriate speech, institutionalized autistic 19 yr old male, 8511
overtraining with antecedent relevant dimension, reversal & extradimensional shift learning, kindergartners, 12530
positive practice overcorrection in physical therapy program, stereotyped toe walking, moderately mentally retarded 9 yr old male, 11031
Overpopulation
number of natural & adopted children wanted & expected & concern about overpopulation, high school & college students, US vs Brazil, 3534
Overweight [See Obesity]
Ovulation
age differences, duration of mating, female rhesus monkeys, 9732
ovariectomy & seasonal anovulation, sexual behavior, pony mares, 3096
phases of menstrual cycle, perception of thermal & painful radiant heat, women with normal menstrual cycles vs using oral contraceptives vs men, 766
presence of rams, gonadotropin & prolactin levels & ovulation, female sheep, 2955
sensory stimulation & adrenal progesterone, reflex ovulation, female light-induced persistent estrus rats, 3113
Oxazepam
lithium & diazepam & oxazepam, plasma concentrations, depressed patients, 3–26 mo followups, 8594
Oxidases [See Also Monoamine Oxidases]
labeling fibers with horseradish peroxidase, retinotopic analysis of fiber pathways in optic tract & tectum, adult newt, 9804
Oxygen
crawling speed, power of locomotion & oxygen consumption, terrestrial slugs, 740
dissolved oxygen concentration & life cycle stage, surfacing behavior & buccal movement, frog tadpoles, 3021
hyperbaric oxygen therapy, multiple sclerosis, 10782
load-incremented bicycle ergometer stress test, perceived exertion at anaerobic threshold, 21–37 yr olds, 5291
metabolism chamber for measurement of oxygen consumption, laboratory rat pups, 105
running time & oxygen consumption & extraversion/introversion, 13–26 yr old male middle distance runners, performance prediction implications, 3036
Oxygenation
ambient air pressure & oxygenation, alcohol induced nystagmus, rabbits, 3077
prenatal decreased oxygen consumption, learning deficits, neonatal ducklings, 9850
Pain [See Also Aphagia, Headache, Migraine Headache, Muscle Contraction Headache, Psychogenic Pain]
anesthesiologic vs psychiatric treatment & sex & type of pain, MMPI scores, chronic pain patients, predictive implications, 1677

anticipation of pain-induced stress, monosynaptic & nociceptive flexion reflex & heart rate & respiratory frequency, 21–35 yr olds, 3058
assessment of psychological factors in pain disability, chronic pain patients, 9418
behavior modification of child's disruptive behavior, mother's severe abdominal pain, disturbed male 8 yr old & his mother, 2-yr followup, 10867
biofeedback & stress inoculation training, self regulation of pain, 31–71 yr old pain patients, 4054
biofeedback training &/vs transcutaneous electrical nerve stimulator, treatment of chronic pain, 8532
causes & treatment of chronic pain in schizophrenia & neurosis & hysteria, 10707
chemical activation of gastrocnemius-soleus muscle afferents, synaptic responses in lumbar alpha-motoneurons, decerebrate & spinal cats, 12288
chronic illness, radiant heat pain thresholds, chronic low back pain & respiratory patients, 6154
cognitive-behavioral treatment, chronic pain, therapist manual, 8526
cognitive distortion & cognitive errors, depressed psychiatric vs depressed vs nondepressed low back pain patients, 10427
components of stress inoculation, pain tolerance, college students, 6342
contemporary research on childbirth preparation & education of pain vs anxiety vs stress, literature review, 10971
diagnostic use of progressive relaxation & stress inoculation & EMG biofeedback training, chronic low back pain, male 44 yr old, 10905
differential relaxation & thermal biofeedback, hand skin temperature increase, 22 yr old male electrical burn patient, 1769
duration in communication by cries, infants, 3380
early affective deprivation & masked depression & dental or facial intervention & emotional stress, onset of facial pain, cluster headache vs atypical facial neuralgia, 13161
electrical stimulation of periaqueductal grey matter & iv morphine & naloxone, activity of ascending axons from C & Ald fibers in spinal cord, rats, 3072
EMG biofeedback training, low back pain, 10873
etiology & phenomenology, pain, schizophrenia, 13013
expectations for treatment success & self concept & depression & demographic variables, reported relief from low back pain, medical patients, 13425
hospital self help programs, control of chronic benign pain, veterans, 8672
hypnotic strategies, treatment of pain, 10957
induced stress & naloxone, hypnotic analgesia, highly hypnotizable college students, 3167
injury, activation of fear motivation system & accompanying defensive behaviors & pain motivation & accompanying recuperative behaviors, animals, 5138
interdisciplinary approach in Canadian Back Education Unit, self rated improvement & evaluation of course, outpatients with low back pain, 1960
intracranial self stimulation, emotion & pain & reward & learning mechanisms, literature review, 9787
isometric & psychological & pain stress, blood pressure & heart rate & stroke volume & cardiac output & arginine vasopressin & renin concentrations, 16–65 yr olds, 769
locus of control, attitudes toward biofeedback vs relaxation training vs group therapy, male pain patients, 10761
medical diagnosis & physical attractiveness, reactions to patients who complain of pain, nursing students, 11083
naturalistic & nonauthoritarian hypnotic technique, responsiveness to hypnotic treatment for cancer pain, unhypnotizable patient, 10947
observational scale for measurement of anxiety & pain, children with cancer, criticism of work by E. R. Katz et al, 4825
observational scale for measurement of anxiety & pain, reply to criticism by S. Shacham & R. Daut, 4800
paced respiration training, treatment of Tietze's syndrome pain, 46 yr old male with coronary heart disease, 1794
pain rating scales, episiotomy pain, females with mean age of 24.6 yrs, implications for need for multidimensional assessment methods, 9403
psychological techniques in pain regulation, 3979
recurrent abdominal pain associated with various psychodiagnoses, 6–19 yr olds, 3889
self hypnosis as anesthesia, cholecystectomy, 1905
transcutaneous electrical neurostimulation, physical & social interaction & pain behavior & treatment response, pain patients, 8412
treatment, cancer pain, literature review, 10780
victim pain cues & race & level of prior instigation, physical aggression, White male college students, 5712
zimelidine, changes in augmentor-reducer tendency in visual evoked potentials vs pain measures, 25–65 yr old chronic pain patients, 10944

Pain (Psychogenic) [See Psychogenic Pain]

Pain Perception [See Also Pain Thresholds]
algebraic models, relationship of stimulus intensity to perception for painful vs nonpainful electric shock, college & graduate students, 11745
auditory stimulation & footshock & reticular formation lesions, startle response, male rats, 3118
aversive shock contingent on E's vs S's throw of die, role of dissonance in perception of heart rate & pain & attribution of responsibility, male college students, 3657
brief tail shock vs social vs individual housing vs 1 vs 4 days of social isolation vs morphine, vocalizations, young rats, 12303
computer simulation, central neural activities of pain vs touch perception, 9280
convergence input from dorsal raphe & spinal tract of trigeminal nerve into parafascicular nucleus of thalamus, modulation of analgesia & pain apperception, male rats, 5224
electrical stimulation at diencephalic vs brain stem vs cerebellar sites, aversive reactions vs elevation of tooth shock pain thresholds, rhesus monkeys, 826
electrical stimulation of sural & peroneal superficialis nerves, sensory action potentials & flexor reflexes of lower limb & pain sensation, 22–36 yr olds, 7590
electric tooth pulp stimulation, brain stem evoked potentials, 11–66 yr olds, 995
EMG biofeedback training & threat of shock, frontal EMG levels & extent of worry & perceived painfulness of shock & physiological arousal & self report of arousal, college students, 7526
environmental context associations, conditioning of shock-induced analgesia, rats, 591
expectation of reduction of hidden pain in hypnotherapy, reports of hidden pain, college students, 6428
food deprivation during light vs dark phase of light-dark cycle & naloxone, fluctuations in pain sensitivity & role of endogenous opioid system, male rats, 5390
intensity of tooth pulp stimulation, magnitude of jaw opening reflex, female rats, 535
intraventricular vs periaqueductal gray injections of bombesin, receptor distribution in brain & nociception & locomotor activity, rats, 921
lanthanum microinjections, orofacial thermal & tail & paw nociception & naloxone & calcium reversibility of analgesia, male rats, 12379
lesions of midline reticular area of medulla, acquisition of conditioned emotional response, rats, 9890
locus coeruleus-produced analgesia, male rats, 5327
maternal attitudes & Lamaze training participation & demographic characteristics, prediction of length & manageability of labor, mothers, 13368
mating, responsiveness to painful stimulus, male vs female hamsters, 2904
medial hypothalamus electrolytic lesions, hyperalgesia & role of endorphin & enkephalin systems, male rats, 5347
naloxazone vs naloxone, ACTH-induced grooming, mice, 9927
naloxone, neuron response to noxious & non-noxious stimulation of spinal cutaneous receptive fields, male rats, 9946
naltrexone & stage of pregnancy & parturition, endorphin-mediated pain threshold increases, rats, 5374
pain threshold & pain tolerance, Pain Apperception Test & Melbourne Pain Apperception Film results, pain prone vs organic pain Ss, 5183
phases of menstrual cycle, perception of thermal & painful radiant heat, women with normal menstrual cycles vs using oral contraceptives vs men, 766
progressive relaxation training & pressure from blood pressure cuff, pain thresholds, male graduate students, 1775
quipazine vs morphine & pizotifen maleate & naltrexone, hot-plate & tail-flick latencies, male mice, 7675
self-generated cognitive strategies, pain endurance, college students, 2671
thiorphan & naloxone, pain perception, mice, 7688

unilateral coronal knife cuts, responsiveness to pain induced by formalin, male rats, 830
work load during bicycle riding & heart rate & severity of disease, ratings of chest pain, males with angina pectoris, 13078
Pain Relieving Drugs [See Analgesic Drugs]
Pain Thresholds
chlordiazepoxide with morphine vs cold water swims, change in jump thresholds, rats, 3142
chronic illness, radiant heat pain thresholds, chronic low back pain & respiratory patients, 6154
components of stress inoculation, pain tolerance, college students, 6342
ECS power & number of paws grounded, amount of aversive stimulation, female rats, 7340
electrical stimulation of tooth pulps, sensory & pain thresholds, 16–61 yr old normotensive vs essential hypertensive unmedicated males, 8385
Lamaze breathing vs deep slow breathing & light finger massage & actual vs imaginal rehearsal, pain tolerance, female college students, 7552
neurophysiological analysis, pain thresholds, severely depressed patients, 12942
noxious transcutaneous electrical stimulation, pain threshold, 23–42 yr old Nepalese porters vs 30–68 yr old Occidentals, 820
painful visceral stimulation & inhibition by naloxone, diffuse noxious inhibiting controls & evidence for role of endogenous opiates, male rats, 12290
pain threshold & pain tolerance, Pain Apperception Test & Melbourne Pain Apperception Film results, pain prone vs organic pain Ss, 5183
pain thresholds measured by signal detection methods, female myofascial pain dysfunction patients vs college students, 13127
progressive relaxation training & pressure from blood pressure cuff, pain thresholds, male graduate students, 1775
zimelidine, changes in augmentor-reducer tendency in visual evoked potentials vs pain measures, 25–65 yr old chronic pain patients, 10944
Painting (Art)
aesthetic preferences, color combinations in paintings, 962
classification of impressionistic paintings by artist, immediate vs 2-wk delayed transfer test, college students, 11940
composition & form & characteristics of line, feeling of tension & anxiety in E. Munch's paintings, 9993
conformity of painting evaluation to standard judgment, title recall ratio as index of inner tension level, college students, 12890
face masking, aesthetic judgment of paintings & subsequent judgment of masks, college students, 7735
field dependence & sensation seeking, preference for paintings, college students, 8086
life & creative activities of autistic schizophrenic painter S. Fusco, 9994
sex role representations in modern paintings, 3263
stimulus familiarization, aesthetic judgment of paintings, 7–7.11 yr old males & females, 964
subconscious premonition of death expressed in painting, 16 & 23 & 30 yr old males, 12442
symbolic expression of psychedelic experiences through drawings & paintings, male 21 yr old drug addict, 13038
Paired Associate Learning
associative learning, 2 mo old hydranencephalic female vs normal male twin, 8381
auto-instructional device vs paired associate method, teaching word recognition, mildly intellectually handicapped adolescents, 9034
choice of response to be learned on paired associate task, performance on RT task, college students, 511
congruence between correctness vs Ss judgments of correctness of response, amplitude of event related potentials, college students, 7460
distributed vs massed practice, RT in recall of newly learned paired associates over long series of trials, Ss under 40 vs over 60 yrs of age, 1045
familiarity & concreteness of stimulus nouns, paired associate learning, college students, 9564
forgetting & retentive recall & paired associate learning, 20–40 vs 41–70 yr olds, 7818
grouped vs random order testing, paired associate recall, college students, 11985
instructions to form common vs bizarre images as visual mediators, paired associate learning, college students, 482
intralist response similarity & serial vs random presentation, paired associate learning, 10th graders, 10067
knowledge of results of previous performance, facilitative effects of practice, college students, 2786
learning to read as 2 part process including paired associate learning & cryptanalysis, 10050
left vs right presentation of 2nd word synonym vs homophone in word-pair recognition task, error patterns & RTs, college students, 2756
match between covert vs vocal vs visual-manual optimal response modes & method of task presentation, performance on paired associate task, learning disabled with mean age of 9.9 yrs, 13638
metamemory & transfer of interrogative strategy, educable mentally retarded children, 3871
mnemonic strategy & motivation to learn, paired associate learning, college students, 9568
motivational instruction & age & race, paired associate learning, Black vs White females, 2801
music, retention in paired associate task, male vs female educable mentally retarded 7–11 yr olds, 6732
negative vs positive potential shifts of cerebral cortex, paired associate learning, Ss, 7521
paired associate learning, search time & recall & feeling-of-knowing states, college students, 11960
partial reinforcement, short term memory deficits in word association tasks, college students, implications for immunization against helplessness, 5034
picture-word lists of varying difficulty, acquisition & paced recall & relearning, college students, 11929
process similarity, simultaneous acquisition retention phenomenon, college students, 11981
response competition vs interference, paired associate learning, 42–65 yr old Korsakoff amnesics & nonamnesic alcoholics, 8106
retrieval cues, recognition & recall, college students, 2787
serial position & delay task & instructions to respond to stimulus word with free association vs with standard associate vs with same word vs with category label, recall, college students, 5050
standard vs elaborated pictorial presentation & lists of noun pairs & instructions, pictorial elaboration effects in incidental paired associate memory, kindergartners vs 2nd graders, 10068
use of synthesized vs rhythmic sound vs nonsense syllables, paired associate learning, institutionalized patients, 8713
Palm (Anatomy)
passive vs active exploration with palm vs fingers for 2 sec vs unlimited exposure time, form detection, college students, 2654
Palsy [See Paralysis]
Pancreas
alexithymia, patients with chronic pancreatitis & peptic ulcer & ulcerative colitis & irritable colon syndrome, 1606
thyrotropin-releasing hormone immunoreactivity in brain & spinal cord & pancreas & neurotransmitter function, rats, 7494
Panic
chlomipramine, spontaneous panic attacks, 23–54 yr olds with panic disorder or agoraphobia, 13330
group size, percentage of escapes from simulated panic situation & concession & aggressive responses, 10332
imipramine vs desmethylimipramine, mitral valve prolapse, patients with panic disorders, 8580
MMPI alexithymia & panic-fear personality scores, days of rehospitalization & severity of illness, adult asthmatics, 13116
sodium lactate infusions with vs without imipramine or desipramine, induction & prevention of panic attacks, panic disorder patients, 4101
Parachlorophenylalanine
diazepam withdrawal with vs without parachlorophenylalanine treatment, body weight losses after withdrawal, male rats, 9966
parachlorophenylalanine & atropine, alert immobility & rhythmic slow activity, rats, 3170
parachlorophenylalanine & tryptophan, sleep & EEG & motor activity, male rats, 9918
Paradoxical Sleep [See REM Sleep]
Paragraphs
passage with vs without title & sex, interpretation of ambiguously worded passage, physical education vs art majors, replication of study by R. C. Anderson et al, 4350
peer comments on preferences vs performance, correct use of paragraphs in written composition, 4th graders, 6676

Paralysis [See Also Cerebral Palsy, Hemiplegia, Paraplegia, Parkinsons Disease]
electrophysiological study of early blink reflex, synaptic organization in facial nucleus, 29–54 yr olds with postfacial palsy contracture & mass contractions, 13079
EMG biofeedback training, voluntary control of muscle spasticity below injury level, male quadriplegics, 8496
Paralysis Agitans [See Parkinsons Disease]
Paramedical Personnel [See Also Attendants (Institutions), Physical Therapists, Psychiatric Aides]
computer assisted instruction vs programed text vs lecture method, achievement, US Air Force medical laboratory & radiology & dental assistant trainees, 2001
Paramedical Sciences [See Audiology, Nursing, Optometry, Pharmacology, Physical Therapy, Psychopharmacology]
Parametric Statistical Tests [See Also F Test, T Test]
nonparametrical testing of significance of stanine correlations, 11709
Paranoia (Psychosis)
attitudes toward chemotherapy, schizophrenic & paranoid & manic depressive patients, 1859
causes & behavioral treatment of paranoid behavior, 81 yr old female, 13271
development & familial occurrence of schizophrenia & paranoia, midlife paranoia patients, 1499
development of paranoid psychosis, female 36 yr old diethylpropion abuser, 10432
diagnostic criteria & applications & potential professional abuse, querulous paranoia, 6004
family history & psychotherapeutic outcomes & prognosis & mode of onset, schizophrenic & paranoid symptoms, depressed patients, 12947
hypopituitarism, patients with paranoid psychosis, 1378
lithium, bradycardia & tardive dyskinesia & diabetes insipidus, female patient with manic depressive & paranoid psychosis, 13339
logic behind delusional phenomena, 10502
onset & involution of delusion, schizophrenics & other paranoid psychotics, Middle East, 3776
parachlorophenylalanine vs 5-hydroxytryptophan vs dextroamphetamine sulfate vs levamphetamine sulfate, serotonin behavioral syndrome, male rats, 5405
prevalence of schizophrenia, relatives of paranoid psychotics, 3795
quantitative hemispheric EEG, 11–18 yr old male patients with paranoid vs depressive symptoms, 13000
role taking ability, paranoid vs nonparanoid psychotics, 12985
transient paranoia, terminally ill 43 yr old male, implications for psychiatric treatment, 6206
validity of diagnostic status, paranoia as distinct illness vs subtype of schizophrenia, 1443
Paranoid Personality
contemporary psychoanalytic perspective on paranoid process, reexamination of early case study of Freud, 12983
diagnostic criteria & applications & potential professional abuse, querulous paranoia, 6004
political control techniques by paranoid leader J. Jones, mass murder & suicide in Jonestown, Guyana, 12695
Paranoid Schizophrenia
characteristics of oral & written language, adult paranoid schizophrenics, 5961
criteria & bases of diagnosis, paranoid vs nonparanoid schizophrenia, 12943
diagnostic problems, paranoid schizophrenia, schizophrenic patients, long term followup study, 10458
family history & premorbidity & EEG status & response to treatment, paranoid schizophrenia vs Kretschmer's syndrome of sensitive delusions of reference, patients, 1418
information processing deficit, paranoid schizophrenics, 10460
IQ & cognitive operations, hebephrenic vs paranoid schizophrenics, 13009
maternal control & development of inhibitory responses, paranoid schizophrenics vs sociopaths, 12996
parental loss before age 17 & subsequent depression, chronic paranoid schizophrenics, 3817
reliability & validity of Maine Scale of paranoid & nonparanoid schizophrenia, 18–60 yr old hospitalized psychiatric patients, 4804
validity of diagnostic status, paranoia as distinct illness vs subtype of schizophrenia, 1443
Paraplegia
electroejaculation, fertility, paraplegic males, 4114
Paraprofessional Education
mental health paraprofessional training, American Indians, 4221
paraprofessional therapist training in simple advice & instruction & alternatives, group psychotherapy outcomes, 10825
selection & curriculum outline, paraprofessional training to apply biofeedback techniques & instrumentation, 8779
training & credential process, child development associate, reply to criticism by R. C. Granger & D. J. Gleason & L. Jones & T. M. Hamby, 11065
Paraprofessional Personnel [See Also Attendants (Institutions), Paramedical Personnel, Physical Therapists, Psychiatric Aides, Teacher Aides]
California Psychological Inventory, selection, paraprofessional telephone counselors, 4238
effectiveness of professional vs paraprofessional helpers, criticism of review by J. A. Durlak, 2035
paraprofessional therapist training in simple advice & instruction & alternatives, group psychotherapy outcomes, 10825
paraprofessional vs professional helpers, reply to criticism by M. T. Nietzel & S. G. Fisher, 2004
participation in early intervention program, attitudes toward mental health & social systems & elementary schools & children, volunteer paraprofessional mental health workers, 4139
position in status vs functional system in mental health services, role conflict, paraprofessionals, 6540
selection & curriculum outline, paraprofessional training to apply biofeedback techniques & instrumentation, 8779
social reinforcement & verbal feedback, increase in rehabilitative behaviors in token economy program with psychiatric patients, support personnel, 13479
training & credential process, child development associate, reply to criticism by R. C. Granger & D. J. Gleason & L. Jones & T. M. Hamby, 11065
training of parents & paraprofessionals, systematic instruction of severely mentally retarded 8–10 yr olds in table game skills, 8404
training & screening of paraprofessionals, learning disabled classroom, 11150
Parapsychological Phenomena [See Also Clairvoyance, Extrasensory Perception, Psychokinesis, Telepathy]
applicability of statistical significance tests to psi experiment data, 11
autonomic nervous system activity, psi performance, literature review, 4619
components & explanation hypotheses, near-death experiences, 4620
computer based laboratory facilities, experimental research on physiological correlates of paranormal processes, 4
cross cultural differences, beliefs about out of body experiences, Papua New Guinea, 6929
differential types of causal events as distinguished from synchronistic events & paranormal causality, 6931
experiential & anecdotal material vs replications in psi research, 11538
experimenter variables, quality of parapsychological research, 4628
judges' ratings of imagery vs control slides, test of psi-missing in free response situations, 9
mediumistic vs psychopathological pictorial expression, 12965
neural & biological & sensory mechanisms underlying life after death experiences & role of cerebral dissociative hallucinatory activity, 5195
nonverbal communication & ESP & other psi phenomena, 11535
parapsychological experiences, members of Association for Research & Enlightenment, 2314
potential effect of future Os, results of parapsychological tests, test of modified observational theories, 11534
spiritual & transpersonal aspects, altered states of consciousness, report of 1978 American Psychological Association symposium, 520
theory of "emergent interactionism" combining brain system & mind/life system to explain transpersonal experience, 5084
visual imagery & cognitive style, out of body experiences, college students, 6928
Parapsychology [See Also Clairvoyance, Extrasensory Perception, Parapsychological Phenomena, Psychokinesis, Telepathy]
failure of parapsychology to reach acceptable scientific status, criticism of analysis by P. Kurtz, 19
historical development, parapsychology, 4624
historical & theoretical basis for hostility to parapsychology, 4625

merging of humanistic trends with verification procedures of experimental parapsychology, replicability of experiments, summary of symposium papers, 11536
paper from 1980 Southeastern Regional Parapsychological Association Conference, 17
training levels & areas & ESP beliefs & mental conflict, members of Parapsychological Association, 13494
Parasympathetic Nervous System [See Vagus Nerve]
Parasympatholytic Drugs [See Cholinergic Blocking Drugs]
Parasympathomimetic Drugs [See Cholinomimetic Drugs]
Parent Child Communication
age of infant & context, maternal speech characteristics, Down's syndrome 3.7–17 mo old & his mother, longitudinal study, 8236
communicative competence & method, language & mode use, profoundly deaf 3–5 yr olds & their hearing mothers, 6132
development in structure & content & function of mother's questions & infant responses, 16–19 mo old infant & his mother, 5658
distinction among mechanisms used for joint visual attention, 6–18 mo olds & their mothers, 5480
family behavior therapy, improvement in intrafamilial communication, families, 10827
gender of child & number of family members interacting, nature of parent speech to child, 2 yr olds & their mothers &/vs fathers, 10264
individual differences in maternal conversational input, acquisition of syntax, children, 1030
knowledge of formal aspects of their children's speech, mothers of 2–3 yr olds, 1160
marital separation & divorce, parent-child communication & child's adjustment, families with 3–17 yr olds, 1155
mother's control strategies in dyadic mother/child conversations, 3.1–3.4 yr olds & their mothers, 1-yr follow up, 5644
mothers' encouragement of verbalization & knowledge of letters & numbers, 3 yr olds, 12538
nature of family constellation & parent-child gender, parental use of evaluative feedback, 3.7–4.7 yr olds & their parents, 10230
nature of mother-child interaction, child development, 12–30 mo olds & their mothers, longitudinal study, 5647
parent-child attitudes & communication patterns, 28–50 yr old parents of stuttering vs nonstuttering 4–13 yr olds, 8290
parent–infant interaction, bibliography of observational studies from 1971–79 with methodological summaries, 1148
reciprocal behavioral contracting & positive communication training & self correction, parent-youth problems, 6–16 yr olds, 10853
rhythm & development of interactions, newborn infants & their mothers, 10258
self concept, communication with parents, adolescents, 3415
speech "therapy" with parent-child interactions, articulation remediation, 3–6 yr olds with articulation disorders, 10962
temporal patterns & kind & frequency of mother-child verbalizations, 21 mo olds & their mothers, 12539
Parent Child Relations [See Also Father Child Relations, Mother Child Relations, Parental Attitudes, Parental Permissiveness]
academic achievement, individual identification with parents vs peers vs school personnel, 16–18 yr old males, 7910
advantages & disadvantages & assessment & intervention techniques in disputes, child's access to noncustodial parent after marital separation & divorce, 1101
alternatives in household structure such as multiple family arrangement, socialization of children & quality of parent-child interactions, 5649
altruism, parental vs sibling care, 10260
autonomous vs control rearing as child, self acceptance, young adults with mean age range 23.6–25.8 yrs, 12575
basic principles of custody assessments, 5666
characteristics & childhood experiences & marital relations & perceptions & expectations of children, child-abusing parents, literature review, 8190
characteristics of parents, Greek & Jewish Ss with mean ages of 16.3 & 16.6 yrs, Australia, 10219
childrearing attitudes, prediction of success as teachers of own children, parents of mentally retarded 4.5–8.4 yr olds, 9050
child's sex & self esteem, parental behavior, parents of 4 & 5 yr old males vs females, 3520
conceptualization of home-leaving, college students, 12524
consequences of broadened understanding & definition of child abuse, 13045
consultative approach, parental coping with child molestation, mental health professionals, 10983
criticism of simplistic formulas & one-sided parent-child relationships fostered by Parent Effectiveness Training, 8463
critique of diagnostic criteria, manic depressive illness, 8–18 yr olds with 1 manic depressive parent, implications for developmental approach, 8159
discussion & critique of behavior modification technique training, parents of mentally retarded children, 8542
divorced vs intact family vs remarriage of divorced mother, perception of self & parents, 11–14 yr olds, 7888
drug usage & interactions with parents & peers & significant adults, male vs female 7th vs 8th vs 9th graders, 10165
Early Intervention Program for Preschoolers & Parents, treatment of physical & developmental & behavioral problems, pediatricians, 4126
early parental experiences, dependency & hypochondriasis & utilization of health care services in adulthood, 21–65 yr old general practice patients, 6446
enrollment in nursery school vs home care, peer vs parent-child interaction, 3 yr olds, 3451
excerpts from group therapy, parents of children in residential treatment center for intractable asthma, 8456
fear of parental physical punishment, empathy, 9–10 yr olds from Greek island, 7896
Foster Parent Skills Training Program, acceptance of children, foster parents, 1913
group therapy, education & support & insight, parents of anorexia nervosa children, 8474
hospital patient characteristics, frequency of parental visiting, 5–22 yr old mentally retarded, 8683
infant behavioral expressiveness & morphological appearance, adult perceptions of infant appearance, literature review, implications for parent-infant relations, 8033
influence of churches & parents, attitudes on religious affiliations & morals, adolescents, 10159
intervention model, parent-handicapped child relations, school psychologists, 11326
legal & psychological dilemmas, parentless children & foster care parents, 8645
long term adjustment to parents' divorce, White middle class 8–17 yr olds, 2-yr followup, 12670
marital separation & divorce, parent-child communication & child's adjustment, families with 3–17 yr olds, 1155
Marital Status Inventory, assessment of marital dissolution potential, 21–48 yr old couples seeking marriage counseling vs help with parent-child problems, 7034
model, study of family & child & school relations during school initiation stress, 11260
nature of family constellation & parent-child gender, parental use of evaluative feedback, 3.7–4.7 yr olds & their parents, 10230
parental attention & control, patterns of alcoholic beverage consumption, 8th–10th graders, 5708
parental behavior, self esteem, 5th & 6th graders, [illegible]58
parental characteristics, depression & anxiety, neurotically depressed patients vs college students, 10511
parental childrearing practices & self image & moral judgment development, 10th graders, 12594
parental communication deviance & affective style, subsequent schizophrenia, disturbed nonpsychotic adolescents, 5-yr followup, 12953
parental emotional attachments & arousal processes, response to fearful TV stimuli, school age children, 7743
parental influence, animistic responses, 5th & 6th graders, implications for development of concept of life, 985
parental involvement & development of handicapped children, 10422
parental involvement with child, institutionalized mentally retarded children, 8680
parental marital adjustment & masculinity-femininity, masculinity-femininity, 12–15 yr olds, 3425
parental overprotection & care, level of anxiety, anxiety neurotic patients, 10512
parental self concept & gender of parent & child, behavior, 3.3–4.7 yr olds, 5659
parent behavior patterns, parents observed in parent-child interactions, Mexico, implications for cross cultural differences, 7957
parent-child relations, blind parents & their sighted children, 1568
parent-child relations, later development of physical symptoms, male college students, 8330
parent-child relationships, literature review, 1159
parent child relationships, 1970–79, literature review, 10267

parent-directed intervention program, learning disabled children, 4405
parent educational program in poor urban environment, prevention of child abuse & neglect, Black mothers, 8648
parent–infant interaction, bibliography of observational studies from 1971–79 with methodological summaries, 1148
parenting & teaching, child development, 3277
parent involvement, milieu treatment program, psychotic children, 8461
parent's marital conflict, behavior problems & need for psychotherapy referral, children with parents in marital psychotherapy, 4017
peer group pressures & parental controls, cigarette smoking, 10–14 yr olds, Scotland, implications for health education, 3402
perceived parental acceptance-rejection & self reported behavioral dispositions, Anglo vs Mexican American vs Mexican 8–15 yr olds, 1084
perceived parental behaviors & relationships, locus of control & self esteem, American Indian vs White 12–18 yr olds, 5559
perception of school & family authority, 15–23 yr old secondary school students, Senegal, 12618
perceptions of father's vs mother's support & disciplinary practices, helping behavior, 6th graders, Israel, 5540
perceptions of parental behavior & age & sex, juvenile offenders vs nonoffenders, 10584
perceptions of parents' restrictiveness/permissiveness & warmth/hostility, college students, 3539
personality correlates of attitudes about sports, male college students, 5871
personality dynamics of early truants, 8–10 yr old male truants, 8210
personality & parental treatment, behavior problems, children at ages 1–5 yrs, longitudinal study, 13022
phases of task & roles, coding of parent-child interaction with verbal response mode taxonomy, parents & 4th–6th graders identified as aggressive vs withdrawn vs nondeviant, 10583
physical & behavioral characteristics of child & parental attitudes & characteristics, parental perception of child & child's personality development, parents of identical twins, 5537
pictures of parents vs strangers, social perception & responses, 9–24 mo olds, 12568
predisposing sociocultural factors, parental violence toward children, 1509
preferences for mother or father vs TV, Mexican American 3–21 yr olds, 3443
presence vs absence of emotional reaction to Rorschach cards 4 & 7, dynamics of parent-child relationship, 7 & 8 yr olds, 2432
proposed establishment of kibbutz-like communities, families with parents unable to independently rear their own children, 1924
recall of different parent-child experiences & listening to aversive cues from "parent" & sex of parent & child, performance on Stroop Test, college students, 7228
reciprocal behavioral contracting & positive communication training & self correction, parent-youth problems, 6–16 yr olds, 10853
reported parental characteristics, agoraphobics & social phobics, 5991
retrospective perceptions of parental behavior, psychic health, adults, 3740
rigidity & parental discipline, male college students, 7976
secondary parental problems caused by children's primary handicapping condition, parentalplegia, parents of mentally retarded & cerebral palsied children, suggestions for remediation, 10833
self concept & perception of parents, 7th–9th graders from single vs 2-parent families, 10188
self concept & school achievement & occupational aspirations & vocational maturity & perceptions of parents, 7th–9th graders from single- vs 2-parent families, 10259
self esteem & sex of custodial parent & time in single parent home & visitation with noncustodial parent & quality of relationship with parents, self esteem, male 9–14 yr old children of divorced parents, 1080
self report questionnaires for parents seeking help for child management problems, marital adjustment & normative data, abusive vs nonabusive parents, 10233
sex differences & parental influence, involvement in sports, 9–11 yr olds, 5567
social behavior facilitating developmentally supportive parent-infant interactions, infants, 12583
suggestions for parents for home conditions, promotion of successful task completion, learning disabled children, 3866
taxonomy of appraisals & coping strategies, 20–59 yr old lone parents, 10228
validity & reliability of observation method for assessment of parent-child interaction, parents & their 2–7 yr olds with conduct problems, 220
value orientations, 13 & 14 & 15 yr old delinquent vs nondelinquent males, implications for rehabilitative technique, 8213
years of prior institutionalization & parents living together & presence of convulsive disorders & adaptive behavior, parental contact, mentally retarded Ss in residential facility, 8687

Parent Educational Background

agreement with perceived maternal & paternal educational goals for adolescent & grades & parental education, Black vs White male vs female 6th vs 8th vs 10th vs 12th graders, 12613
demographic characteristics of mother's educational level vs sex vs ethnicity vs source of income, ratings on behavior problems, parents of inner-city children with behavioral problems, 12683
family socioeconomic background & changes, academic achievement, 1st–3rd graders, 2118
intelligence, advantaged vs disadvantaged 5–9 yr olds, 12509
IQ & father's socioprofessional level & family educational background, cognitive development, 7–8 yr olds, rural France, 3333
maternal mental ability & education & training in child development & socioeconomic status & birth weight & child experiences, verbal comprehension & verbal expression, 3 yr olds, 7831
parent educational background & language & family structure & socioeconomic level, prediction of intellectual performance, Mexican American preschoolers, 10120
parent education & income & family relations, academic achievement & social adjustment, male adolescents, 3414
socioeconomic determinants of intelligence, aged, 7760

Parent Effectiveness Training [See Parent Training]

Parent Training

assertiveness training vs discussion group programs, childrearing attitudes, urban vs suburban parents, 1819
assistance to parents in advocacy role, special education, school psychologists, 11316
behaviorally oriented parent training programs, parents of retarded children, literature review, 8509
cognitive-behavioral intervention involving changes in parenting style, child abuse, 8547
consultative approach, parental coping with child molestation, mental health professionals, 10983
content analysis & evaluation of programed parent social learning, childrearing, parents, 13576
criticism of simplistic formulas & one-sided parent-child relationships fostered by Parent Effectiveness Training, 8463
description & delivery system & long range evaluation of effects on foster parents, Foster Parent Skills Training Program, 1914
description of Parent Education Follow Through Programs, 6655
development & content of early childhood parent programs, 13557
development of road safety parent training program, safe pedestrian education, 3–6 yr olds, 11193
discussion & critique of behavior modification technique training, parents of mentally retarded children, 8542
early intervention consultation & training, parents & teachers of developmentally disabled children of mean age 47.4 mo & children referred for developmental intervention of mean age 54.2 mo, 13197
efficacy of behaviorally oriented training programs, parents of mentally retarded children, 8541
efficacy of generalization strategy parent training group, transfer of parenting skills, mothers of 1.5–12.3 yr olds, 13302
evaluation of education & exercise program, asthmatic 6–17 yr olds & their parents, 6450
evaluation of parent training methods, media assisted use of timeout, parents, 4061
Foster Parent Skills Training Program, acceptance of children, foster parents, 1913
group therapy, education & support & insight, parents of anorexia nervosa children, 8474
group &/vs in-home behavior management parent training, child behavior problems, parents of hard to manage children, 6679
history & population & philosophy of the Edna Smith Child Development Center, 10998
inclusion of social learning principles into behavioral skill training, satisfaction & perception of child adjustment & compliance, parents of noncompliant children with mean age of 61.75 mo, 10888
instruction of parents & methods, home based reinforcement of school behavior, literature review, 9067

insular vs noninsular patterns of community contact & parent training, mother–child interactions & coping with child's coerciveness & change in blame orientation, mothers, 4-mo followup, 6311
maternal mental ability & education & training in child development & socioeconomic status & birth weight & child experiences, verbal comprehension & verbal expression, 3 yr olds, 7831
maternal training in operant-direct contingent vs psychotherapy-indirect noncontingent intervention vs feedback, quantity of homework done, 3rd & 4th graders, 11185
multiple indicators of success of Parent Education Follow Through Program, interaction of family & other environmental systems, 13558
parental involvement & development of handicapped children, 10422
parent education, management of child's behavior & learning, parents of educable mentally retarded children over age 6, 8410
parent education, promotion of parent-child-educator relationships, parents of handicapped children, 2156
parents as parent trainers of handicapped children, literature review, 11290
parent training, therapeutic intervention with children, literature review, 11356
parent training programs, need for special guidelines for investigation & reporting & evaluation, parents of retarded children, 8470
problem solving training, 1-parent families, 8459
reasons for & treatment method, child negative verbalizations during parental behavior modification training, 2–7 yr olds, 10896
relative effectiveness of 3 training methods, use of timeout for child management, parents, 1810
review of childrearing literature for parents, 3513
school based remedial parent training & educational camp for children, knowledge & teaching skills, parents of mentally retarded children, 11270
secondary parental problems caused by children's primary handicapping condition, parentalplegia, parents of mentally retarded & cerebral palsied children, suggestions for remediation, 10833
selection & training factors, role of surrogate parents in care of handicapped children, 8634
social support, 1st-time parents attending parenting groups, 8670
socioeconomic level, parent-child relations & treatment responsiveness, mother-child pairs, 10897
socioeconomic status & ethnic group, childrearing behaviors, Mexican American vs Black vs Anglo mothers, implications for parent education, 3548
training agency personnel to deliver parent training services, mental health & child welfare & educational personnel, 13460
training of mother in child management techniques & her subsequent training of spouse, independent dressing & toy use skills, 6 yr old developmentally delayed male, 4034
training of parents & paraprofessionals, systematic instruction of severely mentally retarded 8–10 yr olds in table game skills, 8404
training parents & students in verbal self regulation procedures, academic achievement & classroom & home behavior & cognitive ability, impulsive 5th & 6th graders, 9088
training programs, childrearing skills, single parents, implications for role of school psychologists, 11355
videotape modeling program, training as therapeutic personnel, parents, 11026

Parental Absence [See Also Father Absence, Mother Absence]
change in child custody determination, child psychiatrists in consultation & education & empirical research, 5673
child custody, parents' rights & trends in treatment & legal decisions, abused & neglected children, 13024
childhood separation from parent & emotional traumata, adolescent mental disorder, 14–19 yr olds, England, 5957
children of divorce & parental loss & remarried couples & stepparents & stepchildren, 7975
early loss of parent & life event ratings, 70 yr old males vs females, 7891
early parental loss, depressed vs neurotic patients, 1479
early permanent parental loss vs separation, depression, nonclinical postgraduate students, 10510
historical background & future focus of child custody disputes, 5674
history & sociological & psychological factors, child abandonment, 8192
legal & psychological dilemmas, parentless children & foster care parents, 8645
merits of "best interests of child" vs "least detrimental alternative available" criteria & proposed alternative, decisions in disputed child custody cases, 1174
multiple psychologists as expert witnesses vs child-specialist-implemented consultation model, child custody determination, 1166
overview of child custody issues, 1109
parental absence & child institutionalization & home quality, development of schizophrenia, male 9–20 yr old offspring of schizophrenic mothers with childhood patterns of electrodermal lability, 8180
parental loss before age 17 & subsequent depression, chronic paranoid schizophrenics, 3817
reflection/impulsivity & intelligence & socioeconomic status & race & father absence & teacher ratings, male White vs Black vs Hispanic kindergartners, 13538
self concept & school achievement & occupational aspirations & vocational maturity & perceptions of parents, 7th–9th graders from single- vs 2-parent families, 10259
sex differences, intellectual development, 10–13 yr olds who had vs had not experienced change in home vs school situation, 7774
therapy with siblings, families with loss of parenting figure, 8475

Parental Attitudes
abortion vs refused abortion, mental health problems, mothers & children, 4131
age & educational level & number of children, childrearing & childbearing attitudes, 20–64 yr old parents, 12676
agreement with perceived maternal & paternal educational goals for adolescent & grades & parental education, Black vs White male vs female 6th vs 8th vs 10th vs 12th graders, 12613
assertiveness training vs discussion group programs, childrearing attitudes, urban vs suburban parents, 1819
attitudes, value of affective education at elementary level, mothers & teachers, 8860
attitudes & needs, parents of cerebral palsied children, 3915
attitudes & practices, breast vs bottle feeding, mothers, England, 12672
childrearing attitudes, prediction of success as teachers of own children, parents of mentally retarded 4.5–8.4 yr olds, 9050
child's legal rights in seeking medical treatment over parental objection, 3556
conflicting attitudes toward their children's eating & dependency & depression, mothers of asthmatic sons, 1157
cross cultural differences, preference for son vs daughter, Australian vs Greek vs Italian vs Malay vs Chinese vs Indian parents living in Malaysia vs Australia, 10207
demographic characteristics of family & contraception knowledge & practice & motivation for & boyfriend & parents' reaction to pregnancy & premarital sexual activity, unwed pregnant teenagers vs sexually active adolescents seeking contraception, 3568
demographic characteristics of mother's educational level vs sex vs ethnicity vs source of income, ratings on behavior problems, parents of inner-city children with behavioral problems, 12683
denial of abortion to mother, somatic & psychosocial development, initially unwanted children, 15-yr followup, 12451
desire for children & satisfaction with parenthood & number of children & employment aspirations, married female 18–49 yr olds, 5630
development of cognitive & personality-social characteristics, 30 yr old mothers, 40 yr followup, 5461
development of questionnaire measuring attitudes toward mother's role & working mothers, mothers, implications for work behavior & child development, 11639
distress due to denial of abortion, complications during pregnancy & delivery & puerperium, mothers, 13076
early parental experiences, dependency & hypochondriasis & utilization of health care services in adulthood, 21–65 yr old general practice patients, 6446
early postnatal contact, infant development & maternal attitudes, infants & their mothers, 36 hrs & 3 & 12 mo followups, 5636
ethical issues, treatment of severely impaired newborns & minors without parental consent & research involving children, 6584
expectations for child mastery of developmental skills, mothers of 4 yr olds, Japan vs US, 12635
family educational background & atmosphere & socioeconomic status, math & reading comprehension level, 3rd graders, Canada, 6684
Foster Parent Skills Training Program, acceptance of children, foster parents, 1913
gender preferences for firstborns, married couples expecting 1st child, 12680

home environment & family adjustment, personal & social & cognitive development, trainable & educable mentally retarded children, 8257
infant death, rural families, 3464
intelligence & sociometric status & academic & attentional competence, preferences for & adult judgment of social desirability of ingratiation tactics, learning disabled vs nonlearning disabled 3rd–6th graders, 13618
interrater reliability & validity, parental assessment of temperament of handicapped children, 2443
joint custody arrangement, children's & parents' perceptions of divorce & family adjustments, 12–15 yr olds & their divorced parents, 10195
Lamaze vs conventional childbirth methods, attitudes toward child & spouse & birth experience, new parents, 5646
marital relationships, attitudes toward child-bearing & affective reactions, females who had borne a child, 5662
maternal attitudes & Lamaze training participation & demographic characteristics, prediction of length & manageability of labor, mothers, 13368
model, study of family & child & school relations during school initiation stress, 11260
mother vs teacher reports of adaptive behavior, Black 2nd–4th graders in urban parochial school, 9130
neuroticism & self esteem & sex & parental characteristics & extraversion & locus of control, vulnerability to depression, postgraduate students, 8077
nursery school vs parent-run nurseries, preschool socialization & goals & attitudes & behavior of nurses vs parents, literature review, 3444
own attitudes & perception of attitudes of peers & teachers & parents toward identification as gifted & participation in special programs, gifted students, 2153
parental attitudes & maternal employment, career choice & commitment, female college students, 4483
parental involvement, reading achievement, 7–8 yr olds, 11222
parent-child attitudes & communication patterns, 28–50 yr old parents of stuttering vs nonstuttering 4–13 yr olds, 8290
perceived consequences & normative influences, use of oral contraceptives, college students, 5711
perceived parental response toward autonomy & success, fear of success, male vs female college students, 10388
perceptions & expectations of independent living skills & social competencies, parents of mildly retarded 16–21 yr olds, 8272
perceptions of parental interest & social adjustment & school achievement & personality traits, unwanted children, longitudinal study at 9 & 15 yrs, Czechoslovakia, 5645
perceptions of parents' restrictiveness/permissiveness & warmth/hostility, college students, 3539
physical & behavioral characteristics of child & parental attitudes & characteristics, parental perception of child & child's personality development, parents of identical twins, 5537
psychiatric symptoms & distortion of perception of severity vs prognosis of child's illness, parents of children with cystic fibrosis & leukemia, 13101
rankings of characteristics to be encouraged in children, Indian fathers vs US parents vs experts, 5652
reactions of parents of children undergoing hemodialysis, 4134
school uses of standardized achievement & mental ability tests & parental & teacher attitudes toward testing, school children, 13670
situations in which minors may be given medical & mental health treatment without parental consent, 6589
socioeconomic level, parent-child relations & treatment responsiveness, mother-child pairs, 10897
temperament as identified by questionnaire & mother's perceptions of temperament, Down's syndrome 6–18 mo olds, 1541
TV programs about mentally retarded individuals, attitudes of parents toward their mentally retarded children, 7710

Parental Authoritarianism [See Parental Permissiveness]

Parental Influence [See Parent Child Relations]

Parental Occupation

father's occupation & delinquent peer associations & rationalization & self reported minor vs predatory vs aggressive delinquency, Anglo vs Mexican American college students, 1524
intelligence, advantaged vs disadvantaged 5–9 yr olds, 12509
socioeconomic determinants of intelligence, aged, 7760

Parental Permissiveness

children's sex & temperament & mothers' permissiveness, goodness of fit in mother-child relations, 34–53 mo olds & their mothers, 1153
maternal control & development of inhibitory responses, paranoid schizophrenics vs sociopaths, 12996
mother-child relations, deaf vs normal 5–6.5 yr olds, 8309
parental attention & control, patterns of alcoholic beverage consumption, 8th–10th graders, 5708
parental behavior, radicalism, 16–20 yr old college students, 7887
parental overprotection & care, level of anxiety, anxiety neurotic patients, 10512
paternal warmth & child centeredness & methods of control & accompanying maternal traits, marihuana use, 16–20 yr old males, 10136
perceptions of parents' restrictiveness/permissiveness & warmth/hostility, college students, 3539
reported parental characteristics, agoraphobics & social phobics, 5991
rigidity & parental discipline, male college students, 7976
time interval, organization of perceptions about maternal childrearing control & nurturance, 5 vs 8 vs 14–18 yr olds, implications for retrospective studies, 10057

Parental Role

assistance to parents in advocacy role, special education, school psychologists, 11316
characteristics of parents, Greek & Jewish Ss with mean ages of 16.3 & 16.6 yrs, Australia, 10219
cross-cultural & environmental factors & role of parents & schools, cognitive growth, children, implications for special education of cognitively incompetent children, 8979
functions & roles of fathers, childhood psychological & social development, 1154
home based behavior modification programs, school learning & behavior problems, parents, literature review, 11334
importance of continued parenting, marital breakdown & remarriage, 10253
maternal employment, sex role concepts & personality adjustment & academic achievement, 10 yr olds from working & middle class Francophone families, Canada, 7865
mother's control strategies in dyadic mother/child conversations, 3.1–3.4 yr olds & their mothers, 1-yr follow up, 5644
mothers' & fathers' sex role conflicts, expectant/new parents, 10222
parental instrumentality vs expressivity & marital relationship, behavior problems & childhood development, 7–12 yr olds, 10171
parent behavior patterns, parents observed in parent-child interactions, Mexico, implications for cross cultural differences, 7957
parent-child attitudes & communication patterns, 28–50 yr old parents of stuttering vs nonstuttering 4–13 yr olds, 8290
paternal warmth & child centeredness & methods of control & accompanying maternal traits, marihuana use, 16–20 yr old males, 10136
perceptions of worker & spouse & parent roles & role combinations, male vs female college students, 1252
project for increasing confidence & self esteem in role as parent, mothers of socially disadvantaged children, Israel, 1124
relief of parental guilt, parents of effeminate & homosexual males, 1128
research methods, study of fathering & father's role, 74
sociocultural causes, psychological problems, emotionally immature mothers, 10232

Parents [See Also Adoptive Parents, Fathers, Foster Parents, Mothers, Schizophrenogenic Mothers, Single Parents, Stepparents, Unwed Mothers]

Adaptive Behavior Scale ratings by parents vs teachers & changes over time, 4–13 yr old autistic children, 10525
adopted-away offspring of schizophrenic parents & evidence for genetic etiology of schizophrenia, critique of Danish-American studies by D. Rosenthal et al, 10496
advantages & disadvantages & assessment & intervention techniques in disputes, child's access to noncustodial parent after marital separation & divorce, 1101
age & sex & ethnic background, self concept, Anglo &/vs Franco-American kindergartners vs 1st graders, 7861
assertiveness training vs discussion group programs, childrearing attitudes, urban vs suburban parents, 1819
attitudes & needs, parents of cerebral palsied children, 3915
attitudes toward having children, economic & social-psychological values & costs, Australian vs Greek vs Italian parents, 12626

behavioral consultation method, treatment of school phobia, female school age child, 11353
behavioral family therapy, personality change & increased group dependence, parents, 8468
behavioral methods, childrearing, parents, implications for role of school psychologist, 11396
birth order & parental age & birth stress, lateral preference, 15–40 yr olds, 2971
California Psychological Inventory subscales as predictors of coping with child's leukemia, parents, 192
characteristics & childhood experiences & marital relations & perceptions & expectations of children, child-abusing parents, literature review, 8190
child abuse, attempted suicide, parents, 8215
child custody, parents' rights & trends in treatment & legal decisions, abused & neglected children, 13024
childhood development & relationship with mother & father, psychodynamics of male homosexuality, homosexuals & their parents, 1190
childrearing attitudes, prediction of success as teachers of own children, parents of mentally retarded 4.5–8.4 yr olds, 9050
childrearing practices, parents of stuttering children, 3885
childrearing practices & parental cooperation, parents of 3–5, & 8–13 yr old hemophilic males, 1599
child's socioeconomic status & race/ethnic group, hyperkinesis attributed to Black vs White vs Mexican-American 8 yr old males, parents & elementary teachers & school psychologists, 11398
coalition formation among child & mother & father & child's social & emotional development, 2- & 3-child families with 15–17 yr old females, 5542
competent offspring of psychiatrically ill parents, literature review, 1421
conditions influencing initiation of contacts with parents, teachers, 4280
conflict & special service teams, school psychology, 9073
consideration of parent & child in psychodiagnosis & treatment strategies, psychotic & autistic children, 13192
continued interaction with divorced spouse, divorced parents, 10227
counseling, parents of sudden infant death syndrome children, 1933
depression as measured by MMPI & Beck Depression Inventory, 13–19 yr old inpatients & their parents, 3828
developmental & separation-individuation conflicts & psychic trauma, children of Holocaust survivors, 1053
early & continuous parental counseling & preschool stimulation, psychosocial & mental development, home reared vs institutionalized Down's syndrome 10–19 yr olds, 6468
early psychosocial support in inner city family health centers, low-income parents & infants, 10988
ethnicity of fathers vs mothers, ethnicity of spouses, twice-married brides & grooms of mixed ethnic parentage, test of psychoanalytic theory of mate selection, 5640
excerpts from group therapy, parents of children in residential treatment center for intractable asthma, 8456
exposure to taped case histories & slides of child abuse, heart rate & finger pulse volume & GSR, male vs female & parent vs nonparent college students, implications for training program for child abuse hotline counselors, 10994
factor analysis of responses to Children's Behavioral Classification Project instrument, parents of 6–13 yr olds, 4783
family intactness & evaluation of family happiness, evaluations of self & mother & father, 5th–8th graders, 3541
family situation, children with severely mentally ill parents, 3777
father loss, evaluation of parents, college students, 3540
frequency of vs no home intervention, intellectual & social development, severely subnormal preschool children, 3-yr study, 13661
gender preferences for firstborns, married couples expecting 1st child, 12680
genetic theory & validation of indicators of high risk genotype & diagnosis, children of schizophrenics, 12968
genetic vs environmental factors & characteristics of biological vs adoptive parents, inheritance of alcoholism, 23–43 yr old adopted males reared by nonrelatives, 10548
goals & techniques, interpretation of children's developmental disabilities for parents & families, 8668
group & self hypnotic training, academic performance & self esteem, learning disabled 7–13 yr olds & their parents & reading teachers, 1883
hereditary resemblances, cognitive abilities, parents & their offspring, 7420
home based behavior modification programs, school learning & behavior problems, parents, literature review, 11334
interrater reliability, Katz Adjustment Scales, maternal vs parental ratings of 21–31 yr old male schizophrenic patients, 4779
intervention model, parent-handicapped child relations, school psychologists, 11326
issues of "mind control" & informed consent regarding religious cults & role of parents & mental health practitioners, 1121
Lamaze vs conventional childbirth methods, attitudes toward child & spouse & birth experience, new parents, 5646
lateral head position preference, newborn infants with right handed vs non-right-handed parents, 7471
locus of control & anger expression under stressful conditions, female hospitalized depressives & patients with seriously ill children & college students & acutely & chronically ill adults, 10445
merits of "best interests of child" vs "least detrimental alternative available" criteria & proposed alternative, decisions in disputed child custody cases, 1174
molar labeling interaction, 11 yr old emotionally disturbed males in residential treatment center & at home, 13279
musicality, parents vs children, 5184
nature of parent mental disorder, distractibility in discrimination task, 13–18 yr old children of schizophrenic vs bipolar vs unipolar disordered parents, 7796
nonprofit organization of parents & health care personnel for needs of hospitalized children & parents, 11009
nursery school vs parent-run nurseries, preschool socialization & goals & attitudes & behavior of nurses vs parents, literature review, 3444
outline for conducting effective parent-teacher conferences, teachers, 11160
parental death in childhood & demographic characteristics, subsequent depression as adult, 1488
parental involvement in individualized educational programs, retarded children, 11303
parental knowledge of PL 94–142 & individualized educational programs for their children, 9053
parental preference & vocational aspiration & self concept & leadership, female college students, 7955
parental pressure to suppress memories of childhood events & parents' disconfirmation of children's observations, subsequent psychopathology, 1404
parental self concept & gender of parent & child, behavior, 3.3–4.7 yr olds, 5659
parent applied procedure for reducing self-stimulatory responses, classroom academic performance, autistic & autistic-like 9 yr old males, 8557
parent behavior patterns, parents observed in parent-child interactions, Mexico, implications for cross cultural differences, 7957
parent-child relations, blind parents & their sighted children, 1568
parent involvement in therapeutic intervention program, developmental competence, infants with developmental disorders, 10766
parent-mediated treatment based on social learning theory, conduct problems, 3–12 yr olds, replication of study by G. R. Patterson, 6330
parents as consultants-trainers in parent involvement workshops, 11144
parents as parent trainers of handicapped children, literature review, 11290
parent & teacher ratings of child sociability & school absenteeism, nursery school teachers, 11250
parent teaching, language learning, 3.3–5.8 yr old mentally handicapped, 8406
parent vs social worker perception, adjustment to child's development, parents of mentally retarded children, 8285
patterns of dyadic agreement in perceptions of family relationships, high school students & their parents, 12668
perceived socioeconomic status & ethnicity, attributions of positive & negative behavior of children, school psychologists & parents & teachers, 4285
perceptions of family similarity in intelligence & personality test scores vs actual scores, adoptive vs biological families of adolescents, 9746
perceptions of parents' restrictiveness/permissiveness & warmth/hostility, college students, 3539
rankings of characteristics to be encouraged in children, Indian fathers vs US parents vs experts, 5652
reactions & coping behavior, parents of learning disabled children, 13062

relative effectiveness of 3 training methods, use of timeout for child management, parents, 1810
relief of parental guilt, parents of effeminate & homosexual males, 1128
role of parents in 2 therapeutic approaches, art therapists, 10756
scale development, assessment of temperament, parents of infants at 3–12 mos, longitudinal study, 9406
secondary parental problems caused by children's primary handicapping condition, parentalplegia, parents of mentally retarded & cerebral palsied children, suggestions for remediation, 10833
selection & training & use of community aides, intervention program as treatment, child abusing parents, 1925
self esteem & sex of custodial parent & time in single parent home & visitation with noncustodial parent & quality of relationship with parents, self esteem, male 9–14 yr old children of divorced parents, 1080
self report questionnaires for parents seeking help for child management problems, marital adjustment & normative data, abusive vs nonabusive parents, 10233
sex of parent & child's responsiveness to discipline, disciplinary techniques, parents of male vs female children of mean age 55.7 mo, 12677
short-term therapy awareness groups, young adults whose parents survived Holocaust, 8667
social support, 1st-time parents attending parenting groups, 8670
structured psychiatric interview, measurement of psychopathology, parents of psychotic children, 5953
suggestions for physician's informative advice to parents of Down's syndrome infants, 6582
teacher-parent discussion group & jigsaw instructional methods & youth tutoring youth programs, self esteem, students, 11237
test-retest reliability, Barber Scales of Self Regard, parents of preschoolers, 2434
variables involved in psychosocial adjustment, competent offspring of psychiatrically ill parents, 1058
Pargyline
beta-phenylethylamine vs pargyline vs apomorphine vs haloperidol, blink rate, male monkeys, 12377
clorgyline vs pargyline pretreatment, reduction in phenylethylamine dose required to produce checking & other behavioral changes, rhesus monkeys, 930
long-term antidepressant treatment, spiroperidol-labeled serotonin receptor binding, male rats, 5396
Parietal Lobe [See Also Somatosensory Cortex]
cell function distribution in parietal association area 7, stump-tailed monkeys, 12214
clomiphene citrate, EEG activity, sexually mature male rats, 7660
fronto-frontal vs temporo-parietal ECT, retrograde memory, depressive inpatients with mean age of 41.3 yrs, 13180
functional organization of posterior parietal association cortex & effects of lesions on attention & sensation & motor control, monkeys, 12222
neurological tests for determination of lesions of parietal cortex, 9398
parieto-occipital vs frontal lesions, visuo-constructive deficits & visual cue vs action compensation, cerebral lesion patients, 8355
role of inner ear vs cerebral cortex in visual symptoms during space flight motion sickness, astronauts, 6171
symptoms following cerebellar tumor surgery as evidence for role of circulatory insufficiency to temporoparieto-occipital region during space flight motion sickness induced visual hallucinations, 6170
Parkinsons Disease
dysprosody in Parkinsonism & aphasia, 10656
frontal EMG biofeedback vs relaxation training, manual motor functioning, Parkinson's patients, 1824
levodopa & decarboxylase inhibitors, electroretinogram, Parkinson's patients, 13335
levodopa & melanocyte-stimulating-hormone inhibiting factor, disability score & intellectual functioning, Parkinson's disease patients, 4082
MAO B inhibitor levodeprenyl, methylhistamine metabolism, implications for treatment of Parkinson's disease, 5363
neurochemistry & pathophysiology of parkinsonism & symptomatology of levodopa-induced psychosis, 1375
performance on visual scanning task & WAIS & Wechsler Memory Scale, patients with progressive supranuclear palsy vs other brain damage, 13114
psychiatric aspects of Parkinson's disease & effect of drug treatment, literature review, 3758
restructuring of functional control arrangement of wrist movement based on multilevel neuromuscular control model, restoration of function lost by Parkinson's disease related pathology, 6143
thioridazine vs thiothixene, activity & parkinsonism & prolactin levels, chronic schizophrenic 18–65 yr old outpatients, 13327
Parks (Recreational) [See Recreation Areas]
Parochial School Education [See Private School Education]
Parole
causal attributions, parole decisions, college students & parole decision makers, 3553
efficacy of volunteer program, recidivism, Black vs White inmate/parolees, 1968
Partial Reinforcement [See Reinforcement Schedules]
Partially Hearing Impaired
acoustic filtering, consonant recognition, 17–55 yr olds with unilateral hearing impairment, 13162
acoustic reflex, pure-tone threshold, sensorineural hearing impaired 20–60 yr olds, 3909
activator bandwidth, acoustic reflex growth, partially hearing impaired vs Ss with normal hearing, 13157
age, rhythmic body rocking, deaf & hard of hearing 5–16 yr olds, 3890
age & degree of impairment & signal frequency, horizontal sound localization, unilaterally hearing impaired 8–15 yr olds, 10689
articulatory errors, speech intelligibility, hearing impaired & deaf 8–20 yr olds, 8327
auditory frequency selectivity, normal Ss vs 63–70 yr old Ss with sensorineural hearing loss due to presbycusis, 6149
auditory masking in simulated hearing loss, inservice education, normal hearing child care workers, 8757
auditory numbers test, speech perception, hearing impaired 3–8 yr olds, 10625
auditory & visual consonant recognition training &/vs standard aural rehabilitation, audiovisual consonant & sentence recognition, hearing impaired 19–69 yr olds, 10966
autoregressive analysis vs clinical behavioral audiometry, measurement of EEG vs heart rate changes, hearing impaired 3–6 yr olds, 11576
binaural hearing aids, positioning of sound images, normal vs hearing impaired Ss, 6153
clinical characteristics & auditory evoked potentials, cortical deafness, 40 yr old male with primary myocardiopathy & unable to recognize speech & environmental sounds, 1602
clinical otovestibular measures, prognosis for acute idiopathic hypoacusis & anacusis, implications for medical treatment, 6448
computer applications, audiology & speech pathology & aural rehabilitation, 6979
computer-based exploratory learning systems, deaf vs hearing impaired vs aphasic 6–11 yr olds, 13646
connected speech audiometry & quality of uttered speech & psycholinguistic ability, partially hearing 9–18 yr olds with & without hearing aids, 8305
demographic characteristics, hearing impaired graduates of elementary schools with integrated vs segregated frameworks, 11280
demographic characteristics, syntactic abilities, hearing impaired 8–9 yr olds, 13086
frequency modulation discrimination ability, hearing impaired 20–65 yr olds, 13171
frequency selectivity, Ss with normal hearing vs conductive vs otosclerotic vs noise-induced vs degenerative hearing losses, 6130
hearing ability for speech & pure tones, secondarily hearing impaired 65–91 yr olds, 1595
hearing impairments, aged, 1564
high frequency stimuli & low filter settings, identification of short latency auditory evoked responses, adults with normal hearing vs cochlear hearing loss, 6148
impressions of attitudes of hearing rehabilitation professionals toward families of hearing impaired children in treatment, deaf parent of deaf & hearing children, 1887
interactions between amplitude & frequency, independent detection of pitch & loudness modulations, S with sensorineural hearing loss, 6122
language experience approach, teaching reading to deaf & hearing impaired children, 8994
listener judgments of hypernasality vs radiographic analysis of velar positioning, hearing impaired college students, 8371
low frequency response of hearing aids, judgments of aided speech quality, 27–66 yr old hearing-impaired males, 2391
low- vs high-frequency noise, interaural time discrimination, sensorineural hearing loss patients with mean age 27 yrs, 10685

magnitude of hearing loss, acoustic reflex thresholds, 20–88 yr olds, 10731
measurement of occupational noise-induced hearing loss, 13123
multidisciplinary rehabilitation & support services of New York League for the Hard of Hearing, 4142
principles & skills, counseling hearing impaired adults, counselors, 1930
psychiatric morbidity as measured by General Health Questionnaire, outpatients over 21 yrs of age referred for audiologic evaluation, 1392
psychological difficulties, teaching & guidance & vocational education, hearing impaired, 2151
psychosocial development, severely hearing impaired adolescents & their families, 1597
pure-tone masking of atonal tinnitus, 39 yr old male with left ear sensorineural hearing loss, 10669
quantitative description method, identification of patterns of segmental speech errors, hearing impaired & deaf 8–11 yr olds, 8345
reliability & factorial complexity & predictive validity of Test of Syntactic Abilities Screening Test, differentiation of hearing impairments, mildly vs severely vs profoundly deaf 8–12 yr olds, 222
sound localization & precedence effect, 6–16 yr olds with temporal lobe epilepsy vs monaural hearing losses, 13106
speaking fundamental frequency, hearing impaired 4–6 vs 8–10 vs 16–25 yr olds, 8325
stimulus frequency & intensity, acoustic reflex patterns as measured by signal averaging technique, sensorineural impaired vs stapedectomized adults, 5198
syntactic development & problems, construction of Test of Syntactic Abilities, deaf & hard of hearing & normal learning 8–18 yr olds, 4814
visual-spatial ability & speech reading, college students, implications for rehabilitation of hearing impaired, 6430
vocalization patterns, hearing impaired vs normal infants, longitudinal observations, 10705
Participation [See Also Group Participation]
activities & announcements & verbal & nonverbal prompts & positive reinforcement, participation in daily activities program, 19–88 yr old residents of intermediate care facility, 13416
classroom seating position, grades & participation, college students, 6707
demographic characteristics & influence, trade union members, UK, 11505
experienced control & participation in behavioral treatment of obesity, completion of treatment, 22–57 yr old females, 13304
familism, participation in government work-training programs, Chicanos 55 yrs of age & over, 12639
participation in pay plan development, job & pay satisfaction & understanding of plan & trust in management, manufacturing employees, 11487
perceived goal orientation & participation & relevance of performance appraisals, opinions of appraisal system, research & development organization employees, 4521
school size, alienation & participation in & importance of school activities, high school students, 4359
sex differences & participation in performance monitoring & reinforcement, achievement, 6th grade social studies students, 6699
sex & household size & education & demographic characteristics, allocation of time to leisure activities, heads-of-households, Norway vs United States, 12621
Parturition [See Birth]
Passive Avoidance [See Avoidance Conditioning]
Passiveness
sex of target & assertive vs passive behavior, prediction of behavior & personality rating along sex stereotypic trait dimensions, college students, 8048
somatization of emotional problems & passivity & factors in successful therapy, female patients, Saudi Arabia, 6161
Pastoral Counseling
aspects of Christian counseling & psychotherapy & counselor's accountability to Christian community vs mental health profession, 2005
conservative vs liberal theological orientation & seminary training level & counseling experience & training, facilitativeness in pastoral counseling, Protestant ministers, 2051
group cognitive restructuring technique with vs without religious imagery, group interaction & depression, depressed college students with high religiosity, 1815
role of pastoral counselors & counseling as sacramental act, 1139
theological rationale & Christian counseling, change from homosexual to heterosexual behavior, homosexuals, 13404
Pastors [See Ministers (Religion)]
Pathogenesis [See Etiology]
Pathology [See Also Neuropathology, Psychopathology]
dementia & tardive dyskinesia, schizophrenics, 5905
psychosocial factors, development & treatment of hypertension, hypertensives, 1580
Patient Characteristics [See Client Characteristics, Patients, Personality Traits]
Patient History
anamnesis & personality, treatment motivation, psychosomatics vs neurotics, 5924
application of oral history techniques, clinical medical practice, aging patients, 13373
argument against standard clinical methods of evaluation of mental & physical condition & support for oral history techniques, aged patients, 13369
biological vs cortical function differences, responsivity to treatment, manic patients, 8425
bulimic behavior & weight & family history & psychological adjustment & medical complications, female patients with bulimia, 13143
childhood separation from parent & emotional traumata, adolescent mental disorder, 14–19 yr olds, England, 5957
clinical & demographic & historical features, diagnosis of schizophrenia, psychiatric patients, 5988
clinical & family history & symptoms, hysterical conversion reactions, 9–15 yr olds, 1429
clinical features & treatment & course & outcome, female anorexia nervosa patients with mean age of 20.8 yrs, 10413
course of illness, schizoaffective vs bipolar manic depressive patients, 10452
course of illness, schizophrenics, followup studies, 10487
course of illness & age & cause of death, schizophrenics, long term followup study, 10467
course of psychotic symptoms prior to first hospital admission, schizophrenics, prevention & prognosis implications, 12963
dexamethasone suppression test, measurement of hypothalamic pituitary-adrenal axis activity, 18–65 yr old depressed vs nondepressed patients, 1481
diagnosis & prognosis, mental breakdown, 14–19 yr olds, England, 2-yr followup study, 6501
differential use of & referral to psychiatric hospital or outpatient services, West Indian vs West African vs English patients in London, 8626
etiology of depression, 26 yr old male, 3792
family history of affective disorders & alcoholism, agoraphobic vs social phobic vs miscellaneous-specific phobic patients, 10504
family history & premorbidity & EEG status & response to treatment, paranoid schizophrenia vs Kretschmer's syndrome of sensitive delusions of reference, patients, 1418
family history & psychotherapeutic outcomes & prognosis & mode of onset, schizophrenic & paranoid symptoms, depressed patients, 12947
family history study, Briquet's syndrome patients, 6124
family medical histories & life events prior to disease onset, families of 3–17 yr old cancer patients, 1590
genetic information in case history & primary & secondary behavioral signs of schizophrenia, diagnosis of schizophrenia, practicing clinicians, 5945
granting right of access to own hospital records, treatment effectiveness & attitude toward hospital & staff, hospitalized psychiatric patients, 1955
guilt over thoughts of harming their babies & self concept as inadequate mother, postpartum depression, mothers, treatment implications, 6226
home hemodialysis training dropouts, couples with mean age of 46 yrs entering training for treatment of end-stage renal disease, 10979
human lymphocyte antigen-typing & genetics & family history, bipolar vs unipolar vs schizoaffective disorder vs alcoholism, 44–58 yr old siblings, 12931
life histories & reactions to illness & psychodynamic issues, 29–69 yr old female breast cancer patients, 1558
medical diagnosis & physical attractiveness, reactions to patients who complain of pain, nursing students, 11083
medical evaluations, psychiatric patients, 6192

medical histories, abused vs nonabused incarcerated delinquent children, 8216
medical histories & characteristics, 18–56 yr old hospitalized patients with artifactual illness, 10653
mental symptoms & body weight change & previous history, 17–39 yr old females in first week after childbirth, 10263
methods for discrimination of transvestism vs gender dysphoric Ss, patients applying for sex reassignment, 6452
patient & family history & neurological abnormalities, schizophrenics, 1490
patient histories, 31 & 35 yr old male schizophrenics with 47 XXY chromosomal patterns & with no family history of schizophrenia, 10433
personal & family background & psychological assessment & treatment, female monozygotic twins discordant for obsessive compulsive neurosis, implications for genetic predisposition, 1437
premorbid personality traits, development of unipolar depression, 13–74 yr olds, 1435
prevalence of schizophrenia, relatives of paranoid psychotics, 3795
psychiatric manifestations, 34 yr old acutely depressed male with systemic sarcoidosis, 1368
psychosocial background, behavior during treatment in psychiatric institution, female adolescents, 6505
psychosomatic approach, hospitalized patients with history of several operations, 13125
Research Diagnostic Criteria, prevalance of schizoaffective disorder & assessments of family history vs drug response vs clinical vs laboratory variables, bipolar I depression patients, 1478
segregation & genotype linkage analysis, predisposition & incidence of unipolar depression, family members, 12950
symptom & biochemical profiles & treatment response, psychotic vs nonpsychotic depressive patients, 12959
use of family informants in diagnosis of mania, acutely psychotic patients, 1406
Patient Therapist Interaction [See Psychotherapeutic Processes]
Patients [See Also Geriatric Patients, Hospitalized Patients, Medical Patients, Outpatients, Psychiatric Patients, Surgical Patients, Terminally Ill Patients]
death of spouse vs child vs parent, bereavement intensity, 18–84 yr old newly bereaved Ss, 5887
frequency & symptoms & causes & treatment, depression, patients of general practitioners, France, 1461
level of depression, cerebrospinal fluid citrate, depressed vs manic vs nonpsychiatric patients, 10500
medical diagnosis & physical attractiveness, reactions to patients who complain of pain, nursing students, 11083
Mental Health Act (1978), mental competence & consent to treatment, 32 yr old female, Canada, 8756
patient characteristics & posttreatment alcohol abstinence & polydrug abuse, MMPI profile, inpatient alcoholics, 8219
patient education handout information, biofeedback relaxation therapy procedures, 10866
patient selection factors, mental health service delivery, hospital inpatient population, implications for "Matthew effect", 3966
perceived expectations of family & friends & social functioning, 2 structured interviews separated by 3-yr interval, 21–75 yr old chronic hemodialysis patients, 10713
personality traits & complaints, type of sleep disruption, primary insomniacs, 8306
placebo treatment, improvement & attributes, university medical center & college health service patients, 3970
psychological aspects of health, women as caregivers & patients, bibliography, 11113
role reversal, assessment of patient understanding of biofeedback & identification of successful procedures, 10883
Pattern (Stimulus) [See Stimulus Variability]
Pattern Discrimination
age at preparation of brain lesions, adoption of alternative strategies in problem solving, cats, 3103
alternate presentation of random dot stereograms, thresholds for detection of apparent movement, 9491
angular selectivity of monocular rivalry with achromatic gratings & computer simulation, college students, 9489
applications & Bayesian model, multimembership & multiperspective classification in pattern recognition, 2557
articulation ability, imitation of suprasegmental patterns, 5 yr olds, 3887
bilateral lesions of pretectum & superior colliculus, learning of pattern vs object discrimination, male rhesus monkeys, 7596
discrimination of vertical vs horizontal symmetrical vs asymmetrical forms, 4 mo olds, 10040
eye movements, mirror & nonmirror image pattern discrimination of spatially simple vs complex stimuli, adults, 11839
high spatial frequency of compound waveform, phase perception, 9493
individual differences & word vs nonword context, response latency in letter identification, college students, 11815
inferotemporal lesions, visual discrimination learning, monkeys, 5341
interocular transfer of brightness vs pattern discriminations, hooded vs albino rats, 9782
interocular transfer of problem specific information, pattern discrimination learning, male albino rats, 609
isolation rearing, response to blue vs yellow models of conspecifics, male cichlid fish, 12114
latent visual learning, memory trace of visual pattern, crucians & goldfish, 9636
length of musical training, preference for right vs left ear in identification of recurring melodies & excerpts, college faculty vs student musicians vs nonmusicians, 7499
linguistic & quantitative abilities, Trail Making Test performance, female college students, 2751
long wavelength foveal insensitivity, rhesus monkeys & human O with normal color vision, 9793
mathematical description of visual cortex channels, pattern recognition pathways, D. Gabor's representations, 12223
matrix pattern grids &/vs tilt, information transmission, schizophrenic 21–45 yr olds, 6003
mechanisms mediating pattern vs light masking, photoreceptor sensory codes vs neural loci, 11787
model, detection & recognition of 2 parallel lines based on detection of individual lines, Ss, 11807
multisensory vs visual only test information, performance on visual pattern matching task, learning disabled male 6–8.9 yr olds, 10604
operator mental loading, voice recognition system performance, 13785
orientational similarity of Fourier components of adapting checkerboard, detectability of gratings, 4916
pattern reproduction, 1st–7th graders, Scotland vs Bukusu, 3305
practice & awareness of study's purpose, detection of global 3-dimensional organization of visual patterns corresponding to projection of rotating sphere, Os, 361
reading ability, memory access of visual patterns, college students, 5032
retinal loci & simulated blur patterns, thresholds for detection of divergence, college students, 11798
selectivity of spatial frequency channels, normal contrast sensitivity to gratings vs poor visual acuity, strabismic amblyopes vs myope, 9508
similarity between target & nontarget letters, recognition of target letters, young adults, 9490
sinusoidal grating spatial frequency, temporal sensitivity differences in detection of pattern vs detection of pattern change, male O, 375
spatial frequency of stereoscopically presented vertical sinusoidal gratings, binocular perception of slanted plane, Ss, 9509
spatial frequency & stimulus duration differences in contrast sensitivity, male reading disabled vs normal 14 yr olds, 6079
spatial periodic patterns, evoked potentials, 22–31 yr old males, 2995
spatial & temporal frequency variation of sine wave gratings, flicker & pattern thresholds, implications for velocity-based relationship between flicker & pattern thresholds, 4917
stimulus fading vs traditional discrimination training, discrimination of braille patterns, college students, 458
stimulus orientation & spatial frequency, perceptual learning, 4910
tacit vs conscious knowledge, pattern recognition, implications for models of human memory, 471
technique for testing eliciting effects of color patterns, fishes, 120
temporal modulation of grating contrast, illusory spatial frequency increase & role of local spatial distortions, 4935
unilateral sectioning of optic nerve, pattern reversal electroretinographic responses, cats, 12335
variation in stimulus duration, perceived contrast & RT & amplitude of visual evoked potentials, 19–31 yr olds, 11782
variations in local retinal sensitivity & velocity, pattern adaptation, replication of studies by C. Blakemore & F. W. Campbell, 11806
visual cortex ablation & contrast & parameters of patterns, visual form discrimination, cats, 3099
visual imagery, reduction of backward masking effects on target dot patterns, 4938

visual pattern classification & reading skills in concept formation context, kindergartners & 1st graders, 4338
visual pattern discrimination & reading skills, kindergartners through 3rd graders, 4337
visual white noise oscillation in brightness, flicker pattern discrimination, 2701
Pavlovian Conditioning [See Classical Conditioning]
Pay [See Salaries]
Peabody Picture Vocabulary Test
concurrent validity of Revised Peabody Picture Vocabulary Test, kindergarten & 1st & 2nd grade students, 9387
correlation between Peabody Picture Vocabulary Test & McCarthy Scales of Children's Abilities, 7.5 yr old autistic children, 7043
intelligence measured by Revised Beta Examination vs Peabody Picture Vocabulary Test, 15–20 yr old disabled students, 2456
revised Peabody Picture Vocabulary Test vs Revised WISC, educable mentally retarded 7.3–15.8 yr olds, 9399
scores on Peabody Picture Vocabulary Test vs Revised WISC, reading disabled elementary school students, 2197
Slosson Intelligence Test vs Peabody Picture Vocabulary Test vs Developmental Test of Visual-Motor Integration vs Revised WISC, screening for special education placement, 6–16 yr olds, 9078
test bias with Lorge-Thorndike Intelligence & Peabody Picture Vocabulary tests & Metropolitan Achievement Tests, 6–13 yr old urban disadvantaged Blacks, 197
validity of Peabody Picture Vocabulary Test, receptive hearing vocabulary, rural Black 4–5 yr olds, 7052
validity & reliability of Peabody Picture Vocabulary Test, emotionally disturbed 13–17 yr olds, 6-mo followup, 158
Pearson Prod Moment Correl Coeff [See Statistical Correlation]
Pecking Order [See Animal Dominance]
Pederasty [See Pedophilia]
Pedestrian Accidents
exposure to vs accidents vs accident probability vs observations of road crossing behavior, identification & development of pedestrian educational objectives, child pedestrians, literature review, 11214
Pedestrians
development of road safety parent training program, safe pedestrian education, 3–6 yr olds, 11193
early education in traffic safety, 4–8 yr old pedestrians, 11197
feasibility of educational objectives, traffic safety education, young children, literature review, 11215
nonverbal cues & sex & noise, helping behavior, pedestrians & college students, 12763
objectives of child pedestrian safety education, 11186
pedestrian task analysis, aid to formulation of child traffic educational objectives, 11213
vehicle size, estimate of approach velocity, male 22–48 yr old pedestrians, implications for road safety, 13694
Pediatricians
Early Intervention Program for Preschoolers & Parents, treatment of physical & developmental & behavioral problems, pediatricians, 4126
Pediatrics
behavioral psychology consultations for pediatric cases, 14 yr old male & female with anorexia nervosa, 10859
education about mentally retarded, medical students in pediatrics, 8795
guidelines for improvement, undergraduate education & residency in behavioral pediatrics, literature review, 1997
hydroxyzine treatment at 10–29 vs 23–29 days of age, delayed spontaneous alternation behavior, male rats, implications for pediatric psychopharmacology, 3180
objectives for 1-mo training program in development disabilities, pediatric residents, 8808
relationship of child development & pediatrics, 11131
training programs, behavioral pediatrics, 2011
Pedophilia
biofeedback-assisted self control procedure, suppression of deviant responses & maintenance of nondeviant responses, 24 yr old male bisexual pedophile, 1804
masturbatory reconditioning with nondeviant fantasies, change in sexual orientation, 20 yr old male pedophile, 1799
preferences expressed in 2 unlike 2-choice sexual stimulus conditions & response latency, predictions of relative reinforcement value of preferences, 36 yr old male pedophile, 9600
social skills training & aversive deconditioning, pedophilia, 37 yr old male pedophile, 1795
Peer Counseling
peer facilitation program, disruptive behavior & interpersonal sensitivity & helping skills, 5th graders, 6664
peer-led school orientation program, transition facilitation, displaced elementary school pupils, 8930
Peer Relations
academic achievement, individual identification with parents vs peers vs school personnel, 16–18 yr old males, 7910
acceptance of mildly mentally retarded by nonretarded peers, literature review, 8987
acceptance of White peers after school integration, scholastic achievement, Black children, reanalysis of data of R. Lewis & N. St. John, 4268
action vs dialog oriented peer support networks, institutionalized adolescents, 4176
age differences, social participation in mixed vs single age groups, 3 & 4 yr olds, implications for preschool education, 11245
age & popularity & nursery school experience, accuracy of reporting own vs peers' best friend, 3–4 yr old nursery school students, 10193
applicability of M. Fishbein's model of attitudes & beliefs vs other models, changes in attitudes & beliefs between disagreeing peers, college students, 10337
birth order differences, sociability with unfamiliar peer, 2.8 yr olds, 10194
birth order & interaction in same vs opposite gender dyads, peer popularity, kindergartners, 7858
brief social skills training & peer prompting & reinforcement, social behavior, 32 yr old socially isolated male resident of psychiatric rehabilitation center, 13434
characteristics of peer groups, male vs female adolescents, Senegal, 12577
classroom structure, shared perception of ability, 5th & 6th graders & elementary school teachers, 4372
coding system, dyadic peer interaction, preschool & school age children, 234
concept of popularity & emphasis on peer conformity & sex role orientation, adolescents, 1960–1976, 3455
degree of intimacy motivation on TAT, group behavior & content of original dramatic scenario, college students, 12813
development of multiple criterion screen for identification of psychiatric disorders, secondary students, 2190
development of possessive behavior, children, 12581
direct vs indirect & positive vs negative communications & expressions given, actual vs perceived peer appraisal, male vs female 4th–8th graders, 1060
drug usage & interactions with parents & peers & significant adults, male vs female 7th vs 8th vs 9th graders, 10165
effectiveness of participation in group problem solving task with peers, learning disabled vs normal 3rd–8th graders, 10589
enrollment in nursery school vs home care, peer vs parent-child interaction, 3 yr olds, 3451
experimental vs traditional residence setting & faculty & peer relationships, educational growth, college freshmen, 6709
extent & determinants of use of alcohol & inhalants & marihuana & phencyclidine, Mexican American 9–17 yr olds, 5707
family background & psychological correlates, juvenile delinquency, literaure review, 10540
father's occupation & delinquent peer associations & rationalization & self reported minor vs predatory vs aggressive delinquency, Anglo vs Mexican American college students, 1524
frequency of reinforcing & neutral & punishing social behavior, popularity & friendship selection & interaction with liked vs disliked vs neutral peers, 4–5 yr olds, 3438
full vs half day school attendance, peer interaction & motor activity, 2.5–4.5 yr olds, 11257
games, development of helping behavior toward peers, preschoolers, 3400
games analysis, motor development & sex-appropriate play patterns & peer acceptance, 10 yr old gender disturbed male, 8537
hierarchical vs nonhierarchical models, dominance in social organization, 2 yr olds, 3419
individual vs group contingencies, reading accuracy, 9.5–11.1 yr old special education students, 11298
information on own unpopularity, decrease in attractiveness of peer group members & consistency of self evaluation, 18–19 yr old males, 12760
inner state vs behavior traits & social desirability, self vs peer personality ratings, college students, 12850
in- & out-of-school settings, age segregation, 13–19.9 yr olds, 10177

marihuana use & values for independence & peer affection, college students, 12731
measurement, social competence, 3 & 4 yr olds, 3459
mixed vs like dyads, initiation strategies in peer interaction, hearing &/vs deaf dyads of 3.4–5.3 yr olds, 10742
own attitudes & perception of attitudes of peers & teachers & parents toward identification as gifted & participation in special programs, gifted students, 2153
participation in communication program, social interaction with nonhandicapped peers, cleft palate 3–11 yr olds, 10963
participation in relationship therapy, ability to form adequate relationships & decrease residual symptoms, 14–20 yr olds, England, 2-yr followup study, 6243
parttime employment, family & peer & coworker relations, 10th & 11th graders, 1066
peer facilitation program, disruptive behavior & interpersonal sensitivity & helping skills, 5th graders, 6664
peer group pressures & parental controls, cigarette smoking, 10–14 yr olds, Scotland, implications for health education, 3402
peer-infant separation & rewarding brain stimulation, behavior, pigtail macaque & rhesus macaque infants raised in pairs from birth, 3089
peer interaction during play session, Down's syndrome 3–4.5 yr olds, 10612
peer-led school orientation program, transition facilitation, displaced elementary school pupils, 8930
peer presence & audiovisual distractor, TV viewing behavior, 3–5 yr olds, 7739
peer social interaction, 1st vs 2nd born infants who have preschool age sibling, 7909
peer sociometric ratings & teacher judgments, targeting children with interpersonal relationship problems, male vs female 3rd–5th graders, 13056
peer status & teacher preference & self appraisals of social status, mainstreamed learning disabled vs nondisabled 4th–6th graders, 4386
perceived inability to surmount rejection & popularity of S, attributions for rejection, 4th & 5th graders, 3420
perceptions of antisocial behavior & peer regulation & individuality & attention structure in school, junior high school students & staff, 11236
physical & social stimuli in kindergarten setting, motor behavior indications of interactions with peers & teachers & work, kindergartners, 2142
play behavior in separate vs combined groups, minimally handicapped &/vs nonhandicapped 2.5–4 yr olds, 11282
presence of inanimate objects, length of interaction with familiar vs unfamiliar peers, 10–14.5 mo olds, longitudinal study, 10166
presence vs absence of friend vs nonfriend, activity & toy play, male vs female 3–5 yr olds, 5568
psychodrama techniques in group psychotherapy, emotional development & socialization, learning disabled 12 yr old males with peer group adjustment problems, 1750
quantitative vs qualitative coding of peer verbal interaction, moderately mentally retarded 13–14 yr olds, 7002
reliability of behavioral observation method, social functioning & peer interaction, 6–13 yr olds in short term psychiatric facility, 9385
residential moves & peer group alienation & parental marital strife & other stresses, somatic disorders, adolescents, 1574
respect for law & empathy & peer influence, involvement in prior automobile accidents, US males enrolled in "driving while drunk" classes, replication of study by A. W. Clark in Australia, 6041
scale development, measurement of job related stress & dissatisfaction, police officers & college students & teachers, 7113
secure vs anxiously avoidant vs anxiously resistant attachment to mother, sociability & positive vs negative orientation to peers & mother, 20–23 mo olds, 3447
self concept & attitudes toward learning & peer relations, gifted vs normal children of mean age 9.8 yrs, 12567
self disclosure patterns, adjusted vs maladjusted male adolescents, 8212
self monitoring & assertion skill & positive statements, lying & provocative peer statements & appropriate social behavior, 18 yr old female delinquent, 9-mo followup, 10887
separation, 8 mo old rhesus monkeys reared in social isolation vs group of peers vs natural group with mother, 7375
sex & age & socioeconomic status, attitudes toward school & self & peers, 5th graders, 4355
social conversation patterns, learning disabled 3rd graders, 4403
social skills training, improved interpersonal skills & increased frequency of peer interaction, 12–16 yr old learning disabled males, 1802
social status vs problem solving ability in social situations, emotionally disturbed 8–13 yr old males, 8202
sociometric measures such as social competence vs visual regard vs dominance status vs attention rank, measurement of aggression & play behavior, 4 yr olds, 2426
spontaneous peer psychotherapy in daycare setting, female 2 yr old, 8407
stability of peer- & self-ratings of popularity, children at ages 10 & 13 & 15, longitudinal study, 1051
teacher intervention procedure, increase in peer social interaction, withdrawn 4 yr old male, 11256
teacher ratings of child as withdrawn & aggressive & likeable & peer ratings of acceptance, male vs female 3rd–5th graders, 11366
type of role stress, dissatisfaction with co-workers & job, work organization employees, 11471
vestibular stimulation & characteristics of explosiveness & irritability & social interaction, classroom behavior, 4 & 5 yr old hyperactive males, 4390

Peer Tutoring

causal attributions for performance, 2nd–8th grade tutors & tutees, 6666
cross age tutoring, tutor & tutee morpheme-reading performance, learning disabled 5th & 3rd & 2nd graders, 8973
peer cooperation, comprehension of learning materials, 4th graders, 8897
peer tutoring model, training as "teacher tutors" of mainstreamed peers, 8th & 9th graders, 2154
training & generalization of appropriate teaching behaviors, tutoring severely retarded student, junior high school students, 8983
training of high-status by low-status group, influence of low status group, 7th & 8th grade males of Middle Eastern vs Western background, Israel, implications for mixed status classrooms, 6704
use of retarded resident to teach another retarded resident alphabet & spelling, 13421

Peers

acceptance of mildly mentally retarded by nonretarded peers, literature review, 8987
age of peer model, selective imitation, kindergartners vs 2nd vs 4th graders, 10135
birth order & interaction in same vs opposite gender dyads, peer popularity, kindergartners, 7858
characteristics of peer groups, male vs female adolescents, Senegal, 12577
comparative validity of Likert behavior inventories vs forced choice vs projective tests, measurement of achievement motivation, male students, 216
eye contact & vocal loudness & fluency, perceptions of peers' assertiveness, male college students, 3651
family structure & peer groups & social class & sex as predictors of attitudes about male-female relations, Black unmarried 13–20 yr olds in rural community, 3581
instructor vs self vs mutual evaluations, social development, student lathe operators during 3-yr course of instruction, 8881
isolation vs presence of mother vs peer from same vs different social group, plasma cortisol levels & agitated behavior & physical contact & vocalization, mother-reared rhesus monkeys captured from their social groups, 7404
level of self monitoring, congruence between self ratings & averaged acquaintance ratings reflecting S's behavior, college students, 144
observation of normal peer models in discrimination task, task performance, autistic 5–7 yr olds, 8982
peer comments on preferences vs performance, correct use of paragraphs in written composition, 4th graders, 6676
peer group influence, school achievement & occupational aspirations, elementary–high school students, data synthesis from 10 studies, 11223
peer group pressures & parental controls, cigarette smoking, 10–14 yr olds, Scotland, implications for health education, 3402
peer ratings of leadership performance & leader preference ratings, male vs female cadets at ROTC Advanced Summer Camp, 2214
peer-regulated hospital program, rehabilitation, drug addicts, 6523
peer review method in psychiatry, 11130
peer vs self nominations, positive vs negative effects of encounter group experience, graduate business students, 10847
perceived consequences & normative influences, use of oral contraceptives, college students, 5711

perceptions of type & severity of disorders in peers, 9–13 yr olds, 10185
prediction of preferences of peers vs nonpeers, accuracy & differentiation, 4–5 vs 8–9 yr olds vs college students, 12588
reliability of peer social behavior rating, socially phobic patients, 10478
reliability & validity & friendship bias & user reactions, peer nominations vs ratings, police officers & their supervisors, 9450
response speed & inattention to social cues, attribution of hostility to peers, aggressive vs nonaggressive male kindergartners through 5th graders, 7860
scoring method & interrater reliability, peer ratings, Air Force basic trainees, 4758
scoring strategy development & reliability, peer ratings, Air Force basic trainees, 9322
smoking behavior & related attitudes of cohort, 11–12 yr olds, 4-yr longitudinal study, 12734
social comparison method, setting & evaluating academic objectives, learning disabled, 6723
social skills training followed by "buddy system" monitoring of another patient's behavior, appropriate social behavior, 33–38 yr old female retarded-psychotic patients, 6350
symbiosis in learning therapy, hearing impaired & learning disabled 12 yr olds, 9007
validity & methodology & situational factors, peer evaluation research, literature review, 11443
validity of peer ratings, evaluation of potential performance, ranger trainees, 6821

Pemoline
development of Gilles de la Tourette syndrome during pemoline therapy, 14 yr old male, 10646
pemoline therapy & presence vs absence of childhood hyperactivity, adults with attention deficit disorder, 1879
stimulant drug therapy, hyperactive children, literature review, 13316

Penicillins
electrical stimulation & acetylcholine chloride & potassium chloride & penicillin in pulvinar-lateral posterior complex, turning behavior, cats, 12323
pencillamine, mental disorders associated with hepatolenticular degeneration, 8583

Penis
penile sheath removal & spinal transection, penile reflex, male rats, 3119

Penis Envy
pregnancy & subliminal pregnancy message, phallic imagery, college students & 21–45 yr old females, 5690

Penitentiaries [See Prisons]

Penology
analysis of correctional treatment typologies, 4187

Pentobarbital
cessation of chronic consumption of ethanol vs tertiary-butanol vs pentobarbital, acquisition of shock avoidance task, male mice, 3212
click rate vs pentobarbital vs chronic brain lesions, sequence of auditory evoked potentials from vertex, cats, 12277
delta-9-tetrahydrocannabinol &/or pentobarbital, key selection discrimination, pigeons, 3182
dextroamphetamine &/vs pentobarbital injection, discrimination response generalization, pigeons, 618
dextroamphetamine vs pentobarbital under concurrent FR schedules, keypecking, pigeons, 589
diazepam withdrawal symptoms, 60 yr old female, 4099
eserine & atropine & ether & pentobarbital, hippocampal EEG & evoked potentials & behavior, male rats, 5388
ethyl alcohol & pentobarbital injections into median thalamus & periaqueductal gray matter & nucleus of tractus solitarius & naloxone, sleep EEG, rabbits, 12407
immersion in water with pentobarbital sodium, attack behavior, male Siamese fighting fish, 3162
learning in drugged vs nondrugged state & continuous vs FR reinforcement, reward maximization, male rats, 7645
morphine & dextroamphetamine sulfate & pentobarbital sodium, shock & light discrimination, male rats, 7649
new glutarimide compounds & pentobarbitone, duration of barbiturate anesthesia, mice, 9953
pentobarbital & chloral hydrate & meprobamate & chlordiazepoxide, effectiveness of auditory vs electrical CS in eliciting CR, cats, implications for drug-stimulus hypothesis & state-dependent learning, 9836
pentobarbitol vs other drugs, drug discriminative behavior, pigeons, 9938
sequence of pentobarbital & lithium & saccharin & pentobarbital pairing, taste aversion, male rats, 7328
sodium pentobarbital injections to ventromedial hypothalamus & delay of food presentation, time course of food directed vs noneating acts, male rats, 904
tactile stimulus velocity differences & pentobarbital, velocity discrimination vs signaling by cortical neuron firing frequency, humans vs rhesus monkeys, 5204

Pentylenetetrazol
beta-carboline-3-carboxylic acid ethyl ester, diazepam displacement from brain tissue blockade of pentylenetetrazole-induced clonic seizures, mice, 9968
intrastriatal kainic acid & pentylenetetrazol, induction & potentiation of clonic convulsions, male rats, animal model of human temporal lobe epilepsy, 5398
pentylenetetrazol, behavior & EEG activity & cyclic adenosine monophosphate & cyclic guanosine monophosphate brain levels, female mice, 5365
pentylenetetrazole, conditioned taste aversion, rats, 887
posttraining pentylenetetrazol, facilitation of single-problem discrimination learning vs learning set, rhesus monkeys, 866
spontaneous & pentylenetetrazol-induced spike-wave discharges in electrocorticogram & locomotor arrest & clonic facial movements, rats, similarities to human petit mal epilepsy, 7485

Pentylenetetrazole [See Pentylenetetrazol]

Peoples Republic of China
apprehension about speaking, college students, US vs China, 3710
childrearing practices, Japan vs People's Republic of China, 3471
citizenship education, 2 mo–12 yr olds, China, 5453
community mental health system, China, 6479
mass line leadership & thought reform, People's Republic of China, 12622
mental health work, China, 8646
perception of relative size of preferred vs nonpreferred brand, availability of alternative brands, US vs People's Republic of China vs Pakistan consumers, 4605
political themes in children's drawings & books & cartoons, China, 5470
shift in education policies from egalitarian ideals under Mao Tse-tung to modern achievement orientation, China, 6624
social & political procedures, psychiatry, China, 10758
state of psychology, People's Republic of China, 2307
words most weighted with existential meaning, generative words & implications for religious education, young people from 3 US religious groups & Haiti & Shanghai & Japan, 9988
5 periods of the development of psychology in People's Republic of China, 9236

Peptic Ulcers [See Gastrointestinal Ulcers]

Peptides
acute & chronic ethanol treatment, brain & pituitary endorphin levels, male Sprague-Dawley rats, 928
administration of sleep-promoting factor & delta sleep-inducing peptide, REM & NREM sleep, mice, 913
arginine vasotocin-like neuropeptide in nervous system, bursting activity of neurons & gill withdrawal reflexes, Aplysia, 9784
beta-endorphin & method of iv injection, prolactin & EEG response & clinical symptom improvement, male chronic schizophrenics, 1837
biochemical role of binding to & inhibition of calcium binding protein by antipsychotic drugs & endogenous proteins, 940
bombesin, conditioned taste aversion, male rats, 9635
brain amines & dopamine & endorphin, affective disorders & schizophrenia, 10526
brief presentations of moving imprinting stimulus, temporal patterns of attachment behavior & role of priming effect superimposed on low response probability & possible mediation by opiate peptides, ducklings, 633
continuous vs bolus cholecystokinin-octapeptide injections to cerebral ventricles, feed intake, castrated male sheep, 875
delta sleep inducing peptide & arginine vasotocin, sleep & motor activity, male rats, 5411
diffuse noxious inhibitory controls, activity of trigeminal nucleus caudalis neurons, rats, 5303
dosage level of endorphin analog, maze running speed & errors, hungry rats, 12378
efficacy of gamma-endorphin, schizophrenics, 13345
enkephalin analog vs morphine, locomotor activity, male mice, 12406

evidence for physiological amnesic mechanism mediated by endogenous opioid peptides, state dependency of learning upon release of beta-endorphin, literature review, 9775
fasting for 1–3 days, decreases in hypothalamic vs pituitary beta-endorphin, male rats, implications for physiological adaptation to food deprivation, 9844
food deprivation during light vs dark phase of light-dark cycle & naloxone, fluctuations in pain sensitivity & role of endogenous opioid system, male rats, 5390
function of endorphins in brain & possible role in opiate addiction & mental disorders, review of research, 698
hypophysectomy & naloxone, analgesia following ECS, male rats, 12293
icv injections of eledoisin & physalaemin & substance P, modifications of drinking behavior & arterial blood pressure, rats & pigeons, 874
intracranial self stimulation & ACTH 4–9 related synthetic peptides, response frequency & general activity, male rats, 9942
intraspinal morphine & methionine-enkephalin & intravenous naltrexone, C-fiber & polysynaptic reflexes, decerebrate low spinal cats, 3139
intraventricular vs periaqueductal gray injections of bombesin, receptor distribution in brain & nociception & locomotor activity, rats, 921
ip beta-endorphin & training & stimulation, memory retention & beta-endorphin immunoreactivity in brain, rats, 7656
iv beta-endorphin, behavioral change, schizophrenic & depressed inpatients, 1846
level of met-enkephalin-arg-6-phe-7 in brain, opioid agonistic effects, rats & cattle & humans, 7486
medial hypothalamus electrolytic lesions, hyperalgesia & role of endorphin & enkephalin systems, male rats, 5347
microinjection of alpha-melanocyte-stimulating hormone & related peptides into periaqueductal gray, analgesia, male rats, 9972
morphine vs naloxone vs enkephalin, tardive dyskinesia, psychiatric patients, 4078
naloxone, facilitation of kindled behavioral seizures induced by amygdaloid electrical stimulation & role of endogenous opioid blocking, female rats, 792
naloxone vs beta-endorphin, acquisition & memory & retrieval of shuttle avoidance & habituation learning, female rats, 3181
naloxone vs beta-endorphin dosages, shuttle avoidance learning & tone response habituation, female rats, 12372
naltrexone & stage of pregnancy & parturition, endorphin-mediated pain threshold increases, rats, 5374
neuronal peptide concentration, circadian variations in substance P & luliberin & thyroliberin in hypothalamic & extrahypothalamic nuclei, male rats, 12216
obesity & octapeptide cholecystokinin & bombesin, food intake, weanling rats, 5392
octapeptide of cholecystokinin, feeding behavior, obese vs lean rats, 7673
octapeptide vs impure cholecystokinin, feeding & drinking behavior, obese vs lean female rats, 7672
physostigmine, mood & behavior & elevations in plasma cortisol & beta-endorphin, normal volunteer Ss, 5402
posttraining ip injections of enkephalin & endorphin, memory consolidation of habituation of rearing task & shuttle avoidance, female rats, 894
role & site of brain peptides as neurotransmitters, literature review, 2959
scotophobin, motor activity, mice, implications for effects on memory transfer, 941
self administered enkephalin, opiate seeking behavior, morphine-dependent rats, 3218
self stimulation of lateral hypothalamus, interaction between actions of enkephalin & electrical stimulation, male rats, 805
substance P in cerebral ventricle & other areas of brain, behavior & electrical activity & body temperature, adult fowls, 12397
trifluoperazine vs sulpiride with vs without dexamethasone, opiate activity in pituitary extracts, male rats, 3214
Perception (Self) [See Self Perception]
Perception [See Also Related Terms]
actual vs perceived success of training in suppression vs enhancement of alpha brain waves, anxiety reduction, college students high in trait anxiety, 10892
anatomical features & cognitive & perceptual functioning in corpus callosum agenesis, 7–48 yr olds, review of reported cases, 8312
attention & perception & cerebral specialization, prayer & liturgical worship, 4886
cardiac awareness & feedback, voluntary control of heart rate, college students, 9814
changes in sensory organs & CNS, interpersonal communication, aged, 974
cognitive vs direct approach to explanation of illusory causation & correlation in object & person perception, literature review, 12815
concurrent performance of failure detection/monitoring & RT tasks, assessment of perceptual & response loads, application of Sternberg's additive factors methodology, 11907
concurrent vs retrospective assessment, test anxiety levels & performance & positive vs negative thoughts & bodily sensations, college students, 9267
direct visual perception, criticism of J. J. Gibson theory, 7192
evaluation of telephone counseling service effectiveness, perception of problem areas & counselor's helpfulness & caller's strongest feelings, counselors vs callers, 8638
eye movements, perceptual & cognitive processes, bibliography, 1976–80, 11727
factor analysis, dimensions of perception of physical characteristics of homes & neighborhoods & high schools & university residence rooms, 9th & 10th graders & college students, 7016
functional organization of posterior parietal association cortex & effects of lesions on attention & sensation & motor control, monkeys, 12222
humorous vs nonhumorous vs no distracting material, low vs medium vs high levels of induced anxiety, male college students, 8079
information processing model of perception based on psychophysics & phenomenology & information processing aspects of visual perception, 4891
intersensory & holistic processes, perception, 7159
metaphorical matching vs cross modal object recognition, female chimpanzees, 12030
perceived magnitude of multiple electrocutaneous pulses on abdomen vs auditory stimulation, normal hearing Ss, 7154
perception as discrimination of specific qualitative differences between entities, 2658
perception & memory & thinking processes in communication, 435
perception of innovation's characteristics, adoption & diffusion of energy-conserving processes & products, 9216
perception of psychiatric ward atmosphere, nursing staff vs other professionals, 6557
perceptions of effect of Public Law 94-142 on practice of school psychology, school psychologists, 8854
perception & thinking & knowledge in cognitive development, children, 10129
perceptual theory, professional rebuttal to criticisms of R. Shaw & J. Bransford & M. T. Turvey, 326
personality factors & height & weight & chest circumference, sensation contours in response to whole-body vibration, 4895
personality traits, perceived susceptibility to cardiovascular disease & severity of attack & benefits of preventive behavior, adult males at increased risk for cardiovascular disease, 6140
processing by same vs different hemispheres, perceptual interference effects, college students, 325
prolonged driving, perceptual functions, drivers, 4580
psychological significance of eyewitness research, 12707
response dominance of Hindi words as measured by associative technique, college students, replication of B. J. Underwood & J. Richardson's study, implications for cross cultural perceptual differences, India, 9522
role of perception & memory & coding processes in mental representation & transformation, recall & recognition performance, 20–23 yr olds, 2738
sensory imagery, blind vs sighted 10–21 yr olds, 8337
synesthesia as aesthetic quality for holistic perceptions, implications for creativity as process of human development, 3268
theories of W. Wundt, psychophysical judgment, 6955
utility of absolute vs relative theories, prediction of size vs direction of accentuation effects, 9468
victim's perceived sexual arousal vs abhorrence, sexual arousal & reactions to rape, male college students, 6040
Perceptiveness (Personality)
personality characteristics, on-stage &/vs backstage participation, 18–65 yr olds involved in community theater productions, 12866
Perceptual Aftereffect [See Also Afterimage]
age at which prism experienced, prism induced aftereffects, 6–9 mo olds, longitudinal study, 10081

colored checkerboard-inducing vs achromatic vs colored gratings vs concentric octagon pattern stimuli, McCullough aftereffects, college students, 11826
direction & color variations, angle direction-contingent color aftereffects, 4918
distribution of activity model, prediction of interactive effects of 2 simultaneous movement directions on movement aftereffects, 4930
existence of spatial frequency selectivity of adaptation aftereffect, amblyopes, 6135
field dependence, perceived duration of spiral aftereffect, female college students, 11797
free fall & increased gravitoinertial force in parabolic flight, visual & postural aftereffects, 301
frequency range of auditory motion vs swept sound-level change aftereffects, experienced Ss, 11876
interocular transfer of contrast threshold aftereffects, stereoblind & stereoanomalous Ss, 2681
kinesthetic movement aftereffects, severely retarded Down's syndrome 8.1–14.1 yr olds vs non-Down's syndrome 9–15.3 yr olds vs normal 4–6.5 & 7.1–15 yr olds, 8223
luminance contrast ratio profile of inspection stimuli, magnitude of contingent aftereffects, college students, 373
production of aftereffects by interocular transfer of color-contingent motion, reply to criticism by M. J. Potts & J. P. Harris, 7167
readaptation vs memory decay, reduction of prism aftereffects, female college students, 2636
reliability & individual differences in 2nd-session bias, alternate form procedure for kinesthetic aftereffect, adolescents & college students, 11671
stimulus governed biases, kinesthetic figural aftereffects, comments on A. Petrie, 2345

Perceptual Closure
hypnotic suggestibility, performance on gestalt closure vs disembedding vs visualization tasks, male vs female high school vs college students, 12000
practice on flexibility of closure & spatial scanning tasks, performance on electronic fault finding task, college students, implications for personnel training, 6828
similarity between target & nontarget letters, recognition of target letters, young adults, 9490

Perceptual Development
age, development of hemispheric specialization for tactile-spatial ability, 8–12 yr olds, 7844
age at which prism experienced, prism induced aftereffects, 6–9 mo olds, longitudinal study, 10081
age & background conditions, sensitivity of response & maximum response size of electroretinographic stimulus/response curves from developing retina, 10 day old through adult rats, 7452
age differences, association of absolute numbers with sensory magnitudes, 5 & 6 yr olds & college students, 5535
age differences, errors of omission & commission in auditory discrimination of voiceless fricatives, 4–6.5 yr olds, 10090
age & perceptual abilities, level of complexity preferred in overlapping geometrical figures, 6–14 yr olds, 3315
age & sex & task difficulty, lateralized finger recognition, 3 vs 4 yr olds, implications for cognitive development, 1043
array specific information in drawings indicating comprehension of internal spatial relationships & viewing position, 5–8 yr olds, 3350
cerebral hemispheres, acquisition of conservation of length, right handed children, 3303
changing orientation, perception of structure & form, 110–130 day old males, 3300
color of cover, ability to visually track hidden objects, 244–270 day olds vs 271–304 day olds, 10048
components of pictorial perception based on cross-cultural research, literature review, 7190
construction & reliability & validity of Progressive Figure Drawing Test, assessment of perceptual motor development, mentally retarded psychotic adults, 187
correlations between results of McCarthy Scales of Children's Abilities & other measures of cognitive & motor & perceptual development, 2–5 yr olds, 2492
cultural factors & school & home environment & family characteristics, cognitive & perceptual & personality development, American vs Mexican 6.7 vs 9.7 vs 12.7 yr olds, 6-yr longitudinal study, 12459
developmental changes, separable perception of dimensions & presence of continuum of integral to separable perception of multidimensional variation, kindergartners vs 4th graders, 5528
development of binocular discrimination, 8–13 wk old infants, 7800
development of isometric projection in drawings of cube & prism & pyramid, 6–15 yr olds, 3319
development of relative speed & distance & movement duration judgments, 1st–7th graders, 7770
discrimination between familiar vs unfamiliar faces, 3 mo olds, 10018
distance & direction estimates in familiar large scale environments, configurational knowledge development, 1st vs 5th vs 8th graders, 3316
distinction among mechanisms used for joint visual attention, 6–18 mo olds & their mothers, 5480
dynamic vs static cues, correction of mistaken perceptual assumptions, 6–14 & 18–45 yr olds, 3391
exploratory hand movements in performance of haptic conservation of solid amounts judgments, congenitally blind 9–16 yr olds vs sighted 5–12 yr olds, 6125
imitation vs observation vs E vs S manipulation of solid, anticipation of figure rotation & development of surfaces, nursery school students with mean ages of 4.9 & 5.7 mo, 12557
independence of perceptual & perceptual motor performance, 2nd graders, 3330
integration of new symbol into visually & auditorily similar familiar symbols, discrimination, 5 yr olds, 3311
interjudge reliability of Developmental Test of Visual Motor Integration, children with mean age of 8.8 yrs, 9419
intrauterine environment & genetics & childrearing practices, social behavior & alertness & activity, neonates, Zambia vs US, 5447
long term dark rearing, postnatal development of presynaptic grid in visual cortex, rabbits, 12302
masking level, auditory localization responses indicating thresholds for speech signals, 6–24 mo olds vs adults, 10119
methodological & theoretical issues, study of development of visual perception strategies, 12546
neurological & psychological factors in reversal & sequencing errors, relationship to reading disabilities & achievement, children, literature review, 7802
new data collection & analysis procedures & positions model, perspective taking ability & spatial development, 1st–6th graders & college students, 7789
numerical skills, 22 wk old infants, 7833
operative level as indicated by maturity of verticality concepts, copying &/vs reproduction of verticality drawings & immediate vs long term memory, 1st–5th graders, 1-wk & 5-mo followups, 3349
perception of hue categories including blue & green & yellow & red, 4 mo olds, 5476
perception & understanding of verticality, male vs female 6th graders, 12510
perceptual cues vs verbal description, conservation, 5–10 yr olds, 1018
perceptual development & creativity, 4–6 yr olds, 12471
perceptual motor & language development, deaf 5–8 yr olds, 8303
perceptual & motor skills & verbal comprehension performance on McCarthy Scales of Children's Abilities, Puerto Rican 5–8 yr olds, 3386
sensorimotor & language development, 12–19 mo old nonretarded infants vs 24–38 mo old Down's syndrome children of the same developmental age, 8251
sensorimotor modality & age, reconstruction of spatial relations between objects viewed through viewfinder, 4 yr olds to adults, 5479
sensory & perceptual processes, personality & creativity, 1346
short vs long wavelength chromatic adaptation, short wavelength spectral sensitivity functions, infants, 1033
superimposed film presentation, selective looking, 3–4 mo olds, 7772
teaching through movement activities, motor & perceptual & social development, children, 11191
utilization of alignment cues in representing 3-dimensional relationships on 2-dimensional medium, 9–10 yr olds, 1000

Perceptual Discrimination [See Also Figure Ground Discrimination, Odor Discrimination, Pattern Discrimination]
age & perceptual abilities, level of complexity preferred in overlapping geometrical figures, 6–14 yr olds, 3315
ambiguity of discriminative cues, discrimination learning, pigeons, test of R. W. Leary's approach-avoidance explanation, 573
angle of rotation of target letters, RT in identification & discrimination of version, 2nd graders vs college students, 7845
auditory vs visual display of taboo words, perceptual defense behavior, 14–19 yr old males, India, 3282

brightness &/or position cues, escape task/discrimination learning in T maze, toads, 582
chemosignal activity & perceived similarity, goldfish & Belontiidae species, 7408
constricted vs flexible & contrast reactivity control principles, 11–12 yr old males, 988
depth sensations & rotation discrimination, adult Ss, 383
development of improved tactical symbology & application to military map making, 2205
dextroamphetamine &/vs pentobarbital injection, discrimination response generalization, pigeons, 618
discriminative stimulus properties of levonicotine vs dextronicotine, male Sprague-Dawley rats, 907
disruption of hippocampal function, learning go/no-go discrimination, albino rats, 843
expectancies of reinforcement vs nonreinforcement, enhanced conditional discrimination performance, pigeons, 600
feedback, discrimination of pulse transit time, normal male S & hypertensive female, 13295
feedback & stimulus control, pulse transit time discrimination, female college students, 5288
generalization of 3-carboxysalsolinol, male Sprague-Dawley rats trained to discriminate ethanol & apomorphine from nondrug condition, 608
grating contrast, completeness of binocular rivalry suppression, adult Os, 357
integration of new symbol into visually & auditorily similar familiar symbols, discrimination, 5 yr olds, 3311
interocular transfer of color discrimination vs motor response training, pigeons, 612
lesions of prefrontal convolution & region between intraparietal & superior temporal sulci & anterior cingulate cortex, tactual to visual cross-model matching, rhesus monkeys, 7591
matching black/white & silhouette photographs vs outline drawings with novel objects that could only be touched, male rhesus monkeys, 12079
monocular deprivation, spatial resolution of on-center retinal ganglion cells in area centralis using different retinal eccentricities in retina of deprived eye, cats, 785
morphine & dextroamphetamine sulfate & pentobarbital sodium, shock & light discrimination, male rats, 7649
multidimensional stimuli utilization of redundant stimulus cues & filtering of irrelevant & scanning for relevant stimulus features, 21–70 yr old schizophrenics, 8138
nondifferential reinforcement for response to paired stimuli, subsequent discrimination learning, pigeons & male rats, 574
optically induced squint, monocular visual acuity & interocular alignment & cortical ocular dominance, kittens, 696
perception as discrimination of specific qualitative differences between entities, 2658
perceptual vs conceptual criteria, picture recognition, preschool age children, 3383
probability model based on binomial distribution, variability in speech discrimination scores, 4767
processing by same vs different hemispheres, perceptual interference effects, college students, 325
proportion judgments in haptic & visual form perception, college students, 2635
recognition of natural predators from own vs different habitat, deermouse subspecies, 12126
relief shading vs layer tints as supplements to contour lines, map use problem solution, military personnel, 2207
simultaneous & successive discrimination between envenomated vs nonenvenomated mice, rattlesnakes, 7355
simultaneous vs sequential CS presentation in feature negative discrimination training, conditioned inhibition learning, pigeons, 568
swamp vs song sparrow vocalizations, cardiac orienting response indications of perceptual selectivity toward conspecific song, young swamp sparrows, 2907
tactile stimulus velocity differences & pentobarbital, velocity discrimination vs signaling by cortical neuron firing frequency, humans vs rhesus monkeys, 5204
theoretical framework for clarification of disparity between same & different judgments in perceptual & cognitive matching tasks, college students, 4888
thirst, utilization of redundant striped orientation cue in discrimination & transfer tasks, male rats, 12316
time constraints & risk & cue discrimination, assessment of racquet sport performance, 2670
true discrimination vs single stimulus vs pseudodiscrimination training with line angles & variable vs fixed reinforcement schedules, transfer to wavelength discriminations, pigeons, 9656
variability vs credible intervals indexes of uncertainty in scaling experiments, 2363
variation in angle size of Poggendorff figure, optical illusion, college students, 2683
viscosity level & taste quality, oral perception of viscosity, college students, 11735
visual &/vs haptic presentation & anchor integrality with series stimuli, perceptual discrimination, college students, 2632
2 vs 3 choice problems & visual &/vs haptic stimuli touched vs not touched before task, object discrimination, kindergartners, 10039
Perceptual Distortion [See Illusions (Perception)]
Perceptual Disturbances [See Also Agnosia, Auditory Hallucinations, Drug Induced Hallucinations, Hallucinations, Hypnagogic Hallucinations, Visual Hallucinations]
anterior vs posterior right hemisphere damage, verbal comprehension & visuospatial deficits, patients, 6137
auditory brain stem anomalies, 20–35 yr old albino humans, 5205
auditory perceptual deficits, children with language disorders, literature review, 10634
cortical color vision defect & associated absence of Stiles' II sub 1, 70 yr old male with cerebral infarction, 13169
deficits in processing perceptual information at normal rate, language & reading impairments, children, 10440
etiology & symptoms of early childhood minimal brain dysfunction, 13088
frequency of anesthopic disturbances, neurological patients, 10677
insulin pretreatments & lateral hypothalamic lesions, aphagia recovery period & gastric pathology & hyperthermia & sensorimotor dysfunctions, rats, 12285
in-vivo exposure therapy for simple phobias, transient nonpsychotic sensory distortions, phobic patients, 10863
language development & classification & contributing factors & prevention of language impairments, children, literature review, 10635
misdiagnosis of autism as hearing disorders, preschool age child, 1357
Neurological Impress Method, auditory perception, children with auditory discrimination problems, 11276
parieto-occipital vs frontal lesions, visuo-constructive deficits & visual cue vs action compensation, cerebral lesion patients, 8355
patterning & organizational difficulties, language & learning disabilities, children, therapeutic & diagnostic implications, 10414
perceptual & physiological abnormalities, early onset psychosis, literature review, 3787
physical anhedonia & perceptual aberration levels, proneness to psychosis, college students, 10466
random process model, selection of responses to incoming stimuli, schizophrenics, 3819
spatial organization & cognitive development sources of letter recognition errors, children, implications for labeling, 7780
variations of mirror image reversals on Bannatyne Visual-Spatial Memory Test, preschoolers & 1st–2nd graders with cerebral palsy vs learning disabilities, 8089
visual scanning strategies on Motor-Free Visual Perception Test, perceptually impaired 9.2–11.5 yr olds, 13063
visual skills training, reading achievement, 2nd graders with visual perceptual deficits, 11284
Perceptual Fill [See Perceptual Closure]
Perceptual Localization [See Also Auditory Localization]
aging, performance on memory & localization components of Tactual Performance Test, 50–62 & 67–86 yr olds, 7773
bidirectional optical displacement, left vs right hand adaptation, college students, 11824
cuing with diopters of refractive error, radial localization, 11833
distance & angle of direction change & visibility of starting point & concurrent counting, processing of location information during locomotion, high school students, 12482
fimbria-fornix lesions, cue learning in response-dependent paradigm & importance of cue location, male rats, 833
local & central physiological adjustments, differential perceptions of leg & chest exertion during submaximal cycle ergometer exercise, male college students, 2668
mode of sensory integration of differential perceptions of leg & chest exertion during submaximal cycle ergometer exercise, male college students, 2667
perceptually mislocalized visual vs nonvisual targets, guidance of saccadic eye movements, 20–38 yr olds, 9500

preferred vs nonpreferred hand, visual localization of points in a plane, right-handed Italian vs American 19–30 vs 50–72 yr olds, 9481
selective attention & stimulus localization, visual perception, college students, 2685
structural vs physical markers denoting phrase boundaries, accuracy of identification of point in music at which clicks occur, college music students, 7157
target presented visually vs to left vs right hand, perceptual localization, college students, 2677
upright vs inverted cups & central vs peripheral positioning & transpositioning, search for hidden objects, 9–14 mo old infants, 10076
visibility of target & starting point & locomotor & target distance from starting point & direction, maintenance of orientation during locomotion in unfamiliar environment, college students, 7148
visual vs proprioceptive or no knowledge of results, performance on visual target localization task, mentally retarded 12–17 yr olds vs normal 4–6 yr olds, 13057
Perceptual Measures [See Also Rod and Frame Test, Stroop Color Word Test]
assessment procedures, speech perception, children with phonological disorders, 10632
assessment procedures, speech perception, 3.1–9.9 yr olds with phonological disorders, 10633
computer technique for administering psychophysical threshold measures, 2384
construction of loudness scales, comparative loudness difference of 2 pairs of tones, Ss, 11878
construction & validity, test of visual aesthetic sensitivity, male vs female college students vs 11–15 yr olds, 2474
development & validity of Olguin Diagnostic Test of Auditory Perception, Spanish language-oriented children, 4449
factorial validity of Olguin Diagnostic Test of Auditory Perception, Spanish language-oriented children, 4448
interjudge reliability of Developmental Test of Visual Motor Integration, children with mean age of 8.8 yrs, 9419
level of motor impairment, visual perception test performance, physically handicapped children, 2551
optical scan computer-scorable vs regular hand-scored form, scores on Student's Perception of Ability Scale, 2nd–6th graders, 4416
perceptual motor test results & teacher ratings, evaluation of motor developmental differences, male vs female 3rd vs 6th graders, 4411
posthypnotic suggestion & direct vs indirect measurement, perceived distance of stimuli, highly trained hypnotic female college students, 9613
random vs repetitive presentation averaged evoked potential technique, measurement of auditory discrimination, 14–18 wk olds, 9768
reliability & individual differences in 2nd-session bias, alternate form procedure for kinesthetic aftereffect, adolescents & college students, 11671
test-retest reliability, figural reversal measure, college students, 2441
triangular vs 3-alternative forced choice methods, measurement of signal detection with olfactory stimuli, Ss, 11578
validity of Borg Scale, measurement of perceptions during recovery from exercise & heart rate, untrained males & females, 2503
validity of revised Autonomic Perception Questionnaire, prediction of physiological response to stressful stimuli & psychosomatic disorders, college students, 212
visual motor efficiency index for analysis of data from visual motor experiments, 11603
white &/vs black vs no edges, apparent lightness of uniform luminous field, 2693
Perceptual Motor Coordination [See Also Physical Dexterity]
attention to internal vs external stimuli & expectations, performance on steadiness task, college students, 314
Bender-Gestalt Test for Young Children & Beery Developmental Test of Visual-Motor Integration scores, learning disabled 5–11 yr olds, 2537
hypnotic suggestion for time- & ball-slowing, accuracy in video tennis game, 19 & 23 & 25 yr old females, 7283
independence of perceptual & perceptual motor performance, 2nd graders, 3330
measurement device, quantification of eye-hand coordination during tracking of changing size, 2392
measurement technique for human operator stability, aiming tasks, 4694
perceptual motor abilities, cricket batting average, batsmen, 7156
performance on spatial vs temporal components of continuous tracking & drawing tasks, Down's syndrome 7.2–14.3 yr olds vs mentally retarded 7.3–14.5 yr olds, 10598
presentation & test trial training, motor acquisition & retention, adult Ss, 2651
same- vs mixed-sex dyads, juggling performance, college students, 3603
sex differences, personality traits & cognitive style & academic achievement & perceptual motor skills, learning disabled special education students with mean age 12 yrs, 10611
Perceptual Motor Development [See Motor Development, Perceptual Development]
Perceptual Motor Learning [See Also Fine Motor Skill Learning, Gross Motor Skill Learning]
application of quantitative model of compensatory tracking to pursuit tracking, aircraft pilots, 4882
augmented visual &/vs auditory feedback, learning of 2-dimensional pursuit tracking task, male college students, 11726
background music, motor skill performance, educable mentally retarded vs normal 10–12 yr old males, 3869
computer simulation of continuous motor control learning, human operator performance, 9177
concept vs memory type Ss in conceptual sensory-motor learning, 1st–3rd graders, 1023
EMG biofeedback for tension control, learning & performance of pursuit rotor backing task, male college students, 764
error factor analysis, sensory motor conceptual learning, children, 12521
goal setting & feedback, prevocational manual training task performance, trainable mentally retarded 15–18 yr olds, 11044
imagery vs kinesthetic vs labeling vs informed choice learning strategies, initial learning & retention & transfer of motor skill, college students, 496
learning strategies including imagery & chunking & rhythm, learning & retention & transfer on serial positioning task, college students, 2675
level of skilled 2-hand coordination task performance & correlation with task attentional demands as measured by random number generation performance, male college students, 296
motor skill level, cognitive controls & learner strategies & information processing, training implications, 308
perceptual motor learning in presence of evaluative audience, arousal as measured by heart rate & palmar sweat print, junior high school males, 5258
practicing motor skill under fatigue vs nonfatigue condition, learning & performance under heavy fatigue condition, male college students, 2679
recall of motor behavior, college students, test of duomemory notion, 2633
repeated demonstration of sensorimotor actions, changes in imitation, 6 mo olds, 6-mo study, 3339
right & left hand learning in tactuomotor finger maze task, female vs male college students, 2637
Perceptual Motor Processes [See Also Perceptual Motor Coordination, Physical Dexterity, Rotary Pursuit, Tracking, Visual Tracking]
ability to synchronize motor function with auditory stimulus, 18–48 yr old schizophrenic vs affective disordered Ss, 8161
accuracy & speed of bimanual integration for kinesthetic & somesthetic & motor functions, 9.5 yr old male & 17 yr old sister with corpus callosum agenesis, 8369
ad lib sleep, sensorimotor performance & memory & sleepiness, male college students, 2823
age differences, organization of sensorimotor intelligence, 14 vs 18 vs 22 mo olds, 12558
age & sex & cognitive ability, torque & visual spatial task performance, 7 vs 9 yr olds, 10062
anterior vs posterior right hemisphere damage, verbal comprehension & visuospatial deficits, patients, 6137
apomorphine & haloperidol induced changes in neostriatal dopaminergic activity, degree of self & externally produced constraints on behavior pattern selection, male rats, 9924
bilateral EEG biofeedback, verbal & visual spatial & creative skills, learning disabled male adolescents, 1778
bilateral lesion in 1 of 9 brain regions, performance on lateral differentiation task, male rats, 7614
cognitive vs direct approach to explanation of illusory causation & correlation in object & person perception, literature review, 12815

concurrent activities such as silent vs oral reading vs solving block design problem, interference with left vs right index finger tapping, college students, 7457
correction-maneuver vs perceptual tropism explanation for steering shift when meeting oncoming car, drivers, criticism of M. Helander's study, 2284
decortication, feeding & sensory & motor deficits, rats, 12341
delayed & displaced visual feedback, motor control of hand during target directed movement, college students, 336
diazepam vs tofisopam & ethanol, psychomotor skills & memory, 20–24 yr old medical students, 3210
disulfiram, sedation of psychomotor excitement, patients, 6372
earth- vs head-fixed vs darkness visual target conditions, vestibulo-ocular reflex induced by voluntary head movement at various frequencies, 19–56 yr old males, 4921
ecological approach to social knowing, 12737
effectiveness of auditory screening program & developmental functioning, 4 yr olds, 12473
fatigue from wearing AN/PVS-5 night vision goggles, helicopter operation skills, aviators, 9200
handedness & familial sinistrality, tactile-spatial & auditory-verbal processing asymmetries, male college students, 715
hemispheric symmetries in tactile recognition & mental rotation tasks, right handed college students, 735
hierarchical model, sequencing of psychomotor skill acquisition, right handed 18–30 yr old males, 7155
hypnotic vs no suggestion for limb anesthesia, accuracy of pointing at visual target before vs after wearing of displacing prisms, susceptible vs nonsusceptible college students, 7289
independence of perceptual & perceptual motor performance, 2nd graders, 3330
intelligence & achievement & visual-motor performance, learning disabled vs emotionally impaired children with mean ages of 10.32 vs 10.53 yrs, 10417
intelligence & visual-motor performance & personality traits & age & race & sex differences, juveniles petitioned vs not petitioned to stand trial as adults, 4189
interjudge reliability of Developmental Test of Visual Motor Integration, children with mean age of 8.8 yrs, 9419
lateral dominance & torque, emotionally disturbed vs educable mentally retarded vs speech & hearing vs learning disabled 3rd graders, 10406
learning of programmed vs feedback based processes controlling 2-dimensional positioning response, college stuents, 11737
level of heat exposure, heart rate & oral temperature & perceptual motor performance, 18–40 yr olds, 3050
levotryptophan vs clomipramine hydrochloride vs doxepin, plasma level & psychomotor effects, neurotically depressed outpatients, 6397
linguameter, measurement of tongue muscle control, normal volunteers, implications for sensorimotor pathology, 4726
local & central physiological adjustments, differential perceptions of leg & chest exertion during submaximal cycle ergometer exercise, male college students, 2668
mental practice vs physical practice vs imagery, acquisition of perceptual motor skill, male college students, 2669
method of transmission of knowledge of results information, length of RT prior to longer lasting responses, college students, critique of study by B. Kerr, 11746
methylmercuric chloride poisoning, eating & drinking changes & sensorimotor symptoms, male pigtailed macaques, 3179
mode of sensory integration of differential perceptions of leg & chest exertion during submaximal cycle ergometer exercise, male college students, 2667
motor & verbal practice, Stroop Color Word Test response latencies, college students, 333
neurosensorimotor dysfunction, educational & behavioral problems, young children, 5926
normality of and stage in mentrual cycle, perceptual motor performance, female 19–38 yr olds, 5281
optic displacement of object in left vs right visual field, decision & movement times in guided reaching with left vs right arm, right handed males, 7473
optic tectum undercuts, aperture detection & insect catching & barrier avoidance, hamsters, 9885
outline of alternative research approach, human factors & highway-accident causation, 4586
perceptual motor & cognitive task battery, selection, aircraft pilots, 13733
perceptual-motor components, ergonomic studies, 4587
perceptual motor task rehearsal difficulty & response delay period, RTs & phasic cardiac responses, male college students, 760
perceptual motor test results & teacher ratings, evaluation of motor developmental differences, male vs female 3rd vs 6th graders, 4411
perceptual vs verbal functioning, performance of tasks requiring voluntary vs involuntary control, 18–30 yr olds, 2620
performance on Developmental Test of Visual-Motor Integration & Wide Range Achievement Test & Student's Perception & Ability Scale & Revised WISC, learning disabled 3rd graders, 13673
play vs nonplay experience, subsequent tool use & task strategies, 4–5 vs 6–7 vs 8–10 yr olds, 7839
preselection effect in psychomotor memory & generation effect in verbal memory, 11950
prolonged driving, psychological & perceptual-motor functions, drivers, 4579
prolonged vision reversal, postural control & adaptation as measured by ability to maintain balance while standing or walking on rails with eyes open vs closed, 20–48 yr olds, 319
psycholinguistic & sensorimotor skills, precocious reading skills, 4.9–6.5 yr olds, 7787
psychomotor stimulants, abnormal behavior, 5362
remedial reading program vs regular classroom instruction, improvement of perceptual motor processes vs reading skills, 4th–6th graders, 8989
room air vs ozone, psychomotor task performance, Ss, 5306
sensorimotor modality & age, reconstruction of spatial relations between objects viewed through viewfinder, 4 yr olds to adults, 5479
sensorimotor skills including object permanence, language comprehension, autistic 39–74 mo olds, implications for language acquisition, 10524
sensory & perceptual processes, personality & creativity, 1346
Slosson Intelligence Test vs Peabody Picture Vocabulary Test vs Developmental Test of Visual-Motor Integration vs Revised WISC, screening for special education placement, 6–16 yr olds, 9078
steering with vs without rear monitoring & peripheral field of view & steering frequency in simulated tractor operation, RT to & detection of peripheral light stimuli, male graduate students & university staff members, 2272
stimulant & depressant drugs, RT, literature review, 3168
stimulus-response compatibility in numeral-verbal vs numeral-motor ensembles, RTs in choice reaction & memory scanning tasks, college students, 302
strategies used with visual &/vs kinesthetic cues available, short term memory on positioning task, 6 vs 9 vs 12 yr olds, 7834
surface area & accelerative force of weights, magnitude estimation of skin area contact, 18–54 yr olds, 7141
surgically induced strabismus, role of anomalous visual input of deviated eye vs neurophysiological factors in reduced visuomotor capacity, cats, 786
target & dart color, throwing performance, male college students, 11740
taxonomy of perceptual motor abilities, occupational success in various Air Force career fields, 13746
temazepam vs flurazepam vs barbiturate, cognitive & visual-motor & RT task performance, male college students, 5399
temporal aspects of complex visual patterns, perceptual & decision processes in sonar target classification, 2285
test reliability, perceptual motor assessment, students, 11362
unilateral 6-hydroxydopamine injections into lateral hypothalamus, paw preference, male rats, 7702
use of Bassin anticipation timer, measurement of coincidence anticipation in ball tracking skills, 101
vertical whole body rotation with restrained vs unrestrained head movement, voluntary saccade & role of vestibulo-collic reflex & linkage between head & eye movement, rabbits, 636
visual motor efficiency index for analysis of data from visual motor experiments, 11603
visuo-constructive task complexity, unilateral neglect of extrapersonal visual space & compensation, patients, 13141

Perceptual Orientation [See Also Spatial Orientation (Perception)]
anatomical connections & electrophysiological responsivity of cortical area 3a & role in conscious perception of limb position & movement, literature review, 5218
apparent target orientation & luminance & lightness vs brightness instructions, achromatic color matching, college students, 387

confounding between orthogonal perceived spatial frequency shift & vertical-horizontal illusion, criticism of D. W. Heeley's methodology, 9516
contextual factors, perception of orientation, male rats, 9619
horizontal vs vertical vs oblique grating target orientation in fovea & retinal eccentricities along vertical meridian, visual acuity, 19 & 25 yr old males, 11809
internal vs external factors in orientational activity & reflex & reflection, children, implications for effect of play on learning, 1019
line orientation vs retinal loci, perceived length of line, college students, 11842
locomotor activity & somatosensory orientation & EEG arousal, C57BL/6 vs DBA/2 male mice, 5196
long distance displacement, ability to orient toward origination point, blindfolded adults, implications for influence of magnetic field on orientation, 7144
magnetism, dancing within comb, honey bees, 12166
nigral transplants, striatal dopaminergic neurotransmission & spontaneous motor behavior & sensorimotor orientation & sensory attention, female rats with bilateral nigrostriatal dopamine pathway lesions, 12329
orientation bias of retinal ganglion cells, cats, 2990
self concept & psychological differentiation & allocentric behavior, 1st-yr education students, 8067
social density vs individual size vs illumination, parallel structure orientation in schooling, clawed frog tadpoles, 12132
solar cues, migratory orientation, sparrows, 5160
stimulus orientation & spatial frequency, perceptual learning, 4910
visual & auditory perception & lateral orientation, reading abilities & difficulties, 1st graders, longitudinal study, 3870

Perceptual Stimulation [See Also Auditory Feedback, Auditory Stimulation, Delayed Auditory Feedback, Delayed Feedback, Illumination, Loudness, Noise Levels (Work Areas), Olfactory Stimulation, Pitch (Frequency), Prismatic Stimulation, Sensory Feedback, Somesthetic Stimulation, Speech Pitch, Stereoscopic Presentation, Tachistoscopic Presentation, Tactual Stimulation, Taste Stimulation, Ultrasound, Visual Feedback, Visual Stimulation, White Noise]

auditory-visual stimulation & electric shock vs food, discriminative responding, pigeons, 12074
differences in cortical arousal & sensory thresholds & reactions to stimulation, physiological theory of creativity as response to stimulation, 3670
environmental stimulation, recovery from experimentally induced problem solving deficits, ducklings, 9851
experience of helplessness & existential fear & sensory input overload, correctional officers held as hostages, 13031
feared-object stimulation in imagination, skin conductance, 18–48 yr old patients with anorexia nervosa & related feeding disorders vs non-food-related phobias, 6166
Fernald technique as multisensory approach to reading instruction, reading & attitudes, 2nd grade male slow learners, 9059
forced choice adaptive procedure, subjective judgments in psychophysical measurement, 4703
handling & order of sucrose vs saline solution presentation, drinking behavior & pituitary-adrenal responses, female rats, 7427
infant handling, maternal behavior & pup vocalizations & temperature changes, C57BL/6J vs A/J female mice & cross-fostered pups, 9739
interlocking progressive-ratio reinforcement schedule, determination of reinforcement preferences, 10.8–18.4 yr old multihandicapped severely & profoundly mentally retarded, 8545
internal vs external factors in orientational activity & reflex & reflection, children, implications for effect of play on learning, 1019
local stimuli & familiarity with release site vs clock shifted release times, initial orientation, homing pigeons, 9638
locus of control & energy level of whole-body vibration, accuracy on tracking task & RT & heart rate & oxygen uptake, 19–38 yr old males, 4900
maximum amplitude vs total response measurement methods, penile & verbal responses to sexual cues, normal Ss vs 17–50 yr old sexual deviates, 4656
multisensory teaching approach, remedial reading, literature review, 9029
personality factors & height & weight & chest circumference, sensation contours in response to whole-body vibration, 4895
research on taste preferences & W. Wundt's schema of intensity affect in sensory stimulation, 6989
substantia nigra lesions, abnormal behavior & caudate modulation in centromedian-parafascicular complex, cats, 12330

Perceptual Style

augmentation vs reduction, performance of gross motor coincidence-anticipation task, college students, 4896
constricted vs flexible & contrast reactivity control principles, 11–12 yr old males, 988
dogmatism & field dependency, cognitive vs perceptual style vs openness of attitude, 12880
field dependence vs field independence & noise, reaction to simulated driving emergency, male college students, 4566

Performance

age at training, learning vs performance of response inhibition, 20–45 day old male rats, 9648
aircraft noise, attentional strategies vs learned helplessness vs performance on cognitive task vs blood pressure, 3rd vs 4th graders, 1-yr longitudinal study, 12487
aircraft noise, performance on audiovisual task, psychology students, 2288
alcohol intoxication & hangover, tracking performance at ground level vs simulated altitude, male vs female private pilots, 5358
analytical & synthetical diagnostic methods, prediction of performance & social behavior in sports, 9152
anticipated discussion & knowledge level of 3rd party, causal attributions, male vs female college student actors vs Os, 1274
anxiety & neuroticism & sex & distributed vs massed practice & trials, digit-symbol coding task performance, college students, 466
appeal of distractor, arithmetic performance, 7–10 yr old hyperactive vs normal males, 10576
approaches to explanation of anxiety-related phenomena, 5863
architecture of software system to facilitate interactive man-computer communication, 6883
athletes' nonverbal expressiveness, attributions for athletic effort & performance, volunteer Ss, 5823
attentional training, task performance, high vs low test-anxious 9–12 yr olds, 1818
attention on play vs self conscious interaction, team performance, college basketball players, 431
attributions for task success, mood & anagram performance deficits, clinically depressed 19–60 yr old patients, 1460
auditory vs visual modality & temporal vs spatial presentation & intelligence level, matching task performance, children with below vs above average intelligence, 3336
auxiliary task loading conditions, visual search performance in simulated remotely piloted vehicle utilization, pilot & nonpilot Os, 6881
birthdate biorhythms, landing & other performance, students & pilots, 3016
blink inspection system, industrial task performance, college & graduate students, 363
broadband noise & complex vibration, performance on mental counting task, 6880
caffeine induced arousal, verbal test performance, introverted vs extraverted college students, 10371
choice of response to be learned on paired associate task, performance on RT task, college students, 511
college background pipeline assignment, flight training performance & drop out rate, Black vs White US Navy flight officer candidates & officers-under-instruction, 6816
computer simulation subroutine, estimating effects of human factors on guard force performance during attack on nuclear facility, 2279
conceptual structures, analysis of operator behavioral data, 2271
consistency of seat activity & cognitive & motor steadiness measures, reading retarded 7–12 yr olds, 2-yr followup, 2429
consolidation vs reactive inhibition, individual differences in reminiscence in rotary pursuit task, extraverted vs introverted college students, 9604
control vs no control over noise & success vs failure vs no feedback on performance, cognitive task performance, male college students, 297
development of automated measurement & grading system for instrument flight training in UH-1 flight simulators, 9203
distinction between behavior & performance for analysis of observations, 4750
drawn sequences of positions, performance of motor coordination tasks, children, 8855
dual task automatic vs controlled processing in visual search, cost in hit rates, 7186

EMG biofeedback for tension control, learning & performance of pursuit rotor backing task, male college students, 764
ethanol & tobacco, auditory vigilance performance, 18–30 yr old male smokers & drinkers, 933
expectations for distraction vs facilitation, performance after unsolvable problems, college students, implications for egotism explanation of problem solving, 11995
factors in peak performance in sports & other activities, college students, 6795
failure of effort under conditions of over- vs underactivation or arousal, stress, 3052
familiarity of background music & test difficulty, reading comprehension test scores, college students, 4429
fatigue from wearing AN/PVS-5 night vision goggles, helicopter operation skills, aviators, 9200
feedback for correct detections & false alarms, vigilance task performance, hyper- vs hypoactive 6–10 yr olds, 1607
food dyes, impairment of performance, hyperactive children, comments on study by J. M. Swanson & M. Kinsbourne, 13096
functional vs motivational helplessness, performance, college students, 3-factor theory of learned helplessness & critique of M. E. Seligman's theory, 11991
general relaxation & neuromuscular tension control using EMG biofeedback, memorization & rotary pursuits & RTs, female college students & secretaries, 4067
goal setting, performance, literature review, 1969–80, 7276
hetero- & autoregulatory procedures including relaxation-activation, optimization of emotional states & resultant performance, athletes, 11410
high vs low history of success & presence vs absence of audience & audience awareness of S's prior performance, social facilitation effect on task performance, college students, 3659
high vs low performance model & task experience, goals & performance & performance satisfaction, male college students, 1288
humor & test anxiety, performance vs worry vs emotionality, college students, 8812
iconic storage duration & encoding speed, performance deficits, mentally retarded, criticism of study by D. P. Saccuzzo et al, 1547
induced cyclic changes of deep body temperature, performance in flight simulation, male Ss, 5254
induced stress, perceptual vs conceptual task performance, high vs low achieving 9–10 yr olds instructed in English vs Bengali vs Hindi, India, 8912
induced success vs failure, expectations & performance, emotionally handicapped 4th & 5th grade males, 10454
inferior vs equal vs superior task performance, reward allocation by friend, 4.5–6.5 yr olds, 7906
informational vs controlling verbal rewards & level of surveillance, task interest, college students, 1285
instructions & target-to-background contrast, target acquisition RT & errors & response bias, US Army helicopter pilots, 2237
instructor behavior, stress and performance, student pilots, 4509
internal vs external locus of control, self interpretation of anxiety & test performance, college students, 10390
knowledge of performance & videotape replay, improved performance on balance-beam routine, female 12–13 yr olds, 1035
learned attribution of failure to controllable vs uncontrollable factors, prediction of future success at same task, college students, 5783
learning of cognitive-coping strategies, improvement in basketball performance, male college basketball player, 6352
level of imitation & judgment of competency vs incompetency on task performance, attraction to & imitation of confederate, female college students, 1237
listening vs shadowing & digit monitoring, selective attention & digit detection & comprehension, college students, 11857
locus of control & EMG biofeedback performance, literature review, 3060
manipulated skill related feedback, expectancies of future outcome & performance on WISC Coding test, 8th graders, 3384
meaningfully related vs unrelated sentences, elicited imitation performance, preschool age children, 7797
measurement of effects of psychological pressure on performance in working & experimental conditions, 2246
model competency & attitudes & S field dependence, task attitudes, college students, implications for job attitudes, 1296
models & empirical test, comparison between spatial frequency detection & discrimination performance, 11831
models of prospective membership & anxiety associated with forgetting vs remembering without performing, college students, 11955
motivation & noise intensity & tobacco smoke exposure, annoyance response during task performance, 18–29 yr old nonsmokers, 2813
motivation & success expectations & physiological monitoring & voice intonation & spectral analyses, assessment of emotional stress during skill performance, aviators & astronauts & controllers, 6852
nervous system properties, performance on search task, 12210
noise & social & spatial density, task performance, implications for cognitive control of stress, 1221
number of flights & level of naval flight officer training, incidence of airsickness & vomiting & inflight performance, Naval Flight Officer students, 11431
operator mental loading, voice recognition system performance, 13785
partial vs selective vs total sleep deprivation, task performance, literature review, 1970 to present, 3083
peer comments on preferences vs performance, correct use of paragraphs in written composition, 4th graders, 6676
peer ratings of leadership performance & leader preference ratings, male vs female cadets at ROTC Advanced Summer Camp, 2214
perceived task difficulty & attributional instructions, task performance, high vs low achievers, 3669
perceptual vs verbal functioning, performance of tasks requiring voluntary vs involuntary control, 18–30 yr olds, 2620
performance & behavioral information, immediate vs delayed leadership ratings, college student Os, 10358
performance & similarity in age & sex & occupation, sibling identification & friction & father-son closeness, college students, self esteem maintenance model, 3549
personality, noise tolerance & performance, literature review, 5872
personality traits, shooting sports performance, participants, 12843
practice on flexibility of closure & spatial scanning tasks, performance on electronic fault finding task, college students, implications for personnel training, 6828
prediction of air-to-ground target recognition in reconnaissance missions as function of photometric & geometric characteristics, 9137
prediction of weapons effectiveness in suppressive fire, military personnel, 9179
predictive validity of 16PF prediction of military performance as measured by officers' ratings & peer nominations & course grades, female officer trainees, 7047
preparation time & intertrial interval, serial RT task performance, college students, 2782
presence vs absence of same vs opposite sex audience, performance on speed task, male vs female 10 & 11 yr olds, 12455
problems in assessment & prediction of performance, individual differences in diurnal rhythm, 36
problems in inference of competence from performance, criticism of Piaget's logical competence models, 5477
psychological & physiological sex differences in human performance, bibliography, 10291
public statement of self efficacy, behavioral avoidance performance, snake fearful college students, 6333
quota set by male and female, card sorting task performance, male vs female college students, 5718
reinforcement, attending to task & task completion speed, mentally retarded 22–37 yr old males in vocational training program, 8738
relative performance of psychologically similar vs dissimilar confederate on given dimension, utility of dimension for self definition, female college students, 5893
repeated exposure to diving environment, adaptation to narcosis, 21–48 yr old males, 9819
residence with family vs independently vs in sheltered care home, work performance & social behavior in sheltered workshops, mildly mentally retarded adults, 8675
response latency & performance on Visual Association subtest of Illinois Test of Psycholinguistic Abilities, preschoolers, 12498
reward vs response cost & locus of control for positive vs negative outcomes & sex & age, task performance, 5th vs 6th graders, social learning theory implications, 1069
rhythms in human mental performance, review of literature from 1887–1951, 5285
role conflict, physiological & affective & performance variables, 20–48 yr old female nurses in simulated hospital experience, 2030

running time & oxygen consumption & extraversion/introversion, 13–26 yr old male middle distance runners, performance prediction implications, 3036
runway textured visual cues, flight simulator landing performance, military instructor pilots, 6818
same vs different stimulus pairing of dichotic digits & tones, performance & processing capacity & ear advantage, 16–60 yr old Ss, 408
schedule & delay of reinforcement, acquisition training performance, rats, replication of experiment by E. J. Capaldi, 9640
self directed attention, intellectual performance facilitation, highly test anxious college students, 443
self imposition of achievement standard vs self administration of rewards, college students, 9603
self modeling with video replay & cash rewards, workshop productivity, physically handicapped, 8723
sex & nature of task, motivation & performance in intellectual setting, 17–18 yr olds, 12503
simulated runway type & textural information cues, pilot performance, US Air Force pilots, 9138
simulator task system & apparatus, human performance vigilance research, 2268
sleep deprivation, attentional control & performance on dual auditory-verbal digit & serial response task, male 20–28 yr olds, 788
social comparison feedback, color discrimination performance, 10–11 yr old males, 3295
speed & accuracy of interpretation of 2 sets of tactical symbols for battle scenarios, US Army personnel, 9178
study-test vs anticipation learning methods, learning performance with difficult material, college students, implications for retention interval hypotheses, 2785
success vs failure on attention concentration test, motivation to change performance level, 11996
supervisor power & interdependence with subordinate & performance feedback & level, evaluations, college students, 1269
symbolic vs tangible incentives, responsiveness in learning task, predelinquent vs nondelinquent 15 yr old males, 3285
taped radar control room noise, ability to sustain attention to complex monitoring task, males vs females, 2824
task design & reward contingency, task performance & satisfaction & measures of extrinsic & intrinsic motivation, college students, 5067
technical & psychological approaches to reliability of performance, 9175
temazepam vs flurazepam vs barbiturate, cognitive & visual-motor & RT task performance, male college students, 5399
theory of adult education emphasizing proficency as means of motivation & evaluation, 6623
thermal biofeedback training, task performance, depressed vs nondepressed college students, 10882
Training Extension Course vs regular combat arms instruction, performance & retention, US Army personnel, 9167
type of interpersonal relationship & task performance, choice of distribution rule for reward allocation, female college students, 5730
visual serial search task performance, college females with differential verbal & quantitative aptitude test scores, 4440
vocational response chains, performance during extinction, severely retarded 40 yr old male & 24 & 52 yr old females, 8729
Weibull vs Gaussian distributions, human task performance times, 9437
will to win, team performance, women's basketball teams, 2206
writing vs printing & alphabet vs familiar words, speed of performance, college students, 9479

Performance Tests
age & degree of psychopathology & medication, tapping speed on Finger Tapping Test, 19–64 yr old female psychiatric inpatients, 10415
aptitude & training measures, prediction of tank driver & gunner & tank commander performance, US Army trainees, implications for tank crew position assignment, 13695
assessment of navigation performance under "Nap-of-the-Earth" conditions, US Army aviators, 2270
computerized adaptive achievement testing, 7021
construction & reliability & validity, complex counting test, 2487
development & evaluation of videotape simulation performance test, US Army personnel, 6882
development & validity of instrument for measurement of clinical performance, medical residents, 2485
level of aspiration vs presence of competitors, qualitative & quantitative performance on attention & verbal & memory tests, 16–19 yr olds, 7827
military research on development & use of performance measure criteria, 236
noncognitive measures, medical school admission, 13509
repeated testing, reliability of time judgments, US Navy enlisted men, implications for performance evaluation tests for environmental research, 11749
simulator field of view requirements for carrier landing training, 11425
Skill Qualification Test, measurement of levels of competence in job performance, enlisted US Army personnel, 6845
training supervisors to minimize errors in ratings of job performance, validity of performance predictor measures, supervisors of journeymen electricians, 2247
validity & use of skilled performance information processing model in Aircraft Landing test for pilot selection, Canadian Forces pilot trainees, 2230

Performing Arts [See Dance, Drama, Music]
Peripheral Nerve Disorders [See Myasthenia Gravis, Neuralgia]
Peripheral Nerves [See Also Acoustic Nerve, Cranial Nerves, Facial Nerve, Olfactory Nerve, Optic Nerve, Spinal Nerves, Trigeminal Nerve, Vagus Nerve]
frequency & amplitude & pulse train of electrical stimulation to superficial radial nerve, defensive reactions, cats, 3093
somatic sensory stimulation & electrical stimulation of peripheral sensory nerves, neuronal activity of substantia nigra, male rats, 3094

Permissiveness (Parental) [See Parental Permissiveness]
Perphenazine
suggestions for dosage & frequency & injection site of perphenazine enantate to minimize occurrence of abscesses, neuroleptic drug therapy patients, 6411
use of Research Diagnostic Criteria & amitriptyline vs perphenazine, diagnosis & treatment of major depressive & chronic mood disorders, outpatients aged 18 to over 45, 1870

Persecution
vocational & social discrimination following "Nuremberg code," mental disorders, Jews, 5930

Perseverance [See Persistence]
Perseveration
ECS, open field behavior & spontaneous alternation, male rats, 822
verbal perseveration on repetition task, 22–74 yr old aphasics, 13167

Persistence
college life orientation program, persistence & GPA & attitudes & perceptions, incoming college students, 2105
degree of effort rewarded in conceptual task, persistence in perceptual task, college students, 2808
formulation of causal scenarios & later theory discreditation, perseverance in belief in theory, college students, 5784
locus of control & efficacy expectations, persistence in problem solving, college students, comparison of theories of A. Bandura & J. B. Rotter, 10373
nonreward vs delay of reward vs punishment training, persistence, male rats, 7307
perseverance & flexibility & field dependence, incubation period during problem solving, 2743
positive vs negative prior contact, reinforcing strength of approval, male 3rd–5th graders, 5460
problem solving persistence & confidence of adult model, child persistence & confidence, Black & Hispanic 1st & 2nd graders, 10206
relaxation training, persistence & academic performance, high risk college students, 10903
repetition of 1 of 2 opposing arguments following exposure to both, delayed action effects, paid volunteers, 1290
Rorschach Experience Actual-Experience Potential variable, persistence in frustrating pursuit rotor task with feedback, 17–45 yr old nonpatients, 2815
self vs externally imposed performance standards & reinforcement, persistence & accuracy on academic tasks, 3rd–6th graders, test of H. Kanfer's self regulation model, 2117
situational & personality factors, persistence in problem solving, 7275
stimulus duration, persistence of gratings varying in spatial frequency & exposure, graduate students & staff, 347

Personal Adjustment [See Emotional Adjustment]
Personal Construct Theory [See Personality Theory]

Personal Orientation Inventory
correlation between Self-Actualizing Value subscale of Personal Orientation Inventory & subscales of California Psychological Inventory, college students, 7075
knowledge about self actualization & pretesting, scores on Personal Orientation Inventory, college students, 176
review of Personal Orientation Dimensions Inventory, measurement of self actualization, 9336
Personal Space
demographic characteristics & videotaped measure of preferred interpersonal distance, discrimination between violent vs nonviolent male criminals, 1516
direction of approach of stranger, personal space zones, 16–20 yr old congenitally blind students, 8368
distance & eye contact & verbal reinforcement, attitude change, college students, 1264
habitual use of space, prosocial vs antisocial vs social behaviors, 2.5–3 vs 4–5 yr olds, 10147
increasing of preferred personal distance, judgments of distance, female college students, 3604
interactional dominance & agonistic hierarchy & territorial behavior, institutionalized severely to profoundly mentally retarded 16–50 yr old females, 8262
interpersonal distances, affective responses, male-female dyads of friends vs strangers, 1218
interpersonal space as model for nonverbal analysis of interpersonal relations, 12759
intruder sex & saliency & place of personal space invasion, emotional reactions & speed of flight from invasion, male vs female Ss, 3597
invasion of personal space in interview, stressful behavior, male college students, 1231
multimethod assessment, effects of race & sex & age on interpersonal distancing, Black vs White 7 vs 11 vs 15 yr old dyads, 1089
need for body contact for creation of space & origin of psychomotor problems, neonates & infants, 10697
noise & social & spatial density, task performance, implications for cognitive control of stress, 1221
perceived invasion of personal space as reaction to being photographed, 8039
personal space regulation in interaction with adult male, female 3.4–5 yr olds, 7890
privacy & territoriality sentiments & locus of control, proneness to experience of crowding, female college students, Japan, 3702
repressor vs sensitizer status & stress level, eye contact & personal space manipulation in nonverbal communication, college students, 8025
seating patterns, Gestalt therapy groups, 1751
sex & interpersonal relationship & instructions regarding criteria in reacting to personal space encroachments, affective reactions, college students, 1219
sex of S & other person & acquaintance between them, convergent validity & correlations between personal space measures, college students, 191
situational stress & sex, interpersonal distance preference, college students, 3645
size & shape & permeability of spatial preferences, institutionalized vs noninstitutionalized blind vs sighted Ss, 1586
social distance, 14–16 yr olds, Nigeria, 3653
social distance from mental patient-related stimuli in figure placement test, college students from Australia vs Great Britain vs South Africa vs US, 3626
social responsiveness of opponent vs size of physical space, agonistic behavior, Siamese fighting fish, 7349
utility of curvilinear "comfort" models, interpersonal distance preferences, college students, 1245
validity of auditory technique, measurement of personal space, college students, 7093
Personal Values
accuracy of perceptions of students' interpersonal values, high school counselors, 4426
attribution of interpersonal values of counselors & counseling effectiveness, high school students, 13676
cross cultural differences, personal value clusters, managers, India vs US, 11470
Eastern & Western perspectives in transpersonal belief systems, members of Association for Transpersonal Psychology vs middle management business personnel, 12855
educational programs, personal growth & value orientation, child care workers, 4239
internalized values & responsibility denial, volunteering behavior, college students, 10361
marihuana use & values for independence & peer affection, college students, 12731
market segmentation analysis, effect of product attributes & personal values & demographic characteristics on brand preference, fast food restaurant customers, prediction implications, 2299
personal construct theory, value judgments & perceptions of others in interpersonal relationships, 12772
personality traits & values, clothes buying behavior, female college students, 6914
personal values, problem solving performance, children, 3369
relationship of values vs emotions vs behaviors, schizophrenics vs neurotics vs patients with personality disorders, 12975
respected persons, evaluation of reference values, 13–23 yr olds, Senegal, 5793
sex, values & vocational preferences, student teachers, 11141
sex & crowded dormitory conditions, values & expectancies of privacy & coping behavior, college freshmen, 2297
social roles & moral reasoning & cultural values & social structure, 28–74 yr old male leaders vs nonleaders, Kenya, 12642
socioeconomic status, personal & social values, adolescents, India, 5579
validity, Survey on Ethical Attitudes, male repeat vs 1st offenders vs nonoffenders, 7056
value orientation & country differences, personal value dimensions, managers, US vs Japan vs Korea vs Australia vs India, 2256
value patterns & motive orientations, groups of Jehovah's Witnesses vs Jews vs Muslims vs Pentecostals vs Quakers vs Roman Catholics vs Lutherans, 1138
values clarification, values change, 10th–11th graders, 4296
Personality Assessment [See Personality Measures]
Personality Change
affective attachment to deceased & personality change, mothers who had experienced recent vs distant loss of infant, 8081
assessment & use of change factors, psychoanalysis, 10797
behavioral family therapy, personality change & increased group dependence, parents, 8468
change in self assessment of personality characteristics & aggression, 24–69 yr old depressed patients after hospitalization, 5994
changes in ego structure, functional psychosomatic illness, opium addicts, 1395
development of behavioral measures of intraindividual variability vs consistency, comparison to self report & rating measures, college students, 2422
educational background & psychotherapy selection processes, neurotic vs psychosomatic patients, 1694
extreme personality change following accidents, monozygotic male twin who murdered his wife & daughter, 8211
family relationships & dynamics, personality changes, children studied in psychoanalytic kindergarten, 1390
Feingold diet, classroom behavior & reading achievement & personality change, 6–12 yr olds, 8811
group vs individual social skills training vs traditional supportive therapy, alcohol intake vs social skills vs personality change, institutionalized chronic alcoholics, 1984
job experience & earnings & race & education & attitudes, locus of control change, 14–24 yr old male workers, 1061
mental disorders suffered & family acceptance of disease, grand mal epileptics, 6165
neurophysical status & personality change & memory loss & work capacity & friendships, 16–39 yr old patients with severe head injuries, 2-yr followup study, 1625
personality structure & variability, interactional behavior, adult Ss, 1330
psychotherapy with vs without medical treatment, changes in symptoms & ego strength, myasthenia gravis patients, 1654
structure & changes in components of mental state, resistance to stress, males, 10387
theoretical framework for measurement of personality emphasizing social interaction & personality change, 3722
Personality Characteristics [See Personality Traits]
Personality Correlates
aircraft noise exposure, use of nonprescribed & psychotropic drugs & use of health care services, "very annoyed" vs "less annoyed" survey respondents over 16 yrs old, 11523
analysis of correlation matrices, evaluation of circumplexity in bipolar personality data, literature review, 9462

causes & personality determinants & effect on mood & experimental designs, premenstrual tension, review of research, 1559
clinical neurasthenia neurotic syndrome & relationship with neurotic & psychopathic personality types, psychiatric outpatients & disability applicants, verification of theory of A. van Dantzig & J. Waage, 6017
concurrent validation of Kahn Test of Symbol Arrangement & EPPS, personality correlates of test scores, male vs female college students, 223
correlates of social insight, male prisoners, 4180
correlation of normal personality dimensions within families using constructs of H. Sjobring, adolescents & adults, Sweden, 5849
demographic & personality variables, norms for Kagan Matching Familiar Figures Test of impulsivity/reflectivity, adults, 7059
factor analysis, measures of anxiety & neuroticism & psychoticism & intelligence & academic achievement, male postgraduate students, 6783
family background & psychological correlates, juvenile delinquency, literaure review, 10540
identity conflict & perception of body ego, level of clinical depression, 18–30 yr old male vs female abdominal operation patients, 1471
locus of control as multidimensional correlate of political involvement, college students, measurement & prediction implications, 1338
MMPI personality correlates of response to lithium carbonate, 20–71 yr old psychiatric patients, 1834
personality & behavioral correlates & importance for mental health, psychological androgyny, 10289
personality correlates, divorced & legally separated vs adjusted married couples, 7968
personality correlates, patterns of changing answers on multiple choice tests, college students, 6695
personality correlates, resistance to punished vs regular extinction, college students, 1303
personality correlates, self rated academic success vs failure, college students, 11233
personality correlates & cognitive style, lateral eye movements, female vs male college students, 3721
personality correlates of life satisfaction & frustration, 17–60 yr old males, 1331
personality factors & body image, female college students with high vs low percentage of body fat, 1355
personality & marital satisfaction & divorce, married vs divorced males vs females, 12661
psychological & demographic characteristics, blood donors vs nondonors, 5840
sensitivity to rejection & affiliative tendency, self disclosure & social judgments of partner & role in conversation, male college students, 10331
task success & failure, estimation of number of successes & failures, helpless vs mastery-oriented 4th–6th graders, 7859

Personality Development

academic achievement, individual identification with parents vs peers vs school personnel, 16–18 yr old males, 7910
age at occurrence of psychological development disturbance, behavioral disorders vs depression, children, 5950
authoritarian family, development, adolescents, 5635
birth order, locus of control, 9 yr olds from families of 3 or more children, 1098
childrearing practices & kinship relations, personality development, children among Wolofs of Senegal, Africa, 10209
cross cultural differences, early childhood development & childrearing practices, European-American vs Chinese children from birth to 3 yrs old, US vs Hong Kong, comparison of longitudinal studies, 12565
cultural factors & school & home environment & family characteristics, cognitive & perceptual & personality development, American vs Mexican 6.7 vs 9.7 vs 12.7 yr olds, 6-yr longitudinal study, 12459
curriculum, ego development, junior college students, 4301
developmental curriculum, psychological development & moral reasoning & identity, 15–19 yr old immigrants vs American-born high school students, 3269
development of Toddler Temperament Scale, ratings of temperament characteristics, mothers of 1–3 yr olds, longitudinal study, 7077
early family transactions, personality development & psychopathological outcomes, children, 1076
educational process & personality development, students, 8820
educational psychology & influence of education on personality development, 8821
ego development & cognitive complexity, 16–31 yr old males, 5590
experimental formation of cognitive & helping social motivation, 9 yr olds, 5566
factors affecting pathological personality development, children, Czechoslovakia, longitudinal study, 1072
family experiences & professional functioning, psychotherapists of mean age 36.1 yrs, 11118
formation of motives & interests & independence, children, Czechoslovakia, 1077
gender & sex role identity, avoidance confrontation of existential issues, male vs female 16–50 yr old psychiatric inpatients, 3810
genetic factors, etiology of personality traits, pairs of twins 1–7 yrs old, longitudinal study, 12606
heterogeneity of prosocial motivation in personality development, 3448
history & childrearing practices of kibbutz movement, 12623
hypnotherapy, catharsis & insight & reduction of anxiety & ego development, psychotic & borderline patients, 1884
infant-mother attachments, personality & social development, infants, 3456
influence & expression of temperamental factors, Ss studied from infancy through adolescence, longitudinal study, 12573
language & biological & cognitive & personality development & social experience, 12462
level of ego development, prediction of type & severity of psychopathology, neurotic & psychotic & character disordered patients, replication of L. R. Vincent & K. R. Vincent's study, 1500
life span perspective on gender role development, interplay of biological & sociocognitive processes, 12603
maternal employment, sex role concepts & personality adjustment & academic achievement, 10 yr olds from working & middle class Francophone families, Canada, 7865
mother reports of developmental differences, personality & social behavior, fraternal vs identical twins from birth to 6 yrs old, longitudinal study, 9742
nonshared environmental influences, differential development, siblings, 12469
perceived vs actual genetic similarity, co-twin differences in cognitive & personality & physical development, monozygotic & heterozygotic same-sex twin pairs, methodological implications, 979
perceptual development & creativity, 4–6 yr olds, 12471
personality & parental treatment, behavior problems, children at ages 1–5 yrs, longitudinal study, 13022
physical & behavioral characteristics of child & parental attitudes & characteristics, parental perception of child & child's personality development, parents of identical twins, 5537
physical & intellectual & personality development vs age-based stereotyping, adults, implications for helpers, 3279
physiological & biochemical & genetic factors, personality development, 3454
reliability & national norms for male & female short forms of Loevinger's measure of ego development, 16–26 yr old college & noncollege Americans, 7064
resolution of identity crisis in late adolescence, E. Erikson's developmental stages & treatment recommendations, literature review, 10133
separation individuation & P. Tillich's concept of spiritual reunion, 1146
situational & personality & behavioral factors, development of empathy, children, 7871
somatic & psychological growth, 11 & 14 yr olds, Turkey, 975
sports participation, development of prosocial behavior, 4th & 5th graders, 10170
student-faculty informal contact, college outcomes, literature review, 11249
theoretical framework for measurement of personality emphasizing social interaction & personality change, 3722
theoretical & sociological & biological aspects, unconscious structuring & development of personality, 1300
unconscious mediation process, evolution of consciousness to stages of increasing complexity, 528

Personality Disorders [See Also Antisocial Personality, Cyclothymic Personality, Hysterical Personality, Narcissistic Personality, Obsessive Compulsive Personality, Paranoid Personality, Schizoid Personality]
ability & personality measures, discrimination of brain-damaged vs schizophrenic vs neurotic/personality disordered vs alcoholic male inpatients, 1684
abnormal sexual behavior, psychiatrically referred prepubescent children, 12923
behavior & learning problems & personality disorders, EEG assessment, adults referred to vocational counseling, 9164
clinical features & course & etiology & epidemiology & differential diagnosis & management of Asperger's syndrome, 10537
clinical & sleep EEG findings, subaffective dysthymias vs character spectrum disorders as subtypes of characterological depressions, 1399
cross-validation of booklet form & original Halstead Category Test, 18–88 yr olds with organic brain syndrome vs schizophrenia vs personality disorder, 9380
diagnosis of personality disorders, Aborigines, Australia, 10503
direct observation & behavioral profile, psychotherapy groups of borderline & dependent patients with personality disorders, implications for treatment effectiveness evaluation, 6291
ego boundary disturbance as assessed by Rorschach scales, adolescent females with anorexia nervosa vs depression, 1394
factors affecting pathological personality development, children, Czechoslovakia, longitudinal study, 1072
group & individual ego pathologies, guilt & depression & witchcraft self accusations, preliterate societies, 1465
group psychotherapy, 72–99 yr olds in private retirement home, 8458
heredity & environmental factors, oral & obsessive & hysterical personality syndrome, 20–70 yr old female vs male twin pairs, 6013
intense therapist-client symbiotic relationship in long term psychotherapy, female with borderline character deficiency, 10808
level of ego development, prediction of type & severity of psychopathology, neurotic & psychotic & character disordered patients, replication of L. R. Vincent & K. R. Vincent's study, 1500
mental disorders suffered & family acceptance of disease, grand mal epileptics, 6165
military service as providing needed structured environment, borderline patients with severe personality disturbance, 8130
narcissistic focal interpretive approach, group psychotherapy, hospitalized borderline personality patients, 6295
personality traits & psychopathological symptoms, female adolescents with anorexia nervosa vs depression vs personality disorder, 12933
pimozide, symptoms & social behavior, 27–72 yr olds with personality disorders & social maladjustments & disturbed interpersonal relations, 1839
relationship of values vs emotions vs behaviors, schizophrenics vs neurotics vs patients with personality disorders, 12975
self mutilation & personality disorders, nonpsychotic self mutilating patients, 6049
severe developmental disturbances, serum creatine phosphokinase levels, 3–21 yr olds, 5901
sex & race & psychiatric diagnosis, serum creatine phosphokinase levels, Black vs White 2–14 yr old psychiatric patients, 5903
theories & contributions of H. Sjobring including concepts of mental functioning & personality variants & lesional disorders, 22
treatment involving parents, gender disturbances, 5–12 yr old males, 6299
use of A. Rey's figure drawing instrument, measurement of personality disorders, 7–15 yr olds, 146

memory disorders & intellectual achievement & personality, aged, 12460
MMPI scores indicative of psychopathology, male psychiatric outpatients without sexual dysfunction vs premature vs retarded ejaculators, 3925
motivational dynamics, disadvantaged females with mean age 26.3 yrs, 12860
nasal inoculation of rhinoviruses & recent life stress & personality traits, cold symptoms & infections, 18–49 yr olds, 10740
need of affiliation & achievement & personality traits, 17–51 yr old anxious neurotics, 12972
need strengths & perceptions of job scope & task characteristics, turnover & absenteeism, state & county government employees, 13774
neuroticism & personality traits measured by 16PF, premenstrual symptoms, volunteers vs nonvolunteers with mean age of 25 yrs, 10738
normative ambiguity ratings of personality trait words, implications for impression formation research, 5796
noxious transcutaneous electrical stimulation, pain threshold, 23–42 yr old Nepalese porters vs 30–68 yr old Occidentals, 820
number of working hours, free time problems & personality traits, part-time vs full-time vs unemployed Ss, 13722
obsessional personality traits & state & trait anxiety, Ss with anxiety neurosis or ulcerative colitis, 1386
occupation & socioeconomic status & personality attributes, evaluation of residential stressors, residents of family housing projects vs private moderate vs high income apartments, 2296
organization of person knowledge by person vs attribute, learning & recall, 21–27 yr olds, 11895
overcontrolled hostility, murder of wife, hospitalized adult male, 1359
paternal relationships & adolescent personality, marihuana use, female adolescents, 3466
patient characteristics & posttreatment alcohol abstinence & polydrug abuse, MMPI profile, inpatient alcoholics, 8219
patient characteristics & process variables, predictors of psychotherapy outcome, acutely depressed 18–65 yr old patients, 13225
patient personality types, implications for facilitating hospital care, 6490
patient selection factors, mental health service delivery, hospital inpatient population, implications for "Matthew effect", 3966
patient's personality & therapeutic interaction, treatment outcome, 2 male patients in time-limited individual psychotherapy, 1739
perceived characteristics of male & female stereotypes, male vs female Indian college students, South Africa, 8032
perceived coercion & resistance to persuasion, male vs female Ss with Type A vs B coronary prone behavior pattern, 10368
perceived self infliction, attribution of personality traits of obese & handicapped Ss, college students, 3666
perceptions of family similarity in intelligence & personality test scores vs actual scores, adoptive vs biological families of adolescents, 9746
perceptions of parental interest & social adjustment & school achievement & personality traits, unwanted children, longitudinal study at 9 & 15 yrs, Czechoslovakia, 5645
periods of inactivity vs strenuous mental work, catecholamine & cortisol excretion & heart rate, Type A vs B male college students, 1315
personal characteristics of listener, verbal listening skill in interview, college students, 3730
personality, noise tolerance & performance, literature review, 5872
personality assessment from content analysis of speeches, Soviet Politburo members, USSR, 5857
personality & attitude factors, successful employment & work adjustment, mentally retarded adults in halfway house, 13439
personality & body image disturbance & physical state & coping style, adaptation to parenteral nutrition, male vs female 18–66 yr olds, 1901
personality characteristics, alcohol use patterns, adults, 1210
personality characteristics, asthmatic patients, 13099
personality characteristics, blood pressure, 8–16 yr olds, 7751
personality characteristics, preferences in pet ownership, adults, 3708
personality characteristics, regularity of meditation, 3683
personality characteristics & artistic success, painters & sculptors, 3692
personality correlates of life satisfaction & frustration, 17–60 yr old males, 1331
personality dimensions on 16PF & perceived body weight, high school juniors & seniors, 10143
personality & drug history, subjective intoxication on coltsfoot & placebo & marihuana, 21–31 yr old males, 12736
personality & environmental characteristics, effective aftercare functioning, chronic psychiatric patients aged 30–65 and over, 1464
personality & ethics of C. Burt, H. J. Eysenck's personal account, 4226
personality factor analysis, Eysenck Personality Inventory, English vs Japanese 10–15 yr olds, 7011
personality factors, accident prone drivers, 10394
personality factors & age differences, cognitive strategies on probability learning task, 5–15 yr olds, 3327
personality factors & body image, female college students with high vs low percentage of body fat, 1355
personality factors & height & weight & chest circumference, sensation contours in response to whole-body vibration, 4895
personality & family situational variables, career persistence & activity pattern, female college students, 13720
personality in relation to disease, adolescents & children with diabetes & hemophilia & physical handicaps, 10736
personality & marital satisfaction & divorce, married vs divorced males vs females, 12661
personality needs, cross cultural adjustment & satisfaction, German wives, Philippines, 5619
personality & parental treatment, behavior problems, children at ages 1–5 yrs, longitudinal study, 13022
personality patterns, classification of manic-melancholic patients as unipolar vs bipolar, 39–72 yr old patients, 8127
personality patterns, gifted females, literature review, 1304
personality patterns & involvement in sports, college students, 5880
personality patterns measured by Indian version of Sixteen Personality Factor Questionnaire, high vs low self disclosure 15–17 yr olds, India, 1095
personality & performance correlates, susceptibility to biasing information, student teachers, Israel, 13544
personality & prior feeling of isolation & satisfaction with living situation & social contacts & group vs single living quarters, feeling of social isolation, dormitory-housed college students, 3607
personality structure, Australian vs English adults, 5850
personality structure & dynamics, personal tempo, historical review of research, 3712
personality structure & variability, interactional behavior, adult Ss, 1330
personality traits, academically handicapped vs gifted students, 4389
personality traits, adult pet owners vs non-owners, 10386
personality traits, cultural values, 15–17 yr olds, Japan, 5625
personality traits, edging on memory for designs test, detention center youths vs criminals vs college students vs psychiatric outpatients, 181
personality traits, intrinsically vs extrinsically religious vs nonreligious college students, Canada, 3509
personality traits, lifestyle responses, 38–71 yr olds who had coronary artery bypass surgery, 8358
personality traits, male myocardial infarction patients, 3917
personality traits, martial arts practitioners, 1336
personality traits, perceived susceptibility to cardiovascular disease & severity of attack & benefits of preventive behavior, adult males at increased risk for cardiovascular disease, 6140
personality traits, physiological correlates, athletes, 12848
personality traits, police, England vs US, 1328
personality traits, prediction of career success, divers & trainees & US Navy applicants vs trainees in divers' courses, 6848
personality traits, satisfaction with relationship, White middle-class 25–35 yr old married & cohabitating couples, 5639
personality traits, shooting sports performance, participants, 12843
personality traits, subjective encounter group experience, college students, 6312
personality traits, 18–33 yr olds with varying degrees of meditation experience, 12875

personality traits as measured by California Psychological Inventory, engineers vs engineering- vs non-engineering-trained managers, 4538
personality traits as measured by MMPI, male US Army helicopter pilots vs nonpilot officers, 8062
personality traits as measured by 16PF, high vs low risk takers with mean age of 23.5 yrs, 12898
personality traits & biochemical & hemodynamic factors, 30–59 yr old male with arterial hypertension & coronary heart disease, polar regions of Russia, 1609
personality traits & complaints, type of sleep disruption, primary insomniacs, 8306
personality traits & feedback, operant heart rate conditioning, male college students, 3047
personality traits & history of neurosis & symptoms of anxiety & depression, epileptics, 1391
personality traits in student vs homemaker roles, female 29–55 yr olds, 3570
personality traits & intelligence, popularity ratings, 10th grade females, 5586
personality traits & manifest anxiety level, women seeking abortions, 5853
personality traits of wife/mother, family dysfunction & adjustment, families with husband/father missing in action, 3515
personality traits & psychopathological symptoms, female adolescents with anorexia nervosa vs depression vs personality disorder, 12933
personality traits & psychopathology, evangelical seminarians vs Catholic nuns vs male vs female college graduates, Colombia, 12857
personality traits & sex & placement in boarding home, academic achievement & failure, Ojibwa Indian vs White 9th & 10th graders, Canada, 4339
personality traits & values, clothes buying behavior, female college students, 6914
personality traits & vocational interests & attitudes, average age 27.5 yr old male prison inmate college students, 11045
personality types & psychological tensions, interethnic marriage, England vs China vs US, 12688
personality variables & menstrual symptoms, college students, 8301
phenotypic similarity, 20–70 yr old White American married couples & Swedish monozygotic & dizygotic twins & their spouses, 3544
physical anhedonia & perceptual aberration levels, proneness to psychosis, college students, 10466
physical attractiveness, personality judgments, college students, 12812
physical & behavioral characteristics of child & parental attitudes & characteristics, parental perception of child & child's personality development, parents of identical twins, 5537
political candidates' characteristics, voting preferences, college students, 10278
positive vs negative traits, weight & descriptive extremity & specificity in impression formation, 14 & 15 yr olds, 10200
prediction of hypnotizability from California Psychological Inventory, college students, 11670
premorbid personality traits, development of unipolar depression, 13–74 yr olds, 1435
psychoanalytic interpretation, personality & motivation of H. P. Petain, France, 1345
psychodrama vs small group therapy in Alcohol Rehabilitation Center, personality profiles & anxiety & prognosis, US Navy alcohol abusers, 6535
psychological characteristics, workers' compensation claimants, 12929
psychological correlates of cardiovascular disorder diagnosis, male vs female 25–68 yr olds, 13154
psychosexual development, panic-fear personality types, 14–76 yr old asthmatic patients, 1573
quality of competitive participation, injured Type A vs B intercollegiate football players, 10367
questionnaire scale construction, measurement of subjective stress & dissatisfaction, housewives, 7062
rankings of characteristics to be encouraged in children, Indian fathers vs US parents vs experts, 5652
relationship between body type & personality traits, college students, 1344
relationship between pretense & mental disorders, healthy adults, 3676
reliability & validity of Jenkins Activity Survey Form T, coronary prone behavior patterns, male vs female rural vs urban college students, 2506
research methodology & criteria for no psychiatric treatment, negative responders vs nonresponders vs spontaneous improvers, 3987
research problems in semantic equivocality of verbal designations, conceptual or undefined vs behavioral or defined personality traits, 2372
retrospective perceptions of parental behavior, psychic health, adults, 3740
revealed personality traits & occupation & desirability of applicant & self referent style & experience, rankings of suitability & peformance expectations, corporate interviewers, 4506
scoring of sentence completion responses for ego development level & correlation with personality trait measures, 35–80 yr old males, 5873
self perception & personality traits, unemployed vs employed 20–35 yr old hemophiliacs, 6150
sentence context stressing various meanings of trait & consistency with subsequent information, ratings of persons described by trait adjectives, college students, 3668
sex, personality traits & back & head & body awareness, college students, 1352
sex & age differences, personality dimensions, urban 70 & 45 & 16 yr olds, 12605
sex & age differences, psychogenic needs as measured by Cesarec-Marke Personality Schedule, urban 70 & 50 & 16 yrs olds, 12604
sex & age & presentation order of stimulus person, stereotyped trait attributions, male vs female college students, 1270
sex differences, attributions of motivation & personality traits to actors & observers, college students, 3672
sex differences, personality traits & cognitive style & academic achievement & perceptual motor skills, learning disabled special education students with mean age 12 yrs, 10611
sex differences & personality traits & demographic characteristics & publication rate & citations, attainment in academic psychology, personality & social psychologists, 8777
sex & locus of control & other affective characteristics, evaluations of instructors, graduate students, 4369
sex-stereotyped & social desirability ratings of personality traits, feminist vs nonfeminist college students, 12725
sex & Type A behavior & low masculinity sex role orientation, social self esteem & anxiety & depression, college students, 3681
situational & personality factors, persistence in problem solving, 7275
social class & other factors, Type A behavior, men & their wives & other family members, 5884
social & demographic & personality characteristics, gourmets vs vegetarians, 12754
sociology of cognitive development, literature review, 3387
socio-psychological classification factors, drunkenness vs alcoholism, 1507
speech style & social class, perception of speaker's status & solidarity & stereotype & speech & social distance, college students, 5825
stimulus specificity, physiological response to stress, coronary prone vs noncoronary prone male college students, 5277
structure & changes in components of mental state, resistance to stress, males, 10387
supervised exercise program, physiological & psychological variables, Type A vs B 25–61 yr olds, 5270
tasks inhibiting vs stimulating fighting & dependency, group culture & individual behavior, college students, 8005
test item choice, construction of personality measure for personnel selection, sales personnel, 2460
test validity & reliability & personality traits & enrollment in thanatology class, death attitudes & attitude change, college students, 4376
threat to self esteem vs threat of shock, cognitive coping strategies & pulse rates & blood pressure, Type A vs Type B male college students, 3724
tobacco smoking & personality & smoking habits, critical flicker fusion, male moderate smokers, 7705
trainer self insight & emotional responses to group participants, 11438
trait adjectives consistent vs unrelated vs inconsistent with occupational group stereotypes, estimation of frequency of use of each adjective, high school & college students & adults, 8040
TV viewing habits & personality traits, 14 yr olds, 7714

Type A attitudes & behavior, degree of coronary occlusion vs angina pectoris, employed males, 13168
Type A behavior, ischemic heart disease, 13129
Type A behavior, myocardial infarction patients & rheumatics, Poland, 13166
Type A behavior & hostility, coronary atherosclerosis patients, 10747
Type A behavior & merit of scientific work, male members of the Society of Experimental Social Psychologists, 8070
Type A behavior pattern, personality traits & life adjustment & coronary heart disease, male patients, 1591
Type A behavior & personality traits, male vs female college students, Sweden, 5870
Type A coronary-prone behavior, fear of failure orientation, male college students, 1316
Type A personality, coronary artery disease, Irish vs Italian Catholic vs White Anglo Saxon Protestant 18–70 yr old males, 1572
Type A personality & impulsivity, college students, 12862
type of challenge situation, blood pressure & heart rate, female Type A vs B college students, 7540
understimulation vs overstimulation, adrenal-medullary & adrenal-cortical responses, Type A vs Type B college students, 775
valance of evaluation & distinctiveness of evaluator, causal attributions & predictions of evaluator's future behavior, evaluated vs noninvolved college student Os, 5798
validity of J. L. Holland's theory, personality traits & vocational choice & satisfaction, French- and English-speaking chartered accountants, Canada, 11414
validity of Personal Attribute Inventory in measurement of self concept & personality profiles, female vs male college students, 2483
validity of personality variables in differentiation of groups, male American World Class Olympic contenders & college student education majors, 3720
validity of Threshold Trait Analysis technique, job analysis & prediction of job performance level, clerical & administrative & technical employees, 11668
validity & reliability of Affective Communication Test, measurement of individual differences in expressiveness/charisma, college students, 2469
validity & stability of MMPI panic-fear scale in asthma, 13–72 yr old asthmatics, 4781
vestibular stimulation & characteristics of explosiveness & irritability & social interaction, classroom behavior, 4 & 5 yr old hyperactive males, 4390
vocational congruence, selection of leisure activities, 21–65 yr olds, 4488

methods for training & credentialing child care personnel, 11116
methods of analysis & interpretation based on Career Intern Program evaluation, 2088
occupational analysis & job performance aids & instructional systems development, task specific maintenance training, US Air Force maintenance personnel, 13729
participation in construction &/vs training in use of behaviorally anchored rating scales, cognitive complexity, college students, partial replication of study of C. E. Schneier, 11685
patching technique training, target detection performance for seismic sensors employed in grid, operators, 6831
physiological correlates of pilot attention & task difficulty, development of flight simulation training programs, 6829
platform motion cuing & visual field of view, simulator training effectiveness in T-37 aircraft, student pilots, 6830
practice on flexibility of closure & spatial scanning tasks, performance on electronic fault finding task, college students, implications for personnel training, 6828
problems in foster care system & recommended training for human service professionals involved in child placement, 1911
process of "shaping" untrained personnel to make psychiatric referrals in state correctional system, 6517

relative cost & training effectiveness, 6883 3-dimensional simulator vs actual equipment, US Air Force F-111 avionics maintenance trainees, 9166
relevance & significance of organizational training programs, 4502
review of Child Development Associate training & standards, criticism of study by L. E. Berk & M. P. Berson, 11096
review of Child Development Associate training & Consortium assessment, 11091
selection & training of air traffic control specialists, contributions by Civil Aeromedical Institute, 1960–80, literature review, 2226
summary of purposes, Similar Training Requirements & Effectiveness Study, 13738
task analysis handbook, 11427
technical reports of Air Force Human Resources Laboratory, 1978, bibliography, 2224
test development using functional job analysis procedure, measurement of achievement of training standards, heavy equipment operators, 6849
time & ease of learning 2-letter & number vs 4-letter message reference code, army officers & enlisted personnel, 11437
training by cultural assimilator, knowledge of Black culture & effectiveness in race relations as seen by subordinates, White junior US Army officers, 13731
training effectiveness, platform motion simulators, pilots & pilot trainees, 11435
training efficiency of part-task trainer, boom operators, 6823
training requirements & aircrew training device fidelity features, 13735
training requirements & aircrew training device instructional support features, 13736
training strategies for teaching sequential procedures, initial training & retention & transfer to actual occupational task, 16–34 yr olds, 9169
utilization of aircrew training devices, 13727
work behavior & product vs job knowledge & mechanical aptitude, test-retest reliability, trainee lathe operators, 11449
Personnel [See Also Related Terms]
communication & interpersonal confidence, working dyads, 8013
computer simulation of continuous motor control learning, human operator performance, 9177
descriptions of work vs nonwork time, compensatory vs spillover models of adjustment to work, pharmaceutical firm & research organization employees, 2218
education of youth for life of work, USSR, 8816
instructor vs self vs mutual evaluations, social development, student lathe operators during 3-yr course of instruction, 8881
job seniority & experimental instructions, styles of ingratiating behavior, technical vs nontechnical male workers, 2266
measurement of occupational noise-induced hearing loss, 13123
overview of Passages program for employee career & life planning, 6807
perceived goal orientation & participation & relevance of performance appraisals, opinions of appraisal system, research & development organization employees, 4521
perceptions of job challenge & autonomy & importance & individual disposition, job satisfaction, computer personnel, 2260
psychological characteristics, workers' compensation claimants, 12929
sex differences & minor psychiatric morbidity, employee absenteeism, workers, 13771
work interests analysis, home economists, implications for definition of profession, 6812
Persuasive Communication
applicability of M. Fishbein's model of attitudes & beliefs vs other models, changes in attitudes & beliefs between disagreeing peers, college students, 10337
communicator credibility & individual differences, attitude change, college students, 1286
crowd size, persuasion, religious crusade meetings, 8021
degree of expertness & attractiveness of & type of argument from source, attribution of personality traits, female college students, 3646
delay, compliance with socially undesirable requests, college students, 2812
desire for control & proattitudinal vs counterattitudinal arguments, attitude change, college students, 10346
dimensional analysis of perceptions of compliance-gaining situations, college students, 3630
discrepancy & involvement & source credibility, attitude change, 12806
effectiveness of participation in group problem solving task with peers, learning disabled vs normal 3rd–8th graders, 10589
forced exposure analysis of alternative TV advertisements, correlates of persuasion & brand buying intentions, shoppers, 13796
form of persuasive appeal & cognitive complexity, sharing behavior, 7 yr olds, 10000
legitimate vs illegitimate request & preceding larger request, compliance, college students, Israel, 5773
levels of drive & persuasive communication, speed of agreement with opinion & conditioned attitude strength, college students, 12829
neutral vs biased presupposition source, memory for presupposed facts, high school students, 5423
number of proponents &/vs number of arguments, attitude change, college students, 12766
perceived coercion & resistance to persuasion, male vs female Ss with Type A vs B coronary prone behavior pattern, 10368
perceived consequences & communicator likeability & topic & position advocated & number of arguments, heuristic vs systematic information processing in persuasion, college students, 8035
persuasive antismoking communication & emotional state & attitudes & perceived attitudes of others, smoking behaviors & intentions, college student smokers, 10299
persuasive communication, change of attitude & behavior & intentions on marihuana smoking, 13–18 yr old marihuana users vs nonusers, 1208
presence of perturbing stimulus, perseveration of evaluative quality of persuasive message, college students, extension of study by J. M. Nuttin, 12742
repetition of 1 of 2 opposing arguments following exposure to both, delayed action effects, paid volunteers, 1290
sex of juror & verdict & congruence vs incongruence between juror & confederate verdicts, confidence of juror in verdict, male vs female college students, 5743
sex of majority vs minority influence source, conformity of opinion on male vs female related statements, male vs female college students, 12761
social comparison information under anonymous conditions, choice shift, college students, 10347
speaker friendliness & O's position on topic, influence in controversial discussion, male vocational high school students, analysis by process models, 7853
statement vs rhetorical presentation of strong vs weak relevant vs irrelevant arguments, persuasiveness, college students, 12436
target confidence & type of influence system & admission of influence, attribution of influence, college students, attitude change implications, 5804
theories on persuasive messages, attitude change, female college students, 12801
trustworthiness & expertise of source in persuasive message, opinion change, college students, 5815
Pessimism
age & sex & socioeconomic & marital status, hopelessness, adults, 12858
feelings of pessimism, interpersonal behavior, nonclinically depressed college students, 3715
validity & reliability of Optimism-Pessimism Test Instrument, measurement of tendency to expect positive vs negative outcomes, 1st–2nd graders, 233
Pesticides [See Insecticides]
Petit Mal Epilepsy
dextroamphetamine & apomorphine, flash-evoked afterdischarge as model of petit mal epilepsy, rats, 5385
spontaneous & pentylenetetrazol-induced spike-wave discharges in electrocorticogram & locomotor arrest & clonic facial movements, rats, similarities to human petit mal epilepsy, 7485
Petting
cross cultural differences in postpartum sex taboo & polygyny & male initiation rites & infant sleeping arrangements, sexual foreplay, implications for neo-Freudian perspective, 1111
Pharmacology [See Also Psychopharmacology]
clinical use vs pharmacology vs toxicology vs biology, lithium carbonate, 1978–80, bibliography, 12400
combination of clinical & biological criteria for psychiatric diagnosis of affective disorders, 10405
computerized review system, orders of psychotropic drugs, 86
promethazine, blockade of histamine- & impromidine-induced cyclic adenosine monophosphate activity in H sub 2-receptors in intact guinea pig hippocampal cells vs cell-free preparations, 7628
Pharmacotherapy [See Drug Therapy]

Phenelzine
gas chromatography-mass spectometry studies of plasma levels of phenelzine & acetyl derivatives, 3197
imipramine vs phenelzine, improvement, 52 yr old female with obsessive compulsive disorder, 13334
phenelzine sulfate therapy, rapid cycling disorder, 17 yr old male with depression, 4097
phenelzine therapy, improved adjustment, male veterans with war neurosis, 1850
phenelzine &/vs exposure to phobic situation, reduction of phobia, agoraphobic & socially phobic 18–47 yr olds, 13196
plasma levels of phenelzine & acetylated metabolite, antidepressant response, 3196
Phenmetrazine
self administration of cocaine vs dextroamphetamine vs phenmetrazine vs fenetylline, performance on FI vs VI vs FR schedules, rhesus monkeys, 12369
Phenobarbital
diphenylhydantoin vs phenobarbital during specific gestation periods, conditioned avoidance behavior & learning deficits & birth defects in mature offspring, pregnant rats, 12360
dosage of phenobarbital as discriminative stimulus, stimulus control, pigeons, 5091
ethanol & phenobarbital & baclofen, ethanol withdrawal, rhesus monkeys, 7698
pentobarbitol vs other drugs, drug discriminative behavior, pigeons, 9938
phenobarbital tolerance, phenobarbital-induced depression of potassium-stimulated 5-hydroxytryptamine release in brain, male rats, 9948
Phenomenology
antecedent factors & phenomenology & treatment required & prognosis, reactive vs acute psychotics, 5971
critique of descriptive diagnostic models, schizophrenia, implications for phenomenologic approach, 8136
empirical phenomenological approach, assessment of personal descriptions of fear, college students, 1301
Gestalt principles in phenomenological perspectives, 9239
information processing model of perception based on psychophysics & phenomenology & information processing aspects of visual perception, 4891
investigations of anger exemplifying theoretical assumptions & methodology of phenomenological philosophies of K. Lewin vs E. Husseil, 9229
key themes of European tradition of psychotherapy, 10809
main points of agreement & difference between phenomenology & Gestalt psychology, 9241
phenomenological analysis, anxiety, 5859
phenomenological analysis of E. Strauss, relationship with outside world, schizophrenics, 8158
phenomenological approach to psychiatry, understanding of melancholia, 27
phenomenological description as method for understanding roles & functions of counselor, 2355
phenomenological description of psychotherapeutic process, 3993
phenomenological distinction between heautoscopic depersonalization & delusion, literature review emphasizing Spanish contributions, 8144
phenomenological investigation, insight meditation, college students, 519
phenomenological model, ego-consciousness, schizophrenics, 13003
phenomenological theory of motivation, 3636
review & interpretation of M. Wertheimer's "Productive Thinking" from phenomenological perspectives, 9549
self observation phenomenological method, pictorial symbolization of faces-goblet stimulus display, graduate students, 391
structural phenomenological aspects, schizophrenia, 12973
symptomatology & phenomenology, acute psychotic reactions, 25–45 yr old West Indian & West African migrant patients, England, 12978
theoretical commonality of diverse developmental schemes, 5451
unity of phenomena, discussion & criticism of F. Brentano's theories, 2329
Phenothiazine Derivatives [See Also Chlorpromazine, Chlorprothixene, Fluphenazine, Perphenazine, Thioridazine, Trifluoperazine]
age & sex & prescription of drugs, thyroid dysfunction, psychiatric inpatients, 13176
longterm use & adverse effects of phenothiazines & lithium, 8589
phenothiazine-induced tardive dyskinesia, pseudodementia, 1852
propranolol & phenothiazine, electrodermal orienting & habituation responses to auditory stimuli, schizophrenics, 10924
Phenotypes
ABO blood type, neuroticism, 18–65 yr olds, Greece, 1474
male competition for mates, control of polymorphism, butterflies, 12188
model based on asymmetry in mate selection, study of familiar similarity, 12175
phenotypic correlations & cultural & genetic factors, monozygotic & dizygotic twins & their families, 2957
phenotypic similarity, 20–70 yr old White American married couples & Swedish monozygotic & dizygotic twins & their spouses, 3544
susceptibility to motion sickness, squirrel monkeys, 748
time, photobehavior, Drosophila species, 9744
Phenoxybenzamine
oral & ip thyrotropin releasing hormone & MK-771 & reserpine & alpha-methylparatyrosine & phenoxybenzamine & methazolamide & picolinic acid, flexor activity, female rats with spinal transections, 7569
response contingent infusions of cocaine vs dextroamphetamine vs norcocaine with vs without pretreatment with phenoxybenzamine vs pimozide, relative potency determined by self administration behavior, dogs, 9957
Phenylalanine
amygdala & stria terminalis lesions & familiarization with mice, parachlorophenylalanine-induced mouse killing, rats, 5321
induced hyperphenylalaninemia & cerebral lateralization, hyperactivity & learning ability, rats, implications for animal models of phenylketonuria, 7533
parachlorophenylalanine vs 5-hydroxytryptophan vs dextroamphetamine sulfate vs levamphetamine sulfate, serotonin behavioral syndrome, male rats, 5405
Phenylketonuria
haloperidol & chlorpromazine & chlorprothixene & thioridazine, adverse reactions, 37 & 43 yr old disturbed retarded female phenylketonuria patients, 6416
induced hyperphenylalaninemia & cerebral lateralization, hyperactivity & learning ability, rats, implications for animal models of phenylketonuria, 7533
Pheromones
adrenalectomy, puberty-delaying pheromone, female mice, 5337
amyl acetate vs suckling pheromone stimulation, olfactory bulb uptake of 2-deoxy-dextro-glucose, rat pups, 3216
aversively motivated discrimination task, anogenital odor discrimination & detection of physiological estrus, male vs female guinea pigs, 662
chemical communication, pine bark beetles, 2892
chemical stimuli produced by conspecifics in reproductive state, short- vs long term behavior patterns, intact vs anosmic vs sham-operated adult male cichlids, 2903
chemosignal activity & perceived similarity, goldfish & Belontiidae species, 7408
cholic acid, maternal pheromone induction, female rats, 3184
ear gland secretion odors in discrimination of diestrous female vs castrated vs intact conspecifics, sexually experienced male hamsters, 647
electrophoretic examination of esterases & identification of pheromone-degrading esterases in antennae, cabbage loopers, 741
exposure to pheromone androstenol, responses to questionnaire regarding menstrual cycle & mood change, female college students, 12351
female sexual cycle & sex pheromones, male agonistic behavior, rats, 7382
flehmen behavior elicited by female urine, vomeronasal organ function, male goats, implications for reproductive cycle, 646
interactions between plant odors & pheromone reception, ermine moths, 12257
nasal marking in response to novel olfactory stimuli & role of arousal, squirrel monkey groups, 752
pheromones, reproductive behavior, parasitic wasps, 12168
pheromone vs exploratory trail, mass recruitment response, working army ants, 5172
role of exocrine glands, trailing behavior, Argentine ants, 9716
scent marking, swarm emigration, social wasps, 12130
scent marking behavior, coyotes, 5134
season & sexual maturity, urinary marking, male wild bank voles, 739
selective removal of alleyway flooring & air, assessment of locus of nonreward odor, male rats, 7334

selective removal of reward vs nonreward odors, pattern responding, male rats, 7335
simple exposure vs exposure associated with conspecific & sensory affective bias, establishment & maintenance of preference for olfactory stimuli, rat pups, 565
species differences & pheromonal communication, aggregation formations, Australian reptile tick larvae vs nymphs vs adult males vs females, 12151
trail following behavior, male wolf spiders, 5171
wind-borne female sex pheromone, upwind vs cross-wind flight maneuvers, male moths, 9698
Philippines
childrearing practices, Philippines, 3522
conceptual & psychological analysis of "sumpong", implications for Philippine culture, 3502
field independence & intelligence & GPA, female high school students, Philippines, 13614
industrial & national-education testing, Philippines, 2513
internal structure & predictive validity of Inventory of Learning Processes, academic achievement, college students, Australia & Philippines, 9131
language & sex, ambiguity in Thematic Apperception Test, college students, Philippines, 2546
preference for facial picture of Japanese vs Filipino vs American Black vs White child, 1st vs 6th graders vs college students, Philippines, 3458
psychological test administration & validity & training of test administrators, government & private & special educational institutions, Philippines, 4435
ratings of humorous vs violent vs factual vs affective interpersonal relationship passages in English vs Filipino, bilingual 16–22 yr old college students, Philippines, implications for translator training, 3241
self esteem & school achievement & IQ, high school females, Philippines, 2069
sociocultural factors, psychology, Philippines, 2322
symbolic interactionist analysis, social behavior, Philippines, 3468
technology transfer & community socioeconomic structures, projects for resettlement from densely to sparsely populated areas, Philippines, 7913
translation, validity of personality inventories, Philippines, literature review, 2494
type & incidence of mental disorders, patients at primary health facilities with physical complaints, Colombia & India & Sudan & Philippines, 1896
validity of research methodologies, indigenous psychology, Asia & Philippines, 6924
Philosophies [See Also Animism, Asceticism, Dualism, Epistemology, Existentialism, Fatalism, Humanism, Logic (Philosophy), Materialism, Metaphysics, Mysticism, Pragmatism, Realism (Philosophy), Reductionism]
ability of humans to test their own assumptions, 2328
analysis of philosophical & mathematical characteristics of catastrophe theory, implications for experimental design, 9230
applicability of M. Buber's philosophy to Gestalt therapy, 6231
biblical perspectives vs philosophies underlying habilitation of mentally retarded & developmentally disabled persons, 13444
discussion of existence of entities, 2331
Eastern & Western perspectives in transpersonal belief systems, members of Association for Transpersonal Psychology vs middle management business personnel, 12855
holistic philosophy of Gestalt therapy, 4646
interpersonal vs mechanistic explanations of human interaction, 4655
nativism-empirism controversy on theories of perception, 4654
performance of East-West Questionnaire indicating Eastern vs Western belief system orientation, Korean medical & nursing students vs US college students, 12648
philosophical & methodological problems, psychological research, 9232
philosophies & theories of D. H. Lawrence & Freud, 6940
philosophy underlying practice of organizational development, 11506
psychoanalysis as science from transcendental realism viewpoint, 6962
similarities & differences between the works of Plato & Freud, 9234
theories of L. Wittgenstein & constructivist framework, understanding natural language, 11546
theory of emotions & intentionality & meaning of life, implications for psychotherapy, 13211
theory of emotions & intentionality & meaning of life, implications for psychotherapy, professional criticism of article by C. Goldberg, 13223
Phobias [See Also Acrophobia, Agoraphobia, Dysmorphophobia, Ophidiophobia, School Phobia]
anxiety induced by flooding therapy, lack of prolactin secretion response, phobic females, 1808
application of signal detection theory to perception of phobic stimuli, comment on W. Lauterbach's model, 4894
aversion relief & systematic desensitization & modified flooding & cognitive rehearsal & anxiety management, fear of choking, male 21–75 yr olds, 4070
biological & genetic influences in acquisition & maintenance of phobic fears, 8204
body image boundary Rorschach responses, anthropophobics & borderline phobics vs schizophrenics, 3791
cognitive/behavioral treatment, dental anxiety, 11 yr old female, 10889
desensitization & insight therapy, phobic patient, 3952
directed reverie therapy, 14 yr old phobic male with obsessional defenses, 1706
dissonance theory and flooding therapy, phobic behavior, 10799
distortions of semantic schemata for dog & mammal categories, dog phobic vs nonphobic college students, 510
family history of affective disorders & alcoholism, agoraphobic vs social phobic vs miscellaneous-specific phobic patients, 10504
feared-object stimulation in imagination, skin conductance, 18–48 yr old patients with anorexia nervosa & related feeding disorders vs non-food-related phobias, 6166
field dependence & scores on MMPI Hysteria & Psychasthenia scales, female psychiatric patients, 1448
hypnotizability, phobic patients, 10479
interstimulus interval & delay vs trace paradigm, skin conductance conditioning to potentially phobic stimuli, college students, 771
in vivo desensitization, severe driving phobia, 55 yr old male, 13290
in vivo exposure, treatment of phobias, literature review, 8530
in-vivo exposure therapy for simple phobias, transient nonpsychotic sensory distortions, phobic patients, 10863
in vivo gradual approximations approach to desensitization, toilet phobia, mentally retarded autistic 5 yr old male, 8567
mid-phase of strategic therapy for marital difficulty & subway phobia, 8447
participant modeling, desensitization of dog phobia, 32 yr old mildly retarded female, implications for extent of desensitization, 8519
phenelzine &/vs exposure to phobic situation, reduction of phobia, agoraphobic & socially phobic 18–47 yr olds, 13196
phobic-relevant vs neutral target words, recognition, phobic vs nonphobic Ss, 3771
prevalence of social phobias & agoraphobia, alcoholics admitted to treatment unit, 6042
progressive muscle relaxation & desensitization, toilet phobia, 4 yr old male with encopresis, 1828
psychotherapeutic & behavioral patient-focused treatment approach, phobia, 35 yr old male, 6200
psychotherapy treatment of phobic anxiety & sleep disturbances, female 7–11 yr olds, case reports, 10807
ratings, type of behavioral problems possible to solve with willpower, laypersons, implications for behavior therapy, 10380
reading relevant literature, misconception-based self injection phobia, 31 yr old female diabetic, 13286
relaxation technique, treatment of social phobias, 1793
reported parental characteristics, agoraphobics & social phobics, 5991
reward reduction, enhancement of neophobia, rats, 12050
self control desensitization, fear of contamination by dirt & germs & parasites, 9 yr old male, 13276
sex, ABO blood types, patients with phobias to internal &/vs external stimuli, 3814
systematic desensitization, blood phobia, 23 yr old male, 13278
systematic desensitization including relaxation training & fantasy & Gestalt technique, anxiety about birds, female client, 13288
tolamolol vs diazepam & exposure to phobic object, stress-induced tachycardia & behavioral & subjective effects, phobic female adults, 8571
training & utilization in behavior therapy clinic, nurse therapists, 4062
Phobic Neurosis
imperative ideas & actions with similar or identical content in siblings & across generations, 680

Phonemes [See Also Consonants, Vowels]
acoustic cues, fricative–affricate contrast in word-final position, college students, 9520
acoustic spectral quality vs dynamic change as cues in diphthong identification, selective auditory adaptation to syllables varying in consonant & vowel cues, 4960
acquisition of /s/ plus stop clusters, substitution strategies including differential use of voice onset time, language delayed 3–8 yr olds, 6096
classical conditioning vs concept formation experimental paradigms, generalization of responses to phonemes, college students, 7722
developmental trends in production of /r/ allophones, 42–62 mo olds with incomplete articulation mastery, 5499
echoic memory & speech sound discrimination & auditory processing speed, correct speech sound production, articulatory defective 3rd graders, 8296
extent & selectivity, impairment in semantic-lexical vs phoneme discrimination, right brain damaged patients, 8323
fundamental frequency & level, categorical vs continuous labeling & discrimination & repetition, college students, 9523
grammatical category & syllabic structure & phonemic characteristics of neologisms & paraphasias, 46 yr old female aphasic, 10714
Hebrew words written with correct vs incorrect vs no vowel signs, RT to name word, college students, 9979
higher order units determined from grapheme-phoneme correspondences, reading instruction, 11178
insertion of artificial phoneme or nonphoneme in short sentences, perception of slips of tongue, college students with normal hearing & mean age of 23 yrs, 9532
instructions to increase memory encoding distinctiveness & word frequency, word recognition, college students, 457
internal representation of target, sequences of phonemic approximations to single target, Ss with Broca's vs conduction vs Wernicke's aphasia, 8336
knowledge of orthography, conceptualization of phonemic structure of words, 4th graders, 5486
lesion site, phonemic vs lexical errors, fluent aphasics with mean age of 57.4 yrs, 13084
listener discrimination in similarity of paired dyadic phonemes, college students, relevance of N. Chomsky & H. Halle's distinctive feature system to listener speech processing, 5435
minimal word pair orientation to teaching distinctive features, sound substitutions, 5.3–6.6 yr olds with phonological disabilities, 10958
phoneme processing & production disturbances vs general auditory comprehension disorders, aphasic patients, 8350
phonemic similarity & syllable position, phonemic speech & order errors in short term memory, college students, 7139
phonetic disintegration & faculty phonetic realization, problems in motor implementation & internal phonemic representation, male motor aphasics, 8366
phonological analysis of spontaneous speech, 3–6 yr old Down's syndrome children, 6090
pitch as phonemic cue in auditory memory, college students, implications for speech perception, 404
prior biasing context, lexical ambiguity of phonemes, college students, replication & extension of study of D. A. Swinney & D. T. Hakes, 5422
semantically related vs nonrelated preceding verb, speed of lexical access to words beginning with target phoneme, college students, 4975
visual presentation of letter sequences, immediate serial recall & phonemic similarity effect, college students, 11972
word predictability & phonetic similarity, detection of word-initial phoneme in spoken sentence, implications for word recognition theory, 7198
Phonetics [See Also Consonants, Morphemes, Phonemes, Syllables, Vowels, Words (Phonetic Units)]
acoustic attributes of speech, processing of phonetic feature information, college students, 7206
acoustic characteristics of digit names, perceptual center for Dutch digits & comparison with English data of S. M. Marcus, college students & faculty members, 7199
acoustic parameters vs tongue position, vowel quality, adult male native speakers of English, 3248
conceptual vs phonetic vs linguistic similarity of monosyllabic words, auditory free recall, male learning disabled vs normal 1st graders, 8276
interstimulus interval & word frequency & stimulus pair phonemic & semantic & graphemic relations, RTs in Kanji character matching task, college students, 7721
linguistic cue use in oral reading behavior, learning disabled children, 3879
orthographic structure & familiarity, word superiority effect in physical & phonetic & semantic & lexical decision tasks, criticism of findings of T. H. Carr et al, 4986
phonetically ambiguous pairs of words, listening comprehension & reproduction, college students, 2729
phonetic construction & word familiarity & word context & speaker & recording characteristics, intelligibility of words, 5427
phonetic cues in beginning spelling & parsing & pronunciation & reading, school age children, 10098
phonetic disintegration & faculty phonetic realization, problems in motor implementation & internal phonemic representation, male motor aphasics, 8366
phonetic distance, intelligibility of synthetic sentences, college students, 5421
phonological encoding, comprehension of meaningful vs meaningless sentences, 6–10 yr olds, 997
physical identification & phonetic classification of characters in English vs Hebrew alphabets, bilingual college students, 956
size & complexity & shape & density of geometric figures, matching pure tones to figures, college students, implications for universal phonetic symbolism, 11752
teaching methods, acquisition of phonetics & spelling, 5–7 yr olds, 4327
temporally distributed cues, consonant discrimination in VCV utterances, untrained college students vs trained listeners, 2721
vowel context & intervening stop consonant & formant transition in natural & synthetic speech, fricative perception, college students, 7202
Phonics
acceptance of psycholinguistic vs decoding approach & strategies for word attack, 8–9 yr old remedial vs nonremedial readers vs 6–7 yr olds, 9005
videotape reinforcement, phonics & mathematics performance, 1st graders, 11187
Phonology
assessment procedures, speech perception, children with phonological disorders, 10632
assessment procedures, speech perception, 3.1–9.9 yr olds with phonological disorders, 10633
Black vs standard American English background, phonological differences in consonantal development, Black vs White 4–5 yr olds, implications for articulation testing, 10101
cognitive processes & semantics & pragmatics & phonology & syntax, study of developmental language disorders, literature review, 6097
early phonological behavior, normal vs language disordered 2.6–3.6 yr olds, 3886
elements of phonation theory & mechanics, 4899
hemispheric asymmetry in lexical access & phonological encoding of visually presented words, 16–18 yr olds, 7432
individual differences, use of consonants during early phonological development, Ss aged 1 yr 4 mo–1 yr 10 mo, 5505
linguistic structure of sign language, literature review, 7728
listener agreement, detection of articulation errors of 4–5 yr olds, experienced listeners, 3366
meaningful minimal contrast treatment, final consonant deletion & fricative stoppage & fronting of velars, 4.3 & 4.8 yr olds with phonological disability, 10968
phoneme processing & production disturbances vs general auditory comprehension disorders, aphasic patients, 8350
phonological analysis of spontaneous speech, 3–6 yr old Down's syndrome children, 6090
phonological awareness & reading performance, 1st graders, 11235
phonological coding strategies, visual recognition of words vs nonwords, college students, 11906
phonological development & analysis of lexical errors, preschool age children, 10121
phonological errors, second language learning, college students, 3244
phonological vs semantic factors, phonemic discrimination ability, Wernicke vs Broca aphasics with mean age 56.5 yrs, 13072
phonology, theory validation & heterogeneity, literature review, 7720
phonology & semantics & syntax & pragmatic & language delay, language disabled children, literature review, 10631

quantitative vs nonquantitative criteria for phonological process analysis, reduction in identifiable processes, 3–13 yr olds with functional articulation problems, 4716
sex & words resembling vs not resembling color words, sorting by color in Stroop task version, 4998
speech production & perception & phonology, 9th International Congress of Phonetic Sciences, Denmark, 1979, 399
syntactic boundaries, alveolar flapping in speech production, college students & staff, 3240
systematic sound preferences, speech production, 3–5 yr olds with phonological disabilities, 10642
Phosphatases
ECT, erythrocyte adenosine triphosphatase activity, unipolar depressed patients, 8428
Phosphatides
repeated oral lecithin, serum choline & lecithin levels & amelioration of tardive dyskinesia, long-term schizophrenic inpatients, 13336
Phospholipids [See Phosphatides]
Photic Threshold [See Illumination, Visual Thresholds]
Photographs
ability to discriminate between mother's vs stranger's photographs, 3 mo olds, 10017
cerebral asymmetry in facial expression & emotional attribution, reply to P. Ekman's & C. A. Nelson's & F. D. Horowitz's & S. I. Spinrad's comments on study by H. A. Sackheim et al, 2973
facial expressions &/vs context, judgment of emotion in news magazine photographs, college students, 10363
frequency of photographs of psychologists in introductory psychology textbooks as index of eminence, 6604
matching black/white & silhouette photographs vs outline drawings with novel objects that could only be touched, male rhesus monkeys, 12079
optic array determinants, apparent distance & size in pictures, volunteers, 7163
original art vs photoreproduction, complexity preferences, 6–10 yr olds, 3322
photographic slides vs voice recordings, identification of height & weight of males vs females, college students, 9475
photographs of handicapped children vs verbal message vs charity identification, donations to charity, apartment dwellers, 5805
sex stereotyping of women, photographs in abnormal psychology textbooks, 2017
target distance & size & camouflage & relational congruity, single fixation photointerpretation of novel scene, college students, 346
traditional vs nontraditional test settings & line vs shaded drawings vs photographs & color vs black & white adjunct pictures in text, reading comprehension, public school vs college students, 11202
Photopic Stimulation
absolute sensitivity of optomotor neuron in 3rd optic ganglion to single photons, female blowflies, 12221
changing from one to another equiluminant foveally projected monochromatic vs heterochromatic light, amplitude & latency of momentary pupil constriction, male O, 398
direction & position of stimulus light displacement, displacement detection during saccadic eye movements, college students, 11803
eye closure & sudden disappearance of light, epileptic seizures, patients, 1621
flickering longwave adapting light, postreceptoral adaptation mechanism underlying transient tritanopia, Os, discussion in terms of E. N. Pugh & J. D. Mollon's model, 8346
frequency of flicker light stimulation, striate cortex neuron response, cats, 12217
intensity of chromatic light mixed with white light to form linear saturation curve, derivation of spectral sensitivity function, 11801
intensity of eliciting vs preliminary vs background noise stimuli, acoustic startle reflex amplitude, male rats, 7562
intensity of peripheral retina stimulation, spectral sensitivity during cone-plateau & dark-adapted states, 2709
monochromatic vs bichromatic wavelength combinations, dichoptic summation, color normal vs dichromatic Ss, 9514
pigmentation & light deprivation, light reactivity, mice, 7425
pigment bleaching, fluctuations of outer segment current in rod photoreceptors, toads, 5221
presence vs absence of retinal & extraretinal photoreceptors, light responses & entrainment of circadian locomotor activity rhythms, lake chubs, 7604
proportion & intensity of chromatic light, measurement of saturation of white & chromatic light, 11773
retinal locus, detection vs resolution thresholds under photopic vs scotopic conditions, 9501
variation in macular pigmentation & stimulus eccentricity from fovea, short wavelength spectral sensitivity during cone-plateau period of long term dark adaptation curve, 392
visual thresholds during dark adaptation, Black vs White male undergraduates, 385
Photoreceptors [See Also Cones (Eye), Rods (Eye)]
acquisition of associative behavior change, membrane depolarization, mollusks, 9752
circadian clocks, ommatidial structural changes & visual acuity vs sensitivity, horseshoe crabs, 7392
extraocular photoreception on genitalia, Chinese yellow swallowtail butterflies, 9753
flickering longwave adapting light, postreceptoral adaptation mechanism underlying transient tritanopia, Os, discussion in terms of E. N. Pugh & J. D. Mollon's model, 8346
light & rotation, modification of photopositive behavior, mollusk, 552
mechanisms mediating pattern vs light masking, photoreceptor sensory codes vs neural loci, 11787
moving & grating stimulation & receptive field organization of tectal neurons, pigeons, 5212
mutations involving photoreceptors, mating success, drosophila melanogaster, 684
paired vs random presentation of light vs rotation, change in response latencies, mollusks, 9764
preferential response to objects which move vertically by retinal amacrine cells, catfish, 9786
presence vs absence of retinal & extraretinal photoreceptors, light responses & entrainment of circadian locomotor activity rhythms, lake chubs, 7604
resonance Raman spectroscopy, photoisomerization of bound retinal chromophore of rhodopsin as primary event in vision, 11800
Phrases
cognitive development, understanding of conditional phrases, 5–11 yr olds, France, 7819
computer program, theory of 1st language acquisition & English phrase structure, 7730
contextual theme & topicalization of subject or object in active vs passive sentences, 8.5 vs 9.6 yr olds vs adults, 7815
linguistic marking of anaphor & antecedent, sentence comprehension, college students, 9989
motor enactment vs imagination vs viewing of demonstration vs no cues, memory for action phrase, students, 7249
Phrenic Nerve [See Spinal Nerves]
Physical Agility [See Also Physical Dexterity]
strength & balance & kinesthesis & flexibility & rhythm & motor ability, female dancers vs gymnasts vs athletes vs untrained Ss, 7506
Physical Attractiveness
attractiveness manipulation of stimulus person, halo effect in personality trait ascription & attraction, 16–56 yr old Ss, 12826
client age & physical attractiveness & good vs bad in-session behavior, counselor perceptions of client attractiveness, college students, 8441
degree of concurrence, subjective vs objective ratings of physical attractiveness, college students, 12811
degree of expertness & attractiveness of & type of argument from source, attribution of personality traits, female college students, 3646
demographic characteristics & employment experience & university status, perceptions of personal appearance in job acquisition & retention & promotion, college students, 10196
desirable vs undesirable first name on photograph, physical attractiveness ratings, college students, 3634
direct vs indirect & positive vs negative communications & expressions given, actual vs perceived peer appraisal, male vs female 4th–8th graders, 1060
forced attention to specific applicant qualifications, sex & physical attractiveness bias in hiring, college students, 2225
head shape of infants, perception of cuteness, college students, 12782
helpers' physical attractiveness & expectations for future interaction, help seeking behavior, female college students, 5817
help requester with unsightly appearance, helping behavior of passersby, individuals stopped on busy street, 12787
medical diagnosis & physical attractiveness, reactions to patients who complain of pain, nursing students, 11083

observation of audio &/vs videotape vs in-vivo contact, ratings of counselor attractiveness & technical skill & social competence, college students, replication of study by T. F. Cash et al, 1940
orthodontic treatment & physical attractiveness, interpersonal attraction, college students, 12769
physical attractiveness, courtship progress, couples, 9-mo followup, 5779
physical attractiveness, marital adjustment, 64–86 yr old spouses, 3542
physical attractiveness, personality judgments, college students, 12812
physical attractiveness & approach vs avoidance response to self awareness stimuli, college students, 5874
physical attractiveness & educational attainment & occupational prestige, 1953 male college students, 12887
physical attractiveness & sex role congruence, interpersonal attraction, male vs female college students, 12825
positive vs negative affect-provoking music & photographs of attractive vs unattractive males, evaluation of personal character & attraction, female college students, 10353
potential dating partner's physical attractiveness & social status & self presentation, interpersonal attraction, male vs female Ss, 5776
self ratings of attractiveness to opposite sex, perceptions of sex differences in ability to attract love mates, female vs male college students, 3654
sex & attractiveness & content of self disclosures, perception & evaluation of disclosing Ss, college students, 1272
sex differences & victim's provocativeness & physical attractiveness & respectability, attribution of responsibility to rape victim & length of sentence recommended for rapist, graduate students, 8044
sex of viewer vs viewed, recognition & attractiveness rating of Canadian vs British faces, males vs females, Canada, 12816
Ss' race & physical attractiveness, White raters' evaluations of Ss' essays, Black vs White males, 5812
stability of body attitudes & self esteem, college students in physical education classes, 10178
student attractiveness, name popularity, perceptions of social & academic attributes, student teachers, 8053
student physical attractiveness vs grades vs ability ratings by teachers vs test scores, male vs female 6th–8th graders & 10th grade males, 13624
subjective stress during maintained eye contact with opposite sex partner in interpersonal experiment, male vs female Ss, 12755
Physical Development [See Also Motor Development, Prenatal Development, Psychomotor Development, Sexual Development, Speech Development]
accuracy & speed of bimanual integration for kinesthetic & somesthetic & motor functions, 9.5 yr old male & 17 yr old sister with corpus callosum agenesis, 8369
age & background conditions, sensitivity of response & maximum response size of electroretinographic stimulus/response curves from developing retina, 10 day old through adult rats, 7452
age differences, frequency composition of EEG & normal development of electrical activity in brain, 5–12 yr olds, 10007
age & sex differences, brain lateralization, kindergartners vs 6th graders, 3306
age & sex & throwing arm, accuracy of throwing task, preschoolers, implications for structural development theories of Piaget & R. Schmidt, 980
brain functions & development, biological bases of thought & language & reading, children, 9763
chlorpromazine & metabolites crossing placenta to act on fetus, cell proliferation in developing brain, rats, implications for humans, 7679
cholinergic & cholinomimetic & cholinergic blocking drugs, ontogeny & potentiation of cholinergically mediated yawning & head shaking, 4–12 day old rats, 892
cochlear development & electrophysiological determinants of deafness, "deafness" strain of mice, 7421
deviations in developmental equations for EEG recordings, brain dysfunctions, 6–16 yr olds with learning disabilities & at risk for neurological disorders, 10404
dorsomedial hypothalamic lesions at weaning & bilateral ovariectomy after maturity, body weight & food intake & efficiency of food utilization & growth & glucose incorporation into lipids, rats, 9879
fetal development & mortality & height & weight development through age 12, children of mothers refused legal abortion, 7742
genetic influences & developmental correlates, academic learning difficulties, identical vs fraternal twins, 6081
intergenerational vs postnatal malnutrition, growth & home-orienting behavior & survival rates, rat pups, 9842
kanamycin & exposure to intense auditory stimulus during critical neural development, cochlear hair cell damage, various mice strains differentially susceptible to priming-induced audiogenic seizures, 815
language & biological & cognitive & personality development & social experience, 12462
mechanisms that affect human growth, literature review, 7748
minor physical anomalies & obstetrical history & newborn dopamine-beta-hydroxylase, irritability & unsociable response & activity levels, infants at 5 mo & 1 yr, 12468
morphological measurement of growth patterns, female gymnasts, Canada, 978
need for standards of weight change measurement, children in weight reduction clinic, 11572
nervous system development, mechanisms in reduction in number of synapses, 5230
nonorganic failure to thrive, infants & children, annotated bibliography, 6174
perceived vs actual genetic similarity, co-twin differences in cognitive & personality & physical development, monozygotic & heterozygotic same-sex twin pairs, methodological implications, 979
phencyclidine administered through gestation, gestation & maternal behavior & characteristics of pups, female mice & their offspring, 3173
physical & intellectual & personality development vs age-based stereotyping, adults, implications for helpers, 3279
plasma testosterone level & physical dimensions, physical & verbal aggression & frustration tolerance, 15–17 yr old males, 5290
postmoult behavior, water-stick insects, 5250
postnatal ethanol administration, brain growth & motor coordination, infant rat pups, 877
protein malnutrition, physical development & learning ability, rats, 12304
RT & hemispheric asymmetry in dichotic listening, 10 yr old male & 18 yr old female with callosal agenesis, 8340
sex differences, growth of sympathetic axons into denervated hippocampal regions following medial septal nucleus lesions, rats, 844
soft signs of neurological damage & minor physical anomalies & gross motor coordination, 8.3–12.9 yr old males in residential treatment center, 13140
somatic & psychological growth, 11 & 14 yr olds, Turkey, 975
strain & individual differences, developmental period for cardiovascular system, Bailey recombinant inbred vs progenitor strains of mice, 681
surgical uni- vs bilateral eyelid closure at time of natural eye opening, postnatal development of visual cortex synapses, 10 day old cats, 9905
transient neonatal symptoms, later intellectual & behavioral functioning, male vs female 10–11.9 yr olds, 12464
validity of self administered questionnaire, assessment of stages of pubertal development, 12–16 yr olds, 202
Physical Dexterity
measurement of dexterity with test vs interviewer judgment vs verbal responses, 73
right vs left hand dexterity, 3–7 yr olds with developmental apraxia of speech, 6101
standardization of Minnesota Rate of Manipulation Test & Hayes Peg Board task, personnel selection for packing section in soap factory, 7097
Physical Disfigurement
family coping with diagnosis & child's self image & self experience & parents' marriage, adolescents with hydrocephalus & spina bifida, 13150
handicaps including acne & obesity & birthmarks, sexuality, 3934
presence of stoma, marital & sexual adaptation & problems, ileostomy patients, 3894
psychodynamic study of 8–14 yr old leprosy patients, 8311
Physical Divisions (Geographic) [See Geography]
Physical Education
adapted physical activity program, learning disabled children, 8990
individualized physical activity, fine & gross motor skills & self concept & risk-taking behavior, developmentally disabled children, 11304

initial perceptions of handicapped children, regular class physical education teachers, 8824
pairing with nonretarded students & teacher praise for motor skill performance vs social interaction, social interaction, trainable mentally retarded 12.6–14.8 yr olds, 9040
reliability of 16PF for use in physical education & sports research, criticism of conclusions of J. J. Gruber, 2445
theoretical foundations of psychological education, physical education teachers & coaches, 8834
training in goal setting & intraindividual performance feedback in physical education, goal-setting behavior & achievement motivation, 5th graders, 8883
weight training & basketball programs, basketball skills, male 7th graders, 4302
yoga & motor activities, concentration performance, children with learning disabilities, 2155
Physical Endurance
competition & trait anxiety, state anxiety & muscular strength & endurance task performance, 18–22 yr old males, implications for social facilitation in sports competition, 1236
extraversion & neuroticism & muscle tonus & pulse frequency, continuous performance task, 20–26 yr old male endurance athletes, 5283
interpersonal relations between individuals & couples, volitional effort in isometric contraction of upper limb, sports group members, 5275
model similarity & self efficacy statements, O efficacy expectations & muscular endurance, female college students, 3635
Physical Exercise [See Exercise]
Physical Fitness
adapted physical activity program, learning disabled children, 8990
contact & lottery procedures, attendance & fitness in aerobic exercise groups, female college students, 8009
integration of physical fitness techniques into psychiatric hospital program, patients, 13411
military psychology, symposium proceedings, 11062
neurotic illness & preoccupation with physical fitness, 40 yr old males, 3804
physical activity, sleep, literature review, 3032
physical conditioning, preferred work load level & performance on bicycle ergometer, female soccer players, 2642
physical fitness & field independence, male vs female 4th–6th graders, 971
stimulus control & self reinforcement procedures, acquisition & maintenance of exercise program, overweight 47–56 yr old males, 1797
strength & balance & kinesthesis & flexibility & rhythm & motor ability, female dancers vs gymnasts vs athletes vs untrained Ss, 7506
weight training & basketball programs, basketball skills, male 7th graders, 4302
Physical Geography [See Geography]
Physical Growth [See Physical Development]
Physical Handicaps (Attit Toward)
age & sex differences, recognition & acceptance of physical disabilities, 3–4 vs 4–6 yr olds, 10180
assessment of attitudes toward crippled & mentally retarded & mentally ill, 3rd & 6th graders, implications for social labeling theory of mental disorders, 1099
attitudes toward & preference to work with physically handicapped vs nonhandicapped, vocational rehabilitation counseling graduate students, 1969
description of cerebral palsy social clubs, marriage & sexual adjustments & attitudes toward disability, people with cerebral palsy, 3923
mentioning disability in different contexts, desirability of interaction with physically disabled person, female college students, 10312
minimal descriptions of able bodied vs liked able bodied vs physically disabled people, personal & attitudinal traits ascribed to people, college students, 3664
severe physical handicaps, helping behavior, college students, 6175
subjective role taking ability, age differences in reactions to physically disabled, review of methodological inadequacies of past research, 5577
Physical Strength
color differences in visual stimulation, leg strength, male students, 7415
competition & trait anxiety, state anxiety & muscular strength & endurance task performance, 18–22 yr old males, implications for social facilitation in sports competition, 1236
duration of mental preparation period, performance on leg strength test, college students, 9612
strength & balance & kinesthesis & flexibility & rhythm & motor ability, female dancers vs gymnasts vs athletes vs untrained Ss, 7506
Physical Therapists
symptomatology & etiological theories of conversion reactions, proneness of people with hysterical personalities, implications for physical therapist referrals, 1455
Physical Therapy
lack of evidence for therapeutic effect, patterning treatment for brain damaged & retarded children, 10795
physiotherapy, patients with emotionally conditioned psychosomatic disorders, 1649
Physical Trauma [See Injuries]
Physical Treatment Methods [See Also Adrenalectomy, Amputation, Castration, Catheterization, Colostomy, Decerebration, Decortication (Brain), Dental Surgery, Dental Treatment, Dialysis, Heart Surgery, Hemispherectomy, Hemodialysis, Hypophysectomy, Hysterectomy, Induced Abortion, Male Castration, Mastectomy, Medical Treatment (General), Neurosurgery, Organ Transplantation, Ovariectomy, Psychosurgery, Surgery, Sympathectomy, Vagotomy]
development & validation of analytic training program, medical suturing, medical students, 2041
electroejaculation, fertility, paraplegic males, 4114
physical & social treatment approaches, schizophrenia, literature review, 8181
transcutaneous electrical neurostimulation, physical & social interaction & pain behavior & treatment response, pain patients, 8412
vasodilation, treatment for peripheral vasospasms, 18–41 yr old patients with Raynaud's disease, 4-mo followup, 8391
Physically Handicapped [See Also Health Impaired]
artificial insemination with husband or donor's semen, physically handicapped, 4115
burden of dependency & aspects of disabled role, physically disabled females, 10729
cognitive & intelligence development, physically handicapped children, implications for intelligence measurement, 10649
discussion of cognitive assessment practices, physically handicapped infants, 7070
evaluation centers & workshop settings, initial social adaptation, retarded & mentally ill & physically handicapped adults, 8728
family dynamics, success of physical rehabilitation, 8744
intelligence measured by Revised Beta Examination vs Peabody Picture Vocabulary Test, 15–20 yr old disabled students, 2456
level of motor impairment, visual perception test performance, physically handicapped children, 2551
mentioning disability in different contexts, desirability of interaction with physically disabled person, female college students, 10312
mild vs severe childhood head vs orthopedic injuries, course of psychological recovery & extent & nature of resulting cognitive vs behavioral impairment, children, followup study, 13148
minimal descriptions of able bodied vs liked able bodied vs physically disabled people, personal & attitudinal traits ascribed to people, college students, 3664
model for career development program, severely physically disabled youth, 4491
neuropsychological diagnosis & teacher knowledge of biological defects, student academic achievement & teacher efficacy, teachers of impaired children, criticism of H. B. Reed's study, 8826
personality in relation to disease, adolescents & children with diabetes & hemophilia & physical handicaps, 10736
popularity with peers & social interaction revealed in "present" game, 4–9 yr olds in physically handicapped ward, 11015
regression equation for prediction of Wechsler Memory Scale visual reproduction subtest scores, geriatric patients with visual or manual dexterity handicaps, 2471
reliability of psychological intake evaluation for rehabilitation medicine service, measurement of mental status & personality & adjustment, physically disabled adults, 2508
self modeling with video replay & cash rewards, workshop productivity, physically handicapped, 8723
sex aids, sexual dysfunction & physical disability, 4117
sexual awareness & desire for sex education, spastic & mentally retarded further education students, 4379
spatial arrangement considerations, construction of communication board, physically handicapped, 6964
Physically Ill Patients [See Patients]
Physician Patient Interaction [See Therapeutic Processes]

Physicians [See Also General Practitioners, Pediatricians, Psychiatrists]
advance knowledge of correct diagnosis, probability estimates of 4 diagnoses & prediction of accuracy, physicians, 3945
agreement with colleagues, recommendations for drug therapy & diagnostic tests, cardiologists vs psychiatrists, 8793
classification of abnormal treatment behavior, physicians, implications from T. Pilowsky's classification of abnormal illness behavior, 8797
death education course completion vs lack of death course, attitudes toward dying patients, physicians, 4219
diagnosis & treatment, mental health problems, primary care physicians, 4119
drug abuse prevalence, male vs female medical residents, India, 13049
legal guardianship for medication against psychiatric patient's will, ethical dilemma, physicians, 6565
MMPI profiles, physicians hospitalized in psychiatric institution vs drug treatment center vs healthy physicians, 1367
responses to Opinions About Mental Illness Scale, medical practitioners, 11098
sensitivity to bodily nonverbal communication, practitioner-patient rapport, physicians & their patients, 1638
sex role stereotyped attitudes toward women patients, physicians, 1894
suggestions for physician's informative advice to parents of Down's syndrome infants, 6582
Physics
application of natural principle of energy conservation, psychic energy, 11553
nature of comprehension, application to teaching physics, 4981
set of computer-implemented models, solution of physics problems in ways characteristic of more & less competent human solvers, 11589
Physiological Aging
age changes, growth in amplitude of acoustic reflex, 20–79 yr olds, implications for decrease in stapedius muscle contractions, 1040
age differences, fear of aging, adults, 3280
aging, performance on memory & localization components of Tactual Performance Test, 50–62 & 67–86 yr olds, 7773
aging, suicidal behavior, cohort vs maturational explanations, 8222
aging & depression & probenecid administration, amino acid concentrations in cerebrospinal fluid, depressed patients, 6385
aging effects on dopaminergic receptors coupled to formation of cyclic adenosine monophosphate, rats, 7475
application of mental health concepts & criteria, youth vs aged, 7741
argument against standard clinical methods of evaluation of mental & physical condition & support for oral history techniques, aged patients, 13369
auditory processing & speech discrimination & hearing problems, aged, literature review, 9524
biographical determinants & individual differences, processes of aging & aging status, aged, 7753
biographical variables, coping style in facing finitude of human life, aged, 7746
biographical variables, perceived aging experiences, never married females vs long time widows, 7747
biological aspects, premature aging, 674
biological & family changes & personality differences, divorce in involutional period, married couples in their 50s & 60s, 1151
CA & mental health characteristics, acceptance of old age, 52–92 yr olds, 7744
changes in sensory organs & CNS, interpersonal communication, aged, 974
construction of inventory for measurement of attitudes toward aging & relationship to demographic variables, 17–48 yr olds, 11687
development of Aging Opinion Survey, gerontology practitioners & students, 7068
genotype, life span changes in electrophysiological vs behavioral auditory thresholds & cochlear hair cell & hearing loss, 2 strains of mice, 5256
hearing ability for speech & pure tones, secondarily hearing impaired 65–91 yr olds, 1595
personal & social variables, awareness of finality of human life, aged, 3275
process of habituation, model of human aging, 12461
social work & aging, review of social work journals, 1971–74, 8666
Physiological Arousal
activation level measured by bioelectrical skin reactivity & Thayer's Activation-Deactivation Adjective Check List, short term memory performance, college students, 3041
alcohol & expectancy of alcohol, physiological & behavioral & subjective responses in stressful situation, male social drinkers, methodological implications, 9919
arousal as determinant of aesthetic preference, 5060
arousal & chlorpromazine & acoustic intensity & report by right vs left ear, recall of dichotically presented digit strings, 46 yr old male chronic schizophrenics, 5956
arousal inducement through behavioral task & dextroamphetamine, gains in horizontal vestibullo-ocular reflex, male rhesus monkeys, 12358
assessment potential & limitations of continuous self report by cognitive lever, genital response to erotic stimulation, male & female college students, 11612
attributed arousal & duration of effect of pills & positive vs negative intelligence test feedback, attitude toward test & reports about effects of pills, male 13–17 yr olds, 5452
audience & task- vs ego-oriented motivational instructions, short term memory & arousal as measured by GSR, students, 11990
autonomic arousal, development & persistence & treatment of anxiety states, 6213
avoidance conditioning vs maze learning vs aggressive vs nonaggressive learning tasks, open field activity, male mice, 12048
basal skin conductance vs spontaneous autonomic activity, mentally retarded vs normal children & adolescents, 8228
behavioral treatment, sleeplessness & resting pulse, chronic psychotics, implications for clinical intervention with poor prognosis psychotics & 2-factor model of arousal disorder, 13284
bilateral EEG biofeedback, verbal & visual spatial & creative skills, learning disabled male adolescents, 1778
caffeine induced arousal, verbal test performance, introverted vs extraverted college students, 10371
choice of stimulus rate & self reports vs actual physiological arousal during achievement situation, male vs female Type A vs Type B college students, 762
conceptional age differences, observable behavior during neurological examination, premature infants of conceptual age 29–40 wks, 9997
conflicting motives induced by intellectual performance stress, alcohol consumption, male college students, 1209
construction of Day-to-Day Stress Scale, prediction of physiological arousal from habitual subjective arousal, male vs female college students, 168
crowding with physical contact vs uncrowded environment, physiological & cognitive & nonverbal responses, male college students, 10318
dextroamphetamine small vs moderate doses, hunger & mood & arousal, 22–32 yr old females, 7657
dextroamphetamine vs diazepam vs placebo, drug preference & mood, 21–32 yr olds, 12374
dextroamphetamine vs placebo, drug preference & mood, 21–32 yr olds, 12375
differences in cortical arousal & sensory thresholds & reactions to stimulation, physiological theory of creativity as response to stimulation, 3670
discriminative properties of conditioned stimulus, stuttering frequency & autonomic arousal as measured by GSR, stutterers, 1888
dishabituated visual & auditory stimuli in conditioning paradigm, latency of evoked EMG & head movements & visual cortex responses, cats, 12325
effort required to control aversive event, anxiety & physiological arousal associated with event, male college students, 5064
EMG biofeedback training, control of arousal in stressful situation, college students, 776
EMG biofeedback training & threat of shock, frontal EMG levels & extent of worry & perceived painfulness of shock & physiological arousal & self report of arousal, college students, 7526
erotic vs nonerotic auditory stimulation vs self generated fantasy, affective & physiological responses during sexual arousal, 19–63 yr old males, 7536
evaluation apprehension instructions vs negative feedback, heart rate while rating series of photographs, college students, implications for E expectancy effects, 6966
experimental arousal, individual differences in extraversion & story recall, Ss admitted for clinical psychological assessment, replication of findings of P. N. Johnson-Laird & R. Stevenson, 11728

experimental curricular intervention for countering TV violence effects, perceived reality, arousal & aggression responses, 6th graders, 13563
factor analysis, paralinguistic & analytical content & physiological & subjective arousal & emotionality & extraversion during presentation of speech, 7550
failure of effort under conditions of over- vs underactivation or arousal, stress, 3052
feedback vs no assistance vs relaxation, lowering of heart rate following arousal task, 19–30 yr old males, 12265
handled vs enriched environment, arousal & barpressing in presence of free food, rats, 9655
hyperstriatal/hippocampal brain damage, discriminatory approach to auditory stimulation, guinea fowl, 5344
hypophysectomy, behavioral activation to morphine, adult male rats, 795
hypoxia & sensory deprivation, psychophysiological changes, high vs low reactive 18–24 yr old males, 12267
increase in arousal after extinction of fear response, disinhibition, dogs, 7326
individual differences in physiological arousal, picture vocabulary performance, learning disabled 7th & 8th graders, 1538
induced cognitive stress & arousal, palmar skin potential level as index of relaxation speed, smokers vs nonsmokers, 3042
induced stress & imipramine, plasma imipramine levels vs liver demethylase activity, male rats, 12381
instructed vs skin conductance feedback-assisted relaxation, peripheral & physiological activity & verbal reports of tension, 18–28 yr olds, 7547
internal vs external locus of control, self interpretation of anxiety & test performance, college students, 10390
level of achievement demands, dissociation of sympathetic- & pituitary-adrenal arousal, Type A vs Type B male vs female college students, 7531
locomotor activity & somatosensory orientation & EEG arousal, C57BL/6 vs DBA/2 male mice, 5196
monotonous vigilance vs various undemanding vs self paced RT vs color-word conflict tasks vs non-engaging movie, adrenal & noradrenaline & cortisol excretion levels & distress & effort, 18–34 yr old college students, 9818
music with vs without verbal suggestion vs silence, heart rate & self reported arousal, graduate music students, 5269
nasal marking in response to novel olfactory stimuli & role of arousal, squirrel monkey groups, 752
need for social approval & physiological arousal during initial interpersonal encounters, 12752
neutral vs emotionally loaded visual stimulation, GSR & respiration, male patients with dominant vs nondominant hemisphere damage & median ages of 60.8 vs 49.1 yrs, 13133
noise distraction & autonomic responsivity & RT, smokers vs nonsmokers, 3043
parental emotional attachments & arousal processes, response to fearful TV stimuli, school age children, 7743
perceptual motor learning in presence of evaluative audience, arousal as measured by heart rate & palmar sweat print, junior high school males, 5258
physical vs cognitive arousers during rote learning, performance level & physiological indices, Ss, 11945
physiological vs behavioral vs cognitive anxiety response channels, clinical vs analogue populations, literature review, 9293
polygraph deception vs truthfulness, detection of lying Ss through skin conductance responses to & recall of relevant vs control questions, male college students, 3055
prenatal narcotic addiction, behavioral concomitants including mental & psychomotor development & irritability of CNS, neonates, 3- & 6- & 12-mo followups, 6054
presence of another individual vs evaluation apprehension, behavioral performance on hidden word task & measure of autonomic arousal, college students, 1257
presentation of novel stimuli, magnitude of arousal & cardiac & ventilatory changes & their habituation, goldfish, 744
progressive vs self induced relaxation training, subjective & autonomic arousal to fearful stimuli, college students, 1786
psychophysiological reactions to neutral vs erotic film, males with psychogenic erectile failure vs premature ejaculation vs impotence, 13118
psychoticism & neuroticism, covariation patterns of 2-flash threshold & autonomic arousal at low range of arousal, male college students, 5292
Rabbinic view of regulation of consciousness, attention & awareness as pertaining to meditative prayer, 2817
rational emotive therapy, skin conductance & test anxiety, college students, 10798
reactivity & situational level of activation, use of defense mechanisms, female college students, 12859
relaxation instructions & EMG biofeedback & threat of shock, frontal EMG & arousal, college students, 9807
reserpine, phasic vs tonic electrocortical arousal, cats, 3065
self control desensitization therapy vs rational restructuring treatment, interpersonal anxiety, males vs females with strong vs weak physiological reactivity & automatic perception, 8555
skin conductance response recovery time & onset & offset angles, mentally retarded vs normal children & adolescents, 8229
stimulus duration & expectations & threat of shock & white noise, phasic arousal & visual vigilance, male college students, 2822
stressful situations, physiological arousal & hyperventilation, normal 21–51 yr olds, 7532
time of day, retrieval from long term memory, adult females, 5037
trait anxiety & induced arousal, 2-flash threshold, schizophrenic 22–30 yr olds, 5939
understimulation vs overstimulation, adrenal-medullary & adrenal-cortical responses, Type A vs Type B college students, 775

Physiological Correlates

analysis & generalization of word meanings, EEG & EMG & RT & eye movements, adult Ss, 3049
behavioral & physiological & cognitive factors in smoking, limitations of current research & treatment, 6530
blood pressure & heart rate & body temperature & nasal airflow & respiration rate correlates of olfactory sensitivity changes during menstrual cycle, 18–37 yr old females, 12248
causes & coping strategies & relationship to personality traits & physiological states, boredom, literature review, 1926 to present, 7278
cognitive set of lability vs stability, psychological & physiological parameters of psychological stress, Ss, 7549
computer based laboratory facilities, experimental research on physiological correlates of paranormal processes, 4
cortisol & ACTH levels, affective & cognitive & biological impairments, Cushing's syndrome patients, 10734
development of assessment procedures, measurement of psychophysiological reactions to stress, college students & male stress patients, 7527
development of screening procedure involving biographical & personality & physiological data, prediction of performance under sickness inducing motion, seamen, 4528
EEG alpha & theta & delta rhythm activity of right vs left occipital sites during melody detection task, right handed musically naive 17–43 yr olds, 7500
excretion of xanthurenic acid in urine, depressed vs anxious vs alcoholic psychiatric patients, 1438
inactivity vs strenuous mental work, catecholamine & cortisol excretion & heart rate, Type A vs Type B male college students, 763
kinesthetic & visual stimuli vs verbal instructions, performance times for addition exercise & accompanying automatic responses, 4–5 vs 6–7 yr olds, 12477
light & rotation, modification of photopositive behavior, mollusk, 552
local & central physiological adjustments, differential perceptions of leg & chest exertion during submaximal cycle ergometer exercise, male college students, 2668
maternal separation & disruption of attachment, behavioral & physiological changes indicative of depression, macaque monkey infants, 660
methods for description & measurement of physiology of aggression, animals, literature review, 12180
muscle tone & changes in autonomic balance, cognitive style, 17 yr old students, 3289
oxprenolol vs metaproterenol & induced anger vs neutral situation, heart rate & blood pressure & GSR & bodily & emotional state, male college students, 881
perceptual & physiological abnormalities, early onset psychosis, literature review, 3787
periods of inactivity vs strenuous mental work, catecholamine & cortisol excretion & heart rate, Type A vs B male college students, 1315
personality traits, physiological correlates, athletes, 12848
physiological & biochemical & genetic factors, personality development, 3454

physiological correlates of pilot attention & task difficulty, development of flight simulation training programs, 6829
physiological & psychiatric assessment, pulse rate & hours of sleep & frequency of crying, institutionalized mentally retarded 6–50 yr old with self injurious behavior, 8252
physiologic mechanisms in animal models of "sudden death", 2367
platelet MAO activity, nonbipolar depression, 21–71 yr old psychiatric inpatients, 1416
psychological aspects of REM sleep dreams, brain activation during REM sleep, adults, implications for activation-synthesis hypothesis, 7412
psychophysiological correlates, agitated & depressed psychiatric patients, 1447
psychophysiological profile & biofeedback & relaxation training, stress management, 10862
psychoticism & neuroticism, covariation patterns of 2-flash threshold & autonomic arousal at low range of arousal, male college students, 5292
role conflict, physiological & affective & performance variables, 20–48 yr old female nurses in simulated hospital experience, 2030
role of brain protein synthesis in memory formation, criticism of P. E. Gold & D. B. Sternberg's work by L. R. Squire et al & rebuttal, 3054
supervised exercise program, physiological & psychological variables, Type A vs B 25–61 yr olds, 5270
technical & physiological considerations, obtaining EEGs, aged, 5211
testosterone injection, social displays & sexual behavior & hormone plasma level, male ducks, 12346
validity of revised Autonomic Perception Questionnaire, prediction of physiological response to stressful stimuli & psychosomatic disorders, college students, 212
water deprivation, behavioral & physiological functions, Harderian-nectomized vs intact male gerbils, 7580
Physiological Psychology [See Neuropsychology]
Physiological Stress
acquisition & extinction of conditioned avoidance & maze learning employing fear vs reward motivation, plasma alpha-melanotropin levels, male rats, 755
chlordiazepoxide with morphine vs cold water swims, change in jump thresholds, rats, 3142
components of stress inoculation, pain tolerance, college students, 6342
decapitation &/vs immobilization stress, adaptation of peripheral neuroendocrine mechanisms of sympatho-adrenal system, Wistar-Kyoto vs Brown-Norway rat strains, 9845
effects of environmental stressors on human performance in continuous Army operations, 6794
fasting, restraint-induced gastric lesions, female rats, 7582
immobilization stress, impairment of macrophage tumoricidal function, male mice, 918
isometric & psychological & pain stress, blood pressure & heart rate & stroke volume & cardiac output & arginine vasopressin & renin concentrations, 16–65 yr olds, 769
mepacrine treatment before immobilization-induced desensitization, prevention of decrease in beta-adrenoceptors in hypothalamus & brain stem, male rats, 12409
morning vs afternoon immobilization stress, plasma & adrenal corticosterone & brain epinephrine & norepinephrine & dopamine levels, male rats, 9864
premorbid personality traits, development of unipolar depression, 13–74 yr olds, 1435
social & biological & psychological stress, elderly, 7749
social & physical stress, tumor growth, male mice, 7579
stimulus specificity, physiological response to stress, coronary prone vs noncoronary prone male college students, 5277
tailshock restraint & opportunity to gnaw, gastric lesions, male rats, 9848
transcendental meditation, reduction of encoded physiological stress, 13311
types of personal control, reactions to electric shock, male college students, 9809
Physiology [See Also Related Terms]
anatomy & physiology of binocular system, frog, 705
application of natural principle of energy conservation, psychic energy, 11553
computational method to extract surface slant & edge labels from optical flow velocity patterns, development of mathematical & physiological models & computer program, 53
haloperidol with vs without benztropine mesylate, regulation of prolactin response, 24–29 yr old males, 12365
integration of physiological & biological & neurological knowledge in training programs, special education teachers, criticism of H. B. Reed's study, 8832
monocular occlusion during early life, physiological effects & shift of cortical ocular dominance & recovery as measure of sensitive period of visual cortex, kittens, 836
physiological variables, psychological research, 67
psychological & physiological sex differences in human performance, bibliography, 10291
resonance Raman spectroscopy, photoisomerization of bound retinal chromophore of rhodopsin as primary event in vision, 11800
species differences vs dopamine vs MAO inhibitors, drug deamination vs sensitivity, adult humans vs nonhuman primates vs rodents, 12359
stress, carcinogenic process, literature review, 1620
theory of dreams focusing on behavioral & physiological adaptive value, 7509
Physiotherapy [See Physical Therapy]
Physique [See Also Body Height, Body Weight, Obesity, Underweight]
field dependence/independence & creativity & physiognomy, males vs females, 12838
personality factors & height & weight & chest circumference, sensation contours in response to whole-body vibration, 4895
physical & behavioral characteristics of child & parental attitudes & characteristics, parental perception of child & child's personality development, parents of identical twins, 5537
plasma testosterone level & physical dimensions, physical & verbal aggression & frustration tolerance, 15–17 yr old males, 5290
Physostigmine
apomorphine & biperiden & alpha-methylparatyrosine & physostigmine & muscimol & picrotoxin, haloperidol-induced dystonia, monkeys, 7625
cholinergic & cholinomimetic & cholinergic blocking drugs, ontogeny & potentiation of cholinergically mediated yawning & head shaking, 4–12 day old rats, 892
eserine & atropine & ether & pentobarbital, hippocampal EEG & evoked potentials & behavior, male rats, 5388
imipramine & physostigmine, REM sleep, male rats, 3177
intraventricular carbachol vs muscarine vs eserine vs neostigmine, affective aggressive behavior & autonomic & motor phenomena & convulsions, cats, implications for central cholinergic mechanisms, 5351
physostigmine, mood & behavior & elevations in plasma cortisol & beta-endorphin, normal volunteer Ss, 5402
physostigmine dosage, learning & memory, Alzheimer patients, 13315
physostigmine infusion, subsequent response to lithium, 21–31 yr old schizophrenics, 10918
physostigmine &/vs arecoline iv, memory, Alzheimer presenile dementia patients, 13323
symptoms & use of physostigmine in diagnosis & treatment, anticholinergic psychosis, 1842
Piaget (Jean)
discussion of Piaget's structural developmental psychology, function & knowledge, 5478
discussion of Piaget's structures of intelligence, 2321
flaws in research procedures of Piaget's work & reassessment of children's cognitive competence & performance in everyday environments, 10124
intellectual diagnostic procedure, testing Piaget's cognitive development theory, children, Chile, 12556
law of noncontradiction in thinking, preadolescents, criticism of Piaget's & Johnson's propositions, 7804
Piagetian theory of cognitive development, severely & profoundly mentally retarded, literature review, 8242
play in secular & religious education, Piaget's & M. Montessori's theories of play, 5550
problems in inference of competence from performance, criticism of Piaget's logical competence models, 5477
survey of people most important to post-World War II American psychology in terms of scientific & professional accomplishments, 6945
Piagetian Tasks
cerebral dominance, performance on tactile & unimanual Piagetian tasks for spatial & logical thinking, left vs right handed children, 2966

cerebral hemispheres, acquisition of conservation of length, right handed children, 3303
cognitive development, performance of Piagetian tasks, chimpanzees, 2927
conservation task performance, underestimation of cognitive development, 4–6 yr olds, replication of J. McGarrigle & M. Donaldson's study, 10034
experimental tasks of similar structure hypothesis of cognitive development, normal vs mentally retarded &/vs organically impaired Ss, implications for training of mentally retarded, 8282
formal operational proportionality tasks & concrete operational conservation tasks, assessment of knowledge, 3rd–12th graders & college students, 10103
operative level, hypothesis sampling, children & adults, literature review, 3326
Piagetian vs Bryant-type number conservation tasks, hierarchy of cues used in number conservation, 4–5 yr olds, 10110
Piaget's vs L. S. Siegel's vs other wording, performance on class inclusion question, 4–8 yr olds, 10059
place errors in Piagetian Stage IV tasks, literature review, 7810
right vs left hemisphere EEG during performance of Piagetian tasks, right handed 6–8 yr olds, 10071
spatial model vs Piagetian approach to cognitive development, preschool age children, 3329
spatial task training, performance on Piagetian spatial task, 1st & 2nd vs 3rd & 4th graders, 8-mo longitudinal study, 12474
stability of Piagetian scales for object permanence & spatial relationships, severely & profoundly mentally retarded children, 7099

Pica
behavior modification, pica, Black lead poisoned female 2 yr olds, 13292

Picketing [See Social Demonstrations]

Picrotoxin
apomorphine & biperiden & alpha-methylparatyrosine & physostigmine & muscimol & picrotoxin, haloperidol-induced dystonia, monkeys, 7625
bicuculline vs picrotoxin vs strychnine vs morphine vs aminooxyacetic acid vs 3-mercaptopropionate vs thiosemicarbazide, di-n-propylacetate-induced abstinence behavior, male rats, 12353
GABA & picrotoxin & clonidine & morphine & cyproheptadine, locomotor activity & gross behavior, male rats & mice & rabbits, 5406
injection of GABA antagonists picrotoxin & bicuculline & agonist mucimol & benzodiazepines into raphe nucleus, control of serotonin neurons, male rats, 9931
picrotoxin injections into ventral tegmentum followed by GABA injections into globus pallidus, locomotor activity, male rats, 910

Pictorial Stimuli
ability to perceive linguistic ambiguities & correlation with ability to perceive pictorial ambiguities, 1st vs 3rd vs 5th vs 8th graders, 1015
accuracy of verbal description vs "Photofit" constructed likeness of target face, 29–63 yr olds, implications for eyewitness identification, 7248
acquisition & use of Blissymbols as means of communication, severely mentally retarded nonverbal 15 vs 18 yr olds, 8742
assimilation theory & Baldwin illusion, college students, 2705
attention training & features & orientations of cartoon faces, perceptual learning, 4–6 yr olds, 12529
bilateral presentation of print vs picturable nouns vs CVC nonwords vs line drawings, visual hemifield superiority in noun & word naming, adults, 7505
changes in viewing angle of photograph, compensation in visual perception, college students, 11836
color vs spatial location vs word attribute variations, recognition of pictures &/vs words, college students, 11965
components of pictorial perception based on cross-cultural research, literature review, 7190
cortical visual evoked responses, development of binocular visual cortex, infants aged 4 wks to 8 mos, 10026
cross-modal presentation of stimuli, negative transfer, college students, 2774
degree of expertness & attractiveness of & type of argument from source, attribution of personality traits, female college students, 3646
delay after presentation of auditory vs pictorial stimuli, sentence imitation, 3.6–4 yr olds, 7798
development of comprehension of 3rd person personal pronouns, 3–7 yr olds, 12544
digital picture processing, judgment of stimulus similarity, Os, 2699
distance of fixation from critical detail in complex picture, performance in 2-alternative forced choice recognition test, college students, 377
duration of study time of labeled map with vs without mimetic drawings, amount & categorization of map free recall, college students, 476
enactment vs picture-choice tasks, early language comprehension, 3–5 yr olds, 3343
environment & cognitive maps vs tactual vs visual stimulation, orientation shifts, Ss, 299
estimation of choice RTs to pictographic symbols, 5025
facial image size, judgments of emotions vs attitudes vs personality traits, middle aged Os, 1259
fading pictures of picture-word pairs, learning & retention of word lists, learning disabled 8 yr old male & 10 yr old female, 4392
false heart rate feedback vs electronic bleeps & pictorial illustrations of skin disease, selective attention vs meaning of feedback, college students, 12268
familiar urban scenes, recognition, high school & college students, 3373
handedness & familial sinistrality & bilateral tachistoscopic presentation, asymmetry for rate of processing & decay of pictures, college students, 7490
illustrated vs unillustrated text, long term memory, 14–15 yr olds, 9567
illustrations in school books, 2094
interrater reliability, facial affect scoring technique as mimic classification procedure for analysis of emotional states in social interactions, 11674
item recovery & hypermnesia in free recall, college students, 11953
Kanji vs Kana Stroop type color words in left vs right visual field, RT, right handed college students, Japan, 12212
label retrieval & distractiveness, subsequent recognition of complex pictures, college students, 11926
latent visual learning, memory trace of visual pattern, crucians & goldfish, 9636
lexical storage & retrieval, performance on picture word interference task, Spanish-English bilingual young adults, 947
matching black/white & silhouette photographs vs outline drawings with novel objects that could only be touched, male rhesus monkeys, 12079
memory vs neutral instructions, recall of picture information in game context, 4 & 5 yr olds, 5526
object salience & previous visual processing &/vs naming, latency & update in picture naming & independence of visual & semantic & lexical memory codes, female college students, 7257
optic array determinants, apparent distance & size in pictures, volunteers, 7163
orienting tasks, recognition & recall & modality confusion, college students, 2780
perceptual vs conceptual criteria, picture recognition, preschool age children, 3383
performance in oral vs written naming of pictures, male Broca's vs Wernicke's aphasics, 8322
pictorial slides depicting personal recreational interest, GSR & relation to orienting response, male college students, 7504
pictorial stimulus novelty & familiarity, same/different recognition, right- vs left-hemisphere-damaged adults, 13138
pictorial vs nonpictorial vs combination Chinese characters presented on left vs right side of fixation point in visual field, identification accuracy, Chinese college students, 7480
pictorial &/vs verbal instructional material, performance on concrete vs abstract problems, deaf college students, 6735
pictorial vs word stimuli, RT & recognition of stimuli, 11976
pictures, recall of newspaper articles, 4th graders, 4314
pictures that illustrate item vs depict comparative adjectives, verification of spoken sentences, aphasic vs normal 50–81 yr olds, 10666
pictures vs character motivation story vs both, comprehension & recall of prose passage, college students, 9562
picture vs name vs category encoding processes, memory, college students, 9555
preexposure to attention-directing cues, facilitation of picture recognition, college students, 500
preferences expressed in 2 unlike 2-choice sexual stimulus conditions & response latency, predictions of relative reinforcement value of preferences, 36 yr old male pedophile, 9600

presentation of color videotaped TV images of conspecific social behavior as operant reinforcement, response rate, juvenile macaques, 613
presentation to right vs left visual field, naming & discrimination of Chinese characters, male Chinese vs North American Ss, 9772
production of face composite, subsequent recognition of facial photograph, college students, implications for eyewitness identification, 7264
proprioceptive & pictorial stimuli, emotional responses & facial expressions, normal vs overweight college students, 3919
reconstructive vs specific memory effects in within-Ss transformational picture memory test design, college students, replication of J. M. Mandler & G. H. Ritchey's study, 480
relative numerosity judgments, adult male squirrel monkeys, 7337
RTs in recognition & discrimination of pairs of complex colored pictures, 423
selection of homonyms from pictures, 3.3–6.3 yr olds, 1032
self observation phenomenological method, pictorial symbolization of faces-goblet stimulus display, graduate students, 391
sequencing of visual & auditory stimuli, rate of learning words & Bliss symbols, trainable & profoundly mentally retarded 6–9 & 14–17 yr olds, 8238
silhouette of hawk vs goose, cardiac response, ducklings, 7370
social density & wall posters & sex & group composition, anagram solving & perception of self vs physical vs social environment, college students, 1275
standard vs elaborated pictorial presentation & lists of noun pairs & instructions, pictorial elaboration effects in incidental paired associate memory, kindergartners vs 2nd graders, 10068
static trapezoidal window, responsiveness to pictorial depth, 20–22 wk olds vs 28–30 wk olds, 10066
stimulus duration of figures with response multiplicity, number of verbal categories & stimulus-response compatibility, 484
strategy choice & field independence effect, abstaction & storage & retrieval, college students, 2744
strategy choice & training, pictorial vs verbal strategy in sentence-picture verification, Ss with high vs low spatial ability, 7227
subdivision of pictorialized geographic route, proximity judgments, 2nd vs 5th graders vs college students, 10016
text directions with vs without illustrations, model assembly, college students, 5008
thematic related vs unrelated pictures & sentences, conceptual encoding & recognition, college students, 2737
traditional vs nontraditional test settings & line vs shaded drawings vs photographs & color vs black & white adjunct pictures in text, reading comprehension, public school vs college students, 11202
unguided learning instructions vs high- vs low-level orienting task, recognition memory for faces & random shapes, 55–59 yr old male amnesic alcoholic Korsakoff patients, 8107
verbal encoding, retrieval of complex picture characteristics, college students, 2771
verbal & imaginal encoding & stimulus codability & exposure, recognition memory for shapes, US Naval recruit trainees, 7250
verbal & nonverbal information, picture recognition, 3–5 yr olds, 3353
verbal vs auditory interference, short term retention of traffic turn restriction signs, female vs male college students & staff, 469
verbal vs imaginal cognitive strategies, inhibition of emotional arousal, male vs female college students, 7281
verbal vs pictorial stimulus presentation, number of additive & configural feature effects in consumer judgments of product designs, graduate students, 6908
verbal vs visual presentation of sex stereotyped stimuli, pupillary responses, male vs female college students, replication of E. H. Hess & J. M. Polt's report, 2647
visual complexity, preference for roadside maintenance scenes, travelers & college students, 13787
words vs outline drawings & symbolic distance of brightness & hue, RT & symbolic comparison of objects on color attributes, college students, 7182
word vs picture list & recall & number of recall trials, hypermnesia in cumulative responses per trial, college students, 9566
written transcripts vs content-filtered speech vs silent video information, judgment of conveyed emotion, college students, 12808

Pigeons

access to mirror &/vs timeout key under multiple FR schedule, pecking behavior, pigeons, 9624
activity vs no activity during response delay period, short term memory, male pigeons, 5106
added counter to FR schedule, amplification of discriminative control by number of pecks since reinforcement, pigeons, 564
adjunctive stereotyped spot pecking, captive food deprived pigeons, 655
ambiguity of discriminative cues, discrimination learning, pigeons, test of R. W. Leary's approach-avoidance explanation, 573
amount of previous training on VI operant task, choice of freely-available vs response-contingent food, pigeons, implications for response variability in studies involving free food, 5111
apomorphine, elicited vs operant pecking, pigeons, 12345
apparatus for automated stimulus presentation in visual discrimination experiments with pigeons, 2347
arrangement of concurrently available reinforcement schedules & stimulus disparity, relative responding, pigeons, 12056
auditory-visual stimulation & electric shock vs food, discriminative responding, pigeons, 12074
autoshaping, 2nd-order conditioning of keypeck response, male pigeons, 569
behavioral contrast & differential reinforcement, keypeck durations, male pigeons, 5131
behavioral contrast during discrimination training of automaintained keypeck responses, pigeons, 7339
change in reinforcement density as aspect of behavioral contrast, response rate, pigeons, 12073
colored &/vs flavored water intake prior to induced sickness, taste aversion conditioning, pigeons & quails, 586
combination of discrete trial psychophysical & tracking procedures & response pattern analysis, within-trial stimulus thresholds in key pecking task, pigeons, 12179
component duration, contrast during reinforcement vs extinction, pigeons, 12083
concurrent schedules of negative reinforcement, response rates for shock avoidance, pigeons, 9637
contingencies of reinforcement vs "principles of behavioral variation", pecking, pigeons, 563
continuous vs partial reinforcement with nonrewarded-rewarded vs rewarded-nonrewarded trial transitions during acquisition of discrete-trial keypecking vs lever pressing response, extinction, male pigeons & rats, 570
contrast in multiple concurrent concurrent schedules of reinforcement, maintenance of matching behavior, pigeons, 592
controllability of auditory discriminative stimuli, go/no-go discrimination performance, pigeons, 7330
CR with equal VI reinforcement schedules & use of extinction vs reinforcement of not responding, response elimination durability, pigeons, 7324
CS presentations in positive vs zero vs negative relationship with food, conditioned approach-withdrawal behavior, pigeons, implications for associative strength, 7310
cues to forget vs remember & comparison task, directed forgetting, pigeons, 12052
delay & amount of reward, choice behavior, male pigeons, 5104
delayed reinforcement, mediating responses, pigeons, 2858
delayed reinforcement & reinforcers as stimuli & alternative response, self control, pigeons, implications for W. Mischel's results with preschoolers, 7306
delta-9-tetrahydrocannabinol & dosage levels, male White King vs Silver King pigeons, replication of study by W. D. Gouvier & A. L. Yehle, 12363
delta-9-tetrahydrocannabinol &/or pentobarbital, key selection discrimination, pigeons, 3182
development & measurement of schedule-induced drinking, pigeons, 2856
dextroamphetamine &/vs pentobarbital injection, discrimination response generalization, pigeons, 618
dextroamphetamine vs pentobarbital under concurrent FR schedules, keypecking, pigeons, 589
dextroamphetamine with vs without chlorpromazine, rate vs accuracy on repeated acquisition task, pigeons, 932
differences in symbolic communication between pigeons vs chimpanzees, 665
differential reinforcement of keypecking duration, pigeons, 619
discrimination & memory for recent sequences of stimuli & responses, pigeons, 671
discrimination training for keylight vs food, overshadowing of stimulus control, pigeons, 12068
dosage of phenobarbital as discriminative stimulus, stimulus control, pigeons, 5091

duration & intensity of interpolated illumination reduction, retroactive interference in short term memory, pigeons, implications for rehearsal/surprise hypothesis, 5098
ethanol, multiple FI-FR schedule performances, pigeons, 5350
ethanol, stimulus generalization, pigeons & female rats, 3189
ethanol &/vs caffeine, multiple FR/fixed time controlled keypecking, male pigeons, 5376
expectancies of reinforcement vs nonreinforcement, enhanced conditional discrimination performance, pigeons, 600
feature-positive vs negative learning, monkeys vs pigeons, 12059
FI reinforcement schedule of food presentation, schedule induced behavior patterns, pigeons, 7294
FI vs DRO schedules of reinforcement, keypecking behavior, pigeons, 9647
frequency & duration of reinforcement, DRL acquisition, male pigeons, 5109
grain presentation variations, autoshaping, pigeons, 5110
icv infusion of luteinizing hormone releasing hormone, behavior, homing pigeons, 7685
icv injections of eledoisin & physalaemin & substance P, modifications of drinking behavior & arterial blood pressure, rats & pigeons, 874
identity of correct vs uncorrect comparison stimulus, matching & oddity learning, pigeons, 12084
increasing vs decreasing intensity of pulsed tone trains, auditory thresholds & intensity discrimination, blackbirds & cowbirds & pigeons, 9642
interocular transfer of color aversion, pigeons, 2865
interocular transfer of color discrimination vs motor response training, pigeons, 612
interreinforcement response frequency, postreinforcement pause length, pigeons, 9623
item exposure duration & intertrial interval & number of items, recognition accuracy, pigeons, 9649
learning, protein levels & synthesis, split-brain pigeons, 5336
level of predictability of outcome for terminal link, preference for that link, male pigeons, 5103
lithium chloride vs water injections & visual cues, ability to form illness-induced aversions, pigeons, 903
local contrast & dimensional contrast shoulders, visual discrimination & generalization gradient forms, pigeons, 9643
localized visual signals & shock, conditioned withdrawal, pigeons, 9644
local stimuli & familiarity with release site vs clock shifted release times, initial orientation, homing pigeons, 9638
local vs overall & prior vs impending reinforcement, keypeck response rate, male pigeons, 5102
locus of brief stimuli in second-order schedule, postreinforcement pauses, pigeons, 12067
low-rate vs absence of response requirement, strength of conditioned reinforcing stimuli, pigeons, 2861
matrix cue variations, keypecking performance, pigeons, 12072
metabolites & derivative of delta-9-tetrahydrocannabinol, generalization of delta-9-tetrahydrocannabinol discrimination, pigeons & rats, 12373
method for automatic recording of topological differences in keypecking for food & water reinforcement, 115
moving & grating stimulation & receptive field organization of tectal neurons, pigeons, 5212
negative instances & correction & number of incorrect alternatives, oddity learning, pigeons, 12085
nondifferential reinforcement for response to paired stimuli, subsequent discrimination learning, pigeons & male rats, 574
olfactory deprivation, homing ability, anosmatic vs normal pigeons, 624
paired vs unpaired tone & food &/or keylight, 2nd order autoshaped pecking to keylight, male pigeons, 9630
pairing of 1st order CS used for autoshaping vs omission training with food, 2nd order autoshaping, pigeons, 12082
partial vs continuous reinforcement, acquisition & maintenance & extinction of autoshaped responding, pigeons, 567
pentobarbitol vs other drugs, drug discriminative behavior, pigeons, 9938
physical restraint & intertrial interval, acquisition & maintenance of autoshaped keypecking, pigeons, 588
preference for free choice vs forced choice, pigeons, 531
preparatory event & retention interval, short term retention, pigeons, 12024
pretraining exposure to CS vs UCS vs random CS-UCS, acquisition of autoshaping, pigeons, 5128
pretraining & intertrial interval & random CS-UCS vs UCS only presentation, acquisition of response in autoshaping, pigeons, 9625
pretraining procedures & stimulus characteristics, acquisition of matching-to-sample behavior, male White Carneaux pigeons, 593
psychometric hue discrimination functions, pigeons, 2828
ratio vs interval reinforcement schedules with comparable interreinforcement times, keypecking, pigeons, 549
reinforcement & configuration variability of CS, inhibition following discriminative autoshaping, pigeons, 7338
reinforcement of errors in signal detection procedure, pigeons, 554
reinforcement schedule on 2nd link of 3-link chain, matching to sample accuracy, pigeons, 9659
reinforcer magnitude, preference for response alternative associated with certain vs uncertain reinforcement, male pigeons, 7341
relative reinforcement rates & durations & food reinforced multiple VI VI schedule training, unreinforced choice & relation to schedule slope, pigeons, 561
reward-signaling stimuli, choice behavior, pigeons, 2860
saliency & primacy & recency & temporal order of 2-event discriminations, stimulus control & retention, pigeons, 5130
sample duration & type & symbolic nature & delay time between sample & choice, performance on matching to sample task, pigeons, 7331
scanning patterns during training, monocular color discrimination, homing pigeons, 3017
self reinforcement following response requirement in pigeon experiments & application to behavior modification in 26 yr old female, 1829
signaled & unsignaled reinforcement, response rate, pigeons, 2867
simple vs multiple reinforcement schedules, response rate, pigeons, 7322
simultaneous vs sequential CS presentation in feature negative discrimination training, conditioned inhibition learning, pigeons, 568
stimuli correlated with 3 alternating FI schedules, extent & rates of observing responses maintained, pigeons, 7296
stimulus duration & VR reinforcement, discriminability & response rate & choice, pigeons, 9651
stimulus element arrangement, matching to sample of compound stimuli performance, pigeons, 12049
stimulus similarity, 2nd-order conditioning, pigeons, 5120
test stimulus preceded by extreme vs positive vs adjacent stimuli & unequal reinforcement frequencies for positive vs negative stimulus, peak shift & sequential effects in stimulus generalization gradients, pigeons, 551
transfer of learning, color matching, pigeons, 2859
true discrimination vs pseudodiscrimination training with compounding wavelength cue, potentiation of attentional enhancement, pigeons, 603
true discrimination vs single stimulus vs pseudodiscrimination training with line angles & variable vs fixed reinforcement schedules, transfer to wavelength discriminations, pigeons, 9656
truly random control vs backward conditioning vs CS-only response elimination procedures, reacquisition of autoshaping, pigeons, 615
unexpected nature of event to be remembered vs reinforced conditioned stimulus, short term memory, pigeons, 9633
unilateral vs bilateral lesions of telencephalic Wulst, monocular vs binocular visual discrimination, pigeons, 9897
variability in CS duration, goal tracking & sign-tracking, homing pigeons, 12010
variability in stimulus cues during delay period, delayed reward discrimination learning, pigeons, 7298
variable ratio punishment schedules, rates of reinforced responding, pigeons, 7317
VI reinforcement schedules, duration of keypecks, pigeons, 2881
visual receptive fields of neurons in nucleus of basal optic root, accessory optic system, pigeons, 9756
VR vs VI vs FR in single vs multiple schedules, response rate, pigeons, 12064

Pigments [See Also Hemoglobin]
eye color, critical flicker frequency & pressure sensitivity, male vs female 16–54 yr olds, 2657
food intake for 1 hr daily & unlimited running wheel activity, development of stomach ulcers & levels of liver glycogen & bilirubin & serum proteins & glucose, male rats, 5317
iris pigmentation, premotor & motor RTs & latency & motor components of reflex time, college students, 5278
neuroleptics, neuromelanin levels in substantia nigra & locus ceruleus, schizophrenics, 3790

ocular hypopigmentation, cortical function as measured by visually evoked potential & ocular dominance, cats, 9797
pigmentation & light deprivation, light reactivity, mice, 7425
resonance Raman spectroscopy, photoisomerization of bound retinal chromophore of rhodopsin as primary event in vision, 11800
sex & eye color & shape complexity & symmetry, rated pleasantness of visual shapes, college students with blue vs brown eyes, 11851
variation in macular pigmentation & stimulus eccentricity from fovea, short wavelength spectral sensitivity during cone-plateau period of long term dark adaptation curve, 392
visual receptor pigments in African cichlid fish, 7507
Pigs
frustration, aggressive behavior, pigs, 2887
insulin dose, food intake, swine, 3137
rearing in cold vs warm environment & length of exposure & food intake & body temperature, reinforcement rate for heat & thermoregulatory behavior, pigs, 793
social interaction patterns, group housed dry sows, 2916
2-deoxydextroglucose jugular vs hepatic-portal vein injections, food intake & plasma glucose levels, pigs, 7697
Pilocarpine
cholinergic & cholinomimetic & cholinergic blocking drugs, ontogeny & potentiation of cholinergically mediated yawning & head shaking, 4–12 day old rats, 892
Pilots (Aircraft) [See Aircraft Pilots]
Pimozide
dextroamphetamine vs apomorphine with vs without pimozide & exposure to novel object, disruption of selective attention & habituation, gerbils, 3149
extinction vs pimozide & intermittent reinforcement, operant task response rate, male rats, 7700
intermittent pimozide vs fluphenazine decanoate, relapse & side effects & plasma concentrations & prolactin levels, male chronic schizophrenics, 6400
mesolimbicocortical dopamine terminal field denervation by hypothalamic 6-hydroxydopamine injections & desmethylimipramine & apomorphine & clonidine & pimozide, locomotor & exploratory behavior, rats, 5367
pimozide, norepinephrine concentrations in cerebrospinal fluid, schizophrenics, 10941
pimozide, symptoms & social behavior, 27–72 yr olds with personality disorders & social maladjustments & disturbed interpersonal relations, 1839
pimozide, treatment for monosymptomatic hypochondriacal psychoses, 6401
pimozide, treatment of minimal brain dysfunction, 22 yr old male, 6404
pimozide prior to avoidance training, response learning, male rats, 3140
reserpine vs pimozide vs diethyldithiocarbamate vs methysergide vs dextroamphetamine, stereotypic behavior vs disaggregation of polyribosomes, rats, 12412
response contingent infusions of cocaine vs dextroamphetamine vs norcocaine with vs without pretreatment with phenoxybenzamine vs pimozide, relative potency determined by self administration behavior, dogs, 9957
Pineal Body
genetic deficiency for vasopressin in suprachiasmatic nuclei, circadian rhythms in locomotor activity & drinking & pineal serotonin N-acetyltransferase, Brattleboro rats, 749
packing density of pinealocyte nuclei, speed of wheel running, male rats, testing of proposal by M. Reiss et al, 12234
pinealectomy, ultradian rhythms & short term activity, lake chubs, 840
Pipradrol
pipradrol & nonspecific stimulus change & feeding in test environment & prior exposure to conditioned stimulus, acquisition of responding with conditioned reinforcement, rats, replication of findings by R. T. Hill, 5352
Pitch (Frequency) [See Also Speech Pitch, Ultrasound]
age & degree of impairment & signal frequency, horizontal sound localization, unilaterally hearing impaired 8–15 yr olds, 10689
annoyance & distraction level of power line noise, 18–38 yr olds, 9206
auditory frequency selectivity, normal Ss vs 63–70 yr old Ss with sensorineural hearing loss due to presbycusis, 6149
body temperature & tone frequency, auditory thresholds, frogs vs toads, 12313
central tendency & range of reading fundamental vocal frequency, Black college students, 9975
change in interaural phase differences of noise & tone vs noise alone, localization of tones, experienced listeners, 4957
conditional discrimination training, auditory frequency generalization, college students, 9571
different tone intensities within nondifferential reinforcement schedule, response rates, rats, 7327
frequency range of auditory motion vs swept sound-level change aftereffects, experienced Ss, 11876
identification of minimum noise level, asymptotic temporary threshold shift, young males, 4967
musical interval & frequency difference, perception of single pure tones vs pure-tone auditory dyads, college students, 2722
musical intervals, variation in psychological effect, college students, 2725
number of categories in pitch experiments, amount of shift in tone adaptation levels, 11879
pitch as phonemic cue in auditory memory, college students, implications for speech perception, 404
rapid decrease in vocal pitch by isotonic contraction of vocalis muscles, male Ss instructed to match own voice with frequency modulated tones, 4961
size & complexity & shape & density of geometric figures, matching pure tones to figures, college students, implications for universal phonetic symbolism, 11752
tone complexity, right hemisphere advantage in pitch discrimination & response latency, right handed Ss, 5238
tone frequency change, monaural localization of sound, normal hearing Ss, 11860
tone frequency & stimulus intensity & duration, auditory discrimination, normal hearing subjects, 11854
tone intensity & frequency, duration of distress call suppression, newly hatched vs 4-day old chicks, 12034
tone loudness in quiet vs white noise, eyeblink reflex modulation, college students, 11877
tone pips varying in pitch & localization, event-related potentials & selective attention, 24–32 yr olds, 303
2-tone forward making patterns, Ss with tinnitus, 6158
Pitch Discrimination
conditional discrimination training, auditory frequency generalization, college students, 9571
frequency modulation discrimination ability, hearing impaired 20–65 yr olds, 13171
interactions between amplitude & frequency, independent detection of pitch & loudness modulations, S with sensorineural hearing loss, 6122
pitch as phonemic cue in auditory memory, college students, implications for speech perception, 404
right vs left hemisphere advantage, pitch discrimination, right handed college students, 12238
stimulus onset asynchrony, temporal order judgments for pitch sequences, temporal lobectomy patients, 8373
tone complexity, right hemisphere advantage in pitch discrimination & response latency, right handed Ss, 5238
2-alternative forced choice vs standard clinical measurement, high frequency auditory thresholds, normal hearing adults, 2358
Pitch Perception [See Also Pitch Discrimination]
alternating pulse stimulus intervals, perceived pitch, reply to B. C. Moore's criticism, 11882
auditory fatigue, intensity vs perception thresholds & pitch perception & temporal integration of sound & function of sound, 401
auditory frequency selectivity, normal Ss vs 63–70 yr old Ss with sensorineural hearing loss due to presbycusis, 6149
frequency selectivity, Ss with normal hearing vs conductive vs otosclerotic vs noise-induced vs degenerative hearing losses, 6130
number of categories in pitch experiments, amount of shift in tone adaptation levels, 11879
same vs different stimulus pairing of dichotic digits & tones, performance & processing capacity & ear advantage, 16–60 yr old Ss, 408
sex & social class differences, vocal range & pitch, children, literature review, 3396
site of brain damage, processing of pitch & rhythm & tempo & phrasing information in music, 35–65 yr olds, 13152
Pituitary Disorders [See Hypopituitarism]
Pituitary Dwarfism [See Hypopituitarism]
Pituitary Gland
acute & chronic ethanol treatment, brain & pituitary endorphin levels, male Sprague-Dawley rats, 928
hippocampal lesions, conditioned taste aversion & pituitary-adrenal activity, male rats, 9901

hypophysectomy & aurothioglucose, weight gain & obesity, mice, 809
Pituitary Gland Surgery [See Hypophysectomy]
Pituitary Hormones [See Also Corticotropin, Thyrotropin, Vasopressin]
distress & effort, cortisol & catecholamine excretion, college students, 3044
endocrine activity & affective disorders, 10434
microinjection of alpha-melanocyte-stimulating hormone & related peptides into periaqueductal gray, analgesia, male rats, 9972
trifluoperazine vs sulpiride with vs without dexamethasone, opiate activity in pituitary extracts, male rats, 3214
PKU (Hereditary Disorder) [See Phenylketonuria]
Placebo
attributed arousal & duration of effect of pills & positive vs negative intelligence test feedback, attitude toward test & reports about effects of pills, male 13–17 yr olds, 5452
dextroamphetamine vs diazepam vs placebo, drug preference & mood, 21–32 yr olds, 12374
dextroamphetamine vs placebo, drug preference & mood, 21–32 yr olds, 12375
effectiveness of placebos in alcoholic beverage studies, literature review, 11585
electrosleep therapy, anxiety neurosis, 17–52 yr old anxious neurotics, 8426
placebo effects & related phenomena, annotated bibliography of books & articles published 1900–78, 935
placebo treatment, improvement & attributes, university medical center & college health service patients, 3970
self vs situational cue response pattern in self perception, positive vs reverse placebo effects, college students, 5795
test for partitioning data matrices from drug vs placebo study into drug- & placebo-typical regions, 7129
theoretical model, effects of expectancies on placebo effect, 11555
Placement (Educational) [See Educational Placement]
Placenta
presence of placenta vs amniotic fluid on pups, onset of maternal behavior, virgin female rats, 12134
Planning (Management) [See Management Planning]
Plasma (Blood) [See Blood Plasma]
Platelets (Blood) [See Blood Platelets]
Play [See Recreation]
Play (Animal) [See Animal Play]
Play Behavior (Childhood) [See Childhood Play Behavior]
Play Development (Childhood) [See Childhood Play Development]
Play Therapy
brief behavioral intervention therapy in home, concentration & cooperation & sleep, behaviorally disturbed 14–36 mo olds, 1768
construction & interrater reliability & validity of Play Therapy Observational Instrument as measure of playroom behavior, 4–10 yr olds, 2480
development of community training clinic program & role of play psychotherapy, outpatient children & families, 8662
Erica-Method of play diagnosis & therapy, children, Sweden, 1734
extension of traditional play therapy model, family play interactions, 8471
group play psychotherapy, intelligence & personality, "defective" vs "blocked" children, 4024
method & general problems of playgroup therapy in school setting, maladjusted 7–8 yr olds, 13681
Nystulian Play Therapy based on Adlerian psychology & creative arts therapy, aggressiveness & cognitive insight & interpersonal adjustment, elementary school children, 8445
play & behavior therapy, hair pulling, 3 yr old male, 3977
play characteristics, mentally retarded children, therapeutic implications, literature review, 8250
speech "therapy" with parent-child interactions, articulation remediation, 3–6 yr olds with articulation disorders, 10962
Playgrounds
intraindividual consistency of response class of coercive behaviors in classrooms & on playground, 1st–2nd & 5th–6th grade males, 11246
Pleasure
anxiety vs pleasure, hand temperature, female college students, 9808
approach to deviance phenomena as fun, 3849
classroom seating location, test performance & enjoyment & interest & motivation, college students, 2143
factor analysis, ratings of adjectives describing affective quality of molar physical environments, 6897
frequency of pleasant items generated for antonym pair lists & correlation with happiness/depression & Pollyanna principle, college students, 1310
level of sex guilt, amount of interpersonal physical pleasure delivered to confederate & reinforcement value of interpersonal pleasuring, male college students, 12768
own vs partner's level of enjoyment, frequency of specific sexual activities, 22–66 yr old married or cohabiting couples, 12722
physical anhedonia & perceptual aberration levels, proneness to psychosis, college students, 10466
pleasure & reality principles, social adaptation, implications for psychoanalysis, 3687
reasons for learning & pleasure obtained from work, teachers & actors & artists & writers, 3256
subjective stimulus, enjoyment derived from destructive acts, college students, implications for aesthetic theory, 5855
uncertainty of destruction portrayed in film, enjoyment, college students, support for aesthetic theory of affective response to destruction & design implications, 508
Plethysmography [See Also Electroplethysmography]
order of participation in ESP task, task performance level, percipients, experimental replication, 4621
Pneumoencephalography
tiapride, homovanillic acid levels in human cerebrospinal fluid drawn at pneumoencephalography, male 27–61 yr olds, 9964
Poetry
interpretation of "Phillip Sparrow" by J. Skelton, understanding child's response to death, 1100
poetic hypnograms, induction of hypnosis, 5081
poetry, facilitation of couples group therapy, 13253
poetry as therapeutic tool in individual & group & family therapy, troubled adolescents, 10776
presentation of & comment on poem "Psychodrama in Four Acts & Epilogue" by A. Crowe, 6256
Poisoning [See Toxic Disorders]
Poisons
amygdaloid brain stimulation, disruption of conditioned taste aversion, male rats, 807
attack of termite prey with aggressive allomone, neuroptera larvae, 12131
color of visual cue, long term retention of poison based aversion, monkeys, 2854
context habituation & lithium chloride & saccharin solution, taste neophobia & aversion learning, rats, 12057
food vs water deprivation & lithium chloride poisoning & grape juice vs milk, flavor aversion learning, male rats, 12065
herbicide 2,4,5-trichlorophenoxyacetic acid during incubation, learning & activity & jumping behavior, chickens, 12398
length of delay & amount of lithium chloride & choice vs no-choice testing, retention of taste sickness associations, 18–53 day old female rats, 12053
length of exposure to alternatives & cues, toxin identification & avoidance, male rats, 7313
novel vs familiar exteroceptive cues with vs without flavor cues & toxicosis, acquisition of flavor aversion, male rats, 12046
novel vs familiar flavor & lithium chloride, taste aversion formation, mice, 12069
preexposure & sucrose &/vs saline solutions & lithium chloride, patterned discriminations & flavor aversion conditioning, male rats, 12032
presence of poisoned partner after vs during consumption of same-flavored solution as poison, learned taste aversion, rats, 5099
sex differences, taste aversion learning, deer mice, 7329
simultaneous & successive discrimination between envenomated vs nonenvenomated mice, rattlesnakes, 7355
tobacco alkaloid anabaseine identified as poison gland secretion which functions as attractant, ants, 12258
Poisson Distribution [See Skewed Distribution]
Poland
goals of special education, Poland, 1970's, 13648
mediating role of industrial psychologists, Poland, 11119
nursery school activities, development, pre-school children, Poland, 6660
psycho-pedagogical & medical diagnosis, development, blind children, Poland, 6159
Type A behavior, myocardial infarction patients & rheumatics, Poland, 13166
validation & standardization, Multifaceted Interpersonal Aggression Inventory for Boys, male 11.6–15.9 yr olds, Poland, 4794

Police Personnel
age & racial differences, scores on promotion examination, 28–47 yr old US Park Police sergeants, 13749
attitudes toward police roles & discretion & perception of power & expectation of danger, male police training recruits, 9159
attitudes toward short vs tall police officers, police supervisors, 6844
changes over time & age & yr of birth, MMPI profiles, police academy recruits, 9330
demographic & pre- & posttraining job experience factors, job performance, US Air Force Security Police, 6846
historical & social structure factors, police-minority conflict, 3472
Kuder Occupational Interest Survey, prediction of success from police training academy, male recruit graduates vs those who resigned vs were dismissed, 9376
perceived stress & marital satisfaction, police officers, 12671
perceptions of self & each other, campus vs town police officers, 12809
personality traits, police, England vs US, 1328
police-community relations, comment on I. Groves's study, 7923
police-community relations, descriptive accounts of recent interactions wih policemen, citizens, 7916
procedural justice, satisfaction with police, citizens, 8054
race of rater & employee & prior performance record, performance ratings, Black vs White candidates for police department promotion & interviewers, 4536
reliability & validity & friendship bias & user reactions, peer nominations vs ratings, police officers & their supervisors, 9450
restrictive civil commitment laws, arrests of disruptive nondangerous mentally ill, suburban police officers, 5-mo longitudinal study, 7981
scale development, measurement of job related stress & dissatisfaction, police officers & college students & teachers, 7113
scores on vocational interest inventories, prediction of job performance, police officers & cadets, 2245
stress, male police officers vs department store managers, 4473
subscale correlations on Kuder Occupational Interest Survey, police trainees, 4487
superstitions & crime rate, police affairs, 4468
thrill seeking, municipal & state police officers, 13693
validity & use of MMPI & Goldberg Index, screening & differentiation of acceptable vs unacceptable police applicants, 9384
Policy Making (Foreign) [See Foreign Policy Making]
Policy Making (Government) [See Government Policy Making]
Political Attitudes [See Also Nationalism, Political Conservatism, Political Liberalism, Political Radicalism]
amount & type of TV viewing, support for government, 13–17 yr olds, 7711
attitudes toward voting for candidate & subsequent voting intentions, individual differences in voting behavior in presidential & senatorial & congressional elections, registered voters, 3558
citizenship education, 2 mo–12 yr olds, China, 5453
cluster analysis, political & social attitudes, New Zealand, 9440
cognitive dissonance & perception of political candidates before & after presidential election, college students, replication of findings by G. Stricker, 5667
color combinations on campaign posters, personality ratings of political candidates, college students, 3560
demographic characteristics & size of home city, recognition of channels for advocating police service change, urban residents, 7986
dogmatic & authoritarian traits, prediction of political candidate preference, right- vs moderate-right vs left-wing liberal supporters, 5670
effect of J. S. Mill's emotional liberation from father on his political & social & economic theories, 1325
intellectual skills & instructions & prior knowledge & congeniality of essay with own attitudes, recall of essay on student activism, college students, 11986
listening to radio vs television viewing of political discussion, judgment of quality of speaker & agreement with argument, Ss, 944
locus of control as multidimensional correlate of political involvement, college students, measurement & prediction implications, 1338
locus of control & self esteem, political activity participation, partisan political office seekers, 7982
open vs non-open social studies classroom climate, change in political attitudes, sophomore & senior high school students, 4357
perceptions of J. Carter & T. Kennedy & ideal president, college students, 7984
personality traits, political attitude change before & after election, college students, 3563
political candidates' characteristics, voting preferences, college students, 10278
political position & writer's use of traditional vs reformed vocabulary, attribution of attitudes & values to writer, college students, Turkey, 5792
political & religious attitudes of self & youths' attributions of parents' attitudes, mothers & fathers & their 16–26 yr old youths, 3460
political themes in children's drawings & books & cartoons, China, 5470
political viewpoint of newspaper read for 2 yrs, cognitive complexity of judgment of role labels, male college students, West Germany, 414
public vs private self consciousness, opposition to negative reference group opinions, Cuban American college students, 12792
sex & political orientation, sex role stereotyping awareness & attitudes & behaviors, kindergarten through high school teachers, 6634
social origin & political ideology, attitude representations on semantic differential scale, college students, 3671
voter preferences & behavior during 1978 Mississippi Senatorial primaries, adult survey respondents, 1176
Watergate vs divisive political events in 1960's, decline in presidential idealization, junior high school students, 10138
Political Campaigns
attitudes toward voting for candidate & subsequent voting intentions, individual differences in voting behavior in presidential & senatorial & congressional elections, registered voters, 3558
color combinations on campaign posters, personality ratings of political candidates, college students, 3560
positiveness of facial expression which accompanied mentioning 1976 presidential candidates' names, TV news anchorpersons, 5418
voter preferences & behavior during 1978 Mississippi Senatorial primaries, adult survey respondents, 1176
Political Candidates
attitudes toward voting for candidate & subsequent voting intentions, individual differences in voting behavior in presidential & senatorial & congressional elections, registered voters, 3558
cognitive dissonance & perception of political candidates before & after presidential election, college students, replication of findings by G. Stricker, 5667
color combinations on campaign posters, personality ratings of political candidates, college students, 3560
locus of control & self esteem, political activity participation, partisan political office seekers, 7982
perceptions of J. Carter & T. Kennedy & ideal president, college students, 7984
political candidates' characteristics, voting preferences, college students, 10278
racial threat vs symbolic racism, reason for voting for White vs Black mayoral candidate, White suburbanites, 1969 & 1973, 12636
voter preferences & behavior during 1978 Mississippi Senatorial primaries, adult survey respondents, 1176
Political Conservatism
conservatism & general vs specific ethnocentrism, Protestant vs Catholic adolescents, Northern Ireland, 12655
factor analysis & statistical reliability of clericalism & conservatism, high school & college students, 280
political preferences & authoritarianism, college students, 12841
Political Divisions (Geographical) [See Geography]
Political Economic Systems [See Also Communism, Democracy, Fascism]
investigation through multidimensional scaling techniques, cognitive maps of selected African countries, African college students, US, 4982
perception of relative size of preferred vs nonpreferred brand, availability of alternative brands, US vs People's Republic of China vs Pakistan consumers, 4605
Political Elections
attitudes toward voting for candidate & subsequent voting intentions, individual differences in voting behavior in presidential & senatorial & congressional elections, registered voters, 3558
bias, causality attributions for winning vs losing side in politics & sports, 5835

cognitive dissonance & perception of political candidates before & after presidential election, college students, replication of findings by G. Stricker, 5667
Political Issues
attitudes & evaluations & beliefs about peaceful use of nuclear energy, Dutch social & natural scientists, 13788
listening to radio vs television viewing of political discussion, judgment of quality of speaker & agreement with argument, Ss, 944
model & research methodology & applications, technique for multidimensional measurement of involvement with social & political problems, 11610
Political Liberalism
partisanship & liberalism & environmental concern & issue salience, policy preferences & voting behavior, state natural resources management officials, 6892
political preferences & authoritarianism, college students, 12841
Political Parties
education & age & political party & perceptions of energy situation, energy policy preferences, adults, 11521
partisanship & liberalism & environmental concern & issue salience, policy preferences & voting behavior, state natural resources management officials, 6892
Political Processes [See Also Political Campaigns, Political Elections, Voting Behavior]
clinical features of political exile vs grief from personal bereavement, Chilean exiles, Great Britain, 2 case reports, 7919
international vs interinstitutional vs intrainstitutional vs interpersonal levels of political relationships in group relations conferences, 5609
legislative & political involvement & need for legislative training programs, psychologists, 6590
manipulation-proofness for widening scope of Arrowian welfare economics, political decision making procedures, 10271
parallels between concepts & tactics of international politics & family therapy & role of ethical imperatives, comment on R. Belson's article, 13250
parallels between concepts & tactics of international politics & family therapy, 13236
parallels between concepts & tactics of international politics & family therapy, comment on R. Belson's article, 13258
political control techniques by paranoid leader J. Jones, mass murder & suicide in Jonestown, Guyana, 12695
Political Radicalism
collusion with political authorities to punish dissenters, psychiatrists, USSR, international response at 1977 International Congress of the World Psychiatric Association, 6544
relationship between liberalism & conservatism, male Army conscripts, Australia, test of F. N. Kerlinger's theory, 5881
Political Revolution
riot contagion, Latin America, 1949–63, 7915
Politicians
alcoholism & problem drinking among political leaders, 10565
locus of control & self esteem, political activity participation, partisan political office seekers, 7982
management style as group phenomenon & strategic interaction, examination of Governor R. Reagan's style, 13753
parallels between accounts of childhoods, H. Hoover & C. Dickens's "David Copperfield", 1323
perceptions of J. Carter & T. Kennedy & ideal president, college students, 7984
personality assessment from content analysis of speeches, Soviet Politburo members, USSR, 5857
psychoanalytic interpretation, personality & motivation of H. P. Petain, France, 1345
relationship between attraction & perceived similarity to Richard Nixon & Gerald Ford, adults, 1972–1976, 12799
Politics [See Also Political Attitudes, Political Campaigns, Political Candidates, Political Elections, Political Issues, Political Parties, Political Processes, Voting Behavior]
administration & coding of semistructured interview, measurement of identity formation in areas of occupation & religion & politics & social concerns, adolescents, 11579
design & delivery of human services within political system, 8618
energy conservation & public policy, US, 9219
history & legislation & political & social contexts & professional associations, school psychology, 13516
Lenin's heritage & political psychology, USSR, 2311
personal relevance of information about crime & employment & politics in local vs distant setting, use of information in decision making, college students, 1119
political factors in explanations of insanity, 17th & 18th century, England, 10497
psychosocial rehabilitation, chronic mentally disabled, address at Annual Conference of International Association of Psycho-Social Rehabilitation Services, 11032
social & political procedures, psychiatry, China, 10758
Pollution
air pollution & aggressive model, physical aggression, college students, 5769
antilitter signs with threatening vs cooperative message & littered vs unlittered environment, littering behavior, public parking lot users, 6895
effectiveness of behavioral technology intervention techniques, dog litter reduction, followup study, 13283
exposure to ozone during exercise, perception of effort & sensitivity to respiratory responses, 12299
loudness & annoyance levels for summation of noises, college students, 4591
motivation & noise intensity & tobacco smoke exposure, annoyance response during task performance, 18–29 yr old nonsmokers, 2813
unidimensional vs multidimensional & generalized vs situation specific measures of locus of control, prediction of environmental activism & personal conservation & antipollution activities, activists vs nonactivists, 11655
Polygamy
attitudes toward polygamy & bride price & traditional African vs Western lifestyles, 15–23 yr olds, Africa, 10208
cross cultural differences in postpartum sex taboo & polygyny & male initiation rites & infant sleeping arrangements, sexual foreplay, implications for neo-Freudian perspective, 1111
incidence of polygamy, Africa, 12686
Polygraphs
admissibility of polygraph evidence in criminal actions in Alabama state federal courts, 10280
EEG & EMG spectral analysis & Hjorth method, sleep-wakefulness cycle, male rats, implications for physiological & pharmacological investigations, 58
polygraph deception vs truthfulness, detection of lying Ss through skin conductance responses to & recall of relevant vs control questions, male college students, 3055
shock generating device, elimination of artifacts in polygraph recordings, 11586
Pons
afferent neurological network underlying affective attack sites in hypothalamus, cats, 727
frequency of stimulation to cerebral masticatory area, excitation vs inhibition of mesencephalic trigeminal nucleus masticatory proprioceptive cells, rabbits, 3088
lesions & dosage level of 6-hydroxydopamine in locus coeruleus with vs without desmethylimipramine, sexual behavior & catecholamine depletion & midbrain damage, male rats, 7556
locus coeruleus noxious & innocuous cutaneous electrical stimulation, lumbar spinal dorsal horn response, cats, 9871
neuronal activity in nucleus parabrachialis medialis related to cardiac cycle during sleep-waking state, cats, 5239
neuropsychological tests administered 2 & 9 mo after infarction, measurement of cortical functioning, 65 yr old male patient with pontine infarction, 10657
norepinephrine depletion produced by locus coeruleus lesions, cerebral oxidative metabolism, male rats, 9892
REM sleep waves, dorsal pons, male rats, 2976
spontaneous activity of neuronal pairs in nucleus parabrachialis medialis during sleep-waking state, cats, 5213
stimulation of various sites in midbrain tegmentum, evoked synaptically-mediated excitation in pontine reticular formation neurons & evidence of excitatory projections, rats, 713
Popularity [See Social Approval]
Population [See Also Overpopulation, Population (Statistics)]
demographic characteristics, geographic distribution of model train buffs, 3727
ecological factor analysis, state characteristics, 7128
geographical distribution, psychologists, Northeastern US, 4236
kinds & degrees of impairment & frequency in population, mentally retarded born between 1951–55, British city, 8267
marital stability & secondary sterility postpartum abstinence & socioeconomic status, fertility, married couples, Java, 5596

migration, marriage & birthrate & urban demographic structure, France, 1906, 5599
psychological & sociological implications, population policy, India, 5605
rapid population growth, perceptions of safety from crime, community residents, 3487
response to vegetational environment, birds, 5176
size & concentration of Jewish population, cultural pluralism & communal & pietistic identification, 7938
tabulated data from 90 provinces for mean IQ & intellectual achievement & earnings & unemployment & infant mortality & migration, France, 10215
Population (Statistics) [See Also Statistical Sample Parameters, Statistical Samples]
activity & population fluctuations at roosting site, small green bee-eater, 5177
information about typicality of case, generalization from single case to whole population, college students, 5800
procedure for selection of binomial populations, probability of success, 2618
robustness of 1- & 2-tailed Z & t statistics from various sized samples in L-shaped population distribution, 4848
use of client & census records, community mental health planning, 1910
Population Characteristics [See Demographic Characteristics]
Population Control [See Birth Control]
Population Genetics
generation differences & familial resemblance & maternal effects, hand preference, college students, 7413
genetic components of kin selection, 7424
genetic racial differences, IQ, Blacks vs Whites, 2953
Porteus Maze Test
diagnostic significance of Qualitative score on Porteus Maze Tests, emotionally disturbed vs normal 10–18 yr olds, 8175
literacy, Porteus Maze performance, 13–16 yr old male Campas vs their parents, Peru, 5533
Positive Reinforcement [See Also Praise]
age & sex differences, effectiveness of alien vs conventional external reinforcement, 3rd vs 6th graders, 12457
auditory stimuli in aversion therapy, sexual deviations, 8538
auditory-visual stimulation & electric shock vs food, discriminative responding, pigeons, 12074
behavioral treatment, selective food refusal, moderately retarded 6–9 yr old females, 8552
changes in reward after conditioning, maze behavior, male rats, 7314
changes in teachers' positive & negative reinforcement patterns, achievement & social behavior, 8–10 yr olds, 6669
cognitive technique & aversive stimulus & positive nonverbal reinforcement, classroom thumb sucking, 4th grade female, 13682
deep muscle relaxation & covert positive reinforcement, maladaptive behavior, emotionally handicapped 6–12 yr olds, 6744
discrimination training for keylight vs food, overshadowing of stimulus control, pigeons, 12068
extensive training using positive vs negative stimuli, level of stimulus control, male rats, 5113
food deprivation level at time of initial exposure to food reinforcer, acquisition & extinction of instrumental response, male rats, 12062
games as reinforcement, exercise behavior maintenance, 20–56 yr old mentally retarded, 4035
hypothalamic noradrenaline, positive reinforcement in maze learning, male rats, 7627
instructions & models & positive reinforcement, verbalization rates, language-deficient 3.4–4.5 yr olds, 4400
intracranial electrical stimulation reinforcement, face washing & digging & open rearing & scratching & scrabbling & scent marking & wall rearing, hamsters, 5125
parental positive reinforcement, social behavior & academic achievement, children, 12467
positive vs negative prior contact, reinforcing strength of approval, male 3rd–5th graders, 5460
positive vs negative vicarious reinforcement vs no reinforcement of model's choice response, imitation of response, 4 & 6 yr olds, 7826
praise & food reinforcement & physical prompts, reduction of rate of eating, 9–12 yr old profoundly mentally retarded rapid eaters, 8501
procedural effects vs actual reward value, measurement of reward strength of self stimulation behavior, male rats, 7300
social skills training, unipolar depression, 25–57 yr old unipolar nonpsychotic female depressives, 8516
time out contingencies & positive reinforcement & shaping, behavior disorders, 16 yr old female with Huntington's chorea, 10907
visual vs auditory stimulation, perching time, lovebirds, 556
Positive Transfer
approach response mediation & response competition, operant transfer of learning in noncontingent phase, male rats, implications for methodological validity of transfer experiments, 597
electrical brain stimulation as UCS, classical conditioning of nictitating membrane response, rabbits, 2866
identical variations in preliminary problems, problem solving response latencies with positive vs negative transfer effects, college students, 501
modeling with varied feedback & prerequisite skills in seriation learning hierarchy, positive transfer for superordinate skills, 2.9–5.1 yr olds, 983
structural modeling techniques vs learning hierarchy model as approaches to analysis of skilled behavior, literature review, 9561
Positivism
cognitive retraining through group discussion of beliefs & attitudes & daily rehearsal of positive feeling statements, self reported happiness, adult volunteers, treatment implications, 9602
vegetable vs meat breakfasts, self ratings of positive emotionality, male college students, Canada, 3057
Postgraduate Students
factor analysis, measures of anxiety & neuroticism & psychoticism & intelligence & academic achievement, male postgraduate students, 6783
Postgraduate Training [See Also Clinical Psychology Grad Training, Clinical Psychology Internship, Medical Internship, Medical Residency]
American Psychological Association-approved sponsors of continuing education in psychology, 11057
employment positions, research trained psychologists, 6596
guidelines for improvement, undergraduate education & residency in behavioral pediatrics, literature review, 1997
issues in program evaluation training, school psychologists, 6638
numbers & race & sex, students admitted to postgraduate clinical & counseling psychology training programs, South Africa, 8768
peer review method in psychiatry, 11130
postgraduate clinical training, hospital junior psychiatrists, England, 3-yr longitudinal study, 13471
professional organizations & training & practice, status of school psychology, 13531
role diversity & emphasis & continuing education & job satisfaction, urban vs rural school psychologists, implications for training, 11092
state requirements, continuing education of school psychologists, 11151
survey of employment & educational history, continuing education involvement, members of New Zealand Psychological Society, 11074
training programs, behavioral pediatrics, 2011
Postnatal Period
early postnatal contact, infant development & maternal attitudes, infants & their mothers, 36 hrs & 3 & 12 mo followups, 5636
estradiol & progesterone & nipple development & presence of young, postpartum aggression, female rats & mice, 637
evaluation of comprehensive pregnancy care program, female opiate addicts, 6 mo followup survey, 8424
housing with dam vs calf-house, learning ability & urination & defecation frequency, newborn calves, 2830
mechanisms that affect human growth, literature review, 7748
postpartum mating vs mating at freely cycling estrus, maternal behavior, virgin female rats, 9688
postpartum period, bipolar affective disordered patients, implications for lithium therapy, 5968
prenatal vs postnatal methadone, discrimination learning, adult rats, 3223
pup age & weight & cessation of lactation, cessation of nursing behavior, female hamsters, 669
surgical uni- vs bilateral eyelid closure at time of natural eye opening, postnatal development of visual cortex synapses, 10 day old cats, 9905
Postpartum Depression
abortion vs refused abortion, mental health problems, mothers & children, 4131

anxiety & hostility & locus of control in 36th wk of pregnancy, prediction of postpartum depression, females 6 wks postpartum, 5960
guilt over thoughts of harming their babies & self concept as inadequate mother, postpartum depression, mothers, treatment implications, 6226
levotryptophan for 10 days after delivery, "maternity blues" & psychiatric symptoms, bottle feeding multiparous females, 6386
psychodynamics, transitory postpartum depression, 5980
Posttesting
appropriateness of pretest- vs posttest-only designs, field experiment, college students, 11596
pretest-posttest designs, errors in evaluation of delinquency program effectiveness, 1975
response-shift bias, evaluation of experimental interventions with self report measures, 183
Posttreatment Followup
behavioral weight control program, weight loss, 18–24 yr old residence hall students, posttreatment followup, 8495
behavior therapy, improvement, agoraphobics, 5–9 yr followup studies, 8543
bilateral ECT, memory for past events, depressed patients, 7-mo followup, 1675
cognitive & behavioral therapy, thought patterns & overt behavior, suicidal depressive 20 yr old male, 2- & 14- & 42-mo followups, 6354
cognitive therapy vs imipramine, symptoms & treatment completion, depressed outpatients, 1-yr followup, 1653
course of illness, schizoaffective vs bipolar manic depressive patients, 10452
course of illness, schizophrenics, followup studies, 10487
course of illness & age & cause of death, schizophrenics, long term followup study, 10467
Crown-Crisp Experiential Index profiles, psychoneurotic symptomatology & weight & menstrual function outcomes, females with anorexia nervosa, 4–8 yr followup, 10688
diagnostic problems, paranoid schizophrenia, schizophrenic patients, long term followup study, 10458
EMG biological feedback training, fluency, adult chronic stutterers, 3–6 mo followup, 13366
evaluation, home care treatment program, over 18 yr old acutely ill psychiatric patients, 1-yr followup, 8709
hospital admittance regulations, treatment & length of stay, elderly psychiatric patients, followup study, 1961
interpersonal psychotherapy &/vs amitriptyline, symptoms & social adjustment, acutely depressed outpatients, 1-yr followup, 1686
lithium & diazepam & oxazepam, plasma concentrations, depressed patients, 3–26 mo followups, 8594
low dosage haloperidol vs thiothixene & aftercare, side effects & maintenance, schizophrenic outpatients, 8604
postsurgical psychological & sexual & socioeconomic adjustment, male-to-female & female-to-male transsexuals, 13375
residential treatment, 6–12 yr olds, followup study, 6503
strategies for maintenance of therapy gains, 10787
surgical replantation following self inflicted upper limb amputation & psychiatric consultation & treatment & followup, 4 case reports, 1676
symptoms & social adjustment & prognosis, antisocial children observed in followup study 4–20 yrs after psychiatric hospital discharge, 8714
token reinforcement procedures, cigarette smoking & reduction maintenance at 1-yr followup, psychiatric outpatients, 13451
work record & further education & psychiatric treatment, school phobic adolescents, posttreatment followup, 5539
Posture
anesthetic abolition of knee joint afferent discharge, postural reflexes, conscious cats, 7639
development of social vs manipulatory vs postural vs locomotor behavior, free living baboons, 7353
direction of postural lean & body congruence, judgment of psychotherapeutic rapport, male vs female college students, 1743
ECS & cauterization of VIIIth nerve, vestibular compensation at various intervals, male rats, 812
empirical evidence for vs against neurological model of J. Levy & M. Reid of writing hand/posture, 7503
handedness & writing posture, dichotic ear asymmetry, students & young adults, 7433
head & tail postural orientation during courtship, male eastern garter snakes, 638
human postural signals, intentions to depart, African vs American dyads vs singles, replication of J. S. Lockard et al, 5419
physiotherapy, patients with emotionally conditioned psychosomatic disorders, 1649
position of hindlimbs & forelimbs, wiping reflex of hindlimb, spinal frogs, 5304
postural asymmetry assessed by tail pinch vs suspension vs holding vs path walking & dextroamphetamine, prediction of circling direction, male vs female rats, 9785
posture training as part of normalization, mentally retarded, 8741
prolonged vision reversal, postural control & adaptation as measured by ability to maintain balance while standing or walking on rails with eyes open vs closed, 20–48 yr olds, 319
reinforcement music controlled with "mercury devices", head posturing, Ss with cerebral palsy, 10910
stimulus control & maintenance of upright walking posture, 28 yr old severely retarded male, 3-mo followup, 8518
Velten's mood-induction procedure, nonverbal behaviors associated with depression including head-down position & hand movements, female college students, 9608
Potassium [See Also Potassium Ions]
potassium deficiency, preference for potassium deficient vs sufficient fluids, male mice, 3082
social isolation & intracranial potassium chloride vs ouabain vs cycloheximide, memory formation for passive avoidance task, chickens, 7631
Potassium Ions
early malnutrition & electrical stimulation of fornix, hippocampal seizure threshold & potassium content, rats, 804
Potential (Achievement) [See Achievement Potential]
Potentials (Evoked) [See Evoked Potentials]
Potentiation (Drugs) [See Drug Potentiation]
Poverty
economic &/vs health problems, life satisfaction & stress reactions & perceptions of own situation, 65–94 yr olds, implications for cognitive theory of adjustment to aging, 3296
education & counseling & assistance with bureaucracy, older people with cumulative disadvantage of social deprivation & disability, 8671
occupational status, suicide, 13050
occupation & socioeconomic status & personality attributes, evaluation of residential stressors, residents of family housing projects vs private moderate vs high income apartments, 2296
sociocultural deprivation & neuroticism, deprived vs advantaged 17–20 yr old males, 7904
Power
achievement & affiliation & power motives, male vs female respondents, 1960 vs 1976, 5894
attitudes toward police roles & discretion & perception of power & expectation of danger, male police training recruits, 9159
behavioral decision making modeling, measurement of need for power & affiliation & achievement, scientists & engineers & graduate students & management executives, 3696
brain norepenephrine turnover & individual power drive, mastery of power-related vs neutral material, male college students, 7542
client's perception of counselor characteristics, counselor power, review of research & methodologies, 1934
concern for people & results vs cooperation & assertiveness, handling of conflict behavior during cooperation within groups, teachers, Netherlands, 3611
decision rules distribution of power in unequal power groups, college students, 10319
deprivation, achievement & affiliation & power & approval motivation & anxiety, male 15–25 yr olds, 8071
desire for control & proattitudinal vs counterattitudinal arguments, attitude change, college students, 10346
family power, literature review, 1970–79, 10251
job seniority & experimental instructions, styles of ingratiating behavior, technical vs nontechnical male workers, 2266
organizational environment, internal power patterns, organizational executives, 11461
power & leadership & stress management in organizations, 4543
rigidity & parental discipline, male college students, 7976
structure of national elite networks, US vs Australia, 3475
supervisor power & interdependence with subordinate & performance feedback & level, evaluations, college students, 1269
surveillance & power assertive vs inductive vs neutral appeal for sharing, altruistic behavior, male vs female 2nd & 3rd graders, 10179

sympathetic activation & immune function & illnesses, college males rated high in need for power & inhibition & power stress, 1600
trust in administrative decision making & need for power & satisfaction with work content & economic issues, pro-union voting, college faculty, 11149
withdrawal of performance contingent pay system involving monetary incentives, perceptions of supervisors' influence & power, paper plant personnel, 13755
Practice [See Also Distributed Practice, Massed Practice]
amount of previous training on VI operant task, choice of freely-available vs response-contingent food, pigeons, implications for response variability in studies involving free food, 5111
audience presence during overt practice, learning of familiar vs unfamiliar words, college students, 11928
category scales vs semantically constructed scales vs heart rate, ratings of perceived exertion during bicycle riding, experienced vs untrained vs inexperienced Ss, 2448
commissurotomy & practice, performance of unimanual vs bimanual sorting tasks requiring same vs different vs opposite simultaneous decisions by left & right hemispheres, patients, 8319
covert vs overt rehearsal &/vs elaboration of training situations, assertiveness & self efficacy, 18–54 yr old nonassertive clients, 1796
direct vs indirect training, change in hemisphericity, gifted high school & graduate students, 3377
distributed vs massed practice, RT in recall of newly learned paired associates over long series of trials, Ss under 40 vs over 60 yrs of age, 1045
educative & suppressive effects of positive practice & restitutional overcorrection, eating behavior & puzzle performance, severely retarded adults, 8721
effects of experience, learning, 5019
experience & instructions & preferences, compressed speech comprehension, US Army personnel, 2720
game vs nongame slides, speed of location of volleyball, female college athletes vs nonathletes, 4881
habit reversal vs negative practice training, hairpulling, male & female Ss, 1767
individual differences & biological vs experiential bases of natural abilities, 765
instructions & visual experience, accuracy of relative distance judgments, adventitiously vs congenitally blind vs sighted 21–60 yr olds, 8361
item by item cueing & semantic categorization vs noncategorization of stimulus words, recall of selected words, 2770
knowledge of results of previous performance, facilitative effects of practice, college students, 2786
length of musical training, preference for right vs left ear in identification of recurring melodies & excerpts, college faculty vs student musicians vs nonmusicians, 7499
maintenance rehearsal duration, long term recency effect & recall, college students, 494
mental practice vs physical practice vs imagery, acquisition of perceptual motor skill, male college students, 2669
multiple retest & testing time conditions, intraindividual variability in fluid intelligence test performance, 60–84 yr olds, 9303
negative practice & systematic desensitization, treatment of test anxiety, college students, 4058
perceptual motor task rehearsal difficulty & response delay period, RTs & phasic cardiac responses, male college students, 760
performance on WISC vs Revised WISC, gifted 3rd & 5th graders, 7114
personality characteristics, regularity of meditation, 3683
practice on flexibility of closure & spatial scanning tasks, performance on electronic fault finding task, college students, implications for personnel training, 6828
practicing motor skill under fatigue vs nonfatigue condition, learning & performance under heavy ,fatigue condition, male college students, 2679
preparation time & intertrial interval, serial RT task performance, college students, 2782
presentation & test trial training, motor acquisition & retention, adult Ss, 2651
pretraining procedures & stimulus characteristics, acquisition of matching-to-sample behavior, male White Carneaux pigeons, 593
previous experience with differentiated vs undifferentiated linguistic construction, facilitation of novel solution to problem, male college students, 425
prior testing in air, distortion & adaptation in underwater sound localization, blindfolded divers, 4601
rehearsal vs generation of imaginary scene & memory set size, recognition RT, 467
reinforced in vivo practice of graded step sequence, swallowing difficulty, 16 yr old female leukemia patient, 1820
repetition of sentences having externally-supplied vs S-generated sentence-completing words, subsequent misidentification of words as self-generated, 427
reward & reinforced practice, behavioral tolerance to ethanol, rats, 3150
self imposed time out & positive practice & restitution vs straightening-up schedule, room sloppiness, 22 yr old female, 13274
spatial task training, performance on Piagetian spatial task, 1st & 2nd vs 3rd & 4th graders, 8-mo longitudinal study, 12474
structured vs nonstructured basketball game information, recall level, female college basketball players vs nonplayers, 5013
suppression of subvocal rehearsal vs listening to white noise vs saying items aloud & confusable vs nonconfusable lists & presentation rate, letter sequence recall, college students, 504
training in use vs observation & analysis of verbal skills, interpersonal communication skills, speech-language pathology students, 6575
training level & locus of nonrewarded-rewarded trial transitions, resistance to discrimination in brightness conditioning problem, rats, 571
training on verbal shadowing task, average auditory evoked response, 5079
use of practice interviews for prediction of interview behaviors, 2344
videotape feedback of assertive role playing, perceived competence & satisfaction, college students, 6319
vocal repetition & isolation of nonhomogenous item, recall of trigrams, high school students, 462
Practice Effects
activity vs no activity during response delay period, short term memory, male pigeons, 5106
anxiety & neuroticism & sex & distributed vs massed practice & trials, digit-symbol coding task performance, college students, 466
apprenticeship of concept of class inclusion, 7–9 yr olds, Africa, 3345
content only vs self instruction training, conceptual tempo & cognitive level before & after training, preoperational vs concrete operational 2nd graders, 10030
criterion content & practice effects, foveal metacontrast, normally seeing graduate students, 394
daily exposure to vertically striped rotating drum, optomotor tracking efficiency, cichlids, 579
displays of different numbers of targets & target direction & distance & practice & individual differences, saccadic latencies, college students, 356
distributed vs massed practice, RT in recall of newly learned paired associates over long series of trials, Ss under 40 vs over 60 yrs of age, 1045
extent of movement & terminal position & practice, range effect in positioning task as seen in over- & undershooting errors, college students, 2656
handling by tail vs body & additional CS-shock treatment, hurdle jumping escape from fear performance, female rats, 7321
increased study time for selected items in middle of list, subsequent level of & position in free recall for those items, college students, 11936
increased tonal frequency &/vs speech rate & practice with various accelerations, sentence intelligibility & transfer from training, college students, 9534
Lamaze breathing vs deep slow breathing & light finger massage & actual vs imaginal rehearsal, pain tolerance, female college students, 7552
learning of episodic material, retrieval of semantic information, 17–34 yr olds, 5014
lecturing vs modeling vs role playing, remedial reading tutoring skills, paraprofessional tutors, 11170
length of temporal separation of dicotic clicks & practice, auditory discrimination, Ss, 11855
magnitude of vertical horizontal illusion, college students, 7172
massed practice &/vs distributed practice, performance on monaural localization task, 21–29 yr olds, 7203
motor & verbal practice, Stroop Color Word Test response latencies, college students, 333
number of detection vs nondetection searches, visual search accuracy, 7187
number of trials & time on task, auditory signal detection performance, 20–26 yr olds, 4964

perceptual motor task rehearsal difficulty & response delay period, RTs & phasic cardiac responses, male college students, 760
practice, signal detection in visual backward masking paradigm, college students, 348
practice & age & drug sensitivity, visual-motor tracking, 5–14 yr old hyperactive males, 13087
practice & awareness of study's purpose, detection of global 3-dimensional organization of visual patterns corresponding to projection of rotating sphere, Os, 361
preparation time & intertrial interval, serial RT task performance, college students, 2782
pretraining & intertrial interval & random CS-UCS vs UCS only presentation, acquisition of response in autoshaping, pigeons, 9625
prolonged practice, preferred hand superiority in finger tapping, 20–27 yr olds, 11753
rehearsal instructions & trials, serial order short term memory performance, reading disabled 2nd vs 5th graders, implications for mediation vs production deficiency, 1543
repeated exposure to diving environment, adaptation to narcosis, 21–48 yr old males, 9819
repetitive study of & testing on same set inclusion structure & immediate feedback, conversion errors & RTs on test for integration of related information in prose, college students, 421
reversals on attitude statements in questionnaires, 2462
rule difficulty & practice & response label, complete learning, 13–14 yr olds, 10033
short term meditation practice vs listening to lecture, hypnotic responsivity, male college students, 525
stimulus orientation & spatial frequency, perceptual learning, 4910
subvocalization rate as predictor variable, immediate memory span, college students, 9592
synonym vs antonym vs rhyme production & intervening tasks, semantic activation & facilitation effects, college students, 4999
time & duration of exposure, temporal changes in detection & localization of gap in Landolt circle, adults, 2698
training, effect of operant lever height on avoidance learning acquisition, rats, 5121
vocal repetition & isolation of nonhomogenous item, recall of trigrams, high school students, 462
word vs picture list & recall & number of recall trials, hypermnesia in cumulative responses per trial, college students, 9566
work behavior & product vs job knowledge & mechanical aptitude, test-retest reliability, trainee lathe operators, 11449

Practicum Supervision
differences in accuracy of patient interview data observed vs reported to supervisor, medical students, 13497
individual supervision, individual psychotherapy training, 2009
parallels between student-patient & student-supervisor problems in psychoanalytic training, 1995
practicum experience in university clinic, school psychology graduate students, 11100
self evaluations of videotaped student-client interactions vs instructor evaluations, competencies, music therapy majors, 11060
supervisory relationship, individual psychotherapy training, 2010

Pragmatism
pragmatic orientation in language disorder treatment techniques, 6211

Praise
adult modeling vs praise vs collaboration & same- vs cross-sex condition, responsiveness to adults on selection of play materials, female vs male 3rd graders, 3452
auditory vs visual vs multisensory preferences & instruction modality & praise & verbal feedback, recall of new words, learning disabled elementary school students, 4395
developmental differences, effect of material vs praise rewards on motivation, kindergartners vs 4th graders, 7898
minimal praise, creative blockbuilding, 3 yr olds, implications for development of creativity in structured & unstructured educational models, 10154
pairing with nonretarded students & teacher praise for motor skill performance vs social interaction, social interaction, trainable mentally retarded 12.6–14.8 yr olds, 9040
perceptions of praise & affection & confidence & discipline given by mothers & fathers, male vs female high school students, Senegal, 1097
positive examiner verbal comments, Revised WISC performance, institutionalized educably mentally retarded students, 7092
praise & food reinforcement & physical prompts, reduction of rate of eating, 9–12 yr old profoundly mentally retarded rapid eaters, 8501
praise-ignore vs praise-soft reprimand combination, behavior modification, disruptive junior high school students, 11259
praise &/vs noncontingent vs contingent correct self recording, pronunciation during oral reading, 11 yr old learning disabled male, 4404
self monitoring & assertion skill & positive statements, lying & provocative peer statements & appropriate social behavior, 18 yr old female delinquent, 9-mo followup, 10887
self monitoring & telephone consultation, anorexia nervosa, 18 yr old college student, 13298
social praise during correction procedure of skill training, self initiated responses, institutionalized mentally retarded Ss, 6313
social sharing with mothers & maternal praise & encouragement, Black 19 mo old lower income infants & mothers, 3426
toilet training & cuing & praise & self cleaning, classroom encopresis, 6 yr old male, 1780

Prayer
Rabbinic view of regulation of consciousness, attention & awareness as pertaining to meditative prayer, 2817

Praying Mantis [See Mantis]

Precocious Development
psycholinguistic & sensorimotor skills, precocious reading skills, 4.9–6.5 yr olds, 7787

Predatory Behavior (Animal) [See Animal Predatory Behavior]

Predelinquent Youth
symbolic vs tangible incentives, responsiveness in learning task, predelinquent vs nondelinquent 15 yr old males, 3285

Predictability (Measurement)
BASIC microcomputer program, calculation of regression model test of predictive bias, 4711
Kuder Occupational Interest Survey, prediction of success from police training academy, male recruit graduates vs those who resigned vs were dismissed, 9376
new approach for measurement of ability & speed & accuracy in same psychological test & improved prediction of criterion, college students, 11665
number of items right on test, method for obtaining prediction interval of corresponding score on parallel test form, 7014
predictability of MMPI scales, antidepressant responses to lithium therapy, male vs female outpatients, 9326
problems in application of prediction analysis techniques to relationships between 2 developing concepts, critique of T. Froman & L. J. Hubert, 7127

Prediction [See Also Occupational Success Prediction]
aggressiveness & pathogenic variables, aggressive 2–5 yr olds, 7874
alternatives to lamda & kappa coefficients, predictions of modality & agreement & specified configuration, 2608
analytical & synthetical diagnostic methods, prediction of performance & social behavior in sports, 9152
animal behavior, prediction of earthquakes, kangaroo rats, 2829
anxiety & hostility & locus of control in 36th wk of pregnancy, prediction of postpartum depression, females 6 wks postpartum, 5960
athlete's anxiety state, competitive swimming performance, literature review, 5056
attitude measures for identification of population at risk for unemployment & factors influencing unemployment duration, 16 yr old school leavers, 13711
biological vs cortical function differences, responsivity to treatment, manic patients, 8425
California Psychological Inventory subscales as predictors of coping with child's leukemia, parents, 192
causal attribution & sex & professional status & past experiences, behavioral response to failure, rejected authors, 5844
certainty of self perception, self presentation behaviors, female college students, 1351
childrearing attitudes, prediction of success as teachers of own children, parents of mentally retarded 4.5–8.4 yr olds, 9050
chronic self esteem level vs current task feedback, emotional preferences vs cognitive expectations for success, college students, 12873
comparison of 4 strategies, resolution of difference of opinion among experts, college students, 10320
configurality in multiple cue probability learning, college students, 11956

congruency & consistency & differentiation constructs by J. L. Holland as predictors of job satisfaction within nursing occupation, 22–60 yr old registered nurses, 4232
construction of Day-to-Day Stress Scale, prediction of physiological arousal from habitual subjective arousal, male vs female college students, 168
contexts & predictability of aggression, chimpanzees, 5145
correlation between recall & self predicted likelihood of free recall of words presented once vs twice & in massed vs distributed practice, college students, 5049
creativity test results, prediction of individual differences in hypothesis generation, college students, 11904
demographic & experiential variables, prediction of attitudes toward disabled persons, college students, 10344
demographic &/vs social competence variables, predictions of length of hospitalization, 4169
development of screening procedure involving biographical & personality & physiological data, prediction of performance under sickness inducing motion, seamen, 4528
development of systems for prediction of speech discrimination scores from audiometric thresholds, 4972
development of tennis-specific version of Test of Attentional & Interpersonal Style, 16–56 yr old tennis players, 9431
dimensionality & validity of multidimensional locus of control scale, prediction of health & job related outcomes in military environments, US Navy enlisted men, 11630
drug & drinking behavior, adolescents & young adults, literature review, 3588
external environment & behavioral predispositions & committee structure, facilitation of problem solving in bargaining, labor-management committee members, 11459
eye movements during rest, hypnotic susceptibility, college students, 524
factorial modeling, implications for educational policy manipulations prediction, 2586
family structure & behavior patterns, learning disabilities with vs without hyperactive syndrome in offspring, male 5–12 yr olds, 6074
fetal heart rate & perinatal & maternal factors, prediction of sex of fetus, 3026
foveal warning stimuli, frequency of predictive saccades to constant-location target, college students, 11837
impression formation of personality vs prediction of future behavior, information organization vs recall ability, college students, 11897
information presented & experimental instructions, probability learning, college students, 11966
interval predictability, recall of recency items in list learning task, 15–22 yr olds, 5523
IQ test vs Categorizing Test vs Family Test, prediction of intelligent problem solving behavior, high school & college students, 5521
judgment tasks, retrieval of information about past events & use of information to make decisions, college students, 7270
knowledge of results of previous performance, facilitative effects of practice, college students, 2786
knowledge of team name, rating of football team quality & prediction of game outcome, college student fans vs oddsmakers, implications for use of mathematical model, 429
level of ego development, prediction of type & severity of psychopathology, neurotic & psychotic & character disordered patients, replication of L. R. Vincent & K. R. Vincent's study, 1500
level of predictability of outcome for terminal link, preference for that link, male pigeons, 5103
list & model of English palindromes, 5429
locus of control & E status, prediction of hypnotic suggestibility, college students, 5878
locus of control & intent to purchase internally oriented products, college students, implications for prediction, 13798
market segmentation analysis, effect of product attributes & personal values & demographic characteristics on brand preference, fast food restaurant customers, prediction implications, 2299
Markov chain model, prediction of psychiaric inpatient utilization by age group, psychiatric patients, 4875
maternal attitudes & Lamaze training participation & demographic characteristics, prediction of length & manageability of labor, mothers, 13368
MMPI scores, predictors of outcome of short vs long term hospitalization, schizophrenics vs nonschizophrenics, 2428
model, prediction of loudness discrimination, 11872
model of attitudinal vs dispositional vs situational interpersonal predictions, impression formation, male vs female college students, 10355
nasal inoculation of rhinoviruses & recent life stress & personality traits, cold symptoms & infections, 18–49 yr olds, 10740
National Educational Development Tests performance, prediction of later scores on College Board Scholastic Aptitude Test, 9th graders, 4420
need for multiple criteria to analyze multidimensional job performance, 11450
neuroticism & self esteem & sex & parental characteristics & extraversion & locus of control, vulnerability to depression, postgraduate students, 8077
nondiagnostic vs diagnostic information, predictions about individuals, college students, 1282
number of past citations, prediction of future number of citations, scientists, 6560
optimal property of least squares weights, prediction models, 9446
parent educational background & language & family structure & socioeconomic level, prediction of intellectual performance, Mexican American preschoolers, 10120
past academic performance of 1st & 6th & 12th grade students, performance evaluation & prediction, college students, implications for teacher expectancy effects, 6694
Performance-Verbal discrepancy on Revised-WISC, prediction of recidivism, 14- & 15 yr old adjudicated White male delinquents, 6032
personality & demographic & attitudinal variables, effectiveness of conventional vs systematic social science method of jury selection, college & law school students, 5678
positive vs negative future events & knowledge of unrealistic optimism of others, prediction of occurrence for self & others, college students, 8087
potential positive behavior & incentive, positive behavior, potential bus riders, 10345
prediction analysis & developmental priority, reply to D. Moshman's critique, 7120
prediction analysis & reliability, mastery test, 2427
prediction configural frequency analysis, evaluation of psychotherapeutic effects, 8442
prediction of air-to-ground target recognition in reconnaissance missions as function of photometric & geometric characteristics, 9137
prediction of future moves, problem solving tasks, college students, 9535
prediction of hypnotizability from California Psychological Inventory, college students, 11670
prediction of intention to attend church & church attendance, college students, comparison of H. C. Triandis's & M. Fishbein's models, 5788
prediction of perceptions of psychiatric hospital treatment program, family members, 4159
prediction of preferences of peers vs nonpeers, accuracy & differentiation, 4–5 vs 8–9 yr olds vs college students, 12588
prediction of weapons effectiveness in suppressive fire, military personnel, 9179
predictive capability & input required & interpretation task complexity, immediate use of choice prediction method, consumers, 6912
predictive variables, marital adjustment, married couples with at least one college student spouse, Australia, 5657
predictors of salary satisfaction, managerial & professional & technical personnel, 13767
predictors of self mutilation, 20–43 yr old schizophrenics, 10439
preferences expressed in 2 unlike 2-choice sexual stimulus conditions & response latency, predictions of relative reinforcement value of preferences, 36 yr old male pedophile, 9600
previous suicidal behavior vs intensity of problem situations, suicidal behavior, psychiatric inpatients, Netherlands, 3756
problems in application of prediction analysis techniques to relationships between 2 developing concepts, critique of T. Froman & L. J. Hubert, 7127
problems in assessment & prediction of performance, individual differences in diurnal rhythm, 36
pseudocues & supercues, prediction of oral reading comprehension as measured by cloze test, 2nd & 3rd & 4th & 6th graders, 4451
psychiatric symptoms & distortion of perception of severity vs prognosis of child's illness, parents of children with cystic fibrosis & leukemia, 13101

psychosocial variables & stress, incidence of cancer & internal diseases, Yugoslavia, 1965–1975, implications for prediction, 1584
quantity vs quality & frequency of solution responses measured by stringent vs lenient criteria, prediction of creative problem solving ability, college students, 9305
Quick Text scores, prediction of WAIS scores, adult White vs Black in- vs outpatients, 9396
rank vs equal weighting of alternatives techniques, decision changes, 9459
reconceptualized expectancy model used for predictions of key entry performance, actual average performance, key entry operators, 11447
regression equation for prediction of Wechsler Memory Scale visual reproduction subtest scores, geriatric patients with visual or manual dexterity handicaps, 2471
Research Diagnostic Criteria subtypes, prediction of response to amitriptyline & short term interpersonal psychotherapy, 18–65 yr old ambulatory depressed patients, 1665
role in organization, predictability of job satisfaction, hospital administrators vs health care professionals, 11490
running time & oxygen consumption & extraversion/introversion, 13–26 yr old male middle distance runners, performance prediction implications, 3036
sex differences, self esteem & performance expectancies, married couples, 3532
sex of target & assertive vs passive behavior, prediction of behavior & personality rating along sex stereotypic trait dimensions, college students, 8048
sex & parental socialization & need for achievement & affiliation & job & family involvement preferences, prediction of traditional vs egalitarian marriage preference, college students, 3531
sleep & depression, 61 yr old female catatonic schizophrenic, 8135
sociodemographic variables, adjustment to new culture, 18–70 yr old American immigrants, Australia, 5610
step-wise multiple regression, statistical predictions of change in severity of aphasia, brain damaged 15–79 yr olds, 272
subtest scatter on Revised WISC & higher intellectual potential, 8–17 yr olds in special classes for mentally retarded, 11388
subvocalization rate as predictor variable, immediate memory span, college students, 9592
suckling behavior, prediction of obesity, mice, 9731
type of communication apprehension situation, predictability of amount of anxiety experienced, college students, 5762
type of school & duration of English instruction & length of stay in English speaking countries & time between high school graduation & university admission, English reading proficiency, psychology students, West Germany, 4333
US Army Infantry School Assessment Center ratings, prediction of field leadership performance, officers & noncommissioned officers, 6841
use of microcomputers, more realistic pictorial flight displays for monitoring & prediction during transition to manual control, aircraft pilots, 9210
use of multivariate statistical procedures to predict suicide potential, depressive patients, 6053
use of practice interviews for prediction of interview behaviors, 2344
uses of bootstrapping models & comparison to equal weighting models, clinical judgment, 245
utility of absolute vs relative theories, prediction of size vs direction of accentuation effects, 9468
valance of evaluation & distinctiveness of evaluator, causal attributions & predictions of evaluator's future behavior, evaluated vs noninvolved college student Os, 5798
validity & generalizability of multivariate predictive model of organizational commitment, employees at facilities for developmentally disabled, 13773
vascular element change, prediction of mood change, female manic depressive psychotic, longitudinal study, 1419
viewing vs not viewing S. Milgram's obedience film, predictions of punishment level in obedience situation, college students, 1291
word prediction ability tests, diagnosis of reading disabilities, 147
1st-rank symptoms of K. Schneider in prediction of outcome, schizophrenic patients, 14-yr followup, 1403

Prediction Errors [See Also Type I Errors, Type II Errors]
potential positive behavior & incentive, positive behavior, potential bus riders, 10345
ridge regression, mean square error of prediction obtained with ordinary least squares for MMPI profiles & diagnoses, psychiatric patients, 7117

Predictive Validity
accuracy of Motivational Attrition Prediction computerized algorithm, prediction of graduation, US Air Force pilot & basic military & technical trainees, 6837
anesthesiologic vs psychiatric treatment & sex & type of pain, MMPI scores, chronic pain patients, predictive implications, 1677
applicability of M. Fishbein's model of attitudes & beliefs vs other models, changes in attitudes & beliefs between disagreeing peers, college students, 10337
California Psychological Inventory & Opinion Scale, prediction of success in counselor education Master's degree program, graduate students, 4450
cloze pretest procedure, prediction of novel & short story reading comprehension posttest scores, 10th grade English literature students, 9083
construction & correlation to academic achievement & reliability & predictive validity of multidimensional motivation instrument, 1st–8th graders, 9429
construct & predictive validity of California Entry Level Test, 1st graders, 4455
correctness of results using mathematical model when one assumption of model is violated, 7138
critique of Scholastic Aptitude Test as college admission tool, 4457
cross-validation of prediction formula IQ vs actual IQ, determination of premorbid cognitive functioning level, non-neurologically impaired psychiatric patients & outpatients, 9371
development of MMPI index, prediction of acting-out hostility, female prisoners, 11676
factors from Neale preschool developmental index, prediction of longitudinal reading performance, children, 4812
infant tests & home stimulation score, prediction of language & cognitive development, 4 mo to 2 yr olds, longitudinal study, 9413
intelligence & achievement & visual-motor performance, learning disabled vs emotionally impaired children with mean ages of 10.32 vs 10.53 yrs, 10417
internal structure & predictive validity of Inventory of Learning Processes, academic achievement, college students, Australia & Philippines, 9131
leader task orientation vs supportive-interpersonal orientation, prediction of group performance, US Air Force enlisted men, test of validity of least preferred coworker scale interpretation, 4770
locus of control as multidimensional correlate of political involvement, college students, measurement & prediction implications, 1338
Markov chain model, prediction of psychiaric inpatient utilization by age group, psychiatric patients, 4875
MMPI, predictor of weight loss, females, 2547
multidimensionality & predictive & construct validity of Least Preferred Co-worker Scale, US Army reservists in field training, 4826
parent report of preschool development using Minnesota Child Development Inventory, prediction of reading difficulty, kindergartners, 3-yr followup at end of 2nd grade, 11339
performance on Educational Set Scale, prediction of concept vs fact learning performance, college students, 11358
personality & achievement motivation, performance on & predictive validity of Questionnaire Upon Mental Imagery scale, college students, 11905
Physical Health index as predictor of Mental Health index score, self report interview assessment, North African Jewish immigrants, Canada, 1377
predictability of MMPI scales, antidepressant responses to lithium therapy, male vs female outpatients, 9326
prediction of WAIS Full Scale IQs from Quick Test scores, mentally retarded psychiatric patients, 9394
prediction of WAIS Full Scale IQs from Quick Test scores, 46–78 yr old mental health center patients, 9395
prediction variables & criterion related validity of National Teacher Examinations mathematics & science tests, junior & senior high school teachers, 7115
predictive ability of MMPI, imipramine response, hospitalized male depressives, replication of study by E. F. Donnelly et al, 11679
predictive validity, DSM-III vs J. P. Feigner vs other definitions of schizophrenia, psychotic patients, 8153
predictive validity, linear-logistic test model for analysis of progressive matrices, 15–18 yr olds, 7018
predictive validity, model for assessment of prediction of job preference & anticipated satisfaction, college students, 4837

predictive validity, models for decision making in signal detection task using simultaneous auditory & visual stimuli, college students, 11751
predictive validity for 1st grade academic achievement, developmental tests, Black Head Start 5 yr olds, 6749
predictive validity of Home Observation for Measurement of Environment, prediction of academic achievement, Black 3–5 yr olds, 9324
predictive validity of Metropolitan Readiness Test & Meeting Street School Screening Test, subsequent scores on Metropolitan Achievement Test, 1st graders, 9127
predictive validity of short forms of Wechsler Preschool & Primary Scale of Intelligence, 4.5 & 8.5 yr olds, longitudinal study, 2442
predictive validity of Slosson Intelligence Test, identification of learning disabilities, high risk kindergartners, 4413
predictive validity of Stanford Early School Achievement Test, 2nd grade performance on Stanford Achievement Test, 1st graders, 4432
predictive validity of WISC & Raven Coloured Progressive Matrices, academic achievement, deaf 5–12 yr olds, 9335
predictive validity of 16PF prediction of military performance as measured by officers' ratings & peer nominations & course grades, female officer trainees, 7047
predictive validity of 1976 Edition of Metropolitan Readiness Tests, subsequent reading & math achievement, female vs male 1st graders, 4447
predictive validity & test-retest reliability, study skills inventory, high school & junior high school students, 11385
prior subject interest & ratings of instructional effectiveness, college students, 2140
quantity vs quality & frequency of solution responses measured by stringent vs lenient criteria, prediction of creative problem solving ability, college students, 9305
Quick Text scores, prediction of WAIS scores, adult White vs Black in- vs outpatients, 9396
race & sex differences, differential validity of Horst Reversals Test as predictor of reading achievement, Black vs White 1st graders, 9098
reliability & factorial complexity & predictive validity of Test of Syntactic Abilities Screening Test, differentiation of hearing impairments, mildly vs severely vs profoundly deaf 8–12 yr olds, 222
reliability & predictive validity of teacher ratings vs sociometric measure, social competence, 2–5 yr olds in day care, 9075
scores on vocational interest inventories, prediction of job performance, police officers & cadets, 2245
selected MMPI scales, differentiation between violent & nonviolent prisoners, 18–40 yr old inmates, 9363
sex & major & school year & academic performance, factors of satisfaction with instruction, college students, 8942
short versions of Porch Index of Communicative Ability, prediction of standard scores, aphasic patients, 4782
Slingerland Screening Tests for Identifying Children with Specific Language Disability, prediction of learning disabilities, learning disabled vs nondisabled 1st graders, 4419
unidimensional vs multidimensional & generalized vs situation specific measures of locus of control, prediction of environmental activism & personal conservation & antipollution activities, activists vs nonactivists, 11655
use of synthetic criterion data to calculate predictor composites in test battery, 4766
use of test battery to predict suicide potential, hospitalized psychiatric patients, 9417
utility of variables in selection model as predictors of candidate selection & future performance, clinical psychology & counseling Master's degree applicants, 8784
validity generalization & situational specificity of Law School Admission Test, prediction of 1st-yr grades in law school, 13677
validity of peer ratings, evaluation of potential performance, ranger trainees, 6821
validity of preschool assessment instruments, prediction of 1st grade achievement, male vs female kindergartners, 13691
validity of Reasons for Smoking scale, smokers at smoking cessation clinic, implications for prediction of quitting success, 9362
validity of Remote Associates Test, prediction of productivity in brainstorming groups, college students, 11642
validity of simulated commons dilemma, prediction of choice between exploitative & cooperative response, college students, 5751
validity of Threshold Trait Analysis technique, job analysis & prediction of job performance level, clerical & administrative & technical employees, 11668
validity & reliability of Myklebust's Pupil Rating Scale, detection of reading & arithmetic difficulties, 1st & 2nd graders, 4438
verbal praise vs nonevaluative comments by examiner, validity of Revised WISC as predictor of academic achievement, intellectually superior elementary & secondary school students, 11391
WAIS Verbal-Performance discrepancy, prediction of lateralization of lesion, brain lesioned males, 7028

Predisposition

antithymic activity in blood serum, schizophrenics under 40 yrs old, 10492
anxiety & hostility & locus of control in 36th wk of pregnancy, prediction of postpartum depression, females 6 wks postpartum, 5960
anxiety & locus of control, type A vs B college students, 5877
attributional style & helplessness & depression, college students & children, 12990
behavioral patterns of sheep, coyote predation, 2913
biological & genetic influences in acquisition & maintenance of phobic fears, 8204
boundary confusion vs lack of familiarity hypotheses, predisposition to hallucinate, alcoholics who did vs did not hallucinate, 13044
characterological traits, coronary patients with Type A personality vs Ss with Type B personality, 13109
childhood separation from parent & emotional traumata, adolescent mental disorder, 14–19 yr olds, England, 5957
choice of performance enhancing vs inhibiting drug after task success vs failure, Type A vs B male college students, 13163
choice of stimulus rate & self reports vs actual physiological arousal during achievement situation, male vs female Type A vs Type B college students, 762
construction of short screening procedure, identification of Ss at risk for learning disabilities, prekindergartners, 9101
coronary prone behavior & irrational beliefs, college age vs older males, 12869
correlation between Adolescent Structured Interview & Bortner Adjective Rating Scale & self reports, Type A behavior pattern, 13–18 yr olds, 9412
critique of diagnostic criteria, manic depressive illness, 8–18 yr olds with 1 manic depressive parent, implications for developmental approach, 8159
dependency, development of cancer vs benign tumors vs hypertension vs gastrointestinal ulcers, male VA domiciliary residents, 10679
depressive states, onset & maintenance of obesity, adults, 5918
development, infants from birth through 1 yr of age born to parents with serious mental disorders, implications for vulnerability for schizophrenia, longitudinal studies, 12981
development & familial occurrence of schizophrenia & paranoia, midlife paranoia patients, 1499
development of matched task items investigating single word referent communication, measurement of cognitive slippage, schizophrenics & affective disordered patients, extension of test developed by E. E. Smith, 5970
development of rating scale, psychotic & psychotic-like experiences, college students at risk for psychosis, 2452
development & validity of rational scale in use of human figure drawings, kindergarten screening measure, kindergartners, 2184
deviations in developmental equations for EEG recordings, brain dysfunctions, 6–16 yr olds with learning disabilities & at risk for neurological disorders, 10404
differential development, brainstem auditory evoked potentials, normal vs high-risk infants for birth- or pregnancy-related CNS damage, prognostic implications, 8367
early family transactions, personality development & psychopathological outcomes, children, 1076
factor analysis of A-B personality type of C. D. Jenkins et al, Australian Ss, 6164
familial vs demographic vs clinical vs laboratory variables, bipolar vs unipolar dichotomy, institutionalized unipolar vs bipolar probands, 1487
family incidence of sleepwalking & night terrors, genetic implications, 3912
family risk factors, females who had incestuous vs seductive relationships with their fathers during childhood, 8201
frequency of self reference & physiological measures & neuroticism & extraversion, degree of proneness toward cardiovascular disorders, Type A & Type B male college students, 8347

generation differences & familial resemblance & maternal effects, hand preference, college students, 7413
genetic counseling, decisions about childbearing & marriage, people at risk for Huntington's chorea, 4130
genetic propensity in alcoholism, 1531
genetic theory & validation of indicators of high risk genotype & diagnosis, children of schizophrenics, 12968
genetic vs environmental factors & characteristics of biological vs adoptive parents, inheritance of alcoholism, 23–43 yr old adopted males reared by nonrelatives, 10548
harassment & competition, cardiovascular & plasma catecholamine responses, Type A vs Type B males, 5276
identification of health risk, illness behavior & others' derogatory perceptions, high risk pallet plant workers, 12926
inactivity vs strenuous mental work, catecholamine & cortisol excretion & heart rate, Type A vs Type B male college students, 763
internal external locus of control, selected bibliography, implications for counseling & education of high risk & minority students, 12871
level of achievement demands, dissociation of sympathetic- & pituitary-adrenal arousal, Type A vs Type B male vs female college students, 7531
level of challenge & Type A vs B behavior, blood pressure & heart rate, male college students, 5273
level of Type A behavior, reduction in sleep duration, college students, 7512
masking stimulus energy & set vs non-set conditions & duration of target stimulus, recognition of target, implications for figure-ground segregation, 390
material social circumstances & clinical symptoms & genetic risk, prediction of course of minor psychiatric disorders, psychiatric outpatients, 5964
morbidity risks for affective illness & schizophrenia, 1st degree relatives of schizoaffective probands, 10501
nature of parent mental disorder, distractibility in discrimination task, 13–18 yr old children of schizophrenic vs bipolar vs unipolar disordered parents, 7796
news of risk for early heart disease as stressful event, stress & other reactions, 35–57 yr old males with no previous symptoms of heart disease, 1588
parental absence & child institutionalization & home quality, development of schizophrenia, male 9–20 yr old offspring of schizophrenic mothers with childhood patterns of electrodermal lability, 8180
patterns of cigarette smoking usage & cessation & related illnesses since 1955, US & Canada, 5704
peer sociometric ratings & teacher judgments, targeting children with interpersonal relationship problems, male vs female 3rd–5th graders, 13056
perceived coercion & resistance to persuasion, male vs female Ss with Type A vs B coronary prone behavior pattern, 10368
periods of inactivity vs strenuous mental work, catecholamine & cortisol excretion & heart rate, Type A vs B male college students, 1315
personal & family background & psychological assessment & treatment, female monozygotic twins discordant for obsessive compulsive neurosis, implications for genetic predisposition, 1437
personality characteristics, alcohol use patterns, adults, 1210
personality & parental treatment, behavior problems, children at ages 1–5 yrs, longitudinal study, 13022
personality & performance correlates, susceptibility to biasing information, student teachers, Israel, 13544
personality traits, perceived susceptibility to cardiovascular disease & severity of attack & benefits of preventive behavior, adult males at increased risk for cardiovascular disease, 6140
physical anhedonia & perceptual aberration levels, proneness to psychosis, college students, 10466
predictability of aversive stimulus, GSR amplitude & cardiac anticipatory acceleration, male infarction patients & Ss with high vs low infarction risk, 8383
predisposing sociocultural factors, parental violence toward children, 1509
privacy & territoriality sentiments & locus of control, proneness to experience of crowding, female college students, Japan, 3702
professional training, dispositional bias in diagnosis, therapists vs nonprofessionals, 6539
psychiatric symptoms & MMPI schizophrenia scale scores & attentional deviance, adolescent offspring of schizophrenic mothers raised in foster homes, 1451
psychological correlates of cardiovascular disorder diagnosis, male vs female 25–68 yr olds, 13154
psychopathology, children of divorced vs nondivorced manic depressive patients, 5977
quality of competitive participation, injured Type A vs B intercollegiate football players, 10367
relaxation training, persistence & academic performance, high risk college students, 10903
reliability & validity of Jenkins Activity Survey Form T, coronary prone behavior patterns, male vs female rural vs urban college students, 2506
risk factors, depression, depressed 18–65 yr olds vs nondepressed patients with personality disorders, 8171
segregation & genotype linkage analysis, predisposition & incidence of unipolar depression, family members, 12950
sex & Type A behavior & low masculinity sex role orientation, social self esteem & anxiety & depression, college students, 3681
social class & other factors, Type A behavior, men & their wives & other family members, 5884
sociobiological view of human behavior & conflict, implications for counselor role, 26
stimulus specificity, physiological response to stress, coronary prone vs noncoronary prone male college students, 5277
supervised exercise program, physiological & psychological variables, Type A vs B 25–61 yr olds, 5270
sympathetic activation & immune function & illnesses, college males rated high in need for power & inhibition & power stress, 1600
symptomatology & etiological theories of conversion reactions, proneness of people with hysterical personalities, implications for physical therapist referrals, 1455
techniques for identification of handicaps in young children, 10420
threat to self esteem vs threat of shock, cognitive coping strategies & pulse rates & blood pressure, Type A vs Type B male college students, 3724
Type A attitudes & behavior, degree of coronary occlusion vs angina pectoris, employed males, 13168
Type A behavior, ischemic heart disease, 13129
Type A behavior, myocardial infarction patients & rheumatics, Poland, 13166
Type A behavior & merit of scientific work, male members of the Society of Experimental Social Psychologists, 8070
Type A behavior pattern, personality traits & life adjustment & coronary heart disease, male patients, 1591
Type A behavior & personality traits, male vs female college students, Sweden, 5870
Type A coronary-prone behavior, fear of failure orientation, male college students, 1316
Type A personality, coronary artery disease, Irish vs Italian Catholic vs White Anglo Saxon Protestant 18–70 yr old males, 1572
Type A personality & impulsivity, college students, 12862
Type of challenge situation, blood pressure & heart rate, female Type A vs B college students, 7540
understimulation vs overstimulation, adrenal-medullary & adrenal-cortical responses, Type A vs Type B college students, 775
unsuccessful inner adaptation of nervous system & hormone production & role of ego, predisposition to psychosomatic illness, 1612
use of multivariate statistical procedures to predict suicide potential, depressive patients, 6053
utility of absolute vs relative theories, prediction of size vs direction of accentuation effects, 9468
vulnerability factors, depressed 18–65 yr old males, 13001
Preference Measures [See Also Least Preferred Coworker Scale]
development & validation of Krantz Health Opinion Survey, measurement of preferences for different treatment approaches, college students, 7072
experimental procedure, measurement of individual preference in choice of grocery store, 4822
Preferences [See Also Aesthetic Preferences, Food Preferences, Occupational Preference]
academic preference & performance, Chicano vs Anglo college students, 4343
age of peer model, selective imitation, kindergartners vs 2nd vs 4th graders, 10135
age & sex, preferred listening rates for speech, 18–87 yr olds, 2726
age & sex, role of social experiential factors in preference for odors from stressed vs nonstressed conspecific male, mice, 628
age & sex differences, recognition & acceptance of physical disabilities, 3–4 vs 4–6 yr olds, 10180

age & sex & race, color preferences, 18–61 yr old psychiatric patients, 3782
age & sex & race, preference for own name, 7–16 yr old Black vs White students, 12569
age & visual stimulation in rearing environment, light seeking behavior, 15–90 day old rats, 9658
alcohol consumption & ingestion role & drink preference, probationers vs convicted drinking drivers vs normal drinkers, 10545
alternative wood chewing & wheel running & cage exploration, nest building, wild house mice, 9663
amphetamine vs chlorpromazine vs physical restraint, play behavior vs amicable social behavior vs selection of play partner preferences, juvenile rats, 12370
ascending vs descending synthetic maternal calls, preference, aurally isolated wood ducklings, implications for experimental precursors to seemingly instinctive behavior, 9690
attitude similarity & caste preference & sex, attraction toward strangers, India, extension of M. Rokeach & H. C. Triandis controversy, 5763
auditory vs visual modality preference, differentiation of beginning reading instruction & reading success, children, literature review, 13578
ball size & color, catching performance, male vs female 7–8 yr olds, 12505
bilateral lesions of forebrain & exposure to visual imprinting stimuli, subsequent preference for training vs new visual imprinting stimuli, chicks, 12337
brick pots vs plastic buckets as home environments, occupancy preferences & social interactions, male octopuses, 9668
choice vs no choice in type of activity, attendance at exercise program, female adults, 2814
cohabitation with chick vs guinea pig continuously vs intermittently vs isolation, social preference, chicks, 9694
color & brightness preferences in visual stimuli, male rhesus monkeys, 2898
con- vs heterospecific male odors, competition for space, voles, 5182
counselor ethnicity & sex & amount of information provided about qualifications, client preference, Chicano vs Anglo college students, 3956
cross cultural differences, preference for son vs daughter, Australian vs Greek vs Italian vs Malay vs Chinese vs Indian parents living in Malaysia vs Australia, 10207
cross-fostering after birth, development of olfactory preferences, male vs female cross-fostered vs in-fostered vs nonfostered adult lemmings, 9697
demographic characteristics, preference for living in town vs countryside, 13–23 yr old secondary school students, Senegal, 12576
demographic characteristics & videotaped measure of preferred interpersonal distance, discrimination between violent vs nonviolent male criminals, 1516
developmental differences, taste sensitivity & preferences, children & adults, literature review, 7782
development & validity of male & female versions of sex role behavior & preferences self report inventory, male vs female college students, 4831
dextroamphetamine vs diazepam vs placebo, drug preference & mood, 21–32 yr olds, 12374
dextroamphetamine vs placebo, drug preference & mood, 21–32 yr olds, 12375
discrimination between siblings vs nonsiblings, tadpoles separated before hatching & reared alone, 12099
early rearing with isotonic vs hypertonic saline solutions vs water & pretest saline exposure, 2-bottle saline preference, male rats, 817
ear preference for Spanish vs English words, bilingual 8–11 vs 12.3–15.2 yr old Spanish Americans, 7453
employee attitudes & company policies toward job relocation, 9160
environmental factors, preference for thyme plants, ants, 2852
evolution of leks & benefits & preferences for least costly males, female animals, 9733
expectations & preferences of teaching methods, college students, 4374
experience & instructions & preferences, compressed speech comprehension, US Army personnel, 2720
experimental procedure, measurement of individual preference in choice of grocery store, 4822
extraversion & neuroticism, choice & avoidance of social situations, college students, 12851
feeding on one or other of differently moving prey types, preference for familiar vs unfamiliar type, 3-spined sticklebacks, 12146
filial attachments & sexual preferences, cockerels, 5178
gender preferences for firstborns, married couples expecting 1st child, 12680
height & width/depth & shape of models of spaces, affective responses, implications for designing actual settings, 11828
high vs moderate water deprivation, development of sucrose preferences, male rats, 2846
history of neoclassical microeconomic theory from perspective of rational choice theory, 4649
inferior vs equal vs superior task performance, reward allocation by friend, 4.5–6.5 yr olds, 7906
information seeking strategies & instructions & experience & preferences, speed & comprehension in listening to compressed speech, US Army enlisted personnel, 4958
instinctive preferences for living models vs painted sign stimuli, chicks hatched & raised in isolation, implications for releasers of imprinting, 640
intelligence & sociometric status & academic & attentional competence, preferences for & adult judgment of social desirability of ingratiation tactics, learning disabled vs nonlearning disabled 3rd–6th graders, 13618
interlocking progressive-ratio reinforcement schedule, determination of reinforcement preferences, 10.8–18.4 yr old multihandicapped severely & profoundly mentally retarded, 8545
isolation & visual stimulation, color preferences, chickens, 12022
legibility distance & comprehension & preference & glance legibility of symbolic public information signs, 2274
length of exposure to alternatives & cues, toxin identification & avoidance, male rats, 7313
length of musical training, preference for right vs left ear in identification of recurring melodies & excerpts, college faculty vs student musicians vs nonmusicians, 7499
level of predictability of outcome for terminal link, preference for that link, male pigeons, 5103
likes vs dislikes of life experiences, 13–23 yr olds, Senegal, 10370
limitations of preference methodology for study of auditory–visual coordination, 3 & 7 & 10 mo olds, 7799
logic of Barron-Welsh Art Scale construction & scores by creative persons as related to preference for complexity, 2518
male vs female Christian names, familiarity & favorability, Australian & English Ss, 12844
market segmentation analysis, effect of product attributes & personal values & demographic characteristics on brand preference, fast food restaurant customers, prediction implications, 2299
masculine vs androgynous vs feminine candidates, choice for agentic vs communal roles, college students & business owner/managers, 12715
masculine vs feminine males vs females, attraction in sex role preferences, college students with traditional vs nontraditional attitudes toward females, 8051
matching of careprovider preferences & client characteristics, community placement success, developmentally delayed clients, 8660
mate preferences, female mottled sculpins, 5148
methodological discussion, discrepancies between religious preference & affiliation, survey research, 6992
motivational vs cue properties of incentives, choice discriminations, 5–6 yr olds, 7824
multiple schedule procedures, preferences for free vs earned water, rats, 555
noise stress & morphine, conditioned preference response, rats, 583
object rating task, consumer information processing strategies, 30–39 vs 50–59 vs 60–69 vs 70–79 yr olds, 10001
operational definition based on secondary preferences, method for obtaining comparable value distances, 2421
own image in Plexiglas vs mirror vs age mate, relative attractiveness, ducklings, implications for imprinting, 2942
parental preference & vocational aspiration & self concept & leadership, female college students, 7955
peer comments on preferences vs performance, correct use of paragraphs in written composition, 4th graders, 6676
peer ratings of leadership performance & leader preference ratings, male vs female cadets at ROTC Advanced Summer Camp, 2214
performance evaluation by comparison to own vs others' prior results & achievement motivation, goal setting & attribution to efforts, 11–13 yr olds, 6693
personality characteristics, on-stage &/vs backstage participation, 18–65 yr olds involved in community theater productions, 12866

personality characteristics, preferences in pet ownership, adults, 3708
physical conditioning, preferred work load level & performance on bicycle ergometer, female soccer players, 2642
pictorial vs verbal & analytic vs holistic learning strategies, science learning, male vs female college students, 5012
placement on inclined surface & age differences, orientation & move toward gravity, male rats, 9720
play partner preferences, goats, 7348
political candidates' characteristics, voting preferences, college students, 10278
prediction of preferences of peers vs nonpeers, accuracy & differentiation, 4–5 vs 8–9 yr olds vs college students, 12588
preference for assigned notetaking vs full vs partial distributed notes, multiple-choice vs essay test scores, college students, 13555
preference for classification vs seriation responses to cardboard figures varying in size & color, male vs female 60–89 yr old Indian Ss, South Africa, 12480
preference for ethanol in geographic populations, fly larvae, Australia & New Guinea, 2954
preference for free choice vs forced choice, pigeons, 531
preference for punishment of instrumental vs consummatory response, male Long-Evans rats, 604
preference for symmetrical vs nonsymmetrical figures, Down's syndrome 6.4–15.8 yr olds vs non-Down's syndrome subnormal 7.8–16.4 yr olds vs normal 3.9–4.5 yr olds, 8274
preference & perceived similarity & ethnic self labeling, development of outgroup attitudes, Black vs White preschoolers & 1st graders, 7846
preferences expressed in 2 unlike 2-choice sexual stimulus conditions & response latency, predictions of relative reinforcement value of preferences, 36 yr old male pedophile, 9600
preferences for mother or father vs TV, Mexican American 3–21 yr olds, 3443
preferences for solutions of sugars & salts & acids, Egyptian spiny mice, 3018
presentation of novel olfactory stimulus while suckling, preference for stimulus, infant rats, 12015
product prices & S's income level, perceived product quality & preference & purchase intent, 20–50 yr old females, 13799
properties introduced by P. Gardenfors, preferences on subsets of set, 2582
proposed axioms for numerical model with lexicographic additive differences, individual preference relations, 2571
proposed circularity index as alternative to M. Kendall's & R. Slater's consistency indices in paired comparisons, measurement of choice behavior & preferences, 2559
pulse frequency & current variations, On & Off Times in intracranial self stimulation, rats, 9873
racial & ethnic identification & preferences, 4 & 5 yr old White vs Black vs Mexican American Head Start children, 3450
racial identity attitudes & self designation, preference for Black vs White counselor, Black college students, 1936
racial preference & identification in doll selection procedure, White kindergartners through 3rd graders in multi- vs monoracial schools, replication of K. B. Clark & M. K. Clark's study, 2136
reinforcer magnitude, preference for response alternative associated with certain vs uncertain reinforcement, male pigeons, 7341
relationship between color preferences & adjustment, psychiatric patients, 3775
research on taste preferences & W. Wundt's schema of intensity affect in sensory stimulation, 6989
retention of long-delay one-trial conditioned preference, monkeys, 7299
rewarding unpreferred hand, persistence in reaching with preferred hand, stumptail monkeys, 9703
right vs left neocortical ablation & handling, brain & behavioral asymmetries for spatial preferences in open field, rats, 851
school psychological consultation service, preference for consultation vs referral models & perceptions of severity of acting out & withdrawal & academic problems, teachers, 2185
sex, preference for auditory & visual complexity, 5 vs 17 yr olds, 3342
sex differences, preferences for aggression vs nonaggression & partial fantasy vs reality vs fantasy in TV shows, 7–15 yr olds & fathers, Pakistan, 3226
sex differences, responses to odors of familiar vs novel sex partners, rats, 2897
sexual composition of rearing group, preference for novel vs familiar member of opposite sex, Japanese quail, 12094
shock modifiability, preference for signaled shock, female Sprague-Dawley rats, 542
signaled vs unsignaled shock, preference & extinction of contextual fear, male rats, 12031
simple exposure vs exposure associated with conspecific & sensory affective bias, establishment & maintenance of preference for olfactory stimuli, rat pups, 565
situational stress & sex, interpersonal distance preference, college students, 3645
size & shape & permeability of spatial preferences, institutionalized vs noninstitutionalized blind vs sighted Ss, 1586
socioeconomic group & work experience & sex, leadership preferences, Chile, 13752
socioeconomic status & father's absence & family size & birth order, conceptual style preference, male vs female 6th graders, Jamaica, 976
stimulus color & duration & exposure quality, pecking preferences, neonatal chicks, 5166
test anxiety & IQ & need for achievement, preference for complex play materials, 6–10 yr olds, 8935
therapy selection according to preferences, empathy & relaxation vs psychotherapy vs behavioral instructions vs communication of religious values, male alcoholic patients, 6526
time, photobehavior, Drosophila species, 9744
time of lithium & footshock pretreatment, preference for novel vs familiar auditory & visual & taste stimuli, rats, 9860
TV viewing habits & personality traits, 14 yr olds, 7714
type of living accommodation, environmental perception & interaction preferences regarding privacy & solidarity, 60–89 yr old nursing home residents, 8691
type size & style & line width & spacing, reading speed & acceptance ratings, 60–84 yr olds, 2712
usefulness & practicality & validity of conjoint analysis, preferences in simulated contractor negotiation, 6971
utility of curvilinear "comfort" models, interpersonal distance preferences, college students, 1245
viewing antimale vs antifemale sexual cartoons, verbal & heart rate & skin conductance responses, male vs female college students, 12272
visual field preferences for Hebrew & English words, right handed 12–13 yr olds, Israel, 12478
voter preferences & behavior during 1978 Mississippi Senatorial primaries, adult survey respondents, 1176
work outcome preference & evaluation, Europeans vs Maori vs Samoans, 12649

Preferred Rewards

candy vs traditional vs culturally relevant social reinforcement, performance on Revised WISC, 9–11 yr old mildly mentally retarded Black males, 10616
length of delay interval, choice between large vs small reward, female college students, 5063
location of small reward reinforcement, negative contrast, male rats, 2839
preference for music listening vs juice as reinforcement, 2 phases of motivation & reward in learning, profoundly mentally retarded, 10899
preference for reward vs recognition & task performance & job type, tank crews, 11480
preferences expressed in 2 unlike 2-choice sexual stimulus conditions & response latency, predictions of relative reinforcement value of preferences, 36 yr old male pedophile, 9600
psychophysical function for mapping duration of rewarding brain stimulation to reward value, rats, 9868
reinforcer magnitude, preference for response alternative associated with certain vs uncertain reinforcement, male pigeons, 7341
risk-sensitive foraging preferences, juncos, 5141

Pregnancy

ACTH &/vs naloxone, offspring growth & eye & vaginal opening & open field activity & threshold for heat, pregnant mice, 12389
age differences, duration of mating, female rhesus monkeys, 9732
asexuality vs sexuality, motherhood, 5701
cannabis resin injection during pregnancy, brain & body weight & emotionality & learning capacity in offspring, female rats, 897
cannabis smoke exposure & dietary protein levels before & during pregnancy, length of gestation & stillbirths & litter destruction & pup activity, female rats, 9829
childbirth education, maternal anxiety reduction, primigravidae, 1890

demographic characteristics of family & contraception knowledge & practice & motivation for & boyfriend & parents' reaction to pregnancy & premarital sexual activity, unwed pregnant teenagers vs sexually active adolescents seeking contraception, 3568
diphenylhydantoin vs phenobarbital during specific gestation periods, conditioned avoidance behavior & learning deficits & birth defects in mature offspring, pregnant rats, 12360
distress due to denial of abortion, complications during pregnancy & delivery & puerperium, mothers, 13076
ethanol administration during gestation vs lactation, maternal behavior & developmental & behavioral & pharmacological characteristics of offspring, female rats, 9925
evaluation of comprehensive pregnancy care program, female opiate addicts, 6 mo followup survey, 8424
fetal heart rate & perinatal & maternal factors, prediction of sex of fetus, 3026
group vs individual hypnosis, reduction of vomiting, pregnant females with hyperemesis gravidarum, 6422
hindsight vs foresight conditions, perceived likelihood of outcome of pregnancy test, females, 9550
imipramine vs amitriptyline, fetal malformations, hamsters, 12364
interpersonal skills program, prevention of teenage pregnancy, adolescent females, 5654
lying behavior & stall utilization, pregnant dairy cattle, 2886
medial preoptic area lesions, maternal behavior, pregnant hysterectomized & ovariectomized rats, 7612
naltrexone & stage of pregnancy & parturition, endorphin-mediated pain threshold increases, rats, 5374
perinatal attitudes & perceptions, Black vs White vs Cuban-Hispanic pregnant females, 10211
personality traits & manifest anxiety level, women seeking abortions, 5853
phencyclidine administered through gestation, gestation & maternal behavior & characteristics of pups, female mice & their offspring, 3173
pregnancy & amygdala kindling, convulsions & EEG responses, female rats, 7585
pregnancy & subliminal pregnancy message, phallic imagery, college students & 21–45 yr old females, 5690
prenatal stress, learning ability, rat pups, 12077
pre- & perinatal characteristics, victims of Sudden Infant Death Syndrome vs survivors, 10700
primary vs secondary prevention of pregnancy programs, adolescents, 1918
progestin level in oral contraceptives & trimester of pregnancy, sweetness preference, 17–31 yr old females, 3159
psychotherapeutic treatment, body-ego disturbance, pregnant patients, 1715
race & marital status, need to be held, Black vs White married vs unmarried pregnant females, 8064
reproductive state & home cage vs neutral environment, aggressive behavior, female mice during proestrus vs pregnancy vs lactation, 7402
sex roles & contraceptive use & resolution of unwanted pregnancy, adolescent & adult females, 10282
shipping of pregnant females, mortality rate in offspring, rats, 9292
S's refusal to participate in research & subsequent sampling bias in mother-infant interaction study, pregnant females, 66
systematic approach & importance of early pregnancy testing, 21 yr old female receiving antipsychotic medication, 13333
teenage pregnancy & adolescent sexuality, partially annotated bibliography, 1090
therapist pregnancy, psychotherapeutic transference, 6233
tobacco smoke exposure during gestation & nicotine, fertility & maternal care & tissue nicotine levels & liver weight & offspring survival & activity, female mice bred for high vs low open field activity, 9825
Pregnancy (False) [See Pseudocyesis]
Prehension [See Motor Development]
Prejudice
assumptions made & stereotypes held about women involved in psychology, 11073
desegregation & classroom environment & learning techniques, liking for other students & reduced competition & interest in school & self esteem, Anglo vs minority students, 4265
development & validity of Belief Polarity Scale & level of dogmatism, measurement of racial prejudice, Black vs White educators, 2517
functional analysis of prejudice & structural approach to attitude change & intercultural misunderstanding, 3489
policy-capturing, indirect attitude measure to detect prejudice in organizational diagnoses, male college students, 4803
prejudice & discrimination, Turkish emigrants working in West Germany, 5606
racial threat vs symbolic racism, reason for voting for White vs Black mayoral candidate, White suburbanites, 1969 & 1973, 12636
research & theory on discrimination, literature review, 3494
S authoritarianism & prejudice, level of shock administration to Black vs White target, White college students, 5765
sexual problems & effects of attitudinal prejudice, disabled homosexuals, 3936
survey of prejudices & discrimination in school psychology profession, members of Division of School Psychology of American Psychological Association, 8751
Preliminary Scholastic Aptitude Test [See Coll Ent Exam Bd Scholastic Apt Test]
Premarital Counseling
applicability of rational emotive therapy, premarital counseling, 13234
Guerney Relationship Enhancement Program vs lectures & discussions on relationship development, self disclosure & empathy skills, 18–24 yr old premarital dating couples, 6-mo followup, 8457
relationship enhancement vs problem solving programs, perceived heterosexual competence, premarital couples, 10839
Premarital Intercourse
causes & consequences of childbearing, adolescent females, literature review, 1970–80, 10140
changes over time, sexual experience & birth control usage & sex education, unmarried college students, Canada, longitudinal study from 1968–78, 7987
demographic characteristics of family & contraception knowledge & practice & motivation for & boyfriend & parents' reaction to pregnancy & premarital sexual activity, unwed pregnant teenagers vs sexually active adolescents seeking contraception, 3568
premarital contraceptive behavior, high school & college students, literature review, 1158
premarital sex, 1970's, literature review, 10286
sexual guilt & knowledge, attitudes toward abortion, college students, 10131
variables associated with contraceptive use, sexually active never married college students, 10287
Premature Birth
amplitude & latency & interwave differences & ratios of brainstem auditory evoked potentials, preterm vs high risk vs healthy infants, 9799
conceptional age differences, observable behavior during neurological examination, premature infants of conceptual age 29–40 wks, 9997
development & object constancy & attachment to mother, low birth weight preterm quintuplets & quadruplets, 10008
differential development, brainstem auditory evoked potentials, normal vs high-risk infants for birth- or pregnancy-related CNS damage, prognostic implications, 8367
malnutrition vs prematurity vs neural tube defects, educational aptitude & achievement, 10–14 yr olds, implications for special education personnel preparation, 8846
neurologic development, preterm infants, 9996
normative data, brainstem-evoked response audiometry, 33–40 wk old preterm infants, 11575
psychological testing & right vs left hemisphere EEG recording during verbal & perceptual tasks, identification of academic aptitude, low birth weight 12–15 yr olds, 12499
visual perception, preschool age children who had been premature infants, 5492
Premature Ejaculation
counseling & behavioral therapy, sexual dysfunction, married couple, 1763
MMPI scores indicative of psychopathology, male psychiatric outpatients without sexual dysfunction vs premature vs retarded ejaculators, 3925
psychophysiological reactions to neutral vs erotic film, males with psychogenic erectile failure vs premature ejaculation vs impotence, 13118
secondary premature ejaculation due to partner's semen sensitivity, 37 yr old male, 10748
symptom profiles & psychological aspects, males with premature ejaculation vs psychogenic erectile failure vs diabetes related impotence, 13119

Premenstrual Tension
anxiety & personality traits, premenstrual symptoms, menstrual vs nonmenstrual & married vs single parous vs nulliparous 21–30 yr old females, Nigeria, 5268
anxiety & personality traits & sex role attitudes, females with vs without premenstrual symptoms, 10746
causes & personality determinants & effect on mood & experimental designs, premenstrual tension, review of research, 1559
combined antipsychotic & lithium & hormone treatment, severe premenstrual exacerbation of schizophrenia, 18 & 21 & 27 yr old females, 4088
development of research diagnostic criteria & severity rating scales for premenstrual tension syndrome, female 22–43 yr olds, 4834
neuroticism & personality traits measured by 16PF, premenstrual symptoms, volunteers vs nonvolunteers with mean age of 25 yrs, 10738
normality of and stage in mentrual cycle, perceptual motor performance, female 19–38 yr olds, 5281
role of prolactin in schizophrenia & affective disorders & premenstrual syndrome & alcoholism, review of research, 12906
treatment of premenstrual symptoms, literature review, 6119
Premorbidity
childhood separation from parent & emotional traumata, adolescent mental disorder, 14–19 yr olds, England, 5957
course of psychotic symptoms prior to first hospital admission, schizophrenics, prevention & prognosis implications, 12963
cross-validation of prediction formula IQ vs actual IQ, determination of premorbid cognitive functioning level, non-neurologically impaired psychiatric patients & outpatients, 9371
development & familial occurrence of schizophrenia & paranoia, midlife paranoia patients, 1499
diagnosis vs no diagnosis of mental disorder, nonpsychiatric disorders, Norway, 1358
environmental & occupational stress, neurotic & psychotic & other mental disorders, Norwegian islanders, 1426
evaluation of morbidity vs mortality rate, committed psychiatric patients, 11024
family history & premorbidity & EEG status & response to treatment, paranoid schizophrenia vs Kretschmer's syndrome of sensitive delusions of reference, patients, 1418
genetic propensity in alcoholism, 1531
method for estimation of lifetime prevalence of schizophrenia & other mental disorders, 5974
physical anhedonia & perceptual aberration levels, proneness to psychosis, college students, 10466
premorbid personality traits, development of unipolar depression, 13–74 yr olds, 1435
psychiatric symptoms & MMPI schizophrenia scale scores & attentional deviance, adolescent offspring of schizophrenic mothers raised in foster homes, 1451
Prenatal Development [See Also Embryo, Fetus]
chlorpromazine & metabolites crossing placenta to act on fetus, cell proliferation in developing brain, rats, implications for humans, 7679
chronic haloperidol, prenatal & postnatal development, rats, 7695
embryonic experience & development of species-specific auditory perception & repetition rate of maternal call, maintenance of innate postnatal responsiveness, Peking ducklings, 534
etiology & symptoms of fetal alcohol syndrome, 3762
exposure to prenatal ethanol, organization of infrapyramidal mossy fibers in hippocampus, rat pups, implications for mental retardation in fetal alcohol syndrome, 12411
fetal development & malformations, children born to mothers denied legal abortions, 8307
fetal development & mortality & height & weight development through age 12, children of mothers refused legal abortion, 7742
fetal exposure to methadone & heroin, sleep as measurement of nervous system disorders, neonates, 3158
intrauterine environment & genetics & childrearing practices, social behavior & alertness & activity, neonates, Zambia vs US, 5447
in utero exposure to maternal antibody for nerve growth factor, pre- & postnatal destruction of dorsal root ganglion & sympathetic neurons, rats & guinea pigs, 7658
marihuana extract & alcohol, pregnant rats & offspring, 9909
mechanisms that affect human growth, literature review, 7748
prenatal exposure to alcohol & IQ, vigilance task performance, preschoolers, 3332
prenatal exposure to barbiturate, altered sensitivity to ethanol, female Sabra mice & their male offspring, 942
prenatal exposure to cannabis, crossing of placenta & growth & development & behavior, animals, literature review, 857
prenatal sex hormones, gender identity & sex role behavior & sexual orientation & cognitive ability, 2951
prenatal vs postnatal methadone, discrimination learning, adult rats, 3223
prenatal 1, 4, 6-androstatriene-3, 17 dione & testosterone propionate & castration, anogenital distance & body weight & sexual behavior, male rats, 7646
pre- & perinatal characteristics, victims of Sudden Infant Death Syndrome vs survivors, 10700
protein restricted diet during gestation & lactation & maternal removal-replacement, increased emotional responsiveness & decreased mother-kitten social interactions & attachment behavior, cats, 789
stress during pregnancy, sexual behavior of offspring, female rats, 2928
time of neuropathological lesions, development of mental subnormality, 8230
Prenatal Developmental Stages [See Embryo, Fetus]
Preschool Age Children
ability to distinguish intentional from mistaken or reflexive or passive behavior, 2.8–8.3 yr olds, 10015
ability to remember & draw arrows with correct spatial orientation, writing alphabet, normal 4–10 yr olds vs dyslexic 10 & 14 yr olds, 10617
acquisition of ability to use speech register to make speech appropriate to different listeners, 4 vs 6 vs 8 yr olds, 12511
acquisition of Hebrew inflectional morphology, preschool age children, Israel, 10021
acquisition of /s/ plus stop clusters, substitution strategies including differential use of voice onset time, language delayed 3–8 yr olds, 6096
activity context of social interaction & developmental progression of social skills acquisition, high vs low social interacting 3–6 yr olds, 1094
act of "looking" as self expression & psychoanalytic phenomenon & means of knowledge acquisition, 2–6 yr olds observed in nursery school, 7737
actor-O effect in attributions of own vs friend's preferences, 4.7 yr olds, replication of study by R. E. Nisbett et al with adults, 10130
Adaptive Behavior Inventory for Children, intelligence as measured by Revised WISC, 5–11 yr olds, 4839
administration of Elicited Language Inventory using standard vs modified procedure with contextual cues, spontaneous speech & elicited morpheme use, language-delayed vs normal speaking 1–11 yr olds, 9388
affirmative thought pattern, prenumber conservation response by young children, 1024
age, color vs conceptual clustering strategies in picture memorization task, 3–6 yr olds, 3364
age, comprehension of hypotheses in reasoning & their verbal expressions, children with mean ages of 5.6–10.6 yrs, 3314
age, discounting principle in perception of multiple causation situations, kindergartners & 2nd & 4th graders & college students, 5503
age, mean length of utterance in morphemes, 17–59 mo olds, 10083
age, rhythmic body rocking, deaf & hard of hearing 5–16 yr olds, 3890
age, spontaneous metaphors in free play & comprehension of metaphoric relations, 2–6 yr olds, 3307
age & ability to make comparative temporal judgments, self evaluation & cognitive assumptions after success & failure in competitive task, 28–44 mo olds, 12456
age & amount of information, acquisition of seriation-of-length rule through observational learning, 3.4–4.4 vs 4.5–5.4 vs 5.5–6.4 yr olds, 10095
age changes, sex role attitudes toward reading & other activities, 29–73 mo olds, 10175
age & colors presented unilaterally vs monocularly, visual asymmetry on lateralized color naming task, 5–10 yr olds, 1004
age differences, association of absolute numbers with sensory magnitudes, 5 & 6 yr olds & college students, 5535
age differences, consensual knowledge of experiential determinants of emotion, kindergartners & 3rd & 5th graders, 7847
age differences, discrimination of utterances violating vs not violating conversational sequencing rules & correct evaluation of speaker intent, kindergartners through 3rd graders, 3297
age differences, errors of omission & commission in auditory discrimination of voiceless fricatives, 4–6.5 yr olds, 10090

age differences, facilitation of perspective-taking performance by spatial landmark, kindergartners vs 2nd vs 4th vs 6th graders vs college students, 7808
age differences, formation & organization of personality attributions, kindergartners vs 3rd vs 6th graders vs college students, 10160
age differences, frequency composition of EEG & normal development of electrical activity in brain, 5–12 yr olds, 10007
age differences, perception of relationships between objects, 4–7 yr olds, 7786
age differences, quantification with concrete classes, 4–6 yr olds, 984
age differences, separation anxiety & stranger anxiety, 6–54 mo olds, implications for most desirable age to begin nursery school, 2146
age differences, understanding of defense mechanisms, 4.8–14 yr olds, 10144
age differences, use of discounting principle, kindergartners vs 2nd graders, 10065
age differences, use of indefinite article referents, 5–8 yr olds, 12561
age differences, verb tense used to describe past & future actions, 3–7.9 yr olds, 10056
age differences & stability over 19 wk period, aspiration level, 4–6 yr olds, 7855
age & family income level, conservation of number & mass & continuous quantity development, 5.3–6.11 yr olds from lower vs middle income families, 7813
age & intellectual experiences at home & in day care provided by caregivers vs child with emphasis on language mastery, performance on intelligence tests at age 3, 1–3 yr olds, 989
age & method of 1st trial presentation & 1st trial outcome, learning set acquisition, 3 vs 5 yr olds, 7777
age of child, gaze patterns, mothers & their 6 vs 20 vs 36 mo old children, 3521
age of peer model, selective imitation, kindergartners vs 2nd vs 4th graders, 10135
age of S & melody familiarity & key distance, recognition of transposed melodies, musically experienced vs inexperienced college students & kindergartners through 3rd graders, 982
age & personal background & motivation, dominance of Hungarian vs Russian language, bilingual 3.4–4.8 vs 5.8–6.9 yr olds, Hungary, 12508
age & popularity & nursery school experience, accuracy of reporting own vs peers' best friend, 3–4 yr old nursery school students, 10193
age segregation in social interactions, 1–12 yr olds, 7863
age & sex differences, brain lateralization, kindergartners vs 6th graders, 3306
age & sex differences, mastery & motivation for mastery, 2–5 yr olds, 10176
age & sex differences, prosocial intentions & behavior toward friends vs acquaintances, kindergartners vs 2nd vs 4th graders, 10134
age & sex differences, recognition & acceptance of physical disabilities, 3–4 vs 4–6 yr olds, 10180
age & sex differences in neuropsychological development, academic performance, kindergartners vs 2nd graders, 1042
age & sex & ethnic background, self concept, Anglo &/vs Franco-American kindergartners vs 1st graders, 7861
age & sex & intelligence & locus of control & interpersonal knowledge & length of parental separation, responses to parents' divorce, 5–19 yr olds, 5459
age & sex & school vs daycare, time perception accuracy, 3–5 yr olds, 5501
age & sex & socioeconomic status & race, parent-reported prevalence of behavior problems & social competence, disturbed vs normal Black vs White 4–16 yr olds, 1503
age & sex & task difficulty, lateralized finger recognition, 3 vs 4 yr olds, implications for cognitive development, 1043
age & sex & throwing arm, accuracy of throwing task, preschoolers, implications for structural development theories of Piaget & R. Schmidt, 980
age & situational context, characteristics of speech in responding to questions & role of cognitive & linguistic & sociolinguistic factors, 3–5 yr olds, 991
age & social class, descriptions of differences between rich & poor, 5–7 vs 9–11 vs 13–15 vs 16–18 yr olds, 10172
age & socioeconomic level & sex differences, androgyny, kindergartners through 3rd graders, 7873
age & symptom severity & developmental level, language faults, autistic 3–6 vs 7–9 vs 10–13 yr olds, 1492
age & syntactic environment, skill in combining sentences with temporal adjoiners, 4–6.6 yr olds, 12555
aggressiveness & antisocial behavior & noncompliance & reactivity & depression & anxiety & egocentrism, 5–14 yr old male child psychiatry clinic patients, 12905
aggressiveness & pathogenic variables, aggressive 2–5 yr olds, 7874
allergic factors, autonomy & self assertion in mother-child relationship, 14–30 mo old asthmatic children, 13103
amount & content of TV viewing, listening behavior, preschoolers, 7814
amount of paper space, accuracy of letter strokes vs manuscript strokes, suburban vs urban kindergartners vs 1st graders, 12559
analysis of articulation errors according to distinctive features, articulation vs language disordered 3–8 yr olds, 6105
analysis of lexical semantic relationships for nouns, 3–6 yr olds, 10087
analysis of movement response on Holtzman Inkblot Technique, 5–6 yr olds, 7074
analysis & recommendations, early childhood intervention programs, 8906
application of bitter substance to finger modification of nocturnal finger sucking, 4 yr old male, 1801
array specific information in drawings indicating comprehension of internal spatial relationships & viewing position, 5–8 yr olds, 3350
arrays with 2 vs 3 elements, number conservation, 3 & 4 yr olds, 10104
articulation ability, imitation of suprasegmental patterns, 5 yr olds, 3887
articulation & language development, 3–7 yr olds, 5481
articulation therapy based on distinctive feature analysis of articulation problems, 5 & 13 yr old females, 10965
assessment & aural rehabilitation, post-meningitic hearing loss, 2.9–5.9 yr old males, 8353
assessment procedures, speech perception, 3.1–9.9 yr olds with phonological disorders, 10633
attachment behavior toward mothers vs teachers, 9–31 mo old Black infant-daycare-reared children, 12662
attachment to transitional objects, Black lower middle & lower income vs White middle & upper income preschool age children, 7878
attention training & features & orientations of cartoon faces, perceptual learning, 4–6 yr olds, 12529
auditory numbers test, speech perception, hearing impaired 3–8 yr olds, 10625
auditory &/vs visual separation between TV commercial & program, discrimination of TV program & commercial & awareness of commercial purpose, preschool age children, 4602
autonomic nervous system imbalance & resultant temperamental traits, chronic nonspecific diarrhea, 7 mo to 3.5 yr olds, 6184
autoregressive analysis vs clinical behavioral audiometry, measurement of EEG vs heart rate changes, hearing impaired 3–6 yr olds, 11576
balance in use of interrogative form in verbal interactions, 2.8–3.2 & 4.5–5.5 yr old dyads, 9998
Basic School Skills Inventory, diagnostic preschool screening, 4423
behavioral training program, identification of emergency vs nonemergency situations & making emergency phone calls, 4 & 5 yr olds, 6360
behavioral treatment & response prevention, chronic hair pulling, male 3 yr old, 6-mo followup, 10885
behavior modification, pica, Black lead poisoned female 2 yr olds, 13292
behavior problems, 3 yr olds with West Indian vs British parents, England, 1511
behavior problems & developmental deficits, 5–12 yr olds with behavior disorders, 13023
behavior therapy, night fears & sleeplessness, 5 yr old male & 8 & 13 yr old females, 1798
beliefs about male & female competence, kindergartners vs 2nd graders, 3457
Bender-Gestalt Test for Young Children & Beery Developmental Test of Visual-Motor Integration scores, learning disabled 5–11 yr olds, 2537
bilingual education, 5 yr old male, 3399
bilingualism vs monolingualism, cognitive ability to label vs relabel objects, preschool children, 12534
birth order & age spacing & IQ differences & family relations, brother pairs aged 5–15 yrs & their families, literature review, 3543

birth order differences, sociability with unfamiliar peer, 2.8 yr olds, 10194
birth order & family size, behavior problems & psychological adjustment & socialized delinquency, White kindergartners through 8th graders, 3860
birth order & interaction in same vs opposite gender dyads, peer popularity, kindergartners, 7858
Black vs standard American English background, phonological differences in consonantal development, Black vs White 4–5 yr olds, implications for articulation testing, 10101
Black-White IQ discrepancies & differences in hemisphericity, Black & White 2.5–8.5 yr olds, 10012
brain damage & psychiatric disorders, 5–14 yr olds with overt neurological conditions, 12925
brief behavioral intervention therapy in home, concentration & cooperation & sleep, behaviorally disturbed 14–36 mo olds, 1768
category similarity & frequency of occurrence, same-different classification performance, kindergartners, 12551
changes in play behavior, 3 & 4 yr olds, short-term longitudinal study, 7897
characteristics associated with self esteem in preschool age children, teachers, 7849
child focused mental health consultation model, teachers, 2180
child guidance consultations, children under age 4, 8630
childrearing attitudes, prediction of success as teachers of own children, parents of mentally retarded 4.5–8.4 yr olds, 9050
childrearing practices & parental cooperation, parents of 3–5, & 8–13 yr old hemophilic males, 1599
children's language comprehension level, modifications of adults' child-directed talk, adults & language delayed 4 yr olds, 5437
children's sex & temperament & mothers' permissiveness, goodness of fit in mother-child relations, 34–53 mo olds & their mothers, 1153
child's perceptions of mother & mother's social & emotional health, 4 yr old firstborns & their mothers, 1165
child's sex & self esteem, parental behavior, parents of 4 & 5 yr old males vs females, 3520
clinical psychiatric syndrome prevalence, mentally retarded 4–22 yr olds, followup study, 8112
closeness of relationship with beneficiary, decision to work & duration of effort, 3.3–6 yr olds, 10167
coding & analysis of dialog, cognitive complexity & appropriateness of initiations & responses, 3 yr old females, 4666
coding system, dyadic peer interaction, preschool & school age children, 234
coding system for discrete social acts, measurement of social competence, 3 yr olds, 11584
cognitive development, understanding of conditional phrases, 5–11 yr olds, France, 7819
cognitive & social evaluation of play behaviors, nursery school children & kindergartners, 7759
cognitive training program, social skills improvement, 3–5 yr olds, 13275
color cues & cognitive development, categorizing strategies in picture matrix recall & reconstruction, 5–8 yr olds, 12502
communicative competence & method, language & mode use, profoundly deaf 3–5 yr olds & their hearing mothers, 6132
communicative interaction with adult, problem solving performance, 3–6.5 yr olds, 3388
community mental health clinic services, infants & toddlers up to 3 yrs of age, 10981
comprehension of declarative vs interrogative & positive vs negative indirect requests, 4–7 yr olds vs adults, 10028
comprehension & production of double object bitransitive sentences, 3–5 yr olds, 10088
conceptual tempo & age & sex, visual discrimination performance, 2.8–5.9 yr olds, 7792
concordance of mental development, same- vs opposite-sex dizygotic twins from 3 mo through 6 yrs old, 12563
concurrent validity of Boehm Test of Basic Concepts, estimation of cognitive ability, kindergartners, 9317
conservation of meter in violin playing, kindergartners & 3rd graders, 5514
conservation task performance, underestimation of cognitive development, 4–6 yr olds, replication of J. McGarrigle & M. Donaldson's study, 10034
conservation & transitivity & class inclusion of number, 4 & 5 yr olds, 3338
conservation vs compensation in predicting water height, kindergartners through 5th graders, testing of Piaget's theory of development of conservation ability, 7790
consonant & syllable harmony in speech, language disordered 3.7–4.8 yr olds, treatment implications, 4111
construction & evaluation of Motoric Music Skills Test, measurement of motor skills development, 3–6 yr olds, 2470
construction of short screening procedure, identification of Ss at risk for learning disabilities, prekindergartners, 9101
content analysis of telephone calls to "Line of Hope" psychiatric crisis service, 5–15 yr olds, 1921
contingent observation procedure, reduction of intrusive & noncompliant behavior, 5 yr old, 10871
contrastive stress, interpretation of pronouns in sentences, 5–7 yr olds, 5529
contrasts cued by steady state vs spectral information, discrimination of minimally paired sounds, mentally retarded 3 yr olds vs normal 7 mo olds, 1537
cooperation with others, development of class inclusion concept, 5–15 yr olds, 977
correlations between results of McCarthy Scales of Children's Abilities & other measures of cognitive & motor & perceptual development, 2–5 yr olds, 2492
correlations of subtest scores on Primary Mental Abilities Test, 5–7 yr old twin pairs, 7416
criterion vs overtraining conditions, cue association & discrimination learning, kindergartners, 1029
cross cultural differences, early childhood development & childrearing practices, European-American vs Chinese children from birth to 3 yrs old, US vs Hong Kong, comparison of longitudinal studies, 12565
curricular & instructional design, intervention programs, preschool age handicapped children, 11265
delay after presentation of auditory vs pictorial stimuli, sentence imitation, 3.6–4 yr olds, 7798
delayed auditory feedback & rate instructions & age, sentence repetition performance, college students vs 7–8 vs 4–5 yr olds, 5527
delayed reinforcement & reinforcers as stimuli & alternative response, self control, pigeons, implications for W. Mischel's results with preschoolers, 7306
demographic characteristics of mother's educational level vs sex vs ethnicity vs source of income, ratings on behavior problems, parents of inner-city children with behavioral problems, 12683
deprivation, exercise play, male vs female 2.1–4.9 yr olds, 5584
developmental age, auditory agnosia for environmental sounds & subsequent language disabilities, moderately & severely mentally retarded 3–6 yr olds, 8248
developmental changes, separable perception of dimensions & presence of continuum of integral to separable perception of multidimensional variation, kindergartners vs 4th graders, 5528
developmental changes in problem solving process, probability learning, mentally retarded vs normal 4–7 & 10 yr olds, 1548
developmental differences, comprehension of negators "un" vs "not", 2–6.2 yr olds, 7828
developmental differences, consistency of lateral preference for hand & eye & foot & ear, 3–5 yr olds vs high school students, 10031
developmental differences, effect of material vs praise rewards on motivation, kindergartners vs 4th graders, 7898
developmental differences, effect of peripheral visual field size on recognition in visual search, 3 vs 4 vs 5 vs 21 yr olds, 5517
developmental differences, learning rate & rate of forgetting in serial recall task, 3.3 vs 4.9 yr olds, 1037
developmental differences, understanding of relationship between predictors & consequences, preschoolers vs 1st vs 4th vs 7th graders, 10022
developmental differences & discounting vs perceived control vs reactance vs competing responses vs cognitive scripts, mediation of reward-induced motivation decrements, 4–10 yr olds, 5574
developmental differences & lexical difficulty of stimuli, quantity & manner of production & peak performance of echo reactions, 3–7 yr olds, 7788
developmental & group differences, oral vs written language, normal vs learning disabled 5–7 yr olds, 8266
developmental language program in classroom & clinical settings, language related development, 2–4.5 yr olds, 5-yr study, 8606
developmental level & level of play, mentally retarded preschoolers, 8259

developmental patterns in use of focus vs substitution operations in ongoing discourse, language disordered 3.1–4.2 yr olds, 10641
developmental structuralist approach, classification of adaptive & pathological personality organizations, infants & children, 12585
developmental trends in production of /r/ allophones, 42–62 mo olds with incomplete articulation mastery, 5499
developmental trends of mental abilities & academic achievement, 3–12 yr olds, 7807
development of "bad mother" concept, mother-child relationship & childhood asthma, mothers & asthmatic children observed at 14–30 mo & 4–6 yrs of age, 1578
development of Charlop-Atwell Scale of Motor Coordination, 4–6 yr olds, 2453
development of comprehension of 3rd person personal pronouns, 3–7 yr olds, 12544
development of egocentrism & self concept, perception of E's visual experience of child with eyes closed, 2.5–5 yr olds vs college students, 12492
development of negatives in language, logical denial, 18–36 mo olds, 1031
development of possessive behavior, children, 12581
development of road safety parent training program, safe pedestrian education, 3–6 yr olds, 11193
development of Toddler Temperament Scale, ratings of temperament characteristics, mothers of 1–3 yr olds, longitudinal study, 7077
development of understanding & recognition of spoken word, 5–9.5 yr olds, replication & extension of study by J. Downing & P. Oliver, 1012
development & reliability of Infant & Preschool Reinforcement Survey, identification of reinforcers used in treatment programs for handicapped children, implications for school psychologists, 9337
diagnosis & treatment of near-autism, 3 yr old male, 6267
diagnostic test performance, 5–9 yr olds with developmental apraxia vs functional articulation disorders, implications for differential diagnosis, 8111
directed vs self regulating vs nonregulating private speech, problem solving, 3–5 yr olds, 5519
diverse interpretations of game between adults & 1–3 yr olds, 7894
dominance structure in play group, 2 yr olds, 5553
DRO vs overcorrection vs lemon juice vs aromatic ammonia, suppression of self poking behavior, male deaf & blind & retarded 5 yr old, 6356
dyadic interactions, sentence complexity & form & features of discourse, language impaired 4.3–6.4 yr olds with normal languaged children of similar CAs vs 2.2–3 yrs, 10626
E. M. Koppitz vs J. R. Mercer & J. F. Lewis norms, Koppitz Developmental Bender-Gestalt Scoring System, 5–8 yr olds, 9307
early childhood interactions, educational potential, children, 10006
early education in traffic safety, 4–8 yr old pedestrians, 11197
early identification of handicapping disorders & onset of developmental delay, preschool age children, UK, 10446
early intervention consultation & training, parents & teachers of developmentally disabled children of mean age 47.4 mo & children referred for developmental intervention of mean age 54.2 mo, 13197
early intervention program, assessment of observable skills & behaviors at 2–48 mo, developmentally disabled children, 8422
Early Intervention Program for Preschoolers & Parents, treatment of physical & developmental & behavioral problems, pediatricians, 4126
early phonological behavior, normal vs language disordered 2.6–3.6 yr olds, 3886
early vs late delayed reinforcement, performance in contingent vs generalization classroom setting, 4–5 yr old preschoolers, 8502
ecological variables & examiner biases, clinical assessment, developmentally handicapped 1–5 yr olds & female college students, 5906
effectiveness of auditory screening program & developmental functioning, 4 yr olds, 12473
effectiveness of preschool examinations, detection of visual defects, school entrants with mean age 5.6 yrs, England, 13374
efficacy of earliest childhood memory as psychodiagnostic technique, 5–11 yr olds, case reports, 8388
efficacy of sign vs verbal language training, nonverbal hearing mentally retarded 4.4–8.4 yr olds, 13365
efficacy of supervision program of development & maintenance of language training interactions, institutional staff & profoundly mentally retarded 3–7 yr olds, 8694
eidetic imagery, recall accuracy, 3.5–4.5 yr olds, 3371
emotional & language development, home reared vs day care attending 3.5–4 yr olds, 2-yr followup, 10013
empirical selection of lemon juice punisher, reduction of finger gnawing, 5 yr old mentally retarded male, 10876
enactment vs picture-choice tasks, early language comprehension, 3–5 yr olds, 3343
encouragement of empathy, sharing behavior, 4–8 yr olds, 7869
enrollment in nursery school vs home care, peer vs parent-child interaction, 3 yr olds, 3451
estimation of vehicle approach time, 5–6 vs 7–8 vs 9–10 yr old males vs females vs adults, 1007
etiology & symptoms of early childhood minimal brain dysfunction, 13088
examination vs reexamination scores on McCarthy Scales of Children's Abilities, disadvantaged Black preschoolers, longitudinal study, 10038
example juxtapositions & instruction homogeneity & attention, concept learning, 3–6 yr olds, 12562
expectations for child mastery of developmental skills, mothers of 4 yr olds, Japan vs US, 12635
experimental test of sequentiality of D. C. Gutkin's stages of moral judgments, kindergartners & 1st–2nd graders, 1082
external object context & age, knowledge of household item names & appropriate locations & retrieval from long term memory, 2–4 yr olds, 3376
external vs internal vs no consequences, motivation attributions, kindergartners vs 3rd vs 6th graders vs college age adults, 10141
factor analysis, characteristics of play behavior, 3–4 yr olds, 1091
factor analysis & construct validity, sex differences in McCarthy Scales of Children's Abilities, 3–9 yr olds, 241
factor analysis of primary symptoms of minimal brain dysfunction/hyperkinesis, variance due to information sources, 4–12 yr old males, 6144
factors from Neale preschool developmental index, prediction of longitudinal reading performance, children, 4812
factor structure & specific variance of Wechsler Preschool & Primary Scale of Intelligence subtests, 4–6.5 yr olds at 6 age levels, 9328
failure to relate irregular past base forms & their past counterparts, 3.6–4.1 yr old male, longitudinal study, 10073
family concepts as measured by structured doll play, 3–5 yr olds from divorced parents, 7970
family medical histories & life events prior to disease onset, families of 3–17 yr old cancer patients, 1590
family relationships & dynamics, personality changes, children studied in psychoanalytic kindergarten, 1390
family & social characteristics of home, behavior problems, preschool age children & their British vs West Indian parents, England, 1-yr followup, 1512
fetal development & mortality & height & weight development through age 12, children of mothers refused legal abortion, 7742
footwear modification &/vs DRO procedures, toe walking, male 3.5 yr old, 10879
foveal vs parafoveal presentation of words vs letters, recognition response latency, 11–15 yr old dyslexic vs normal readers, 6063
free play vs structured environment, component skills of spontaneous cooperative play, 2.8–5.6 yr olds, 10153
frequency of imaginary vs realistic fears, developmental changes in structure of fears, kindergartners vs 2nd vs 6th graders, 5541
frequency of reinforcing & neutral & punishing social behavior, popularity & friendship selection & interaction with liked vs disliked vs neutral peers, 4–5 yr olds, 3438
frequency of visitation & adaptive behavior & socialization, institutionalized mentally retarded 5–71 yr olds, 8692
frequency of vs no home intervention, intellectual & social development, severely subnormal preschool children, 3-yr study, 13661
friendship, dyadic communication, 3.5–4.5 vs 4.5–5.5 yr olds, 5548
games, development of helping behavior toward peers, preschoolers, 3400
gender constancy, willingness to play with toy advertised by both gender children, 4–6 yr olds, 10189
gender of child & number of family members interacting, nature of parent speech to child, 2 yr olds & their mothers &/vs fathers, 10264
generalization, snack food preferences, 3 & 4 yr olds, 10023
generalization of left-right concept, 3–4 yr olds, 10041
genetic factors, etiology of personality traits, pairs of twins 1–7 yrs old, longitudinal study, 12606
genetic influences, manual torque, male & female twins & their 4–9 yr old siblings, 3357

genetic vs environmental influences, cognitive abilities, 5–12 yr old twins, 10042
grammatical & behavioral distinctions between auxiliary & copular "is", male 5 yr olds, 5497
grip preferences on ladder apparatus, 2–8 yr olds & college students, 3325
group therapy, behavior improvement & method of assessment by O, 5–7 yr old behaviorally disturbed males, 1746
habitual use of space, prosocial vs antisocial vs social behaviors, 2.5–3 vs 4–5 yr olds, 10147
handedness, recall, 5–6 yr old males, 10069
hierarchical vs nonhierarchical models, dominance in social organization, 2 yr olds, 3419
high vs medium vs low vs no educational intervention in day care program, cognitive development, 2.5–4 yr olds, 8872
history & population & philosophy of the Edna Smith Child Development Center, 10998
hospital intervention program, prevention of behavioral disorders, 3–4 yr old inpatients, 11023
hospital patient characteristics, frequency of parental visiting, 5–22 yr old mentally retarded, 8683
hospital visits with mother following childbirth, behavior after mother's return home, 1–3.5 yr old firstborn siblings of newborns, 10198
House-Tree-Person Test, identification of physically abused children, abused vs well adjusted vs nonabused but disturbed 5–12 yr olds, 9320
hydrocephalus & spina bifida, distinguishing the "cocktail party" syndrome, 5 yr olds, 2- & 5-yr followups, literature review, 8377
hyperserotonemia & tryptophan levels, 4–17 yr olds with attentional deficit disorder, 10690
hypnotic suggestion through personalized fairy tales, insomnia, 3 & 8 yr olds, 10954
imitation learning from nondelayed peers in integrated classroom, developmentally delayed preschoolers, 9058
imitation vs observation vs E vs S manipulation of solid, anticipation of figure rotation & development of surfaces, nursery school students with mean ages of 4.9 & 5.7 mo, 12557
impressions of preschoolers wearing hearing aids, professional & lay observers, 3900
improvement vs decline vs stability of son's apparent performance on learning task, rewards & punishment, 24–45 yr old mothers of 4–7.5 yr old males, 12678
incidence of animistic thinking, 3–7 yr olds, 3394
incidence of minimal brain dysfunction, 5–7 yr old children of mothers aged 35 or older at time of birth, 8326
inclusion of social learning principles into behavioral skill training, satisfaction & perception of child adjustment & compliance, parents of noncompliant children with mean age of 61.75 mo, 10888
increased pattern density &/vs size, preferences in visual discrimination matching task, Down's syndrome 8–16 yr olds vs normal 4–6 yr olds, 6092
individual differences, use of consonants during early phonological development, Ss aged 1 yr 4 mo–1 yr 10 mo, 5505
individual differences in maternal conversational input, acquisition of syntax, children, 1030
individual vs small group instruction, learning, multihandicapped 4.3–5.5 yr olds, 8984
induction to influence another child, imitation of other child, 2.9–4.9 yr olds, replication of study by M. H. Thelen, 10145
infant astigmatism & disappearance with age, 1 mo to 3 yr olds, 10645
infant behavior ratings & concurrent & subsequent mental test scores, Mexican American infants at 12 & 24 & 36 mo of age, 12522
inferior vs equal vs superior task performance, reward allocation by friend, 4.5–6.5 yr olds, 7906
instinctual drives, progression from symbiotic to separation-individuation phase, children from birth to 3 yrs old, longitudinal studies, 5572
integration of new symbol into visually & auditorily similar familiar symbols, discrimination, 5 yr olds, 3311
intellectual functioning & communicative competence, deaf 2.5–4 & 5–6.5 yr olds, implications for assessment of intelligence, 13080
intellectual & language & psychomotor development, male child with agenesis of corpus callosum & megaloencephaly from age 6–34 mo, 10739
interaction between mother & firstborn child before vs after birth of sibling, mothers & their 18–43 mo old firstborns, 1152
interaction with 4 yr olds in communication & block sort task, mothers vs preschool teachers, 4306
interactive vs programed remedial language teaching methods, individual differences in improvement of syntactic constructions, expressive language delayed 3.5–5.7 yr olds, 6433
interest in & understanding of money, 3–11 yr olds, 7795
interpersonal distance, vocal intensity, 3 vs 5 yr olds, 10063
interpersonal problem solving skills, behavioral adjustment, Black preschoolers vs kindergartners, 3293
interrater reliability, observations of social & communication behavior, Os of developmental delayed vs normal 2.8–7.8 yr olds, 11617
interrelationships of biomedical & environmental & developmental variables, Down's syndrome children followed from birth to 36 mo, 8265
intervention of adult model, levels of spontaneous imaginative play, middle vs lower class 4–5 yr olds, 12612
irrelevant stimulus variability, problem solving accuracy & attention, 4 vs 8 yr olds vs college students, 1044
keyword method of teaching Spanish language vocabulary, keyword learning, kindergartners & preschoolers, 11201
kinesthetic movement aftereffects, severely retarded Down's syndrome 8.1–14.1 yr olds vs non-Down's syndrome 9–15.3 yr olds vs normal 4–6.5 & 7.1–15 yr olds, 8223
kinesthetic & visual stimuli vs verbal instructions, performance times for addition exercise & accompanying automatic responses, 4–5 vs 6–7 yr olds, 12477
knowledge of body schema & human figure drawing, brain damaged vs normal 4–6 yr olds, 8308
knowledge of formal aspects of their children's speech, mothers of 2–3 yr olds, 1160
language ability for speaking vs reading vs writing vs understanding spoken English & thinking in English vs Spanish, Spanish-English bilingual 0–6 vs 7–13 yr olds, 12542
language differences, 2.5 yr old twins vs singletons, 7781
language disorders diagnosed at 8–60 mo of age, subsequent speech & language & academic abilities, 4–10 yr olds at 4–5 yr followups, 8286
language management intervention, expressive speech, 1.8 & 3.9 yr old males with deaf parents, 6439
language program teaching combinational & semantic properties of grammatical morphemes, sentence usage, 4 yr old autistic male, 6431
language & speech development, 2–20 yr olds, 12532
language therapy, amount & type of speech disfluencies, language-delayed 4–6 yr olds, 13367
learning set training classification performance with 1 vs 2 attributes, 3–6 yr olds, 10054
left vs right handed tapping while reciting rhyme vs animal names vs memorizing shapes, right handed 3–12 yr olds, implications for development of speech output lateralization, 734
length & informativeness of model messages, communication accuracy, kindergartners, 10125
levels of cognitive processing, recall of learning materials, 3–4 vs 5–6 yr olds, 5498
linguistically based language intervention strategy for teaching syntax, language disordered 3–4 yr olds, 8610
linguistic context, early responses to sentences & comprehension of context & generation of informing responses, language disordered 5–6 yr olds, 6104
linguistic cues about ownership, sharing & verbal & physical defense of owned toys, 32–41 vs 43–64 mo olds, 10148
linguistic & oral motor ability & stuttering frequency & severity, 5–12 yr old stutterers, 10640
listener agreement, detection of articulation errors of 4–5 yr olds, experienced listeners, 3366
marital separation & divorce, parent-child communication & child's adjustment, families with 3–17 yr olds, 1155
markedness of distinctive feature substitutions in articulation, articulation disordered vs linguistically delayed 3–7 yr olds, 6110
maternal mental ability & education & training in child development & socioeconomic status & birth weight & child experiences, verbal comprehension & verbal expression, 3 yr olds, 7831
maternal parenting behavior, child temperament, 3–7 yr olds, 10191
MA vs CA, symbolic play level, Down's syndrome 1.7–4.4 yr olds, 10599
meaningfully related vs unrelated sentences, elicited imitation performance, preschool age children, 7797

meaningful minimal contrast treatment, final consonant deletion & fricative stoppage & fronting of velars, 4.3 & 4.8 yr olds with phonological disability, 10968
measurement, social competence, 3 & 4 yr olds, 3459
memory for own vs others' drawings & block constructions & maze paths, play following failure, 3–4 yr olds, 10086
memory vs neutral instructions, recall of picture information in game context, 4 & 5 yr olds, 5526
metalinguistic competence, prediction of reading & spelling skills, kindergartners, 12-yr & 18-mo followups, 13603
method for selection of specific language deficit, homogeneity in expressive vs receptive language & articulation skills, language impaired 4–8.5 yr olds, 6106
methods for stimulating creative thinking, children, 8864
methylphenidate & neuroleptics & withdrawal of phenothiazine & dyskinesia-dystonia, 2 yr old hyperkinetic male, 8586
mild slap to forearm &/vs DRO vs overcorrection plus DRO, stereotyped & alternative & self injurious behavior, profoundly retarded 5 yr old female, 8488
minimal praise, creative blockbuilding, 3 yr olds, implications for development of creativity in structured & unstructured educational models, 10154
minimal word pair orientation to teaching distinctive features, sound substitutions, 5.3–6.6 yr olds with phonological disabilities, 10958
misdiagnosis of autism as hearing disorders, preschool age child, 1357
mixed vs like dyads, initiation strategies in peer interaction, hearing &/vs deaf dyads of 3.4–5.3 yr olds, 10742
modeling & behavior rehearsal & social reinforcement, learning self protection to prevent abduction, 3–5 yr olds, 4064
modeling with varied feedback & prerequisite skills in seriation learning hierarchy, positive transfer for superordinate skills, 2.9–5.1 yr olds, 983
mother-child relations, deaf vs normal 5–6.5 yr olds, 8309
mother reports of developmental differences, personality & social behavior, fraternal vs identical twins from birth to 6 yrs old, longitudinal study, 9742
mother's control strategies in dyadic mother/child conversations, 3.1–3.4 yr olds & their mothers, 1-yr follow up, 5644
mothers' encouragement of verbalization & knowledge of letters & numbers, 3 yr olds, 12538
motivational vs cue properties of incentives, choice discriminations, 5–6 yr olds, 7824
motor & social contact behavior in interactions with mothers, abused 3 yr olds, 6046
multiallergen extract administered sublingually, behavioral improvement, hyperkinetic 5–13 yr olds, 1865
multiple modeled variations, information acquisition, preschool children, 10027
music, development of cognitive skills, preschool age children, 10080
narcissistic traits, severely abused & emotionally disturbed 2 wk through 6 yr olds, 8186
nature of family constellation & parent-child gender, parental use of evaluative feedback, 3.7–4.7 yr olds & their parents, 10230
nature of mother-child interaction, child development, 12–30 mo olds & their mothers, longitudinal study, 5647
noise & palatal dental appliance, vocal intensity & articulation, 5 yr olds, 5491
nonimitative modeling & mimicry, use of singular copula, Black 4 yr old dialect speakers, 8877
nonlinguistic symbolic & conceptual cognitive task performance, retarded vs nonretarded vs language impaired children, 8243
normal vs delayed language development & intonation cues, auditory sequential memory span & recall, 3.5–6 yr olds, 3337
normal vs impaired expressive language, auditory comprehension & interrelationships of comprehension tests, 4–6 yr olds, 6103
number based sharing strategies, 3.5–6.5 yr olds, implications for preschool mathematics curriculum, 5485
nursery school activities, development, pre-school children, Poland, 6660
nursery school vs parent-run nurseries, preschool socialization & goals & attitudes & behavior of nurses vs parents, literature review, 3444
nutritional assessment, handicapped 2–19 yr olds, 8093
observational vs productivity training method, verbal quality & production, preschool age children, 6661
observation of interactions in family day care homes, preschool children, 10268
occupational sex role stereotyping & vocational interests, 5–6 & 11–12 yr olds, 7866
omission of word-final stops, preservation of voicing distinctions through variations of preceding vowel duration, 3.8–7.2 & 7.5 yr old males, 10643
open communication & experiences with death of pets, development of healthy attitudes & understanding of death, young children, educational implications, 967
orientation in which object viewed, view shown in drawing, kindergartners vs 2nd vs 4th graders, 10061
other's general & specific need state, altruistic behavior, kindergartners & 4th graders, 3432
Otis-Lennon Mental Ability Test IQs & scores on group vs individually administered Bender-Gestalt Test, rural vs suburban kindergartners, 156
overcorrection, self injurious eye gouging, 5 yr old blind male & severely retarded 7 yr old blind female, 6324
overtraining with antecedent relevant dimension, reversal & extradimensional shift learning, kindergartners, 12530
parental self concept & gender of parent & child, behavior, 3.3–4.7 yr olds, 5659
parent-child attitudes & communication patterns, 28–50 yr old parents of stuttering vs nonstuttering 4–13 yr olds, 8290
parent contingency management technique, reduction in morning school preparation time, 4 & 9 yr olds & their mother, 10909
parent educational background & language & family structure & socioeconomic level, prediction of intellectual performance, Mexican American preschoolers, 10120
parent involvement, milieu treatment program, psychotic children, 8461
parent-mediated treatment based on social learning theory, conduct problems, 3–12 yr olds, replication of study by G. R. Patterson, 6330
parent report of preschool development using Minnesota Child Development Inventory, prediction of reading difficulty, kindergartners, 3-yr followup at end of 2nd grade, 11339
parent teaching, language learning, 3.3–5.8 yr old mentally handicapped, 8406
participation in communication program, social interaction with nonhandicapped peers, cleft palate 3–11 yr olds, 10963
participation in early education development project, development, Down's syndrome 3–37 mo olds, 8976
patient-therapist contact in dry-bed training vs urine-alarm conditioning, nocturnal enuresis, 5–14 yr olds, 4041
pattern of perceptual activity, visual imagery, 3–6 yr olds & adults, 12501
patterns of recognition of mother under conditions of emotional stress, 2.5 yr old autistic female & 12 yr old schizophrenic male, 1468
peer interaction during play session, Down's syndrome 3–4.5 yr olds, 10612
peer presence & audiovisual distractor, TV viewing behavior, 3–5 yr olds, 7739
perceived vs actual self concept, preschoolers vs parents & teachers as raters, 3404
perception of phonemic categories, developmental dysphasic vs normal 5–9 yr olds, 6109
perceptual cues vs verbal description, conservation, 5–10 yr olds, 1018
perceptual development & creativity, 4–6 yr olds, 12471
perceptual motor & language development, deaf 5–8 yr olds, 8303
perceptual & motor skills & verbal comprehension performance on McCarthy Scales of Children's Abilities, Puerto Rican 5–8 yr olds, 3386
perceptual vs conceptual criteria, picture recognition, preschool age children, 3383
perceptual vs conceptual object attributes, developmental trends in use of attributes for grouping & clustering in cued & free recall, 4 vs 5 vs 9 yr olds, 3359
performance on Tennessee Test of Rhythm & Intonation Patterns, 3 vs 5 yr olds, 9372
periodicity & time of day, stereotyped behavior & psychological reactions, 5–10 yr old psychotics, 1476
personality factors & age differences, cognitive strategies on probability learning task, 5–15 yr olds, 3327
personality & parental treatment, behavior problems, children at ages 1–5 yrs, longitudinal study, 13022
personal space regulation in interaction with adult male, female 3.4–5 yr olds, 7890

phonological analysis of spontaneous speech, 3–6 yr old Down's syndrome children, 6090
phonological development & analysis of lexical errors, preschool age children, 10121
Piagetian vs Bryant-type number conservation tasks, hierarchy of cues used in number conservation, 4–5 yr olds, 10110
Piaget's vs L. S. Siegel's vs other wording, performance on class inclusion question, 4–8 yr olds, 10059
pictures vs open ended questions as elicitation stimuli & location & use of wireless radio telemetry, expressive language samples, normal vs language disordered 4–6 yr olds, 2359
play behavior, childhood development, preschool age children, Hong Kong, 12572
play & behavior therapy, hair pulling, 3 yr old male, 3977
play vs nonplay experience, subsequent tool use & task strategies, 4–5 vs 6–7 vs 8–10 yr olds, 7839
positive affect induction &/vs instructions, delay of gratification, 4 vs 8 yr olds, 10205
positive vs negative vicarious reinforcement vs no reinforcement of model's choice response, imitation of response, 4 & 6 yr olds, 7826
practice & age & drug sensitivity, visual-motor tracking, 5–14 yr old hyperactive males, 13087
prediction of preferences of peers vs nonpeers, accuracy & differentiation, 4–5 vs 8–9 yr olds vs college students, 12588
predictive validity of Home Observation for Measurement of Environment, prediction of academic achievement, Black 3–5 yr olds, 9324
predictive validity of short forms of Wechsler Preschool & Primary Scale of Intelligence, 4.5 & 8.5 yr olds, longitudinal study, 2442
predictive validity of WISC & Raven Coloured Progressive Matrices, academic achievement, deaf 5–12 yr olds, 9335
preference for symmetrical vs nonsymmetrical figures, Down's syndrome 6.4–15.8 yr olds vs non-Down's syndrome subnormal 7.8–16.4 yr olds vs normal 3.9–4.5 yr olds, 8274
preference & perceived similarity & ethnic self labeling, development of outgroup attitudes, Black vs White preschoolers & 1st graders, 7846
preferences for mother or father vs TV, Mexican American 3–21 yr olds, 3443
prenatal exposure to alcohol & IQ, vigilance task performance, preschoolers, 3332
preschool learning, recognition of symmetrical arrangements, kindergartners, 1021
presence vs absence of friend vs nonfriend, activity & toy play, male vs female 3–5 yr olds, 5568
pretend play, spatial perspective taking, 4–6 yr olds, 7809
prevalence of behavior problems, male vs female deaf 3–17 yr olds, 10437
prior knowledge of verbal rules, comparative judgments of container fullness, 5–15 yr olds vs adults, 12523
private vs social speech, egocentrism, 50–60 mo olds, 7817
probability of chance correct final response, generation of appropriate problem solving strategy, kindergartners vs 2nd graders, 1038
program for early identification of problems & developmental stimulation procedures, preschoolers, 8397
psychodiagnostic screening & care, retarded preschoolers at child care center, 4175
psycholinguistic & sensorimotor skills, precocious reading skills, 4.9–6.5 yr olds, 7787
psychotherapy, coping with chaotic environment, 4 yr old female, 6234
public school day care program, children of teenage mothers & pregnant teenagers, 11210
quality of mother-firstborn interactions following sibling birth & sex of firstborn, sibling interaction 14 mo later, 18–43 mo olds & neonate siblings, 3518
quantitative vs nonquantitative criteria for phonological process analysis, reduction in identifiable processes, 3–13 yr olds with functional articulation problems, 4716
quantity of large & hollow blocks, problem solving & imaginative play & learning, 4 yr old males, 10020
race & age, performance on General Cognitive Index of McCarthy Scales & Revised WISC mean Full Scale IQs, 4–5.5 vs 7–8.5 Black vs White Ss, 9312
racial & ethnic identification & preferences, 4 & 5 yr old White vs Black vs Mexican American Head Start children, 3450
reasons for & treatment method, child negative verbalizations during parental behavior modification training, 2–7 yr olds, 10896
recategorization of Wechsler Preschool & Primary Scale of Intelligence scores by A. Bannatyne's pattern, 5.2 yr old kindergartners with learning problems, 13065
recursive awareness of intention in card game against adult opponent, 3–9 yr olds, 7830
reinforcement density & change in item difficulty subsequent to errors, disruptive behavior, mildly mentally retarded 3 yr old boys, 8483
relative extent of reliability as independent variable, skin conductance recovery time, White 18–75 yr olds & Mauritanian 3 yr olds, 6998
reliability of recall phase of Bender Gestalt Test for Young Children, measurement of age differences in memory, 5–14 yr olds, 2521
reliability & predictive validity of teacher ratings vs sociometric measure, social competence, 2–5 yr olds in day care, 9075
representations of joy & sadness & anger & fear, Ss with mean ages of 4.8 & 6.6 yrs, 965
response latency & performance on Visual Association subtest of Illinois Test of Psycholinguistic Abilities, preschoolers, 12498
response speed & inattention to social cues, attribution of hostility to peers, aggressive vs nonaggressive male kindergartners through 5th graders, 7860
right vs left hand dexterity, 3–7 yr olds with developmental apraxia of speech, 6101
rotational vestibular stimulation, hyperkinetic behavior, hyperkinetic 4–14 yr olds, 13175
rule assessment approach, existing knowledge & ability to learn, 5–17 yr olds, 12549
S & adult sex, gazes toward adults & interpretation of adult gazes toward other children, 4–5.1 yr olds, 10203
school & family problems & intellectual level, mentally retarded 4–14 yr olds, 1550
second language acquisition, kindergartners to 5th graders, 3374
selection of homonyms from pictures, 3.3–6.3 yr olds, 1032
semantics & syntax of preposition & its marking of source vs goal, comprehension of passives, 39–76 mo olds, 10102
sensorimotor & language development, 12–19 mo old nonretarded infants vs 24–38 mo old Down's syndrome children of the same developmental age, 8251
sentence clause in which negative word is placed, correctness of sentence interpretation, 4–6 yr olds, Japan, 5496
sentence grammaticality, judgment & repetition performance, kindergartners & 2nd & 4th graders, 3381
sentences with vs without contextual pictures, verbal repetition, language delayed 4–5.3 yr olds, 10627
separation of Digits Forward from Digits Backward of WISC Digit Span subtest, diagnosis of neurologically based learning disabilities, 5–15 yr olds, 11350
sets, judgment of "more", 3–4 yr olds, 10051
sex, acquisition of male vs female dialect, 4–12 yr olds, 973
sex, preference for auditory & visual complexity, 5 vs 17 yr olds, 3342
sex & age & left vs right visual hemifield stimulation, accuracy & vocal RT, right-handed 5–11 yr olds, 5534
sex & conflict manipulation of Piagetian task, moral judgments, preschoolers vs 4th vs 5th graders, 3449
sex differences, psychological & vocational sex role stereotypes, Anglo vs Hispanic kindergartners, 10157
sex differences in cognitive style, nomadic vs transitional sedentary Birhors vs agricultural Oraons vs urban 4–5 & 7–10 yr olds, India, 10192
sex of parent & child's responsiveness to discipline, disciplinary techniques, parents of male vs female children of mean age 55.7 mo, 12677
sex role adoption & selection of sex appropriate toys, play behavior, male vs female 4–6 yr olds, 12595
sex role concepts, development of sex role identity, young males, 10199
sex & socioeconomic class & symmetrically vs asymmetrically designed numerals, perceptual comprehension of numerals, kindergartners vs 1st graders, 990
sex & socioeconomic status & CA & IQ, Lock Box performance, mentally retarded vs normal 2–7 yr olds, 6072
shifts from depressive to psychosomatic reactions, 2–6 yr olds, 1369
short term psychotherapy for deep psychic pain, 3 yr old female with feeding problems, 6249
situational context, allative bias in comprehension of deictic verbs & directional prepositions, preschool children with a mean age of 3.1 yrs, 10045

social behavior, school adaptation, preschool age children, literature review, 4364
social behavior & perspective taking ability, 3–7 yr olds, 5464
social class, comprehension of questions using high vs low level of abstraction, 3–5 yr olds, 10052
social class, mother–child interaction, White mothers & their preschool children, 3470
social class & sex, vigilance & motor inhibition, 4–7 yr olds, 10075
social & emotional consequences of day care, preschool age children, literature review, 7974
social interaction during free play, trainable mentally retarded 4–8 yr olds, 8280
social work intervention & behavior modification, fecal incontinence, encopretic 5–11 yr old males, 6365
socioeconomic bias in planning & placement decisions of Educational Placement & Planning Committees, learning disabled & educable mentally retarded & emotionally & otherwise impaired 4–19 yr old students, 11267
socioeconomic status, cognitive development in cooperative play, 5–8 yr olds, 3287
sociometric measures such as social competence vs visual regard vs dominance status vs attention rank, measurement of aggression & play behavior, 4 yr olds, 2426
spatial model vs Piagetian approach to cognitive development, preschool age children, 3329
spatial vs verbal analytic questions, lateral eye movements, 2–11 yr olds, 3378
speaking fundamental frequency, hearing impaired 4–6 vs 8–10 vs 16–25 yr olds, 8325
speech segment duration in sentence recitation, 4 vs 6 vs 12 yr olds vs young adults, 3341
spontaneous imitations, 3.9–6.2 yr old Stage 1 Down's syndrome children, 10592
spontaneous peer psychotherapy in daycare setting, female 2 yr old, 8407
stability of childrearing attitudes over time, mothers of 8 mo olds, followup when infants 3.5 yrs old, 7962
staff linguistic style & verbal control techniques, day nursery staff & children with mean ages of 1.8 vs 2.7 yrs, 12441
stage of cognitive development & age, belief in Santa Claus & Easter Bunny & Tooth Fairy, 4–10 yr olds, 3308
standardized tests of language development vs clinical judgment, language evaluation, 36–47 mo olds, 9311
standard vs elaborated pictorial presentation & lists of noun pairs & instructions, pictorial elaboration effects in incidental paired associate memory, kindergartners vs 2nd graders, 10068
statement contents regarding delay & level of role involvement, self control in reward taking, 3.5–6.1 yr olds, 7907
stimulation to face vs hand, hemisphere superiority of tactile perception, 5 yr olds, 3363
stimulus complexity & message ambiguity, comprehension monitoring, preschoolers vs 4th graders, 7816
stimulus-related motor activity, temporal integration of visual information, 5 vs 7 yr olds, Netherlands, 3323
structure & relationship to task success, private speech, 3.7–5.4 yr olds, 12536
supervision program, staff performance in supervising food intake, 4.4–5.8 yr old institutionalized profoundly retarded males, 11010
surveillance programs, handicapped infants & preschool children, 6443
survival of Buffalo Creek flood disaster, behavior changes & developmental impairments, children under 12, 5462
syllable presentation rate, acoustic & verbal processing, developmentally dysphasic 5–9 yr olds, 6108
symbolic play training vs conservation training, male vs female 4.9–6.4 yr olds, 12496
syntactic form & semantic complexity of novel labels & short term memory, production of label for action vs action for label, 2–6 yr olds, 7785
syntax vs language acquisition, 24–28 mo olds, 12500
systematic sound preferences, speech production, 3–5 yr olds with phonological disabilities, 10642
teacher intervention procedure, increase in peer social interaction, withdrawn 4 yr old male, 11256
teacher presence & play activities, sex-typed play behavior, male vs female 40–62 mo olds, 12611
telephone information line for preschool & nursery services, 10995
television action vs violence, attention & social behavior & imaginative play, 3.5–5.7 yr olds, 7870
testing physical knowledge during play, 3–5 yr olds, 7778
testing procedure & delay interval, recognition memory performance, 5 vs 8 vs 11 yr olds vs young adults, 12525
test-retest reliability, Barber Scales of Self Regard, parents of preschoolers, 2434
time interval, organization of perceptions about maternal childrearing control & nurturance, 5 vs 8 vs 14–18 yr olds, implications for retrospective studies, 10057
token economy vs expected vs unexpected rewards for drawing, subsequent intrinsic interest, preschoolers, 7884
total & plasma free tryptophan & plasma cortisol & blood serotonin level, hyperactivity, 5–15 yr old hyperactive vs learning disabled children vs normal siblings, 13097
total score agreement & validity of test items of Test for Auditory Comprehension of Language, 3.4–8.6 yr olds with speech & language problems, 4827
traditional orthographic vs logographic symbol systems, word learning, 4.3–5.6 yr olds, 5483
training in articulation of specific consonant clusters, generalization to other consonant clusters, 4.7–7.7 yr olds with functional articulation disorders, 13654
training in helping preschoolers, understanding of development & learning of communication skills, 6th & 7th graders, 2084
training procedures, facilitation of linguistic skills, language disordered children, literature review, 13652
type of motivation aroused, imitation, preschoolers, 12620
type of verbally communicated criteria for equivalence matching of variously oriented stimuli, orientation judgments, 3–4 yr olds, methodological implications, 1025
types & loci of stuttering, reversal of some adult patterns, 3.9–5.6 yr old stutterers, etiological implications, 10621
underlying cognitive structures, acquisition of prepositions, 3–5 yr olds, 3298
understanding of interrelated dimensions of velocity & time & distance information, 5 vs 10 vs 17–34 yr olds, 1047
understanding of limitations of orthopedically disabled, 3.2–6.1 yr olds, 12607
unitary vs spatially separated multidimensional stimuli & name & training, recognition memory, kindergartners vs 2nd graders, 12485
upper limb movement characteristics, 4–9 yr old meningomyelocele children, 13082
use of articles in definite vs indefinite referring expressions, 2.2–4.3 yr olds, 10037
use of grammatical morphemes, 3–10 yr old normal vs language impaired children, 8297
validation of projective measure of aggression-anxiety, male 5 yr olds, 9351
validity of Under- & Overreaction scores on Bristol Social Adjustment Guides, indication of social maladjustment, 5–15 yr olds, 9382
validity & reliability of Acting out-Mood-Learning scale, measurement of emotional & learning problems, male vs female 4 yr olds in Head Start program, 155
validity & reliability of observation method for assessment of parent-child interaction, parents & their 2–7 yr olds with conduct problems, 220
variations of mirror image reversals on Bannatyne Visual-Spatial Memory Test, preschoolers & 1st–2nd graders with cerebral palsy vs learning disabilities, 8089
verbal & nonverbal information, picture recognition, 3–5 yr olds, 3353
verbal vs visual vs kinesthetic problem presentation, problem solving, 4 vs 6 vs 8 yr olds, 5511
visual habituation, cognitive performance, early infancy vs 15 vs 27 vs 39 vs 51 mo olds, 3361
visual pattern classification & reading skills in concept formation context, kindergartners & 1st graders, 4338
visual perception, preschool age children who had been premature infants, 5492
Visual Sequential Memory subtest of Illinois Test of Psycholinguistic Abilities, applicability across ages & nationalities, 2–26 yr olds, New Zealand, 9346
visual stimulus novelty, habituation & changes in respiratory period & peripheral & cephalic pulse amplitude, autistic vs mentally retarded 4–17 yr olds, 8102
visual vs phonetic presentation, comprehension of whole words, 3.5 yr old severely language disabled male, .292
visual vs proprioceptive or no knowledge of results, performance on visual target localization task, mentally retarded 12–17 yr olds vs normal 4–6 yr olds, 13057

voiced vs voiceless final consonants, duration of preceding vowel, 3–4 yr olds, 10092
word initial stops, voice onset time, 4 yr olds, 3302
word order, 2–4 yr olds, implications for universal natural word order, 3398
word order & structural cues, interpretation of noun-verb-noun utterances, Hebrew speaking 4–10 yr olds, 10044
yes/no judgments vs manipulative tasks & counting ability, understanding of quantity, 2–5 yr olds, 3347
2 vs 3 choice problems & visual &/vs haptic stimuli touched vs not touched before task, object discrimination, kindergartners, 10039
Preschool Education
age differences, social participation in mixed vs single age groups, 3 & 4 yr olds, implications for preschool education, 11245
age & popularity & nursery school experience, accuracy of reporting own vs peers' best friend, 3–4 yr old nursery school students, 10193
crisis intervention program in preschool education, behavior & intellectual development following divorce, single-parent 3.5–5 yr olds, 5448
day care in public schools vs community, 10239
days/week of preschool attendance & preschool group & age & sex, play behavior, preschoolers, 10-wk longitudinal study, 8948
development & content of early childhood parent programs, 13557
development of road safety parent training program, safe pedestrian education, 3–6 yr olds, 11193
early childhood education programs, Latin America, 6657
feature evaluation & planning use, developmental diagnostic reports, early childhood teachers, 8825
high vs medium vs low vs no educational intervention in day care program, cognitive development, 2.5–4 yr olds, 8872
methods of avoiding sex role stereotyping in nursery schools, 8891
open communication & experiences with death of pets, development of healthy attitudes & understanding of death, young children, educational implications, 967
participation in early education development project, development, Down's syndrome 3–37 mo olds, 8976
play behavior in separate vs combined groups, minimally handicapped &/vs nonhandicapped 2.5–4 yr olds, 11282
teaching English as 2nd language through total development program & maintenance of 1st language, preschoolers, 2091
therapeutic preschool, change in problem behaviors, anxious & hostile-aggressive 3–6 yr olds, 8954
Presenile Dementia [See Also Alzheimers Disease]
dementia & deep white matter damage & hypertension, "Binswanger's disease", patients, 10691
serum aluminum levels, 64–92 yr old patients with primary degenerative dementia vs mental retardation, 10523
Presentation Methods [See Stimulus Presentation Methods]
Presentation Modes [See Stimulus Presentation Methods]
Pressors (Drugs) [See Vasoconstrictor Drugs]
Pressure (Barometric) [See Atmospheric Conditions]
Pressure (Blood) [See Blood Pressure]
Pressure (Diastolic) [See Diastolic Pressure]
Pressure (Systolic) [See Systolic Pressure]
Pressure Sensation
eye color, critical flicker frequency & pressure sensitivity, male vs female 16–54 yr olds, 2657
intestinal distension vs electrical stimulation & Tetracaine, water intake, water deprived rats, 9826
Prestige (Occupational) [See Occupational Status]
Pretesting
appropriateness of pretest- vs posttest-only designs, field experiment, college students, 11596
initial reading achievement & training to use context for error correction, changes in reading, learning disabled 8–13 yr olds, 9036
knowledge about self actualization & pretesting, scores on Personal Orientation Inventory, college students, 176
pretest-posttest designs, errors in evaluation of delinquency program effectiveness, 1975
response-shift bias, evaluation of experimental interventions with self report measures, 183
sex differences & cloze test & mathematics pretest performance, course grades, graduate students in educational statistics courses, 13615
Prevention [See Also Related Terms]
behavioral vs relationship intervention effectiveness, prevention of school maladjustment, 1st–3rd graders, 2179
behavior modification program, reduction of shoplifting, elementary school aged children, 1807
care & prevention & assessment, mental retardation, India, literature review, 8627
characteristics & intervention & prevention, father-daughter incest, 10559
child abuse & mental retardation, literature review, implications for role of educators in prevention & treatment, 8114
computerized early warning system, prevention of genocide, 50
definition & prevention of sexism, 10283
development & age distribution of intellectual & adaptive skills, 3 mo to 15 yr old Down's syndrome children, implications for early intervention, 8253
early intervention consultation & training, parents & teachers of developmentally disabled children of mean age 47.4 mo & children referred for developmental intervention of mean age 54.2 mo, 13197
evaluation of anticrime program, Jamaica, 6458
faulty diet & white sugar & caffeine, alcohol consumption, rats, 5301
interpersonal skills program, prevention of teenage pregnancy, adolescent females, 5654
issues concerning supplementation of alcoholic beverages with thiamine, prevention of Korsakoff's psychosis, Australia, 10783
language development & classification & contributing factors & prevention of language impairments, children, literature review, 10635
marital communication workshop as problem prevention service, couples & mixed groups, 4014
modeling & behavior rehearsal & social reinforcement, learning self protection to prevent abduction, 3–5 yr olds, 4064
parent educational program in poor urban environment, prevention of child abuse & neglect, Black mothers, 8648
perspectives on implementation of normalization, handicapped persons, 8119
pretest-posttest designs, errors in evaluation of delinquency program effectiveness, 1975
prevention & management of violence, general hospital psychiatric unit, 1957
prevention of inadequate behavior, quality of kindergarten education, 13632
preventive measures & psychotherapeutic techniques, wartime disaster victims, 6197
psychiatric disability, US Air Force fliers, 2243
role of behavioral sciences, disease prevention & health promotion, 1668
secondary preventive psychiatry in corrections, 8747
shifts from depressive to psychosomatic reactions, 2–6 yr olds, 1369
social influences in infection surveillance & control programs, prevention & control of infectious disease during hospitalization, 4174
social & psychological prevention of cardiovascular diseases, 1601
urban territoriality & social networks & urban design, resident-based model of community crime prevention, 1125
Preventive Medicine
development of multidisciplinary preventive health department in group practice clinic & hospital, 8619
oral hygiene instructions with vs without high fear message vs with positive appeal, influence on oral hygiene behavior, junior high school students, 4116
personality traits, perceived susceptibility to cardiovascular disease & severity of attack & benefits of preventive behavior, adult males at increased risk for cardiovascular disease, 6140
preventive care instruction &/vs fee reduction, plaque control, periodontal patients, 6-mo followup, 4120
Primacy Effect
difficulty of distractor task & interpair interval & incidental learning instructions, long term serial position effects in free recall of word pairs, college students, 463
increased study time for selected items in middle of list, subsequent level of & position in free recall for those items, college students, 11936
learning strategies including imagery & chunking & rhythm, learning & retention & transfer on serial positioning task, college students, 2675
primacy vs recency effects, consumer product taste test results, 13–49 yr old Ss, 2300
serial position curve & accuracy on serial probe recognition task, male rhesus monkey & 22 yr old human female, 5123

serial position & delay task & instructions to respond to stimulus word with free association vs with standard associate vs with same word vs with category label, recall, college students, 5050
temporal structure vs sense modality, memory organization in free recall, college students, 11935
theoretical implications of standard vs discontinuous serial position curves in immediate serial recall, 479
Primary Mental Health Prevention
comments on primary prevention in mental health, 1996
community mental health clinic services, infants & toddlers up to 3 yrs of age, 10981
definition & distinction between models, primary mental health prevention, 13382
early psychosocial support in inner city family health centers, low-income parents & infants, 10988
educational intervention in inner city schools, prevention & remedy of problems, elementary through high school students, 4308
educational programs developed by rural community mental health service for prevention & health promotion, 6463
factors in primary prevention of psychiatric disorder, literature review, 10784
family intervention method, long term management of schizophrenia & prevention of relapse, schizophrenics & their families, 4010
followup of infants & parents during 1st postnatal year, clinical training, child psychiatrists, 11125
group teacher training, facilitation of mental health & improvement of ability to cope with personal feelings & students' problems, teachers, 8843
history & present operation & accomplishment, Primary Mental Health Project, literature review, 6653
model for primary prevention, child psychiatry, 1634
primary child mental health care program, community workers, 1915
primary vs secondary prevention of pregnancy programs, adolescents, 1918
process model, primary mental health prevention programs, 4152
psychoanalytic kindergarten as model, prevention of psychic disease, 1629
psychological changes, midlife–old age, implications for mental health maintenance, 7762
role of psychiatrist in crisis intervention & primary health service, northern Norway, 1897
secondary preventive psychiatry in corrections, 8747
social implications of deinstitutionalization, 8678
validity of primary mental health prevention, 3967
Primary Reinforcement
candy vs traditional vs culturally relevant social reinforcement, performance on Revised WISC, 9–11 yr old mildly mentally retarded Black males, 10616
Primary Schools [See Elementary Schools]
Primates (Nonhuman) [See Also Baboons, Chimpanzees, Gorillas, Monkeys]
dosage of 5-methoxytryptamine, physical & social behavior, macaques, 9937
ecological model, female bonding, female primates, 12170
evidence of sexual dimorphism in tooth & body size & speculation about social organization, Egyptian Oligocene primates, 5185
failure to demonstrate use of syntax, apes, criticism of article by H. Terrace et al, 663
functional correlations & taxonomic relations, encephalic indices, mammals & primates, 2826
light stimuli & origins of photosensitive epilepsy, human & nonhuman primates, literature review, 6155
monocular deprivation, ocular dominance column of New World primate as seen in autoradiography, marmosets, 9835
parent socialization & social & psychological isolation, child abuse, nonhuman primates, implications for human child abuse, 2931
resonant calls, group interaction, white-bearded gibbons, 639
species differences vs dopamine vs MAO inhibitors, drug deamination vs sensitivity, adult humans vs nonhuman primates vs rodents, 12359
traditional interpretations & psychiatric treatment in humans, incest & incest taboo, humans & nonhuman primates, 1103
use of human language, apes, discussion of study by H. Terrace et al, 2891
videotaped social stimulus presentation, behavioral reaction, juvenile macaques, 9711
yawning behavior, apes, 12123
Printed Communications Media [See Also Books, Magazines, Newspapers]
bibliography of psychology journals listed by country or region, 4616
bibliography of resources for library research in psychology, 4618
books & articles in personality & social psychology considered classics & cited from 1975–77 but published before 1958, 6543
citation analysis, organizational science journals, 1957 & 1967 & 1977, 9136
citations of W. Wundt's publications in published American experimental psychology papers, 1887–1977, 6937
content analysis of "Australian Psychologist" for 12 yr period, 6612
employers' brochures & selection interviews, intent to apply for or accept jobs, college students, 2233
history & objectives & editorial practices, scholarly journal significant in establishment of educational psychology in Germany, letters of W. Wundt to E. Meumann, 6936
photographs of handicapped children vs verbal message vs charity identification, donations to charity, apartment dwellers, 5805
self help behavior therapy manuals, literature review, 6334
Printing (Handwriting)
writing vs printing & alphabet vs familiar words, speed of performance, college students, 9479
Prismatic Stimulation
active vs passive exposure & test movement, adaptation to prismatically displaced vision, right handed college students, 345
adaptation to task viewed through prism, schizophrenics vs normals, 1472
age at which prism experienced, prism induced aftereffects, 6–9 mo olds, longitudinal study, 10081
optic displacement of object in left vs right visual field, decision & movement times in guided reaching with left vs right arm, right handed males, 7473
readaptation vs memory decay, reduction of prism aftereffects, female college students, 2636
Prison Personnel
experience of helplessness & existential fear & sensory input overload, correctional officers held as hostages, 13031
process of "shaping" untrained personnel to make psychiatric referrals in state correctional system, 6517
professional issues & problems, prison psychologists, England, 6553
supply of vs professional & judicial standards for mental health personnel & psychologists in state correctional institutions, 8790
Prisoners
age & type of crime & length of incarceration, IQ as measured by progressive matrices test, male inmates, 1971
attitudes toward counseling & authority & interpersonal relationships, inmates in honor vs regular prison dormitories, 1978
chaining procedure, motivation for participation & achievement in remedial education program, male prison inmates, 1977
correlates of social insight, male prisoners, 4180
demographic characteristics & death attitudes, orientation toward abortion & suicide & euthanasia, adult male alcoholics & drug addicts & prisoners vs government employees, 10551
development of MMPI index, prediction of acting-out hostility, female prisoners, 11676
efficacy of volunteer program, recidivism, Black vs White inmate/parolees, 1968
factor analysis, demographic & behavioral characteristics, 16–65 yr old female prison inmates, 11037
factor analysis, demographic characteristics, adult & juvenile prisoners, 1974
factor analysis of demographic & behavioral characteristics, male prisoners, 1972
factorial analysis of social status as measured by Social Status Study scale, schizophrenics vs alcoholics vs executives vs prisoners, 210
mentally retarded as defendants in legal system & as incarcerated offenders, 6085
methylphenidate, behavior, homicidal & hypoglycemic prisoners, 6374
ontological confrontation of death & loneliness, psychological distress, male maximum security inmates, 8220
personality traits & vocational interests & attitudes, average age 27.5 yr old male prison inmate college students, 11045
rational behavior counseling, positive rational behavior & recidivism after parole, alcoholic male prison inmates, 4179
responses to process association tests of addiction, suppression vs enhancement of other responses & development of suppression scale, male opiate addicted prisoners, 7055

selected MMPI scales, differentiation between violent & nonviolent prisoners, 18–40 yr old inmates, 9363
sex roles & mental health needs & care, females in prisons, 11043
use of college educated ex-offenders in Inmate College Advisory Project, training inmates for careers after release, 13432
variables related to rule infractions & penalties imposed, inmates incarcerated 6 mo or longer at Louisiana Correctional Institute for Women, 1976, 8724
Prisoners Dilemma Game
efficacy of Prisoner's Dilemma Game for study of interpersonal conflict, 1235
equilibria concepts for noncooperative 2-person games, 278
game strategies, Prisoner's Dilemma game, 8006
Prisons
prison mental health care delivery systems, 8734
Privacy
outside demands on field of psychological testing, 142
potential abuses & suggestions for psychologists, mass media presentation of individuals' private problems in programs on therapy, 2058
privacy regulation & dormitory room decorations & adjustment to university life, college freshmen, 5778
public vs private disclosure situtation, actor vs O attributions for success vs failure, female college students, 1294
sex & crowded dormitory conditions, values & expectancies of privacy & coping behavior, college freshmen, 2297
societal truths revealed by testing, discussion of US Supreme Court decision on Detroit Edison v National Labor Relations Board case, 137
type of information disclosed & permission granted & consequences & recipients, perceived invasion of privacy in hypothetical situation, employees, 9194
type of living accommodation, environmental perception & interaction preferences regarding privacy & solidarity, 60–89 yr old nursing home residents, 8691
types of territories & quality of immediate environment, solitude & intimacy experiences, college students on vs off campus, 1244
US Supreme Court decision on Detroit Edison v National Labor Relations Board case, open vs secure testing for personnel selection, 2240
Private Practice
demographic characteristics & type & severity of psychopathology as measured by MMPI, patients of private practice psychologists & psychiatrists, 4007
prevalence of Capgras delusions among private practice psychiatric patients, 5984
private practice, counseling psychology, 13513
professional orientation, approaches to psychotherapy, psychotherapists in private practice, 8799
type of training program vs year of graduation vs foreign vs US medical graduate, job choice, psychiatrists, 11099
utilization by graduate clinical psychology programs of private practice internships & practica, 6581
Private School Education
attendance at church related school, religious attitudes, high school students, 11244
intellectual ability, religious language comprehension, 12–15 yr old students of Catholic vs public secondary schools, 13613
Rokeach Value Survey, discrimination & classification of value differences, 7th vs 8th graders in Catholic vs Episcopalian vs Friends vs public schools, 11241
role concepts, public vs parochial high school & elementary school teachers, 11164
Privileged Communication
confidentiality & sex differences, interviewee behavior, college students, 8455
ethical issues concerning confidentiality, criminology research, 4756
ethical issues in publication of case studies, 13483
ethical & legal issues in privileged communication with psychiatric patients, 2057
granting right of access to own hospital records, treatment effectiveness & attitude toward hospital & staff, hospitalized psychiatric patients, 1955
legal issues about confidentiality in family therapy with substance abusers, 2039
legal right of labor union, access to company psychological test data, 7983
need for revision of ethical guidelines concerning informed consent procedures, 13505
patient-physician confidentiality & use of automated mental health data systems, recommendations of Canadian Psychiatric Association, 1900
potential abuses & suggestions for psychologists, mass media presentation of individuals' private problems in programs on therapy, 2058
role of marital/family therapist in forensic activities, 1175
Proactive Inhibition
caffeine & trial spacing, delayed alternation performance in spatial discrimination, male rats, verification of R. A. Kesner's theory, 7336
category & context shifts in successive lists of nouns, recall & proactive interference, Korsakoff amnesic vs alcoholic patients, 13165
category & modality similarity between stimulus cue & stimulus, RT to stimulus, 19–27 yr olds, 5029
electrical stimulation of hippocampus, conditioning & latent inhibition, rabbits, 3092
forgetting & retentive recall & paired associate learning, 20–40 vs 41–70 yr olds, 7818
individual differences, release from proactive interference during delayed vs immediate recall, 2783
inhibitory effects of reinforcement & model of FI performances, comments on A. Catania's version of R. Herrnstein's model, 584
modality of cue vs distraction task, effectiveness of retrieval cues, college students, 11948
negative correlations of tone CSs & shock UCSs, inhibition effects, male albino Sprague-Dawley rats, 617
order of learning & recall of arm positioning movements, absence of proactive interference, 21 yr olds, 7147
proactive & retroactive inhibition & stimulus intensity & intertrial interval, retention of loudness of single tone, 7th–9th graders, 5472
proactive & retroactive interference & intertrial interval, memory for loudness of single tone, 5th graders, 5473
proactive & retroactive interference & tone intensity & intertrial interval, retention of tone intensity, 8th & 9th graders, 5474
similarity of task, transfer of release of proactive interference obtained through orienting tasks, college students, 7243
trace conditioning as inhibitory procedure, eyelid conditioning, rabbits, 575
variations in proactive & retroactive interference tone intensity & interstimulus interval, memory of tone intensity, 4th & 5th graders, 5471
warning stimulus preceded vs not preceded by discriminative stimulus, eyeblink reflex elicitation & inhibition & heart rate, college students, 7537
Probability [See Also Binomial Distribution, Response Probability, Statistical Probability]
adaptation of Bradley-Terry-Luce choice model, multiattribute decision making, graduate business school students, 4857
axiomatized formulation of expected utility & probability model, contingency plans for decision making, 4877
axioms stating conditions for establishment of cardinal utility function, 9439
deal purchases & consumer characteristics, repeat purchase probability, logit model, 6910
estimation of choice probabilities subject to linear inequality constraints, 2578
extension of conditions for J. C. Falmagne's random utility systems to infinite choice set, 9441
judges' ratings of imagery vs control slides, test of psi-missing in free response situations, 9
presence of another signal vs insertion in homogeneous group of nonsignals & probability of occurrence, signal detection during visual vigilance task, 518
probability of chance correct final response, generation of appropriate problem solving strategy, kindergartners vs 2nd graders, 1038
stimulus presentation to right vs left visual field, decision making in response to changes in signal-to-noise ratios vs payoffs, right handed college students, 428
strength of evidence for multiple charges, probability of conviction, college students as mock jurors, 1167
2-stage conditional estimation procedure for unrestricted latent class models, 2590
Probability Judgment
ability & objective probability, subjective expectations of success & task performance, male college students, 9606
anchoring & adjustment in primed response time task, gambling decisions, college students, 4995

base-rate fallacy, probability judgments, 18–25 yr olds, 413
comparison of 4 strategies, resolution of difference of opinion among experts, college students, 10320
context, judgment of semantic stimuli, male vs female college students, 11913
cross cultural differences, probabilistic thinking, college students raised under Asian vs British culture, 12897
hindsight vs foresight conditions, perceived likelihood of outcome of pregnancy test, females, 9550
intensive training, probability assessments & generalization, 7259
judgment tasks, retrieval of information about past events & use of information to make decisions, college students, 7270
positive vs negative future events & knowledge of unrealistic optimism of others, prediction of occurrence for self & others, college students, 8087
probability judgment of representative samples, high school & college students & Army recruits & Americans, Israel, 412

Probability Learning
alternating vs irregular schedule of small vs medium vs large partial reward, probability discrimination, rats, 12017
cognitive vs outcome feedback & task congruence & properties, probability learning, college students, 446
configurality in multiple cue probability learning, college students, 11956
developmental changes in problem solving process, probability learning, mentally retarded vs normal 4–7 & 10 yr olds, 1548
information presentation mode & task complexity, learning of probabilistic inference tasks, 5027
information presented & experimental instructions, probability learning, college students, 11966
intensive training, probability assessments & generalization, 7259
knowledge vs ignorance of relationship between 1st cue & criterion, learning of 2nd cue in probability learning task, college students, 5035
personality factors & age differences, cognitive strategies on probability learning task, 5–15 yr olds, 3327
probability learning & stimulus monetary value, P3 component of average evoked responses, college students, 772
reversal retraining, spatial probability learning, cats & monkeys, 2880
visual stimulus intensity & foreperiod duration & location probability, oculomotor & manual choice RT, college students, 11909

Probation
employment & age at 1st arrest & number of address changes, recidivism & maintenance of employment, male probationers, 12-mo followup, 13449
Revised WISC profiles, adjudicated 15 yr old delinquents subsequently incarcerated vs released on probation, 6034

Probation Officers
situational vs personal variables, volunteer commitment, 18–65 yr old correctional volunteers, 4185

Problem Drinking
alcohol consumption & abuse, non-substance abuse hospitalized psychiatric patients, 10539
alcohol consumption & ingestion role & drink preference, probationers vs convicted drinking drivers vs normal drinkers, 10545
alcoholism & problem drinking among political leaders, 10565
extent & effects of alcohol abuse, hospitalized schizophrenics, 8091
factors differentiating those who did vs did not commit suicide, patients at risk for suicide & who met criteria for alcohol abuse, 13041
family structure & behavior patterns, learning disabilities with vs without hyperactive syndrome in offspring, male 5–12 yr olds, 6074
increase in alcohol-related problems among women & differences between male & female alcoholics, 6044
laboratory tests for determination of excessive alcohol consumption, general practice patients, 10543
psychiatric vs physical illness, accidents & traffic code violations, 18–67 yr old patients, 10407
relationship between survey response rates & self reported alcohol consumption & alcohol-related problems, male workers, Scotland, implications for comparisons between surveys, 9397
sex roles & alcoholism & treatment recommendations, females, 10554
social learning factors & behavioral treatment, American Indian alcohol abusers, 11046

Problem Solving [See Also Anagram Problem Solving, Group Problem Solving]
age differences, overselectivity on discrimination tasks, mentally retarded 11.2 vs 14.1 yr olds, 10590
age & individual differences, creative thinking & problem solving, gifted 2nd–6th graders, 1009
algorithm depicting problem solving processes & structure, linguistic analysis of short published reports, 7220
analogy between occurring social & cognitive communication systems & automated distributed computation within organizations, 49
analogy problem solving, female chimpanzee, 12033
application of multiattribute attitude models to managerial problem solving & decision making, marketing, 13800
application of school psychology scientific problem solver model, conflicts over school psychologists' training, 6631
attainment of formal operations stage, correctness & time to solution of operationally vs linguistically varied problems, college students, 3365
CA & MA differences, problem solving tasks, trainable mentally retarded children with mean CA of 8 & 12 & 16 yrs vs normal 3.7 & 5.5 & 7.3 yr olds, 6094
cognitive complexity, computer programing work, 4531
cognitive maintenance strategies, smoking reduction, community & college smokers, 8525
cognitive strategies, language impairment, 66 yr old male, 6435
cognitive strategies in problem solving, teaching implications, 2090
communicative interaction with adult, problem solving performance, 3–6.5 yr olds, 3388
computer applications, decision making in fault diagnosis, engineering & technical trainees, 4583
computer system response time variability, interactive graphical problem solving, college students, 4570
construction of semantic memory model as problem solving system, 11923
construct validity of free response vs machine scorable versions of Formulating Hypotheses test, college students, implications for graduate student selection, 6785
cooperative vs competitive vs individualistic conditions, problem-solving performance, 1st graders, 4310
creative problem solving & Zen koan study, 433
creativity in music education, 6668
creativity test results, prediction of individual differences in hypothesis generation, college students, 11904
cue effects & problem solving performance, trainable mentally retarded 7.7–9.3 vs 10–13 vs 15.2–16.9 yr olds, 10619
degree of effort rewarded in conceptual task, persistence in perceptual task, college students, 2808
degree of subordinate involvement permitted in decision situations requiring high vs low quality solutions, 20–58 yr old middle level managers, 11462
design aids & expressed goals, practicality & originality in strategies for complex building design problem, college students, 2286
developmental changes in problem solving process, probability learning, mentally retarded vs normal 4–7 & 10 yr olds, 1548
development & evaluation of Autonomous Dilemma Counseling System, self help method for problem solving, troubled college students, 6784
development of Interpersonal Problem Solving Assessment Technique as measure of interpersonal effectiveness, college students in vs not in psychotherapy, 7051
development & transfer capability, context-free vs context-specific problem solving skills, aircraft powerplant maintenance trainees, 9168
differences in cortical arousal & sensory thresholds & reactions to stimulation, physiological theory of creativity as response to stimulation, 3670
directed vs self regulating vs nonregulating private speech, problem solving, 3–5 yr olds, 5519
effectiveness of written & oral solution of work problems & course of active social learning, secondary health school pupils, 2128
efficacy of problem solving training program, chronic schizophrenics, 4069
facilitating effect of incubation interval in problem solving, 2754
factor analysis, planning & simultaneous-successive coding processes as reflected in task choice, 8th graders, 12476
field dependence, restructuring ability in logical problem solving, adolescents, 12526
flexibility in executive strategies for problem solving, 10374
flow chart for teaching clients problem solving skills, 4075

format of multiple choice items in mathematics problem solving test, item difficulty & discrimination, junior high school students, 6755
functional measurement vs decision tree methodologies, rule assessment, children, 3397
generative theory of systematic errors or "bugs" in procedural skills for problem solving, 11541
group relaxation training, anxiety management & problem solving during treatment process, mental health center clients, 13281
Halstead Category Test & Wisconsin Card Sorting Test as diagnostic measures, brain damaged Ss, 190
hierarchically structured vs unstructured design requirements, problem solving, college students, 2773
human performance in fault diagnosis, annotated bibliography, 2745
hypothesis generation, 3-yr study, 9539
identical variations in preliminary problems, problem solving response latencies with positive vs negative transfer effects, college students, 501
identity status, performance in formal operational thinking solving identity related problems, 17–20 yr old males, 3284
immediate vs delayed repetition & problem solving & recognition vs recall test, memory, college students, 9572
individual differences in planning processes, 10372
individual vs heterogeneous grouping conditions, mathematical task performance, high vs medium vs low ability 11th graders, 11216
interpersonal problem solving skills, behavioral adjustment, Black preschoolers vs kindergartners, 3293
IQ test vs Categorizing Test vs Family Test, prediction of intelligent problem solving behavior, high school & college students, 5521
irrelevant stimulus variability, problem solving accuracy & attention, 4 vs 8 yr olds vs college students, 1044
leadership as means of solving organizational problems, problem appropriate behavior model, 13759
level of death anxiety, individual vs group problem solving ability, female college students, 5748
level of problem uncertainty & curiosity, incidental recognition level, high school & college students, 12484
locus of control & efficacy expectations, persistence in problem solving, college students, comparison of theories of A. Bandura & J. B. Rotter, 10373
maintenance & suppression of 40-Hz EEG, cognitive problem solving, male college students, 761
mathematical models for knowledge input during problem solving, 2762
mathematics experience, use of left hemisphere in response to mathematical questions, right handed college students, 12215
methodology for analysis of decision/problem state, 59
model for moral development education emphasizing cognitive & affective goals, gifted, 6745
model of clarification process for problem solving & decision making, 417
model of decision/problem state, 418
move sequence requirement & subsequent move requirements having symmetries of 1st sequence in Tower of Hanoi problem & isomorphic problem, minimal path solutions, college students, 4996
negative capability, problem solving within psychotherapeutic process, therapists & patients, 10805
negative feedback, use of effective problem solving strategies, Black vs White children identified as retarded vs nonretarded, 8283
number of response categories, unidimensional concept identification, college students, 2802
open vs well defined problem, information seeking patterns & decision making, college student, 4977
operative level, hypothesis sampling, children & adults, literature review, 3326
order of task presentation & task difficulty & rule induction vs trial & error method, sequential effects in problem solving, college students, 444
outline of information theory in psychology & engineering psychology & mental models of problem solving, 11560
perseverance & flexibility & field dependence, incubation period during problem solving, 2743
personal values, problem solving performance, children, 3369
play vs nonplay experience, subsequent tool use & task strategies, 4–5 vs 6–7 vs 8–10 yr olds, 7839
prediction of future moves, problem solving tasks, college students, 9535
prenatal decreased oxygen consumption, learning deficits, neonatal ducklings, 9850
previous experience with differentiated vs undifferentiated linguistic construction, facilitation of novel solution to problem, male college students, 425
probability of chance correct final response, generation of appropriate problem solving strategy, kindergartners vs 2nd graders, 1038
probe trials, shift behavior in problem solving strategies, college students, 11890
problem-finding instructions, problem detection & adjustment of standards for evaluation, 8 vs 10 yr olds, 5509
problem solving persistence & confidence of adult model, child persistence & confidence, Black & Hispanic 1st & 2nd graders, 10206
productive vs reproductive mental set, creative problem solving, 2768
psychotherapeutic technique of paradox, problem formation & resolution, 8435
puzzle solving, strategy mediation, 6th–9th grade dyads, 10036
quantity of large & hollow blocks, problem solving & imaginative play & learning, 4 yr old males, 10020
quantity vs quality & frequency of solution responses measured by stringent vs lenient criteria, prediction of creative problem solving ability, college students, 9305
relationship enhancement vs problem solving programs, perceived heterosexual competence, premarital couples, 10839
relative frequency of consultee lack of knowledge & skills & confidence vs objectivity, teachers consulting school psychologists, 9091
relief shading vs layer tints as supplements to contour lines, map use problem solution, military personnel, 2207
resolution of collective choice dilemmas, townhouse apartment cooperative members, 1239
review & interpretation of M. Wertheimer's "Productive Thinking" from phenomenological perspectives, 9549
right hemisphere processes & cognitive functioning including creative thinking, problem solving through systematic relaxation, literature review, 724
right vs left hemisphere EEG during performance of Piagetian tasks, right handed 6–8 yr olds, 10071
right vs left temporal lobe dysfunction, use of imagery in deductive problem solving, patients with mean age 25.2 yrs, 10723
role of perception & memory & coding processes in mental representation & transformation, recall & recognition performance, 20–23 yr olds, 2738
scoring algorithm for "NASA" & other ranking tasks, accurate estimation of initial ability level, 9304
sequential analysis of interactional patterns, distressed vs nondistressed marital partners, 10247
set of computer-implemented models, solution of physics problems in ways characteristic of more & less competent human solvers, 11589
sex & grade level & ethnicity & nonverbal problem-solving ability & socioeconomic status, oral language performance, reading disabled 2nd vs 4th vs 6th graders, 6075
situational & personality factors, persistence in problem solving, 7275
social reinforcement of activity vs problem solving training, depression, nursing home patients over 60 yrs of age, 1789
social status vs problem solving ability in social situations, emotionally disturbed 8–13 yr old males, 8202
spatial problem solving using topological & euclidean & projective operations, involvement of left &/vs right hemisphere, right handed normal vs brain damaged patients of mean age 36.2 yrs, 10658
stage in solution process of verbal vs nonverbal problem, visual evoked potentials, college students, 7465
structuring decision problems for decision analysis, 5010
subject matter knowledge, text generation & recall in problem solving task, college students, 5046
task difficulty & IQ, characteristics of self instructions & temporal relationship of private speech to problem solving, 1st graders, 2126
task specificity & situation & context, recognition of concepts & their relations & analogy problem solving, 2748
taxonomy for problem solving & decision making research design & review, 60
test taking strategies measured by Questionnaire of How You Take Tests & test anxiety, academic performance, college students, 2063
text structural characteristics, recall & problem solving performance in science learning, college students, 11177

thinking as verbal vs imaginal process, 9541
trait-factor approach to problem solving, vocational guidance & counseling & rehabilitation, 13713
value & status as learnable skill, problem solving strategies, college students, 11885
verbal vs visual vs kinesthetic problem presentation, problem solving, 4 vs 6 vs 8 yr olds, 5511
Process Psychosis
psychodiagnostic comparison & classification, 18–58 yr old epileptic psychotic patients vs process schizophrenics, 5920
Process Schizophrenia [See Process Psychosis, Schizophrenia]
Productivity (Employee) [See Employee Productivity]
Professional Certification
American Psychological Association's policies on professional standards & "sunset legislation" & professional licensing, 13466
competency-based assessment for professional licensure, psychological service professionals, 13496
construct validity assessment, Examination for Professional Practice of Psychology, 6568
content & construct validity, Examination for Professional Practice in Psychology, 6599
credentialing directions for counseling psychology, 13470
definition of field & member certification issues, behavioral community psychology, 11093
development & role of Examination for Professional Practice in Psychology in educational & licensure standards, 6614
education & training & certification, counseling psychology, 13484
effect of Florida Psychology Practices Act on professional licensing & standards, symposium, 6563
emphasis on "counseling" vs "psychology", credentialing of counseling psychologists, 13476
evaluation of Examination for Professional Practice in Psychology, 6593
present & anticipated effects of legislative termination of licensure on psychologists & consumers, symposium, 6603
professional certification, counseling psychology, comments on B. R. Fretz & D. H. Mills, 13511
professional certification, counseling psychology, comments on B. R. Fretz & D. H. Mills, 13486
professional certification in counseling psychology, emphasis on "counseling" vs "psychology", critique of paper by B. R. Fetz & D. H. Mills, 13480
professional licensing & certification, counseling psychology, comments on B. R. Fretz & D. H. Mills, 13464
reading programs for learning disabled, laws effecting reimbursement of school systems & certification & training of reading specialists, 8969
regulation of practice of marriage & family therapy, 2044
remedial vs human development models of intervention, clinical practice of sport psychology, 11072
satisfaction with services of school psychologists with vs without teacher certification & experience, elementary & junior high school principals & teachers, 11147
Professional Communication [See Scientific Communication]
Professional Consultation [See Also Mental Health Consultation]
advantages of teacher-school psychologist consultation, reduction of behavior problems, 7 yr old male, 11323
agreement with colleagues, recommendations for drug therapy & diagnostic tests, cardiologists vs psychiatrists, 8793
application of oral history techniques, clinical medical practice, aging patients, 13373
attitudes toward mental health vs behavioral school consultation, school psychologists vs elementary school teachers, 11372
attitudes toward school psychologist consultation services, teachers, 4275
behavioral consultation, student productivity & teacher effectiveness, teachers of learning disabled 6–12 yr old males, 11357
behavioral consultation method, treatment of school phobia, female school age child, 11353
child guidance consultations, children under age 4, 8630
competency-based training in behavioral consultation, school psychologists, 1992
consultation in family therapy, 10834
consultation model for mainstreaming behaviorally disordered children, 11300
consultation practices, school psychologists, 8841
consultation training, school psychology training programs, 11158
consultation with college students as change agents & enrollment in college credit course, student behavior modification, elementary school teachers, 11168
consultative approach, parental coping with child molestation, mental health professionals, 10983
consulting teacher service, reading & math achievement, mildly handicapped students with mean age of 9 yrs, 11226
demographic characteristics & daily activities, school psychologists under 65 yrs old, 11101
effects of Public Law 94-142, consultative role of school psychologists, 11139
efforts & evaluation of community group & community psychologist support system, decrease of dog litter on community sidewalks & lawns, 1917
facilitative effect of consultant verbalizations, consultee plan design for behavior therapy in schools, 11329
formula for determining reimbursement of consultants & foster parents of retarded children, 6462

trends in continuing education for psychologists as requirement for competency demonstration, 6608

Professors [See College Teachers]

Profiles (Measurement)
acceptance of nonspecific astrological personality profile, high school students, 5890
analysis of Revised WISC profiles for differential diagnosis, learning disabled vs educable mentally retarded vs emotionally disturbed vs other impaired 4–19 yr old students, 11337
assessment of psychological factors in pain disability, chronic pain patients, 9418
changes over time & age & yr of birth, MMPI profiles, police academy recruits, 9330
cluster analysis to uncover underlying group structure in populations, 6–16 yr olds referred for psychological evaluations by their teachers, demonstration of J. H. Ward's method, 9092
Crown-Crisp Experiential Index profiles, psychoneurotic symptomatology & weight & menstrual function outcomes, females with anorexia nervosa, 4–8 yr followup, 10688
diagnostic accuracy of Mini-Mult form of MMPI, 19–58 yr old male psychiatric patients & female nursing students, 2504
direct observation & behavioral profile, psychotherapy groups of borderline & dependent patients with personality disorders, implications for treatment effectiveness evaluation, 6291
discriminatory accuracy of MMPI scales vs 2-point codes, schizophrenic vs neurotic vs brain damaged vs alcoholic patients, 179
factor analysis, Quality of Life Scale, 9–58 yr old community mental health center clients, 2486
low profiles on Strong-Campbell Interest Inventory of SVIB, vocational needs & personality traits, females over 25 yrs of age, 11419
MMPI norms, male alcoholics, US vs Norway, 2498
MMPI profiles, physicians hospitalized in psychiatric institution vs drug treatment center vs healthy physicians, 1367
patient characteristics & posttreatment alcohol abstinence & polydrug abuse, MMPI profile, inpatient alcoholics, 8219
personality patterns, classification of manic-melancholic patients as unipolar vs bipolar, 39–72 yr old patients, 8127
profile interpretation of Peabody Individual Achievement Test, 217
Revised WISC profiles, adjudicated 15 yr old delinquents subsequently incarcerated vs released on probation, 6034
Revised WISC subtest profiles, learning disabled & mentally retarded 7–8 yr olds, 12921
ridge regression, mean square error of prediction obtained with ordinary least squares for MMPI profiles & diagnoses, psychiatric patients, 7117
scatter analysis, Revised WISC profiles, learning disabled 6–12 yr olds with IQ above 120, 13067
use of Mini-Mult profile signs to identify appropriate psychotherapeutic drugs, community mental health center clients, 11688
WAIS profiles, learning disabled 17–25 yr old students, 13060

Profoundly Mentally Retarded
antibody levels to herpes simplex virus, severely & profoundly retarded adults, 6086
arm air splints & DRO, stereotypic self injurious finger sucking, profoundly retarded 22 yr old female, 13173
assessment & reestablishment of previously learned functional speech repertoire, profoundly mentally retarded 16 yr old, 6-yr followup, 8505
carbamazepine, overactivity, severely & profoundly mentally retarded overactive adult patients, 10936
classroom management techniques, activity engagement, profoundly mentally retarded children, 6730

contingent music, behavior modification, profoundly mentally retarded male 26 yr old, 8493
contingent restraint, reduction of stereotyped body rocking, profoundly retarded 8–31 yr olds, 8551
contingent vibratory stimulation, self stimulatory hand-mouthing & ruminative vomiting, 6 yr old profoundly retarded male, 13267
discrimination training, stimulus control of stereotypic responding, profoundly retarded 19 & 28 yr old males, 8553
educational objectives deemphasizing normative development sequences, assessment & instruction for severely/profoundly handicapped children, 9052
efficacy of sign vs verbal language training, nonverbal hearing mentally retarded 4.4–8.4 yr olds, 13365
familial vs organic etiological basis of retardedness & correlation with IQ, profoundly vs severely vs moderately vs mildly mentally retarded, 1535
food satiation, rumination, profoundly retarded 17 yr old male, 8529
increase in time delay between tones, transfer of response from loud to normal volume instructions, profoundly mentally retarded 13–16 yr olds, 8559
interactional dominance & agonistic hierarchy & territorial behavior, institutionalized severely to profoundly mentally retarded 16–50 yr old females, 8262
interlocking progressive-ratio reinforcement schedule, determination of reinforcement preferences, 10.8–18.4 yr old multihandicapped severely & profoundly mentally retarded, 8545
interrater reliability of TARC Assessment Inventory for Severely Handicapped Children, assessment of current functioning level, profoundly mentally retarded 12.3–21.9 yr olds & special education college students, 9132
issues in education, severely & profoundly retarded children, criticism of studies by T. A. Burton & A. Hirshoren & E. Sontag et al, 13666
issues in education, severely & profoundly retarded children, reply to J. W. Tawney & J. Smith, 13663
lemon juice &/vs Tabasco sauce, taste aversion treatment of chronic ruminative vomiting, institutionalized profoundly retarded 12 & 16 yr olds, 6347
mild slap to forearm &/vs DRO vs overcorrection plus DRO, stereotyped & alternative & self injurious behavior, profoundly retarded 5 yr old female, 8488
motivational factors, job acceptance, teachers of severely & profoundly mentally retarded children, 11157
omission training, stereotyped behavior, 18–21 yr old profoundly retarded institutionalized males, 10864
Piagetian theory of cognitive development, severely & profoundly mentally retarded, literature review, 8242
praise & food reinforcement & physical prompts, reduction of rate of eating, 9–12 yr old profoundly mentally retarded rapid eaters, 8501
preference for music listening vs juice as reinforcement, 2 phases of motivation & reward in learning, profoundly mentally retarded, 10899
puberty & sexuality & procreation, profoundly mentally retarded, 1545
residence in intermediate care facility after release from large institution, adaptive behavior level, profoundly & severely mentally retarded 14–46 yr olds, 8717
response contingent aromatic ammonia, clinically significant vs therapeutic control of self injury, profoundly mentally retarded 15 & 16 yr old females, 8558
sequencing of visual & auditory stimuli, rate of learning words & Bliss symbols, trainable & profoundly mentally retarded 6–9 & 14–17 yr olds, 8238
sharp pinch as aversive stimulus & DRO, compulsive hand-in-mouth behavior & vomiting, 13 yr old profoundly retarded female, 8540
shower scheduling, elimination of feces smearing & coprophagic behavior, profoundly retarded male 7 yr old, 6332
special education, severely & profoundly retarded children, reply to J. W. Tawney & J. Smith, 13639
stability of Piagetian scales for object permanence & spatial relationships, severely & profoundly mentally retarded children, 7099
suggested competencies, teachers of severely & profoundly retarded students, 8842
supervision program, staff performance in supervising food intake, 4.4–5.8 yr old institutionalized profoundly retarded males, 11010
teacher responsibilities, determination of appropriate curriculum, severely & profoundly mentally retarded students, 8970
variable time schedule of reinforcement of other behavior, reduction of body rocking behavior, profoundly mentally retarded 17–45 yr olds, 6367

Progesterone
age & sexual behavior & estradiol benzoate & progesterone, luteinizing hormone secretion, ovariectomized rats, 7680
anisomycin & estradiol & progesterone, cerebral protein synthesis & sexual behavior, ovariectomized female rats, 3201
brain stem transection & estrogen &/vs progesterone, lordotic behavior, ovariectomized rats, 12296
drug induced changes in noradrenergic transmission, lordosis & steroid action within hypothalamic target cells, female guinea pigs, 9952
estradiol benzoate & progesterone & length of mating experience, sexual behavior & male vs female footstomping & fighting, ovariectomized female Mongolian gerbils, 7570
estradiol & progesterone & nipple development & presence of young, postpartum aggression, female rats & mice, 637
estrogen & progesterone, proceptive behavior, female rats, 3130
ethynyl estradiol vs mestranol vs estradiol & progesterone, food & water intake & sexual behavior & body weight, ovariectomized rats, 5409
medroxyprogesterone acetate & milieu therapy, deviant behavior improvement, sex offenders, 4086
medroxyprogesterone acetate & psychotherapy, pathological hypersexuality, 24 yr old male, 3924
neonatally placed septal lesions & estradiol benzoate & progesterone & testosterone, sexual behavior, male vs female vs androgenized female rats, 7571
olfactory tubercle vs corticomedial amygdaloid lesions & female estradiol benzoate & progesterone treatment & ovariectomy, sexual behavior, male rats, 7575
progesterone administration following spontaneous heat & coital stimulation, sexual receptivity, female rats, 7635
progesterone & estradiol & dihydrotestosterone, extinction rate in testosterone induced conditioned taste aversion, gonadectomized female rats, 784
progestin level in oral contraceptives & trimester of pregnancy, sweetness preference, 17–31 yr old females, 3159
sensory stimulation & adrenal progesterone, reflex ovulation, female light-induced persistent estrus rats, 3113

Prognosis
antecedent factors & phenomenology & treatment required & prognosis, reactive vs acute psychotics, 5971
behavioral treatment, sleeplessness & resting pulse, chronic psychotics, implications for clinical intervention with poor prognosis psychotics & 2-factor model of arousal disorder, 13284
chronicity effect of left temporoparietal lesion, 30 yr old male with encephalitis, 6-yr longitudinal study, 1614
clinical course & prognosis, patients with psychogenic psychosis, 8124
clinical features & behavioral characteristics of autism, implications for etiologically specific treatment, literature review, 5990
clinical otovestibular measures, prognosis for acute idiopathic hypoacusis & anacusis, implications for medical treatment, 6448
concepts & practice of prognosis in psychiatry, teaching implications, 2052
course of illness, schizoaffective vs bipolar manic depressive patients, 10452
course of illness, schizophrenics, followup studies, 10487
delusional depression as distinct clinical entity & demographic traits & treatment responsiveness, delusional depressed patients, 1428
dexamethasone suppression test as prognostic indicator, depressed male 30 yr old & female 42 yr old, 8568
diagnosis & prognosis, mental breakdown, 14–19 yr olds, England, 2-yr followup study, 6501
diagnostic distribution & prognosis & outcome & mortality, psychogeriatric disorders, aged patients, US vs UK vs Canada, 4-yr followup, 1420
differential development, brainstem auditory evoked potentials, normal vs high-risk infants for birth- or pregnancy-related CNS damage, prognostic implications, 8367
duration of depot neuroleptic maintenance therapy & prognosis following discontinuation, schizophrenics, 6389
etiology & incidence & diagnosis & treatment, developmental dyspraxia, 10661
etiology vs clinical symptoms of disorder, response to antidepressant drugs, patients, 6417

family history & psychotherapeutic outcomes & prognosis & mode of onset, schizophrenic & paranoid symptoms, depressed patients, 12947
importance of psychiatric classification & DSM III for research & clinical practice, 11110
material social circumstances & clinical symptoms & genetic risk, prediction of course of minor psychiatric disorders, psychiatric outpatients, 5964
methods for discrimination of transvestism vs gender dysphoric Ss, patients applying for sex reassignment, 6452
prognostic expectations, outcome of brief therapy, recipients of community mental health services, 4136
psychiatric symptoms & distortion of perception of severity vs prognosis of child's illness, parents of children with cystic fibrosis & leukemia, 13101
psychodrama vs small group therapy in Alcohol Rehabilitation Center, personality profiles & anxiety & prognosis, US Navy alcohol abusers, 6535
regressive megalomanic vs progressive hypomanic models, "one day at a time" syndrome, post-kidney transplant patients, 1899
social class, diagnosis & prognosis & treatment & family structure, 14–18 yr old adolescent former psychiatric inpatients, 2-yr followup, 3797
symptoms & social adjustment & prognosis, antisocial children observed in followup study 4–20 yrs after psychiatric hospital discharge, 8714
total sleep deprivation & thyrotropin releasing hormone stimulation, endogenous depression & serum thyrotropin response, 27–89 yr old patients, 13186
treatment by suggestion, symptoms & prognosis, 10–25 yr old patients with hysterical conversion, 10483
Program Evaluation (Educational) [See Educational Program Evaluation]
Program Evaluation (Mental Health) [See Mental Health Program Evaluation]
Program Planning (Educational) [See Educational Program Planning]
Programed Instruction
adaptive design strategies, computer-based individualized instruction, 2103
computer assisted instruction vs programed text vs lecture method, achievement, US Air Force medical laboratory & radiology & dental assistant trainees, 2001
individualized education program assessment model, learning disabled children, 11305
pictorial &/vs verbal instructional material, performance on concrete vs abstract problems, deaf college students, 6735
programed reading unit, word recognition & words read correctly, disadvantaged elementary school students behind in reading ability, 4387
programmed learning vs microtraining, interview performance & empathy ratings, telephone hotline workers, 6606
review passages & type & difficulty of review questions following self instructional materials, transfer of mathematics skills, 7th graders, 6689
task analysis & cognitive functioning, construction of instructional program for diagnosis of learning difficulties, 2167
Programing (Computer) [See Computer Software]
Programing Languages (Computer) [See Computer Programing Languages]
Programs (Government) [See Government Programs]
Programs (Mental Health) [See Mental Health Programs]
Progressive Relaxation Therapy
arguments against anxiety reduction procedures as treatment, asthma patients, 10881
autogenic training vs progressive relaxation vs hypnosis, relaxation measured by respiratory rhythm, 5274
diagnostic use of progressive relaxation & stress inoculation & EMG biofeedback training, chronic low back pain, male 44 yr old, 10905
EMG biofeedback &/vs progressive relaxation, tension headaches, clients with muscular contraction headaches, 8528
frontal EMG biofeedback vs relaxation training, manual motor functioning, Parkinson's patients, 1824
frontalis EMG feedback training vs progressive relaxation, chronic anxiety, patients, 6343
hypnotic analgesia & frontalis EMG feedback with vs without Jacobson progressive relaxation, chronic prefrontal muscle contraction headache, patients, 8418
locus of control, attitudes toward biofeedback vs relaxation training vs group therapy, male pain patients, 10761
progressive muscle relaxation & desensitization, toilet phobia, 4 yr old male with encopresis, 1828
progressive relaxation training & pressure from blood pressure cuff, pain thresholds, male graduate students, 1775
progressive relaxation vs autogenic training, psychophysiological changes, 19–53 yr old normal adults, 777
psychophysiological profile & biofeedback & relaxation training, stress management, 10862
scheduling & progressive muscular relaxation & retention training, urinary frequency & urgency, 39 yr old male, 4048
use & effectiveness in behavior therapy & clinical treatment, relaxation training, developmentally disabled & mentally retarded, 8534
validity of Adjective Generation Technique, measurement of changes in anxiety in progressive relaxation training, college students, 11644
Project Follow Through
Behavior Analysis Model of Follow-through program, reading & mathematics achievement, Native American kindergartners through 3rd graders, 6665
description of Parent Education Follow Through Programs, 6655
Project Head Start
predictive validity for 1st grade academic achievement, developmental tests, Black Head Start 5 yr olds, 6749
social science research, formulation of social policies & day care programs for young children, 4320
Projection (Defense Mechanism)
age & sex, development & projection of fear, 1st–4th graders, 5551
aspects of internalization including introjection & projection & identification, 28
methodological difficulties in concept of projective identification, 6259
Projective Personality Measures [See Also Bender Gestalt Test, Childrens Apperception Test, Color Pyramid Test, Holtzman Inkblot Technique, Human Figures Drawing, Rorschach Test, Rosenzweig Picture Frustration Study, Szondi Test, Thematic Apperception Test]
application of Three Persons Test, 2484
consistency & reliability & scoring of Rogers & Neill Sentence Completion Achievement Motivation Scale, comparison to TAT, 7065
House-Tree-Person Test, identification of physically abused children, abused vs well adjusted vs nonabused but disturbed 5–12 yr olds, 9320
Psychosocial Competence Incomplete Stories Test, measurement of optimistic trust & self efficacy & active coping style, 7–12 yr olds, 4811
Rorschach & Hand Test data, adult bipolar patients in manic vs depressive phases, 7111
split-half & test-retest reliabilities of Hand Test scoring categories, Ss of varying psychopathology, 9433
Projective Techniques [See Also Bender Gestalt Test, Childrens Apperception Test, Color Pyramid Test, Holtzman Inkblot Technique, Human Figures Drawing, Projective Personality Measures, Rorschach Test, Rosenzweig Picture Frustration Study, Szondi Test, Thematic Apperception Test]
construction & validity & scoring system, thematic measure of intimacy motivation, 9381
construct validity of Hand Test Withdrawal score, mental status & general intactness, older male nursing home residents, 11675
development of projective measure of locus of control, 10th graders, Sri Lanka, 9389
development of projective technique, creation of stories in response to self made inkblots, 6–16 yr olds, 7042
direct vs randomized response vs projective questionnaires, endorsement of sensitive issues, college students, 11625
Draw-a-Family Test, assessment of learning difficulties, 10 yr old male, 154
semantic differential judgments of geometric figures on evaluative & potency & activity dimensions, projective meanings, college students, 4897
technique for projective assessment of interpersonal relations, children, 11677
usefulness of 3-trees test for diagnosis of family disturbance, 8 & 11 & 14 yr old students, Switzerland, implications for use in child psychiatry, 9076
validation of projective measure of aggression-anxiety, male 5 yr olds, 9351

Projective Testing Technique
comparative validity of Likert behavior inventories vs forced choice vs projective tests, measurement of achievement motivation, male students, 216
development of projective technique, creation of stories in response to self made inkblots, 6–16 yr olds, 7042
retest reliability of Koch's Tree Test, projective drawings, male high school students, 148
Projective Tests [See Projective Techniques]
Prolactin
anxiety induced by flooding therapy, lack of prolactin secretion response, phobic females, 1808
beta-endorphin & method of iv injection, prolactin & EEG response & clinical symptom improvement, male chronic schizophrenics, 1837
blood concentration level of prolactin, length of sensitive period for establishing maternal behavior at parturition, ewes, 5262
bromocriptine as treatment for chlorpromazine-induced galactorrhea, exacerbation of treated mania, bipolar manic depressive 19 yr old female, 8587
chronic morphine withdrawal with apomorphine ester vs lergotrile, locomotor activity, male rats, 3220
ergocornine hydrogen maleate & 2-bromo-alpha-ergocryptine, pituitary prolactin levels & lactation & aggression toward male intruders, parturient mice, 12386
flutroline, EEG vs plasma prolactin vs behavior, 19–26 yr old males, 12355
haloperidol, plasma concentration & prolactin levels & clinical status, female chronic schizophrenics, 6408
haloperidol with vs without benztropine mesylate, regulation of prolactin response, 24–29 yr old males, 12365
hypothalamic deafferentation & medial forebrain bundle lesions & visual & acoustic stimulation, prolactin secretory response, male rats, 5345
intermittent pimozide vs fluphenazine decanoate, relapse & side effects & plasma concentrations & prolactin levels, male chronic schizophrenics, 6400
lymphocyte MAO activity & plasma prolactin & growth hormone, female chronic schizophrenics with vs without tardive dyskinesia, 13112
pattern of human prolactin & growth hormone secretion & synchrony with sleep-waking cycle, healthy 62–78 yr olds, 747
presence of rams, gonadotropin & prolactin levels & ovulation, female sheep, 2955
propranolol, cerebrospinal fluid amine metabolites & prolactin, schizophrenics, 4077
propranolol hydrochloride, psychotic symptoms & serum serotonin & prolactin levels & side effects, schizophrenics, 1849
role of prolactin in schizophrenia & affective disorders & premenstrual syndrome & alcoholism, review of research, 12906
sex differences, cerebrospinal fluid prolactin levels, lobotomized vs nonlobotomized chronic schizophrenics with mean age of 45.4 yrs, 13189
thioridazine dosage, prolactin levels, 22–49 yr old male acute schizophrenics, 6390
thioridazine vs thiothixene, activity & parkinsonism & prolactin levels, chronic schizophrenic 18–65 yr old outpatients, 13327
thyrotropin-releasing hormone, plasma prolactin response, depressive & bipolar patients receiving ECT, 10470
trazodone, serum prolactin secretion, 24–41 yr olds, 12396
Prolixin [See Fluphenazine]
Promethazine
promethazine, blockade of histamine- & impromidine-induced cyclic adenosine monophosphate activity in H sub 2-receptors in intact guinea pig hippocampal cells vs cell-free preparations, 7628
severe tardive dyskinesia, 15–66 yr old Hungarian schizophrenic outpatients, implications for side effects of drug therapy, 10919
Promiscuity [See Prostitution]
Pronouns
contrastive stress, interpretation of pronouns in sentences, 5–7 yr olds, 5529
development of comprehension of 3rd person personal pronouns, 3–7 yr olds, 12544
imbalance in use of gender of nouns & pronouns in term papers on sex role stereotyping, student teachers, 3234
input modality vs pronominalization vs response strategy, recognition memory of real-life discourse, college students vs Italian speaking adults, 9560
sexism & generic use of "he" in language, 945
social vs cognitive & linguistic bases of pronoun reversals, autistic children, 8139
verb type & conjunction & gender cue, latency in choice of referent for pronoun in sentences, college students, 948
Pronunciation
binary articulatory production classification & derived difference measures of English consonants, 3236
existence & acoustical frequencies of word boundaries between noun & adjective in French language, speakers & listeners, 7725
meaningful minimal contrast treatment, final consonant deletion & fricative stoppage & fronting of velars, 4.3 & 4.8 yr olds with phonological disability, 10968
perceptual basis of consonant cluster reduction & final devoicing, 9525
phonetic cues in beginning spelling & parsing & pronunciation & reading, school age children, 10098
praise &/vs noncontingent vs contingent correct self recording, pronunciation during oral reading, 11 yr old learning disabled male, 4404
speaking rates & intelligibility as measurements of communication efficiency, dysarthric adults, 10751
Propranolol
chlorpromazine vs propranolol, drug therapy, hospitalized schizophrenics, 10946
melatonin vs levopropranolol, sleep, male rats, 7674
propranolol, cerebrospinal fluid amine metabolites & prolactin, schizophrenics, 4077
propranolol, complex visual RTs, 3146
propranolol, therapeutic & metabolic effects, chronic schizophrenics, 8590
propranolol & flupentixol decanoate, symptoms, chronic schizophrenics, 4096
propranolol hydrochloride, psychotic symptoms & serum serotonin & prolactin levels & side effects, schizophrenics, 1849
propranolol & phenothiazine, electrodermal orienting & habituation responses to auditory stimuli, schizophrenics, 10924
propranolol therapy, toxic psychosis, mildly retarded female, 13349
propranolol &/vs neuroleptic drug therapy, active & passive avoidance learning, 19–57 yr old schizophrenics, 4089
systemic vs spinal cord administration of 5-methoxy-N- N-dimethyltryptamine, acoustic startle reflex, male rats., 7629
time of posttraining phentolamine &/vs propranolol administration into amygdala, retention, rats, 9933
Proprioceptors
prism displacement & reduction of proprioceptive feedback, visual & proprioceptive adaptation, college students, 11765
proprioception, perception & control of movement, persons with metacarpophalangeal joint & joint capsule replacement, 5282
whole body vibrations, proprioceptive tasks & visual tracking & control of static vs dynamic torques, right handed 17–35 yr olds, implications for helicopter & other vibrating vehicle operation, 9473
Prose [See Also Autobiography, Biography]
algorithm depicting problem solving processes & structure, linguistic analysis of short published reports, 7220
cloze pretest procedure, prediction of novel & short story reading comprehension posttest scores, 10th grade English literature students, 9083
context orientation vs depth of processing, theme & prose comprehension & recall, college students, 9554
discrepancy from expectation & retention interval & literal vs inferential comprehension type, learning & retention of prose material, 5th & 6th graders, 10029
free reading vs topic choice vs recall task & passage presentation order, reading time, college students, indications for component subprocesses in prose comprehension, 9545
immediate vs delayed recall & reading vs listening mode of presentation, incidental recall of difficult prose passages, 16–17 yr olds, 7793
inserted review questions, retention of prose passages, college students, 13609
learning strategy training vs traditional instruction, recall of information from prose, academically disadvantaged college freshmen, 2109
lexical & structural & semantic comprehension & recall of story, 6–12 yr olds, 3317
memory vs vocabulary vs inference ability, recall of prose with vs without words relating sentences, college students, 11964
mnemonic strategies, facilitation of prose recall, college students, 11939

pictures, recall of newspaper articles, 4th graders, 4314
pictures vs character motivation story vs both, comprehension & recall of prose passage, college students, 9562
prose comprehension & recall, literature review, 9590
prose readability, reading times & recall, college students, 487
ratings of humorous vs violent vs factual vs affective interpersonal relationship passages in English vs Filipino, bilingual 16–22 yr old college students, Philippines, implications for translator training, 3241
reading comprehension & information processing approach in essay posttest, creative vs noncreative college students, 1319
repetitive study of & testing on same set inclusion structure & immediate feedback, conversion errors & RTs on test for integration of related information in prose, college students, 421
rule governed vs variant expository prose, readability, high school students, 7838
semantic & propositional composition of texts, reading time, college students, 416
short answer vs multiple choice vs full free recall initial test, retention of prose passage, 14 & 15 yr olds, 9082
short topical test immediately after learning, delayed retention of prose, 10th graders, 13522
study strategies & factual vs inferential test items, performance on prose comprehension test, college students, 13669
text distortion to reduce shape vs sound vs orthographic cues, oral reading speed, 5.8–8.4 yr old good vs poor readers, 12550
verbal vs imagery learning style, recall of concrete vs abstract prose material, 10–11 yr olds, 12541
verbatim vs paraphrased adjunct questions & reviewing, learning from prose, college students, 11172
Proserine [See Neostigmine]
Prostaglandin [See Fatty Acids]
Prostheses
algorithm for EMG pattern recognition, voluntary control of above-knee prostheses, amputees, 6519
proprioception, perception & control of movement, persons with metacarpophalangeal joint & joint capsule replacement, 5282
Prostitution
psychosocial characteristics, 14–24 yr old male prostitutes, interviews & limited 1-yr followup, 8188
Protein Deficiency Disorders
carbamyl phosphate synthetase I deficiency, cognitive ability, 12 & 16 yr old sisters, 6167
protein malnutrition, physical development & learning ability, rats, 12304
Protein Metabolism
anisomycin & estradiol & progesterone, cerebral protein synthesis & sexual behavior, ovariectomized female rats, 3201
aversive diet & food restriction, feed efficiency, male rats, 7572
cycloheximide, protein synthesis & memory, praying mantis, 5380
intrahippocampal anisomycin, retention of brightness discrimination task, rats, 3174
learning, protein levels & synthesis, split-brain pigeons, 5336
Proteins [See Also Antibodies, Blood Proteins, Hemoglobin, Immunoglobulins]
acrylamide, axonal transport of proteins, 3 day old chickens, 12403
aversive diet & food restriction, feed efficiency, male rats, 7572
biochemical role of binding to & inhibition of calcium binding protein by antipsychotic drugs & endogenous proteins, 940
brain amines & dopamine & endorphin, affective disorders & schizophrenia, 10526
cannabis smoke exposure & dietary protein levels before & during pregnancy, length of gestation & stillbirths & litter destruction & pup activity, female rats, 9829
ECS, brain synaptic proteins, rats, 12318
enkephalin analog vs morphine, locomotor activity, male mice, 12406
insulin, food intake & dietary self selection of proteins vs carbohydrates vs fats & body weight, male rats, 7659
ip beta-endorphin & training & stimulation, memory retention & beta-endorphin immunoreactivity in brain, rats, 7656
maternal & postweaning protein restriction, open field behavior & plasma corticosterone levels, rat pups, 9843
passive avoidance or unavoidance shock, in vito phosphorylation of electophoretically separated brain proteins, adult rats, 751
protein restricted diet during gestation & lactation & maternal removal-replacement, increased emotional responsiveness & decreased mother-kitten social interactions & attachment behavior, cats, 789
role of brain protein synthesis in memory formation, criticism of P. E. Gold & D. B. Sternberg's work by L. R. Squire et al & rebuttal, 3054
taste aversion conditioning with sucrose, subsequent thresholds for sucrose &/vs thaumatin solution, male rats, 532
Protest (Student) [See Student Activism]
Protestantism [See Also Fundamentalism]
Anabaptism as ego impairment, criticism of article by W. C. Shepherd, 12652
conservatism & general vs specific ethnocentrism, Protestant vs Catholic adolescents, Northern Ireland, 12655
locus of control & religious affiliation, Protestant vs Catholic college students, 12852
religion & sex, value systems, 15 yr olds, Northern Ireland, 3503
Type A personality, coronary artery disease, Irish vs Italian Catholic vs White Anglo Saxon Protestant 18–70 yr old males, 1572
value patterns & motive orientations, groups of Jehovah's Witnesses vs Jews vs Muslims vs Pentecostals vs Quakers vs Roman Catholics vs Lutherans, 1138
Protozoa
evidence for diploidy & random mating & recombination, trypanosomes, 7379
Pseudocyesis
stage of estrous cycle & pseudopregnancy, circadian activity rhythms, female rats, 9801
ventral bundle noradrenergic neurons, sensory components of sexual behavior & pseudopregnancy, rats, 706
Pseudopregnancy [See Pseudocyesis]
Psychedelic Drugs [See Lysergic Acid Diethylamide]
Psychedelic Experiences
symbolic expression of psychedelic experiences through drawings & paintings, male 21 yr old drug addict, 13038
Psychiatric Aides
conflict of goals & personnel patient & class differences, innovative treatment failure in public mental institutions, psychiatrists & psychiatric nurses & aides & patients, literature review, 6550
Psychiatric Classification (Process) [See Psychodiagnosis]
Psychiatric Classifications (Taxon) [See Psychodiagnostic Typologies]
Psychiatric Clinics
changes in 7 yr period in utilization of community outpatient psychiatric center, Mexican Americans, 6460
development of community training clinic program & role of play psychotherapy, outpatient children & families, 8662
development of psychiatric care, Tanzania, 1631
history of functions & development & success in treatment, partial psychiatric hospitalization, 8703
training & utilization in behavior therapy clinic, nurse therapists, 4062
workload & cost analysis, outpatient mental health program, nurses, 6601
Psychiatric Disorders [See Mental Disorders]
Psychiatric History [See Patient History]
Psychiatric Hospital Admission [See Also Psychiatric Hospital Readmission]
assessment of competency to consent to voluntary admission, newly admitted psychiatric patients, implications for legal model applicability, 13406
biorhythms & dates of psychiatric hospital admission or emergency room visit, psychiatric patients, 13428
blood phencyclidine detection, psychiatric hospital patients, 6485
brief hospital admission, neurotic & psychotic symptoms, psychiatric patients, 4166
demographic characteristics & obstetric correlates, psychiatric admission, female hospitalized patients who had given birth to live vs stillborn children, 1971–77, 13415
demographic characteristics & psychiatric data & diagnoses & court reports, pretrial examination cases admitted to psychiatric hospital from 1966–75, Canada, 1952
hospital admittance regulations, treatment & length of stay, elderly psychiatric patients, followup study, 1961
mental hospital admissions rates & psychiatric symptoms, immigrants, England, 5937
new commitment laws, number of Nebraska state hospital voluntary & involuntary admissions, 1974–77, 11013
psychiatric hospital 1st admissions & mental illness rates, Polish & Russian refugees, England, 5963
relationship of economic conditions to mental health admissions, comments on J. R. Marshall & D. P. Funch's critique of study by M. H. Brenner, 11020

relationship of economic conditions to mental health admissions, reply to K. S. Ratcliff's comments regarding critique of M. H. Brenner's study, 11014
relative fertility, female psychiatric 1st admissions, Norway, 8165
unrecognized medical illness prompting psychiatric admission & diagnosis techniques, psychiatric patients, 4165
use of lithium, incidence of hospital admissions with mania, 10942
wind direction & rainfall & prevailing temperature & sunshine duration, psychiatric diagnosis at time of hospital admission, 13-mo retrospective study, 11011
Psychiatric Hospital Discharge
adaptive skill training, community reintegration, psychiatric patients, 4170
adherence to community mental health ideology, evaluation of post hospital community adaptation, therapists vs formerly hospitalized patients, 11004
client characteristics & staff intervention, referral success, outgoing psychiatric patients, 4133
community psychiatry in Saskatchewan from 1960s to 1979, deinstitutionalization of psychiatric population, 4147
deinstitutionalization of mental patients, implications for family therapy, 8464
design of followup study, rehabilitated chronic schizophrenics released from state hospital, 20-yr followup, 11581
development & evaluation of London Psychogeriatric Rating Scale, prediction of discharge from psychogeriatric unit, aged inpatients, 7061
group discussion with acute patients, hospital discharge, chronic psychiatric patients, 6494
holistic group therapy, adjustment outside hospital, schizophrenic patients, 8479
identification of needs & referrals for aftercare services, psychiatric patients prior to hospital discharge, 13427
Psychiatric Hospital Programs [See Also Therapeutic Community]
adaptive skill training, community reintegration, psychiatric patients, 4170
analytic therapy with libidinal cathexis & emotional growth, hospitalized psychosomatic patients, 1963
assessment of applicability of group therapy, psychiatric inpatients, 6486
behavioral intervention, generalization of new behaviors & maintenance of contingencies, males in psychiatric hospital locked ward, 8615
behavioral training program, improvement in social skills, institutionalized mentally retarded adult females, 13419
brief hospital admission, neurotic & psychotic symptoms, psychiatric patients, 4166
conflict of goals & personnel patient & class differences, innovative treatment failure in public mental institutions, psychiatrists & psychiatric nurses & aides & patients, literature review, 6550
deinstitutionalization of mental patients, implications for family therapy, 8464
evaluation, home care treatment program, over 18 yr old acutely ill psychiatric patients, 1-yr followup, 8709
group psychotherapy, hospitalized children & adolescents, 4164
group therapy, severely disturbed 8–12 yr old inpatients, 11022
group therapy model, short-term psychiatric inpatients, 6507
history of functions & development & success in treatment, partial psychiatric hospitalization, 8703
hospital program, treatment of neurotic depression, 6487
hospital school program, subsequent school adjustment, 12–18 yr old psychiatric patients, 1-yr followup, 1947
idiographic manipulation of cognitive & autonomic & motoric & environmental factors, anxiety management, patients, 8562
integration of physical fitness techniques into psychiatric hospital program, patients, 13411
locked up vs open door management, acting out & "jailification", inpatient adolescent drug abusers, 4177
mental health care in hospital emergency rooms on weekends, 6510
motivation to continue job in regimental environment, degree of disturbance, 19–44 yr old male psychiatric patients, 8147
prediction of perceptions of psychiatric hospital treatment program, family members, 4159
problems & prospects in geriatric psychiatry, 4251
psychodiagnosis, development of psychiatric treatment programs, adolescent male inpatients, 6511
psychosocial hospital program, withdrawn & passive & autistic juvenile schizophrenics, 6506
reward of patient's care-taking vs sociable vs achievement behaviors, psychiatric patients in inpatient ward vs day hospital program vs day center, implications for chronic illness behavior, 6024
service quality & resources, problems in operation of emergency mental health units, 8705
social skill training, social behavior, emotionally disturbed 10 yr old female & 11 yr old male patients, 8487
sociotherapeutic & pharmacological program, outpatient treatment of discharged schizophrenics, 11008
token economy program, independent living skills, geropsychiatric inpatients, 8698
treatment manual for social skills training for chronic psychiatric patients, 11002
Psychiatric Hospital Readmission
family nurturing system, prevention of rehospitalization, manic depressive patients, 10829
sex & age & race, adult mental health recidivists, 6513
time & family vs individual therapy, rehospitalization, adolescents, 3-yr followup study, 8453
Psychiatric Hospital Staff [See Also Psychiatric Aides]
attitudes toward hospital staff, psychiatric patients, literature review, 1967
basic concepts & methodology in staff training techniques, designs for improvement in overall quality of life, institutionalized aged, 13423
Butler Hospital Code, description of psychiatric patient problems, clinical staff, 8700
large group participation training, psychiatric staff, implications for therapeutic communities, 8770
life history of multidisciplinary psychiatric staff groups, hospital psychiatric unit staff, 6616
locus of control & age & length of hospital stay & staff perceptions of client satisfaction, satisfaction with hospital services, psychiatric patients, 4161
occupational roles, psychiatric hospital staff, 6537
perception of psychiatric ward atmosphere, nursing staff vs other professionals, 6557
perceptions of symptomatological differences between male & female inpatients, psychiatric hospital staff, 2053
psychiatric ward atmosphere, perceptions, clients vs staff, 4157
transfer of patients from involuntary to voluntary commitment status, circumvention of judicial hearings, psychiatric hospital staff, 4160
verbal interaction between staff & residents, 8–32 yr old mentally retarded institutional residents, 8706
Psychiatric Hospitalization [See Also Commitment (Psychiatric), Psychiatric Hospital Admission, Psychiatric Hospital Discharge, Psychiatric Hospital Readmission]
age & sex & prescription of drugs, thyroid dysfunction, psychiatric inpatients, 13176
anger & guilt & depression & withdrawal & identification & search for meaning, siblings of hospitalized emotionally disturbed children & adolescents, 10270
basic concepts & methodology in staff training techniques, designs for improvement in overall quality of life, institutionalized aged, 13423
change in self assessment of personality characteristics & aggression, 24–69 yr old depressed patients after hospitalization, 5994
computer simulation of flow of voluntarily vs involuntarily admitted patients through psychiatic ward, 11574
demographic &/vs social competence variables, predictions of length of hospitalization, 4169
differential use of & referral to psychiatric hospital or outpatient services, West Indian vs West African vs English patients in London, 8626
duration of hospitalization & instrumental dependency as indicative of coping behavior, 1st admission male schizophrenics, 13410
emotional dependency, male schizophrenics hospitalized 1–5 yrs, 8684
gestalt marathon group, self actualization, college students, 4032
granting right of access to own hospital records, treatment effectiveness & attitude toward hospital & staff, hospitalized psychiatric patients, 1955
locus of control & age & length of hospital stay & staff perceptions of client satisfaction, satisfaction with hospital services, psychiatric patients, 4161
Markov chain model, prediction of psychiaric inpatient utilization by age group, psychiatric patients, 4875

MMPI profiles, physicians hospitalized in psychiatric institution vs drug treatment center vs healthy physicians, 1367
model of psychiatric care, hospitalized patients, 6500
mortality rate prior to vs post psychotropic drug use, psychiatric inpatients, 11003
motivation for referral for inpatient treatment at psychiatric institute, therapists, 2033
patient attitudes toward mental hospitalization, criticism of study by R. M. Weinstein, 11006
patients' attitudes toward mental hospitalization, reply to criticisms by M. Essex et al, 11027
physical health, length of institutionalization, 18–65 yr old psychiatric patients, 8673
psychiatric treatment & record organized by objectives, modifications of the Weed system, 11120
psychological referrals in psychiatric unit of general hospital vs mental hospital, 13426
psychosocial background, behavior during treatment in psychiatric institution, female adolescents, 6505
psychotherapy, inpatients, 8454
reason for hospitalization & diagnosis & symptoms & length of stay, male & female patients admitted to general hospital psychiatric service, 1944
repeated oral lecithin, serum choline & lecithin levels & amelioration of tardive dyskinesia, long-term schizophrenic inpatients, 13336
serum creatine kinase activity during hospitalization, psychotic patients, implications for neuromuscular dysfunction in psychosis, 1456
social implications of deinstitutionalization, 8678
societal & legislative pressure, inpatient psychiatric hospital treatment, 11007
socioeconomic factors, long term hospitalized psychiatric patients, Sri Lanka, 11017

new commitment laws, number of Nebraska state hospital voluntary & involuntary admissions, 1974–77, 11013
patient characteristics & diagnoses & treatment, outcome, adolescents in general hospital psychiatric unit, 1946
prevention & management of violence, general hospital psychiatric unit, 1957
psychiatric ward atmosphere, perceptions, clients vs staff, 4157
psychological referrals in psychiatric unit of general hospital vs mental hospital, 13426
psychosocial hospital program, withdrawn & passive & autistic juvenile schizophrenics, 6506
racial differences, perception of ward atmosphere, Black vs White hospitalized psychiatric patients, 13414
reliability of behavioral observation method, social functioning & peer interaction, 6–13 yr olds in short term psychiatric facility, 9385
role of general hospital, psychiatric service delivery, 8674
state hospitals, psychiatrists, 6504
token economy with contingency management vs information feedback, chronic psychiatric patients in day hospital setting, 6369
treatment in general teaching hospital vs mental hospital, clinical outcomes & costs, schizophrenics, 6502
trends in prescription of psychotropic drugs in state hospital, 1970–77, 6190
underdiagnosis of manic depressive illness, psychiatric hospital, 3793

Psychiatric Nurses

attitudes toward psychiatric treatment, psychiatrists & patients & nurses & social workers, Great Britain & US, literature review, 6587
behavior therapy vs traditional psychiatric treatment modalities, job satisfaction & job related attitudes, psychiatric nursing staff members, 11127
conflict of goals & personnel patient & class differences, innovative treatment failure in public mental institutions, psychiatrists & psychiatric nurses & aides & patients, literature review, 6550
perception of psychiatric ward atmosphere, nursing staff vs other professionals, 6557
personal background & training & education & salary & attitudes & treatment roles, psychiatrists vs psychiatric social workers vs nurses vs clinical psychologists vs mental health workers, 6545
reliability & validity of psychiatric interviews with patient vs next of kin vs nurses ratings, psychotic female patients, 1639
ward atmosphere, job satisfaction, psychiatric nurses, 4223

Psychiatric Patients

abnormal sexual behavior, psychiatrically referred prepubescent children, 12923
action vs dialog oriented peer support networks, institutionalized adolescents, 4176
adaptive skill training, community reintegration, psychiatric patients, 4170
adherence to community mental health ideology, evaluation of post hospital community adaptation, therapists vs formerly hospitalized patients, 11004
admission to community mental health center vs state hospital, length of stay & recidivism, difficult psychiatric patients, 4129
age & degree of psychopathology & medication, tapping speed on Finger Tapping Test, 19–64 yr old female psychiatric inpatients, 10415
age & sex & prescription of drugs, thyroid dysfunction, psychiatric inpatients, 13176
age & sex & race, color preferences, 18–61 yr old psychiatric patients, 3782
aggressiveness & antisocial behavior & noncompliance & reactivity & depression & anxiety & egocentrism, 5–14 yr old male child psychiatry clinic patients, 12905
alcohol consumption & abuse, non-substance abuse hospitalized psychiatric patients, 10539
antipsychotic drug therapy, incidence of breast cancer, psychiatric patients, 1969–78, 13331
assertiveness & depression, male vs female psychiatric outpatients & college students, 10495
assessment of competency to consent to voluntary admission, newly admitted psychiatric patients, implications for legal model applicability, 13406
attitudes toward hospital staff, psychiatric patients, literature review, 1967
attitudes toward medication changes, chronic psychiatric patients, 13342
attitudes toward own diagnosis, depressive & schizophrenic patients, 8187

attitudes toward psychiatric treatment, psychiatrists & patients & nurses & social workers, Great Britain & US, literature review, 6587
attitudes toward & side effects of ECT, patients who had ECT in 1971 or 1976, 1642
basis for patient's capacity to make informed decisions regarding psychiatric or psychological treatment, 10789
behavioral weight reduction program, obese psychiatric patients, 6366
bilingual rating scale development, measurement of acculturation level, Mexican American psychiatric hospital patients & staff & in-service training students, 7035
biorhythms & dates of psychiatric hospital admission or emergency room visit, psychiatric patients, 13428
blood phencyclidine detection, psychiatric hospital patients, 6485
brief hospital admission, neurotic & psychotic symptoms, psychiatric patients, 4166
brief social skills training & peer prompting & reinforcement, social behavior, 32 yr old socially isolated male resident of psychiatric rehabilitation center, 13434
Butler Hospital Code, description of psychiatric patient problems, clinical staff, 8700
carpipramine, treatment of asthenic syndromes, psychotics & psychopathological & characterological reaction patients, 6405
client characteristics & staff intervention, referral success, outgoing psychiatric patients, 4133
clinical & demographic & historical features, diagnosis of schizophrenia, psychiatric patients, 5988
cognitive distortion & cognitive errors, depressed psychiatric vs depressed vs nondepressed low back pain patients, 10427
cognitive functioning, psychiatric patients with vs without complaints regarding ECT, 1643
comparison & construct validity of Halstead-Reitan vs Luria neuropsychological test batteries, psychiatric patients, 159
comparison of personality inventories, psychiatric & physical rehabilitation patients, Netherlands, 2417
complaints of drug side effects, amount of indirect vs verbal hostility vs irritability vs resentment, nonpsychotic drug therapy psychiatric outpatients, 10917
computerized biofeedback instruments, striated muscle control, psychiatric patients, 1773
computer simulation of flow of voluntarily vs involuntarily admitted patients through psychiatic ward, 11574
conflict of goals & personnel patient & class differences, innovative treatment failure in public mental institutions, psychiatrists & psychiatric nurses & aides & patients, literature review, 6550
consent in psychiatric treatment, patients, position of Canadian Psychiatric Association, 4211
criticism of court-mandated review of psychiatric treatment by independent therapists in private hospitals, public policy implications, 13422
cross-validation of prediction formula IQ vs actual IQ, determination of premorbid cognitive functioning level, non-neurologically impaired psychiatric patients & outpatients, 9371
cued vs noncued & VI retention measures, retention, bilateral vs unilateral ECT patients vs college students, 6204
cultural & individual factors in possession, psychiatric patients, 6023
deinstitutionalization of mental patients, implications for family therapy, 8464
demographic characteristics & diagnoses & drug treatment, psychiatric inpatients of Aro Neuropsychiatric Hospital, Nigeria, 4171
demographic & clinical characteristics, patients treated at psychiatric hospital emergency service, 1964
demographic variables, type of mental disorder, male vs female 6–12 yr old mental health patients, Canada, 8128
demythologizing seminar on characteristics of mental patients, change from negative to positive images & attributions, male vs female college students, 10354
development & evaluation of London Psychogeriatric Rating Scale, prediction of discharge from psychogeriatric unit, aged inpatients, 7061
development of positive introject, severely disturbed patients, 6236
development & validity of picture-preference scale, range of thinking disturbances, psychiatric inpatients vs nonpatients, 9408
diagnostic accuracy of Mini-Mult form of MMPI, 19–58 yr old male psychiatric patients & female nursing students, 2504
diagnostic category & skill training program, locus of control & trait anxiety, psychiatric patients, 11000
differential use of & referral to psychiatric hospital or outpatient services, West Indian vs West African vs English patients in London, 8626
drawings of inner body, understanding of fantasy productions, psychiatric patients, 6261
early death of mother, symptoms of psychiatric disturbance, female psychiatric patients, 12945
ECT right unilateral shock, improvement in processing of sequential time dependent information, 22–59 yr old psychiatric patients, 3963
emergency psychiatric care, municipal hospitals, 6499
equity & changing patient characteristics & treatment patterns, psychiatric patients, 1950–75, 6202
ethical & legal issues in privileged communication with psychiatric patients, 2057
ethnic group & sex & psychiatric diagnosis, Black vs White vs Hispanic psychiatric outpatients, 10455
evaluation, home care treatment program, over 18 yr old acutely ill psychiatric patients, 1-yr followup, 8709
evaluation of morbidity vs mortality rate, committed psychiatric patients, 11024
evaluation of patients' decision-making process regarding informed consent to ECT, psychiatrists, 13184
evaluations of patients' competence to refuse treatment as necessary for civil commitment in Utah, 11012
excretion of xanthurenic acid in urine, depressed vs anxious vs alcoholic psychiatric patients, 1438
factor analysis of IPAT Anxiety Scale & Pinillos Personality Questionnaire, measurement of normal & neurotic anxiety, college students vs psychiatric patients, 186
family interaction, families with children who are psychiatric patients, 12971
family life variables, inpatient adolescents with school phobia vs other psychiatric conditions vs normal controls, 10457
field dependence & scores on MMPI Hysteria & Psychasthenia scales, female psychiatric patients, 1448
frequency of previously undiagnosed physical abnormalities, psychiatric clinic outpatients, 13134
future outlook vs mental health attitudes vs patient attitudes vs patient characteristics vs program completion, satisfaction, hospitalized psychiatric patients, 11005
gender & sex role identity, avoidance confrontation of existential issues, male vs female 16–50 yr old psychiatric inpatients, 3810
Grid Test, diagnosis of schizophrenic thought disorder, psychiatric patients, 12937
group discussion with acute patients, hospital discharge, chronic psychiatric patients, 6494
group therapy model, short-term psychiatric inpatients, 6507
Halstead-Reitan vs standardized Luria-Nebraska Neuropsychological Test Battery, diagnosis of brain damage, brain-damaged vs psychiatric patients, 4799
Hoffmann reflex recovery curves, 18–53 yr old psychiatric patients, 5983
hospital school program, subsequent school adjustment, 12–18 yr old psychiatric patients, 1-yr followup, 1947
hypnotherapy, psychiatric patients, 10953
identification of needs & referrals for aftercare services, psychiatric patients prior to hospital discharge, 13427
incidence of suicide, psychiatric inpatients & former patients, Sweden, 1965–66 & 1970–71 & 1975–76, 8214
individual & family & social characteristics, psychiatric patients referred to "L'Infirmerie Psychiatrique", France, 8649
individual psychotherapy, 80–96 yr old geriatric & gerontopsychiatric patients in geriatric hospital, 6229
influenza, depression, psychiatric patients, 12928
intercorrelation between Tactile scale & remaining items of Luria-Nebraska Neuropsychological Battery, normal vs psychiatric vs brain damaged patients, 9341
introversion & sex, Rorschach experience balance, psychiatric patients, 3822
iv beta-endorphin, behavioral change, schizophrenic & depressed inpatients, 1846
lateralization of neuroleptic induced dyskinesia as evidence of pharmacologic dominance in basal ganglia, psychiatric patients, 1878
legal guardianship for medication against psychiatric patient's will, ethical dilemma, physicians, 6565
legal recourse, sexual contact between psychotherapist & patient, 13482

lithium carbonate, thyroid function, 16–79 yr old patients receiving lithium carbonate for 6 mo or more, 10929
locus of control & age & length of hospital stay & staff perceptions of client satisfaction, satisfaction with hospital services, psychiatric patients, 4161
lost-letter technique, social responsiveness toward mental patients, general public vs psychiatric hospital staff, 8166
Markov chain model, prediction of psychiaric inpatient utilization by age group, psychiatric patients, 4875
medical evaluations, psychiatric patients, 6192
MMPI personality correlates of response to lithium carbonate, 20–71 yr old psychiatric patients, 1834
MMPI scores indicative of psychopathology, male psychiatric outpatients without sexual dysfunction vs premature vs retarded ejaculators, 3925
MMPI standard vs modified F scale & behavioral ratings, Black vs White psychiatric patients, 4829
MMPI vs D. Offer's Self-Image Questionnaire, measurement of personality dimensions & psychopathology, 14–21 yr old patients, 9332
model of risk of falling, psychogeriatric patients, 1366
monotic click, facilitation of RT, affective psychotic vs schizophrenic vs other psychiatric patients, 5935
mortality rate prior to vs post psychotropic drug use, psychiatric inpatients, 11003
motivation to continue job in regimental environment, degree of disturbance, 19–44 yr old male psychiatric patients, 8147
music in sociotherapeutic club, emotional expression & resocialization & social interactions & self acceptance, mental patients, 1681
name change, gender dysphoric patients, 12938
neurophysiology & biochemistry, augmenting-reducing response in visual evoked potentials, 22–70 yr old psychiatric patients, 13012
New England Psychiatric Rehabilitation Training Program, vocational rehabilitation counselors who work with chronic mental patients, 11071
nitrazepam vs triazolam, 19–20 yr old male psychiatric insomniac inpatients, 13319
outcome studies, deinstitutionalization, psychiatric patients, literature review, 13407
patient attitudes toward mental hospitalization, criticism of study by R. M. Weinstein, 11006
patient characteristics & diagnoses & treatment, outcome, adolescents in general hospital psychiatric unit, 1946
patient characteristics & response of services, patients visiting psychiatric consultation service, 8643
patients' attitudes toward mental hospitalization, reply to criticisms by M. Essex et al, 11027
patient's & therapist's ethnicity & psychiatric diagnosis, Black vs White vs Hispanic psychiatric outpatients & therapists, 10980
perceived therapeutic factors, 20–39 yr old group therapy patients & therapists, 6288
perceptions of symptomatological differences between male & female inpatients, psychiatric hospital staff, 2053
performance on psychometric & laboratory measures of cognitive processes, idiopathic dementia patients, 6021
personality & environmental characteristics, effective aftercare functioning, chronic psychiatric patients aged 30–65 and over, 1464
personality traits, edging on memory for designs test, detention center youths vs criminals vs college students vs psychiatric outpatients, 181
pharmacotherapy as intervention in psychotherapeutic processes, 28–48 yr old patients, 6188
phenomenology of cure & recovery, discharged psychiatric patients, followup, 3969
philosophy & principles of therapeutic community, soma & psyche & social situations, patients, 6455
physical disorders, emergency psychiatric patients, 8679
physical health, length of institutionalization, 18–65 yr old psychiatric patients, 8673
predictability of MMPI scales, antidepressant responses to lithium therapy, male vs female outpatients, 9326
prediction of WAIS Full Scale IQs from Quick Test scores, mentally retarded psychiatric patients, 9394
prediction of WAIS Full Scale IQs from Quick Test scores, 46–78 yr old mental health center patients, 9395
prevalence of Capgras delusions among private practice psychiatric patients, 5984
prevalence of presumed tardive dyskinesia, psychiatric patients with & without exposure to neuroleptics, 5911
previous suicidal behavior vs intensity of problem situations, suicidal behavior, psychiatric inpatients, Netherlands, 3756
problem patterns, suicidal vs psychiatric patient adolescent females, 6033
problems of deinstitutionalization, psychiatric patients, 6508
prognostic expectations, outcome of brief therapy, recipients of community mental health services, 4136
provision of mental health services & treatment prevalence, psychiatric outpatients in rural vs urban areas, Finland, 8644
Psychiatric-Organic Special Scale of MMPI, differential diagnosis, male organic & psychiatric patients with mean age of 58 yrs, 9358
psychiatric rehabilitation techniques, literature review, 8731
psychiatric treatment & rehabilitation, chronic mental patients, 3955
psychiatric vs physical illness, accidents & traffic code violations, 18–67 yr old patients, 10407
psychiatric ward atmosphere, perceptions, clients vs staff, 4157
psychoactive drugs, hypnotizability, psychiatric inpatients & outpatients, 6410
psychodiagnostic evaluative package, assessment of elderly psychiatric patients, 13202
psychological correlates, group participation in therapeutic community meetings, psychiatric patients, 6308
psychosocial adaptation to community mental health center, modification of treatment strategies, chronic psychiatric patients, 8635
Quick Test IQs, newly admitted vs regular male maximum security hospitalized psychiatric patients, 2514
Quick Text scores, prediction of WAIS scores, adult White vs Black in- vs outpatients, 9396
racial differences, perception of ward atmosphere, Black vs White hospitalized psychiatric patients, 13414
rate of attention deficit without hyperactivity, 7–14 yr old psychiatric patients, 1380
reason for hospitalization & diagnosis & symptoms & length of stay, male & female patients admitted to general hospital psychiatric service, 1944
recall on dichotic listening task, psychiatric patients with vs without brain damage, implications for hemispheric assymmetry of language functioning, 13160
reciprocal analysis of acute symptoms & MMPI test data, diagnosis & therapeutic decision, psychotherapy clients, 6253
relationship between color preferences & adjustment, psychiatric patients, 3775
relative fertility, female psychiatric 1st admissions, Norway, 8165
reliability & factor analysis of Social Anxiety Inventory, measurement of social anxiety & skill, 18–67 yr old psychiatric patients, 7036
reliability & item scale consistency of Luria-Nebraska Neuropsychological Battery, normal Ss vs psychiatric vs neurological patients, 174
reliability of peer social behavior rating, socially phobic patients, 10478
reliability & validity of Beck Depression Inventory, measurement of depressive symptoms, 12–16 yr olds with psychiatric disturbances, 4835
reliability & validity of Interview Schedule for Social Interaction, measurement of availability & perceived adequacy of social relationships, Ss in psychiatric clinics vs physical rehabilitation vs club for elderly, 11648
reliability & validity of Life Satisfaction Index, 55–66 yr old normal males & psychiatric patients 55 yrs & older, 7023
Revised Kendrick Battery, assessment of cognitive functioning & change & diagnosis of organic dementia, long term elderly psychiatric patients, 4786
reward of patient's care-taking vs sociable vs achievement behaviors, psychiatric patients in inpatient ward vs day hospital program vs day center, implications for chronic illness behavior, 6024
ridge regression, mean square error of prediction obtained with ordinary least squares for MMPI profiles & diagnoses, psychiatric patients, 7117
role of counselor, maintenance of antipsychotic medical regimen, psychiatric patients, 4103
self actualization & ability to confront personal mortality, 21–63 yr old mental hospital patients & persons in helping professions, 12962
self ratings vs ratings of juvenile delinquent vs popular vs emotionally disturbed teenager labels, delinquents & adolescent psychiatric inpatients & high school students, 1363

serum cholesterol levels, 18–30 yr old male psychiatric inpatients with antisocial personality vs alcoholism vs drug abuse problems, 12932
sex ratios, siblings of psychiatric patients, 1433
significance of names in dreams for eliciting associations leading to previously unacknowledged material, psychiatric patients, 1732
size of community treatment facility & length of stay, psychiatric patients, 13388
skills related to performance of visual items of Luria-Nebraska Neuropsychological Battery, patients of mean age 40.38 yrs with psychiatric disorders vs brain damage, 9342
small group discussion & explicit audiovisual programing, reassessment of sexual attitudes, former psychiatric patients, 4182
social assets & personal & social functioning, 18–55 yr old psychiatric patients, 5966
social class, diagnosis & prognosis & treatment & family structure, 14–18 yr old adolescent former psychiatric inpatients, 2-yr followup, 3797
social class & sex & in- vs outpatient status, patterns of psychopathology, 12–18 yr olds, 6020
social-recreational programs for nursing home care, psychogeriatric patients, 4163
sociocultural class, different psychiatric morbidity, male vs female psychiatric patients, France, 4004
sub-syndromes of tardive dyskinesia, psychiatric patients, 5914
suggestions for dosage & frequency & injection site of perphenazine enantate to minimize occurrence of abscesses, neuroleptic drug therapy patients, 6411
syndrome of inappropriate secretion of antidiuretic hormone, 25–63 yr old psychiatric patients with water intoxication, 1374
systems approach, management of violent behavior, outpatients in psychiatric walk-in clinic, 8652
test administration method, enhancement of psychodynamic potential of human figure drawing tests, psychiatric patients, 13185
therapeutic techniques, treatment of chronic psychiatric patients, 10817
thiopentone vs methohexitone as anesthetics & benzodiazepine during treatment period, duration & number of seizures in ECT, 21–65 yr old psychiatric patients, 6214
time-limited group psychotherapy, self improvement & self esteem & goal attainment, psychiatric inpatients, 6287
token economy program, independent living skills, geropsychiatric inpatients, 8698
token reinforcement procedures, cigarette smoking & reduction maintenance at 1-yr followup, psychiatric outpatients, 13451
transfer of patients from involuntary to voluntary commitment status, circumvention of judicial hearings, psychiatric hospital staff, 4160
treatment manual for social skills training for chronic psychiatric patients, 11002
Umbanda vs psychoanalysis, interpretation of mental illness, psychiatric hospital unit patients & their families, Brazil, 5993
unrecognized medical illness prompting psychiatric admission & diagnosis techniques, psychiatric patients, 4165
use of Mini-Mult profile signs to identify appropriate psychotherapeutic drugs, community mental health center clients, 11688
use of test battery to predict suicide potential, hospitalized psychiatric patients, 9417
validity, Ryle Marital Patterns Test, married psychiatric vs family planning clinic patients, 7060
validity of problem-oriented record system, assessment of patient's change of status, 18–60 yr old nonpsychotic patients, 10796
verbal vs nonverbal & cued vs noncued retention measurement methods, retrograde amnesia following ECT, 38–61 yr old bilateral ECT recipients, 6205
visiting, length of hospital stay, psychiatric patients in general hospital, 6488
visual evoked potential & serum dopamine-beta-hydroxylase & augmenting-reducing responses, psychiatric patients, 1495
Visual Organization Test, measurement of organicity, 15–49 yr old normal Ss & 16–71 yr old psychiatric patients, 7080
ward rating scale, long stay psychiatric patients, literature review, 177
willingness to participate in high vs low risk research, psychiatric vs medical patients, 4259
working principles & value of hierarchically structured therapeutic community, nonaddictive patients, 8469

Psychiatric Social Workers
personal background & training & education & salary & attitudes & treatment roles, psychiatrists vs psychiatric social workers vs nurses vs clinical psychologists vs mental health workers, 6545
stereotyped & evaluative attitudes toward mental health disciplines, psychiatrists vs psychiatric social workers vs clinical psychologists, 8763

Psychiatric Training
